Greetings to all of our Warriors and Satanic family.

First and foremost I wanted to thank everyone for your efforts and work on this year, in all ways, for online warfare, spiritual warfare, calendar, translations, everything - big congratulations, honors, and thanks.

I recall not too many years ago, we had only the Yahoo groups, with a few thousand members in it, has to be 3000 and struggling around this number or such when I first entered. This we have worked together and changed this, expanded, and now we are stronger than ever before, which is terrifying the enemy.

A couple of years later 3000 was only the people that were subscribed to my Youtube Channel, within less than the span of a year of me working on the channel seriously. I created this material with a lot of personal toil and endless hours of working and endless sleeplessness in general. This is only one example. In another post the numbers of the actual impact of this work have been related and they were tremendous, which is why the channel was taken down.

The situation here on these forums alone, which were initially created by a HP Micama (no longer present) and myself, we quickly rose to the quadrupled amount in less than 2 years. Then as many of you remember these forums were taken down aside the Youtube and everything else.

HP Micama was not a vocal type of person, but he participated in some of the most superior and important works, both visible and invisible, not only at the time, but for the future as well. Blessed be he.

Instead of commanding solely, it's important to also be in the front line, and I always have done this personally in all the matters that everyone else is doing. Smaller or greater tasks it doesn't matter. For this reason you should also yourself fire some bullets, metaphorically speaking. One or two it doesn't matter, just make sure they reach the point.

2019 likewise will be an exciting year of new developments. Part of these will be a couple or more websites that we are developing. We will also circumvent the issues about JoS being blocked, and as always, expand.

As for the JoS material video sites, this idea is being worked on, as circumvention has to be found on some kosher measures of the jews, which prohibit or can create serious trouble when one simply uploads material. This is not the same as putting websites up. There is not a need for other details there. During this time, I have observed my work in general has took it's way and has been spreading on the web

regardless during the time, which is a work we have accomplished together with the people here that cared. Thanks to many of you here who spread it.

Lastly, I will put these up for organizing a bit better. Normally, mails are crammed. Therefore I will put up a new e-mail here for work, translations, and organizing our things. This cannot be made into many details due to the enemy reading these things as well.

Translators please link translated material and other similar work and use this e-mail to reach on the work, as translated work will be part of the above. All people whose translations are already known, please also mail here so we can organize them. This is part of another project that has been ongoing:

[cobra.army.666.sh@protonmail.com](mailto:cobra.army.666.sh@protonmail.com)

Aside the above, there will be rituals and a new type of schedule, that we will be following through the year, in an organized fashion as we have done for years. This is necessary to win and advance. Periodically I will update these in order for us to keep going. These rituals and developments will be on specific ordained dates down the year. The war against the enemy has been kept systematic, same as our developments, this is why they manifest.

Our work will forever be immortal.

HAIL SATAN!

HAIL THE GODS!
