

# Futuristic Transhumanism

Greetings to all our People and Satanic Comrades!

This is the giant trend of the jews for this century. You're all going to become borgs, get into a fancy VR, inject drug this or drug that, and "forever", so long the tech exists, you will be a slave of your own illusion of 'power'. You will in reality be a fat atrophied nerd. However, you will compete against other top-notch people in video game "X", so it won't really matter. This is a trend that is extremely forced into newer generations, and a term that also focuses around what is called as 'futurism'. This will be constantly pushed by the jews, to finally replace real life and existence, by a digital and fake existence. We are already living in a physical existence, owned largely by jews, and filled with lies. Why not go into full VR mode, and live DEEPER in the lies? Ever-deeper!

This has been played for a while now. This is because, the enemy wants to use the psychic and life-force energy produced by the 'goyim' for their own ends. Life-force = Power of "God". It makes things happen, and it creates. The Kundalini is also called the Serpent of Life.

"Futurism" and "Transhumanism" are nothing but middle ages simplified and technologically 'caught up', and nothing comes for free. So long you don't understand the spiritual Truth, it doesn't matter what you do in video games, or how many nonbots you have in your butt indeed. You are a useless species indeed. Now, if the jews put ads all over the internet, I don't wanna know what they will do with a microchip in your optic nerve...Maybe they can flash some ads on your brain or something, snap a vein? Who knows?

When humanity is beaten, powerless, and human beings have no insight to their spiritual potential, humanity starts to sink into a lower level, all the time. One becomes only flesh, bones, and a victim of everything. The enemy aliens and the jews who are in power are very aware of all the secrets that billions of others are not. They therefore use these with considerable ease, to control them asses akin how one does control ants in a cage. The only thing is that people aren't really ants in that sense. They are just reduced into ants.

The interesting thing is that obviously, there are no limits to how much technology can, or should expand. However, the trick the enemy is now pulling is to MERGE with this technology, on a linear, biological level. The argument is, since the goyim are too bored to go to their PC for Google, let's hook it on their brain. Even if Google has already got monumental speed. Imagine if the garbage of the internet flew in your brain, without your consensus or something. Unfiltered. So like Google spies on them like cattle anyway, now we can spy their thoughts.

The above of course, like everything the jews mimic, does mimic a state of consciousness, where one can project their consciousness in a never-ending sea of information. All people can do this, without any chip, and without a kike supervising the process. This can be done by spiritual advancement in the highest levels. People just need to get their act together. The jews state that this is to make 'a mass mind' of humanity, of course, assisted by the technology they supervise and create. Another fake play pretend, that is based on a spiritual concept, that is used to enslave people. Like the blueprint of the nazarene.

Now, this 'mass mind' already exists and it's like, right HERE. You are part of this mass-mind, already hooked into it by nature herself. You just don't know how to get into this, because well, you have been reduced into a spiritually unaware person. One just does yoga and meditation, and as they advance, they experience the so called 'mass mind' and the mass consciousness, which is on the astral level. OF course, the jews know all of this, but the goyim that don't, get sold on any lie.

Take for example your mobile phone. What you can do with your phone, you can also do with your telepathy. However, because this ability has been forcibly removed, same as the knowledge on how to do it, they now sell it to you bit by bit. And of course, all your calls can be monitored, tapped into etc. What nature gives you for free, the enemy removes it first, and then, as the Gods force these things to re-appear, we have cell phones, and so forth the enemy tries to control these. At the ultimate pushing and when our Gods will be victorious, we will return to a totally spiritual civilization, but at the same time, extremely advanced, without binding or life damning technology, or technology of underhanded motivations.

A lot of people cannot figure out how the pyramids were built, and other marvelous things happened. The thing is, in Egypt and other civilizations, telepathy and other things were very common. The common man basically had

spiritual access and could be initiated anytime they wanted. Now, the knowledge is forcibly held on the hands of a few jewish pricks, who damn the planet on accord.

All of this 'progress' comes from the same beings and souls that made the Middle ages. And those who spent more time in the Occult than everyone else, telling them that the Occult is a piece of crap. These people are called 'jews' basically, and they are a race. Who has kept humanity enslaved for two thousands of years time.

Now, they come to liberate the goyim, as much as they wanted to liberate them with Christianity, Islam, and other fancy pipedreams of sudden and immaculate salvation, that require nothing, but to accept a microchip, or jesus christ as your lord and savior, or get a pill down your system and everything will be given to you.

The metaphysical hoax of jesus christ and the perfect life in heaven, has later become the magickal pill that will make you understand everything and get you to elevated consciousness, and now, we have transhumanism, the magical nanobot that will get in your asshole, and show you the way to infinite and prolonged life without any disease etc. All of this is just the same cycle of lies, with the same ultimate purpose.

Of course the jews on one hand push that shit to get in research for their own borg race, and on the other gate, they fill all civilized countries with inhuman, pisslamic scum. So when things come to the correct moment, they will have attained their borg dreams, and the idiots below will be a slave, cattle mass, below them, powerless and defeated.

