

Bernie Sanders

Bernie is campaigning on an impossible list of promises that simply cannot be done. It would cost America thirty trillion a year for his medical promises and the American allotted budget is around three trillion. Even if every American were taxed double, it would be impossible to afford and would crash the economy.

So what is that Jew Bernie up to? Bernie is not stupid. What Bernie is doing is attempting to gain as much popularity from the people to get the position of nominee within the Democratic party. From the reports on the functioning of the party this position gives one the power to appoint anyone you wish to whatever position within the party.

Bernie is attempting to grab the reigns of power within the party to stack it with Communist maniacs probably from the DSA, which is a major support base. The Democratic Socialists of America, the DSA's whole goal has been to take over the Democratic party and turn it into a Communist movement.

The other thing Bernie wants to do is use these criminal policies as the camouflage to tax Americans into poverty and destroy the hated middle class and remaining Gentile business class in general. This is the major plank of Communist ideology: use high taxation to destroy the middle class and end the ability of Gentiles to own private property including businesses. This includes the Green New Deal, its cover for ending industry and taxing people into poverty.

Bernie is just a cunning, hateful Jew. Right from the Talmud. Jewish Communism is the Talmud camouflaged as a political movement and its goal is to create political agency for the Talmudic agenda.

However, something is happening. The majority of Bernie supporters are starting to hate Bernie as he has been outright fucking them over with his behavior in the election. And other Jews like AOC who brags about her Jewishness in her interviews has also been Jewing the Socialist types as well for the Democratic regime. She has been covering for the corruption used within the voting process against Sanders. The Bernie Bro progressives are at war with the Democratic neo-liberal, establishment and this is being an outright traitor to them.

There is also a merger of left and right starting to happen with how Trump is handling things with the crisis. This "Americanism", as his supporters call it, is earning respect from a lot of the other side. As they included reforms and action many of them have advocated for. Somehow this is the road to uniting America's political divide into an American nationalist one. Trump is a very unique leader in

being able to do what he is. American People don't win from the insane level of political division within the nation. I suspect this is why the Jews also attack him all the time. They want to maintain this division.

Makes you wonder why the so called "Party of the People" and the "Socialist" party doesn't approve a little 1.8 trillion to help the Americans for a few months. What is so difficult?

Weren't they going to shoot money out of helicopters forever to help the American people they so much care about, after a Democrat was elected? Then let's begin with this tradition RIGHT NOW! The Jewish castle in the sky promises must be applied right now in full, as the Jews themselves have promised everyone.

Wasn't this what many of their candidates have been promising for when they get elected? So why not start it sometime sooner and get the bucks flowing? Now that it's a crisis it's the perfect opportunity.

Why are the Jews not generous here? Their policies they profess for so long are all about generosity and giving people free stuff. Is it painful that the Jews have to pay from their own wealth for this? Why? That is not generous and not human loving.

And the Jews are clearly stating and repeating to the Gentiles that they are the morally good, the most generous, loving and caring people on earth, but they are now reluctant to give all their money to hordes and throw it from helicopters, they only behave that way with the Goyim's money. So why they do not practice at least in part right now? I mean they were the good people of "Socialism" and inventors of "Communism" aren't they?

I mean Jews have caused a collapse, are cockblocking relief, and what else, giving people more and more loans during the crisis like traditional money-lending practices they have been almost pogromed out of existence for doing before for aeons past?

Makes me wonder are our "Socialist" friends saying the truth for if and when their "socialism" takes over, what is going to happen to everyone, being led under people of such grand generosity such as the Jewish Tribe?

Ms Pelosi has stated that "Even if the Capitol Falls, Israel will get it's financial support", so what is the issue now? I mean the "Only people of

earth" have been safeguarded, it's only if the Capitol falls that they will stop getting stolen money to wage wars.

Is a crisis that will leave millions on the streets not much for Pelosi?
