

On Women and Goddesses

Greetings to all our People and Satanic Comrades.

This was supposed to be posted long ago, but I didn't post this yet. Now that the question is raised, here we go.

This is something I have to post for Women. Everything is open to discussion and comments. I always welcome these from our people. We have to address it, same as we will address the male issue down the road. When it comes to us Satanists, there are many things that exist contrary to many other people. For one, we are dedicated to Satan. Satan's name literally means: ETERNAL TRUTH. Not only are we the ones to face and address these Truths, but we have to focus on exactly this thing. In everything we say, as we approach general Truths, we must also understand that there are ALWAYS exceptions. Every being that looks deep within themselves will find eternal Truths. We are to share these, honor these, and uphold these.

Now, as all of you know, no different than men, women have been equally attacked. Straight or Lesbians, from women who just want platonic relationships, to even women who are not interested in such. As you can see in all the enemy religions such as Islam or Xianity, which preach outright violence against women, disregarding women, keeping them on lockdown - while leading to the exact opposite, a fake notion of "freedom" for women; you can easily understand that the enemy is real afraid of women. From all of this has risen the treatment of women in the last two thousands of years.

At least in many other parts of the world, because in the West, no matter what, people weren't treated so harshly, mainly because it's not in the nature of the western people to treat women that way, same as it's not in the Japanese society, for instance. In some places in the East, thankfully, where Spiritual culture was upheld, the feminine was not demonized. As for the enemy, they let us know of their thesis. This can be seen in their texts as the unending hatred for

the female aspect, how they curse the Serpent (female Shakti energy), and how they frown upon the Ancient Goddesses.

In the Ancient Civilizations, you had 12 Gods, like let's say, the Greek Pantheon. You had an equal number of Gods and Goddesses. This was out of respect to the Female element and the union of it with the male. This is because women were seen as equals to men. One gender completed the other. Despite what your Marxist historian is going to tell you.

For instance, there were all the Natures of women into these 6 Goddesses. First, you had Athena. Athena was the Goddess of knowledge, justice, war, ethics, education, calculated warfare. Then, you have Artemis. Artemis was the goddess of the hunt, more brutal warfare, nature, even gardening and anything else, growth; some could even relate her to athletics. Then you have Aphrodite, who was the Goddess of beauty, lovemaking, affection, relationships, literally, the Goddess of love, union of opposites. Then you have Hestia, who was the Goddess that had to do with home, housekeeping, everything that has to do with the country or state, taking care of the family (the state being a big home, etc.). Then, Goddess Demeter, having to do with the harvest, the Earth, food and grain, also Goddess of Law and Justice as well. Because without homes, erm, evidently, there is no civilization. And without family there is no existence. And without food - death. Lastly you have Hera, who was the equal wife of Zeus, other than in the part that Zeus is supposed to be the "Father of the Gods". Hera is the Goddess of Magick, literally, the woman who is a woman that is a wife, but at the same time, a stern mother, a literal boss if needed. The Goddesses associated with Magick, like Hecate, were of the highest power in these pantheons.

But of course, you just know about Aphrodite most probably. Because she was so beautiful. And yes, she was. But this is not the conversation point here. Because if the kikes try to talk about the above in depth, then you understand that your freedom is not quite expressed by twerking your ass, or doing drugs, but actually minding the important stuff in life. And actually living life. Because if you were to live like "YOLO", you should better make your life worth it, at least. OR the real healthy and pleasurable stuff. Or the spiritual stuff, which is EVEN worse for the jew. Then the kikes have a lot of questions to answer, and they are just like "oy vey, these women were suppppreseed!! Truzt uz!!"

It's like women basically had the most important things of civilization placed in their own hands. Or equally, the things that were super important. We are talking about thousands of years of evolution in this way. It's not like the word of the Jew is most important. People who go against this are plagued by nature and rightfully so. So, the above were in rough lines. Now they throw it away to get the Madame Figaro, which teaches them how they should further their inner emptiness.

You can see this in Hypatia, Cleopatra, and other prominent figures of the Ancient world. The Egyptians had Pharaoh women now and then, as it could be rarer, but some women came up with indispensable abilities and leadership. We are obviously not talking about feminist, cuck, and such. We are talking about natural occurrences of gifted people. Women were also priestesses in Egypt, Greece, and elsewhere. There are no priestesses in the enemy religions. Why? Because women are considered dirty, unclean, and whores.

