Greetings to all of our Satanic Warriors.

As many of you know, Angelfire just arbitrarily shut down our website in a typically yid terrorist attack where something disappears as per usual one sweet morning without any explanation, or reasoning, or anything related. This is typical of how the enemy thinks and operates, they only know rogue warfare, in particular also against people that they have lost.

The accusation here was more the shady new Wrongtalk and Wrongthink 1984, legally nonsensical and murky term "Hate Speech", I.e., Gentiles having their own root religion re-discovered and ditching Abrahamic programs, which is inconceivable to the enemy. There was no word of hatred hosted under this particular site, but you know, a communist purge is a communist purge. It can't be else in 1984 world.

A milestone has been reached with very, very hard work. To start, we have regained after repeated attempts our domain which is <http://www.joyofsatan.org> . We were aware of how to retrieve this, but without going into many details, due to the nature of the situations around this whole problematic incident, it required harder pressure to get this back than normal procedures.

Typical religious discrimination is here. If we wore Hijab and we were preaching universal Jihad, not only we would be left alone, but universally helped, accepted, maybe even have our mayor in London, named Sadiq. Abrahamic cults and all sorts of terrorist in the present century are treated way better and in more humane manners than people who just oppose or think differently of the status quo, this is what this world is coming too.

This is therefore Information War.

As a result, both the .com and the .org on this domain are now operational. There is still chance there can be some broken pages as one can understand this is a huge work to fix everything but it will eventually be fine.

We also do have a Portal as everyone knows which is <http://www.SatanIsGod.Org>, where many of our other sites are contained. We also do possess another Mirror website which will host more mirrors of already existing webpages and translated pages a new domain that will soon be up. All sites will be put there so they cannot be taken down, and/or for backup reasons.

The management and work put in all of these is just beyond comprehension. I had no life when I was working on all of these for months, this was an insane work, creating a huge milestone for us and safeguarding our websites and keeping the

truth alive. Needless to say a lot of pride has went into this work. I want to also thank the people that were waiting and co-operating with their patience during this time, as this was a brutal amount of work.

Last but not least, the JoS Activism is now open so we can progressively organize spreading information on the internet.

Below you can join and start working on this forum. The idea is also we may have monthly or weekly assignments. We will co-ordinate this as time goes, and this will also include members who are doing well in this and delivering results. This is most important to maintain the truth and also fight in the face of brutal censorship and the general impersonation of the borg world that we are living into today.

There is no capitulation or option here. We fight for the future of our world, our children, our races, and our core spiritual culture, our VERY existence, spiritually and materially. No compromise, hard work, and doing what we have to do is mandatory.

Our enemy has AI's, media rule, infinite funding and buildings filled with cheap mexican labor to shape "public opinion", large platforms, internet "force" that they use to deceive and misinform Gentiles on a consistent basis, censorship, fake moral signalling, the usual use of violence and terror that is very frequent of them to do on their enemies and so forth.

And even at this height of all tools, they have just flipped out at popular awakening. They own the world and they cannot contain the awakening of people. Why?

Because the awakening is Truth based, while they are lies and deception based. Anything founded upon lies and deception is bound to collapse.

Satan's name is Truth and He brings us freedom and peace by awakening us.

Freedom must be fought for actively, lest it's gone, especially on threatening times such as this.
