Subject: I have some questions about my birth chart

Well i decided to try and start doing astrology, however from what ive done so far i found out my chart ruler is neptune in retrograde, with uranus and jupiter as co rulers which are also both retrograde and this from what ive read dosent seem to be a great thing, my question is am i destined to be some weak willed kinda crazy guy.
I do have some phycological "issues" like OCD hypochondria and fear of crowds so what im wondering is there a single positive to having neptune as a chart ruler?
Thanks for any help

There are many positives. Neptune rules high art, music, fantasy, imagination; compared to Venus who creates common art, Neptune's creations are superior, they appeal not only to the senses but emotions and all kinds of energies. Neptune, as well as Jupiter (your co-ruler), rule idealism, they give you the ability to believe things and help you do the unimaginable. This can be either good or bad, but if properly directed can lead to great things.

Neptune rules meditation, calmness, it allows you to go through things without much stress. Jupiter rules understanding, so people with Pisces/Neptune/Jupiter emphasis usually understand everything much more easily than the usual folks because their horizons are much wider, and their vision goes much farther.

Neptune rules propaganda and subtlety. With Neptune the ideas are transmitted through subtle (sometimes astral) means, reaching people without them even knowing. Neptune rules everything spiritual and psychic, so there's also an affinity with energies, and the unseen. This gives much power to control and change people. However, this in the wrong hands has brought the corrupted, sedated world we see today.

The outer planets (Uranus, Neptune, Pluto) are retrograde for much longer and much more often than the inner planets; it's very common to have an outer planet retrograde in the chart, it doesn't affect people directly as much as the inner planets (Mercury, Venus, Mars). With retrograde planets, things get better with time. There may be problems while you're young but they usually develop to something better later. Check
Neptune's and Jupiter's signs, house positions and aspects to see where your abilities and problems lie. As with all the outer planets, Neptune can be bad, but properly directed can be extremely powerful.

I was just thinking about this yesterday, Neptune and psychological problems and extreme sensitivity. I really believe when you have strong feminine planets, like the Moon and Neptune and weaker masculine planets, like Saturn or Mars, that's where problems would come from. Or the other way around, you could have strong lower planets and Pluto but poorly placed feminine planets you could be extremely selfish and hyper aggressive with no sense of empathy or little to no natural aptitude for spiritual disciplines. Balance is always ideal.

I didn't really answer your question, f.folets did amazingly already, but I really think working on your lower chakras will really help you. Like the base can help you feel more secure and rid you of irrational fears and the second can help you feel strong and confident, more like your own person.

I was wondering what everyones opinions are about cusps. Like if you're born May 21 and your Sun is 0 degrees in Gemini, would the solar traits you exhibit be completely Gemini in nature with no Taurus whatsoever? Or would the nature be mostly Gemini with some Taurus?

My experience is that planets or points such as the POF, etc., if at the beginning of a sign, they are totally influenced by that sign. As you near the end, the influence starts to be more like the next sign & less like the sign that it is actually in. However, regardless of how close to the next sign, it is still in whatever sign that it is in. A cusp of a sign is not the next sign no matter how you slice it. The idea is that you are dividing the sign into the 3 modes, of 10 degrees for each mode - cardinal, fixed & mutable. So the end of the sign is a mutable phase of the sign.

Houses, at the beginning of the house, I see as the same as above. However at the end of the house I see as a little different. I see more influence or total influence into the next house the closer you get. Sometimes as close as 10 degrees & for sure within 5 degrees. There also appears to be an increased effect of a planet or point at the mid-point of the house, but less powerful than the actual beginning of the house. Keep in mind that the houses & signs are not the same things.

Mid-points of 2 planets are very powerful & seem to act in the manner of a conjunction as best that I can tell.

Just knowing your birth time and the city is enough. I myself am in need of finding great books on astrology, aspects in particular but don't know of any. When interpreting my chart i used sites such as alwaysastrology, astroprofile and cafeastrology.com. Hope this is helpful to start with.

When I was born the sun was 0 degrees in cancer. So technically my sun sign is cancer, but I definitely feel way more Gemini than cancer. Which is strange since because the sun was at the beginning of cancer you
would think the cancer influence would be much more strong. Most times I'm really unemotional and logical, but I can be really sensitive at times. I would say from a subjective point of view it feels like a 50-50 split. I feel like I have three personalities. It drives me insane because Gemini is already dual natured then throw in cancer and most of the time I feel like a stranger in my own body.

P.S.: I really had to control myself and try not to start just ranting on this subject. I can talk a subject dry. Yet another Gemini trait when I'm supposedly a cancer.

Then one has to then see why. Where is the Moon? What is the ascendant? Are there any other planets in Gemini? Etc., etc., etc. Additionally, age matters. We become more like our Sun sign over time. Our Moon tends to rule us as very young children, then the ascendant. Later in life, the Sun as maturity increases individuality (Sun). You are less like the herd. Most young adults think they are all so different, yet peer pressure pushes them to group (herd) conformity. The will even referee each other. Over time, you grow out of that. You stop giving a damn what your friends think of you.

I find Geminis to be very intelligent (air), but wish-washy (mutable). They can do a 180 on you in a heartbeat.

I have sun mercury and venus in gemini :) it can be hard to not scatter myself about lol but its all good. I sometimes wish I atleast had my mercury in taurus or cancer to help me settle down my thoughts etc but meditation helps me become less wishy washy or skiddish.

I have a very important planet of my chart in 29** something degrees between Aries and Taurus. This makes me have both qualities of the planet in both positons. I can call in whatever one I want, with a little tendency on Aries. As I grown up and matured up, the Taurean side came into play and balanced me off. For instance in my walking life I am more like a Taurean, that is I can greatly focus if I set on, like in meditation. Yet other areas the Planet rules are more Aries prone. This planet is inconjuct to Pluto, which is too on 0 degrees between two signs. Which is very good as I can 'dabble' so to say between the natures of those. And an important placement in Gemini which helps me differientate between the two and fuses them,
sort of. Gemini in some cases can be a blessing as the individual can swing off through their one and other 'side', since gemini is dualistic.

Due to the opposite natures of Aries and Taurus (one is always in need of change etc, Taurus is stable and set) I can understand both ways of what the planet rules and is for. Pluto on the 0 degrees puts me as an intermediate between two generations or something. For instance my Pluto is 0 degrees to Saggi. Sometimes I act like a Pluto in Scorpio [More rarely], very explosively and I have the Pluto in Scorpio traits submerged with Pluto in Saggitarius. Since one rules psychic knowledge and the other one rules religion etc, this is great. But sometimes I feel 'lost' in between these and if I try to sit down and really find out what I am for, one or another- I really cannot. I would say both and that be the only explanation. When I was less mature spiritually, my Aries side of the planet did show up. I was more all out. Then after a year or two this seems to be changing into something better, yet retaining the originality of the placements. I think this shows how really deep the art of astrology is and seeing that way, its extremely precise for me and easily understandable, moreso than before I took this into consideration. Now don't think this is SO powerful, but definitely plays a role. Its like a 'tint' of the next sign, a hue of it.

But if we said that applies, I would say roughly on the 27th degree and after...But this is my opinion...Maybe even 28th half.

It's all part of the human experience as well as their own.

When a Gemini changes their mind, they will always have a reason that is correct to them.

When I was born the sun was 0 degrees in cancer. So technically my sun sign is cancer, but I definitely feel way more Gemini than cancer. Which is strange since because the sun was at the beginning of cancer you would think the cancer influence would be much more strong. Most times I'm really unemotional and logical, but I can be really sensitive at times. I would say from a subjective point of view it feels like a 50-50 split. I feel like I have three personalities. It drives me insane because Gemini is already duel natured then throw in cancer and most of the time I feel like a stranger in my own body.

P.S.: I really had to control myself and try not to start just ranting on this subject. I can talk a subject dry. Yet another Gemini trait when I'm supposedly a cancer.

I was wondering what everyone's opinions are about cusps. Like if you're born May 21 and your Sun is 0 degrees in Gemini, would the solar traits you exhibit be completely Gemini in nature with no Taurus whatsoever? Or would the nature be mostly Gemini with some Taurus?

I have Venus at 0** & Jupiter at 29**.

Thus these are the planets of earliest & last degrees in my chart. These placements are important for several reasons, but probably most importantly, they represent the cycle of experience for me. Each cycle in my life is based upon a beginning with Venus & an ending with Jupiter. Typically, relationship at the beginning & thus ending in a philosophical evaluation of the experience.

List your planets in order of earliest to highest degrees & you will see the pattern of your life's experience unfolded for you. As transiting planets make contact with natal planets in your chart, it will always follow that pattern.

with a little tendency on Aries. As I grown up and matured up, the Taurean side came into play and balanced me off. For instance in my walking life I am more like a Taurean, that is I can greatly focus if I set on, like in meditation. Yet other areas the Planet rules are more Aries prone. This planet is inconjuct to Pluto, which is too on 0 degrees between two signs. Which is very good as I can 'dabble' so to say between the natures of those. And an important placement in Gemini which helps me differientate between the two and fuses them, sort of. Gemini in some cases can be a blessing as the individual can swing off through their one and other 'side', since gemini is dualistic.

Due to the opposite natures of Aries and Taurus (one is always in need of change etc, Taurus is stable and set) I can understand both ways of what the planet rules and is for. Pluto on the 0 degrees puts me as an intermediate between two generations or something. For instance my Pluto is 0 degrees to Sagg. Sometimes I act like a Pluto in Scorpio [More rarely], very explosively and I have the Pluto in Scorpio traits submerged with Pluto in Saggitarus. Since one rules psychic knowledge and the other one rules religion etc, this is great. But sometimes I feel 'lost' in between these and if I try to sit down and really find out what I am for, one or another- I really cannot. I would say both and that be the only explanation. When I was less mature spiritually, my Aries side of the planet did show up. I was more all out. Then after a year or two this seems to be changing into something better, yet retaining the originality of the placements. I think this shows how really deep the art of astrology is and seeing that way, its extremely precise for me and easily understandable, moreso than before I took this into consideration. Now don't think this is SO powerful, but definitely plays a role. Its like a 'tint' of the next sign, a hue of it.

But if we said that applies, I would say roughly on the 27th degree and after...But this is my opinion...Maybe even 28th half.

If you're like 16 your chart is still developing, you may find you definitely feel more Aries or whatever as Saturn goes through everything and returns then you are really mature and have a clear perception of yourself. That's what my report said, the chart unfolds as one matures in life.

I love talking to Gemini people, it like activates my Mercury traits and my Mercury is in the 8th, the mental stimulation is a great feeling. Also Gemini is on the cusp of my 5th, fun and pleasure;)

I am on the cusp of Pisces and Aquarius and I have always realized that I could access both. There is my very sensitive Pisces side and I’ve also been getting in touch lately more with my very animalistic Aquarius side. Personally I am very glad that I have both sides because if I was just sensitive then I would be walked on and taking advantage of all the time. But there is a very strong rugged Gentile side of me that balances out the other side. To be honest I don’t know an awful lot about astrology yet but I have learned who I am over the years. The more that I grow in Satan the more that I am really accessing that strong Aryan side of my nature. And since the majority of my heritages are from the North Countries then it stands to reason that my Nordic heritages are getting stronger the more I advance.

I have Uranus in my 12th H about 10 degrees above my ascendant (wide conjunction), but not close enough to my Pluto to be a conjunction with it.

However, there is a power point right above my ascendant where the Uranus-Pluto midpoint conjuncts my Uranus-Ascendant midpoint. This conjunction of 2 midpoints then also have a midpoint. ;)

Of course Pluto & my ascendant also have a midpoint that conjuncts each of themselves as they are within 2 degrees of each other.

Individual &/or close friends are 7th house. So you have Jupiter (expansion) in the sign of the bachelor/ette (Virgo) in the partnership/marriage (7th) house.

Groups are 11th.

Regarding astrology, I have been into this for about 25 years. I don't do it everyday. I have never done chart interpretations for others, so if it isn't in my chart or if I haven't read about it, I may not know about it or know enough about it. I am also rare in the sense that I have no retrograde planets in my chart. The nodes are however, retrograde. I tend to only pay attention to my chart for the most part. This could change in the future.

It's all part of the human experience as well as their own.

When a Gemini changes their mind, they will always have a reason that is correct to them.

Shannon, I have a scorpio stellium including mercury which is conjunct pluto and I don't think I have come to the point of controlling my mind any easier than anybody else in terms of visualizing and raising emotions etc. I can control it now but only because I worked at it. But I have noticed in my life, even before I was a Satanist, a lot of the time it feels like other people have more to say than I even have thoughts in my head.

Maybe it does make a natural mage after all we never know how different our own minds are compared to anyone else for sure.

I definitely think someone who practices regularly will be able to control their mind easier than someone with a scorpio emphasis who doesn’t.

Yup. The houses pretty much represent events and circumstances in your life not personality traits but sometimes they do.
I have a very important planet of my chart in 29' something degrees between Aries and Taurus. This makes me have both qualities of the planet in both positions. I can call in whatever one I want, with a little tendency on Aries. As I grown up and matured up, the Taurean side came into play and balanced me off. For instance in my walking life I am more like a Taurean, that is I can greatly focus if I set on, like in meditation. Yet other areas the Planet rules are more Aries prone. This planet is inconjunct to Pluto, which is too on 0 degrees between two signs. Which is very good as I can 'dabble' so to say between the natures of those. Due to the opposite natures of Aries and Taurus (one is always in need of change etc, Taurus is stable and set) I can understand both ways of what the planet rules and is for. Pluto on the 0 degrees puts me as an intermediate between two generations or something. For instance my Pluto is 0 degrees to Saggi. Sometimes I act like a Pluto in Scorpio [More rarely], very explosively and I have the Pluto in Scorpio traits submerged with Pluto in Saggittarius. But sometimes I feel 'lost' in between these and if I try to sit down and really find out what I am for, one or another- I really cannot. I would say both and that be the only explanation. When I was less mature spiritually, my Aries side of the planet did show up. I was more all out. Then after a year or two this seems to be changing into something better, yet retaining the originality of the placements. I think this shows how really deep the art of astrology is and seeing that way, its extremely precise for me and easily understandable, moreso than before I took this into consideration. Now don't think this is SO powerful, but definitely plays a role. Its like a 'tint' of the next sign, a hue of it.

But if we said that applies, I would say roughly on the 27th degree and after...But this is my opinion...Maybe even 28th half.

2: and what it mean?

i read on the internet:

it's correct?

3: i have 8 squares in my natal chart, it's bad?

4: why on joy of satan there aren't the kabalistic tables of pluto, neptune and uranus? they are important!

My question is:
1- am i destined to wait until I’m 30 to have a decent relationship with a girl?
   (i’m 18)

2- the cabalistic table for venus may be helpful?

I.

An intercepted sign is one that has no cusp on it. An example:

3rd House begins at 29Taurus03' and 4th House at 03Cancer16'. This means that:

1. you have Gemini/Sagittarius intercepted
2. some signs are duplicated, i.e. you got two cusps in one zodiac sign (e.g. 5th House at 02Leo15' and 6th House at 28Leo39').

II.

The intercepted signs are like rooms within a room, but one with no handle. You have to find one yourself.

http://www.bobmarksastrologer.com/duplicated_signs.htm

http://www.bobmarksastrologer.com/Intercepted_signs.htm

III.

Don't forget that no chart is perfect, and it depends upon how well you're going to handle the tension, generated by the squares. Not every soft aspect is good and not every hard aspect is bad. Soft aspects can also be called STATIC, and hard ones DYNAMIC, for the latter make us achieve something. Too many of the
former may make one lazy and reluctant to achieve anything. Usually though a person is a combination of more or less equal number of both static and dynamic aspects.

IV.

These planets are not personal, but generational. Besides, have you ever heard about a kabalistic square of the generational planets? I haven't, unless invented by a kike. If there were such squares, HPs Maxine would post them.

Subject: Re: venus retrograde

It really depends on the house positions and other aspects. Having Venus conjunct the Sun is very good all by itself and should help at that. Do you have more retrograde planets? Which houses do your retrograde planets rule? Is Saturn in the 5th or 7th house? If Venus rules any of the relationship houses or the 5th house of romance, then that may really be a problem; if not, the real problem may lie in other area of your life.

All by itself, Venus retrograde and in aspect with Saturn (especially a trine) can indicate apathy towards relationships or social contact in general, which can lead to isolation. However, the trine shouldn't make you suffer for that.

If your chart shows a strong disposition towards being social and enjoying social contact, like your Venus conjunction with the Sun does, then you may not have any problems with this at all. But of course, you can change anything you want, through the squares, other meditations and learning how to deal with it.

Indigo, I have jupiter in seventh house, sagg on the tenth house and pisces rising. You CAN do the jupiter square still. The effects will be lessened but still produce some results. I have been using the jupiter square for weeks now and have received results. If I were you id definitly do it a few times. Its only 16 days.
When I vibrate it I still feel energy. I have an unaspected Jupiter, which makes my Jupiter strong.

1. Intercepted signs are where the entire sign is in the house it was explained well. 
2. Well it is the underlying factor in that area of a person's life which the house rules, you may have aspects of both signs in that house but the intercepted sign is weaker. Remember anything can be done with meditation and the Squares though like the person below me said I know that is true. It may be some aspect of you that you have as an underlying thing but don't know how to access. Like for instance I always loved music and wanted to create it but always thought people looked down on me as a kid (Pisces intercepted 1st house as I said Aquarious on the cusp) I always wanted to act in plays when I was given the chance and had a creative disposition but I was scared to admit it thought that either it was too much for the people around me to handle and that I could not do so probably not true and I am working on that lol but I definitely have traits of both signs and feel they both have effect on my life for good or bad.
3. It depends fully on the planets involved the houses they are in and the rest of the chart there is no easy answer to that question but straight out saying something is bad is not a very good way to look at it. Even Saturn can be good or a balancing factor to something else in the chart preventing major problems with it. If you have good squares great if not it can be worked on they must be looked at individually along with the entire chart. Like for instance Sun Square Jupiter and the Sun and Sun Square Saturn is a balancing factor preventing problems most likely but taken alone neither square is good. Just an example it depends on the rest of the chart so its not an easy question to answer.
4. Neptune Uranus and Pluto do have an effect on individual people (like for instance a chart ruler or aspects to planets position in chart etc) as well as generational planets where they are located etc but there is no square because it is not the kind of energy that can be handled in that way Uranus and Neptune can be invoked and directed to do things in your life its best to take it slow and with meditation this way something can be offset or strengthened but Pluto is something that seems dangerous and cannot be dealt with by invoking it as far as I know and I wouldn't try it it is best to do affirmations possibly but not sure someone else may have to answer on Pluto as I don't know but from experience but Uranus and Neptune can be dealt with in this way with no problems as long as a person doesn't overdo it on either planet. Holding or carrying the stone for Pluto may be of help as with Neptune and Uranus. Example Opalite matches the vibrations of Uranus perfectly and can even be used to invoke the planets energy through the stone.

Excuse me Sister but isn't it counter-productive (according to Satan's Squares) to do a square when the planet is in its signs of fall or detriment? And since Jupiter is currently in Gemini (it's fall) one shouldn't start the particular square at this point in time.

I just recently started reading up on the newly updated Astrology section so there might be quite a few things that I’m missing, but I wanted to do this square as well and the thread caught my eye.

Indigo, just use "my ideal partner". You don't need to get caught up in the details, that could backfire.

And Tappouzumaki, that could very well not be a relationship, since you didn't specify *how* she is in your life. Sure, it could bring a beautiful and interesting girl into your life, but she might be your cousin lol! Or a friend's gf. You need to include that it will be a romantic relationship for you.

"In a positive and healthy manner for me, I am in a loving relationship with my ideal partner. We are very happy together."

However, Mars does counterbalance that, so it's possible that, when in a situation where assertion is necessary, you won't fail even being so introspective. You know how to deal with things on your own. With age and experience your need for attention will probably be toned down or focused towards something else; there are many ways to be the center of attention.

The good part of having Saturn in aspect with Venus is that those who are called friends, usually remain friends for a very long time, no matter what happens; the same with relationships. With Saturn things are long lasting and very resilient. Your Capricorn Moon surely prefers quality over quantity, for you are slow to trust, and conjunct Uranus and Neptune, you might prefer unusual people by your side.

Nevertheless, with time I believe most of us will come to know what we really want from life... if it's people or other stuff. It's perfectly ok to not want people - and to be alone, for that matter. If you have people you trust by your side, only surprises remain. It's not much of a problem, it's just a matter of seeing things from a different perspective.

It's very possible, astrologically speaking, that you will find someone sooner or later, just maybe not now. If you really don't think this girl's worth your time, then don't do anything, just try to let the feeling go. Focus on other stuff etc.

To answer your question it depends I am guessing on where Jupiter is in your chart hopefully this doesn't actually weaken the planet in the chart cause I have done this I didn't think it was doing much. Well it seems in direct it actually manifested all sorts of bad luck related to jupiter (I had to stop the square) but in retrograde it seems positive and I feel jupiter a little but no where near as powerfully as it was last year. I am excited for cancer. Well Jupiter seems to rule animations somewhat and several things related to kids toys and some video games, certain musical pieces the color pink (just going on feeling) and several other things I always love anything related to jupiter horses and dogs?, etc well it doesn't feel as powerful in influence in anything. Hi, I'm just wondering what transiting Saturn conjunct natal Mars could bring. All I'm finding online is "increased self-confidence" or "decreased ability to get things done" etc.

I know I'm a bit late to this thread, but I'm just catching up in this group. Interesting info, M_18. My earliest is Jupiter (unless north node counts), and Pluto and Neptune at 29°. And going through my list of planets and their degrees, in order, it seems very accurate as to how events unfold in my life.

Thanks :)

I have a very important planet of my chart in 29*** something degrees between Aries and Taurus. This makes me have both qualities of the planet in both positions. I can call in whatever one I want, with a little tendency on Aries. As I grown up and matured up, the Taurean side came into play and balanced me off. For instance in my walking life I am more like a Taurean, that is I can greatly focus if I set on, like in meditation. Yet other areas the Planet rules are more Aries prone. This planet is inconjuct to Pluto, which is too on 0 degrees between two signs. Which is very good as I can 'dabble' so to say between the natures of those. And an important placement in Gemini which helps me differientate between the two and fuses them, sort of. Gemini in some cases can be a blessing as the individual can swing off through their one and other 'side', since gemini is dualistic.

Due to the opposite natures of Aries and Taurus (one is always in need of change etc, Taurus is stable and set) I can understand both ways of what the planet rules and is for. Pluto on the 0 degrees puts me as an intermediate between two generations or something. For instance my Pluto is 0 degrees to Saggi. Sometimes I act like a Pluto in Scorpio [More rarely], very explosively and I have the Pluto in Scorpio traits submerged with Pluto in Saggitarius. Since one rules psychic knowledge and the other one rules religion etc, this is great. But sometimes I feel 'lost' in between these and if I try to sit down and really find out what I am for, one or another- I really cannot. I would say both and that be the only explanation. When I was less mature spiritually, my Aries side of the planet did show up. I was more all out. Then after a year or two this seems to be changing into something better, yet retaining the originality of the placements. I think this shows how really deep the art of astrology is and seeing that way, its extremely precise for me and easily understandable, moreso than before I took this into consideration. Now don't think this is SO powerful, but definitely plays a role. Its like a 'tint' of the next sign, a hue of it.

But if we said that applies, I would say roughly on the 27th degree and after...But this is my opinion...Maybe even 28th half.

HAIL SATAN!!!!!!!!!!

im just started to think about this subject, while i wondered if there actually is a connection between my decease and planetary positions.

do planets represent different elements? and if that is the case will an over balance of a certain planet/s also bring the element to produce the sickness?

and if so, will i by finding out the element of my decease and the element of the planets be able to invoke the opposite elements to balance it out? in the order to perhaps decrease the symptoms of it?

hope this made sence.Cheers.

The planets progress as you age and their progression is based on their daily motion after you are born. This progression, along with the birth chart, can be used to foretell events. For example, if you were born in May 15, 1990, the events of your 10th year of life would be based on the positions of the planets on May 25, 1990, 10 days after your birthday as shown in the ephemeris. A day for a year.

The planets move very slowly with this method, so only the personal, fast planets (Sun, Moon, Mercury, Venus and Mars) matter and the aspects between the progressed planets and the natal chart must be within 1 degree orb max. When a personal progressed planet conjuncts a natal planet, a significant event usually takes place.

As for Solar Arc progressions, the idea is pretty much the same, but this time you'll be only taking the movement of the Sun into account, and then applying the same amount of degrees the Sun has progressed (the solar arc) to the other planets. The Sun moves approximately 1 degree per day, so by your 15th birthday it should have moved about 15 degrees further in the zodiac, as seen in your secondary progression chart. Take these 15 degrees and apply them to all the planets, and now you have your solar arc progression chart.

As explained by m_18, this kind of progression is weaker than the secondary progression, and the orbs are even smaller. However, this method is useful for checking events related to the outer planets, as these don't move enough in a few days to be relevant in the secondary progressions.

