

About Password Retrieve in Forums

High Priest Hooded Cobra 666

[December 03, 2022](#)

Greetings everyone,

So every so often now [40 days or a month] one might be asked to change their password. That's for security measures and in case anything gets attacked by the enemy.

I know this might be a little inconvenient, but it's kind of needed. So try to use a password you remember, and then change it at the given interval.

Recently it appears also the password retrieve mechanism is not working for those who registered with Protonmail. We are not sure why, maybe it is triggering a spam filter. We are looking into this and will implement a solution.

If anyone has account access problems, please do email at: cobra.army.666@protonmail.com so we can restore access or manually send the retrieval e-mail.

Thank you and sorry for this inconvenience.
