

Veganism, Ownership, Workers Class, Animals... And... Jews

Part 1:

Looking around, one can see why some people turn to Vegans, which is because of the insanely evil treatment of animals in slaughterhouses and the list goes. This is exactly practiced not because there is a "need" or a "necessity" as many claim, but for extremely high profits for the (((Plutocracy))) who wants animals to be grown up fast, modified and the list goes. This sort of thing is highly not necessary at all.

As the jews write in the Protocols:

The intensified struggle for superiority and shocks delivered to economic life will create, nay, have already created, disenchanting, cold and heartless communities. [9]

Jewish Run China Forcing Veganism On Populations

<https://web.archive.org/web/20170722122025/http://josministries.prophpbbs.com/topic15284.html>

But let's be honest now, it's not like suddenly the Governments that control the world, push the Jew World Order Agenda, such as in Communist China, who force-feed deadly vaccines to people, questionable cures, endless fluoride, extremely powerful psychedelic drugs, don't emphasize on physical well-being, pay people lower than cattle, and grow people into fat missiles... Suddenly started to "Care" about people in any deep level. It should be evident to all people on the planet that there is an ulterior motive in the forceful pushing of Veganism, and not some sort of "interest" or any real concrete "help" reason this theme is coming up strong as of late. Also, it's not "coming up". It's re-emerging, as it did exist before.

This is also, nothing new.

Thing is, though, most people don't really try to pay attention to what Veganism is actually. In the Bible itself, one can see the prohibitions of eating meat, and in the "lore" of these jewish systems, the "Goyim" (animals) are not allowed to feast on other "Animals" such as pigs and the list goes on. The jews themselves have strange murderous fetishism on "How" these animals are to be killed. They have to be killed in the most bizarre, torturous and damaging ways. They don't really just slay an animal quickly for the food, they literally sacrifice the animal slowly, and mercilessly, in a very specific way "approved" by the jewish "God".

While people try to "Eternalize" Veganism, I am sorry, but the Jewish Xian Church had you first:

"Unless a fast-free period has been declared, Orthodox Christians are to keep a strict fast every

Wednesday and Friday. The following foods are avoided:

-Meat, including poultry, and any meat products such as lard and meat broth.

-Fish (meaning fish with backbones; shellfish are permitted).

-Eggs and dairy products (milk, butter, cheese, etc.)

-Olive oil. A literal interpretation of the rule forbids only olive oil. Especially where olive oil is not a major part of the diet, the rule is sometimes taken to include all vegetable oils, as well as oil products such as margarine."

From the same site:

'Fasting is one of our greatest weapons against the Evil One. I will repeat what Father Lazarus told me once. In 1962, I went to the USA. I stayed there a long time and travelled to many states. The letters of Father Lazarus were a great help... He used to say: "Go anywhere you like, do whatever you like, as long as you observe Fasting"... Because not a single arrow of the Evil One can reach you when you fast. Never.'

-Ascetic of Love, the biography of Mother Gavrilia, pub. Series Talanto. pg. 200." [1]

The "Evil One". I.e., Satan. Satan is linked with meat eating, aside all the other "sins", such as meditation, and rebelliousness against the Jewish Hebraic Zombie "god". In this website, there are also other feasting "periods" that must be observed by the Good Goyim, in order for the Hebrew God to be "happy" and allow them into Heaven. Which, oops, but sorry, only exists for 144,000 elect Israelites who are chosen since the beginning of time, so don't bother Goyim. Just waste your life serving jews, hoping it might happen...

Why so much hate in regards to meat, that it had to even be associated with the Devil himself? Keep reading and we will see the problem unfolding.

The obvious was obviously, pushed in all Orphanages, Church towns, and the list goes. Even many universities used to be Christian Schools in the same way. Wherever Xianity had power, this rule was imposed. Disobedience to fasting, results in lovely hellfire after one is dead, eternally.

However the rules of the church no longer have any power on people. So new methods were invented.

So back to jewish slaughtering.

This is nothing new for the Jews who are accustomed to this for centuries and of course, do the same to even human beings and children- one just needs to read their history. This is the reason why they have been driven out more than 100+ times from all decent and civilized countries in the world. After all, the "jew" is the only "Human being" and it is the only thing that deserves "Human treatment". Beasts are beasts and they are here to serve, and this includes Gentiles who are "beasts in Human form" [2]. Jews feast equally on other animals, or on "Goyim Animals". They keep the "Goyim Animals" for special celebrations, however.