Astro.com offers progressed chart drawings under "free horoscopes" > "extended chart selection", you should check it out if you're curious.
Here is an Example:
"Solar arc progressions: The planets are progressed as far as the progressed Sun has traveled; one day for a year, using an ephemeris."

As explained in the last post by Sss D., one day for a year is another way of saying "secondary progression".

The planets progress as you age and their progression is based on their daily motion after you are born. This progression, along with the birth chart, can be used to foretell events. For example, if you were born in May 15, 1990, the events of your 10th year of life would be based on the positions of the planets on May 25, 1990, 10 days after your birthday as shown in the ephemeris. Hello all

Have any of you have read Alan Oaken's Complete Astrology book? I found another book on ebay that i was interested in, and this was included in the lot. Just wondering if it's worth the time to read or not? Thanks in advance for your replies.

The balance of the elements in the chart can indicate weaknessness and/or predispositions to certain illnesses, but the planets and signs themselves rule specific parts of the body and related diseases.

For instance, an air emphasis might bring problems in the nervous system; with fire, there may be problems with high blood pressure, rashes, fevers etc. but the signs themselves are better indicators because they rule the parts of the body, from head to feet, in a sequence, starting with Aries ruling the head, Taurus ruling the throat and so on, ending with Pisces ruling the feet.

Knowing this you can expect problems with the part of the body ruled by the sign Saturn's in, but that won't always be the case, depending on other factors. Saturn aspecting planets can bring diseases ruled by them, but so can other hard aspects or difficult patterns in the chart. Hard aspects to the ascendant and its ruler and/or planets in (especially) the 1st, 6th and 12th houses are related to health problems too. Always check the rulerships and try to establish a connection to the source of the problem. Often, serious health issues can be seen clearly on the chart.

Here you can find information on each of the planets, signs and their rulerships, including health related issues:
http://www.angelfire.com/empire/serpentis666/Signs.html
http://www.angelfire.com/empire/serpentis666/Planetary_Rulerships.html
Working with the elements can help a lot, but a healing working (you can find about these in the JoS website) will probably produce better and faster results. You should ideally combine both, though.

The chart wasn't able to load. The stellium consists of Neptune, Venus, Chiron, Sun, Mercury, Mars, and Uranus all in the 12th house. Jupiter is 7 degrees in the 2nd house square Sun, Venus, and Neptune but trine Uranus. Pluto is 11 degrees in the 10th house. The Moon along with Saturn are in the 7th house. The Ascendent is in Aries which makes mars the chart ruler which is located in the 12th house 21 degrees. This makes me nervous. I remember I had a lunar return with the Ascendent in Pisces, Neptune in Pisces and in the 12th house. An interpretation I came across online stated I would be hospitalized and have to be analyzed. On the last day of that 28 day cycle I was transferred from work to the ER and I was told that I have to see a Neurologist. So I'm a little nervous about this stellium. Also, with the multiple interpretations, the events to take place are rather ambiguous. I know it will involve secrets and the psyche. Hopefully not sorrow but I will take advantage of the psyche part. Maybe I could sublimate everything that is negative. I just wasn't able to sublimate Neptune's influence when I got hospitalized. Any suggestions, comments, point of views?

For example search something like "london england coordinates"

[If where you live isn't a major town, pick the closest big city near you.]

You'll get something like "51.5171° N, 0.1062° W"

Then you put these coordinates in the program settings and you're ready!

Hope this helps

What does the error say exactly?

First step if haven't already uninstall chronos under add/remove programs in control panel, then try to install again

Under settings in chronos, under city or town, click on the link on the right find my latutiude and longitude online, type your birth town in the search box, search and from the list select your brith town remember the latitude and longitude, go back to chronos and enter it in, make sure to properly set time song
too, then you should be sweet to go

Make a restore point, in control panel under system, advanced system settings.

Then uninstall chronos again

Run regedit.exe

Under edit, find, 'chronos' and find next and delete every entry of chronos in the registry be patient could take a little while, once you've deleted every entry

reboot then install again, hopefully it should be good to go, good luck

When I first installed the Chronos XP program I had difficulties with it too. It eventually did work for me. I just think that Windows 7 doesn't like it for some reason. You are more computer savvy than I am. Even with your instructions I wouldn't know what to do.

Subject: Moon in Taurus

The Moon is void right now until 3:08pm EST today. Then the Moon will enter the sign of Taurus. This is a great time to start new things that will have permanence to it. I think I might spend a few dollars and buy some lottery tickets as well. I might as well take advantage of the Moon during this time, certainly couldn't hurt anything, IMO. I'm talking about spending like 5 dollars. As those lottery commercials in the states that have one say: "Remember it's just a game". Keep that in mind.

Subject: Mutual reception

I have come across this phenomenon several times.

What it is: when a planet is in the sign of another planets' domicile OR exile, they are energetically linked.

E.g. when the Moon is in Capricorn and Saturn is in Cancer, OR Uranus is in Sagittarius and Jupiter in Aquarius.

The thing is, how does this manifest, how can it be helpful or harmful?

Subject: Re: conjunctions and meanings

First of all look here for your answers
http://www.angelfire.com/empire/serpentis666/FURCAS.html

Also look in the files section of this group... you will find a few books that will help you understand more about astrology

If you're looking for a cookbook (a simple interpretation of what a planet in a sign means, or what a conjunction of pluto and mercury means etc.) i would suggest "The only astrology book you'll ever need" by J.M. Woolfolk

But this is just a cookbook to start you up... there are a whole lot more information to be able to make a valid prediction.
Anyway,

As far as I know about conjunctions... the planets that are conjunct... are mixing their properties together

This means two things...

first... the qualities of the two planets are working together amplifying the influence on the person. But you have to take note of what planets are conjunct.

For example having pluto conjunct mercury means that their energies are mixed together... in this case means that the person will have a penetrating mind but with nervous tension. It may suggest that the person will bring change through the written word

secondly... the qualities of the two planets cannot be separated from each other. This means for example that if uranus and neptune are conjunct (which is good in my opinion)... you have the chaotic/emotional influence of neptune... with the creative/imaginative force of uranus... the always work together... but the cannot be seperated. You cannot separate the creative/imaginative force and use it alone... it will always come with a chaotic/emotional influence within.

I hope this makes sense

You should combine all this aspects together.

The sign of the planets... the house they are placed in... the sign of the house... the combination of the planets together.

You combine all of the above together and this is the interpretation of the chart

Hope this makes sense

Does anyone know if this hold any weight? www.alwaysastrology.com/libra-scorpio-cusp.html "Sun Sign Cusps:

If your birthday falls near the beginning or end of a Sun Sign (see dates below) you were born on the cusp. Essentially you have the characteristics of two Sun Signs combined."

Personally I think it could be true. As I have been told that I’m not very libra like and have a tendency towards scorpio like behavior, but that could be other factors in my chart.
Sounds improbable and preposterous.

The last paragraph you wrote answers this - other factors in the chart. E.g. one can be a Solar Gemini, but if he or she has a lot of planets in Pisces, this will be far from the Geminian qualities - elusiveness, martyrdom, spirituality, art, film making, etc.

If one is 29th deg of a given sign it is still a 29 degree Scorpio, Libra and whatnot (oh, btw, the 29th degree, called the anaretic degree, is a crucial one, as it denotes some ending - of a process, depending on a planet and sign involved).

This can be true, but mostly with the personal planets. Some astrologers believe that the sign's characteristics vary in intensity along its extension.

The first 10 degrees of a sign are the strongest, anything within these degrees will express the qualities of the sign most strongly, and within the last 10 degrees, especially the last 3 degrees, the planet will start showing characteristics from the next sign or at least will not show the qualities of its sign as evidently as in the first degrees.

This is also based on the traditional knowledge of the decans, that describe signs as being divided in 3 parts (decanates), each with its own undertones. You can find more about that on the net.

Square Neptune - Pluto

Challenging aspect: You may be attracted by the occult, but may be incompetent at doing anything practical.

Occult practices such as spiritualism will give you pleasure but may be harmful for you, possibly leading to dangerous obsessions for your mental balance.

I kind of fear that this might interfere with my meditations or something to watch out for in my path. Advise would be helpful to me.

Subject: kabalistic square for the outer planets

I still do not understand why there is not a Kabalistic square for Uranus, Neptune, Pluto.

I know, they are generational planets.

but it is not a reason, cause they are planets like all other
the term "generational" just want to say that they are so slow that to move into a new sign they will take 30 years

""""Pluto in the signs is generational, manifesting itself in world events, unless Pluto is the ruler or co-ruler of the chart, and/or prominently placed."""

for example ----- i can understand if they are too distant from us we are spiritually not able to influence them etc...
With the squares, we do not influence the planets, we influence their energies upon us.

The thing is: Uranus, Neptune and Pluto's energies are general, they work in a higher realm, that of events, trends, underlying motives for a big number of people and only affect us directly if they're asaspecting a personal planet or an angle, or through their house positions - which is analogous to saying they influence us through Earth itself.

If you notice, the squares get smaller and smaller as they go towards the outer planets. It comes to a point where the energies can't be influenced directly anymore. If you want to work their energies in your chart, I think you could do the squares of the planets they aspect, or their lower octaves (Mercury for Uranus, Venus for Neptune, Mars for Pluto).

I've never seen a technique for this anywhere, but I believe you can work with their energies without the squares, just as you can do with stars. I don't think you can modify them, but you can attune and work with them for your benefit, but be careful because they can be overwhelming.

That is correct. Uranus, Neptune and Pluto are the higher octave planets. There energies are already taken into the open chakras.

I have a powerful Neptune in my chart too.

The best advice I can give you it to become a Master of the Void Meditation. Make void meditation your primary focus regarding advancement. Once you have a calm and stable mind, then proceed in Empowering yourself. As you open your chakras and make them powerful and intensely bright, you will also me opening up different parts and more of your brain. This will also empower your mind. If you empower a Unstable Mind, the results can be catastrophic. Either you will become an open door to the enemy or go insane, because the energies can not be controlled.

However you should still clean your Aura and Chakra, and do the Aura of Protection no matter what!

An Unstable yet Empowered mind is comparative to giving a 16 year old driver an Enzo Ferrari the day he or she receives their Drivers License. Uh huh, Very Smart.... with 651 HP.... I hope you have some Damn Good Auto Insurance, because your going to need it. LOL!! You will never see that car in one piece again. It is just way too much for them to handle. They would be out of control.

No, Five minutes a day won't nearly cover it, at least not for me. I have to do void throughout the day. There are many different kinds of void. Just focus on what you are doing. Like right now I am looking down at the keys typing. Concentrating on what keys I am hitting, not looking up Until I finish a sentence so I MUST Focus. I do the same in the kitchen, cutting veggies, Driving, anything I can do. It is getting better.

I can tell you this much, it takes time. You have to push yourself to accomplish this. Make it happen!

I find void meditation to be quite difficult. I have Neptune conjunct the Chart Ruler and as coruler in the first house, although in the sign of its fall. I guess 5 minutes a day doesn't cut it?

Thanks. I realized that I should probably master void meditation right now. I wanted to jump ahead to raising the serpent and forgot about mastering the basics. I need to develop better concentration skills first.

Also can the earth element help into this. Like grounding my self. The earth element gives more control and discipline. I have been working on invoking the element for about a week or two. Three times a day only though. Only the recommended about for starting to invoke.

Also can the earth element help into this. Like grounding my self. The earth element gives more control and discipline. I have been working on invoking the element for about a week or two. Three times a day only though. Only the recommended about for starting to invoke.

I find void meditation to be quite difficult. I have Neptune conjunct the Chart Ruler and as coruler in the first house, although in the sign of its fall. I guess 5 minutes a day doesn't cut it?

The way to deal with this ominous square is found in planets in harmonious angles contacting those two fatefully entangled ones. The harmonizing effects can be reached by understanding the healing significance of those mediators. Good luck!

Hail Astaroth-sama!

Has anyone tried using certain methods to confirm or find accurate birth timings?

Some softwares generate lists of Planet/Point-Fixed Star conjunctions, but check this:

http://www.constellationsofwords.com/stars/Stars_in_longitude_order.htm

A list of stars in longitude order (zodiacal degrees), you can check which planets or points in your chart fall in the same degree of a star. Some of the stars even have interpretations of their conjunctions with the planets.

The interpretations are given by traditional authors on the subject, so they're overly fatalistic and should be taken with a grain of salt. There are also some brief interpretations in the astrology section of the JoS site.

These are the qualities of zodiac signs:

C - cardinal (planets in Aries, Cancer, Libra, Capricorn)

F - fixed (planets in Taurus, Leo, Scorpio, Aquarius)
M - mutable (planets in Gemini, Virgo, Sagittarius, Pisces)

The letters stand for elements:

F - fire (Aries, Leo, Sagittarius)

E - earth (Taurus, Virgo, Capricorn)

A - air (Gemini, Libra, Aquarius)

W - water (Cancer, Scorpio, Pisces)

Sigung Draconis.

I did. It turned out WRONG Twice. I have actually purchased 3 Full Astrology Readings from the JoS Store. I do not regret having three full readings because I gained a lot of personal and valuable information from them.

Why did I do that?? I Thought I had heard a God tell me what time I was born- Twice, and Twice I was Absolutely Sure. Telepathic communications are VERY DIFFICULT to get Absolutely Correct, unless you are very experienced. Which I was Not, I'm still not, but working on myself.

What was the Best Way? How did I find out what time I was born? Depending on what state in the US you were born (I do not know about overseas), you can request a Book Copy or the Long Copy of your birth certificate. I paid something like 35 dollars for mine, and it had to be mailed, I had to call and disclose a Lot of personal information to get it too. You will need to know everything about your parents, and your own identification. I purchased the Book Copy of my birth certificate. This thing is great, it not only tells me what Time I was born but also the doctors name that delivered me and at what hospital. When I called the operator was not allowed to tell me if my birth time was listed on the Book Copy, they are not allowed to give you Any information over the phone, so it is a gamble, but for me it was Well Worth it!

This is the site I used:

Basically a Void of Course Moon is a bad time to start things.

You can check at Lunarium.co.uk when a Void of Course takes place.
First adjust your location at:
Home -> Interactive Location Selector -> Change to your location.
Then you have the "The Current Moon Void-of-Course Status" at the homepage.

and, as you can see, it really does make sense. It works just like a planet conjunct any one of the angles (which are house cusps, albeit much more powerful, and thus have bigger orbs).

This is also used to a greater extent when the exact birth time isn't known, so the house positions aren't accurate and sometimes the planet may actually be in the next house.

It is my experience that planets within 8 degrees approaching the house cusp can have influence into the next house. Most astrologers will certainly say at least 5 degrees.

Natally, does a planet, very close (2 - 3 degrees) to the next house, influence the person with the traits associated with that house?

I have a seventh house Mars (very close to the 8th house), but don't recognize the traits ascribed to this placement. I know mine is correct because everything occurs as it is suppose to & the reflection on me personally is accurate.

There is a system or process called 'rectification'. It is intended for those who may not know the time of birth, usually the very elderly who only had a date, but no time entered into a family bible. However, there are certainly other things it can be used for as well. Such as charts of countries, events, etc. I have never used it on mine or for any other charts.

Do a search over the net for 'astrology rectification' & see what you find. There are books that contain the info as well. See posted book list.

I know that HPs Maxine on JoS says that Pluto is exalted in Leo and in fall in Aquarius. The question is, I've seen some people who are unsure of the exaltation / fall signs of Pluto (apart from Leo there were Cancer, Pisces, Aries, Capricorn). Anybody cares to shed some light upon this?

Being in the 1st H is more important than being unaspected. If near the cusp, very potent. Planet positions in a Solar Return are not exactly the same as the natal chart from what I have seen as the issue is the Sun, however, being unaspected, it might have some semblance of being the same. I don't recall an unaspected planet in any of my own solar returns since I have been doing this.

I would tend to think that it will operate in it's purest form, meaning not colored by other planets. However,
it will be aspected in transit regardless. And influenced by it's sign & house placement. I would say watch
transits to it closely & see what happens. That includes the Moon to itself as well. Would be interested in
hearing your experiences on the energies involved. (The events are obviously private.)

I would run monthly lunar returns for the course of the year including the 3 months leading up to the return
itself as that is when the previous year begins to wane & indicators for the next year begin. Especially 90
days prior to the return. (EXACTLY 89-91 days. Always look for events that occur at this time.) Be sure &
run transits for the Solar return chart itself.

Also is this a shift of modes (cardinal, fixed, mutable) year in the 10 year Solar return cycle? (Answer not
required. Just note it.)

Owning" your planets (LONG BUT IMPORTANT)

Ever wondered why it is some planets work for some but against others?

It's quite a modern concept within astrology that people are said to own certain planets and not others.

What this means is, certain planets energies operate through you directly through your own ego whilst others manifest themselves as circumstances in your life beyond your control.

This is because if energy is to act within ourselves a psychological doorway must be open for it to express itself and if it isn't it will manifest in other ways.

It's often said that women own their venus whilst men do not, venus for women manifests itself as, taste for beauty, desire to look good and be appreciated etc but the psychology of men is not like that so venus manifests itself in the lives of men in another way, i.e. women.

And the opposite is true in the case of Mars. This is because most of the time (not always) women and men think, act, believe, hold values etc which allow or disallow the energies of those planets to express themselves through their own ego. i.e women not caring so much about being physically tough, fighter, bold and fearless etc as opposed to men.

Now this is very important in understanding why Saturn hurts the majority of people, but there are a few which it works absolutely brilliantly for.

Saturn is that authoritarian voice within you, which says "this is good, this is bad, you're worthy, you're unworthy, you're deserving, you're undeserving" etc.

The vast majority of people, give this power away to their family, friends, teachers, bosses, society, religion and people around them in general.

This is especially true today because of the enemy and the way society is programmed. Quite simply this means they do not "OWN" their Saturn. Therefore Saturn's energy has to eventually manifest itself and because of the nature of the planet it will bring limitation, restriction, pain and loss in your life,, unless you take control of it within yourself.

Often it is the case that older people, usually older men are the one's who own their Saturn. This is for no other reason than simply their psychology is in such a way that it allows it to be so. You can also take
control of your Saturn, in the same way.

There is nothing stronger than the power of true conviction within yourself, which is Saturn's gift to you. You have to know with 100% certainty in your heart you do and act how you believe to be the right way and only you can be the judge of what you can and can't have and do. DO NOT GIVE THIS POWER AWAY TO ANYONE!

Know you deserve the pleasure and things you want, know you are worthy and capable of achieving them and do not allow anyone else to judge these things for you. Own your Saturn.

HAIL SATAN!
Praise Be To Hell!

I don't know WHY but there seems to be a general consensus of Pluto being exalted in Leo just as there seems to be for the others. The Sun is the ruler of Leo, Pluto is the Kundalini force at the base chakra that rises and ignites the crown chakra signified by Aries. Who knows.

Subject: Re: Planet houses?

You may have noticed that your chart is a circle divided in 12 sections, with the zodiac wheel around it (this is standard for natal charts). Each of these sections is a house, and they begin in the ascendant, which is the left part of the line cutting your chart horizontally, right in the middle. This line is usually bold and/or has
the letters AC (indicating Ascendant) next to it. Most charts also have numbers indicating the houses, close to the center of the chart.

The house progression is counterclockwise, so you start at the ascendant, which marks the beginning of the first house, and follow the chart until the next division line (called cusp), which marks the beginning of the second house and so on, until you reach the 12th house, which ends at the ascendant again. The planets in the houses are represented visually by having the planet symbol drawn within the space of one house, or, in other words, between one cusp and the next.

The planets' functions within the framework of a being present themselves in many levels, the most important (and I would say basic) is through the psychological function each of them represent, just as you mentioned: Sun being the ego, the conscious being, Moon the unconscious, Venus the system of values, the anima/feminine side etc.. However, they are all present at the same time, and while they work differently for everyone, they also manifest themselves as events and life circumstances no matter how intimate and/or strong they may be to an individual. They are always interacting, and their interactions provide the framework through which a person operate.

A woman's relationships and experiences with other women will still be ruled by her Venus, and the same can be said for men with Mars. When a function is found to be underdeveloped within a person, circumstances will act as to make the person incorporate said function, or at the very least recognize its existence. This isn't as simple as saying that people will eventually develop themselves fully, because the chart represents only raw potential, and many other things may influence the outcome. The transits themselves act as doorways to events that may lead to the development of certain planets, but even then, results are not guaranteed. It has also much to do with time. Most of the potential in a chart will stay unrealized until a person is old/experienced enough, because things unfold slowly, if at all.

This leads to Saturn, which is the very representation of Time and age (Chronos in Greece). With Saturn, there aren't shortcuts. Saturn is essentially restrictive, him being the castrator, and doesn't exatcly bring rewards by himself, it only measures one's worth, as you said, and worth is usually measured with time, toil and trouble, though that's been exaggerated greatly because of the enemy.

Gratification is Jupiter's function, as is expansion and development of the self, and for this reason people with strong Jupiter and a supportive chart will always be better, grander, even if they aren't worthy of that. Older people have the power to make things happen, and are respected by the younger, because they have been through what was necessary for them to own this power through Saturn. However, in the end, that was only *allowed* to them because of Jupiter's influence, which is just as important.

Just as you don't gain Saturn's "favor" by simply being a hardworker or working efficiently within its limitations (by being a hardworker you're owning it), you can't always guarantee success simply by trusting yourself and the work you do. The reason for that being it's not only dependent on owning Saturn's internal function, but because you're still submitted to its external influences, and because that's also dependent on
other factos, Jupiter being an integral part of that.

What I'm trying to say is, while we CAN (and should) own our destiny, and our planets, their energies and whatnot, we are still under their influence. And Saturn's influence is, as already described, restrictive; sometimes necessarily so. And also very strong. To underestimate Saturn's power is to attract serious trouble. If it really were that simple, I don't believe strong people who have been through various stages of hard work, some degree of suffering and thorough meditation (owning their Saturn with time, toil and trouble) would have to go through all that to be in a position where they can control their lives fully.

It's much more advisable to work with one's Jupiter, expanding and empowering oneself whilst learning the lessons of Saturn, than trying to control Saturn directly, because in the end of the day, even the Gods lost some battles, and they probably know better than anyone else that it's always possible to suffer limitations, because it's simply part of existing.

This doesn't have much to do with what you said, but I also think it's important to mention nevertheless: even with Jupiter's favor, empowering oneself and even achieving godhood doesn't somehow give the ability to hijack the universe and make it work the way one wants. Quite the contrary, reaching godhood is being perfectly attuned to it, and working with it to make the necessary changes that will bring a desirable result.

The framework is still there, as is one's natal chart, and will always be.

Subject: Re: "Owning" your planets (LONG BUT IMPORTANT)

I wasn't being clear in what I was saying so I'll explain a bit more, it was a long message and I probably did make some things a little unclear.

Circumstances which seem outside of yourself will always manifest in your life regardless of how you handle the planets energies but the nature of them, how they are of benefit or detriment to you will depend upon how you handle the energies of that planet.

The part I simply disagree with is that it's better to work with Jupiter whilst observing Saturn's lessons distantly, because all of the planets represent things within your soul and mind and life and are of equal importance with the exception of the Sun and perhaps also the Moon which are the most important.

Of course importance will vary depending upon what you give the most value to as an individual but in terms of handling the circumstances of this physical world, success and material wealth, there is no greater authority than Saturn. Even the beneficial and said to be wealth giving planets, such as Jupiter, Sun and Venus have to operate through the Saturnian areas of life. There is no escaping this.

But all I can really say to you and anyone else is, try it. As it's the only way to know. Meditate on Saturn, perform it's spiritual square and program and condition yourself to handle the Saturnian areas of life well. It has been one of the most rewarding experiences of my spiritual life.

Also even though Saturn is said to be restricting and limiting, there is a very good reason why it also co rules the most rebellious and freedom oriented sign of the Zodiac, Aquarius. And it's because once you have become an authority within yourself (totally own your own Saturn) and no longer allow any external judgement to influence you, it's then impossible for you to be anything else but a rebel in the face of others.

The metaphor here is written in the physical nature of Saturn itself. (Just mentioning this as a point of interest)

It's symbolized by the physicality of the planet Saturn, it has an immense amount of gravity (hence it's rings) as it's a huge planet. But Saturn itself as it's own body would weigh almost nothing were it able to fit on Earth, it's said if it were able to rest on water it would float. It's made up almost entirely of gas.
Just as if you stand before authority you are bound to it, if you are the authority itself then you aren't bound to anything.

This is for no other reason than simply their psychology is in such a way that it allows it to be so. You can also take control of your Saturn, in the same way.

Also even though Saturn is said to be restricting and limiting, there is a very good reason why it also co rules the most rebellious and freedom oriented sign of the Zodiac, Aquarius. Most of the potential in a chart will stay unrealized until a person is old/experienced enough, because things unfold slowly, if at all.

This leads to Saturn, which is the very representation of Time and age (Chronos in Greece). With Saturn, there aren't shortcuts. Gratification is Jupiter's function, as is expansion and development of the self, and for this reason people with strong Jupiter and a supportive chart will always be better, grander, even if they aren't worthy of that. Older people have the power to make things happen, and are respected by the younger, because they have been through what was necessary for them to own this power through Saturn. However, in the end, that was only *allowed* to them because of Jupiter's influence, which is just as important.

