

[Italian Protests Co-Vid, Gets Caught By Cops And Sedated](#)

This reminds one a lot of 1984, only, this is on steroids. Despite on if one understands Italian or not, this scene is basically out of a strange alien movie. Brother Cuore Nordico posted this.

While many haven't really understood this, we are now experiencing the worst strangulation of personal rights that has ever been, we only compare to Soviet Russia.

But hey, this is to save everyone from the super devastating "definitely a million times worse than the bubonic plague" virus going around. "Ze wold" was DESTROYED by this virus because it has a "SUPER HIGH DEATH RATE". It has killed 60 billion people...minus 99,999% of that. That is something beyond comprehension. After all it killed 60 billion people minus 99,999% of that.

"We must quickly crash the global economy and kill everyone in order to save them from the supreme 60 billion dead people minus 99,9999% of that, virus, too many chosen people died from this, even some holy Rabbis", a genius jew must have thought somewhere.

One just opens up their TV and all they listen to 24/7 over the last 2-3 months is about how deadly and so forth this virus is. It's as if nothing else exists anymore, no other causes of death, no poverty, no illnesses, no calamities, nothing else. Only this Co-Vid exists anymore. Still, the deaths are nowhere close to the flu rate of yearly deaths. Many countries follow the reporting line that everyone who has contracted Co-Vid and dies of any other illness, they report them as Co-Vid deaths.

But these people in such dire situation, could die from any other illness. Many also die from the actual flu, yearly. But there was never any excessive measures taken for this before. Indeed, not even the most basic sanitation advise, or drinking Vitamin C is recommended to most people, nothing at all.

It's almost as if, someone would think, a situation is being over-hyped for many other purposes involved, other than the so called disease itself. The matter is being...aggressively misrepresented.

No "Totalitarian State" did ever impose in many cases half of these measures, like forced lockdown, having to sign papers to go out of home, satellite surveillance for the masses to "track them down" or anything of the sort. Complaints, protests and anything of the sort, is now handled by the "Health Technocracy" in a way that is "Healthy" for the masses.

The situation is being so real and so "Beyond raising questions because raising any = conspiracy theory" that now the health ministries do abduct people, arrest them, and sedate them, so that they should stop being conspiracy theorists. The leftist Democracy "of the (invaders mostly) people of Italy" has looked to that indepth. It's giving beautiful ideas and beautiful messages worldwide.

Anyone who is in Europe also knows the following: Muslims, Gypsies, non-European blooded people, and essentially every other invading tribe or a refugee, were not even enforced by the authorities to stay in or anything like that. Also, the "Stay at Home" measures, which are so strongly espoused for the masses, are not applied not even at 10% for things which can evidently cause a viral breakout, such as mass illegal migration.

Funny how everyone warns of a relapse, and the first people want to do, is just again turn blind eyes to the phenomenons more likely to cause pandemics and viral situations - boundless migration policies.

Let's spend tens of billions and trillions for this, so one person can randomly just come in and re-infect everyone again. Meanwhile let's chase grandma's down the street because we have to pretend this is highly important for the viral health of the populace, rather than feeding people experimental vaccines that haven't been tested for even 6 months or something. Common sense rules all.

After this happens, every goyim has to be locked down all over again, and everything has to repeat it self. It has to also perpetually repeat itself, until Billy Gates decides it's time to sell everyone 7 billion vaccines.

Billy does this for everyone because he has a very big and kind heart. When he went to vaccinate Africa, it just happened that he killed more people with the Vaccine than the local illnesses, but as we all know, Billy knows best. He is not even a doctor nor he will be taking any responsibility but we have to trust him entirely. He gave us [or basically people who programmed it did, because he did not program a line] Windows XP after all. He knows his shit when it comes to virology.

I say let's make this 70 billion vaccines, because we need to give at least 10 shots to every person on earth. This is not something to profit out from, silly people, Billy's plan is all about his kind heart. That is for our health and because there is a lot of worldwide care involved here. Maybe more would theoretically die from an untested or experimental vaccine, but that is OK, since everyone did what the "Definitely not a virologist" Billy wanted.

Enlightened Democrat Mr. Cuomo also informed everyone in an interview, that the "Coronavirus is death". The Coronavirus obviously is virologically deserving of more global measures than other diseases with 70% mortality rate. A striking death rate of 0.01 in many areas, is too much to handle. A devastating chance of 0.03 percent of death is out there. This is about the same chance of getting hit by thunder to die from this Virus, but geniuses like Cuomo have us all covered.

It also went to New York, and is started sweeping some Rabbis. And primarily that is the saddest part of it all, because it reminded everyone of the Holocaust. This Nazi virus was circulating around the globe, seeking out chosen people to infect. A global lockdown was a necessity. But the virus killed 0.003 percent of a specific people that lives alongside us as an Invisible Enemy, owns the media, and in general, considers itself to be the most important people worldwide. Mr Cuomo serves these people, gotta lockdown.

Let us all remember that Israel has suffered immensely from this virus...Immensely...Endless holiest of the holy people have died. One of the tribes of the Genius jews even said, that this is the punishment for the goyim or for homosexuality. An observation deserving at least 3 noble prizes was made by the most intelligent man of god. Eventually, since the virus was "For the Goyim", his

jewish people were plagued by the virus, and him also, but that is a matter for another time.