To feast on Gentile people is actually part of their celebration and relationship with "God". As written in the Talmud:

"Everyone who sheds the blood of the impious [non-Jews] is as acceptable to God as he who offers a sacrifice to God." -Yalkut 245c [3]

The blood drinking gore was given rise to by the jews. As for animals, the jews are commanded in the Torah to eat...Animals without blood. Which requires them to suffer and to be left bleeding for days, until the blood comes out from their body. This is why a lot of this insane industrial farming is going on.

"But now you must not eat the flesh with the life, which is the blood, still in it. For the blood is the life." (Genesis 9:3-4) [4]

Bear the above in mind.

When people think of Veganism, they most of the time do really forget about our animal friends and familiars. To my present knowledge, our animal friends and pets *NEED* meat from protein, same as all Humans do but disregard this. Also, while people can pretend to be living "Vegan" while shoveling supplements, vitamins, custom proteins and the list goes, our animal friends can't really do the same. Neither Humans can do this, but anyway. It's necessary to kill.

Another Vegan hypocrisy is the supposed suffering of Animals. Plants do also "suffer" and it's scientifically observed that they can pick up on sound, emotions and moods. Also, plants are equally exterminated everyday, thanks jews, such as forests and the list goes. Plants do also get severe experimentations of them. The whole "merciful" thinking is highly tied into xianity, and the severe guilt complex a lot of people do acquire for not wanting to accept the laws of existence and life. You have to kill to eat. However, what defines a person as good, or a civilization, is how the growth and killing of these animals or plants that are to be eaten, is carried out. Is it "Kosher"?

Many people try to make eating meat sound like another "Shoah", try to guilt trip others, and all sorts of other insane methods. The awareness that non-vegans are some sort of criminals is also lurking around the corner. This is nothing less than the bible, and sometimes, this also escalates into actual full blown Xianity, where people just say ugly shit like "God doesn't allow meat eating" and they quote the bible in quotes like this....

"Blessed are the merciful, for they will receive mercy." —Matthew 5:7 [4]

"I will make for you a covenant on that day with the wild animals, the birds of the air, and the creeping things of the ground; and I will abolish the bow, the sword, and war from the land; and I will make you lie down in safety." —Hosea 2:18[4]

Oy Vey, apparently, nobody will have to die anymore... In the "next life". Only an actual Vegan, or Xianized nut would believe this sort of un-scientific and unrealistic joke. In the meantime, the jews kosher slaughter and enjoy in the suffering of billions of human beings, animals and general life. This is exactly the line many people do follow in regards to this thing... Xianization... Of the diet. Hoping they are somehow doing some divine mandate on

the planet by helping it. Even when breathing, you produce CO2 which actually, unless the trees were around to make oxygen, is a pollutant. Should we kill humanity now in order to stop this "suffering" from spreading? Let's get actual, shall we?

The ideal "Communist Society" is a worthless society, which of course is totally pacified and "Vegan", aside technologically enslaved and everything else. Supposedly, this is the "Future". What do the jews have to say about this "Utopian Future", same as Vegans, Bible Trumpers, and all sorts of other unrealistic servants of the jews?

"We have in our service persons of all opinions, of all doctrines, restarting monarchists, demagogues, socialists, communists, and utopian dreamers of every kind. We have harnessed them all to the task: Each one of them on his own account is boring away at the last remnants of Authority, is striving to overthrow all established form of Order. By these acts all States are in torture; They exhort to TRANQUILITY, are ready to sacrifice everything for peace: We will not give them peace until they openly acknowledge our international super-government, and with submissiveness. The people have raised a howl about the necessity of settling the question of Socialism by way of an international agreement. "[9] -The Protocols of the Learned Elders of Zion, Protocol 9, "jewish Superstate"

Part of this "ideal" society is also pacification of the diet for bizarre reasons. It should be evident. As it can be seen in the part 2 of my reply, it's not just "diet", as the average worker thinks of it today, being a money consumer that doesn't have land ownership etc. It's about ANIMALS and the FREEDOM people have in being in control of their own food, to grow their own food, and have ownership. This is also an underhanded attack to farmers themselves. Animals also in turn produce wealth, or at least, freedom. The Rune for Wealth is Fehu, which literally means, CATTLE. Cattle even in the bible also symbolize wealth.