The massive hatred on the enemy has been towards Lilith, same as their attempts to objectify women, such as the 72 virgins the kikes told to Arabs they will get after they explode to the mall. Women though are actually spiritual creatures. This is all over the paintings of the West, such as the Virgin Priestesses of Artemis. But your Marxist Historian is not going to teach you that these women were entirely free and they were treated as equals, even though as Goddesses in the flesh such as in the case of Pythia. Which women weren't even whores or anything degenerate as the enemy forcefully jams down people's throats.

But they were called Divine Prostitutes, in that they didn't do prostitution, but provided spiritual lovemaking for men who couldn't find a significant mate, for reasons of peace-keeping and advancement. Little is also known about how in NS Germany, the NS state took extra care to keep women that work in brothels in great conditions, took care of them, kept them healthy, etc. Contrary to Jewish opinion, this is not evil, and women who are into this have to be taken care of. The Jews are well known to be "evil pimpsters" and "gangsters" that destroy and kill women. But of course, who is going to teach you all that, your Marxist Kike Historian? They just teach you about what they call as "whores" and their

supposed "freedoms" and how you ought to follow the same path. Feministic, Whoreship, that parades as freedom. And cheap materialism.

And somehow tie this into Marilyn Monroe, the jewess, empty "liberated-whoreslut" womanjewslave, Madame Figaro, Cosmopolitan, Sex and the (Kike) City, and some empty self-righteous idiotic piece of life who just thrives on lipstick instead of oxygen. How "free" is a woman that doesn't know where she is going, or has no direction whatsoever? It's like, you are a woman if you buy "X" brands. If you have these certain ideas. If you like barbie. If you act like a pornstar, or something. It always has to do with CONSUMERISM which has to do with making MONEY for the jews. The jews aren't interested in your rights, neither the rights of men or anyone. They just pick up certain portions where people feel comfortable with, such as "the rights of children" or what have you, they divide people that way, and then they use the divide parts to destroy the larger whole in shrewd manners. They are interested for that you give them hard earned bucks to fill the voids that create into your Soul, such as that you are ugly, incompetent, your beauty never enough, that you are dumb, etc. They also prey on the lack of knowledge and direction of women.

Now, these stupid women that follow the enemy paradigm are never "free". You cannot be freed from stupidity, however much you pay the jew, or however many university diplomas you get, however many men you attack or demoralize in your trip to "whoretown". Because this is obviously stupidity in the core of the thinking. It's blindness. Here, we are to examine the SATANIC Woman in CONTRAST to this woman. Not the Goyim cattle woman, or the Muslim woman, which is what most of you have left behind. This is pure rot and enemy control. It's sad women have to undergo all this, it's sad men have to undergo all this. It's all a sad, gloomy situation, like the jewish mother that gave birth to all these problems.

This is the greatest disrespect women have ever had happen to themselves. Women who are awake to this can see this.

It's even worse than the jewish infested Burka, or whatever else. No woman is free today. Those who are "free" in the sense of the enemy, almost always end up alone, deprived, nymphos for their whole life, abandoned and left aside, watching Sex and the City, trying to mimic the kike actor "Samantha" or something, or the other jewess in the film. Then, stupid women who are naive

enough to trust these things, go down these roads only to find themselves destroyed in the end. Then, they develop serious trust issues, love issues, and self-hate issues that can never be solved. I know many women can relate to this. And let's be honest, men get the same thing all the time, so there is nothing to be hidden in this situation. It's just against the jews.

Women who awaken to their instincts, like a sleepwalker, they come into their senses. They understand for instance, that the blood of their period they get every month is not a curse, but a spiritual blessing from Mother Nature. Their power becomes triple-doubled. But what power? You have to meditate to see this. Otherwise, you see even the biggest gifts as the biggest curses. The jew sees for you, you do not see for yourself. Therefore, you are in a worse situation than just being blind.

They realize that in their bodies, they are the house of life. They suddenly wake up to realize that they are a chain of life in their cosmos, and that their body might belong to them, but this is a result of countless deaths and work. So, you do not just waste this. They wake up to the fact that they are the only being in the cosmos that can have the experience of having a second, separate life, separate Soul, within them. They are the life givers, and the preservers of life in itself. Not only that, but they are also the mesmerizers; they have the power over life and choice. Sometimes, they say that even before the most powerful men, there is an equally or more powerful woman. Many men can testify to this, as have many leaders in all the times and orders. Then of course you have the women who are down to earth, leaders.

