

Gods That Were Human - Guides to Humanity & "Hell"

Father Satan has been with humanity for as long as we can succinctly put in "Before Time". As this might sound confusing, time, as defined in our present day understanding is linear.

Father Satan and the top Gods are ascended beyond the fabric of the so called "Time", while regardless they can still incarnate, exist and operate in some lower spheres, included in what we refer to as "Time".

The Demons in the Joy of Satan are in many cases people who have reached the Godhead a long time ago, during the so called "Golden Age", or before this. Not all of them are in this category, but many of them are. The enemy, has insidiously blasphemed all of them. Some of these Demons who are in this category are Asmodeus, Balaam or Valefor.

Hesiod describes the Demons as those "humans" from the time of the reign of Kronus. The way this is explained is rather complex and has many underlying meanings, which will be analyzed in another relevant topic.

Lord Kronus is another epithet for Father Satan, having a hidden connotation that hides the word "Crown" in it. The modern word Crown is derived from the word "Kronus", the chakra of the top of the head. Due to confusion, this later on got into another connection with Saturn, which has become really confusing.

This Chakra is described often as the "Timeless" heaven, or "Eternity". In the same manner, "Kronus" also hides in it the notion of "Time", which is shown by the word "Chronos" but is not the same word, and does not have the same meaning.

Wrong information about the Demons and more wrongdoings against them have ended up in enemy grimoires and tales, oftentimes blasphemed, yet even there spoken about by the enemy with great terror. The enemy calls them "The Gibborim" which means "The Giants" or the "Great and Mighty Ones".

They are extremely powerful, and they are in many respects higher ups like the Gods, but they reside in an "adjacent" dimension for very specific reasons. These reasons have to do with the fact that they maintain order in the earth [this is a very difficult task] and help select people "reverse the fall" i.e., to achieve the Godhead, which is a codeword for the ascent of fallen souls.

As we are closer with them, they can help us immensely in this path. The Gods of the highest order are at the height of deciding the highest tasks, and they therefore tasked some of their own to help us on a closer watch. The enemy, falsely also mentions the "Watchers", which is another title that was given to the "Gibborim" or the Demons of Old.

In many teachings, these Demons were called "Cthonic", an Ancient Greek word meaning "Underground" or "Those who dwell on the ground". The meaning here is to imply that these Demons are here to assist humans on the lower dimensions and to help us complete Satan's Great Work upon humanity.

This has nothing to do with false, confusing notions created way later on by the enemy. Notions of falsehood such as "the fiery underground place of torment" of Christianity or Islam, do not exist. The Demons or the Gods of old have nothing to do with these whatsoever, as these notions do not exist in the Pagan world.

There is no place of eternal "torment". Some of these Demons also specialize in the affairs of what the Ancient Greeks called "Hades" or the transfer of the dead and the intermediary dimension between life and death.

Conveniently, we use the word "Hell" now, which is also related to the Norse word Hel-heim. Hel is literally the name of the Afterlife dimension in Norse mythology, and the borrowing of the word for English is evident.

The invention of "Hell" as a place of "Torment" is a foolish lie that was created by later Christianity [it did not exist in its inception, as they wanted to infiltrate Paganism first and everyone would laugh at this in the beginning].

Islam, another enemy program, followed suit after they saw how convenient the use of a lie such as a place of torment for 99.99% of mankind that did not "Obey" the new system at the time, was playing out wonderfully in fooling masses that were largely illiterate.

We all know that the word "Demon" is anything but a negative word. It is one of the most honorable and positive words, that means "God" in Ancient Greek. These Gods are here to help and support humanity. They are teachers of humanity that teach us, help us attain our desires or show us the path to learning. Finally, they are here to help us do all this in order to ascend into higher levels of consciousness.

The entirety of this plan is to help humanity become again as the Gods, or at least, the elements of humanity that want to walk this path. For this reason, these

Gods deserve beautiful treatment, as they are willful guardians of those who are with Father Satan and the Ancient Gods.

Finally, the Joy of Satan getting updated and the Gods progressively moved out of the enemy context entirely will highlight their extreme importance. Everyone should be thankful for this once in many lifetimes opportunity to partake in this and approach the Gods in this way.

Our Gods will lead us to Glory in Spiritual Satanism,

HAIL SATAN!!!
