

The Solution of Adolf Hitler for Ending the Jewry Domination

How the jews act should be very evident to people that actually know them and pay attention. Most people have the attention span of a fish, the memory of a fish, and the mind of a sheep. These people are the easy prey of the jews.

The jews in their existence have learned important crafts of misdirection and confusion. This is what they thrive upon. As HPS Maxine wrote, the jew thrives on lack of spirituality. Aside from everything, spirituality increases the consciousness or awareness. The open 3rd eye is exactly responsible for this.

Now, as for the jews, you can observe some very interesting patterns. One pattern is that they claim all their enemies are jewish themselves. This tactic is based on the inner megalomania of the jewish aliens, in that they are superior to everyone else. As thus, no "Goyim" (animal slave in hebrew) can ever oppose them. They do not accept in any way the possibility of this, so they project.

The other pattern is also quite easy: Jews always cover their tracks. Unlike all other Races on Earth, the jews have gone into all sorts of abnormal attempts or all sorts of lies, despite all evidence, to lie. This is called Pilpup in the Yeshiva dictionary. This is where one lies against all evidence with even bigger lies.

When the jews are revealed, they are "Khazars", "Semites", "Egyptian" or "Hindu", or whatever... German Jews, American Jews, the list is endless. Never-ever, jews. The jews are never jews when they are attacked and revealed. When it comes to this, the jew is always 'harmless' and 'innocent'. Another pattern is, you are always wrong. Evidence doesn't really matter. The jews know the Goyim are more susceptible to being destroyed by "Feeling".

This is why their enemy programs emphasize on FEELING. Feelings can be easily manipulated by the jews and they have made in-depth studies into this, same as manipulating the mass mind. The same meme pattern is where they claim they are NOT a "Race", even though a jew or even mixed jews can be easily recognized by their distinctive characteristics. They are, but they abuse the feeling of doubt in people in order to pass away their lies. The jews are a Race and they claim it openly. They also abhor their own people who are mixed. This goes so deep that the average mind cannot really comprehend this. Satanists are not meant to be average minds. These average people with average minds don't accept facts because the facts can't go into their tiny heads. Reality however, goes far deeper. Satanism comes from Satyan - Truth Eternal.

When the jews are in a position of triumph and power then they rant and rave about their Racial Jewishness. They themselves in their inner circle do affirm, accept, and are entirely AWARE of their "Racial mission", even their different Genes, and how they are spiritually and existentially separated above all others.

Another very important thing to know that the jews do, is that they abuse the feeling of hope. Hope is maybe one of the most abused feelings of the jewish Race as their myths of "salvation" and "waiting to be saved" are all built entirely on this concept. So the Goyim sit down all day like couch potatoes or never demand anything because it will "come". It never comes though. Hope without action is totally useless. Combined with action it turns to something else entirely.

Then from this builds up the illusion of choice. The same can be seen in the Hillary and Trump meme which is a good-cop/bad-cop game of the jews in America right now. This is the same as the Christianity-Judaism in opposition meme, or the Orthodox Vs Catholics meme. The two or more choices that are owned by the same person, is a classical way of how the jews dominated people. The jews rule by the illusion of choice. 99 percent of Humanity can be fooled with the illusion of choice. The jews can't really be open and dictate what they want, this is why they manipulate choices instead. Remember, they are an alien Race and a slaver oligarchy.

Above all, the enemy uses people from within their own system to do their fighting for them. The enemy doesn't go on the front until past the point of being super powerful. They send others to do their fighting such as misled sheeple, xians, mudslimes, and the list goes on. The enemy doesn't want to waste "precious jewish lives". Fighting is for the Goyim and wars are for the Goyim. In their mind, if they can reduce the numbers of the hated White Goyim while sacrificing other "Goyim", or generally turn people to destroy one another, all the better for them as no effort is wasted on themselves. This is why the Jewish Torah is filled with messages of how "son attacks father" or how other tribes in-fight all the time, etc. All caused by the "hand of JHVH" which is actually a blueprint of jewish magick or trickery.

