"I don't understand why jews even want to worship these damned things and why most jews haven't tried to come to Satan by now."

Over the years it has been stated that the jews are a pariah and an abomination to Satan, an ultimate enemy, and the same goes to all of our Pagan Gods. After all, while Satan in Sanskrit means Eternal Truth, in Hebrew, it means The Adversary of the jewish people.

In the general, and very typical hatred of jews, and their supremacy against the Goyim, we are pointed the finger at by other "Satanic" denominations to drop the Sanskrit meaning, ignore historical truth, and just take the jewish take on this on the platter, as if by force. The jew midget feels at power to dictate. That is obviously inaccurate and false, and burns all history before the jewish lies and ignores it, and somehow, takes it that Satan is just some jewish mythological figure.

This is obviously not the case anymore than the Rabbi that claimed that the jew was the first inventor of law and civilization. Historical lying doesn't strike as quite a "Satanic" quality, unless one of course - how stereotypical here - is just a jew seeking to deceive. What do the 10 laws of Moses mean compared to Ancient Greek or Roman Law, or the code of Hamurrabi, or the Egyptian Legal system?

The only way one would accept such lies is either a) One is ignorant to the bone or lacks any form of education b) One is a jew promoting an agenda no different than the historical falsity of the bible, despite evidence. There is truly no middle line here, and in accepting any of these statements.

However, we have to look into something that in particular analyzes jewish psychology deeper than this.

As a parasitic virus seeks a cell to infect in order to promote its agenda of living, a situation which it has no control over, so do the jews always seek to infiltrate and subvert from the inside whatever is existentially dangerous to them.

Unlike the Aryans or other people who are more upright and declare wars in the "open", the Jew is a strange creature in that it always, all of these centuries, operated from the shadows, by subversion, terrorism, and infiltration. This is because by definition a virus is not capable of subverting a powerful system that is ready for war, but only to infiltrate it.

How does this infiltration happen? Feigning interest, and pretending whatever they have to pretend to get in.

Like a literal virus, they also latch onto a cell which is susceptible and open to them (this is why I say, be careful which people you associate yourselves in these forums with and I scorn misplaced compassion) which are used as "Friends" and as a "Group" for the infiltration of theirs to begin. Then, they proceed to go into a cell and make their circle of "Friends" or carriers "Bigger", and this is why every cult of jokes and bullshit that has been created around here, was most of the time either run by Jews or infested by them. A Jew is always at the handle and this cannot be a coincidence, for obvious reasons.

People say that the Jews cannot be "Satanists" but that is only a half truth. The Jews will definitely try, simulate, and of course pretend to be a Satanist, as they pretend to be Egyptian a very long time ago, pretended to be Greek or Babylonian or Assyrian before this. They obsessively and compulsively tried and tried, until they got in, that is, within the midst of the people themselves.

This has nothing to do with any acceptance from the Gods, but rather, the foolishness or needs of inferior men. To the Gods, they are eternal abominations and eternally unwanted, and this is verified by the war the conscious Jews have waged against the Gods.

Indeed, looking at Jewish history, one sees that they have been emotionally ruined by their strange fate of being a slave race to the reptilians, and trying to beg Satan to accept them (only insofar to backstab him, their parasite nature is incompatible) and being spitefully hateful of Satan for not accepting them.

They may even go as far as to do dedications, or rites, or lurk around for years. On their side of the deal, this behavior is extremely important for hijacking and fooling their hosts into acceptance. Jews are also clever and they can read things and get the 'hang' of a place, for better infiltration purposes, and this is nothing hard to them.

The reality is that Satan and the Gods hate them and do not accept them for very obvious reasons, not only on a genetic and soul bases being the main reasons, but also others, such as that they defamed them and attacked them and their world for thousands of years. But still to this day because the jews are a mere slave race, they imagine and some even want to be "With the Gods", but their alien nature cannot allow this. This is no different than an ant imagining it will one day live among the lions, it simply will not.

This is even in the Torah and the Talmud where the jews are constantly siccing onto the Gentiles, trying to worship the "Golden Calf", and try to be accepted or brought "In" with the Gods. A lot of the Torah is about curses on the jews which concern themselves and try to jump a fence over in trying to be saved from the general fate of the jewish race.

