

Christian Witchcraft

This is how basic Christian witchcraft actually works and why the enemy keeps the reality about how psychic power functions from humanity to make this deception work.

There was a well-known Yoga teacher who became a Christian fundamentalist preacher and has made his whole ministry about harassing people to not practice Yoga. He uses his testimony in order to achieve this agenda.

The deal is, he was teaching several major Yoga schools and running an ashram in a major American city and he did an interview with a local newspaper advertising this fact. A “prayer group” of Christians in the local area read this article. They then started “praying” for him 24 hours a day, once every hour, even rotating shifts for this. This Yoga teacher was already raised in Christianity and even quoted passages of the New Testament in his Yoga class with a New Age interpretation. Shortly this Yoga teacher started reading the Bible and stopped doing any Yoga practices and people started appearing in his life preaching being saved to him. He then started praying to Jesus and shortly after he became a Fundamentalist Christian.

He claims all this is proof of Christanity. It's only proof of Christian witchcraft.

This individual was already raised Christian and was still connected into this on the unconscious even preaching some New Age version of Jesus. This maintains the connection to this thoughtform on the soul. Then a group of Christian fanatics, some of whom are former Yoga practitioners so their energy is stronger, start doing a 24 hour a day cursing ritual on him for weeks. The energy then starts to connect on his soul and influence him and starts to manifest through his energy field into the material world manifesting this working against him and causing such strange events in his life which he believes is Jesus leading him to Christanity. His praying and reading the Bible just allowed this to manifest stronger and faster as it gave the energy a pathway to connect to a stronger degree and he already had connections from Christian programming on his soul. This all connected and he flipped back into full Christanity.

The Christians believe this is proof that “god” is some Jew sitting on cloud in the sky over a flat earth. In reality, it is only proof of psychic power. Christianity is nothing but Jewish sorcery that allows them to use the Goyim to manifest their working of the Bible. People who understand the occult know this already.