Just as you don't gain Saturn's "favor" by simply being a hardworker or working efficiently within its limitations (by being a hardworker you're owning it), you can't always guarantee success simply by trusting yourself and the work you do. The reason for that being it's not only dependent on owning Saturn's internal function, but because you're still submitted to its external influences, and because that's also dependent on other factors, Jupiter being an integral part of that.

What I'm trying to say is, while we CAN (and should) own our destiny, and our planets, their energies and whatnot, we are still under their influence. And Saturn's influence is, as already described, restrictive; sometimes necessarily so. And also very strong. To underestimate Saturn's power is to attract serious trouble. If it really were that simple, I don't believe strong people who have been through various stages of hard work, some degree of suffering and thorough meditation (owning their Saturn with time, toil and trouble) would have to go through all that to be in a position where they can control their lives fully.

It's much more advisable to work with one's Jupiter, expanding and empowering oneself whilst learning the lessons of Saturn, than trying to control Saturn directly, because in the end of the day, even the Gods lost some battles, and they probably know better than anyone else that it's always possible to suffer limitations, because it's simply part of existing.

It's quite a modern concept within astrology that people are said to own certain planets and not others.

What this means is, certain planets energies operate through you directly through your own ego whilst others manifest themselves as circumstances in your life beyond your control.

This is because if energy is to act within ourselves a psychological doorway must be open for it to express itself and if it isn't it will manifest in other ways.

It's often said that women own their Venus whilst men do not, Venus for women manifests itself as, taste for beauty, desire to look good and be appreciated etc but the psychology of men is not like that so Venus manifests itself in the lives of men in another way, i.e. women.

And the opposite is true in the case of Mars. This is because most of the time (not always) women and men think, act, believe, hold values etc which allow or disallow the energies
of those planets to express themselves through their own ego. I.e women not caring so much about being physically tough, fighter, bold and fearless etc as opposed to men.

Now this is very important in understanding why Saturn hurts the majority of people, but there are a few which it works absolutely brilliantly for.

Saturn is that authoritarian voice within you, which says "this is good, this is bad, you're worthy, you're unworthy, you're deserving, you're undeserving" etc.

The vast majority of people, give this power away to their family, friends, teachers, bosses, society, religion and people around them in general.

This is especially true today because of the enemy and the way society is programmed. Quite simply this means they do not "OWN" their Saturn.

Therefore Saturn's energy has to eventually manifest itself and because of the nature of the planet it will bring limitation, restriction, pain and loss in your life., unless you take control of it within yourself.

Often it is the case that older people, usually older men are the one's who own their Saturn. This is for no other reason than simply their psychology is in such a way that it allows it to be so. You can also take control of your Saturn, in the same way.

There is nothing stronger than the power of true conviction within yourself, which is Saturn's gift to you. DO NOT GIVE THIS POWER AWAY TO ANYONE!

Know you deserve the pleasure and things you want, know you are worthy and capable of achieving them and do not allow anyone else to judge these things for you. Own your Saturn.

HAIL SATAN!

That's the thing I can't speak for everyone because my Saturn is in it's own sign of Aquarius and I do have a strong Capricorn in my chart along with 10th house Sun. So I know what Saturn is for some people is different to what it is for others. But my Jupiter is also weak in Virgo.

This is the reason I prefer the way the Vedic astrologers interpret things and feel it's more accurate (the interpretations of effects only not the sign placement)

Because I haven't received benefits from Jupiter in my life at all. The last time Jupiter crossed my ascendant all that happened was I went through a stage of thinking I was a big tough guy and I ended up getting my ass kicked literally. Vedic astrologers say this is because if Jupiter is weak in your natal chart through it's transits it'll only bring a short sighted sense of optimism but if it's strong in your natal chart it'll bring real benefits.

Same goes with Saturn and any other planet, their effects on your life are better when they are placed well and also they do better in some houses than others. Where as in the western system we tend to say
"Jupiter and Sun strengthen something, Saturn weakens and limits it" And it's quite a simplistic way of looking at it, I have come to realize.

For instance a 7th house Sun is actually worse for marriage than a 7th house Saturn in Vedic astrology. Because marriage calls for cooperation on equal footing, letting go of always getting your way, sharing, sacrificing etc which the Sun (a King) is much less accustom to than Saturn.

It's quite a modern concept within astrology that people are said to own certain planets and not others.

What this means is, certain planets energies operate through you directly through your own ego whilst others manifest themselves as circumstances in your life beyond your control.

This is because if energy is to act within ourselves a psychological doorway must be open for it to express itself and if it isn't it will manifest in other ways.

Vedic astrology has its good points, but I find it way too fatalistic by itself. I remember Maxine and other HPs mentioning it was corrupted through the ages, much more so than western astrology.

From what I've seen, peoples' restrictions and possibilities based on their internal/external Saturn function will answer directly to its sign and house positions, in a much lower level than its aspects, because that's the basic setup from where it will act; therefore it's extremely important to gain deep understanding of those as the first step to "owning" it and learning its lessons without so much suffering.

Your description of your Saturnian qualities really show on your previous discourse, and I must say I admire it because I lack much of that. On a note of advice, though, since you have a troublesome Jupiter, I believe you'd benefit greatly from focusing on its energies and trying to own it too.
Because I haven't received benefits from Jupiter in my life at all. The last time Jupiter crossed my ascendant all that happened was I went through a stage of thinking I was a big tough guy and I ended up getting my ass kicked literally. What I'm trying to say is, while we CAN (and should) own our destiny, and our planets, their energies and whatnot, we are still under their influence. And Saturn's influence is, as already described, restrictive; sometimes necessarily so. And also very strong. To underestimate Saturn's power is to attract serious trouble. If it really were that simple, I don't believe strong people who have been through various stages of hard work, some degree of suffering and thorough meditation (owning their Saturn with time, toil and trouble) would have to go through all that to be in a position where they can control their lives fully.

It's much more advisable to work with one's Jupiter, expanding and empowering oneself whilst learning the lessons of Saturn, than trying to control Saturn directly, because in the end of the day, even the Gods lost some battles, and they probably know better than anyone else that it's always possible to suffer limitations, because it's simply part of existing.

This doesn't have much to do with what you said, but I also think it's important to mention nevertheless: even with Jupiter's favor, empowering oneself and even achieving godhood doesn't somehow give the ability to hijack the universe and make it work the way one wants. Quite the contrary, reaching godhood is being perfectly attuned to it, and working with it to make the necessary changes that will bring a desirable result.

The framework is still there, as is one's natal chart, and will always be.

It's quite a modern concept within astrology that people are said to own certain planets and not others.

What this means is, certain planets energies operate through you directly through your own ego whilst others manifest themselves as circumstances in your life beyond your control.

This is because if energy is to act within ourselves a psychological doorway must be open for it to express itself and if it isn't it will manifest in other ways.

It's often said that women own their venus whilst men do not, venus for women manifests itself as, taste for beauty, desire to look good and be appreciated etc but the psychology of men is not like that so venus manifests itself in the lives of men in another way,
i.e. women.

Do you meditate on planets yourself too btw? (I'm just talking about the mantra squares atm) I fully intend to work on Jupiter, but I am not sure how I go about owning my Jupiter but I know I can get the answers by meditating on it and performing the mantra square which I fully intend to do once Jupiter gets out of it's debilitation and into it's exaltation, when it goes into cancer at the end of June.

Owning Saturn as you described IS necessary and correct, the approach is what may not be so simple for most people. Depends on their individual Saturn, as well as other factors.

I wasn't being clear in what I was saying so I'll explain a bit more, it was a long message and I probably did make some things a little unclear.

Circumstances which seem outside of yourself will always manifest in your life regardless of how you handle the planets energies but the nature of them, how they are of benefit or detriment to you will depend upon how you handle the energies of that planet.

The part I simply disagree with is that it's better to work with Jupiter whilst observing Saturn's lessons distantly, because all of the planets represent things within your soul and mind and life and are of equal importance with the exception of the Sun and perhaps also the Moon which are the most important.

Of course importance will vary depending upon what you give the most value to as an individual but in terms of handling the circumstances of this physical world, success and material wealth, there is no greater authority than Saturn. Even the beneficial and said to be wealth giving planets, such as Jupiter, Sun and Venus have to operate through the Saturnian areas of life. There is no escaping this.

But all I can really say to you and anyone else is, try it. As it's the only way to know. Meditate on Saturn, perform it's spiritual square and program and condition yourself to handle the Saturnian areas of life well. It has been one of the most rewarding experiences of my spiritual life.

Also even though Saturn is said to be restricting and limiting, there is a very good reason why it also co rules the most rebellious and freedom oriented sign of the Zodiac, Aquarius. And it's because once you have become an authority within yourself (totally own your own Saturn) and no longer allow any external judgement to influence you, it's then impossible for you to be anything else but a rebel in the face of others.

The metaphor here is written in the physical nature of Saturn itself. (Just mentioning this as a point of interest)

It's symbolized by the physicality of the planet Saturn, it has an immense amount of gravity (hence it's rings) as it's a huge planet. But Saturn itself as it's own body would weigh almost nothing were it able to fit on Earth, it's said if it were able to rest on water it would float. It's made up almost entirely of gas.

Just as if you stand before authority you are bound to it, if you are the authority itself then you aren't bound to anything.

--- In JoS_Astrology@yahoogroups.com, "f.follets" <f.follets@>

The message you conveyed is true, and I subscribe to it, but it's not that simple, especially with Saturn. I may be completely missing the point, but I think it's worth sharing what I think:
The planets' functions within the framework of a being present themselves in many levels, the most important (and I would say basic) is through the psychological function each of them represent, just as you mentioned: Sun being the ego, the conscious being, Moon the unconscious, Venus the system of values, the anima/feminine side etc.. However, they are all present at the same time, and while they work differently for everyone, they also manifest themselves as events and life circumstances no matter how intimate and/or strong they may be to an individual. They are always interacting, and their interactions provide the framework through which a person operate.

A woman's relationships and experiences with other women will still be ruled by her Venus, and the same can be said for men with Mars. When a function is found to be underdeveloped within a person, circumstances will act as to make the person incorporate said function, or at the very least recognize its existence. This isn't as simple as saying that people will eventually develop themselves fully, because the chart represents only raw potential, and many other things may influence the outcome. The transits themselves act as doorways to events that may lead to the development of certain planets, but even then, results are not guaranteed. It has also much to do with time. Most of the potential in a chart will stay unrealized until a person is old/experienced enough, because things unfold slowly, if at all.

This leads to Saturn, which is the very representation of Time and age (Chronos in Greece). With Saturn, there aren't shortcuts. Saturn is essentially restrictive, him being the castrator, and doesn't exactly bring rewards by himself, it only measures one's worth, as you said, and worth is usually measured with time, toil and trouble, though that's been exaggerated greatly because of the enemy.

Gratification is Jupiter's function, as is expansion and development of the self, and for this reason people with strong Jupiter and a supportive chart will always be better, grander, even if they aren't worthy of that. Older people have the power to make things happen, and are respected by the younger, because they have been through what was necessary for them to own this power through Saturn. However, in the end, that was only *allowed* to them because of Jupiter's influence, which is just as important.

Just as you don't gain Saturn's "favor" by simply being a hardworker or working efficiently within its limitations (by being a hardworker you're owning it), you can't always guarantee success simply by trusting yourself and the work you do. The reason for that being it's not only dependent on owning Saturn's internal function, but because you're still submitted to its external influences, and because that's also dependent on other factoros, Jupiter being an integral part of that.

What I'm trying to say is, while we CAN (and should) own our destiny, and our planets, their energies and whatnot, we are still under their influence. And Saturn's influence is, as already described, restrictive; sometimes necessarily so. And also very strong. To underestimate Saturn's power is to attract serious trouble. HAIL SATAN!

Praise Be To Hell!

I did the square of Saturn twice while it was in Libra, a couple of years ago, right when it was opposing my Sun. The results were... debatable. I was hoping that it would give me focus and endurance for what was to come and to achieve what I wanted during that year.

I don't know if I somehow summoned its energies focusing on the wrong things (I wasn't doing the spiritual square) or if I simply couldn't manage them well, but I felt nothing while I was doing it, and during the year all the endeavors related to it failed. However, I did feel like I had a thicker skin during that year, and the failures didn't bother me as much as they could have, which was good. I haven't done any other planet square ever since.

I've been trying to manage things with different approaches because that one isn't getting me anywhere soon. Having Saturn in Pisces thwarts my spiritual development and meditations a lot.

It's quite a modern concept within astrology that people are said to own certain
planets and not others.
What this means is, certain planets energies operate through you directly
through your own ego whilst others manifest themselves as circumstances in your life beyond your control.

This is because if energy is to act within ourselves a psychological doorway must be open for it to express itself and if it isn't it will manifest in other ways.

It's often said that women own their venus whilst men do not, venus for women manifests itself as, taste for beauty, desire to look good and be appreciated etc but the psychology of men is not like that so venus manifests itself in the lives of men in another way, i.e. women.

And the opposite is true in the case of Mars. This is because most of the time (not always) women and men think, act, believe, hold values etc which allow or disallow the energies of those planets to express themselves through their own ego. I.e women not caring so much about being physically tough, fighter, bold and fearless etc as opposed to men.

Now this is very important in understanding why Saturn hurts the majority of people, but there are a few which it works absolutely brilliantly for.

Saturn is that authoritarian voice within you, which says "this is good, this is bad, you're worthy, you're unworthy, you're deserving, you're undeserving" etc.

The vast majority of people, give this power away to their family, friends, teachers, bosses, society, religion and people around them in general.

This is especially true today because of the enemy and the way society is programmed. Quite simply this means they do not "OWN" their Saturn.

Therefore Saturn's energy has to eventually manifest itself and because of the nature of the planet it will bring limitation, restriction, pain and loss in your life, unless you take control of it within yourself.

Often it is the case that older people, usually older men are the one's who own their Saturn. This is for no other reason than simply their psychology is in such a way that it allows it to be so. You can also take control of your Saturn, in the same way.

There is nothing stronger than the power of true conviction within yourself, which is Saturn's gift to you. You have to know with 100% certainty in your heart you do and act how you believe to be the right way and only you can be the judge of what you can and can't have and do. DO NOT GIVE THIS POWER AWAY TO ANYONE!

Know you deserve the pleasure and things you want, know you are worthy and capable of achieving them and do not allow anyone else to judge these things for you. Own your Saturn.

With Saturn, there aren't shortcuts. Saturn is essentially restrictive, him being the castrator, and
doesn't exactly bring rewards by himself, it only measures one's worth, as you said, and worth is
usually measured with time, toil and trouble, though that's been exaggerated greatly because of
the enemy.

> Gratification is Jupiter's function, as is expansion and development of the self, and for this
reason people with strong Jupiter and a supportive chart will always be better, grander, even if

respected by the younger, because they have been through what was necessary for them to
own this power through Saturn. However, in the end, that was only *allowed* to them because of
Jupiter's influence, which is just as important.

dependent on owning Saturn's internal function, but because you're still submitted to its external
influences, and because that's also dependent on other factos, Jupiter being an integral part of
that.

be in a position where they can control their lives fully.

Correction: 

"some stagnate"

Typed that in an hurry.
Other influences in the chart could possibly be the reason, but it could also be that you are not working on growing to the level you should be. ??? Hard to say exactly without an chart analysis. That could also change as time goes on. People grow. So stagnate. Some alternate between the two. Most alternate. I went thru a shy stage in my early teens after a period of being very overt when younger. Very little shyness in me now. I have Venus & Jupiter in Sag. I think a lot has to do with the hemisphere that Saturn is in.

One needs charts to analyze.

I don't have time to do this for others.

1. My chart ruler is in the same house with Saturn in my natal chart, is this bad or... ?

2. My friend is a Capricorn like me ( born on 23 dec, I am on 28 dec )
and has 6 planets in the sign of the Capricorn (I have 5) but does not fit the typical
description of the Capricorn unlike me. Is it possible this happens because his ruler (Moon) is in Capricorn (Its detriment) and has 5 conjunctions?

3. Should I do some meditations with the elements to compensate the fact that I have only 1 planet in an air sign and 1 in a water sign?

Meditate on Saturn, perform it's spiritual square and program and condition yourself to handle
the Saturnian areas of life well. It has been one of the most rewarding experiences of my
spiritual life.

Also even though Saturn is said to be restricting and limiting, there is a very good reason why it also co rules the most rebellious and freedom oriented sign of the Zodiac, Aquarius. And it's because once you have become an authority within yourself (totally own your own Saturn) and no longer allow any external judgement to influence you, it's then impossible for you to be anything else but a rebel in the face of others.

The metaphor here is written in the physical nature of Saturn itself. (Just mentioning this as a point of interest)

It's symbolized by the physicality of the planet Saturn, it has an immense amount of gravity (hence it's rings) as it's a huge planet. But Saturn itself as it's own body would weigh almost nothing were it able to fit on Earth, it's said if it were able to rest on water it would float. It's made up almost entirely of gas.

Ever wondered why it is some planets work for some but against others?

It's quite a modern concept within astrology that people are said to own certain planets and not others.

What this means is, certain planets energies operate through you directly through your own ego whilst others manifest themselves as circumstances in your life beyond your control.

This is because if energy is to act within ourselves a psychological doorway must be open for it to express itself and if it isn't it will manifest in other ways.

It's often said that women own their venus whilst men do not, venus for women manifests itself as, taste for beauty, desire to look good and be appreciated etc but the psychology of men is not like that so venus manifests itself in the lives of men in another way, i.e. women.

And the opposite is true in the case of Mars. This is because most of the time (not always) women and men think, act, believe, hold values etc which allow or disallow the energies of those planets to express themselves through their own ego. I.e women not caring so much about being physically tough, fighter, bold and fearless etc as opposed to men.
Now this is very important in understanding why Saturn hurts the majority of people, but there are a few which it works absolutely brilliantly for.

Saturn is that authoritarian voice within you, which says "this is good, this is bad, you're worthy, you're unworthy, you're deserving, you're undeserving" etc.

The vast majority of people, give this power away to their family, friends, teachers, bosses, society, religion and people around them in general.

This is especially true today because of the enemy and the way society is programmed. Quite simply this means they do not "OWN" their Saturn. Therefore Saturn's energy has to eventually manifest itself and because of the nature of the planet it will bring limitation, restriction, pain and loss in your life, unless you take control of it within yourself.

Often it is the case that older people, usually older men are the one's who own their Saturn. This is for no other reason than simply their psychology is in such a way that it allows it to be so. You can also take control of your Saturn, in the same way.

There is nothing stronger than the power of true conviction within yourself, which is Saturn's gift to you. You have to know with 100% certainty in your heart you do and act how you believe to be the right way and only you can be the judge of what you can and can't have and do. DO NOT GIVE THIS POWER AWAY TO ANYONE!

Know you deserve the pleasure and things you want, know you are worthy and capable of achieving them and do not allow anyone else to judge these things for you. Own your Saturn.

HAIL SATAN!

1. Depends greatly on other factors, but only if they are conjunct it should be a problem.

2. The answer is not simple, especially in this case, but I have heard a theory about people with an overemphasis in a certain sign or element that made me change how I look upon this. *Some* people (I guess you could say most people, but in varying degrees) with a very strong emphasis anywhere will incorporate those energies so deeply that they will not notice them consciously.

Some will even unconsciously pursue qualities of the opposite signs or elements as to balance their energies, and will show these characteristics more than their own and will tend to identify strongly with this.

An example is people with very little to no water in their charts, and a lot of air. These people will be naturally lacking in emotional energy, because they do not have water, yet many of these people will tend to overreact and appear to be *extremely* emotional, because they are unconsciously trying to incorporate what they lack, even if that's not part of them. The emotional demonstrations are usually very over the top with these people.
I've seen many people like this, with a lot of air, being extremely emotional when their chart doesn't support that. They value emotions greatly because they don't understand them and/or don't have them.

3. Balancing the elements through meditation can help you a lot, but understanding the principles behind what you have in excess and what you lack will give you much more control over everything. This will make things easier and the meditations much more effective.

The framework is still there, as is one's natal chart, and will always be.
Ever wondered why it is some planets work for some but against others?

It's quite a modern concept within astrology that people are said to own certain planets and not others.

What this means is, certain planets energies operate through you directly through your own ego whilst others manifest themselves as circumstances in your life beyond your control.

This is because if energy is to act within ourselves a psychological doorway must be open for it to express itself and if it isn't it will manifest in other ways.

It's often said that women own their venus whilst men do not, venus for women manifests itself as, taste for beauty, desire to look good and be appreciated etc but the psychology of men is not like that so venus manifests itself in the lives of men in another way, i.e. women.

And the opposite is true in the case of Mars. This is because most of the time (not always) women and men think, act, believe, hold values etc which allow or disallow the energies of those planets to express themselves through their own ego. I.e women not caring so much about being physically tough, fighter, bold and fearless etc as opposed to men.

Now this is very important in understanding why Saturn hurts the majority of people, but there are a few which it works absolutely brilliantly for.

Saturn is that authoritarian voice within you, which says "this is good, this is bad, you're worthy, you're unworthy, you're deserving, you're undeserving" etc.

The vast majority of people, give this power away to their family, friends, teachers, bosses, society, religion and people around them in general.

This is especially true today because of the enemy and the way society is programmed. Quite simply this means they do not "OWN" their Saturn.

Therefore Saturn's energy has to eventually manifest itself and because of the nature of the planet it will bring limitation, restriction, pain and loss in your life., unless you take control of it within yourself.

Often it is the case that older people, usually older men are the one's who own their Saturn. This is for no other reason than simply their psychology is in such a way that it allows it to be so. You can also take control of your Saturn, in the same way.

There is nothing stronger than the power of true conviction within yourself, which is Saturn's gift to you. You have to know with 100% certainty in your heart you do and act how you believe to be the right way and only you can be the judge of what you can and can't have and do. DO NOT GIVE THIS POWER AWAY TO ANYONE!

Know you deserve the pleasure and things you want, know you are worthy and capable of achieving them and do not allow anyone else to judge these things for you. Own your Saturn.

HAIL SATAN!

Praise Be To Hell!
Hello, can someone explain what Venus retrograde is, I saw earlier that it is bad for love and what not but how long does it last and how can I tell when it's coming and does it also effect the auras abilities to attract love?

The answer is not simple, especially in this case, but I have heard a theory about people with an overemphasis in a certain sign or element that made me change how I look upon this. *Some* people (I guess you could say most people, but in varying degrees) with a very strong emphasis anywhere will incorporate those energies so deeply that they will not notice them consciously.
> Some will even unconsciously pursue qualities of the opposite signs or elements as to balance their energies, and will show these characteristics more than their own and will tend to identify strongly with this.
> An example is people with very little to no water in their charts, and a lot of air. These people will be naturally lacking in emotional energy, because they do not have water, yet many of these people will tend to overreact and appear to be *extremely* emotional, because they are unconsciously trying to incorporate what they lack, even if that's not part of them. The emotional demonstrations are usually very over the top with these people.
> I've seen many people like this, with a lot of air, being extremely emotional when their chart doesn't support that. They value emotions greatly because they don't understand them and/or don't have them.
> 3. Balancing the elements through meditation can help you a lot, but understanding the principles behind what you have in excess and what you lack will give you much more control over everything. This will make things easier and the meditations much more effective.

Here is something to get you started in learning about Astrology. Just so you know, I too am Very Pleased with the readings that I purchased! It is Well Worth Every Penny! I wouldn't make an Astrology purchase from anyone but HP Maxine. I wouldn't trust anyone else to give me Accurate information because so much about Astrology has been overlooked and even deliberately corrupted by the enemy over the years. That's the reason that I feel the way that I do. HP Maxine has 35+ years experience in doing readings and More importantly has been Dedicated for over a Decade to Satan. IMO No One has worked harder for Satan this century.

I plan to get a forecast reading done as soon as I can spare the extra cash, I just have other obligations that I must attend to first.

To understand retrograde motion of the planets see this vid...
https://www.youtube.com/watch?v=72FrZz_zJFU

[the above video is about Mars... but the idea is roughly the same for all the planets]

Here are the phases of a planet's retrograde motion... (in the parentheses is what happens if you observe the planet in the night sky)

1) Direct (the planet is moving normally, from west to east)
2) Stationary (the planet appears to have stopped)
3) Retrograde (the planet is moving backwards, from east to west)
4) Stationary (again, the planet stops)
5) Direct (the planet resumes its normal move)

To know when Venus or any planet is retrograde it is wise to consult programs that show the planet's current and/or future positions

One very useful site is this...
http://planetwatcher.com/

[This program also takes into consideration your local timezone]

You can see in the center the planets (noted by their symbols)... the retrograde planets are the ones that have "red" numbers next to their symbols (like Saturn has right now, cause it's retrograde)

on the left side there are significant events happening in the coming days... so you can be aware if a planet is going to turn retrograde (and other stuff)

If you're looking for a simple solution on finding the retrogrades... see this article...
http://astrologyking.com/retrograde-planets/

Retrograde Venus is not necessarily "bad"... (or any retrograde planet for that matter)...

