

Iran: The Big Picture

The bigger picture looming in the background of the conflict happening in the Middle East is that of Jew Putin's cabal in Moscow. The Jews never left power in Russia. They were forced to pull the plug on the USSR and then fall back and reorganize. The former Rebbe of Chabad, stated in 1984 that the USSR was going to collapse in a few years. He had this on insider information from the Rabbinical network that ran the USSR that he was connected into. That is why the Jews started fleeing the USSR in droves to America in the 1980s. The Jewish cabal in Russia is using the same methods they used during the USSR:

"During the Cold War, the Soviets provided arms to Muslim nations so as to ingratiate themselves to these countries and bring them into the communist fold. This provided Jewry with a pretext to demand arms from the USA and make it appear that Israel was an ally of America against communism, in spite of the fact that Jews dominated communism around the globe and saw it as fulfilment of their messianic prophecies of a one world government ruled by the Jewish king from Jerusalem.

The Soviets became anti-Zionist so as to further ingratiate themselves to the Muslims in order to subvert them for the benefit of the Jews. Ironically, this also provided pretext to ship Jews from the Soviet Union to Israel, while Gentiles remained imprisoned behind the Iron Curtain."

- Putin's Reign Of Terror, Christopher Jon Bjerknes

The other thing the Jews did when they ran the USSR was provide the Arabs with near worthless weapons so they would be no match for Israel and to train them in worthless methods they were not equipped to use and could not make successful anyway in the area. Ensuring they would lose, this also included playing the Arabs from behind the scenes so they would lose to Israel, while pretending to be their ally.

Putin sent thousands of Chechen terrorists from Russia down to Syria to fight against Assad this is documented in the presses as well. The Russians were caught by the Iranians giving the Israelis the codes for their air force to bypass Iranian and Syrian anti-aircraft weapons to bomb Assads forces along with the Iranian forces in Syria. Putin also met with the leader of Israel before coming into Syria openly. This was only done because Iran had taken over the military operations and was shipping in tens of thousands of troops. This was to make sure Putin stayed in control of the other side for his Jewish tribe. Now Putin is demanding Iranian forces totaly withdraw from Syria. This is to protect Israel and leave Syria open for the continued proxy war Israel is waging against Assad.

There are reports that Jewish Putin is behind the scenes attempting to manipulate Iran into military actions in the Middle East to provoke conflict with America in the sense of war. All this while the Jewish cabal that runs America is now provoking Iran with the assassination of their General, which, as the honest news reports show, there is no evidence for the claims used to justify such action. Now the Jewish cabal in Washington is bringing back the same propaganda word for word that they used for Iraq, just replacing the word Iraq with Iran. At the same time Russia and China are now launching major military training exercises and North Korea is starting to make noise over this event. The Jews are attempting to use both sides, Russia and America, from the top to manipulate the world into a WW3 event over this situation in the Middle East. The Jewish cabal that runs the planet believes in the global Messianic war that has to happen to give them control over the planet totality. This ties into the Christian Bible. The Jewish Rabbis wrote in the book of Revelation about how the Nations, which means Goyim, are destroyed in a Messianic war by the King of the Jews. And then the planet is ruled by the King of the Jews with the Jewish race of Israel the 12 tribes the 144,000. This creates the psychic power and programs the mass mind globally including Gentile political and military leaders to manifest this and connect with such and the rituals to manifest such by the Jewish Rabbis.

Jewish Putin and his Chabad cabal that run Moscow use Christianity to maintain control over the population on purpose and to maintain the grid for returning Russia into total Communism again with such. As the Kabbalistic Jew, Dugin, who is Putins strategist, openly states in his own works, they plan to maintain control with Christianity and Communism. Kirill, the former KGB agent who was made the head of the Christian church in Russia by Jewish Putin and his Rabbinical cabal is also a Jew. He served in the higher-level KGB which, as the Jewish sources state, one had to be Jewish to do such. Jewish Putin has also passed numerous laws making it illegal to criticize the Jews and giving strong prison terms for such. The Jewish cabal in Washington is attempting the same in America. In Jewish religious law, the Goyim are forbidden from criticizing the Jewish chosen people, as it is to criticize god. The Jewish Torah states that Jews are physically god and Gentiles are animals put here to serve them as slaves.

Jews created and use Christianity to enslave the Gentiles, Putin and his cabal of Jewish Rabbis in Russia prove this fact yet again, as if the Bible was not enough on its own to show such. The Bible is a book of Jewish witchcraft that is being used to bring about the Third World War. The Hebrew letters are the key. The Jewish Bible is written in Hebrew and the New Testament is designed to connect into the Hebrew. Keep up the Final RTR because the world depends on such.