They know that it's more possible for a respectable woman to be heard and respected, than these obnoxious slobs they promote to be "women" and "speakers" of women. These women are not women. They are like lost children at the feet of real women. It's your job to get them straight and save these fellow women who are on the route to self-destruction, wherever you see this happening. It's just the enemy is afraid. Rightfully so. So, they just try to, rationally, destroy what they are afraid of. As always. And a realized woman is what the enemy has been trying to destroy, while leaving all their stupid counterparts to rule and speak out for all women.

Other women are in seas of confusion. Our Satanic Women are NOT. They have found their home, their goddesses, and their selves. And this cannot be stolen or taken away from them. Depending on the peer pressure and brainwashing, at least they stand a chance if they work for it. Others will never know.

A little question is also apparent to show the real value of mother women, or grandmothers for that liking. How many had a good mother and how many know what a great blessing it is? Adolf Hitler himself openly mentioned his mother all the time, and the love and embrace he had for it. So many other great men have done this. Weren't it for her, he wouldn't have been. Others who didn't have good mothers, they are always left with this gap. You ever asked about an orphan person? Kids hurt a lot when there is not a father around, but the mother seems to be non-replaceable by anyone. By anything and everything. This is the common thing most people say. They just wish they had more love from their mothers or something else. And it all starts from a mother. Good raised children, good citizens, good world. You can never know. In the eyes of a mother, we see the pure dignity and divinity. And what does the enemy see? An empty shell waiting to be destroyed.

The base nature of what it is to be a woman, no matter the divisions and the choices women can take, or their differences, is being attacked. It doesn't matter if you are polygamous or monogamous. So long as you are a real woman, an honest woman, a woman that is respectable and of a higher spiritual nature, they will try to destroy you. So long you are doing what the jew wants, you will always have problems, and even if you DON'T do this. It's just in one occasion, you lose yourself, in the second one, you will OWN yourself. You will no longer be a mere owned pawn of the jew. Because this is how it works. Women are put into either relentless competition with other women to get the very few Alpha males that exist (thank jews, many of them act like young brats), or they have to take the lonely path of using men like slaves, and force themselves in other directions. Or the path of loneliness... So I come with a message of hope for you. You can make your life and your own fate. You have the powers and you have all the means. Yourselves can and will be restored.

It's just either-or. It's like women are attacked all the time for no reason whatsoever. Like, having a pound or two "more" than the standards of the kike porn industry, or some kike fashion designer "decided" for women. Now women,

these "ordinary" women are stupid, because they go after all these "lengths" to "follow" and "adhere" to their kikes, but if a man has an objection, we have feminism. I am sure most Satanic Women see this and want to vomit as well. Like, seriously?

Some things by nature are given to us as they are. We can follow, or we can take another way and blow ourselves up. For instance, like a woman cannot be a construction builder in general (IN GENERAL, THERE ARE *ALWAYS* EXCEPTIONS LIKE PRO ATHLETE WOMEN, ETC.). The average man cannot have this certain mother instinct that makes a woman a hundred times more intelligent in raising her children. The point is not breaking up persons and being overly individual. The thing is to understand that women must be part of their men, and men of their women, without a division. At least, for the people who want a union to take place.

This is what the human heart longs for, but the enemy makes it difficult, makes it a strife, makes it suffering; breeds stupidity, instability, uncertainty, and fear all over the place. At times the world is uncertain, then you, then the other person, whatever. Nothing is meant to last in this world. The enemy brings mistrust, separation, and destruction in the sexes, divide and conquer. Turn what is supposed to be one, against one another. This is the allegory on how the "JHVH" cuts Adam from his wife. And curses them both, same as their progeny. It's not so much a topic of sexual preference, as you can be free and do whatever you want, but freedom can also, paradoxically, become a hindrance that keeps you from doing anything.

The jew DOES NOT CARE HOW OR WHY, OR AT WHAT CONSEQUENCE HE WILL DIVIDE. He just wants to divide what is at once made powerful. This is no different than how they try to divide men and women internally, by destroying their Soul. This they also do externally in society. It's the secret of success in human relations, that one understands one another from WITHIN themselves. From understanding their own male and female nature.

It's like, all women pretend to be so different now, but what makes them beautiful, different, and Divine, is missing. Same as it is missing from the whole world that listens to the enemy. Women always say they are women. But when asked, what is this thing that makes you a woman? You are going to hear shopping bags, her

body, or something else. Things that she owns. You will never hear the actual reason, that they are a personification of the Divine Spiritual energy. They do not feel it. They aren't really AWARE of it. It hasn't saturated their mind. A Woman. Which is the internal spiritual dimension of a woman, the pure feminine power, the strong word, the support, her role in this society.