The human body, from the fingernails, down to the number of fingers, to the pineal gland, has a very deep occult significance, that connects with the larger fabric of creation, or the cosmos. The physical body is actually the 'all' in that sense, housing in it and being able to perceive 'everything' within creation, but only by correspondence. For example, the bones correspond, same as the base chakra, to the dimension of the physical.

As we go upwards, we reach the pineal gland, and the crown, which deal with what is called the "Absolute". In the highest levels, in our senses, the "Absolute" appears as infinite darkness in a sense, some which call it Atman. This is a reason why Satan is also called the Lord of Darkness.

However, spiritual power is manifested light, this power too, comes from this "Darkness", which is not devoid of light. But shines. This is the "Black Sun" which is associated with the National Socialists, and is a worldwide hated symbol now. The closest to this manifestation also does exist in the actual Sun, and this corresponds to the Chakra of the Solar plexus as well.

Recent sciences hasn't given a question, on why Humans do actually have 'consciousness' and perception. From the writings of the enemy we can see, that the aliens of the enemy wanted us to be borgs, that had no self-consciousness. Satan and the Gods gave us what is called as consciousness.

Consciousness in the linear level, is what makes you a living, moving thing that is not a borg. A borg can move, and maybe it can fly, jump, or even with the correct Artificial Intelligence program, be thinking and making decisions. However, it will never have real 'life' in it, or consciousness. It will only have lower principles. In short, it will be soulless.

A purpose on life and why Satan and the Gods emphasize on not Race mixing, is because Races are In fact, different mass-souls that have their own development level. To mix one with the other, is to regress largely, rather than progress. The jews themselves aren't stupid to 'race mix' and they know that families, and ancestors, do actually account to spiritually pent up power. The jews are to avoid this, this is for the goy. The goy are to be living in the multicultural global cage of ants, and the jews are to be standing on a higher level, playing with the goyim like ants. The fate of a parasitic race is to enslave some other entity in order to reach their 'purpose' or 'end'.

After the constant spiritual evolution of a race, when the link with the 'infinite' comes in contact, at some point, people discover what is called 'Immortality', through what is known by the Magnum Opus. This is metaphysical. The jews only fool the goyim with transhumanism. They are going to only do this for their own lesser elements. The wise of the jews know that the real power lies in the immortal spirit, that can exist irrespectively of even if you nuke it with a nuclear bomb.

The material, flesh and blood body, is what is needed for this process. The Gods aren't stupid. If they wanted to make us as borgs, they would, but this literal 'flesh and bone' which so many fools hate, is actually the link to life itself. Life itself is the most fragile element in existence, but well, it is also the strongest, and it's the only thing that is in touch with the infinite potential of existence.

Therefore, only life is 'god' or the 'force of god'. And this life can only inhabit bodies such as these. The more mechanized and gross the body becomes, the less life it can house. A stone, a metal, cannot be alive. Even if it had moving elements such as nanobots in them, any amount of nanobots would never be equal in quality to the blood for example, as the carrier of life.

This deals with the astral light, and the spiritual body, which is tied into the physical body. The races are in a development stage to get into this level. Some individuals can actually do this on their own, and 'escape' the wheel of Karma, to live forever. For those who don't do this process, they will forever be damned in the repeating circle, which the jews glorify by naming their holy book after: The "Torah". The Rota is the eternal circle, that beings and human life does take, until it reaches a point to manifest itself in the most perfect and higher-level way.

Lastly, the jewish race pushes trans-humanism, because they are an inferior life-form, that has no spiritual purpose of any serious sort, just to keep other humans in control and preoccupied in a rat wheel. They just want to become actual, physical borgs, as they are on the inside, because there is nothing seriously spiritual for them.

As we have written before, the jews do lack particular things in the Soul that make them an inferior species. As such the jews hate what is called "Truth", named in their writings as "Ha Satan", the ultimate understanding, and neglect any Truth about existence or reality. They don't have any destiny for immortality, or any other such things, so they just want to desperately preserve themselves in the level of borgs.

Unfortunately, the same aliens that tried to prevent Satan from creating Humans into a worthwhile and whole creation, prevented him later from raising his creation to the highest spiritual level of intention. Our role is to help people finish this, and this is why the hidden 'overlords', greys, and other shitheads, of this petty world make themselves known spiritually to us, to let us know how right we are, and how much they are losing it.

My hope and conviction is that humanity, or at least quite a few beings, will understand that you are already sitting in nuclear power (your Soul) and achieve inner liberation and ascension. The purpose of which is to raise the self, and then gradually the whole, into the level of consciousness of the seventh heaven, or 'god'.

Only Satan can give and guide towards the real Godhead. Not short, ugly, greedy, pieces of alien life that we have been indoctrinated to accept us 'fellow humans'.

When Humanity grasps it, we will be many steps closer to surpassing our current life right now, and really rise on a higher level of existence. To not understand this, is to create a second Middle Ages, owned, run, and technologically executed by jews.
