

We SAVED the WORLD in the Last Three Days

HP Hooded Cobra 666

[December 20, 2016](#)

Greetings to all our People and Satanic Comrades.

Follow up with that one as I need to explain, and to many people who aren't really aware of how it goes in politic stuff, I will try to make this understandable.

As those in the Mediterranean region do know, the Turkish and Russian relations are and always were very strained. The jews who on the silent mode have been going on attempting to control both their puppets and get them to fight, and also created ISIS, have been 'staying silent' lately on such issues and letting these fight it over. Their 'terrorist' group is exactly what the jews have created to do all the dirty work for them, such as killings, assassinations, and getting large countries involved in wiping out the Middle Eastern enemies they have. They have been doing all of this in the silent.

So an Ambassador in Russia yesterday was shot. BBC and all the mainstream media attempted to push his murder as an attack of an actual Turk policeman to an actual Russian Ambassador. Which is easily casus belli, or cause for war, in a similar way of what the jews did with WW1 and killing the Serbian Duke by assassination. So yesterday the world had a choice to actually begin a full scale, WW3. We have however extremely destroyed the enemy media, to the point they attack the rest of the 2% of the worlds non-jewish outlets, as "Fake News". It doesn't get FAKER and more JEWISH than CNN, BBC and all these 'major outlets'.

These people just do jewish propaganda and antipropaganda, and mass programming- and nothing else. They hate it if other 'goyim' dare to resist this. The false media reporting could have created a WW3 yesterday, if they had the power they had once upon a time. They reported false flags such as that the 'terrorist' said things like Fuck Russia and Glory to Turkey and the list goes on (Along the lines). They reported frauds again.

Below is the video of this. Now I have a doubt if this is a real thing, but the effects of it could have well been real if things escalated differently.

[Note: Video has been removed from youtube]

Now this to people may sound entirely 'alien' and stupid, especially those living in the USA or elsewhere. However, the jews want for their protection to create the

state of Kurdistan in order to guard their own country borders with a state as a shield. This can only be done by breaking down and severing Turkey, which has tens of millions of minorities that would gladly create such a state. Because Islamic Turkey doesn't have the best relations with Pissrael, especially when it comes to the radical pisslamic sect. Which Erdogan the Islamic terrorist is actually a part of. At least on paper and where normal people are involved, the pisslamics hate pissrael.

If Jewcy Putin decided to actually make this in another way. He could carry out a full invasion of Turkey or at least drive things to a decisive thing. But the fact is the jews cannot go forward with their agenda flawlessly anymore. Or by controlling events as they once did. So they retracted this. Now they will just try to focus on wiping out the ME, which as they hoped would be done with some years ago. But still carries on and will carry on further. A reason Jewcy may not have started his act is that actually Trump is now in power. And the kikes are worried that if they take additional steps towards the Jew World Order they are going to be destroyed. They have already revealed themselves for the element they are.

One of the greatest Talmudic Rabbis of the poo race-ever, Vilna Gaon, has 200 years ago 'prophesized' about this even of Russo-Turkish War. Which will actually trigger a so-called 'Armageddon'. These 'prophecies' are put into the Greek and Mediterranean (orthodox) countries, as some sort of "Divine Plan" that must be carried. Little do these idiotic xians know that these are jewish plans and psyops. Which the Gentiles will be fighting to create. OF course, the animal goyim idiots are following suit, thanks to spiritual ignorance. However, thank Satan our Rituals have halted this.

What had this top kike prophecy in regards to that? Remember, 'prophecies' in the case of jews are nothing but psyop spiritual programming. And workings they do to succeed in establishing the JWO. Nothing else.

Rabbi Vilna Gaon, "When you hear that the Russians have captured the city of Crimea, you should know that the times of the Messiah have started, that his steps are being heard. And when you hear that the Russians have reached the city of Constantinople (today's Istanbul), you should put on your Shabbat clothes and don't take them off, because it means that the Messiah is about to come any minute."

Now granted the Torah works akin to a computer that is programmed, imagine if such event was to happen with Hillary on power. That had an 'anti-Russian stance'. Remember, they are all jews and they are on the same team. However, the thing is, what they do, actually affects the world and the masses. Which then even if something is wrong it can be materialized anyway by their beliefs. Trump

winning the election has the kike system pulling its hair off and this is not fake panic. They are worried because this worthless shabbos right now was actually the plan B of the jews, whom they would want up in case they wanted to just get additional years without much 'muh Greater Israel' behavior.

Delaying greater Israel, with Satan's influence spreading, and people massively waking up to the jews by the thousands every day is deadly for the enemy. Years of this thing and soon the whole planet will know about them. Losing time is something the jews do not want in any way in this case. But 'muh wants' don't seem to factor in as much anymore.

However what remains is that more countries will get involved to 'fight' what Pissrael has created. I.e., "Radical Islamic Terrorism". The thing that this 'battle' still exists is however an omen that Pissrael really cannot pull through with all its decisions. They just wanted to decisively destroy these ME countries and gradually force expansion. But they fail. Requiring worldwide help that is becoming bigger and bigger.

In conjunction to their general fall in the west, and the fruits of the jewish created 'immigration crisis', plus all the false flags they do, they are being revealed and they are digging a large hole for themselves. And they will not stop because being jewish that's impossible to them. A time will come where the fact that the jews are evil will be as plain as the sun at some point. Which it already is if one looks beyond the cloud.

So we have saved the world with the RTR's. Don't disbelieve. We are actually making extreme and excellent progress that hasn't been seen in thousands of years time, plus.

On another note, the Vatican and the judaism it represents are also collapsing. All White people are coming to intensively hate xianity, the kike pope, and everything else. People are also largely indifferent anymore, especially the younger generations. By the next decade, the power of the church will be on the extreme collapse, given science will on its own destroy the church after a point. While the jews have tried to pull the 'christian traditions return to the stable of the goyim culture we created for you, christianity' card, people aren't swallowing that pill. Only the older generations do and that is because of mass brainwashing.

The next RTR schedule will be lasting for at least a month. We will in the month change a few things here and there, but we will stay with stable workings to bring down the enemy jewrix on certain things. Like we did and we destroyed the media. Which we will only continue until nothing remains out of them.

With all of the above, be proud for yourself, and give yourself a pat on the back, because we have been altering history for the better.