This is how i understand the influence of a retrograde planet:

First of all I take into account the natal chart state of Venus... meaning... if Venus in the person's birthchart is Retrograde or not... or if it's Stationary (rare condition when changing from retrograde to direct, and vice versa)

If it is Retrograde in the birthchart... then usually no important change is noticed, as these people are used
to the retrograde motion of this planet... and usually know how to cope with the planet's retrograde influence... so no important negative effects are shown

If it is Stationary in the birthchart... the best qualities of this planets are into the person... and no negative effects are noticed on a person like that

If it is Direct in the birthchart... then the qualities of this planet (love, affairs, materialism, money, stability)... will change from extroverted... to introverted... this is like blocking the energy of the planet (Venus) inside of the person... an extra effort is to be made in order to use the energy and make it manifest...

the person, for the period of the retrograde motion, have to train to externalize the planets energy... the energy will stay inside of them and may cause problems...

if the person is well trained in energy meditation, wont have any trouble with this... he/she will be able to externalize the retrograde planet energy with ease...

If not... then the energy of the planet (in this case Venus) will be hard to be used on a daily basis... this means the "bad effects" you've mentioned... love problems, money problems etc.

Personally, i have found out, that when you have performed the Magic Satanic Squares on a specific planet (for example Venus) then you establish a personal connection/link with the planet's energies and through that connection/link the negative influences are diminished

............................

Hope the above makes sense

Hail Satan

The metaphor here is written in the physical nature of Saturn itself. (Just mentioning this as a point of interest)

It's symbolized by the physicality of the planet Saturn, it has an immense amount of gravity (hence it's rings) as it's a huge planet. But Saturn itself as it's own body would weigh almost nothing were it able to fit on Earth, it's said if it were able to rest on water it would float. It's made up almost entirely of gas.

Just as if you stand before authority you are bound to it, if you are the authority itself then you aren't bound to anything.

In JoS_Astrology@yahoogroups.com, "f.follets" <f.follets@ wrote:

The message you conveyed is true, and I subscribe to it, but it's not that simple, especially with Saturn. I may be completely missing the point, but I think it's worth sharing what I think:

The planets' functions within the framework of a being present themselves in many levels, the most important (and I would say basic) is through the psychological function each of them represent, just as you mentioned: Sun being the ego, the conscious being, Moon the unconscious, Venus the system of values, the anima/feminine side etc.. However, they are all present at the same time, and while they work differently for everyone, they also manifest themselves as events and life circumstances no matter how intimate and/or strong they may be to an individual. They are always interacting, and their interactions provide the framework through which a person operate.

A woman's relationships and experiences with other women will still be ruled by her Venus, and the same can be said for men with Mars. When a function is found to be underdeveloped within a person, circumstances will act as to make the person incorporate said function, or at the very least recognize its existence. This isn't as simple as saying that people will eventually develop themselves fully, because the chart represents only raw potential, and many other things may influence the outcome. The transits themselves act as doorways to events that may lead to the development of certain planets, but even then, results are not guaranteed. It has also much to do with time. Most of the potential in a chart will stay unrealized until a person is old/experienced enough, because things unfold slowly, if at all.

This leads to Saturn, which is the very representation of Time and age (Chronos in Greece). With Saturn, there aren't shortcuts. Saturn is essentially restrictive, him being the castrator, and doesn't exactly bring rewards by himself, it only measures one's worth, as you said, and worth is usually measured with time, toil and trouble, though that's been exaggerated greatly because of the enemy.

Gratification is Jupiter's function, as is expansion and development of the self, and for this reason people with strong Jupiter and a supportive chart will always be better, grander, even if they aren't worthy of that. Older people have the power to make things happen, and are respected by the younger, because they have been through what was necessary for them to own this power through Saturn. However, in the end, that was only *allowed* to them because of Jupiter's influence, which is just as important.

Just as you don't gain Saturn's "favor" by simply being a hardworker or working efficiently within its limitations (by being a hardworker you're owning it), you can't always guarantee success simply by trusting yourself and the work you do. The reason for that being it's not only dependent on owning Saturn's internal function, but because you're still submitted to
its external influences, and because that's also dependent on other factors, Jupiter being an integral part of that.

What I'm trying to say is, while we CAN (and should) own our destiny, and our planets, their energies and whatnot, we are still under their influence. And Saturn's influence is, as already described, restrictive; sometimes necessarily so. And also very strong. To underestimate Saturn's power is to attract serious trouble. If it really were that simple, I don't believe strong people who have been through various stages of hard work, some degree of suffering and thorough meditation (owning their Saturn with time, toil and trouble) would have to go through all that to be in a position where they can control their lives fully.

It's much more advisable to work with one's Jupiter, expanding and empowering oneself whilst learning the lessons of Saturn, than trying to control Saturn directly, because in the end of the day, even the Gods lost some battles, and they probably know better than anyone else that it's always possible to suffer limitations, because it's simply part of existing.

This doesn't have much to do with what you said, but I also think it's important to mention nevertheless: even with Jupiter's favor, empowering oneself and even achieving godhood doesn't somehow give the ability to hijack the universe and make it work the way one wants. Quite the contrary, reaching godhood is being perfectly attuned to it, and working with it to make the necessary changes that will bring a desirable result.

The framework is still there, as is one's natal chart, and will always be.

Ever wondered why it is some planets work for some but against others?

It's quite a modern concept within astrology that people are said to own certain planets and not others.

What this means is, certain planets energies operate through you directly through your own ego whilst others manifest themselves as circumstances in your life beyond your control.

This is because if energy is to act within ourselves a psychological doorway must be open for it to express itself and if it isn't it will manifest in other ways.

It's often said that women own their venus whilst men do not, venus for women manifests itself as, taste for beauty, desire to look good and be appreciated etc but the psychology of men is not like that so venus manifests itself in the lives of men in another way, i.e. women.

And the opposite is true in the case of Mars. This is because most of the time (not always) women and men think, act, believe, hold values etc which allow or disallow the energies of those planets to express themselves through their own ego. I.e women not caring so much about being physically tough, fighter, bold and fearless etc as opposed to men.

Now this is very important in understanding why Saturn hurts the majority of people, but there are a few which it works absolutely brilliantly for.

Saturn is that authoritarian voice within you, which says "this is good, this is bad, you're worthy, you're unworthy, you're deserving, you're undeserving" etc.
The vast majority of people, give this power away to their family, friends, teachers, bosses, society, religion and people around them in general.

This is especially true today because of the enemy and the way society is programmed. Quite simply this means they do not "OWN" their Saturn.

Therefore Saturn's energy has to eventually manifest itself and because of the nature of the planet it will bring limitation, restriction, pain and loss in your life, unless you take control of it within yourself.

Often it is the case that older people, usually older men are the one's who own their Saturn. This is for no other reason than simply their psychology is in such a way that it allows it to be so. You can also take control of your Saturn, in the same way.

There is nothing stronger than the power of true conviction within yourself, which is Saturn's gift to you. You have to know with 100% certainty in your heart you do and act how you believe to be the right way and only you can be the judge of what you can and can't have and do. DO NOT GIVE THIS POWER AWAY TO ANYONE!

Know you deserve the pleasure and things you want, know you are worthy and capable of achieving them and do not allow anyone else to judge these things for you. Own your Saturn.

HAIL SATAN!

Hey f.follets, I wanted to ask you what Saturn in Pisces means? As I have it too.. Although the interpretation on the JoS site doesn't really fit my that part of my personality.

In my chart, Saturn is in the 4th house cusp of Pisces. I did have the most unhappy childhood, which corresponds with the 4th house Saturn, but I do not do the works of others etc.. I actually hate doing things for others, and I'm self-centered etc..

I hope you could give me a little insight on Saturn in Pisces placement.

Vedic astrology has its good points, but I find it way too fatalistic by itself. I remember Maxine and other HPs mentioning it was corrupted through the ages, much more so than western astrology.

From what I've seen, peoples' restrictions and possibilities based on their internal/external Saturn function will answer directly to its sign and house positions, in a much lower level than its aspects, because that's the basic setup from where it will act; therefore it's extremely important to gain deep understanding of those as the first step to "owning" it and learning its lessons without so much suffering.

That's the thing I can't speak for everyone because my Saturn is in its own sign of Aquarius and I do have a strong Capricorn in my chart along with 10th house Sun. So I know what Saturn is for some people is different to what it is for others. But my Jupiter is also weak in Virgo.

This is the reason I prefer the way the Vedic astrologers interpret things and feel it's more accurate (the interpretations of effects only not the sign placement)

Because I haven't received benefits from Jupiter in my life at all. The last time Jupiter crossed my ascendant all that happened was I went through a stage of thinking I was a big tough guy and I ended up getting my ass kicked literally. Vedic astrologers say this is because if Jupiter is weak in your natal chart through its transits it'll only bring a short sighted sense of optimism but if it's strong in your natal chart it'll bring real benefits.

Same goes with Saturn and any other planet, their effects on your life are better when they are placed well and also they do better in some houses than others. Where as in the western system we tend to say "Jupiter and Sun strengthen something, Saturn weakens and limits it" And it's quite a simplistic way of looking at it, I have come to realize.

For instance a 7th house Sun is actually worse for marriage than a 7th house Saturn in Vedic astrology. Because marriage calls for cooperation on equal footing, letting go of always getting your way, sharing, sacrificing etc which the Sun (a King) is much less accustomed to than Saturn.

--- In JoS_Astrology@yahoogroups.com, "f.follets" <f.follets@>

You're correct. Saturn rules these very aspects of physicality you mentioned, and no wonder it also rules the base chakra, the foundation.

The point is, no matter how attuned you are to it, it will still be restrictive because
that's its nature. It restricts, creates boundaries and imposes limits. It binds the soul to the flesh and represents everything that's physical. Your mention of Saturn being the ruler of Aquarius is right on point, but you necessarily have to go through Capricorn, the sign of restrictions and work (of worldly achievements as well) to reach Aquarius, the sign of perfection and freedom. 

By working through Jupiter however, you are creating a bridge of understanding between Sagittarius and Pisces, both signs of spirituality, knowledge and true understanding. It allows going through Saturn's lessons more easily, or at least with enough knowledge to deal with it correctly.

Owning Saturn as you described IS necessary and correct, the approach is what may not be so simple for most people. Depends on their individual Saturn, as well as other factors.

I wasn't being clear in what I was saying so I'll explain a bit more, it was a long message and I probably did make some things a little unclear.

Circumstances which seem outside of yourself will always manifest in your life regardless of how you handle the planets energies but the nature of them, how they are of benefit or detriment to you will depend upon how you handle the energies of that planet.

The part I simply disagree with is that it's better to work with Jupiter whilst observing Saturn's lessons distantly, because all of the planets represent things within your soul and mind and life and are of equal importance with the exception of the Sun and perhaps also the Moon which are the most important.

Of course importance will vary depending upon what you give the most value to as an individual but in terms of handling the circumstances of this physical world, success and material wealth, there is no greater authority than Saturn. Even the beneficial and said to be wealth giving planets, such as Jupiter, Sun and Venus have to operate through the Saturnian areas of life. There is no escaping this.

But all I can really say to you and anyone else is, try it. As it's the only way to know. Meditate on Saturn, perform it's spiritual square and program and condition yourself to handle the Saturnian areas of life well. It has been one of the most rewarding experiences of my spiritual life.

Also even though Saturn is said to be restricting and limiting, there is a very good reason why it also co rules the most rebellious and freedom oriented sign of the Zodiac, Aquarius. And it's because once you have become an authority within yourself (totally own your own Saturn) and no longer allow any external judgement to influence you, it's then impossible for you to be anything else but a rebel in the face of others.

The metaphor here is written in the physical nature of Saturn itself. (Just mentioning this as a point of interest)

It's symbolized by the physicality of the planet Saturn, it has an immense amount of gravity (hence its rings) as it's a huge planet. But Saturn itself as it's own body would weigh almost nothing were it able to fit on Earth, it's said if it were able to rest on water it would float. It's made up almost entirely of gas.

Just as if you stand before authority you are bound to it, if you are the authority itself then you aren't bound to anything.
The message you conveyed is true, and I subscribe to it, but it's not that simple, especially with Saturn. I may be completely missing the point, but I think it's worth sharing what I think:

The planets' functions within the framework of a being present themselves in many levels, the most important (and I would say basic) is through the psychological function each of them represent, just as you mentioned: Sun being the ego, the conscious being, Moon the unconscious, Venus the system of values, the anima/feminine side etc.. However, they are all present at the same time, and while they work differently for everyone, they also manifest themselves as events and life circumstances no matter how intimate and/or strong they may be to an individual. They are always interacting, and their interactions provide the framework through which a person operate.

A woman's relationships and experiences with other women will still be ruled by her Venus, and the same can be said for men with Mars. When a function is found to be underdeveloped within a person, circumstances will act as to make the person incorporate said function, or at the very least recognize its existence. This isn't as simple as saying that people will eventually develop themselves fully, because the chart represents only raw potential, and many other things may influence the outcome. The transits themselves act as doorways to events that may lead to the development of certain planets, but even then, results are not guaranteed. It has also much to do with time. Most of the potential in a chart will stay unrealized until a person is old/experienced enough, because things unfold slowly, if at all.

This leads to Saturn, which is the very representation of Time and age (Chronos in Greece). With Saturn, there aren't shortcuts. Saturn is essentially restrictive, him being the castrator, and doesn't exactly bring rewards by himself, it only measures one's worth, as you said, and worth is usually measured with time, toil and trouble, though that's been exaggerated greatly because of the enemy.

Gratification is Jupiter's function, as is expansion and development of the self, and for this reason people with strong Jupiter and a supportive chart will always be better, grander, even if they aren't worthy of that. Older people have the power to make things happen, and are respected by the younger, because they have been through what was necessary for them to own this power through Saturn. However, in the end, that was only *allowed* to them because of Jupiter's influence, which is just as important.

Just as you don't gain Saturn's "favor" by simply being a hardworker or working efficiently within its limitations (by being a hardworker you're owning it), you can't always guarantee success simply by trusting yourself and the work you do. The reason for that being it's not only dependent on owning Saturn's internal function, but because you're still submitted to its external influences, and because that's also dependent on other factors, Jupiter being an integral part of that.

What I'm trying to say is, while we CAN (and should) own our destiny, and our planets, their energies and whatnot, we are still under their influence. And Saturn's influence is, as already described, restrictive; sometimes necessarily so. And also very strong. To underestimate Saturn's power is to attract serious trouble. If it really were that simple, I don't believe strong people who have been through various stages of hard work, some degree of suffering and thorough meditation (owning their Saturn with time, toil and trouble) would have to go through all that to be in a position where they can control their lives fully.

It's that evil one that scares so-called truthers. LOL! Actually, it is the planet Saturn that is the current evil thing going on with them.
If you understand sacred geometry & the meanings of numbers, then you can see how it doesn't fit. If you
don't know these topics & want to learn astrology, then I recommend that you do. A good astrologer has to
know the correlations to these 2 topics in particular, but also the whole system of correspondences in the
occult. To be a great astrologer, you need to understand the full spectrum of the occult.

Everything boils down to astrology, numbers & sacred geometry. I also recommend watching a video that
can found on Youtube called "Secrets in Plain Sight". It is around 3 hours long & you can find that full
version without having to watch the 10 min. long segments.

There are 88 major constellations, but only 12 are on the ecliptic. (There are 88 keys on a piano.
Coincidence?) There are also correspondences to the tarot & colors as well. Etc., etc., etc., etc.

Subject: Re: "Owning" your planets (LONG BUT IMPORTANT)

Well, there may be other ways of interpreting Saturn in Pisces, but I need to be totally honest with someone
who also has it: by itself, it's very bad.

Of course, Saturn is bad for everyone, but there are very good reasons why Pisces is the sign of defeat, the
12th house is the house of ruin and, in traditional astrology, Saturn rejoices therein. Obviously this doesn't
mean life will be invariably miserable for those with Saturn there. In fact, many people seem to not even feel
its effects strongly (if not by house position, like you), but that's because of the nature of Pisces. It's
sedative.

Saturn is reality, substance, boundaries and Pisces is the exact opposite of that. With Saturn there, actions
and endeavors often end up failing because they lack the foundation, or because they didn't have enough
power to reach completion. Or maybe they reach the goal, but in the end the results are underwhelming and
it was probably a wasted effort anyway. Nothing is ever good enough. There is a sort of eternal discomfort,
a yearning for something that is not there, for perfection, essentially something that *does not exist* in the
literal sense (Pisces).

Ever since I was a kid, I had symbolic dreams in which I would do many absurd things to reach some kind of
power that would enable me to do *stuff*, and just as I got it... it wasn't what I was thinking, or there was
something missing. Only many years later I would know that this is precisely the nature of Saturn in Pisces.
It is a feeling of being stuck within oneself, and that's exactly what it is. It's truly hard to turn the tide because Saturn lacks, in itself, the footing that it usually provides for real improvement.

What follows is, for people who can't deal with that, weakness of will, self-destructive tendencies and severe depression. All coming the a sense that one's actions are worth nothing, that existing is suffering, and that any real gain requires a huge, painful sacrifice. These are all themes of Pisces alone, but even more so with Saturn involved.

As for the spiritual implications of this placement, the effect of Saturn in Pisces is that it tends to limit or block the flow of spiritual energies, and also block contact with higher realms. This may be caused by an extremely deep, often unknown, fear of losing oneself with these kinds of experiences. As with everything in Pisces, it may not look or feel like that at all, but it probably is. Emotional repression is possible as well.

What I said earlier about perfection not existing in the literal sense is due to the perception of the world through life in an essentially material reality, which by the way is characterised by Saturn, who simultaneously creates the boundaries of reality for people and prevents them from breaking free of that, raising the sentiment of rebellion (Capricorn-Aquarius). We all know, however, that's not the case, and once we are free (past Aquarius), we can reach perfection (Pisces, completion).

What the placement of Saturn in Pisces does is making these imperfections and boundaries much more conspicuous, even in daily life, which is not the case when it's in the other signs where it focus on other things. It makes reality much more difficult to bear, all the time. This can be both a very bad and a very good thing, depending on how well you handle. It enables one to be conscious of - or overwhelmed by - what's beyond, what's missing, and given proper guidance and enough understanding, may lead to a true spiritual breakthrough - or may even lead to a slow, painful death, caused by the own person.

It's important to note, if I didn't make that clear, that all the issues of Saturn in Pisces, or at least the worst ones, are completely internal. They are caused by states of mind and spirit, and can usually solved alone, with self-knowledge. The external issues are caused by house position and aspects, as usual.

Other planetary placements and aspects will obviously change the overall picture, but if there are other Pisces or 12th house planets, it's very likely that this will all be experienced in full.

That's the thing I can't speak for everyone because my Saturn is in it's own sign of
Aquarius and I do have a strong Capricorn in my chart along with 10th house Sun. So I know
what Saturn is for some people is different to what it is for others. But my Jupiter is also weak
in Virgo.

This is the reason I prefer the way the Vedic astrologers interpret things and feel it's
more accurate (the interpretations of effects only not the sign placement)

Because I haven't received benefits from Jupiter in my life at all. The last time
Jupiter crossed my ascendant all that happened was I went through a stage of thinking I was a
big tough guy and I ended up getting my ass kicked literally. Vedic astrologers say this is
because if Jupiter is weak in your natal chart through it's transits it'll only bring a short sighted
sense of optimism but if it's strong in your natal chart it'll bring real benefits.

Same goes with Saturn and any other planet, their effects on your life are better
when they are placed well and also they do better in some houses than others. Where as in the
western system we tend to say "Jupiter and Sun strengthen something, Saturn weakens and
limits it" And it's quite a simplistic way of looking at it, I have come to realize.

For instance a 7th house Sun is actually worse for marriage than a 7th house Saturn
in Vedic astrology. Because marriage calls for cooperation on equal footing, letting go of always
getting your way, sharing, sacrificing etc which the Sun (a King) is much less accustom to than Saturn.

The metaphor here is written in the physical nature of Saturn itself. (Just mentioning this as a point of interest)

It's symbolized by the physicality of the planet Saturn, it has an immense amount of gravity (hence it's rings) as it's a huge planet. But Saturn itself as it's own body would weigh almost nothing were it able to fit on Earth, it's said if it were able to rest on water it would float. It's made up almost entirely of gas.

Just as if you stand before authority you are bound to it, if you are the authority itself then you aren't bound to anything.

The message you conveyed is true, and I subscribe to it, but it's not that simple, especially with Saturn. I may be completely missing the point, but I think it's worth sharing what I think:

The planets' functions within the framework of a being present themselves in many levels, the most important (and I would say basic) is through the psychological function each of them represent, just as you mentioned: Sun being the ego, the conscious being, Moon the unconscious, Venus the system of values, the anima/feminine side etc.. However, they are all present at the same time, and while they work differently for everyone, they also manifest themselves as events and life circumstances no matter how intimate and/or strong they may be to an individual. They are always interacting, and their interactions provide the framework through which a person operate.

A woman's relationships and experiences with other women will still be ruled by her Venus, and the same can be said for men with Mars. When a function is found to be underdeveloped within a person, circumstances will act as to make the person incorporate said function, or at the very least recognize its existence. This isn't as simple as saying that people will eventually develop themselves fully, because the chart represents only raw potential, and many other things may influence the outcome. The transits themselves act as doorways to events that may lead to the development of certain planets, but even then, results are not guaranteed. It has also much to do with time. Most of the potential in a chart will stay unrealized until a person is old/experienced enough, because things unfold slowly, if at all.

This leads to Saturn, which is the very representation of Time and age (Chronos in Greece). With Saturn, there aren't shortcuts. Saturn is essentially restrictive, him being the castrator, and doesn't exactly bring rewards by himself, it only measures one's worth, as you said, and worth is usually measured with time, toil and trouble, though that's been exaggerated greatly because of the enemy.

Gratification is Jupiter's function, as is expansion and development of the self, and for this reason people with strong Jupiter and a supportive chart will always be better, grander, even if they aren't worthy of that. Older people have the power to make things happen, and are respected by the younger, because they have been through what was necessary for them to own this power through Saturn. However, in the end, that was only *allowed* to them because of Jupiter's influence, which is just as important.

Just as you don't gain Saturn's "favor" by simply being a hardworker or working efficiently within its limitations (by being a hardworker you're owning it), you can't
always guarantee success simply by trusting yourself and the work you do. The reason for that being it's not only dependent on owning Saturn's internal function, but because you're still submitted to its external influences, and because that's also dependent on other factors, Jupiter being an integral part of that.

What I'm trying to say is, while we CAN (and should) own our destiny, and our planets, their energies and whatnot, we are still under their influence. And Saturn's influence is, as already described, restrictive; sometimes necessarily so. And also very strong. To underestimate Saturn's power is to attract serious trouble. If it really were that simple, I don't believe strong people who have been through various stages of hard work, some degree of suffering and thorough meditation (owning their Saturn with time, toil and trouble) would have to go through all that to be in a position where they can control their lives fully.

It's much more advisable to work with one's Jupiter, expanding and empowering oneself whilst learning the lessons of Saturn, than trying to control Saturn directly, because in the end of the day, even the Gods lost some battles, and they probably know better than anyone else that it's always possible to suffer limitations, because it's simply part of existing.

This doesn't have much to do with what you said, but I also think it's important to mention nevertheless: even with Jupiter's favor, empowering oneself and even achieving godhood doesn't somehow give the ability to hijack the universe and make it work the way one wants. Quite the contrary, reaching godhood is being perfectly attuned to it, and working with it to make the necessary changes that will bring a desirable result.

The framework is still there, as is one's natal chart, and will always be.

Ever wondered why it is some planets work for some but against others?

It's quite a modern concept within astrology that people are said to own certain planets and not others.

What this means is, certain planets energies operate through you directly through your own ego whilst others manifest themselves as circumstances in your life beyond your control.

This is because if energy is to act within ourselves a psychological doorway must be open for it to express itself and if it isn't it will manifest in other ways.

It's often said that women own their Venus whilst men do not, Venus for women manifests itself as, taste for beauty, desire to look good and be appreciated etc but the psychology of men is not like that so Venus manifests itself in the lives of men in another way, i.e. women.

And the opposite is true in the case of Mars. This is because most of the time (not always) women and men think, act, believe, hold values etc which allow or disallow the energies of those planets to express themselves through their own ego. I.e women not caring so much about being physically tough, fighter, bold and fearless etc as opposed to men.

Now this is very important in understanding why Saturn hurts the majority of people, but there are a few which it works absolutely brilliantly for.
Saturn is that authoritarian voice within you, which says "this is good, this is bad, you're worthy, you're unworthy, you're deserving, you're undeserving" etc.
The vast majority of people, give this power away to their family, friends, teachers, bosses, society, religion and people around them in general.
This is especially true today because of the enemy and the way society is programmed. Quite simply this means they do not "OWN" their Saturn.
Therefore Saturn's energy has to eventually manifest itself and because of the nature of the planet it will bring limitation, restriction, pain and loss in your life, unless you take control of it within yourself.

Often it is the case that older people, usually older men are the one's who own their Saturn. This is for no other reason than simply their psychology is in such a way that it allows it to be so. You can also take control of your Saturn, in the same way.

