

Enki is Satan

Note the inlaid lapis blue eyes in this Sumerian artifact.

As Laurence Gardner showed in his book "Genesis of the Grail Kings",

"The Serpent Lord was Enki, but in parts of Chaldea He had been called Shaitan."

The Blond Blood Line, the Yedizi, state in their own records that they came from India first, and in ancient Sumer and Babylon they were Chaldeans. This group was the Aryan spiritual class. According to their own history, the Chaldeans came from the region of the Himalayas near the Pamir Plateau. "Chaldean" is related to the word Kula, meaning Klan of the sacred blood. The royal blood is Aryan blood. The Yedizi religion is still practiced in Southern India around Sri

Lanka with Skanda, Shiva. This also survived in parts of Tibet with Bon, where the Tibetan's state they learned it from ancient Aryan People. Shambhala is mentioned in the Yedizi texts as well, which relates to the Himalayan region.

Additionally, the Yedizi still call their God Shaitan. They brought this out of the East with them. In the Sumer texts, Enki/Shaitan created a second race of ascended beings, into whom he put the blood of the Gods, and thus the secrets of the Gods. The texts state Enki created this race, the first blue eyed people, in his own image. This second race in the image of Enki was called the Ari in the Sumer texts, which literally means Aryans. This is the race that was physically birthed by the Gods. The White Race is of the race of the Gods, as our ancestral texts, which the Jewish program of Christianity tried to destroy, stated. We share the same racial soul with the Aryan Gods as our first ancestors. This is why the Jews hate us. They even call us "Satan's" and state we are from the Seed of Shaitan (Satan), in their texts. They are right.

The goal of the Aryan path is to fully ascend and have the equality of peers with the Gods as one of their race. This is why Enki established the Brotherhood of the Serpent. The Yedizi and Mandeian texts state Enki (Shaitan) taught the Ari the secrets of ascension, the Yoga of the serpent power. The surviving texts in the east state that by the serpent power, the soul is fully transmuted into the divine state: The Serpent of Satan