One member not long ago came to the groups and wrote one lengthy message about how he and his wife followed the strict "Vegan" diet, without supplements and anything. At around one month, his wife started losing the hair from her head. It may take different times for different people, but the danger is there and once one's body starts running on its reserves, this is bad as it means it's depleted. Proteins are named Proteins from the Greek [Protes Ines] which means first essences. These are the first essences upon which the body is built.

Now as about non necessary stuff like, furs for jewish grannies and whores, leather seats in some car, or something like that, these are IMO completely worthless and they are no longer needed. They can be modified and with the technology we possess now, these can be made custom. There are also better materials. As for animals who are killed for food anyway, this is nothing bad as their skin is not needed after their death (which let's hope has been humane and noble). The jews are told however to skin animals and that this is a command from "God". This must happen, or otherwise, ritual tools of the jews such as the "Tefillin" cannot be created. [2]

However this ugly thing corporations do in Communist China, wiping out the skin of live animals, because they don't want to euthanize each one due to high cost, is a practice that is deplorable and of the ugliest ever.

The Ancient Pagans did, in fact, respect animals a lot. This is why in all of our Pagan cultures you see animals everywhere. Animals weren't slaughtered without thoughtful measures and without paying tribute to the Gods that were protecting the Animals. A dead Cat in Egypt would result into the death of the offender. The animals had an equal footing to Humans and were considered beings in their own free will. The enemy abhorred this respect of animals and this can be seen in the bible, who uses the term "dog" as a derogatory term for Pagans and others. No animal is disgraceful, let alone the animals that help us survive (like dogs, cats and cattle), except of the jewish cockroach who is a useless parasite. Gods are portrayed AS animals, or WITH animals. [7]

What does the jewish bible say about this, though?

"In the Torah, humanity is given dominion over animals (Gen. 1:26), which gives us the right to use animals for legitimate needs. Animal flesh can be consumed for food; animal skins can be used for clothing. The Torah itself must be written on parchment (animal hides), as must the scrolls for mezuzot and tefillin, and tefillin must be made out of leather." [5]

"They shall no longer sacrifice their slaughtered beasts to the demons whom they wantonly follow. This shall be a rule binding on them and their descendants for all time." (Leviticus 17:7). [4]

In the quote of the Genesis above, we see **JokeHova the jew, affirms basically what the jews follow as the "Kosher" process of eating food, NOT the old process.** It's part of following the commandments of this being.

Apparently, we Gentiles aren't allowed to "sacrifice" anymore, i.e., Consecrate our animals with Divine Respect if they are to be eaten. The jews are the inventors of the term "sacrifice" in the first place. The sacrifices of Oxen and other creatures weren't the grotesque process the jews affirm they are, to actually hide their murderous psychopathy as "normal". The accurate term for the Pagan people was "Consecration". Meat was considered holy already in these times. In the kike religion, it had to be "cleansed" in the "Kosher" ritual. But lo and behold, we are allowed by "God", like the Jews, to just go "Kosher" mode on animals.

The 3rd Reich stood for all these rights. Animal rights, worker's rights and abolishing of Jewish Influence in general. Hitler himself was capable to be a vegetarian, while not a "vegan". However, this is for the people who are possible to do this without implications.

Below a video of this "holy" procedure, and how the Nazis educated and attempted to annihilate this monstrous practice [Warning- Gore]:

One thing to also look for is how JHVH gets jealous on the supposed "Jews" worshipping him in the form of a Golden Calf. Animals are lower than God, the same goes for the Goyim animals that came up with this "conclusion". Jews are as thus told to degrade animals in general, and dishonor them if their image ever receives "honor":

Exodus 23:8 They have been quick to turn away from what I commanded them and have made themselves an idol cast in the shape of a calf. They have bowed down to it and sacrificed to it and have said, 'These are your gods, Israel, who brought you up out of Egypt.'

Exodus 23:9 "I have seen these people," the Lord said to Moses, "and they are a stiff-necked people. 10 Now leave me alone so that my anger may burn against them and that I may destroy them. Then I will make you into a great nation."

As for home grown animals, free range, nice animals, who have had their life so to say, aren't unhappy animals at all. Their death is painless and fast. Not all animals are meant for farming in this way. Industry farming is the worst, as these animals suffer all the time and without any reason in particular. One should not let these lines blur however.
