Greetings to all our People and Satanic Comrades!

With much happiness, I announce that from now on, we are going to have documentaries and videos from our side coming up. These will include information, knowledge, revelations and they will be able to be used in spreading the Truth online.

The enemy has had all the means, ways and literally billions of places to spread their lies. For this reason, our bulwark and information must be spread and protected.

I am not the most well-versed in editing, but since the job is able to be done, it will be done. There will be advancement. Satan wants things out so everyone can finally know the Truth.

This took me a full 55 hours total, maybe even a lot more.

This is a Joy of Satan Movie! So, grab the popcorn, take one hour of your time, and enjoy. Aside from educational (and not jew-cautional) we want these videos to be fun and show what we stand for.

There will be more videos, so stay in touch.

**Don't forget to comment, share, and subscribe to my (our) channel.** We need to spread the truth everywhere.

I ask all of you to relate your feedback. Also, the next videos will be of course improved.

**I proudly present to all of you...**

I want to thank all the contributors, with their music, and everything else for making this video possible. There are also pieces of famous videos from other people who are in our cause, so irrespectively of if we know each other or not, thanks must go to them.