There is nothing stronger than the power of true conviction within yourself, which is Saturn's gift to you. You have to know with 100% certainty in your heart you do and act how you believe to be the right way and only you can be the judge of what you can and can't have and do. DO NOT GIVE THIS POWER AWAY TO ANYONE!

Know you deserve the pleasure and things you want, know you are worthy and capable of achieving them and do not allow anyone else to judge these things for you. Own your Saturn.

HAIL SATAN!
Praise Be To Hell!

Sirs

One very big thing of life has happened with me in last year 10th October. I had a love breakup in 2009. It was difficult for me to come out of the painful situation, it took me about 2 years to come out of the feelings. I was living happily. Again on 10th October I proposed to a new girl but again got rejected. Just 14 days short love story. Lol!!!! It's pain of love. I hope you can understand how much unbearable is it. A break of heart has direct impact on mind.

Will my marriage be Love Marriage? When shall I meet my soulmate?
When will my marriage occur?
Marriage when in which dasha mahadasha?
Love or arranged marriage?
How will be structure & character of wife?
Is there any divorce yog?
How good will be the married life?

NOTE: I was wearing a white sapphire in gold ring on middle finger, a pearl on little finger and an emerald on ring finger. I have changed the ring from last 1.5 months means I have removed that iron ring on middle finger completely and moved the white sapphire from middle finger to index finger. So all total 3 rings now White Sapphire on index, Emerald on ring and Pearl on little. Pearl wearing to strengthen the weak moon sitting on 8th house. I am wearing pearl from last 5 months and I have not felt neither good nor bad effect. It is neutral for me. I feel no bad effect due to pearl.

Obviously this doesn't mean life will be invariably miserable for those with Saturn there. In fact, many people seem to not even feel its effects strongly (if not by house position, like you), but that's because of the nature of Pisces. It's sedative.
> Saturn is reality, substance, boundaries and Pisces is the exact opposite of that. With Saturn there, actions and endeavors often end up failing because they lack the foundation, or because they didn't have enough power to reach completion. Or maybe they reach the goal, but in the end the results are underwhelming and it was probably a wasted effort anyway. Nothing is ever good enough. There is a sort of eternal discomfort, a yearning for something that is not there, for perfection, essentially something that *does not exist* in the literal sense (Pisces).
> Ever since I was a kid, I had symbolic dreams in which I would do many absurd things to reach some kind of power that would enable me to do *stuff*, and just as I got it... it wasn't what I was thinking, or there was something missing. Only many years later I would know that this is precisely the nature of Saturn in Pisces.
> It is a feeling of being stuck within oneself, and that's exactly what it is. It's truly hard to turn the tide because Saturn lacks, in itself, the footing that it usually provides for real improvement.
> What follows is, for people who can't deal with that, weakness of will, self-destructive tendencies and severe depression. All coming the a sense that one's actions are worth nothing, that existing is suffering, and that any real gain requires a huge, painful sacrifice. These are all
themes of Pisces alone, but even more so with Saturn involved.

> As for the spiritual implications of this placement, the effect of Saturn in Pisces is that it tends to limit or block the flow of spiritual energies, and also block contact with higher realms. This may be caused by an extremely deep, often unknown, fear of losing oneself with these kinds of experiences. As with everything in Pisces, it may not look or feel like that at all, but it probably is. Emotional repression is possible as well.

> What I said earlier about perfection not existing in the literal sense is due to the perception of the world through life in an essentially material reality, which by the way is characterised by Saturn, who simultaneously creates the boundaries of reality for people and prevents them from breaking free of that, raising the sentiment of rebellion (Capricorn-Aquarius). We all know, however, that's not the case, and once we are free (past Aquarius), we can reach perfection (Pisces, completion).

> What the placement of Saturn in Pisces does is making these imperfections and boundaries much more conspicuous, even in daily life, which is not the case when it's in the other signs where it focus on other things. It makes reality much more difficult to bear, all the time. This can be both a very bad and a very good thing, depending on how well you handle. It enables one to be conscious of - or overwhelmed by - what's beyond, what's missing, and given proper guidance and enough understanding, may lead to a true spiritual breakthrough - or may even lead to a slow, painful death, caused by the own person.

> It's important to note, if I didn't make that clear, that all the issues of Saturn in Pisces, or at least the worst ones, are completely internal. They are caused by states of mind and spirit, and can usually solved alone, with self-knowledge. The external issues are caused by house position and aspects, as usual.

> Other planetary placements and aspects will obviously change the overall picture, but if there are other Pisces or 12th house planets, it's very likely that this will all be experienced in full.

Do you meditate on planets yourself too btw? (I'm just talking about the mantra squares atm) I fully intend to work on Jupiter, but I am not sure how I go about owning my Jupiter but I know I can get the answers by meditating on it and performing the mantra square which I fully intent to do once Jupiter gets out of it's debilitation and into it's exaltation, when it goes into cancer at the end of June.

Vedic astrology has its good points, but I find it way too fatalistic by itself. I remember Maxine and other HPs mentioning it was corrupted through the ages, much more so than western astrology. From what I've seen, peoples' restrictions and possibilities based on their internal/external Saturn function will answer directly to its sign and house positions, in a much lower level than its aspects, because that's the basic setup from where it will act; therefore it's extremely important to gain deep understanding of those as the first step to "owning" it and learning its lessons without so much suffering.

Your description of your Saturnian qualities really show on your previous discourse, and I must say I admire it because I lack much of that. On a note of advice, though, since you have a troublesome Jupiter, I believe you'd benefit greatly from focusing on its energies and trying to own it too.

That's the thing I can't speak for everyone because my Saturn is in it's own sign of Aquarius and I do have a strong Capricorn in my chart along with 10th house Sun. So I know what Saturn is for some people is different to what it is for others. But my Jupiter is also weak in Virgo.

You're correct. Saturn rules these very aspects of physicality you mentioned, and no wonder it also rules the base chakra, the foundation.

The point is, no matter how attuned you are to it, it will still be restrictive because that's its nature. It restricts, creates boundaries and imposes limits. It binds the soul to the flesh and represents everything that's physical. Your mention of Saturn being the ruler of Aquarius is right on point, but you necessarily have to go through Capricorn, the sign of restrictions and work (of worldly achievements as well) to reach Aquarius, the sign of perfection and freedom.

By working through Jupiter however, you are creating a bridge of understanding between Sagittarius and Pisces, both signs of spirituality, knowledge and true understanding. It allows going through Saturn's lessons more easily, or at least with enough knowledge to deal with it correctly.

Owning Saturn as you described IS necessary and correct, the approach is what may not be so simple for most people. Depends on their individual Saturn, as well as other factors.

I wasn't being clear in what I was saying so I'll explain a bit more, it was a long message and I probably did make some things a little unclear.

Circumstances which seem outside of yourself will always manifest in your life regardless of how you handle the planets energies but the nature of them, how they are of benefit or detriment to you will depend upon how you handle the energies of that planet.

The part I simply disagree with is that it's better to work with Jupiter whilst observing Saturn's lessons distantly, because all of the planets represent things within your soul and mind and life and are of equal importance with the exception of the Sun and perhaps also the Moon which are the most important.

Of course importance will vary depending upon what you give the most value to as an individual but in terms of handling the circumstances of this physical world, success and material wealth, there is no greater authority than Saturn. Even the beneficial and said to be wealth giving planets, such as Jupiter, Sun and Venus have to operate through the Saturnian areas of life. There is no escaping this.

But all I can really say to you and anyone else is, try it. As it's the only way to know. Meditate on Saturn, perform it's spiritual square and program and condition yourself to handle the Saturnian areas of life well. It has been one of the most rewarding experiences of my spiritual life.

Also even though Saturn is said to be restricting and limiting, there is a very good reason why it also co rules the most rebellious and freedom oriented sign of the Zodiac, Aquarius. And it's because once you have become an authority within yourself (totally own your own Saturn) and no longer allow any external judgement to influence you, it's then impossible for you to be anything else but a rebel in the face of others.

Thank you so freakin much I cant explain the help you have done in explaining these problems in my life, i have found i have 3 planets in pisces, Saturn, Venus, and the Sun, I used to have extreme depression,(knowledge conquered the depression and my addiction to drugs) i never had any luck with the ladies, and i have always been bottled up inside, and on top of this, its been extremely difficult to progress spiritually, almost as if i am cut off in a sort of way of putting it, I know now i will have to even put more effort into conquering my own planets.

any more information regarding this would be greatly appreciated, astrology has always been a very confusing subject for me but you put it in words perfectly

Other planetary placements and aspects will obviously change the overall picture, but if there are other Pisces or 12th house planets, it's very likely that this will all be experienced in full.

Hey f.follets, I wanted to ask you what Saturn in Pisces means? As I have it too.. Although the interpretation on the JoS site doesn't really fit my that part of my personality.

In my chart, Saturn is in the 4th house cusp of Pisces. I did have the most unhappy childhood, which corresponds with the 4th house Saturn, but I do not do the works of others etc.. I actually hate doing things for others, and I'm self-centered etc..

I hope you could give me a little insight on Saturn in Pisces placement.

HAIL SATAN!!!!

I did the square of Saturn twice while it was in Libra, a couple of years ago, right when it was opposing my Sun. The results were... debatable. I was hoping that it would give me focus and endurance for what was to come and to achieve what I wanted during that year.

I don't know if I somehow summoned its energies focusing on the wrong things (I wasn't doing the spiritual square) or if I simply couldn't manage them well, but I felt nothing while I was doing it, and during the year all the endeavors related to it failed. However, I did feel like I had a thicker skin during that year, and the failures didn't bother me as much as they could have, which was good. I haven't done any other planet square ever since.

I've been trying to manage things with different approaches because that one isn't getting me anywhere soon. Having Saturn in Pisces thwarts my spiritual development and meditations a lot.

Vedic astrology has its good points, but I find it way too fatalistic by itself. I remember Maxine and other HPs mentioning it was corrupted through the ages, much more so than western astrology.

From what I've seen, peoples' restrictions and possibilities based on their internal /external Saturn function will answer directly to its sign and house positions, in a much lower level than its aspects, because that's the basic setup from where it will act; therefore it's extremely important to gain deep understanding of those as the first step to "owning" it and learning its lessons without so much suffering.

Your description of your Saturnian qualities really show on your previous discourse, and I must say I admire it because I lack much of that. On a note of advice, though, since you
have a troublesome Jupiter, I believe you'd benefit greatly from focusing on its energies and trying to own it too.

That's the thing I can't speak for everyone because my Saturn is in its own sign of Aquarius and I do have a strong Capricorn in my chart along with 10th house Sun. So I know what Saturn is for some people is different to what it is for others. But my Jupiter is also weak in Virgo.

This is the reason I prefer the way the Vedic astrologers interpret things and feel it's more accurate (the interpretations of effects only not the sign placement)

Because I haven't received benefits from Jupiter in my life at all. The last time Jupiter crossed my ascendant all that happened was I went through a stage of thinking I was a big tough guy and I ended up getting my ass kicked literally. Vedic astrologers say this is because if Jupiter is weak in your natal chart through it's transits it'll only bring a short sighted sense of optimism but if it's strong in your natal chart it'll bring real benefits.

Same goes with Saturn and any other planet, their effects on your life are better when they are placed well and also they do better in some houses than others. Where as in the western system we tend to say "Jupiter and Sun strengthen something, Saturn weakens and limits it" And it's quite a simplistic way of looking at it, I have come to realize.

For instance a 7th house Sun is actually worse for marriage than a 7th house Saturn in Vedic astrology. Because marriage calls for cooperation on equal footing, letting go of always getting your way, sharing, sacrificing etc which the Sun (a King) is much less accustom to than Saturn.

You're correct. Saturn rules these very aspects of physicality you mentioned, and no wonder it also rules the base chakra, the foundation.

The point is, no matter how attuned you are to it, it will still be restrictive because that's its nature. It restricts, creates boundaries and imposes limits. It binds the soul to the flesh and represents everything that's physical. Your mention of Saturn being the ruler of Aquarius is right on point, but you necessarily have to go through Capricorn, the sign of restrictions and work (of worldly achievements as well) to reach Aquarius, the sign of perfection and freedom.

By working through Jupiter however, you are creating a bridge of understanding between Sagittarius and Pisces, both signs of spirituality, knowledge and true understanding. It allows going through Saturn's lessons more easily, or at least with enough knowledge to deal with it correctly.

Owning Saturn as you described IS necessary and correct, the approach is what may not be so simple for most people. Depends on their individual Saturn, as well as other factors.
long message and I probably did make some things a little unclear.

> > > > > > > > > > Circumstances which seem outside of yourself will always manifest in your life regardless of how you handle the planets energies but the nature of them, how they are of benefit or detriment to you will depend upon how you handle the energies of that planet.

> > > > > > > > > > Of course importance will vary depending upon what you give the most value to as an individual but in terms of handling the circumstances of this physical world, success and material wealth, there is no greater authority than Saturn. Even the beneficial and said to be wealth giving planets, such as Jupiter, Sun and Venus have to operate through the Saturnian areas of life. There is no escaping this.

> > > > > > > > > > But all I can really say to you and anyone else is, try it. As it's the only way to know. Meditate on Saturn, perform it's spiritual square and program and condition yourself to handle the Saturnian areas of life well. It has been one of the most rewarding experiences of my spiritual life.

> > > > > > > > > > Also even though Saturn is said to be restricting and limiting, there is a very good reason why it also co rules the most rebellious and freedom oriented sign of the Zodiac, Aquarius. And it's because once you have become an authority within yourself (totally own your own Saturn) and no longer allow any external judgement to influence you, it's then impossible for you to be anything else but a rebel in the face of others.

> > > > > > > > > > The planets' functions within the framework of a being present themselves in many levels, the most important (and I would say basic) is through the psychological function each of them represent, just as you mentioned: Sun being the ego, the conscious being, Moon the unconscious, Venus the system of values, the anima/feminine side etc.. However, they are all present at the same time, and while they work differently for everyone, they also manifest themselves as events and life circumstances no matter how intimate and/or strong they may be to an individual. They are always interacting, and their interactions provide the framework
through which a person operate.

A woman's relationships and experiences with other women will still be ruled by her Venus, and the same can be said for men with Mars. When a function is found to be underdeveloped within a person, circumstances will act as to make the person incorporate said function, or at the very least recognize its existence. This isn't as simple as saying that people will eventually develop themselves fully, because the chart represents only raw potential, and many other things may influence the outcome. The transits themselves act as doorways to events that may lead to the development of certain planets, but even then, results are not guaranteed. It has also much to do with time. Most of the potential in a chart will stay unrealized until a person is old/experienced enough, because things unfold slowly, if at all.

This leads to Saturn, which is the very representation of Time and age (Chronos in Greece). With Saturn, there aren't shortcuts. Saturn is essentially restrictive, him being the castrator, and doesn't exactly bring rewards by himself, it only measures one's worth, as you said, and worth is usually measured with time, toil and trouble, though that's been exaggerated greatly because of the enemy.

Gratification is Jupiter's function, as is expansion and development of the self, and for this reason people with strong Jupiter and a supportive chart will always be better, grander, even if they aren't worthy of that. Older people have the power to make things happen, and are respected by the younger, because they have been through what was necessary for them to own this power through Saturn. However, in the end, that was only *allowed* to them because of Jupiter's influence, which is just as important.

Just as you don't gain Saturn's "favor" by simply being a hardworker or working efficiently within its limitations (by being a hardworker you're owning it), you can't always guarantee success simply by trusting yourself and the work you do. The reason for that being it's not only dependent on owning Saturn's internal function, but because you're still submitted to its external influences, and because that's also dependent on other factors, Jupiter being an integral part of that.

What I'm trying to say is, while we CAN (and should) own our destiny, and our planets, their energies and whatnot, we are still under their influence. And Saturn's influence is, as already described, restrictive; sometimes necessarily so. And also very strong. To underestimate Saturn's power is to attract serious trouble. If it really were that simple, I don't believe strong people who have been through various stages of hard work, some degree of suffering and thorough meditation (owning their Saturn with time, toil and trouble) would have to go through all that to be in a position where they can control their lives fully.

It's much more advisable to work with one's Jupiter, expanding and empowering oneself whilst learning the lessons of Saturn, than trying to control Saturn directly, because in the end of the day, even the Gods lost some battles, and they probably know better than anyone else that it's always possible to suffer limitations, because it's simply part of existing.

This doesn't have much to do with what you said, but I also think it's important to mention nevertheless: even with Jupiter's favor, empowering oneself and even achieving godhood doesn't somehow give the ability to hijack the universe and make it work the way one wants. Quite the contrary, reaching godhood is being perfectly attuned to it, and working with it to make the necessary changes that will bring a desirable result.

The framework is still there, as is one's natal chart, and will always be.

wrote:
Ever wondered why it is some planets work for some but against others?

It’s quite a modern concept within astrology that people are said to own certain planets and not others.

What this means is, certain planets energies operate through you directly through your own ego whilst others manifest themselves as circumstances in your life beyond your control.

This is because if energy is to act within ourselves a psychological doorway must be open for it to express itself and if it isn't it will manifest in other ways.

It's often said that women own their venus whilst men do not, venus for women manifests itself as, taste for beauty, desire to look good and be appreciated etc but the psychology of men is not like that so venus manifests itself in the lives of men in another way, i.e. women.

And the opposite is true in the case of Mars. This is because most of the time (not always) women and men think, act, believe, hold values etc which allow or disallow the energies of those planets to express themselves through their own ego. I.e women not caring so much about being physically tough, fighter, bold and fearless etc as opposed to men.

Now this is very important in understanding why Saturn hurts the majority of people, but there are a few which it works absolutely brilliantly for.

Saturn is that authoritarian voice within you, which says "this is good, this is bad, you're worthy, you're unworthy, you're deserving, you're undeserving" etc.

The vast majority of people, give this power away to their family, friends, teachers, bosses, society, religion and people around them in general.

This is especially true today because of the enemy and the way society is programmed. Quite simply this means they do not "OWN" their Saturn.

Therefore Saturn's energy has to eventually manifest itself and because of the nature of the planet it will bring limitation, restriction, pain and loss in your life., unless you take control of it within yourself.

Often it is the case that older people, usually older men are the one's who own their Saturn. This is for no other reason than simply their psychology is in such a way that it allows it to be so. You can also take control of your Saturn, in the same way.

There is nothing stronger than the power of true conviction within yourself, which is Saturn's gift to you. You have to know with 100% certainty in your heart you do and act how you believe to be the right way and only you can be the judge of what you can and can't have and do. DO NOT GIVE THIS POWER AWAY TO ANYONE!

Know you deserve the pleasure and things you want, know you are worthy and capable of achieving them and do not allow anyone else to judge these things for you. Own your Saturn.

You *can* advance spiritually with Saturn in Pisces, it will just take more effort and knowledge than it would with other placements. Perseverance is key, but that's usually what's lacking when Saturn is in Pisces.

I, for example, despite studying meditations, techniques and spiritual subjects for many years, have never even been able to get into a trance state. Anything that can possibly alter the state of mind usually doesn't work very well (I have Saturn in the 9th house, though).

As I said, with proper guidance and knowledge, there can be a spiritual breakthrough. Those with this placement who somehow manage to deal with this and work on it thoroughly will experience, at some point, enormous spiritual growth. However it's not easy at all and, as usual with Saturn, will probably take time. The Saturn Return usually marks a time of huge growth and liberation from restrictive patterns.

Saturn is reality, substance, boundaries and Pisces is the exact opposite of that. With Saturn there, actions and endeavors often end up failing because they lack the foundation, or because they didn't have enough power to reach completion. Or maybe they reach the goal, but in the end the results are underwhelming and it was probably a wasted effort anyway. Nothing is ever good enough. There is a sort of eternal discomfort, a yearning for something that is not there, for perfection, essentially something that *does not exist* in the literal sense (Pisces).

Only many years later I would know that this is precisely the nature of Saturn in Pisces.

It is a feeling of being stuck within oneself, and that's exactly what it is. It's truly hard to turn the tide because Saturn lacks, in itself, the footing that it usually provides for real improvement.

What follows is, for people who can't deal with that, weakness of will, self-destructive tendencies and severe depression. All coming the a sense that one's actions are worth nothing, that existing is suffering, and that any real gain requires a huge, painful sacrifice. As for the spiritual implications of this placement, the effect of Saturn in Pisces is that it tends to limit or block the flow of spiritual energies, and also block contact with higher realms. This may be caused by an extremely deep, often unknown, fear of losing oneself with these kinds of experiences. As with everything in Pisces, it may not look or feel like that at all, but it probably is. Emotional repression is possible as well.

What I said earlier about perfection not existing in the literal sense is due to the perception of the world through life in an essentially material reality, which by the way is characterised by Saturn, who simultaneously creates the boundaries of reality for people and prevents them from breaking free of that, raising the sentiment of rebellion (Capricorn-Aquarius). We all know, however, that's not the case, and once we are free (past Aquarius), we can reach perfection (Pisces, completion).

What the placement of Saturn in Pisces does is making these imperfections and boundaries much more conspicuous, even in daily life, which is not the case when it's in the other signs where it focus on other things. It makes reality much more difficult to bear, all the time. This can be both a very bad and a very good thing, depending on how well you handle. It enables one to be conscious of - or overwhelmed by - what's beyond, what's missing, and given proper guidance and enough understanding, may lead to a true spiritual breakthrough – or may even lead to a slow, painful death, caused by the own person.

It's important to note, if I didn't make that clear, that all the issues of Saturn in Pisces, or at least the worst ones, are completely internal. They are caused by states of mind and spirit, and can usually solved alone, with self-knowledge. The external issues are caused by house position and aspects, as usual.

Other planetary placements and aspects will obviously change the overall picture, but if there are other Pisces or 12th house planets, it's very likely that this will all be experienced in full.

To put it simply, just as tjs4satan said, it's like you're cut off from the spiritual world. This can get worse if Saturn is in a spiritual house, like the 8th, 9th or the 12th, but the feeling is generally the same.

You *can* advance spiritually with Saturn in Pisces, it will just take more effort and knowledge than it would with other placements. Perseverance is key, but that's usually what's lacking when Saturn is in Pisces.

I, for example, despite studying meditations, techniques and spiritual subjects for many years, have never even been able to get into a trance state. Anything that can possibly alter the state of mind usually doesn't
work very well (I have Saturn in the 9th house, though).

As I said, with proper guidance and knowledge, there can be a spiritual breakthrough. Those with this placement who somehow manage to deal with this and work on it thoroughly will experience, at some point, enormous spiritual growth. However it's not easy at all and, as usual with Saturn, will probably take time. The Saturn Return usually marks a time of huge growth and liberation from restrictive patterns.

As with everything in Pisces, it may not look or feel like that at all, but it probably is. Emotional repression is possible as well.
What I said earlier about perfection not existing in the literal sense is due to the perception of the world through life in an essentially material reality, which by the way is characterised by Saturn, who simultaneously creates the boundaries of reality for people and prevents them from breaking free of that, raising the sentiment of rebellion (Capricorn-Aquarius). We all know, however, that's not the case, and once we are free (past Aquarius), we can reach perfection (Pisces, completion).

What the placement of Saturn in Pisces does is making these imperfections and boundaries much more conspicuous, even in daily life, which is not the case when it's in the other signs where it focus on other things. It makes reality much more difficult to bear, all the time. This can be both a very bad and a very good thing, depending on how well you handle. It enables one to be conscious of - or overwhelmed by - what's beyond, what's missing, and given proper guidance and enough understanding, may lead to a true spiritual breakthrough - or may even lead to a slow, painful death, caused by the own person.

NOTE : I was wearing a white sapphire in gold ring on middle finger,a pearl on little finger and an emerald on ring finger.
I have changed the ring from last 1.5 months means I have removed that iron ring on middle finger completely and moved the white sapphire from middle finger to index finger.So all total 3 rings now White Sapphire on index, Emerald on ring and Pearl on little. Pearl wearing to strengthen the weak moon sitting on 8th house. I am wearing pearl from last 5 months and I have not felt neither good nor bad effect. it is neutral for me.I feel no bad effect due to pearl.

While the Ruler of Capricorn - Saturn, is found in Pisces, the Ruler of Pisces - Neptune, is found in Capricorn.
And I bet it gives even more problems, as they are so different in their nature, as you stated.

The condition is called 'reception' - where one planet is in the other's domicile but is not in in detriment or
exile, whilst the other is.

This is weakening, and one has to work hard to overcome the malevolent influence of those two.

HAIL SATAN!!

Well, there may be other ways of interpreting Saturn in Pisces, but I need to be totally honest with someone who also has it: by itself, it's very bad.

Of course, Saturn is bad for everyone, but there are very good reasons why Pisces is the sign of defeat, the 12th house is the house of ruin and, in traditional astrology, Saturn rejoices therein. Obviously this doesn't mean life will be invariably miserable for those with Saturn there. In fact, many people seem to not even feel its effects strongly (if not by house position, like you), but that's because of the nature of Pisces. It's sedative.

