

Jews Whine on Imminent Internet Holohoax

Every now and then, beings that do nothing, are nothing, and indeed, are only a cancer upon the face of the planet, come into my mailbox and YT channel, threatening me with whatever the fuck, who knows what. Over the time it has become immaculately boring. You just see this and it becomes extremely boring.

My videos have been attacked by jews. mailbox, even online. I made this post to highlight to see the sheer hatred they have for people. Also, infiltrators have made mimicry accounts of legitimate people, in order to shit-post on my videos. This is no different than how other insignificant lifeforms have nothing better to do than to spend hours attacking "me" online, writing crap, and passing judgement with their small and scrawny fingers and brains.

All of the above is entirely funny. These jewish crapsters of course have three main problems above the lines: The fact that we exist, the fact we curse the shit out of them (this is the most fearful thing, so they preach against the RTR's to save their ratty race) and the fact that we advance.

All these are a problem that the jewish mind cannot fathom really. I notice this on a lot of jewish infiltrators here, the RTR's actually scare them, and they are the first element anymore they try to put doubt in the mind of people with. This is no different than a pest trying to turn you against the pesticide you're using to kill it.

Since these 'hard judges' are either kids, or jews, they never of course do anything to back up or follow up with what they say. I know there are a few people to whom I have aroused hate over the years. I have received their threats, their e-mails, and also their massive congregations where they say they are going to curse me. I am still here? Where are your angels and your 'god' altogether? However the retaliation I leave upon the Gods, simply because, I don't have time to waste on irrelevant zero's roaming this planet.

No real Satanist should waste their time on these attention seeking crapsters, not even to fight them (Unless necessary to save other people from their deceit): stay focus on their mother-root which is the jew. When this is ripped out, all this trash is going to collapse at once on the floor.

Lastly, one thing to remember, and every warrior of Satan needs to remember, is that Satan trashes and destroys people who destroy (or attempt to destroy) the unity of his own people. They do not survive this process, even if it's done involuntarily. A lot of people hate and have jealousy, but this is only a disease for it rarely if ever is constructive. I don't see a legitimate reason for a Gentile to hate another advancing Gentile, it's only jewish reasons that would get any Gentiles to turn one another. As it has always been in history, agitations of the jews.

Below I will show you some very revealing stuff, which show that the jews always try to instill the same lie and blame their enemies of being jewish. They wish they had this Cohen gene really... But it is never the case. As people know, when we cracked on the jews with the Rituals in Solstice, many jews have went insane most probably, as it's safe to assume these 'incidents' were only the tip of the iceberg. This manifested itself into crackdowns on jews that attempted to roam these groups too.

What we do has cracked on the jewish soul like a fucking coconut, straight on their head. The jews are so universally hated, they actually try to steer this extreme hatred towards their enemies by calling them jews. This is indeed funny and it should cause diabolical laughter to the people who have revealed them to the world. Their time is going to up in the near future.

I have saved and will show you some videos to see and understand how the Jewish Race works and operates. One threatened to "Come and gun us down and kill us", and that they "have a gang filled with weapons". Of course the jews when they lose it they resort to terror. This rat later deleted the videos, but I downloaded them all when it did the mistake.

Another jewish example is a random Iranian Jew on Youtube, which if you remember his face, looked like a rabbi (even worse) and suddenly when the ritual happened, cracked in two and started going full batshit on me especially, and trying to drag members into his nonsense. He later cracked on with his recent videos, saying humanity must die, and that they do living blood sacrifice. Prior to this, this person was in heavy angelic magick. In other words, nothing can change the jew. The jew may pretend for sometime to be something else, but they crack open like a coconut by means such as the RTR's.

All infiltrators have cracked and had a tantrum over the RTR's, especially those who are jewish. They know the energy is piling up and when the objective is carried to it's fulfilment, their own blood kin and blood comrades will say Kansas Bye Bye so to say. It's normal for them to panic, and let them panic.

However it goes down guys, the RTR's are going to ruin these rats if we keep doing them, which everyone should. Spam them, save them, archive them, who knows? Even pass them down to other generations. This is exactly what the jews never wanted to happen. But it has happened.

I notice even from my YT channel, the jews are panicking. They are all ganging up in the same time, with the same comments, and saying the same things, as if they were bots really. It's funny to see the jews panic, but well, it is really nothing on either of us anymore. This phenomenon has went GLOBAL. It's only a matter of TIME before they are judged for their heinous crimes.

Lastly I want to close this message with a comment from a jew in my Youtube Channel, so you can see how they brag about killing Gentiles and having made civilizations go extinct.

Yuh it is, but dat comment isn't? Amirite?

Another nonsensical jewish tantrum here. Everyone that ever opposed the jew is a jew!!!1!1! FACT!!!

We are fighting the gravediggers of humanity themselves...

THIS IS WHAT JEWISH CULTURE IS ABOUT: KILLING US AND MAKING US GO EXTINCT!

how the scared rat tries to say that they are not a race. Which is a new lie they conjured lately to save their ass from extinction. Bcz stupid Goyeem can't figure out the Rabbis practice Eugenics with their own to breed superior goblins into this world... But then it goes over to how this 'race that isn't a race' has killed on a basis of racial warfare other people on the planet...

This kike wasn't even clever. He goes on to call us "HEATHEN GENTILES" (ie that he is a kike himself and we are the heathen gentiles) and then proceed to promote Rabbinical Crap as a viable solution of solving the problem of his own (((people))). This is typical stupidity here. "HEATHEN GENTILES!!! (oy veh)"

But unfortunately for them:
