Greetings to all of our Satanic Warriors,

For those who have been here for a few years, you remember that there were some really important and informative documentaries created.

The Jewtrix Documentary, had reached about 50k views within a few months of launch in Youtube. It was snowballing and going viral. And of course, the Oy Vey's were alarmed.

At some point, hundreds and hundreds of subscribers were flocking in the channel we had created together and were promoting on a daily basis.

The snowball effect ended the life of this extremely successful endeavor short in 2017, alongside of millions of other people who got purged from Youtube for winning the war of ideas. Other bigger channels were gaining like 500 people a day. The enemy knew, that this had to be cut short if they are to survive. But it was already too late.

They can censor, they can attack, they can try to rip off every knowledge they can, but the boat has been set asail. We will just accelerate this. Their worthless movement towards an enslaved world won't be tolerated.

They are showing their fear more and more since. Every passing year, they are trying harder and harder, only to get exposed and hated further and further.

We understood on these critical times in 2017, that not only our ideas are accepted by a strong portion of the populace [the enemy is aware of this], but that we have the ability for extreme success in spreading our ideas. We will be more systematic with this. It's required and mandatory for the future.

We will fight against censorship and the enemy's plans for global damnation.

Since, due to lack of any serious alternative and time to focus on this, we had to let this project go, although it was by far one of the most favorite type of work for

me. Anyhow, all is fine and up again. I am aware some are missing, but the most important and strong hitting videos are already up.

The reason for the delay on the Internet Warfare was that I had to re-create this and make sure it's reliable. We will be using this channel to promote our ideas to the populace. It's already being viewed and has some coverage. The platform of this is Odyssey.

For those new, don't forget to watch these documentaries as they are a way to answer all your questions easily. It's also advised to open an account on the platform and distribute knowledge yourself. There are many people who have a functional mind there.

We will expand on other platforms within the next schedule.

Of course, the channel is small now. Like the other one was when we began...Then, it started becoming a mammoth that was stepping up on the enemy left and right.

We can make that happen and step on all of their stuff. Also, our plan henceforth will be to take over these "platforms" that are going to accept the Truth.

We don't need to do much either, just distribute safely and anonymously, all we have to do is promote. Information and knowledge will do its job.

We *WILL* INVADE THEIR WORLD SPIRITUALLY AND IN WINNING THE WAR OF KNOWLEDGE.

The Truth will NOT be infringed upon.

May Satan lead us all to victory in this war.

HAIL SATAN, and HAIL OUR SATANIC WARRIORS!
