

What Can America Expect on Day Two

HP Hooded Cobra 666

November 11, 2016

Now that the "jew/shabbos Trump Savior of OyVeyism" will slowly start to go into a 'normal mode', people will be gladly 'surprised' to see their 'savior' Trump going down certain routes, which may be shocking to those who expected him to act in any other way, believing in his votebuying "promises".

One of these routes Trump will take at first is the route of 'normalization'. In plain words, he will become the full jewish president he is intended to be since the beginning, that is to the extent and by the mode through which his masses will not have a violent revolt. In simple words, methodically, he is probably not going to do half of the things he has (((promised))) based on some or any (((Excuse))). In the same way after the 'elections' he rushed to kiss Bnai Barry's feet, and hugs and kisses with Hillary, his supposed enemy, so will be the case with all jews. As we have told you before, nothing changed, except of the perception of the masses in regards to the rigged systems and everything.

One possible option is that Hillary's hordes will be used, so that the jews can cause civil unrest, and also keep "Trump" from acting in any of his "Promises". As thus Trump will be put as the "Victim" in order for the jews to gain more momentum etc. There are many routes the enemy may or may not follow, less or more evident, what I want is to just give everyone an idea, and make everyone more aware of that it's not going to be White or Black. There may be undertones. Now if the people are going to sink-in that crap, that's another matter, and probably our RTR's will make sure this will again boomerang into the face of the enemy. The jews are highly skilled in doing things that win them time.

As Mossad says, "By the Art of Deception you shall wage war". This is stolen from Asian warfare manuals, and this is real. As such our education of the masses should be focused to obliterate the 'two side' meme of the enemy, which is the Hegelian dialectic of supposed 'opposites'. The jews have controlled the planet with this for centuries. "Good Christians, Bad Muslims". Who owns them both? Jews. The list goes. Left or Right? Capitalism or Communism? The jewish dipolar game goes on eternally.

These elections as we have argued before were a waste of time, and a social experiment to see where the popular mind is at, and re-plan the jewish struggle based on new conditions. Humanity does not sink in the JewWorldOrder as

easily as jews would like. Now of course our Rituals brought the enemy extreme casualties, such as random scandals, populist uprising against the hebrew media, the list goes endless. The jews also revealed themselves as the nefarious people they are from all sides.

This became mainstream, and this is our only benefit, as with Trumps imminent betrayal of the White people and All Americans, people will finally wake up as to the jewish control, and the Shabbos solutions (who are In fact,jewish) will never work out for us. The Jews are in Washington again. Operation Trump had a boomerang effect that the jews thought they would minimize, and they played again two sides against the middle, but when the Trump Hype dies out, this will escalate even worse. Now people are more informed, and Trump was like a plan B in order to manage their problems and win them time. Trump's natal chart is the chart of a conman, front-man, the same TV persona that is to sell lies to naive people.

As I said in the other post, there is a slight chance, Trump might swing to become a most obnoxious person ever, and really anti-White, without building any walls, or doing anything in particular. It's obvious in servant Trump's natal chart, he is a loudmouth. Trump was nothing but a jewish product, on a seemingly "Gentile" seath, that was just spewing out 'politically incorrect' things, so the jews would win the elections for once more since people KNOW about the jews and their time is running out. After this person, there won't be much more to pull as a stunt for jews. As for the other shill, it went really down. This was a lose-lose situation for jews, at least where the public is concerned.

WE SATANISTS DO NOT EXPECT SHABBOS OR HALFLINGS TO BE OUR SAVIORS! *WE* ARE THE SAVIORS OF OURSELVES, AND ONLY FELLOW GENTILES WILL ABSOLVE US FROM THESE ISSUES THAT ARE PLAGUING US! Never forget this.

As far as these Trumpeys and Hillary's are concerned, our only concern should be how we can better use them to advance our agenda. This is what the Gods think, and this is what is going to happen.

The "Two Sides Against the Middle" is a classic one. In my replies on the subject before, I have stated again and again, that people shouldn't be looking at PROMISES. Every time (((Elections))) happen, everyone listens to the promises, and they defend these jewish servants as if they are so amazing, because of the (((promises))) they give. These are almost always complete and total lies, that only win the jews further and more time. Trump was on the edge of what the jews can do, to still keep the dissatisfied people in the Jewish System. Alex Jones,

Andrew Anglin and the rest of the Shabbos or Jewish company. Alt-Right is the New Left. And its going to act really left-y so be prepared.

Even in the imaginary scene that Trump was supposedly really with the people in any way, you will be surprised to see in his next months his gradual demoralization, change and how he will become the jewish cuck he always was, only in the change that it will be different. Trump lacks knowledge and many skills to run office, and as with anyone else, the jews aren't going to leave him do it. In the fantasy scenario that he is a real ruler, he has no clue as to how he will "Rule", as thus his garden is going to do the ruling.

As for Pence, Pence is an Evangelical christian and a super decent choice for Israel. Trump of course has talked both sides of his mouth for the whole campaign. What is to our benefit is that one side of his mouth is beneficial to our own narrative. What we can do and look forward is that we can educate people more openly, since Trump in order to be elected opened up the 'taboo' regions we are dealing with, and on jewish losses brought them on their gamble to keep people enslaved.

In fact,, a trick like Trump was necessary at this point. Trump is not any miracle, or anything that wasn't supposed to happen. Now HOW it happened, and with what casualties and revealing of the Jew World Order, well, that is a miracle caused by those fighting against them. Trump was a safety net, plan B for the jews, but nobody guarantees it will not rip as well.

On the fantastical instance that "Trump" shows any disobedience and stuff, and if we want to place our bets on a more positive side for us, the RTR's can make jewish counselors and many other jews fall in vain. In short, if they don't have anything substantial to offer, their influence will become lesser and the enemy will generally be demoralized. In the even more fantastical occurrence where Trump does things for our side, given he is mixed (jews are afraid of those mixed due to being prone to betrayal), so he may unconsciously press on landmines like he did in his election campaign, this is what we can bet for most. Now, do not be deceived- otherwise than from our efforts, nothing would happen. Our RTR's will cause the necessary 'coincidences' so that they will be forced to act in a certain direction.

So it's to be considered to remember whose tit Trump has been sucking, and who made him, and not to be considered as anything else than he is. If he is put to use by our means and our side, for anything, and protected for it, in an unconscious way for him, that's a different issue. In this case, the jews could potentially threaten Trump with economic collapse or something like this, but this scenario is the most highly unlikely. Trump will also be surrounded by jews, and

at this point, his Jewish family lot is in the White House, of which he is himself a member and no different.

The jews however will be forced, thanks to our RTR's, pressure, and the Gods, to throw some of their people/ideas/achievements or undertakings under the bus, because of the fear of populist uprising from the masses, who thanks to the 666[www] have been waking up. This is to protect themselves, and this is encoded in the Torah. They are willing to go to any lengths to maintain power, and Trump is one of these scheduled plans. They would rather have power, at least to a degree, even if things don't entirely go their way, as they devise plans on the back to regain full rulership.

This 'throwing under the bus' should not be considered an act of 'good jewry' or 'good jews', as this is a plot, neither any of our victories as 'friendship' or 'backing down' or 'goodness' of the jews. It's just because jews cannot do better at this point, and a product of spiritual force is compelling them to act in certain ways. Whomever thinks of things differently, they need to wake up and see their thousands of years of history.

I will explain in depth what is going on in my part 2, which will be titled "The White and Black Brotherhood of Jewish Rulership". People will then get the game of Trumpey, and the general 'system agents' like him, and how we can benefit from it.
