## **Update 26 July 2022**

Greetings to all of our SS, more updates and expansion is happening.

1. JoS Icelandic will be added. Please email at [cobra.army.666@protonmail.com](mailto:cobra.army.666@protonmail.com) so we can begin the creation of the sites.

2. Any new or previous translations that have not received infrastructure or domains, PLEASE mail us to resolve it. VERY IMPORTANT!!!

3. Joy of Satan Danish is being finally restored and will have a dedicated forum, in our forums here.

4. Joy of Satan Romania will be moved to a secure server. Romanian translators team will be notified and will begin working when this is done.

Due to certain responsibilities, this might be 10 or 15 days so we can work this out. Site is currently working.

5. Our Joy of Satan Czech and Slovakian communities will have the same site, but their own exclusive domain due to languages being almost identical. Translation teams will be combined.

---

## **Update 20 July 2022**

Many new sites and translations have begun. Soon, the Czech and other translations will begin. To check the progress, please look below.

Members who have sent e-mails to be appointed to teams will be appointed to teams. Eventually, all teams will have been mailed and all projects will proceed.

Due to some being very far forward and others just starting, a lot of organization is needed, so please be patient. Everyone will receive e-mails and be put in the teams.

---

### **Update 16 July 2022**

BELOW IS THE PROGRESS LOG FOR THE SITES, I UPDATE IT AS THE WORK IS TAKING PLACE

What is now taking place is the collection and formation of the translation teams. Those who have mailed showing interest, will be assigned to these teams and then on each respective language, people will be able to start translating new material.

Some will be mailed immediately [each country has different needs and the projects are on different levels]. For other Nations, it will take a while. For example, with the Romanian translation which is mostly complete on the main sites, we are moving them and doing some necessary work. When this is done, these teams will be notified.

I will personally notify the members who have shown interest through e-mails. This is all a huge workload.

To organize properly, this takes time. If you have sent an e-mail and it's not received, do not worry, we will assign you and contact you to join the projects soon as everyone who has shown interest for a language is already in a translation team. Certain Nations have a lot of people working on them, so one will be there to do more translations besides the already existing sites.

Thanks to everyone, and please be a little patient.

I will constantly update this thread with new ongoing developments, which everyone can check below. Currently, three National teams have been assembled and more will be assembled.

JoS Zulu and JoS Swahili, JoS Danish, etc have had their infrastructure made, in a few days at best, everyone will be given translation credentials.

Jos Philippines is next up, there is a long list of work that is being done. Some translation teams have been e-mailed already to start dividing the workload and to start working.

## **Original Post**

First and foremost I want to thank every person who has participated, directly or indirectly, and giving the Truth power to expand. We are doing as I have related in another topic. We are steadfast and moving forward.

In this topic, there will be a list so that people can know what sites exist and how you can join.

None of this would be possible without those that work for this, directly or indirectly, and those who donate or do the necessary work for this - MAY THE GODS BLESS YOU ALL!

To begin, I want to THANK EVERYONE WHO IS STRONGLY MOVING FORWARD TO DO A GREAT WORK FOR THIS WORLD AND FATHER SATAN!!!

I am going to give a big gift to the community soon because of this. This also relieves me and gives me courage to do better work myself. Anything everyone does, I will give gladly back in knowledge and help in spiritual information, updates and all the rest which has already been the case.

The more we help the Gods, the more we will help ourselves and each other.

We have an amazing family and we are showing this clearly. We have a lot of beautiful and constructive work ahead of us, and we will succeed at it. The world will be at benefit from this, and we ourselves will be rewarded in the eyes of the Gods for all we do, no matter how little or how small - because it all matters extremely much.

Some translation projects, are under dangerous territories where censorship is rampant. Everyone who contributes and helps JoS must know that we are taking all necessary measures to protect our Brothers and Sisters who do work from suppressed Nations.

We provide everything necessary and possible to help another SS in this troubled region through a VPN and so on, protecting them and their location, anonymity and so on. We handle everything for the maximum safety of those who bring light into these dark regions of the world.

For those who might be worried about certain places in this world: you should not be afraid. Certain regions like Iran and China also do desperately need the Truth.

We cannot move back from this because these Governments are terrorists against their own people. There are many people in these Nations who are helplessly waiting for a solution for living in a spiritual prison, that only if we translate and fight this war, we will be able to provide them.

WE are the people of Father Satan and the Gods, and we will be those who will be the Lightbringers to the Nations and the people must know the Truth.

The Joy of Satan will fight for the right of all people worldwide to know the Truth, how to meditate, and to advance spiritually and know the Gods. It is the right of all human beings to know these Truths and no government can alienate them from this right.

Translators from enemy regions are doing a very important task, the Joy of Satan will make sure you do the least and work simply and carefree, while you give the most to your people, and we handle the rest which is the dangerous things.

In regards to some translation projects that you think you can participate, please do mail at [cobra.army.666@protonmail.com](mailto:cobra.army.666@protonmail.com).

If I have told you you will be contacted and you have not been, please contact again [too many e-mails, doing my best to be 100% effective].

Some translations teams are ready, but others will be ready soon, others are formed, so one can join. Everyone can work in accordance to their pace.

Some languages have not been accommodated yet into sites and infrastructure for doing this work [see end of this post]. These listed are being made now. Others listed on the upper section are now done.

Contact me so that we can make this happen, and one can start spreading the Truth to their people.

**NOTE: ALL OF THESE COMMUNITIES WILL BE GETTING THEIR OWN FORUMS [INSIDE THE JOS] AND BECOME FULLY FUNCTIONAL COMMUNITIES.**

## ***WE ARE OPEN AND READY TO START MORE TRANSLATION PROJECTS TOO OF COURSE!***

Anything one needs will be given - all you have to do is merely take the initiative to translate and act as a lightbringer for your Nation, or join the already existing teams.

All of this rests on the hands of our community to achieve. We must bring our own people to the Truth. We will not stop until all of this is achieved. The Joy of Satan on a leadership and guidance level will do everything that we can, but we must work collectively on a community level to accomplish the vision that the Gods have set up for us.

As I related in another post, this is a wonderful opportunity. Just think that by the work of our own hands, little by little, we will change everything and manifest their vision.

We all must simply do our part and distribute our responsibilities, until we create this joyous world where the Gods will be known everywhere once again.

Please bear with us as we make all of this. If there have been any unanswered e-mails, or requests, please contact me again: [cobra.army.666@protonmail.com](mailto:cobra.army.666@protonmail.com).

If you are a translator and are stuck/experiencing problems or need any other help, let us know too. We will do our best to help.