All of Deuteronomy in the bible is filled with curses for them going to the Pagan Gods and practicing "idolatry" for jews. This is because the wise of the jews know that by the way things are run and their reptilian system, their own may try to run away, but they also know that they are owned and controlled on the soul and a level of totality, so there is no really free will. They even know that many of the jews will actually try to go to their enemies - but what they try to ensure is that while they are there, they will ruin their enemies.

Of course this also works as reverse psychology for jews to go and seek the "Idols" and infiltrate their enemies. If one pays attention, all of "Paganism" and "Satanism" was jew infested, filled with jewish hybrids and Talmudic crap. This is because jews want to rule the religions of non jews and also fill them with ridicule, turn them useless.

As for if the jews do not have obsession as a criminal does with their victims, with the Gods, rethink that too. The jews are obsessed like criminals with the Gods. They have built a culture of hatred against them in attempts to get their attention, and only due to mere rapist kind of hatred towards their creation, the Gentiles. They have an unending amount of resentment, jealousy, and spitefulness towards the Gods and the things that they create, and a deep resounding jealousy of the Gentiles who are affiliated to them and have a decent existence and life - this is something jews will never by any means possibly have.

Being all of this the case, the jews are also extremely cowardly, and they constantly try to play "In Satan's line" but also out of it at the same time, as if trying to amend for their mistakes, but of course it's all a big feign.

It is not a mystery while they are constantly trying to ruin everything the great people of this earth create, and keep all Gentiles from being creative. That is totally their job.

This is why you have so many "Satanic" and "Pagan" authors writing endless, useless, confusing, and downright pointless shit. Indeed, it's hard to find ugly material that doesn't trace itself in jews or judaism.

What one also has to keep in mind is that Judaism and therefore Islam and Christianity, are nothing more than jewish programs and cultural reactions to the smallness, insignificance, and uselessness this jewish race of alien beings experienced when it was on this earth. What made this earth beautiful and vibrant, because it excommunicated them, they hated, and they hated it deeply.

In an allegiance with other trash humans that felt the same, they conspired and still conspire to this day to destroy everything of value and beauty on this planet, permanently.

A long time ago I requested for the Gods to please explain to me why the jews are such abominations, and the reply was that if they were not, there is no possible way they would espouse all this hatred, unceasingly, and for so long, to carry out their ordained mission. They were created as they are by their very design, and from this there is no escape.

The above is a necessity for hijacking and ridicule of a particular faith or a place, and they may even do this unconsciously without really having a plan laid out. As one spider falls in love with the mate, she will later murder, so do jews try to constantly hijack and own the religions of their enemies and lead them to crime, terrorism, lunacy, or basically whatever else will make them detestable and in the end result in their destruction. This includes this place here or any other place - none of it is excluded from this either.

Gentiles who are deluded are far different from jews in that jews have a natural disposition of hatred and seeing the Gods as tools, servitors, filling their religions and worship with profanity, and above all, jewish insanity. Jews constantly make a mockery of the Gods, and that is very natural to them.

The jews themselves in their own 'culture' do all sorts of trash stuff and useless psycho stuff because they are just alien and psycho, and that is projected. For example, some jews will join a "Pagan" place and conduct a crime, and then will

run a full Satanic Panic for 20 or more years in the jew owned media. This is in full alignment with their racial mission to subvert, destroy, or ruin the progress of their enemies, and this is why some jews have "Dabbled" with "Satanism" and the "Occult" but always leave behind their eggs of mortality to hatch on the midst of their enemies. The majority of "Pagan" authors who talk about animal sacrifices and related, are jews, and the same thing goes in any ideology that is against the jews.

The jews come from a background of an extremely sick, perverted, and oppressive culture. This makes them revolt and hate their own 'masters', but little do they know that even this revolt is programmed with them going into "Goyim" ideologies, countries, and in the midst of their enemies, to hijack them and hatch their jewish eggs into their midst to ruin them.

Jews follow rules and regulations that turn them morbidly insane, and this insanity they seek to escape from, as it's unbearable for anyone living - then, they have their "freedom party" in lands of Gentiles, wrecking them financially, with amoralism, and with degeneracy, until nothing remains.

