Greetings to all of our Satanic Warriors,

I'll keep this message brief so it's read and acted on quickly. One can start today, in the 20th. We will be doing rituals from the 21st to the 24th. This is a rather mediocre planetary configuration [except of the 21st], but, due to the importance of the 21st, rituals done will regardless have power. 21st is a great spike for us.

Dates and the correct timing are important. To go about this simply, many people assume power is about spamming things. This is not always the case. Timing is extremely important, almost as crucial as the work itself. "There is a time on heavens for all things".

Going on the wrong time is equal to doing something with largely minimized power. Doing something spiritual on the correct window, can empower something as many as 100, 200 or 1000 times stronger than when done randomly.

The idea that one needs to shoot a million rounds to hit a dummy target is, generally speaking, false. A few can suffice. Timing and knowledge of natural cycles eliminates much of the otherwise indefinite and/or extremely lengthy effort to achieve a goal.

The Ritual we will be doing will be the Race Awakening Ritual. The Final RTR must also be ramped up with many repetitions for the next days. The enemy's attacks have been rather unrelenting, but also, their spiritual power has been breaking more and more.

We are in mid 2020, and until 2021, things will progressively heat up on many things. I am not fond of believing personally that something random is going to happen and the world will just move into some make believe perfection into a few years. One has to be naive. No large scale change has happened without chaos involved, and without progressive accumulation.

The internet itself, and everything in it, remains under siege, a situation which started in an ever increasing fashion around 2 years ago. As it's to be expected, this will definitely escalate. The era of information has been so far the era of the exposure of the enemy.

I would rather not go into details, but just know, everyone will be protected, and the Gods are looking out for everyone. Protect yourself also, learn from things that happen, and take your lessons to mean something for you. Build yourself up also.

Soon, there will be decent planets to proceed with other rituals everyone needs and has done before. We will do these also, but for now, we have to do this. 3 days is

great, and with enough intensity, we will empower already existing work done. The enemy is clearly on many cases trembling, but there is still work to be done. Nobody must be dissuaded. One lives, one fights, this is the way to freedom of this world of current affairs.

Just look on the situation with how the enemy tried to pull a Race war, WW3, global health crisis, and so forth, all in less than 6 months. They are in desperate need of fear, energy, and opportunities, which they will go into rabid for. Our work has to be done to keep the situation in ice and force the enemy back.

We stay strong and focused. Also, remember, energies that are out there from prior rituals, are there. These build on top of these. We have been doing this for a very long time, and much of it has been manifesting.

Within this context, we only have to continue, do our duty, and be more tactical and more resolute than the enemy.

Victory will follow.
