

## Anti-Semitism For Real

Anti-Semitism is a scientific term of the critical race theory which was coined by German Gentiles in the 19th century as part of the evolution of biological-social race science. This is why the Jew, Arthur Koestler, by his own admission created the false Khazar claim.

Michael Scammell wrote the biography of Koestler, and within it he reported Koestler's own statements on why he wrote this book.

His argument was that if he could persuade people that a non-Jewish “Khazar” heritage formed the basis of modern Jews then this would be a weapon against European racially-based anti-Semitism. “Should this theory be confirmed, the term ‘anti-Semitism’ would become void of meaning,” he said. According to Scammell, Koestler told French biologist Pierre Debray-Ritzen he “was convinced that if he could prove that the bulk of Eastern European Jews were descended from the Khazars, the racial basis for anti-Semitism would be removed and anti-Semitism itself could disappear.”

To attempt to confuse the truth, that of understanding Jews as a race, because antisemitism is a racial science term that understands the Jewish behavior is genetic and is based in psychobiological traits, and not merely a mental state they can convert out of at the local Church like changing your socks. So that hustle is not going to play anymore. The fact is that the Jews have proven the Anti-Semites right. By their own admission, genetic testing proves Jews are a racial genetic group:

The Jewish behaviour has never changed throughout history. From Ancient Greece to Rome, they have always been the same old criminal Jew.

Anti-Semitism was formed as critical race theory from scientific observation of the behavior of the Jewish race and their overall psychobiological traits, and the Jews have proven this observation correct because the same behaviour which Gentiles were observing from them is the same behavior they have always engaged in.

Even the Jewish, anti-Gentile, Zionist maniac, Albert Einstein admitted:

The Jews know why they are hated, and they don't care more than enough to silence their opposition to their murderous crimes against the Goyim so they can continue to prey on the cattle (goyim means cattle).

Anti-Semitism is totally justified in truth, a fact that has been verified by the disgusting Jews themselves.

Good people, moral people, ethical people are Anti-Semitic. Only the degenerates, criminals and creeps are not.

The Jews are robbing us, raping us and killing us in the name of the racial drive of Jewishness. So Anti-Semitism is the only solution to Jewish pollution.

Only by Anti-Semitism will there ever be Justice for the world.
