

# Babel

The Jewish leadership, the rabbinical elites, state in their own writings that the Torah (their blueprint) is conceptual, and thus a symbolic formula that they are taught to read. This allows the Torah's teachings for conquering the Gentiles to pass by them without raising awareness and alarm. This is why the rabbis have the "Oral Torah", which is the Torah without the cloak. Jews wrote the Zohar solely for other Jews. They tell their fellow Jews that the Torah, on the literal level, is just a cloak for the Oral Torah. That is why Judaism is occult, and also why Jews warn their own in the Talmud that telling the Goyim the truth about their religion would be the same as condemning all Jews to death, because Judaism is an organized racial criminal agenda.

The story of Babel is about the Gentiles working to build a tower to heaven. Yahweh is told about this by his angels. He then comes to earth with his angels, attacks humanity, and destroys this tower. In doing so, Yahweh confuses the languages and divides the world into smaller groups that fight amongst themselves on Yahweh's instigation. Yahweh states that if this tower of Babel is finished, Yahweh will be defeated and humanity will become Gods who he has no power over. In Hebrew, Babel is stated to have originally meant "Gateway to Heaven", but after Yahweh destroyed the tower, it forever means "confusion".

The Jewish leadership, the Rabbinical class, is instructed by their Reptilian hive they call "god" that they must remove all spiritual, historical, and cultural knowledge from the Gentiles, and divide and conquer them through Babel....Confusion. Language also refers to the language of symbolism, which contained the information of spiritual instructions for opening and transforming the soul. The Tower was the Babylonian symbol of the spine, which is the Kundalini's path to heaven in the crown chakra. The spinal column, the Meru, is still openly shown as a tower in the east. Humanity was spiritually ascending collectively through the Magnum Opus to the Light Body of our Gods. Yahweh, which is the Jewish name for their Reptilian gods, warns that this is a threat to the control system they want to create over our planet and us. The story of Babel is also a curse the Jews have placed on humanity to be spiritually bound and make it impossible for Humans to ascend spirituality. Note the key to how the Jews hold control over humanity with Babel (confusion), which binds the Gentiles to their control. The Kabbalistic world tree of the Jews shows how the 22 Hebrew letters are used to bind the Gentiles. The name of the pathways for using the 22 letters in Hebrew is called "Babel", which is the name of their curse on the Gentiles. The Torah is written in the 22 Hebrew letters with the purpose of cursing the Gentiles. Torah means "The Wheel of Darkness", hence confusion brought out of the spiritual ignorance with which the Jews have cursed us.

The Meru Tower:

What have the Jews done with Christianity, which their Torah also instructed them to create? They removed all spiritual knowledge, historical knowledge, and corrupted the languages spoken and the language of symbolism, which includes the alphabets. The original Gentile language was a spiritual language in which the symbols of each letter are instructions of how to use the sounds to open the soul. They had instructions of how to use the letters to create longer mantras for further creation. The Vedic index states that they originally had this for Sanskrit. They knew the meaning of the letters and how to create mantras with them, but now this knowledge is removed and long gone. The enemy has been in the east for thousands of years, working to subvert and remove the teachings of the Gods.

Without this knowledge, and the practices of such, Humanity is under the power of Yahweh.
