

## [Be Aware: JoS Websites Attacked Again](#)

The enemy is apparently again losing sleep over the JoS and they are frantic to do as much as possible in order to take us out even if this means a few hours or a few days.

We are aware of the issue of the <http://www.SatansLibrary.org> [and <http://www.satanisgod.org> - *update*] and we are working to solve this. This has also affected exposingchristianity.com. As things go currently, the situation may repeat and/or escalate further to other websites. We are fully prepared for everything and there is no need to be concerned at all. There is preparation for these kinds of coincidences and more.

Reality is simple and it's this: the enemy doesn't want us to exist and they don't want you [The Gentiles, what they call the "Goy"] to be lead positively, to know, or to understand any form of spiritual and the occult. These things are threatening to the enemy, and what we have been doing to them, hasn't been done in a hundred years or more.

Just consider how many people are doing spiritual warfare, and how many people were 10 years ago. We went from like 10 to 50 to like tens of thousands. This is clearly alarming to the enemy. Basically, all this is, is what THEY have been doing to us Gentiles for centuries.

It makes them maniac with hate that the "Goyim" have done an "Assembly of Satan" against them, and are basically fighting back, with successes at this also. They had a free reign of terror, death and parasitism that was uncontested, for centuries. Key to this is the knowledge that we have and that we distribute freely to the public.

Other sites, so far, are operating fine and as expected. Attacks are basically non stop, and this includes shilling over here and many other things, such as endless spam meant to supposedly, waste time of the moderators or something. There will be more measures and other SS who will be coming on board to this soon.

If the enemy has patience to attack us all day, we have the patience and determination to do the same back all day, times two.

There are SS who are advanced enough, care enough, and are willing to do anything so that Spiritual Satanism keeps going. Others, are all talk and idle comments. Those who matter are proving this with word and deed, and putting their life where their mouth is. Some people are unfortunately all good for empty words without essence followed by any deed.

In regards to the latest RTR Schedule, make sure to save it, and keep going through to the end. Attacks of course will continue and have expanded to things that I would rather not share online. Some of it is also physical. All in all, the enemy is very concerned. Maybe there will be an update in regards to this in an upcoming post, as right now time is better spent working on repairing things, which is what matters right now.

There is also a lot of good news in the midst of everything, however. We are at a position of great strength now, thanks to Satan's Grace. This will continue in the future.

Everyone will as always be kept updated, and remember to stay strong and top of meditations and the Spiritual Warfare. The enemy is facing a lot of heat.

Satan can never be stopped, and those who are truly with Him are going to prevail.

HAIL SATAN!!!
