

Exposed: The Jewish Messiah

The Jewish religion is occult and the texts are all written in an occult language. When the Jews talk about their Messiah, it has different levels of meaning. For the individual being who is their Messiah the King they want to manifest, they refer to this in their occult writings as a soul they have worked to create on the astral over centuries of rituals using the energy of the mass mind directed by secret higher workings. They want to then descend this soul into a physical body when all the doors open and their spell has manifested enough on earth to bring about the ascension of this being to earthly power over the world. This being will have the ability to channel the power of their god form totally.

In Judaism, the Messiah is not coming down on a White Horse. It's a physical man who has a "god" soul the Ha Kodesh. That's all. The Jewish texts state that any generation can bring about this being, meaning it can be manifested at the right time when that time comes around from the occult work of the Jewish race.

This King of the Jews will appear and unite the Jewish race, then wage a global messianic war in which all the Gentile nations will be destroyed and only Israel will stand. The Jewish texts state that this Messiah will kill all the Gentiles. Many Rabbis state that the plan of the world is only to have a global Jewish Kingdom and that the Gentiles, the Pre-Adamic, races are from the bloodline of Satan and not part of the divine plan of the Jewish "god". Their texts state that all Gentiles are to be exterminated. The Rabbis state that all the Ha Satans, the Gentiles, will be destroyed.

In Judaism, the symbol of the Messiah and the Messianic age is the seven letter Zayin, which is also pronounced by the Rabbis as Zion, the global Jewish Kingdom. This letter is a sword, which the Jews say represents spiritual and physical warfare against the Gentiles and our destruction.

The Rabbis also state in their texts that the Gentiles are in the way of this plan on a spiritual plane. We are a kind of buffer that causes interference with this. They use us on one hand, but on the other hand we are a different energy force to theirs, and energy is consciousness. This has been slowing them down drastically. The only force slowing them down more is our Gods. They have been throwing a monkey wrench into this plan of the Jews forever. The Rabbis state that the Jews suffer because there are "Heathen Nations", meaning that Gentiles exist and that Gentile Gods exist. There are writings of the Rabbis in which the top occult Rabbis knew that to bring about the Messiah they had to bind our Gods somehow. But when they tried to do this, our Gods always destroyed them in a brutal way and all their occult powers and angels were of no help. The

Temple of Solomon, the Jewish Global Kingdom, can only occur when our Gods have been defeated and bound totally along with us. This is done by the power of their 22 letters. It is written about over and over again. Each letter is a link forming a chain to bind with.

Draining the energy out of their thoughtform will also make it impossible for this Messiah to descend, and wipe it out totally.

The Rabbis argue if they want to leave enough of us alive to be their slaves (Golems) or if we should all be wiped out as the seed of the living God Satan.

Correct my understanding if I'm wrong, but I was always under the impression it was our connection to the Gods which was bound, as opposed to the Gods themselves, that they were too powerful to be actually defeated by shitty jew magic.

They try doesn't mean they can do it. There is a sermon where HP HoodedCobra said that some Rabbi's tried to kill Father Satan and they used all their 'angels' and their magick but after many days Satan bored cursed them where not even their angels could heal them, moral of the story they can't do jack shit to the Gods, they just blocked us so we couldn't communicate with them.

This is the story of Rabbi Josef who was a Rabbi who tried with a coven to attack Satan and 'end evil' in this world. He summoned all the 'heavenly army' and the greys themselves told them they cannot do it, but he insisted. So they attacked Satan for days, to no avail or reply. At one point, the Gods attacked back, and all his coven was smitten with insanity, while others instantly died, and then he became insane and he begged Satan for his life, after which Satan turned him into a traitor to his own jews, and then executed him a couple years later.

This story they constantly have altered since it was the story of a jew in the 17th century, but the facts are these things above. Satan hates them, and they hold no power over Satan. Plus, they know Satan is beyond any doubts real.
