

# They Want You Out - Fight For Freedom

In this world and the enemy especially, they want you to be a complete slave without any form of consciousness.

Many erroneously believe they have "Free Will", let alone "Freedom of Choice". You do not, and it takes a lot of work to reach this level.

The inner "enemy" is real; there is a tendency towards the bottom - something inside us seeks to never advance spiritually especially when one is new. One has to fight this and make it understand.

Enemy entities, be these physical agencies or agencies of the enemy or their physical servants who "run" things, are now the opposite of what it was in the past: Their mission is to spiritually disconnect you, to make you forget your origins as a soul, to ruin you, impoverish you spiritually, and take everything away from you.

Infinite are the ways where the above can happen, but only few are the paths one can walk to actually ascend.

I've seen people fall for this because of poor convictions, doubt, low willpower, external events, or infinite amounts of excuses. If you want to fail, they have ways to give this to you and to take you away from the Gods and down into the lowest bottomless pit of consciousness.

All these things that one must heal from, the enemy knows how to accelerate: They are the whisperers of doubt, hate, resentment, and misery.

They will fight you so that you never ascend. Others will do so willingly, and others unwillingly because of their own ignorance, but in all cases, this factor will exist. One is therefore initiated on the Warrior Path, not a path of "peace". Every epic of our ancestors is based on epic battles, there is no "gospel" that preaches "peace".

Only certain other holy books mention about this subject - the central concept is war. Tens of thousands of years of Divine Knowledge share this message to wake you up.

And that is because as Heraclitus said "War is the Father of All" - you must want to fight in order to liberate yourself and your soul. Or one will remain a prisoner inside the bounds of ignorance.

For our spiritual freedom and liberation, there is a war taking place. We are active components in this war. The capitulated will never be free. They can expect nothing.

Those who give up this path, have nothing really to expect. A menial life without a meaning is ahead of you, and you more than likely know it. You can only delay this, until this faces you at some point "down" the line.

Opportunities that exist now, are not guaranteed to exist down the line, however. The JoS is one of these opportunities. Humanity hasn't had one of these for centuries.

I don't want to wait for centuries, so I took my tasks seriously.

Life will prove to you down the path you just opened a hole in a never ending sea that constantly refills itself, the sea of ignorance, the drill being yet more excuses to continue on the path to downwards - a form of drowning.

In this case, we must swim and put our heads above water. It's easy now. A shore can be reached.

The highest price one pays is the price of ignorance, the price of remaining a slave and a prisoner.

We fight so that we can be free. We are going to Homer's Ithaca.