A wholly 257 Neshama super high level jewish reptiliansouls such as the above, have departed from this world and will leave us with less and less ability to complete Global Tikkun which is when means "The purification of the world" which deals with effecting wiping out Amalek [White people] from the face of the earth. Co-Vid blessings to these great souls that have ascended to the supernal brown light of Ha-Shit. Amen.

It is also the stoopid and sinner White people that are questioning these measures taken for such a virus...Maybe it's a bad thing to put cameras out side the houses of people? Maybe it's bad a bad thing to activate all global surveillence systems over what has proven to have less death rate than 1 or 2%? Maybe it's all done regardless with the frivolous excuse this is for public health? These are the types of questions the evil race of people that stands in the middle and disallows the global Tikkun is asking.

When some of these kinds of most precious Chosen People die [As jews have succinctly put, the virus devastated them], everyone has to be immediately quarantined. The life of jewish celebrities and the life of Rabbis in New York is not to be played with, that would be another holocaust. If this is worth it to leave half the planet unemployed, lest we run the risk that Madonna comes down with the cold, then so be it - we have to close everything down for Madonna and Britney Spears.

When a few dozens millions of random goyim die per month by hunger, that is something there can't be a lot of spending about. This does not affect Madonna unless these are black children she has adopted to pretend to be caring and not a jewish kabbalistic witch on the media.

But the best is still yet coming. Summer arrives, and with it will arrive more millions and millions of potentially infected "kalergi children for the future". But for these Co-Vid infection arguments do not exist these are the good oppressed people therefore health laws do not apply to them].

Co-vid impositions for "health concerns" do exist only to ruin the small budget company of a little family, and generally to find nice excuses to harass people protesting what appears to be extreme measures over a less than low level global crisis. It does not exist for those who will be coming on our shores pretty soon in the next months and will come in screaming "Fuck Americans" and stuff like that.

Travelling will probably be restored to at least "partially usual", and everything will temporarily return to "normal" again. The beneficiaries of the temporary "Normalcy" will basically be the usual suspects who never get touched one hair off from their head by any authority during the whole crisis.

Meanwhile, of course, middle class and lower classes will keep suffering and will more than likely experience things like a second pandemic emergence during the next months. But who can say no to rapefugees? We need more rapefugees. It was impossible to help people to pay their utilities, bills and banking loans for two months in the European Crisis, but perfectly possible to pay for infinite millions of invaders fat cash like thousands per month because they are so precious. The European Union did not have money to give to Italy or Spain to handle the Pandemic, not even masks. But a lot of overflowing money exists for our Somalian Kalergi future, and feeding these and infinite Muslim specimen.

It appears according to Jews, who, destroyed the economy worldwide... Wait, let's add a disclaimer. Evil kaneevil conspiracy theorists frequently blame them for starting up hoaxes or exaggerating events, or pulling the plug on the stock market etc, do not listen to them, even if the jews did that, we must always remember 60 billions of jews died and therefore they are not responsible of anything anymore. End of disclaimer.

Some even claim they created a situation "worse than the recession of 2008" and some argue "Worse than the recession of the 1920's" - but as jews worldwide would say, this was all for our sake goyim. There is no New World Order doing artificial famines and exploiting other events to crush freedoms, forcibly vaccinate, ruin the economy and get people under firmer control, and destroy businesses that they do not have under their thumb - you silly Conspiracy Theorist...

Remember, this will leave 1 or 2 out of 6 people worldwide unemployed, and that is a great thing, for the definitely not existing New World Order that of course does not exist at all, not even in the slightest. For one, we will experience a great influx of invasion in Europe and America to amend for this, all while of course, the people themselves will be begging for state crumbs just to get by and survive.

Empowering big companies with even cheaper wages and an infinite pool of people that will be left without employment, governmental bail outs, and so forth, and an ever increasing amount of broke blokes fighting to the death below, in the ever emerging influx of "oppressed migrants that seek a better life", while most Countries have failed to guarantee that even for two months over what appears to be the mildest pandemic that could theoretically happen.

The above is also exactly what one would want happening on the edge of the Automation era. What is more reasonable to do than make uncontrolled influx into countries that are already broken with unemployment, increase exponentially the unemployment into them, and inject infinite jobless and uneducated people from all other 3rd world Nations, all while imposing automation to replace even medium skilled workers?

Genius plans by Genius politicians, many of which from the most Chosen and Genius tribe of Israel.

But remember, the above is not really that relevant, this was to save the supposed Elderly [do not make questions goy here they love us THAT much]. There is no limit to where we will go to protect our favorite 95 year olds that we so much whole heartedly love, thought the jews. Even if this implies global hunger, global unemployment, people going insane, a forced pandemic, and whatever else, remember to always throw the responsibility on the Goyim - It was to protect them.

Jews are so caring about mankind that indeed, they have profited of all the deadly things, such as alcohol and drugs, which have swept millions yearly for decades - but now, be reassured, saving 95 year old grandpas is their holy mission, which they will successfully try to do. A change of heart of unparalleled compassion has come upon them. Or they are just fucking around and trying to use the global

crisis to their advantage? Do not be a conspiracy theorist now! Luck's Luck!

As we also emerge further in this pandemic make sure to remember that Jewish lives are very important, the Holocaust killed 60 trillion, that the life of New Yorkers [even some poor Rabbis were swept by the violent virus] and generally whatever befalls as close as the fingernail of a Jew, is reason enough to just lockdown the whole planet, and get half of people unemployed.

The correct policies were done to guarantee that the goyim will have to pay the price of the important Jewish lives, and lies. Nothing suspicious here, conspiracy theorists!