The jews have a spiritual concept of this and this is the "exiles". The "exiles" are the jews who are kicked out of the midst of the jews, but remaining in soul, mind and spirit perfectly jewish, try go into the "Full mode of sin" in order to hijack and ruin the midst of their enemies, their culture, their soul, and everything their enemies stand for. This is part of the jewish mode of dualism.

By no mystery it is for example that jews, a race sworn to celibacy and marrying properly at home in Israel, also rules the strange boundless sexual norms, advocating virulently for criminal sexual rights such as pedophilia, and owns virtually all of the porn industry, while at the same time procures cancers in how people unnaturally identify themselves, or ideologies such as the marxist sexual "Revolution".

Judaism here created the perfect conditions of pure insanity into its own "Exiled" children, driving them into Gentile lands, where they exhume their pure cultural insanity, effectively ruining the Gentiles as a result. This is a win-win situation. After they are done exhuming their cancer on other people, they are again reincarnated into Israel to start amending for their so called "Sins" against "God", and they help their tribe from this side of the fence this time.

Reasons like that are why Madonna is essentially a dumb prostitute while her so called "Judaism" is based on the image of a pious, family woman with children.

Madonna was a necessity to teach boundless slutdom to the Goyim, as were the creators of feminism, and she served the jews very well in ruining the minds of young women with massive force, creating cultural destabilization. In the end of the day, "Madonna the niddah (unclean in hebrew) whore", served the largest jewish agenda in a very perfect and calculated manner.

The jews in the their torah are basically constantly going and attempting, despite of being ruined, to worship the "Heathen Gods", as this is an absolute necessity to them. It is not a historical secret that the jews have basically hijacked, prior to the creation of christianity, the Pagans in full, and they were around all sorts of people where they kept stealing spiritual knowledge that they were building up, and publicizing their secrets of their enemies, while at the same time creating spiritual weapons and concoctions to rule them. The jews do not have a single thing of their own, all the way from language, to their very...genetics.

Even the genetics of the jews are for a large part, and this does not make them any less jewish, are a mass of genetics from all people of the planet, which Rabbi Laitman calls the "stealing of the form". As he added in order for them to work as 'secret agents' for their own, they had to do this, appear as their enemies, and be entirely different on the inside, and it is not a coincidence or strange on how they always managed to fool a large portion of the population, especially when they live on it's midst hidden and without being clearly 'jewish'.

Behind all the guise and game of forms however, the jews remain inherently jewish, and jewishness cannot be removed nor there is a question of a material, educational, or solely spiritual reason. There is a combination of factors, but for the sake of simplicity, jewishness is first and foremost in the soul.

It is only for others that jews are confusing, not for themselves. This may be hard to understand, but as in how an agent goes into a bank to do a heist, and he knows exactly the reasons he is there for, so is the jew aware on some level of his own mission to do the same. This level may not be conscious, but it is there.

Jewish lore created on jewish psychopathology by using Pagan Gods as symbols of blasphemy for everything existentially evil, another expression of jewish hatred, is not a source of Satanism, nor a viable source of Satan's origins, unless of course, one is a total jew themselves, and believes like so many jews do, that dumb jews are to be listened to on everything.

Jewish lore later become "Religion" and replaced the native religions of the Gentiles, who praised these Gods, who were positive and benevolent to us. This

reversal of understanding lasts to this day thanks to Islam, Christianity, and Judaism. And this is why Satan has the statement of "Three Things Are Against Me, And I Hate Three Things".

Except of jewish insanity and what followed later, and hearsay, we have really no Gentiles whoever wrote anything negative about the Gods. We built and honored them in all things, in love and bonding, and in all works, and in every step in our development.

As for those who are stupid and cannot look past the dialectic of the - of course - Jewish lore about Satan, they remain blind and oblivious to a very obvious fact. Nobody hides this. The Gods don't hide this even in the bible where they smite jews, and jews do not hide it in all their lore and texts where they are instructed to stay away from them at all costs for their safety.

Jews hate Satan and Satan likewise detests them to the fullest, and this is a fundamental reality. Jews are unwelcomed in Satanism, this will never change, and they know it too, at least those who are aware of it.

Satanism is by definition a true, ancient, and deep resistance to the counter-culture of the jews, not centered against them, but as the original reclaiming its own ground, against a species that only knows to lie and to revile.