Saturn in reality, substance, boundaries and Pisces is the exact opposite of that. With Saturn there, actions and endeavors often end up failing because they lack the foundation, or because they didn't have enough power to reach completion. Or maybe they reach the goal, but in the end the results are underwhelming and it was probably a wasted effort anyway. Nothing is ever good enough. There is a sort of eternal discomfort, a yearning for something that is not there, for perfection, essentially something that *does not exist* in the literal sense (Pisces).

Ever since I was a kid, I had symbolic dreams in which I would do many absurd things to reach some kind of power that would enable me to do *stuff*, and just as I got it... it wasn't what I was thinking, or there was something missing. Only many years later I would know that this is precisely the nature of Saturn in Pisces.

It is a feeling of being stuck within oneself, and that's exactly what it is. It's truly hard to turn the tide because Saturn lacks, in itself, the footing that it usually provides for real improvement.

What follows is, for people who can't deal with that, weakness of will, self-destructive tendencies and severe depression. All coming the a sense that one's actions are worth nothing, that existing is suffering, and that any real gain requires a huge, painful sacrifice. These are all themes of Pisces alone, but even more so with Saturn involved.

As for the spiritual implications of this placement, the effect of Saturn in Pisces is that it tends to limit or block the flow of spiritual energies, and also block contact with higher realms. This may be caused by an extremely deep, often unknown, fear of losing oneself with these.

What the placement of Saturn in Pisces does is making these imperfections and boundaries much more conspicuous, even in daily life, which is not the case when it's in the other signs where it focus on other things. It makes reality much more difficult to bear, all the time. This can be both a very bad and a very good thing, depending on how well you handle. I have changed the ring from last 1.5 months means I have removed that iron ring on middle finger completely and moved the white sapphire from middle finger to index finger.So all total 3 rings now White Sapphire on index,Emerald on ring and Pearl on little.Pearl wearing to strengthen the weak moon sitting on 8th house.I am wearing pearl from last 5 months and I have not felt neither good nor bad effect.it is neutral for me.

feel no bad effect due to pearl.

not if you dont blatantly post about it, and if you have a strong repelling aura, this helps to keep them away.
they are not so much physical, but psychological, they will try to get the info from you, your mind, not the
papers that say who you are (with birthday and time etc), unless they use Jewish filth to do it for them, but then again, it takes a correct name, which you can keep secret if you are smart, and do not use anything affiliated over the groups, and stay away from social sites.

The greys knows your time of birth. And they use it to bring attacks on when you're the most weak. They do not need Jews to do it for them. They can read it from you... not from your mind but they can find it like we find things with Pendulum etc.. A lot of divination tools out there I guess.. But the Jews have no idea.

Thanks for the info.

It is quite weird that Neptune is fall in Capricorn. I feel this planet's influence in my life all the time. It gives me alot of confusion and I can't even imagine the influence of it when it is in Pisces.
The condition is called 'reception' - where one planet is in the other's domicile but is not in in detriment or exile, whilst the other is.

This is weakening, and one has to work hard to overcome the malevolent influence of those two.

Well, there may be other ways of interpreting Saturn in Pisces, but I need to be totally honest with someone who also has it: by itself, it's very bad.

Of course, Saturn is bad for everyone, but there are very good reasons why Pisces is the sign of defeat, the 12th house is the house of ruin and, in traditional astrology, Saturn rejoices therein. Obviously this doesn't mean life will be invariably miserable for those with Saturn there. In fact, many people seem to not even feel its effects strongly (if not by house position, like you), but that's because of the nature of Pisces. It's sedative.

Saturn is reality, substance, boundaries and Pisces is the exact opposite of that. With Saturn there, actions and endeavors often end up failing because they lack the foundation, or because they didn't have enough power to reach completion. Or maybe they reach the goal, but in the end the results are underwhelming and it was probably a wasted effort anyway. Nothing is ever good enough. There is a sort of eternal discomfort, a yearning for something that is not there, for perfection, essentially something that *does not exist* in the literal sense (Pisces).

Ever since I was a kid, I had symbolic dreams in which I would do many absurd things to reach some kind of power that would enable me to do *stuff*, and just as I got it... it wasn't what I was thinking, or there was something missing. Only many years later I would know that this is precisely the nature of Saturn in Pisces.

It is a feeling of being stuck within oneself, and that's exactly what it is. It's truly hard to turn the tide because Saturn lacks, in itself, the footing that it usually provides for real improvement.

What follows is, for people who can't deal with that, weakness of will, self-destructive tendencies and severe depression. All coming to a sense that one's actions are worth nothing, that existing is suffering, and that any real gain requires a huge, painful sacrifice. These are all themes of Pisces alone, but even more so with Saturn involved.

As for the spiritual implications of this placement, the effect of Saturn in Pisces is that it tends to limit or block the flow of spiritual energies, and also block contact with higher realms. This may be caused by an extremely deep, often unknown, fear of losing oneself with these kinds of experiences. As with everything in Pisces, it may not look or feel like that at all, but it probably is. Emotional repression is possible as well.

What I said earlier about perfection not existing in the literal sense is due to the perception of the world through life in an essentially material reality, which by the way is characterised by Saturn, who simultaneously creates the boundaries of reality for people and prevents them from breaking free of that, raising the sentiment of rebellion (Capricorn-Aquarius). We all know, however, that's not the case, and once we are free (past Aquarius), we can reach perfection (Pisces, completion).

What the placement of Saturn in Pisces does is making these imperfections and boundaries much more conspicuous, even in daily life, which is not the case when it's in the other signs where it focus on other things. It makes reality much more difficult to bear, all the time. This can be both a very bad and a very good thing, depending on how well you handle. It enables one to be conscious of - or overwhelmed by - what's beyond, what's missing, and given proper guidance and enough understanding, may lead to a true spiritual breakthrough - or may even lead to a slow, painful death, caused by the own person.

It's important to note, if I didn't make that clear, that all the issues of Saturn in Pisces, or at least the worst ones, are completely internal. They are caused by states of mind and spirit, and can usually solved alone, with self-knowledge. The external issues are caused by...
house position and aspects, as usual.

I know how hard it can be with this placement. In fact this is horrific, unless one decides to get up there. By preserving, they can build spiritual powers and gifts of lasting value but it will be a slow process. Saturn also many times has a permanent effect, its like whatever you build has a solid foundation.

Saturn in pisces will definitely spiritually oppose you, and try to make sure that you will never get past a point, but here is my yake on it. Imagine you're on a box ring, you are skinny as fuck, weak, and you have an experienced boxer opposing you. You will most certainly lose and it would take real power of Soul and perseverance, but once you will defeat him then you will be so far more experienced, powerful and what you had achieved will be permanent and you will be far more far than people who never vBulletin had opposition in this. Its like a hardcore trained martial artist, those who make it to the end of the training are so hardcore that while others bend spiritually. They have been experiencing everyday.

Saturn might be disgusting, but see him as a trainer, the one who always kicks your ass, the one that motivates you to really surpass him and makes you a machine trying to find the way of getting back at him. That way you will notice its like a strong boss, when you overcome him, you're above the strongest and most opposed.

Since there's no handy page on Azazel's Astrology like the Pluto transits page, I thought I'd post to here. I'm currently going through 3 Uranus transits, and my natal Uranus is quite strong as it's unaspected in my 9th house (Sagittarius) conjunct my 9th house cusp and Antares. And Uranus is currently transiting my 1st house.

My current transits are:
- square natal Sun
- Square natal Jupiter
- trine natal Uranus

I'd appreciate any info on this, as I'm going through some stuff in my life and my gut feeling is telling me to look more into this planet.

Hail Satan!

Subject: Re: Bucket Chart

The Bucket, since my chart is a bucket chart, I have noticed means that the Planet at the handle has prominent influence on the personality and influences the other planets very much. Its as characteristic as your ‘face’. If the bucket handle is your Chart Ruler, this is even more serious and more powerful. Its like a color of energy that tints all other energies. For instance if Buckt holder is Neptune. one person might have a Neptunian tint all over their personality. Its like a real bucket, the handle is where the bucket is kinda controlled from, but other chart factors play a prominent role as well. Also if the planets are evenly spread in the chart, this shows a polypragmic person, rather than a personality focused on one and only thing.

I hope someone will come with more info.

I forgot to mention earlier. Since Saturn is obstacles, ruin etc, if placed on Pisces. Could mean two additional things.

For one the chart shows information in regards to the past life. So Saturn is not coincidence at Pisces or any other sign. Probably Souls who faced a spiritual problem, or a spiritual destruction (Could be older ages when we had Paganism and many lived to see our Religion getting attacked) this might be shown in the chart as this, and all it entails. Also. Saturn in pisces probably comes with a big desire to merge with the Universe
once again (Reach a spiritual superhuman state) but it also shows obstacles, disbelief, deep self damaging attitude. Which might be connected to some sort of spiritual downfall.

Another theory I have, is that people who have Saturn on Pisces. Will really be the Saturn of the false bad piscean xian hoax, given they have been damaged, or some would even have a deep connection with the older ages. For instance I mean the hostile energy one should be receiving through a piscean point of view, to be projected into destroying dogmas that enforce the influence of feeling 'stuck' spiritually. Therefore arousing the hate for whay is physically represented as Saturn in Pisces, the xian hoax.

Dunno if this was entirely understood. I mean those people might habe extra hate for xianity, given they would try to break the inner obstacle by breaking the outer one.

Anyone else's opinion?

Subject: SV: [JoS_Astrology] Re: "Owning" your planets (LONG BUT IMPORTANT)

By what little I know about my past lives, you're entirely correct. I have been told that my soul is very old, that I lived during the times of the original religions and also that I was prosecuted, tortured and killed at
least once by the enemy.

It sure brings suffering, but the feeling I get from Saturn in Pisces is like "been there, done that". I feel like I've been through *real* suffering in the past and that I'm used to it. This is where the bad, self-destructive part kicks in: sometimes I even expect high degrees of suffering, as if it was just natural and inevitable.

Despite how much I hate them, I've also always had this calm, cool feeling that what they deserve is due (Saturn, the reaper) and I'm 100% sure they will pay in full. Revenge is a dish best served cold, and I realized this when I understood how I felt about them.

By the way, thanks for the words, lydia_666 and hoodedcobra666!

Uranus like all the outer planets brings big changes, but because it's Uranus, the changes are sudden,
unexpected, and lead to unknown situations.

Are Jupiter and the Sun conjunct or are they opposite? This can change the overall picture a lot, but in any
case I would say your view of the world and/or what you "are" will change dramatically during this transit,
especially since it's also trine natal Uranus, channeling the energy of your 9th house of vision and philosophy.
The square to Jupiter, the very ruler of the 9th house intensifies this greatly. You will definitely see life
differently after this. There may be a vision, a revelation, a mental breakthrough, something that modifies
your perspective entirely. Due to the nature of the square, the changes can be extremely abrupt and all I
can think for an analogy is The Tower card of the tarot.

Something will definitely blow, maybe you will, if you've been living in restrictive circumstances, but with
Jupiter involved, the aftermath won't be as bad as it could be. Jupiter always provides protection, but it
probably won't be easy. Check the Sun/Jupiter house, the houses they rule and the house from which
Uranus is aspecting them to know where exactly to expect disruption.

You're probably more impulsive, your daily life may feel erratic and there may be a very strong need to
change things in your life, be it your overall life direction or current situation. Travel, unexpected or forced,
to a place very different from where you are is also possible, though the Moon would probably be involved in
this case. Uncertainty and disruption will prevail during this period, but there's absolutely nothing to say the
changes will be bad in any way. There can be issues with your father or other important men in your life, a
separation may occur.

Jupiter and Sun are opposite.

Interesting. I’m actually considering uprooting everything and moving to Hawaii or the Caribbean. Something drastic with more sunshine (my part of Canada is so overcast). Natal Sun in 4th house btw, Jupiter in 10th.

I’ve felt on the edge of a major change and breakthrough for ages now. Actually I get this a lot, my whole life, but this time it's really intense.

I’m also going through my Saturn return, so that may also be a factor....

Most Uranus transits are never bad, unusual, yes, but bad, rarely. Liberation is the buzzword.

Transiting Uranus will be squaring transiting Pluto again soon.

Uranus Square Pluto Dates

ÂUranus square Pluto June 24 2012  
ÂUranus square Pluto September 19 2012

ÂUranus square Pluto May 21 2013

ÂUranus square Pluto November 1 2013

ÂUranus square Pluto March 17 2015

I like unusual. Story of my life. Seriously, I could write a book lol. And I have the ability to put a positive spin on almost anything, or at least make it become positive. Well, in the long run, as I might panic a bit at first (lacking in the Air element, I'm not so good with change).

Thanks M_18 and F.follets for the input. It's giving me a lot to think about.

HAIL SATAN!!!!

This is very interesting. I'm always fascinated with Astrology. You know I've had visions (not exactly sure if visions, dreams, old memories) But DEFINITELY remember them, from childhood. I always see myself as extremely powerful being, with everyone, being strong and powerful. And beautiful. Living in peace. I remember that. I've been there. I was definitely with Satan my other Past lives. I know that. I want to get to the Golden Age again I can't wait for that. The minute I have found the JoS I was crying tears of extreme joy. I was home, finally. I remember all of this. It was truly the most beautiful world. We must fight and get it back!!!!

hoodedcobra, you always get me motivated in nearly every post of yours that I read and I love it.

I knoq how hard it can be with this placement. In fact this is horrific, unless one decides to get up there. By preserving, they can build spiritual powers and gifts of lasting value but it will be a slow process. Saturn also many times has a permanent effect, its like whatever you build has a solid foundation.

Saturn in pisces will definitely spiritually oppose you, and try to make sure that you will never get past a point, but here is my yake on it. I imagine you're on a box ring, you are skinny as fuck, weak, and you have an experienced boxer opposing you. You will most certainly lose and it would take real power of Soul and perseverance, but once you will defeat him then you will be so far more experienced, powerful and what you had achieved will be permanent and you will be far more far than people who never vBulletin had opposition in this. Its like a hardcore trained martial artist, those who make it to the end of the training are so hardcore that while others bend spiritually. They have been experiencing everyday.

Saturn might be disgusting, but see him as a trainer, the one who always kicks your ass, the one that motivates you to really suppress him and makes you a machine trying to find the way of getting back at him. That way you will notice its like a strong boss, when you overcome him, you're above the strongest and most opposed.

Ave Satanas! Rege Satanas!

While the Ruler of Capricorn - Saturn, is found in Pisces, the Ruler of Pisces - Neptune, is found in Capricorn. And I bet it gives even more problems, as they are so different in their nature, as you stated.

HAIL SATAN!!!!

To put it simply, just as tjs4satan said, it's like you're cut off from the spiritual world. This can get worse if Saturn is in a spiritual house, like the 8th, 9th or the 12th, but the feeling is generally the same.

You *can* advance spiritually with Saturn in Pisces, it will just take more effort and knowledge than it would with other placements. Perseverance is key, but that's usually what's lacking when Saturn is in Pisces.

I, for example, despite studying meditations, techniques and spiritual subjects for many years, have never even been able to get into a trance state. Anything that can possibly alter the state of mind usually doesn't work very well (I have Saturn in the 9th house, though).

As I said, with proper guidance and knowledge, there can be a spiritual breakthrough. Those with this placement who somehow manage to deal with this and work on it thoroughly will experience, at some point, enormous spiritual growth. However it's not easy at all and, as usual with Saturn, will probably take time. The Saturn Return usually marks a time of huge growth and liberation from restrictive patterns.

First, thank you for being honest. Astrology is honest subject.

And it seem to be true with Saturn in Pisces. My life are hard. I'm not complaining to much, but it's actually hard. Well Saturn is the only planet Pisces, but still. I didn't truly understand the spiritual part. So you basically say I will always have a hard time with advancing spiritually? That's pretty sucks..

Well, there may be other ways of interpreting Saturn in Pisces, but I need to be totally honest with someone who also has it: by itself, it's very bad.

Of course, Saturn is bad for everyone, but there are very good reasons why Pisces is the sign of defeat, the 12th house is the house of ruin and, in traditional astrology, Saturn rejoices therein. Obviously this doesn't mean life will be invariably miserable for those with Saturn there. In fact, many people seem to not even feel its effects strongly (if not by house position, like you), but that's because of the nature of Pisces. It's sedative.

Saturn is reality, substance, boundaries and Pisces is the exact opposite of that. With Saturn there, actions and endeavors often end up failing because they lack the
foundation, or because they didn't have enough power to reach completion. Or maybe they reach the goal, but in the end the results are underwhelming and it was probably a wasted effort anyway. Nothing is ever good enough. There is a sort of eternal discomfort, a yearning for something that is not there, for perfection, essentially something that *does not exist* in the literal sense (Pisces).

> > > > > >

> > > > > > > Ever since I was a kid, I had symbolic dreams in which I would do many absurd things to reach some kind of power that would enable me to do *stuff*, and just as I got it... it wasn't what I was thinking, or there was something missing. Only many years later I would know that this is precisely the nature of Saturn in Pisces.

> > > > > >

> > > > > > > It is a feeling of being stuck within oneself, and that's exatcly what it is. It's truly hard to turn the tide because Saturn lacks, in itself, the footing that it usually provides for real improvement.

> > > > > >

> > > > > > > What follows is, for people who can't deal with that, weakness of will, self-destructive tendencies and severe depression. All coming the a sense that one's actions are worth nothing, that existing is suffering, and that any real gain requires a huge, painful sacrifice. These are all themes of Pisces alone, but even more so with Saturn involved.

> > > > > >

> > > > > > > As for the spiritual implications of this placement, the effect of Saturn in Pisces is that it tends to limit or block the flow of spiritual energies, and also block contact with higher realms. This may be caused by an extremely deep, often unknown, fear of losing oneself with these kinds of experiences. As with everything in Pisces, it may not look or feel like that at all, but it probably is. Emotional repression is possible as well.

> > > > > >

> > > > > > > What I said earlier about perfection not existing in the literal sense is due to the perception of the world through life in an essentially material reality, which by the way is characterised by Saturn, who simultaneously creates the boundaries of reality for people and prevents them from breaking free of that, raising the sentiment of rebellion (Capricorn-Aquarius). We all know, however, that's not the case, and once we are free (past Aquarius), we can reach perfection (Pisces, completion).

> > > > > >

> > > > > > > What the placement of Saturn in Pisces does is making these imperfections and boundaries much more conspicuous, even in daily life, which is not the case when it's in the other signs where it focus on other things. It makes reality much more difficult to bear, all the time. This can be both a very bad and a very good thing, depending on how well you handle. It enables one to be conscious of - or overwhelmed by - what's beyond, what's missing, and given proper guidance and enough understanding, may lead to a true spiritual breakthrough - or may even lead to a slow, painful death, caused by the own person.

> > > > > >

> > > > > > > It's important to note, if I didn't make that clear, that all the issues of Saturn in Pisces, or at least the worst ones, are completely internal. They are caused by states of mind and spirit, and can usually solved alone, with self-knowledge. The external issues are caused by house position and aspects, as usual.

> > > > > >

> > > > > > > Other planetary placements and aspects will obviously change the overall picture, but if there are other Pisces or 12th house planets, it's very likely that this will all be experienced in full.

He has no connections to Jews except for having a show & he knows that he may be involved in a network that is even run by them - at least with their money, if not directly. He likes doing his show, so what else is he to do? He hates them (Jews) & speaks the truth about them & in his shows. He knows a lot about them. He rarely talks about gematria on his shows. He mainly interviews & talks about current events & the politics involved & always mentions the Jew issues involved. There are many in the so-called truth & patriotard movements who talk about Jews as well. I think Jews don't mind this as longs as their agenda(s) moves along & especially where people are still locked into xianity. As long as that is the case, they know they are still under their thumb. It's like propaganda that is still 90% facts.

Direct all questions regarding English gematria to him directly. There should be a way to do that on his blog page. I am not giving out his email address.

I spent time dealing with some of the hosts on that defunct network to pull them away. I had some success. Enough to bring down their stats & put them in the toilet. Within 2 months of certain hosts leaving/being canned, their listenership practically disappeared. I did this by calling in regularly & emailing them. Several of the hosts have moved on to better things more based in reality as a result. I found this:

Gematria by Dennis Fetcho

The basic elements of the Construction. A primary element is that known as "the Acroamatic Cipher".

Says Manley P. Hall in "Secret Teachings of All Ages",

"The religious and philosophical writings of all nations abound with acroamatic cryptograms, that is, parables and allegories. The acroamatic is unique in that the document containing it may
be translated or reprinted without affecting the cryptogram. Parables and allegories have been used

since remote antiquity to present moral truths in an attractive and understandable manner. The

acroamatic cryptogram is a pictorial cipher drawn in words and its symbolism must be so

interpreted. The Old and New Testaments of the Jews, the writings of Plato and Aristotle, Homer's

Odyssey and Iliad, Virgil's Æneid, The Metamorphosis of Apuleius, and Æsop's Fables are outstanding

examples of acroamatic cryptography in which are concealed the deepest and most sublime truths of

ancient mystical philosophy...

...The creation myths of the world are acroamatic cryptograms, and the deities of the various

pantheons are only cryptic characters which, if properly understood, become the constituents of a

divine alphabet."
As embodied in Speculative Freemasonry, this search for "the Truth" comprised a search for "the Lost Word". This "Lost Word" was encoded as a "divine Alphabet".

As Manley P. Hall explains, the various "creation myths of the world" abound with "acoamatic ciphers" that are, in turn, concealing a "sacred Alphabet". In the story of "Adam and Eve", we are able to demonstrate precisely what was meant by a "divine Alphabet".

If we use the Letter M and divide it, we create the sequence I V I.

This sequence is simply reordered to V-II. Being "Hebrew", it is read "backwards", wherein the "tale" reveals its Letter.

II = PI = 3.141 = 1413 = ADM
V = EVE

ADM and EVE is an acroamatic cipher for the "Roman" or "Greek" letter M.
Since V-II is a form of "crypted M", we note then that the SEVEN is, too, a form of "cipher" for the Letter M. In this case, we note that when we break the M into its constituent components, M = I V I, it is "Pi" as "ADM" that "surrounds" EVE. Hence in the word S-EVE-N, we note that S is located at number 3 while N is located at number 14.

S-EVE-N simply is another form of presentation for the Letter M.

Equally, since EL (L) is, too, located at number 3, the word EL-EVE-N demonstrates clear that EL-EVE-N is a form of cipher for the Letter M.

All of these representations and ciphers form "conceptual links" and "anchors" that, through an elevated understanding of the Construct, begin to reveal themselves as representative of "the Word".

The Key to "the Word" is Pi.
The Precession of the Equinoxes and Freemasonry

One of the "Great Keys" to understanding the Speculative Masonic Arts, as well as the larger Western esoteric traditions, to include Esoteric Christianity, is that which is known as "the Precession of the Equinoxes".

In short, the Earth wobbles on its axis like a top, shifting one degree every 72 years. The total time to complete one rotation on its axis is known as "Plato's Great Year".

Says Higgins in "The Beginning of Freemasonry",

"If the ultimate and all-sustaining secret of Freemasonry may be openly expressed in a few words, it will be these:

"The entire course of nature is manifested in cycles. Some of these are scientifically real,
others are but appearances based upon the presence and position of the observer upon the earth,

away from which they have no true existence. For instance, there is no night except we are
temporarily on the shadow side of our globe during its diurnal rotation. There is this movement of
the earth on its axis; there is the annual revolution that we term the year; and there is the
stupendous cycle called the precession of the equinoxes, which requires nearly 26,000 years for its
accomplishment....

"...By careful computation we are able to reconstruct this really divine system, and we find
that the exact proportions relating to celestial correlations in question were lavishly and
exclusively in the architecture and temples of old, in all the culture lands of the world, both
east and west."

"The Great Pyramid" of Egypt is, perhaps, the most studied of all ancient architectures relative to
Western esoteric traditions, especially as these traditions pertain to Freemasonry. Some celestial

constants that are embed into the Great Pyramid include the following:

The length of a base side is 9,131 Pyramid Inches measured at the mean socket level, or 365.24

Pyramid Cubits, which is the number of days in a year \[\frac{9,131}{25} = 365.24\], accurate to 5 digits.

The perimeter of the base divided by 100 = 365.24, the number of days in a year. \[\frac{9,131 \text{ Pyramid Inches} \times 4}{100},\text{ accurate to 5 digits}\]

The length of the antechamber of the King's Chamber times Pi = length of a sidereal year

\[116.26471 \text{ Pyramid Inches} \times 3.14159 = 365.25636 \text{ days, accurate to 8 digits}\]

The sum of the pyramid's two base diagonals in Pyramid Inches = length of the Precession of the Equinoxes (25,827 years)
Due to the angle of the sides of the pyramid vs. its latitude, it casts no shadow at noon during the spring equinox. - Source: Tim Strouse.com

When creating the "verbal" component of the larger "philosophical Construction", the "precession number that was/is used is that of Plato, or 25920. When 25920 is divided by 2, this figure enables us to arrive at a "conceptual diameter", or what is known as a "Pi Proportion".

The "Precession of the Equinoxes" as a "Pi Proportion" may be viewed simply as two circles squared and divided by 10.