One last thing to remember is that the jews are literally in a Race against time. They are keeping the masses asleep while working to death to create their own destruction as they are preoccupied. This is done on purpose as they know the human lifespan is small. They totally misdirect people into a world of illusion, vanity, and lies, that leads a Soul absolutely nowhere. This ties into the metaphysical death the enemy programs are teaching, and also the capstone of it is the feeling of "hope" and that one will be saved. The jew plays the savior and the destroyer at the same time. This is in their Torah, where one jew makes one Gentile go bankrupt, and the other one lends him on high interest.

In short: the jews lie, deceive, create illusions, and keep the people eternally pre-occupied, while exploiting their existence to become ever-powerful. At all costs, they must remain hidden and they have absolutely no boundaries on what they will do or how they will act, in order to preserve their nasty existence. The enemy also thrives on lack of knowledge on the part of the victim. This is apparent in their spiritual attacks, where they attack people who are against them for being jewish, or cause all sorts of other insane and bizarre attacks.

Adolf Hitler mentioned that the only real saving of Humanity from the jew would come by a spiritual revolution based around National Socialism. He, himself, was a supremely spiritual being and the enemy knows this quite well, while they have spewed out he was even an "Antichrist" as well, or made other revelations about Him being in the Occult, or other things. The point remains that Adolf Hilter was a most spiritual being, same as many people around him. While Adolf Hitler and others knew about the Divine Message behind National Socialism, many people of their age didn't quite understand. The enemy wasn't afraid of guns and violence from National Socialism. They were afraid of the idea in itself because it professed paradise on Earth, life, intelligence, betterment of Humanity, revealing the jews, and all these values that make life impossible for the jews. The enemy

requires dark ages, gloom, destruction, depression, death, and war to exist, and endless deception.

Without these, by nature, they can't really rule or get forward. Many people did not understand the deeper nature of National Socialism and many still do not, but the Jew understood this and waged war on these people to destroy them, like the "Babylon" or "Babel" or any other advanced Civilization (like Egypt). For this reason, many say that Hitler was on a Race Against Time. Why though, would a spiritual revolution be the most central theme of National Socialism?

Because this would mean the opening of awareness and the opening of the Soul. The literal re-awakening of the Gentile spirit to resist the enemy oppression. Without awareness, one cannot fight anything. All of the Ancient Religions emphasized on awareness and life, all of which are aspects of the Serpent animal, and also the Serpentine Force. The Serpent is Symbolized by Satan, and the enemy religions are against "Satan". Remember, Satan leads to the Tree of Life and to the Tree of Knowledge (both these are allegories for the Soul). The Ancient Texts in the East mention that the return of the Siddhas and the beings of Light would signify the end of the Age of what the enemy represents, which is decay. This is the coming of Kalki. Kalki carries with her battalions of light, who destroy the darkness and decay, and bring the Satya-Yuga of bliss and light. This is, though, an allegory. Actions and choices are still at stake. Humanity, as I have said many times, won't necessarily be saved and that is the Truth. The feeling of false hope must be abolished and be replaced with the ability to act.

Spiritual people are the only ones who can really weed out this issue from where it began and actually wage useful war on the enemy. Physical action completes this, but everything starts with the spirit. Remember, everything is an idea before it manifests physically.

Unless Humanity elevates themselves spiritually, they come to understand the connection between Spiritual and Material, and they wake up from the Alien imposed Jew-Trix; Humanity will never ever be saved. We have shared the most innate, deep, and powerful teachings on how the enemy will be destroyed. What remains is that people with enough self-love, love for the planet, and loyalty to the Truth, will act. This is up to us all, and nothing is set in stone. Everyone on their own level, we are responsible. The whole message of the Ancient Religions and the Teaching of Satan was that Humanity guides its fate, and not "god". "God" is just a terminology.
