

## Decoding the 666 in Kabbalah

The Torah is the encoded Kabbalah, as the Rabbis state and show. The Torah symbolically forms their world tree, and in the exact middle of the Torah, the letter "vav" is placed at the navel of the body of "god". In the Torah, the number of the Temple of the Sun (Solomon) is 666.

The Sefirot of Tifereth is the sun and is given the number 6 and is placed at the solar chakra in the middle of the tree where everything connects. In Kabbalah, Tifereth is placed out of the short face, which represents the seven Elohim, or "gods", that are the seven chakras of which Tifereth is the most important and the leader or king of them all. In Kabbalah, the entire soul unites at Tifereth. This is due to the fact still noted in Hinduism that all the male and female nadis unite at the navel. And the navel governs everything like a King governs a Kingdom.

666 is the number of the sun square. Each square is given a sequence of numbers starting at 1, rearranged into a square. The sun square is 6 by 6, containing 36 numbers, and 666 is the sum of all the numbers from 1 to 36. The seven planet squares relate to the seven Elohim or "gods" of the lower face in Kabbalah, hence this is the square of Tifereth and thus the sixth Hebrew letter "vav" is placed here.

The "vav" in Kabbalah unites things. By placing it here, they are uniting the soul by activating this point where the soul comes together. That is why Tifereth is also called Daath in Kabbalah. Daath means sexual union. It is the alchemical sexual union of the soul. Daath also relates to spirit, and the solar chakra is responsible for converting spiritual energy into vital force for the being. The "vav" is the letter of the serpent in Kabbalah and relates to the belly of the serpent. The belly is the navel point and the serpent is the symbol of the sun here. Tifereth is the energy center that rules all the other ones, as all the chakras connect to the solar chakra. In Kabbalah, 1 means 13. Some diagrams show the map of the 13 chakras all connecting at Tifereth as well.

In freemasonry, Hiram Abiff is the corner stone. Hiram is also spelled Haram, which means "The Ram". The Ra or Ram is an ancient name of the sun God, the solar chakra, and is also a mantra for the solar chakra. Abiff relates to serpent father. The Temple of the Sun in masonry is the 666 as well. It all relates to the solar chakra. The cornerstone is an ancient title for this chakra. It is also called the Omphalos. The Beast 666 is an ancient title of the Omphalos. The Omphalos had the Phoenix, which is what this word "beast" relates to in ancient Greek.

The V letter was the original sixth letter in the Greek alphabet. The Digamma was removed by the Church later and replaced with other letters and hidden away. The ancient Greeks placed a pentagram inside the serpent circle with 666 under it to show the Magnum Opus. The Pentagram in this fashion relates to the solar chakra which is the "sun or son" of the serpent goddess Venus being born into the world. This is the reborn soul and how it relates to the transformed solar chakra and life force. In the

east, transforming the solar chakra is the major key to the Magnum Opus. This is openly talked about a lot in Taoism and mentioned in Hinduism in the Tantras.

The Digamma in some ancient symbols is shown as four Digammas coming together forming the Swastika, the symbol of the solar chakra. The Digamma swastika shows the V letter connecting the "four directions", which in Kabbalah all unite at the navel chakra. The upper chakras, the lower chakras, the left and right sides of the body, and their nadis all unite there.

The fact is, the Jews simply stole the ancient teachings of the Gentile Pagan religion and then corrupted them and hid them away in the encoded Torah. The Torah on the encoded level is a false history that forms a geopolitical doctrine and blueprint for the creation of a Jewish world government. The encoded Kabbalah is simply the occult level of how the Jews are using stolen spiritual knowledge against Gentiles to achieve this. Much of the actual Kabbalah is taken from the Pagan Greeks who shared a common culture with the Egyptians, Babylonians, and ancient Hindus. 666 is the sacred number to all the ancient Pagan Peoples in general, which is why, like with 13, the Jews want to scare Gentiles away from 666. It's an important number that they want all to themselves.

666 is also Satan, and the Jews do know this. However, this is because Satan is the symbol of the Gentile soul and 666 is the heart of the soul, as even Kabbalah admits. In Hebrew, "Ra", the solar point, means "evil" because spiritual empowered Gentiles are evil to the Jews. That's the whole core of the Bible they push on us Goyim. Anything to do with spiritual knowledge and spiritual empowerment is evil, Goyim. Just send your energy into a Jewish thoughtform of Rabbi Yeshua and bow to the Jewish political ideology of their Zionist World Government. This is how the Jewish Bible ends, with the 12 tribes of Israel, the 144,000, ruling the world under the King of the Jews. The same evil book that tells us Goyim that the symbol of Gentile spiritual enlightenment, the serpent of Satan, is evil as well. The Bible is full of the Jewish "god" attacking Gentile humanity for spiritually empowering themselves, which is a literary device to act as the warning to the Rabbis. That is why under the Noahide Laws, which the Jews want to impose on the Gentiles, the first law is that Goyim are not allowed to practice spiritual empowerment. The punishment for is death, just like the Jewish Bible orders.