$\frac{360^2}{10} = \frac{360 \times 360}{10} = \frac{129600}{10} = 12,960 \text{ Years}$

$12960 \text{ Years} \times 2 = 25920 \text{ Years} = \text{Platonic Cycle}$

In this case, the operative number is "$6^2$" or $6 \times 6$ or 36.

When we sum the digits from 1:11, we show that $1+2+3+4+5+6+7+8+9+10+11 = 66$. 
The term "66" is a cryptogram for 6*6.

The Great Key remains "Pi", which in this case is being represented by 360 degrees of a circle, or 6*6, or 66 and 11 for short.

Anchor Points in the Alphabet - The Number 7

We now turn to the idea of "anchors in the Alphabet". Another term for "anchors" is "Pi Start Points", but "anchors" is an appropriate conceptual definition.

Our primary "anchor" is simply to divide the Alphabet in half.

In a 26 digit sequence Alphabet, a division by 2 would arrive at "13". This is the Letter M. "M" starts the sequence 131415 which is, of course, Pi (3.1415).

The secondary anchor is to simply divide the Alphabet again in half.

The homonym code here is "If you got it, do you have it?"

In this case, the Letters being encoded are the Letters G and T. The operative word is "GOT". In this case, we divided the Alphabet in half and arrived at M.NO. When we divide the Alphabet in half a second time, we arrive at the Letters of G and T.

At the letters "G" and "T", we have exactly 6 Letters to the right and left of each respective letter.
This $6^4 = 1296$ encodes the "Precession of the Equinoxes" in that $6^6 = 1296$, while equally encoding the period from Winter Solstice to Spring Equinox to Summer Solstice to Fall Equinox, and so forth.

The design of the Alphabet is directly encoding the same "celestial observations" as is hinted at in the design of the Pyramids.

The "homonym code" is a play on words. If we "G-T" the Alphabet, we first divide the Alphabet in "half", and then, when we divide the Alphabet in "half" again, we arrive at the Letters G-T. The play on words, then, is the coy link of "have" to "halve".

If you "G-T" the Alphabet, do you "halve it"?

The answer, then, is of course "Yes", if I G-T the Alphabet, I must "halve it". Set into profane speech, the phrase becomes "If you got it, do you have it?". With a wink of the eye, an esoteric code set against "truth" reveals itself simply and effectively.

More importantly, the Letters "G" and "T" appear on the "7 digit" of each of their respective halves.
The way that the "7" becomes a "Pi Start Point", or "anchor point", is through fusing the Letters G and T to the seasons.  T is the Winter and Summer Solstice while G is the Spring and Fall Equinox. Since each of these days traditionally fell on the 22 day of their respective, the fraction of 22/7 reveals 3.1428571.

"7" represents an anchor point for Pi when the traditional dates for the Sun's celestial marking points is invoked.

The Letters B-T and "11"

We could not that the Letters B and T have values of 2 and 20 respective, and that the sum of 2+20=22 and thus to divide 22 by 2 we arrive back at 11 shows a relationship of B and T to 11, but this form of logic would not be the design and intent of the Letters B and T.

However, just as G and T as the word "GOT" and "GET" hint at a more hidden esoteric code, so too do the Letters B and T as the word BET and BETTER, hints at a more hidden esoteric code.

The way this works is through a manipulation of the "Master Number", which is 11.

The "Master Number" of "11" reveals that the sum of 1:11 is 66, and 66 is 6*6=36.

Manipulations of the Number 36 include the following:

1) The Sum of 1:8 = 36 = 6*6
2) The Sum of 1:11 = 66 = 6*6
3) The Square of 36 = 6*6 
4) The Multiple of 4*9=36=6*6

When we use the Letters B and T, aka, the "BT" er way. This "BT" way, of course, must invoke the Master Number in some way.

This is accomplished through setting one start point at T and the other at B. If we count 4 digits to right of T and 4 digits to the left of B, our end point is X.

\[ T - U V W - X - Y Z A - B \]

The Letter X is 11 digits in from the start of the second half of the Alphabet.

\[ N O P Q R S T U V W X \]
\[ 1 2 3 4 5 6 7 8 9 0 11 \]

When we count 9 from the Left of T and 9 from the Right of B, our end point is the Letter K.

\[ B - C D E F G H I J - K - L M N O P Q R S - T \]

The Letter K is the 11th Letter from the start of the Alphabet.

Through the Letters BT, using a 4*9 count, we arrive at an 11*11 (K-X) representation of the Master Number.
Since 11 is 66, then K-X reveals 11-11, or 66-66, or 6*6*10*6*6 = 12960 years.

This is, again, the Pi Proportion to the Precession of the Equinoxes.

In this way does 7/11 hide or reveal starting points for "the Word" or "Pi"?

I'm sorry if this is out of place, what I'm presenting here is not related directly to astrology per se, but it's very important and I've wanted to share this for quite some time already. Please let me know what you think of this, and if I should go further into it.

It's a well known fact that names have power. Giving a name to something is like giving it an official existence which will, from that moment onward, carry its own purpose and develop its meaning. Nomen est omen. The names of the gods are vibrated as words of power. In ancient languages, letters had numerical equivalence; letters and numbers were interchangeable and all had special significance and power.

More than that, the power of the letters and numbers is based on the fact that they represent the vibrations of the universe. Each one of them is a concept within itself, and each one is a part of the whole. Names, mantras, runes, sigils, symbols, letters, numbers - all are connected. The numbers and letters are tools with which one can understand this process and shed light on what makes things what they are, what is their basic constitution and what they represent to the rest of the world.

Numerology studies and utilizes these tools to understand and work with the energies of the universe. Together with Astrology, it can provide invaluable information about the self, the others and the future. It's extremely simple and straightforward to use - though very detailed as well - and can clarify or even reveal trends not easily seen within a chart.

In this post, I will present the numbers, their basic meaning/ruledship and relationship for future reference. Later, I'll show the methods that reveal exactly how they are used in Numerology.

Basic rules and the Numerical equivalence of Letters
In numerology, all the numbers are reduced to one digit that represents a vibration. This is done through the addition of the digits. For example: 258 is actually 6, because \( 2 + 5 + 8 = 15 = 1 + 5 = 6 \).

Two tables are used to assign numbers to the letters: the Pythagorean table, which is the most widely used and the Chaldean table, which is rarely used.

In the Pythagorean table, numbers relate to the letters in a very straightforward way: \( A = 1, B = 2 \) and so on. Also, sets of letters represent vibrational levels of each number and are divided in physical/material, mental/social and spiritual/emotional.

The Chaldean table does not use the number 9 (supposedly) because it was considered a divine, sacred number, unrelated to people. The Pythagorean table is the most practical and accurate for general use, and is the one I prefer, however the Chaldean table is said to hold most closely the real vibrational qualities of the numbers and letters and thus represents occult meanings and underlying forces. Choice between the two is free and depends entirely on preference.

There are also three main (or more, but few people use them at all) so-called "Master Numbers": 11(2), 22(4) and 33(6) which are basically the same as their reduced, single-number form, only much more powerful. They are rarely realized in full by people who have them in their makeup, but they nevertheless provide greater-than-average potential to both glory and
downfall. They operate pretty much as the higher octave planets. Usually, whenever they appear
in the numerological chart, they are not reduced because of their special significance.

*It's worth noticing that the number 33 had its meaning and potential abused by the enemy,
who called it the number of Christ, "the son of God"/"savior"/"protector", when in fact it
represents our Gentile relationship with the Gods, our humanity. Six is the number of family
bond and connections and we have family bonds with the gods, we descend from them and we will
always be connected to them, also as their family. There are many other ways to see the misuse
of number 33, it's very clear. This also serves to show how the 33 works in relation to the
single number 6: one represents divine, elevated meanings, and the other represents more
common meanings.*

Similarly, numbers followed with 0, such as 10, 20, 500 etc. are the same as their single
form, only intensified by the presence of number zero. Number zero, for all practical
purposes, is not used but exists nevertheless and is only considered in a couple of cases,
such as this one.

**Numerical Relationships**

As shown in the descriptions (and I tried my best to separate them as much as possible), the
numbers have an overlapping spectrum of (rather than mutually exclusive) meanings. Some of
them are directly related to each other, some have similar characteristics, but with different
expression.

- The even numbers represent conformity, accordance, permanence. The odd numbers stand alone,
bring change and break the conformity.
- Numbers 3, 6 and 9 are all related, all deal with relationships and connections, in
different degrees: 3 deals with few relationships, friends; 6 deals with larger groups of people, the community;
9 deals with relationships with the world at large.
- 3 is rather superficial, 6 is deeper, 9 is both the ultimate soul commitment and complete
detachment.
- 2 represents all 1 on 1 relationships.
- 1 represents the head and has to do with the powers of the mind, can represent raw mental
energy, genius, mental prowess.
- 4 and 8 deal with logic and reasoning.
- Number 5, despite being mental, is also very physical; it works through the senses and as
such, is one of the most sexual numbers.
- 2, 6 and 9 are all helpers, humanitarians, sensitive numbers.
- 2 is entirely passive, will give itself entirely; 6 is also passive, but will stand by itself and its ideals, even if abused sometimes; 9 can give itself entirely to a cause it believes, but will always act to change a situation and fights whenever necessary.
- 5 and 9 both represent expansion.
- 4 and 8 are very similar, but while 4 maintains the status quo for the sake of simply having a status quo, 8 does it for personal reasons, to maintain power.
- 6 also seeks permanence, but for the sake of balance and harmony.
- 1 and 8 have abundant energy and can be very sexual, like number 3 and 5, but are usually concerned with other things.

Combined, letters and numbers provide a very fine-tuned energetic signature to whatever they are attached to.

The numbers also relate to certain signs and planets, though not really directly. Different authors on the subject offer different ruling planets to each number, and none of them seem to encompass their meaning entirely, so I'll not go into that. Numbers usually rule a set of similar characteristics from two or more signs at once:

- 1 relates to both Aries and Leo.
- 2 relates to Libra and Cancer.
- 3 relates to Taurus, Gemini and Leo.
- 4 relates to all the earth signs.
- 5 is most closely related to the Gemini-Sagittarius axis, though it is also related to Aquarius.
- 6 is Cancer, Virgo and Libra.
- 7 is almost entirely related to Aquarius.
- 8 is strongly related to Scorpio and Capricorn.
- 9 is Sagittarius and Pisces.
- 11 is very close to the entire meaning of Pisces.
- 22 has the qualities of Taurus, but of Aries and Pisces as well. Transcendent number 4.
- 33 represents the Virgo-Pisces axis very strongly.

The numbers relate to the tarot cards, runes and chakras as well.

As said in the introduction, the numbers encompass the meaning of many energies and can be used to understand their interactions and how they work in the world. Though the focus here is self-knowledge and people, they can be used for pretty much everything, including predicting the future. I'll go into that in future posts, if you want.
P.S.: If for some reason the tables are screwed up, just do a quick search with their names and you'll find many images of them. Formatting text on Yahoo is a terrible, painful job.

You're welcome. As soon as I get a chance, I will look up some stuff on my computer for numerology.

If I get some time in the future I can post some more on this. I also have along piece on the numerology of 9-11.
I'm sorry if this is out of place, what I'm presenting here is not related directly to astrology per se, but it's very important and I've wanted to share this for quite some time already. Please let me know what you think of this, and if I should go further into it.

It's a well known fact that names have power. Giving a name to something is like giving it an official existence which will, from that moment onward, carry its own purpose and develop its meaning. *Nomen est omen*. The names of the gods are vibrated as words of power. In ancient languages, letters had numerical equivalence; letters and numbers were interchangeable and all had special significance and power.

More than that, the power of the letters and numbers is based on the fact that they represent the vibrations of the universe. Each one of them is a concept within itself, and each one is a part of the whole. Names, mantras, runes, sigils, symbols, letters, numbers - all are connected. The numbers and letters are tools with which one can understand this process and shed light on what makes things what they are, what is their basic constitution and what they represent to the rest of the world.

Numerology studies and utilizes these tools to understand and work with the energies of the universe. Together with Astrology, it can provide invaluable information about the self, the others and the future. It's extremely simple and straightforward to use - though very detailed as well - and can clarify or even reveal trends not easily seen within a chart.

In this post, I will present the numbers, their basic meaning/rulership and relationship for future reference. Later, I'll show the methods that reveal exactly how they are used in Numerology.

Basic rules and the Numerical equivalence of Letters
In numerology, all the numbers are reduced to one digit that represents a vibration. This is done through the addition of the digits. For example: 258 is actually 6, because $2 + 5 + 8 = 15 = 1 + 5 = 6$.

Two tables are used to assign numbers to the letters: the Pythagorean table, which is the most widely used and the Chaldean table, which is rarely used.

In the Pythagorean table, numbers relate to the letters in a very straightforward way: $A = 1$, $B = 2$ and so on. Also, sets of letters represent vibrational levels of each number and are divided in physical/material, mental/social and spiritual/emotional.

The Chaldean table does not use the number 9 (supposedly) because it was considered a divine, sacred number, unrelated to people. The Pythagorean table is the most practical and accurate for general use, and is the one I prefer, however the Chaldean table is said to hold most closely the real vibrational qualities of the numbers and letters and thus represents occult meanings and underlying forces. Choice between the two is free and depends entirely on preference.

Fibonacci sequence is a sequence of numbers where each number is obtained from the sum of the previous two series. Thus, the first 10 numbers of the Fibonacci sequence are:

1, 1, 2, 3, 5, 8, 13, 21, 34, 55, ...

(first 2 numbers are predefined and the rest are obtained recursively from the sum of the previous two: 3 = 2 + 1 5 = 3 + 2, also)

Fibonacci sequence has fascinated throughout history on many scientists, mathematicians, physicists, biologists, and continue to do so even today.

Fibonacci (1170 - 1240) is considered one of the greatest European mathematicians of the Middle Ages. He was born in Pisa, the Italian city
famous for its leaning tower. His father was a customs officer in the city called Bougie in North Africa, so the Fibonacci increased among North African civilization, making, however, many trips around the Mediterranean coasts.

Fibonacci is known as one of the first who introduced Arabic numerals to Europe, and numbers that we use today: 0, 1, 2, 3, .. 9.

Human body

Human hand has five fingers, each finger with three phalanges, separated by joints (numbers in sequence). The average size of phalanges are: 2cm, 3cm, In continuation is a bone of the hand which is on average 8 cm.

Human face is characterized, in terms of aesthetic, through some several main the main distance between the eyes, distance between mouth and and the distance between the nose and eyes, and mouth size. The science aesthetics is estimated to be even considered more pleasing to the eye as these dimensions better meet the Fibonacci sequence.

Fibonacci numbers are considered to be actually the counting system of nature, a measure of Divinity. These numbers occur everywhere in nature, from the arrangement of leaves, up to the human hand, phalanges.

One can do a search on youtube or otherwise on Fibonacci. One of Tool's songs have a Fibonacci sequence in it. You can find it on youtube.

I will post more stuff later when I get some time.

In numerology, all the numbers are reduced to one digit that represents a vibration. This is done through the addition of the digits. For example: $258$ is actually $6$, because $2 + 5 + 8 = 15 = 1 + 5 = 6$.

Two tables are used to assign numbers to the letters: the Pythagorean table, which is the most widely used and the Chaldean table, which is rarely used.

Omniscience, omnipresence, omnipotence, illumination, inspiration, comprehension, spiritual leadership, elevation, perfection, transcendence, universal consciousnss, myths, religion, broadcasting, fame, idealism, charisma, sacrifice, neverending expansion, foreigners, enthusiasm, the world at large. Martyrdom, fanaticism, victimization, superiority complex, drugs, alcohol, aberrations, loss, gullibility, madness.

There are also three main (or more, but few people use them at all) so-called "Master Numbers": 11(2), 22(4) and 33(6) which are basically the same as their reduced, single-number form, only much more powerful. They are rarely realized in full by people who have them in their makeup, but they nevertheless provide greater-than-average potential to both glory and downfall. They operate pretty much as the higher octave planets. Usually, whenever they appear
in the numerological chart, they are not reduced because of their special significance.

It’s worth noticing that the number 33 had its meaning and potential abused by the enemy, who called it the number of Christ, "the son of God"/"savior"/"protector", when in fact it represents our Gentile relationship with the Gods, our humanity. Six is the number of family bond and connections and we have family bonds with the gods, we descend from them and we will always be connected to them, also as their family. There are many other ways to see the misuse of number 33, it's very clear. This also serves to show how the 33 works in relation to the single number 6: one represents divine, elevated meanings, and the other represents more common meanings.

Similarly, numbers followed with 0, such as 10, 20, 500 etc. are the same as their single form, only intensified by the presence of number zero. Number zero, for all practical purposes, is not used but exists nevertheless and is only considered in a couple of cases, such as this one.

Numerical Relationships

As shown in the descriptions (and I tried my best to separate them as much as possible), the numbers have an overlapping spectrum of (rather than mutually exclusive) meanings. Some of them are directly related to each other, some have similar characteristics, but with different expression.

- The even numbers represent conformity, accordance, permanence. The odd numbers stand alone, bring change and break the conformity.
- Numbers 3, 6 and 9 are all related, all deal with relationships and connections, in different degrees: 3 deals with few relationships, friends; 6 deals with larger groups of people, the community; 9 deals with relationships with the world at large.
- 3 is rather superficial, 6 is deeper, 9 is both the ultimate soul commitment and complete detachment.
- 2 represents all 1 on 1 relationships.
- 1 represents the head and has to do with the powers of the mind, can represent raw mental energy, genius, mental prowess.
- 4 and 8 deal with logic and reasoning.
- Number 5, despite being mental, is also very physical; it works through the senses and as such, is one of the most sexual numbers.
- 2, 6 and 9 are all helpers, humanitarians, sensitive numbers.
- 2 is entirely passive, will give itself entirely; 6 is also passive, but will stand by
itself and its ideals, even if abused sometimes: 9 can give itself entirely to a cause it believes, but will always act to change a situation and fights whenever necessary.
- 5 and 9 both represent expansion.
- 4 and 8 are very similar, but while 4 maintains the status quo for the sake of simply having a status quo, 8 does it for personal reasons, to maintain power.
- 6 also seeks permanence, but for the sake of balance and harmony.
- 1 and 8 have abundant energy and can be very sexual, like number 3 and 5, but are usually concerned with other things.

Combined, letters and numbers provide a very fine-tuned energetic signature to whatever they are attached to.

The numbers also relate to certain signs and planets, though not really directly. Different authors on the subject offer different ruling planets to each number, and none of them seem to encompass their meaning entirely, so I'll not go into that. Numbers usually rule a set of similar characteristics from two or more signs at once:

- 1 relates to both Aries and Leo.
- 2 relates to Libra and Cancer.
- 3 relates to Taurus, Gemini and Leo.
- 4 relates to all the earth signs.
- 5 is most closely related to the Gemini-Sagittarius axis, though it is also related to Aquarius.
- 6 is Cancer, Virgo and Libra.
- 7 is almost entirely related to Aquarius.
- 8 is strongly related to Scorpio and Capricorn.
- 9 is Sagittarius and Pisces.
- 11 is very close to the entire meaning of Pisces.
- 22 has the qualities of Taurus, but of Aries and Pisces as well. Transcendent number 4.
- 33 represents the Virgo-Pisces axis very strongly.

The numbers relate to the tarot cards, runes and chakras as well.

As said in the introduction, the numbers encompass the meaning of many energies and can be used to understand their interactions and how they work in the world. Though the focus here is self-knowledge and people, they can be used for pretty much everything, including predicting the future. I'll go into that in future posts, if you want.
Hey

I remember someone said in JoS Egroup to get the book called:
- The Only Astrology Book You'll Ever Need by Joanna Martine Woolfolk.

now I got a problem reading my chart because Joanna took the chart of Oprah Winfrey and Joanna gave an example how to interpret the chart and it's a bit complicated.

Here's an example:

Oprah's Cusp of 2nd house is 5 degree Aquarius but inside the house she has;

- Venus is in 8 degree aquarius in the second house,
- Sun 9 degree in aquarius and
- Mercury is in 19 degree in aquarius.

Now after this stage Joanna said to have 3 column called: Planets, In what signs and In what houses.

afterwards Joanna wrote:

Planet: In What Sign: In What house:
Sun Aquarius need money bla bla..

What I don't understand is do we take the sign from the Cusp or from inside the houses?

Because Joanna didn't mention from where we take this sign and I'm reading every page!

Hail To Father and all Gods from Duat.

I don't know if I understood... She gave all the info there.

In a chart, the visual indication of a planet within a sign is given by its symbol. If a planet is in a sign, it just is, there's nothing related to its house position. If she was born roughly between January 20 and February 20, the Sun definitely was in Aquarius. That's all there is to it. What can possibly change is the signs on the house cusps, and consequently which planets are in each house.

The simple explanation is that the signs "spin" around the chart during the course of the day (because the Earth spins), so the house cusps change roughly every two hours (24 hours a day/12 signs = 2 hours per sign). If she was born when Aquarius was on the 2nd house cusp, then those planets in Aquarius would most certainly be inside the 2nd house as well. Had she been born two hours later, these planets would be inside the first house, and so on. The visual indication here is the planetary symbol between one house cusp and the next, therefore "within" the house.

House positions depend on the signs because there's no way to tell where the house cusp is if there's no sign there, but the planets and signs themselves have nothing to do at all with the houses. Planetary positions are almost absolute during the course of one day, house positions are relative to the time of the day and place of birth.

I don't know if I was clear enough, sorry if it's complicated.

"Plato's Great Year".

Says Higgins in "The Beginning of Freemasonry", "If the ultimate and all-sustaining secret of Freemasonry may be openly expressed in a few words, it will be these:

"The entire course of nature is manifested in cycles. Some of these are scientifically real, others are but appearances based upon the presence and position of the observer upon the earth, away from which they have no true existence. For instance, there is no night except we are temporarily on the shadow side of our globe during its diurnal rotation. There is this movement of the earth on its axis; there is the annual revolution that we term the year; and there is the stupendous cycle called the precession of the equinoxes, which requires nearly 26,000 years for its accomplishment."

"...By careful computation we are able to reconstruct this really divine system, and we find that the exact proportions relating to celestial correlations in question were lavishly and exclusively in the architecture and temples of old, in all the culture lands of the world, both east and west."

"The Great Pyramid" of Egypt is, perhaps, the most studied of all ancient architectures relative to Western esoteric traditions, especially as these traditions pertain to Freemasonry. Some celestial constants that are embedded into the Great Pyramid include the following:

The length of a base side is 9,131 Pyramid Inches measured at the mean socket level, or 365.24 Pyramid Cubits, which is the number of days in a year \[9,131/25 = 365.24, \text{ accurate to 5 digits}\]. The perimeter of the base divided by 100 = 365.24, the number of days in a year. \[9,131 \text{ Pyramid Inches} * 4 / 100, \text{ accurate to 5 digits}\]

The length of the antechamber of the King's Chamber times Pi = length of a sidereal year \[116.26471 \text{ Pyramid Inches} * 3.14159 = 365.25636 \text{ days, accurate to 8 digits}\]

The sum of the pyramid's two base diagonals in Pyramid Inches = length of the Precession of the Equinoxes (25,827 years)

Due to the angle of the sides of the pyramid vs. its latitude, it casts no
shadow at noon during the spring equinox.

When creating the "verbal" component of the larger "philosophical Construction", the "precession number that was/is used is that of Plato, or 25920. When 25920 is divided by 2, this figure enables us to arrive at a "conceptual diameter", or what is known as a "Pi Proportion".

The "Precession of the Equinoxes" as a "Pi Proportion" may be viewed simply as two circles squared and divided by 10.

$$(360^2)/10 = (360*360) = 129600/10 = 12,960 \text{ Years}$$

$$12960 \text{ Years} * 2 = 25920 \text{ Years} = \text{Platonic Cycle}$$

In this case, the operative number is "$6^2$" or 6*6 or 36.

When we sum the digits from 1:11, we show that $1+2+3+4+5+6+7+8+9+10+11 = 66$.

Fibonacci sequence is a sequence of numbers where each number is obtained from the sum of the previous two series. Thus, the first 10 numbers of the Fibonacci sequence are:

$$1, 1, 2, 3, 5, 8, 13, 21, 34, 55, ...$$

(first 2 numbers are predefined and the rest are obtained recursively from the sum of the previous two: $3 = 2 + 1 \ 5 = 3 + 2$, also)

Fibonacci sequence has fascinated throughout history on many scientists, mathematicians, physicists, biologists, and continue to do so even today.
Fibonacci (1170 - 1240) is considered one of the greatest European mathematicians of the Middle Ages. He was born in Pisa, the Italian city famous for its leaning tower. His father was a customs officer in the city called Bougie in North Africa, so the Fibonacci increased among North African civilization, making, however, many trips around the Mediterranean coasts.

Fibonacci is known as one of the first who introduced Arabic numerals to Europe, and numbers that we use today: 0, 1, 2, 3, .. 9.

Human body

Human hand has five fingers, each finger with three phalanges, separated by joints (numbers in sequence). The average size of phalanges are: 2cm, 3cm, 4cm. In continuation is a bone of the hand which is on average 8 cm.

