

Negative Immigration: All Caused by the Jew

Greetings to all our Family.

Immigration, as most of you who know history know, is not normal at all. Immigration follows wars, famines or impoverishment. Nobody quite immigrates because they really desire to do this, but because they are forced by external reasons to do so. Traveling is completely unrelated to this. Most if not all people have fun and enjoy travelling, which is definitely healthy and sane. After all, we Gentiles like to see what our comrades have created, don't we?

The enemy does this on purpose, to destroy healthy nations, infect those who are doing well, and in the end, destroy the immigrants in most cases. The most blatant example is the African continent. The enemy, who did the Black Slave trade, they went in. They made their torturous industry and anything else, drowned all Blacks in impoverishment and then, they made them to migrate forced and as slaves. Still people living there nowadays are living fucked up, because the jews wanted "diamonds", "furs", "slaves" and the "oil" market.

Nicola Tesla was indirectly murdered, while he could have solved all the world's energy problem, with free and easy solutions. But the jews must do anything to expand profit. The jews call money "relationships". It's like taking energy parasitically from a relationship to them. The jews are parasites and aliens, so to them, making "wealth" is not about enjoyment, even if they project this to you. In the far back of the mind it's simply empowering their own parasitic race, gaining more power over unspiritual Gentiles and the list goes on and on. They will do anything for this, and history has proven, they stop nowhere.

In the present you all see how immigrants are being used as a vicious weapon against Europe and other places of the World. These people live in horrific conditions, as the enemy enforced Pisslam and anything to these people to keep them low physically and spiritually. These people once did built Babylon, they were masters in meditations, advanced and preserved sciences and so forth. They are not "fucked" up at all, as many fools state. They are commendable Races and peoples, who have built a paradise of themselves. The enemy attacked them ruthlessly and destroyed them, to put them in the list with the other Races they have made extinct. Given they are mostly "over" with them, they are using them to attack others.

The same is done to fellow black people. The enemy is using Gentiles against Gentiles and manipulates from all sides. Your Earth should belong to you. Obviously, there are evident "spaces" where each race and each nationality should live on Earth. This was once the case. Now, the enemy malformed everything and fucked up everything. The thought that "your soil is not your nation" is a Jewish idea, coming from the Frankfurt school of thought. The Jews basically project what they have in their own mind. They are, as Hitler stated, a rootless clique of hyenas, that simply move everywhere and devour their enemies. They go to a rich and good place, use this place as a host, drain everything, then at the late stages, they make sure this whole place is destroyed, and they leave to the next place. This is all around how they act and it's in the Bible. Those of you in the Races that are attacked right now, White, Black, Chinese, Arab, whomever- prepare to take the lead of your Races. You know most, you are the most spiritually advanced, you are the prominent paradigm for your people.

How "Abraham" goes to the best cities of the Ancient World, in Edom, Egypt etc., then these are smote down by "God", when "Abraham" stole all he had to steal and seized what he needed. Then, the story goes and goes with the same, until the kikes are established somewhere and this state acts as a shield for all their parasitic actions. When they succeed, they completely take over or leave if they can't take over, or they are unwilling. This phase nowadays is named "Communism".

The Jews work in a very obvious way. First, they write some nonsense it's supposedly the word of "god". This is a recipe for world domination by the kikes. Then, they use the spiritual means to enforce this thing. Then, they program the minds of people, through all sorts of manipulations, to open to this. They inject the images and this "future" into their minds. They then prepare and when they are ready, they materialize and execute what they said would "happen" in the word of "god". The unsuspecting victim knows nothing and they think it's an "act of god". They repeat this with everything until they are reaching the final stage: Jewish World Domination and Order. Which is Communism and implies every Gentile will either be enslaved or die.

I will add more when I have the time, but for now, USE your mind. DO NOT let some kike on the sky think for you, as the rest of the asleep Gentiles who they call "Goyim" [Animals in Hebrew]. You are a Son/Daughter of the Gods, for fuck's sake. Wake the fuck up!
