

Important: On Satan on You

The Kabala states the letter Teth was not in the original ten commandments, which it states were positive and will be brought back in the world to come (the original that Moses destroyed in his anger at the sin of the Israelites). The letter Teth is also not in any of the names of the 12 tribes of Israel which form the physical manifestation of the god of the Jews who will rule in the world to come. The letter Teth represents sinfulness and is a negative to the Jews.

Teth is stated to be the letter of the serpent and the descriptions of it also have to do with things to bind with. The proper spelling of Teth is Tes in the correct Hebrew alphabet as Rabbi Munk showed in his work which is referred back to as the authority source on the subject of the Hebrew alphabet by books on the subject by other Rabbis and Jewish authors.

The vowels are interchangeable, which is the reason why Tes is the reverse of Set, which in Egypt was properly spelled Sat. In Hebrew, many times the Aleph the A is put as E. In Egypt, the god Sat was the ancient king of the Gods. And in the east Sat is the highest name of God and the savior God. However, in Hinduism, Satya (absolute truth) the name of the ancient godhead was depicted as the pillar which connected heaven and earth. The spine and head with all the chakras. In Egypt, the Teth letter ruled the nine Gods, which formed the tet pillar, the same. And it's actually Sat. The name Sat in Egypt was fully spelled out Satan, which was the name of the serpent spirit, the breath of life, the soul, and the King of the Gods. In Sanskrit, Satan is the number one hundred, which is the number of godhead and perfection, spirit the serpent life force, Satan means The Eternal God in Hinduism. The Sumerians called their head god Enki (Anki where the Ankh comes from), Satan, and stated this God created them. The Yezidis, who came from the east and were part of ancient Sumeria, still call their God Satan. The Yezidis state that Satan taught the first humans the knowledge of ascension into the light body by the serpent power Yoga.

The reason the Jews spell this as Tes (Tas) is because in Judaism if you reverse something it's a curse to erase it from existence. This is why the letter Tes is not to be in the world to come, which is the Jewish Messianic global kingdom. Because they wish to erase Satan from this earth. This is why the articles of binding are given in this letter because its spelled backwards to bind the Gentile soul the serpent energy. The reason Tes is used to denote sin is because the actual original sin in Judaism is to be born Gentile, to be of the bloodline of Satan, which the Jews state the Gentiles are in their religion. The Jews state that when the Messiah comes he will destroy all the Gentiles, thus removing sinfulness from the earth.
