Greetings to all of our Satanic Warriors!

I have taken many hours of work here to re-upload and get the RTR's running and back up. They are to be found here. There are never enough hours in the day for what is required to be done. 24 hours is like 20 minutes after a point with the workload. However the objective is done, the RTR's are up, and here follows the RTR Schedule.

One must also never forget... The RTR's were specifically shut down by the enemy gang. This shows their obvious shrieking fear in the RTR's. All our websites are under consistent fire. Why? In the internet there are hundreds upon hundreds or billions of pages. Rarely there are 'shutdowns'. On our own webpages it's a different story. One easily understands that the information here is of immaculate importance.

We must honor this and save the info, and also participate in what the Gods want of us to do on our end - spiritual warfare. This helps them do THEIR end which is the half the objective.

Everyone must participate. There are no exceptions in this. If we sleep on the future of this world, rest reassured, this world is going straight to doom. I hate to do this and I avoid doing this most of the time, but with the recent developments such as artificial intelligence (and those in power monitoring this) and many other 'inventions', 'policies' and the deliberate attempts of those if power to enslave the populace, if you sleep on that, you will definitely go down as a world. We need to keep pushing the wheel to steer this world into another direction.

We have proved many times over that we can do this. Thoroughly.

The more we do this, the better. There are good prospects for the future and they must not be lost to the morbid ideas of a few disgusting individuals and/or the enemy agenda.

The enemy's goals which are their spiritual blueprint, have this world headed for complete annihilation - any death, any annihilation, every destruction, so that they will achieve their purpose. This is their 'Torah', this is their 'magick' and this is the occult web in which they have clothed the world. It's our job to destroy this, and we have been successful up to now.

I will also write a comprehensive guide on how one can, by many times multiplied, empower the RTR's.

The enemy is losing ground, but the enemy must be destroyed spiritually and must completely collapse. Then their spiritual existence has to be eradicated completely.

At some point there will be some new RTR's coming up, one or a couple. If they come up during the schedule, we will inform you and make the necessary changes.
