

Satan Answers the "WHY" of Europe's Peril

When people try to analyze the European situation, they always do so from a sociological or some other scope of thinking. Exactly as indicated by the things that they already 'know', 'expect', or 'consider normal'. All of which are created from the same minority that guides their thinking. It takes heretics and the children of the Devil to again, say anything, and shine some forbidden light on the REAL "WHY" of this situation.

As for the 'normals', in desperation they live. They listen to some jew on "Youtube" to "Explain" it to them, even though it's their tribe that is raping Europe right now. Misdirecting them all day, living in pipedreams, these people have no clue as to why this situation is going where it does. Rape after rape, and murder after murder, betrayal after betrayal, and cover up after cover up; Europe continues to perish every day.

What the jews and their lackeys are doing is just trying to win time for themselves. The same thing also does the media: WIN TIME. When enough of this Islamic mob is in, when enough time will have been wasted, off will go the hand of the jewish signal, and in war the armed Islamic mob will go. It's **that** simple.

The "Comfort zone" of death and the imaginary death it brings, is too scary anymore. Even more than real death. So deeply have the jewish psy-ops platted themselves in the mind of Europe.

This can only go that far to explain all this unnatural, drugged out, pacifistic and masochistic behavior in Europe at this point. Why?

Only Satan has stated the TRUTH about this, and only SATAN cares about Europe, or the world at large.

See around you why Europe is in the mess it is in. Simply put, because of "Christianity", it's slave morality, and massive magick of the jews, and all the norms they push. **That's it, here is your so-called "Answer"**. The core answer is revealed. The leftovers of christianity do breed all the rest of the problems. This works to the point of "DISCOMFORT". The slave feels UNCOMFORTABLE

to judge, or even think against its imposed slaver morality and 'religion', imposed on it by force.

The jews have done the same thing to christian and muslim Africans. "If you don't accept the tenets of your slaver, then you are not a slave! This is the moral thing to do! You should be ashamed if you don't, Goyim."

All the beings of jews, and those who push their agenda, obviously or less obviously, they make eternal turns around themselves. "This mediocre solution will solve it!", "Wait for Trump!", "Jehova Save Us!", "Await a Chosen Rabbi!", "Do you think this jewish philosopher can help us solve it? He has some sociological explanation! We just suck from birth!"

With "Christianity", you are not allowed to kill even if you are to be slaughtered, "God is ONE", "Allah and Jesus are One", "You must Obey the Government", you must "Help the Weak and the exploitive without asking questions", or for a better term, those who the jews tell you are the 'weak'.

The Weak are the strong, and the strong are the weak, today. Europeans are RULERS of their OWN countries, and somehow, this total jewish inversion of values, supports that the invaders, rats, and freeloaders are the 'KINGS' of their country.

Christianity tells you to screw your nation, screw everything: you are a citizen of the global empire of 'god'. Christianity doesn't care about borders, and of course, its communist teaching, even if christianity dies off, always remains.

Getting into the occult waters, one can see how christianity, the jews, and all the mass propaganda do work in a 'magickal' way, as if it was 'god's plan' to destroy Europe. Of course, Europeans demoralized try to run back to a rabbi called "Jesus", the rabbi upon whose name their Pagan and Ethnical heritage has been destroyed.

Little do people see that the all the acceptance of human rot, injustice, and loving your murderers, is taught by this rabbi who hangs upon the cross. The original teaching of the jew, the original mind trick, later was passed down by its own tribe, and was mistranslated in pseudo science, made it in politics, and bled itself everywhere.

At any point when European Races had it good, or at least made an impact on this world and affirmed themselves, was either under the admitted-by-xians

"Pagan" or "Satanist" Adolf Hitler, or in Rome. Rome was destroyed by the Flavians who were a jewish owned clique, and of course, Christianity. Christianity with its loose and slave morality, created all the population to be cattle, and therefore, defenseless against their culture being destroyed by the culture of others.

There are, lastly, those who argue that Europe has had Christianity or Christianity has made the West. Which is a laughable statement for those that know history. Of course, this hoax has been created by the Vatican church which has rewritten history, and by jews who are acting like they teach the European "Goyim" about their so-called "Christian Heritage".

No European person has any "Christian Heritage" any more than an enslaved person has their religious 'heritage' imposed upon them by their slave masters. The jews imposed Christianity on the "West" after they flattened the Greek, Roman, and European Native thought, tenets, religions, and lastly, Europeans. Europe was as a result plunged into closely two hundred years of consistent warfare, brother against brother, state against state, until the jews made enough "Capital" to buy themselves into politics.

When they did, they shortly took control of Europe in full, as an international entity. This has been going on for around three centuries now, and for three centuries, Hitler's Miracle aside, Europe has been run by the jews with the Europeans being only cattle. To the place where the jew was not present, he has left the seeds of his communism, and his oldest, abrahamic, jewish imposition of "Christianity".

Lastly, be warned. Only Satan will lift his hand to save Europe, and save these people from extinction. Look around Europe: all these stoned, lost people going absolutely nowhere. The falsely 'awake' are nothing but weaklings that will not in any way act to change anything: they are awaiting some "Savior" like "Rabbi Jesus".

Again, only the Children of the Devil will try to save Europe, like they did in the Renaissance by re-affirming power from the jews, and like they did in the Middle Ages by fighting the pest of Christianity that has overtaken Europe. The Old Gods Re-emerged.

The final re-emergence of the Gods will be total, and it will be a death or life situation. This time, there will be no mercy and no compensation for rats and imbeciles. If someone is to call themselves European, and if someone believes

they have White Blood in their veins, and if this place is your home, put Race first, throw Rabbi "Jewsus" in the trash can, and join us to fight with spiritual warfare against the enemy. At the very timid of senses, become "Pagan", if you can't call Satan by a scary name. Call him "Daddy" if it fits you, maybe.

However, what is coming is not for those who seek to fit everything in their own fears. It may be terrifying for those who do not understand or see how history operates. All this chaos and violence unleashing above Europe, will only result in a similar reaction.

Spiritual Warfare, Propaganda, and Spiritual Awakening are the first steps that need to be taken in order to ensure Europe will not become a Sharia Zone, with Rabbi Jewsus clapping above her corpse. The same goes for America.

As for those who have the slightest thoughts about if this will be successful or not, just remember, we have had some of the most powerful and the most formidable empires in human history. There is nothing keeping Europe back from doing the same within our border again. People need to get their game up, and stop feeling like a worthless individual. Rather, be part of this, even if others are not.

"Satanists", "National Socialists", and the rest of the "Evil" forces will again save Europe and flatten its enemies. But isn't Good and Evil in reverse as well.

Our victory will also mean the liberation of all other humans who have been under the peril of the (((ones))) who are pushing us down a grave.

Rule ourselves again, or be destroyed. This is the choice of the future.
