

# The "Kaaba" Idol Stone

Let's get into this diseased thing so we can see what this "Kabba" is about.

First of all, everything in these places and in Islam is stolen and corrupted from Sanskrit. Even "Allah" is a word for "God" that came from Sanskrit. As with everything else, it was stolen and corrupted. Their prayer that is 5 times a day, also has its roots in the East, where one has to meditate for short intervals 5 or more times a day.

One has to get on their knees, turn to the direction of the "Kabba" and channel their life force, adorations and energy, while meanwhile, the islamics are actually worshipping this Idol their whole existence- only to claim they have "no idols" in "Islam".

But what is this "Kaaba" stone?

First of all, the name of this foul stone is stolen by the "KA-BA" which means Soul. KA- BAANKH, the Egyptian parts of the Soul. Ka and Ba are the male and female parts of the Soul.

The stone itself has been destroyed and reconstructed many times over the centuries. It no longer represents the Sumerian or the Pagan stone it once did, and definitely like the Pyramids, this was a monument of splendor. The uneducated slaves in the Middle East would never figure out, that the jew, bit by bit, stole their original Pagan religion, and replaced EVERYTHING with a HOAX only for them to get benefits. As thus, the jews are now wiping them off the face of the Earth, driving them out of their countries, and will soon, unless people change their ways, decimate them after they have thoroughly used them to wipe out their White enemies.

Back to the "Holy [Excrement] Kaaba". Only the "Royal" [jewish] Saudi Arabian family has the key "into" the Kaba, and they go in the Kaaba to "Pray" once a year. Or let's say, get the amassed energies through prayer, to bless their endeavors and the alien hoax behind this thing.

The color Black is just because, the black is a color that draws energies in. This makes sure the Kaaba is more receptive to drawing energies in.

Inside this Idol Kaaba, there are "Verses" written. Carved on it. These are verses like the bible, which have to do with the conquering of Islam over the world, praise to the (((Royal Family))) and the list goes endless. In short, like the bible, this foul box is charged with energy, and then the inscribed verses on it, do gain power and form realities accordingly. This is the same as charging any other talisman.

Kaaba is technically a shape for the Christian Cross. It's the same thing.

The Kaaba is just in the shape of a "Human Soul" at least in some ways. Normally, this is definitely copied from the Sanskrit and Egyptian religions, and made into Jewish and alien ET driven meant to enslave humanity.

There are 3 pillars in the Kaaba. These pillars symbolize the Ida, the Pingala and the Shushumna accordingly.

The three "levels" on these pillars, are actually meant to symbolize the three levels, hip chakras, shoulder chakras, and the top of the pillar, the crown chakra. The bolt upon which these bells and resonating things hang, are to symbolize the Mantras and the Vibration. The "Cube" on itself is the supposed "body" of the Soul. The pillars have one thing from which the bells hang, which is meant to symbolize how the three pillars connect on the level of the head.

On the corner, this foul stone, has an actual VAGINA. Now tell us about the enemy alien ET's being ironic and laughing in the face of humanity, because they do. While a stone vagina is being worshiped, which is the Divine Yoni, all women are beat to death in these countries. However, this of course has a positive effect on this alien structure, making it a "Feminine" and as thus "Capable of Birth" statue. The energies are drawn in from the "Black Walls" and then, the "Vagina" gives actual "birth" to things. Black is also symbolic of the "Dark" part of the Human Soul, the creative principle.

Mudslimes have to go around this foul stone 7 times, symbolizing the 7 Chakras the creative energy has to cross to go to the crown.

The stone in the Kaaba, some say it's a meteor, some say it's a normal and generic stone, there are many opinions. What is known for CERTAIN is that in this foul stone, the enemy has stolen a rock of Egypt, which is probably meteor stone, and is specifically inclined to help with materialization of desires. People that attempted to even investigate on the stone, were assassinated, killed or just driven away. No scientific observation is allowed on this stone.

So what is this stone?

A structure on the shape of Soul, that contains verses (engravings), symbolizes the Jews and the (((Royal Saudi Family))) and billions worship this thing daily, and charge this. Of course, the verses certainly do contain the enemy nefarious ET's, so this is what this is about: People charging their own destruction. Of

course, there are tie-in's and links to everyone, including the foul Koran, which is also charged.
