

SATAN'S DAY RITUAL - DEC 21st to DEC 25th - HAPPY SOLSTICE/YULE!

High Priest Hooded Cobra 666
[December 20, 2022](#)

Greetings to all of our Satanic Family,

Now that Yule is upon us and Father Satan's day arrives, it's a jolly time and a time to think of hopes, dreams and future aspirations.

Every year on this date we are reminded that the longest night of the year, as with any difficulty in existence, will always pass. Eventually, the light of day will be longer, progress and prosperity will come.

As Spiritual Satanists we are very happy on this date to give our glorification and positivity to our God who protects us all and takes care of our spiritual journey.

It's time to allow one's self to get into the hype, and get excited, to celebrate internally and even externally if circumstances allow. In time, everyone will be free and we will celebrate as we should.

Our collective spirit is most powerful. Let's show that!

This is a day of Satanic brotherhood, where we are to pour out our love, care and thanksgiving towards Father Satan Himself. It's His day, but as with everything that has to do with Father Satan, He is a giver and not a taker; we receive more than we can ever give.

We therefore as His followers must show him our appreciation inside of a world where still the beings in it are beneath understanding Him and His Eternal Truth.

In this year like the year before, and all years to come, we are going to come closer to our Father Satan and get to know Him better. Thinking in that spirit, we will do one Ritual and one Psalm towards Satan.

Other Demons will also get theirs in due time. Father Satan is the first to receive a prayer/psalm like this.

The word "Psalm" comes from the Ancient Greek "Psalmos" which means "sung prayer". We will not exactly sing, but we will vibrate, despite of the fact that Father Satan deserves all the songs in the planet and then some.

The Psalm is to be repeated 3 times. On the first time, you can read it mostly with your mind. The second time, read it with emotion. The third time, read it while strongly trying to comprehend everything mentioned in it.

Let us celebrate and properly glorify our Father Satan!

Happy Yule everyone, and Happy Solstice!

Satan's Psalms - Honoring Satan

The Satanic Psalms are prayers which are meant to both glorify the Gods whom they are directed to, but also open up the initiate to the spiritual forces that the Gods represent inside of them, for both self discovery and empowerment. These will grow our understanding, our bond and consciousness of the Gods. Every Psalm is to be done three times, from end to finish, for maximum effectiveness.