Women, same as family, are the backbones of society. Any society. Doesn't matter if it's the one of the Sharia Law, or anything, even if women are treated lowly or not. Women deserve more than being put on an equal "pedestal" just to "feel" equal or the pseudo-basis of the "human rights" of the enemy, or just equal circumstances outside. They deserve to wake up and be spiritual creatures, and have an actual choice, not the illusion of it. But it's all just missing. And you just see empty women who try to fill their days with drugs, dissatisfaction, fear and paranoia. At least for the most part. Or you just see women that are just having their potential lost. Or all other pathologies. Why? Because they believed the Jew who told them they were free.

Since when does free rhyme with stupid, irresponsible and acting like a professional goyim animal without self-consciousness, basing one's sole identity on consumerism and building up a so-called personality, over hang-ups, fears, and Sex and the City? Is this freedom? Because girls, if it's freedom then I digress. I must be just another phallocratic oppressor...

But our Satanic Women Know Better!

Don't worry girls, it's not like the writers of the Bible, Quran, and the Monotheistic religions, who stone women to death, carried out the inquisition, etc., the JEWS, suddenly got interested in your "rights". It's just that they know the female element, being the birth of all, is also chaotic unless defined and refined by the inner male element in a person. The primordial waters of creation, personified by women in Spiritual literature, are equally totally destructive or creative. What defines these is the male element in nature, which is a directed energy. With the direction of the enemy, this turns society into a total and complete death and disaster. This is why you see women in the west, a small portion of them, destroying their Race or something. This is why they let everything go rampant in the West, making "free" women be like "whores", paradoxically making them ACCEPT being RAPED by the husbands of the 5 women of the Immigrant Hubby

of Burkas, making their people stab their own people in the back, etc, all while believing themselves to be "free".

Because this is just what it is. Nobody really will ever be more loving to you than your own people and your own husbands, sons, family, and racial people. Because they love you, and to us you will forever be divine. To the point we always, at any point, sacrifice ourselves for you if needed. And no, your feminist "best friend" that will get with some guy at one point, because she was jewess or something and must replicate its kind, betraying you over the "Forever feminist bitches" pinky promise you had- no, she doesn't love you more than the loving eyes of your own child, husband, or son.

I realize now, many women, especially Satanic women who are powerful, even to the point it scares many men to bits; may have problems in relations. But I know at the same time, you have the power, the capacity, and the intelligence to even be in charge if needed in your relations. In all, do not let anyone suppress you and do not let yourselves be abused. There are all the means necessary in your arsenal to attract the correct mates. Be it for sex, for love, for affection, for a family, for a platonic relationship, or other things. And it must be filled with some vanity. Women are pushed to degrade themselves to empty meat, and certainly, men are pushed in the same way. Both genders have serious issues.

I spent my life around women for a great part. I have seen their beauty, I always admired how they kept themselves clean, strong, and have all these fancy and peaceful things to keep themselves working. I have also seen mothers, grandmothers, and all sorts of women in all roles. I have also seen what is defined as the "women" of nowadays. Somehow, it's a being without any internal dimension. There is no thinking taking place in these women, like women are supposed to not think or something, and act like pieces of meat. This is the same case for men. Supposedly, they are carrying a revolution. I have also seen the "party animal" bitches, Madame Figaro incarnate, and what else have you. The jew laughs at these "free" women, for they know quite well that they are entirely dependent upon them; they have no common sense.

All sensible women would probably agree. There is no way, a woman is a woman, as thus, her senses being highly aware, to waste herself in such a way. One thing women have that is prominent, at least real women, is dignity. This is

why you see women taking the extra mile or even suffering in work for their rights. Because they have dignity. The jew of course doesn't stop anywhere with this. Jewish women are the teachers of lack of dignity, lack of common sense, destruction, and pain.

It's like, according to the jews, jewish women are so bad that even the jewish god didn't want one. But, when it comes to Gentile women, well, our Gods wanted them really bad. And our amazing goddesses wanted us back... So, who asked you, sickly jew? They can go to their ugly, disgusting "women" that even their own "god" doesn't want. As for us, Satan has his Lilith, you know, and Lilith has her Satan. So jews lose again.

In closing though, this is not a matter of "women" or "men". Any such take would be needless and poisonous. We have to look at the core, which is us, against them. Everyone is equally or more attacked and afflicted by the same enemy. And we have nothing to divide in going against them.
