

# Working for the Satanic Future

HP Hooded Cobra 666

April 5, 2017

We are idealists. Some people may think of us as insane today, but what isn't "insane" about us, when "Sanity" is basically the philosophy of a soulless, rotten human being that always and forever sinks? If it's called "Insanity", "Racism", "Satanism" or "Bigotry" or "blah blah blah", then it is what it is. It means nothing to us, you know?

We are opposed to this, and therefore, we have different opinions. We see things differently.

Satan reminds us and lets us know of the Immortality of our own Soul, and the Soul purpose. This can take more than one lifetime. This is the meaning of building for the future.

Just ask yourself, where would you be, if you were born in a Satanic family, and meditated from the earliest days of your life, or had access to this material, or even taught much of this in your school.

This in reverse, is what happens in Pissrael. Most jews by their thirties are already versed for all high positions in existence, due to sustaining spiritual stolen culture, while most Gentiles in their 30's have their first pat in the back, 'reality check'.

Many of Gentiles may have had to reach our 50's and 60's to find the real God. This could have been corrected by a global, race adjusted, and powerful culture. Naturally, the Souls of previous Satanists will go and reincarnate in the hands of the positive Satanic families in the future, in accordance to the Will of the Gods and Race. This is a phenomenal advantage as you can see. No time lost.

Only Spiritual Satanism can lead in extremely powerful and spiritually vibrant civilizations for Gentiles on the planet. Everyone who is an initiate today, knows what Spiritual Satanism can do to the transformation of the self. All other systems are neutered, and they don't have the power and the spiritual backbone to actually do anything plausible than be more than make believe.

This is because essentially, the nowadays called Spiritual Satanism is basically what was common knowledge among the higher and mystic classes of the Pagan people. They just called it "Truth" in a sense, because it made sense, and we today call it "Spiritual Satanism". But it's the same path to power.

If people are about to have children, by the third month of pregnancy, you can ask Satan to send you a Satanic Soul that is suitable for you to raise as your progeny. Satan will protect you and help you. Needless to say, this can be a most beautiful experience.

Every day we have enemies, free loaders, and other people who are not concerned. This is not the mentality of future Gods. Of all the animals, the only animal that is able to think about their deepest future and the largest future is the Human. Of course, when one is not acting like a human, they are closer to animal level. The mentality of Gods, and the Wise people should be different. Satan has brought select people here from all Gentile Races, because Satan's aims are great for Humanity.

Satan doesn't see a rotting world, neither should his followers. Those who are 'live and let be' and don't give one damn about anything but themselves, it's safe to assume, nobody will give a damn about them as well. But this is Justice, isn't it?

To show you the extent of this. In between Reincarnations in the Ancient World, kids knew by an early age due to meditation, who they were in the past life. Therefore, they had no question about their own social standing today, or where they were, or what they were to do, or things committed in the past lives.

The Jews openly state in the Kabbalah, that aside all the other curses, they have cursed humanity to forget who they are. Trends, and who one goes, is carried with someone, and re-manifests in some form or another, in the next life.

The Pagan Mystics would get people in their own grave from their last lifetime, and they would get also their important physical belongings, given that the initiate was spiritually aware, pure and clean of mind, without any need about lies and false deceptive "muh importantism".

This is why in large tombs we had all this wealth stored inside. So, the reincarnation of a person, could get their hard-labored wealth again. This process was to be repeated, until the person finally became a Demon, and subsequently, a God and therefore immortal.

We have such a great future ahead of us, especially in this Age of Aquarius. We have to fight the enemy, eventually defeat them, or die trying. For those overly concerned by seeing the enemy on a position of rule now, don't worry. Rule does come, and rule does go, especially in the case of unfit rulers such as those of the enemy. We are already seeing their system collapse.

Unfortunately, civilization due to bad universal forces, and forces of the enemy, is being threatened to actually collapse. The Ancients had made as much preparation as possible, and now, in these late years after 2012, we exited the dwindling circle towards the bottom of the universal line. Now, the energies will push for betterment, rather than decline, and as thus, the influence of the jews is dwindling. We have to make sure this deal is done with and they lose all power.

In a sense, all Spiritual Satanists are actually working on the will of their Ancestors and Soulfamily from time immemorial. We are doing what they have been doing in many ways. You vibrate their names, as your Ancestors did thousands of years ago. You meditate on your Soul, as inherited by them.

We didn't have a destruction in the Pagan system, for who knows how many hundreds of thousands of years. To the Gods, the jewish accident is short lived. They have other plans.

It doesn't matter if one brings a small stone, or a giant stone, what matters is everyone brings something. In the end, Satan's vision will be manifested.

Work, so that you will be worked upon, help so that you may be helped, show loyalty to the Gods so that they will be loyal to you, for they are honest.

This is the essence of Working for the Satanic Future.