Human face is characterized, in terms of aesthetic, through some several main dimensions: the main distance between the eyes, distance between mouth and nose, and the distance between the nose and eyes, and mouth size. The science of aesthetics is estimated to be even considered more pleasing to the eye as these dimensions better meet the Fibonacci sequence.

Fibonacci numbers are considered to be actually the counting system of nature, a measure of Divinity. These numbers occur everywhere in nature, from the arrangement of leaves, up to the human hand, phalanges.

One can do a search on youtube or otherwise on Fibonacci. One of Tool's songs have a Fibonacci sequence in it. You can find it on youtube.

I will post more stuff later when I get some time.

I'm sorry if this is out of place, what I'm presenting here is not related directly to astrology per se, but it's very important and I've wanted to share this for quite some time already. Please let me know what you think of this, and if I should go further into it.

It's a well known fact that names have power. Giving a name to something is like giving it an official existence which will, from that moment onward, carry its own purpose and develop its meaning. *Nomen est omen*. The names of the gods are vibrated as words of power. In ancient languages, letters had numerical equivalence; letters and numbers were interchangeable and all had special significance and power.

More than that, the power of the letters and numbers is based on the fact that they represent the vibrations of the universe. Each one of them is a concept within itself, and each one is a part of the whole. Names, mantras, runes, sigils, symbols, letters, numbers - all are connected. The numbers and letters are tools with which one can understand this process and shed light on what makes things what they are, what is their basic constitution and what they represent to the rest of the world.

Numerology studies and utilizes these tools to understand and work with the energies of the universe. Together with Astrology, it can provide invaluable information about the self, the others and the future. It's extremely simple and straightforward to use - though very detailed as well - and can clarify or even reveal trends not easily seen within a chart.

In this post, I will present the numbers, their basic meaning/rulership and relationship for future reference. Later, I'll show the methods that reveal exactly how they are used in Numerology.
Basic rules and the Numerical equivalence of Letters

In numerology, all the numbers are reduced to one digit that represents a vibration. This is done through the addition of the digits. For example: 258 is actually 6, because $2 + 5 + 8 = 15 = 1 + 5 = 6$.

Two tables are used to assign numbers to the letters: the Pythagorean table, which is the most widely used and the Chaldean table, which is rarely used.

In the Pythagorean table, numbers relate to the letters in a very straightforward way: A = 1, B = 2 and so on. Also, sets of letters represent vibrational levels of each number and are divided in physical/material, mental/social and spiritual/emotional.

The Chaldean table does not use the number 9 (supposedly) because it was considered a divine, sacred number, unrelated to people. The Pythagorean table is the most practical and accurate for general use, and is the one I prefer, however the Chaldean table is said to hold most closely the real vibrational qualities of the numbers and letters and thus represents occult meanings and underlying forces. Choice between the two is free and depends entirely on preference.

P.S.: If for some reason the tables are screwed up, just do a quick search with their names and you'll find many images of them. Formatting text on Yahoo is a terrible, painful job.

Subject: Re: Identical Twins with Identical Charts

Twins usually occurs more than a minute apart.

Energies will match, whether or not specific events match is another story. In early life, much should be the same as being part of the same household.

This is the case in a lot in of many large cities where multiple births are occurring at the same time, so it is not exactly uncommon. It's the twins thing that is not obviously as common.

You have a unique opportunity to see astrology in action for this situation. Learn all you can.
In late March I gave birth to identical twins born a minute apart. So close, that their charts are identical, including their ascendant. Any insight on how this will affect how to help them maintain their own identity with this being true? I've ever heard of this happening before.

I myself don't know how exactly it would work to differentiate their charts or discover hidden differences between them (some astrologers do), but one thing for sure will be different: their names.

I wrote these articles on numerology, and it may be interesting to know what energies will rule their lives. The Destiny number will be the same, but the numbers extracted from the name won't, so the potential in their charts will be expressed differently.

The information there is very basic but may serve as a starting point. Hope it helps.

Hi, everyone. I’m new here.
I recently joined the JoS 666 group and am awaiting a decision by the owner/mods to allow me to participate.

I am a Pisces, myself, and to be fair I don't know a lot about it. I have a cup with my name and some explanations of it, with signs, stones, and similar things. I would like to know more about these things generally and specifically to do with me; numerology, and anything else I don't know about, as well.

I am not certain what is Satanic and what isn't; I know there is a lot of literature out there about different things, and it seems to me people dislike LaVeyan Satanism. I am confused by that because I thought LaVey invented Spiritual Satanism, but I think I have seen something which seems to contradict that. But he/it is disliked, regardless.

Anyway, thank you for allowing me to join. I hope I can participate soon.

First of all, welcome to the group.

Satanism can be confusing at first because there are so many people saying so many different things, but soon you'll learn how to filter information and judge for yourself. Don't really take what anyone says, even in the groups, that seriously. The High Priests/esses know what they are talking about, though. For general information on Spiritual Satanism and many other things related to it, I recommend you read the JoS website:

http://www.joyofsatan.org

Read everything thoroughly, don't skip anything, this will take some time but will save you time later.

For information on astrology, you can check the JoS astrology section:

http://www.angelfire.com/empire/serpentis666/FURCAS.html

To see your own chart, check this website (http://www.astro.com) and go to Free Horoscopes > Chart drawing, Ascendant.

There's a lot of basic information on astrology there, but if you have any doubts, you can always do some research with google or something. If you really can't understand something or simply want to know more, you can always ask here and we'll be happy to help.

There's no official numerology section on JoS but I recently made these articles about numerology and it should help you to gather more information on your own later:

Thank you for your reply. :-)

Oh, I have been reading JoS.org, actually. On the 666 Yahoo! group in my introduction thread I mentioned that I've been reading on and off for several months about Satanism, and JoS.org and Serpentis 666 are I think the main 2 sites I have been reading about it on. I haven't read everything yet, though.

I haven't read about Astrology on there, however. There is something I should admit which I mentioned in my introduction post on the 666 group: I am/was a Christian*, however haven't been to church in about 3 1/2 years. I know they are "the enemy" and they and any sympathisers of them will be banned, but I hope I will be allowed to remain a member because things just don't seem... well, I don't know how to say it. I have realised things about things since I left there which I didn't notice while I was there. The way things are, the way people behave... They just don't seem... something. Part of the way people behave is as if they're forcing it, like it's fake, a facade.

"There's a lot of basic information on astrology there, but if you have any doubts, you can always do some research with google or something. If you really can't understand something or simply want to know more, you can always ask here and we'll be happy to help."

Thanks for the offer. At present I have the attitude that Astrology is a load of [insert any relevant words here], both from a (nearly former)* Christian point of view, and also from a scientific one. I'm not a scientist, but "there isn't any scientific proof" to support the positions of celestial object affects one's life. In fact from watching TV, which will probably weaken my argument, an Astronomy professor said that Astrology is not true, as well.

Before I first became a Christian - and before that, before I started attending church - I believed a bit in Astrology. - I didn't immediately stop believing in Astronomy when I started attending, not when I first became a Christian, of course. In the papers/magazines there is a fine print that says it's for entertainment purposes only, and the fact that if you allow someone to influence your mind, then such things will happen; sort of like self-fulfilling prophesies, for example - you keep saying, "I am stupid", then you'll start to believe it and behave accordingly. If, however, according to Satanism Astrology is more truthful than I realise, then I don't have a problem in researching it. :-)

"Good luck and enjoy your journey!"

Thank you! I hope I will!

*There is still within me the inability to 'let go' of my faith (and I use that term rather loosely now, to be honest), and I don't want to rush into things. I'm just trying to be careful. I wasn't raised a Christian - an Atheist, actually - but it's buried so deeply within me I can't simply eject it; it's clearly a slow process. So basically, as I said on 666, I hope, since "Satan understands", that he'd be patient with me.

Hi, everyone. I'm new here.

I recently joined the JoS 666 group and am awaiting a decision by the owner/mods to allow me to participate.

I am a Pisces, myself, and to be fair I don't know a lot about it. I have a cup with my name and some explanations of it, with signs, stones, and similar things. I would like to know more about these things generally and specifically to do with me; numerology, and anything else I don't know about, as well.

Anyway, thank you for allowing me to join. I hope I can participate soon.

I understand your position in all this, but if I could give you an advice, it would be to break your mental prisons as soon as possible when dealing with Satanism.

Unfortunately, on JoS the only proof of anything that we can give is that Christianity is false and that the Jews are the enemies of mankind.

The rest is absolutely up to you to use and see for yourself, which will alone produce proof. We cannot prove that meditations work, that one can become a god, that planets, runes, sigils and numbers have power and influence over us, but information is given so that one may try it out and see. The astrology section contains techniques and interpretations, but not scientific explanations, because these you won't find anywhere.
Soon enough, however, for most of us at least, things become clear to the point we can see that it's not the occult (all the disciplines taught and practiced in Satanism) that's missing science, it's science that's missing the occult.

There most definitely are explanations for the occult, but any knowledge on this is undesirable for the enemy because this way those more scientifically inclined (mostly atheists) are prevented from believing it, thus cutting them from the power it can give.

Science can't and won't explain that which doesn't interest it, there aren't any researchers focusing on this anywhere on the planet, so scientific explanations for the occult will be missing at least until enemy control of what is "science" and academia in general is gone.

Nevertheless, with some research you will be able to find historical evidence that many great scientists were also accomplished occultists.

Again, good luck on your journey.

It was a big leap on my understanding about the signs and planets and how they interact when I started linking them with things I saw/read/listened. It really helped give some honest, real background to what I read in astrology books, besides being fun. Astrological influence is everywhere.

Often actors will play parts that have a lot in common with their charts, directors will make movies about the themes of their own charts. Songs and music in general are the best, they can represent very specific astrological influences, aspects etc., with or without the lyrics. Sometimes, simple scenes even when out of context evoke the nature of a sign or planet very strongly, it's just a matter of being open to see it.

I made this list here in this boring Sunday, just for fun! No need to take this seriously, but it is accurate IMO...

Hi! I can tell u really like Astrology, its a great asset to have here btw! I wonder one thing, how is ur Natal Uranus placed? I mean in which house. I got mine in the third btw, which can indicate interest in this. Do you got something similar that indicate your fascination? Perhaps you got stronger ties to it than that?

I feel ur on to something with this also, i never thought about it but it makes sense, our personal taste for Music usually describes the person quite accurately.

I personally enjoy old trance inducing Music the Most, if u wanna check some out? [link]

I got a strong emphasis to scorpio in my chart, but i would not say this is the typical scorpio stuff, would you? Eitherway theres Always something going on with transits that Will throw us offbalance so i might just be confused.

Eitherway, what Sign are you and what Music Do you like the Most? Lets see if it adds up with you :-)?

Cheers.

I have a very strong emphasis in Pisces, which explains the extremely strong effect music has over me. I live of music, haha. My Uranus is conjunct Neptune in the 8th house, both squaring my Aries Sun.

All this confers a very strong interest in the occult, and astrology as well, but then I have an Aquarius Moon in the 9th house of study and philosophy, which further adds to my interests in these areas, but here are many other aspects in my chart supporting this.

The music I love the most is classical. Other music I like a lot is electronic and some pop music. The latter is simple, very straightforward, catchy, works very well with my Pisces planets.

I liked the music you shared, sounds very dark, mysterious, deep, which makes sense with your Scorpio emphasis.

i have been goin through various now and i find that"planets in transit" by Robert Hand is sufficient. have someone else read this and agree? while i appreciate Maxine´s info and find it much credible, i cant help but wonder at times where does she get it from? its not overy intune with the other books im reading about aspects, while some are more intune some are way out of line, this would change considerbly if she gets the information from Azazel ofc.

if you can name a book you find suffiecent for looking into planetary aspects and placements and everything in between, please share!

That conjunction is interesting because the last time it happened was so long ago that only time can tell how exactly it will act out in each person. A Uranus-Neptune conjunction is something really big, as is any major aspect between the outer planets, especially when they are both sextile Pluto, which was in its home sign during that time. There's very little info on that conjunction, it's something fresh for modern astrology.

As for the books, I haven't read Robert Hand's books (only one co-authored by him) but I've seen his work being used as reference in other books quite a lot, so I guess he is very well regarded by professional astrologers. Sucks to only have english language books available quickly through e-book stores like Amazon's kindle, which has a very limited selection...

I personally don't think any book is sufficient for referencing aspects. For beginning study sure there are, and in this case any decent book will do the job, but for general use every author provides a different point of view in each specific aspect, and using only one reference can be inaccurate if you're not careful to make your own assumptions. There are so many possible outcomes to a single aspect or placement that sometimes the obvious is not right. Not to mention combinations of them.

After reading a lot of books and sites, articles on the internet about specific aspects etc. you gather so much information on these things that you automatically start to make your own interpretations, which is the best way to work with other people's charts. It really is a breakthrough on your understanding of astrology and charts in general when you can do this.

The books will always be there for specific thoughts or written evidence about the aspects. Some authors for example go very deep into the psychology of each aspect and planetary placement, others go more for the practical, immediate effects of them. All of this can happen in a person and it's obviously important to know, but in time you get your own ideas about them.

Maxine has many, many years of experience with this (thus a lot of sources and info), but providing information in bite-sized pieces like she did on those pages is very difficult. Those are general outlines for the aspects, or her general ideas about them but there are many different possibilities in each one that are better understood when seen through different viewpoints.

Here are a few books that I have here that give a lot of information about a lot of things through different lenses:

- Moon Signs: The Key to Your Inner Life by Donna Cunningham
- Saturn: A New Look at an Old Devil by Liz Greene and Robert Hand*
- The Twelve Houses by Howard Sasportas*
- Retrograde Planets: Traversing the Inner Landscape by Erin Sullivan
- Saturn in Transit: Boundaries of Mind, Body and Soul by Erin Sullivan*
- Astrology, Karma and Transformation: The Inner Dimensions of the Birth Chart by Stephen Arroyo*
- Predictive Astrology: The Eagle and the Lark by Bernadette Brady
- Predicting Events with Astrology by Celeste Teal
Obviously that's a lot of stuff but the ones I marked with the * are the ones that gave me the most clarifying and interesting ideas. Books on predictive astrology are good as well because they focus on the planetary interactions and some of them go deep in the various possible meanings of each aspect.

agree, I would have a very hard time explaining planetary placements and aspects with that little space she used, good job nevertheless.

Its rather interesting this, I have already had the opportunity to lay horoscopes for some friends for the sake of it, think ill do that sometime.
one thing i have thought about some time since coming here aswell (if you don't mind?)

the planet Saturn i think has been long identified as the black sheep of the solar system would you not say? i can see this tendency in other astrology books aswell, although not too many, but its still noticeable. it has been labeled as evil and destructive and in so many cases as "bad" in general? i can see similar opinions in the jos astrology too, but somewhat diminished.

did you know if these opinions were raised by a certain reason?

what are your thoughts on this? sure Saturn is restrictive, but also thorough and disciplined, i can not imagine how i would have acted if i did not have my saturn to restrict a big conjunction i got in my natal. i think this goes the same for others aswell after some deeper thinking on it, i would not label Saturn as bad at all.

sure it does restrict and can lessen the effect of a promising conjunction, but so can all the planets in their own way right? i would label Mars just as equally "bad" in its own way if not worse if i found that it affected a strong conjunction in ones natal.

its just yin/yang in my opinion, opposite sides of a balanced center. what do you say about this? being more advanced that i who just started out i appreciate any advice and thoughts to improve.

lastly: if you do find music to be such a part of your life, you should strongly consider learning to play an instrument (if you have not already). i did so as i find music to be such a big part of my life too, i picked up a bass guitar almost 4 years ago and i dont regret it at all (seeing we both got this interest). suprisingly enough it does aid you spiritually too, by using your own creativity.

Cheers.

It's really good to try and read other people's charts, you learn a huge lot doing that.

Saturn: a lot is said about it, and there's a lot of conflicting information about it, but I personally say it's a "necessary" evil. Necessary in the sense that it puts people and things in their places, and makes the world go round. It is difficult for everyone, not a minority.

It helps bring improvements (it is the traditional ruler of Aquarius, the rebel/overman) through challenges and disciplines people to overcome them, but sometimes brings pure suffering.

In an ideal world, Saturn's evil effects wouldn't be a problem at all because people would just be wise and powerful enough to overcome them automatically. However, because of the enemy, people became nearly powerless to it, and thus suffer the worst from its energies.

In the end it really is all about balance as you said though, without Saturn there simply wouldn't be order. Saturn being exalted in Libra, the sign of balance and order seems just about right. Jupiter and Saturn are the balancers of the system, the principles of expansion and contraction, young and old, growth and downfall... also joy and misery.
Now for the music, I used to be a violinist, even had plans to make a career out of music. Those years were extremely good for me and, interestingly, I experienced a huge spiritual growth during that period as well. My energy was flowing very well, and so was my creativity, I even used to write little pieces of my own. Had to stop due to some issues and never returned, and to be honest now that I think back things started getting difficult pretty much exactly when I stopped playing. I should probably have tried harder to keep on going.

I've really been thinking about coming back for quite some time, but there are so many things out of place in my life right now, I guess I need to take care of one thing at a time lol. I really don't like doing things halfway, if I'm coming back, I want to do it entirely.

Music is extremely good for your energies, and this is especially true for those who are more sensitive (with many Water planets). Many people don't give a damn about this, or say this is simply a hobby, but for some people music really is part of them. I get extremely depressed and anxious when I can't listen to music I like for extended periods of time, music keeps me going.

Subject: So how would you interpret fixed stars?

Take the planets and their characteristics and apply the connection of the star with the type of aspects they have?

If planets were to conjunct a fixed star, then how would one go about interpreting that? Apply the general message of the planet and merge it to the meaning of the fixed star? An opposition means that the aspect is very strong, but what about a trine? How would you trine something if the stars/planets have negative meanings?

Soft aspects aren't considered because they are weaker, passive in nature, even the major ones (trine and sextile). Conjunctions and Oppositions are very compelling forces and are almost always visible. I personally only count 1-1/2 degree conjunctions to fixed stars.

There aren't guidelines to interpret conjunctions to the fixed stars, but yes, you would take the general meaning of the star and mix it with the nature of the planet, and what it rules. For example, Betelgeuse conjunct Mercury could give luck through mercurial affairs, or give luck to the houses Mercury rules or could also mean fame through writing or publishing. Bellatrix conjunct Mercury on the other hand, would give it aggressive undertones, similar to Mercury conjunct Mars, but a strong mind as well.

Some authors give interpretations to fixed star and planet contacts, but almost all of them are based on medieval astrology, which is too fatalistic. You can find some here: [http://www.constellationsofwords.com/stars/Stars_alphabet.htm](http://www.constellationsofwords.com/stars/Stars_alphabet.htm)

Conjunctions to the angles are very important as well.

I have Scorpio in my Sun, Mars and Pluto. Scorpio is in my 11th house. I read that people that have Scorpio in Pluto and Mars have empowered themselves in
a past life and that they are natural black mages. If anyone has any other info on this I would like to know. Thanks.

Thank you very much!
D: These stars are so violent! Violent death, and a star of homicide? There's lots of military implications here. (Here's the stars if anyone is interested: http://oi40.tinypic.com/2zr293o.jpg

I found the forced migration and the dog thing to be accurate, also the implications of aldebaran. Baten Kaitos hmm...well my parents did send me to another
country, so I was separated from them at birth so they can continue their business.

Not sure about the other ones since I haven't really been in the type of situations that would call for such things. Never been in a military setting.

Also should I be concerned my Jupiter is in 22 degrees of the zodiac? The website just says its a bad sign, but bad for what?
Conjunctions to the angles are very important as well.

You sound like a very intense person with just as intense friends!

Anyways I'm not sure about how reliable this is but there is something called "Karmic Astrology". It apparently shows your past lives and your rewards and things you bought to this life. Just pointing it out; I think you should start there.

You can do some past life regression to see what you did in your past life too :]

I'm not sure about the empowered in a past life part. I would think that maybe it makes it more likely, but shouldn't be seen as a definite yes. Like you, I also have my Sun, Mars and Pluto in Scorpio. I've found that I'm a lot better with destruction magick than I give myself credit for. Often, I don't even need to do the full ritual, I just will it to happen. Having said that, I'm a lot better with destruction magick than anything else.

the nature of the planet, and what it rules. For example, Betelgeuse conjunct Mercury could give luck through mercurial affairs, or give luck to the houses Mercury rules or could also mean fame through writing or publishing. Bellatrix conjunct Mercury on the other hand, would give it aggressive undertones, similar to Mercury conjunct Mars, but a strong mind as well.

Some authors give interpretations to fixed star and planet contacts, but almost all of them are based on medieval astrology, which is too fatalistic. You can find some here: [http://www.constellationsofwords.com/stars/Stars_alphabet.htm](http://www.constellationsofwords.com/stars/Stars_alphabet.htm)

Conjunctions to the angles are very important as well.

How interesting! Great job whoever made that site!!

I just looked into my stars and I can tell I got mostly bad stars in aspect to planets.

My question is kinda off but I got Caput Algol in opposition with my Natal Pluto, which does not describe me btw, but please tell me how to interpret this opposition for me, both Pluto and Algol is violent but I am not violent at all, what does oppositions signify? :-S thanks for caring.

Cheers..

Hello family, I have found my soulmate or in other words, life partner. I had a Transiting pluto trine natal jupiter in seventh house transit and I met someone. This person is perfect for me and I have never been happier. It is very unreal. (In a good way of course). Pluto transits are permanent and I feel and know this relationship will be permanent. These things you just know an feel. Special Thanks to HP Maxine who did my astro forecast and told me about this.

I wanted to know what astro placements indicate whether we may have known eachother in a past life Or if people who have permamnet relationships make vows to meet eachother again in a future life?

Thanks guys <3

Oppositions aren't as important/evident as conjunctions, which is the main reason why I only use almost-exact conjunctions. Keeps things simple and more accurate.

Besides, Pluto is a very slow planet. The general rule with these things is that the slower the planet is, the weaker the effects are felt directly in life. Pretty much everyone in the year you were born has Pluto opposite Algol, and there's just no way for all these people to be violent or suffer violence/horrible deaths as described.

If there's any personal planet conjunct it, though, then the issue might be very real. Even worse with the luminaires.

My younger brother has Pluto and Mars in Scorpio too and he is on the same path as me. I have asked myself what I have done in a past life to deserve Spiritual Satanism and I get a tingly feeling all over my head. I don't know what I did but it was probably very significant. Past life regression is in the beginners section but to me it feels very advanced. I'll work on it. Thanks for the reply.

Also, check into Jeff Green's work.

I downloaded an app earlier called "egyptian horoscope" hahah the accuracy is ofc questionable of an nocharge-app but nonetheless this sparked my interest about it.

I know there is something called vedic astrology, originating from India adn i know that their system is not directly as the western type.

The jos focuses on the western right? is there a reason why the vedic astrology is not mentioned?

Also i know that the babylonians had a complex astrological system, although the Egyptian is what is fashinating me the most.

Does anyone know any site or book that is credible and provides good info on Egyptian astrology or babylonian?

Cheers..

There is something I should admit which I mentioned in my introduction post on the 666 group: I am/was a Christian*, however haven't been to church in about 3 1/2 years. I know they are "the enemy" and they and any sympathisers of them will be banned, but I hope I will be allowed to remain a member because things just don't seem... well, I don't know how to say it. I have realised things about things since I left there which I didn't notice while I was there. The way things are, the way people behave... They just don't seem... something. Part of the way people behave is as if they're forcing it, like it's fake, a facade.

At present I have the attitude that Astrology is a load of [insert any relevant words here], both from a (nearly former)* Christian point of view, and also from a scientific one. I'm not a scientist, but "there isn't any scientific proof" to support the positions of celestial object affects one's life. In fact from watching TV, which will probably weaken my argument, an Astronomy professor said that Astrology is not true, as well.

Before I first became a Christian - and before that, before I started attending church - I believed a bit in Astrology. - I didn't immediately stop believing in Astronomy when I started attending, not when I first became a Christian, of course. In the papers/magazines there is a fine print that says it's for entertainment purposes only, and the fact that if you allow someone to influence your mind, then such things will happen; sort of like self-fulfilling prophesies, for example - you keep saying, "I am stupid", then you'll start to believe it and behave accordingly. If, however,
according to Satanism Astrology is more truthful than I realise, then I don't have a problem in researching it. :-)

I wasn't raised a Christian - an Athiest, actually - but it's buried so deeply within me I can't simply eject it; it's clearly a slow process. So basically, as I said on 666, I hope, since "Satan understands", that he'd be patient with me.

Hi, everyone. I'm new here.

I recently joined the JoS 666 group and am awaiting a decision by the owner/mods to allow me to participate.

I am a Pisces, myself, and to be fair I don't know a lot about it. I have a cup with my name and some explanations of it, with signs, stones, and similar things. I would like to know more about these things generally and specifically to do with me; numerology, and anything else I don't know about, as well.

I am not certain what is Satanic and what isn't; I know there is a lot of literature out there about different things, and it seems to me people dislike LaVeyan Satanism. I am confused by that because I thought LaVey invented Spiritual Satanism, but I think I have seen something which seems to contradict that. But he/it is disliked, regardless.

Anyway, thank you for allowing me to join. I hope I can participate soon.

Hello.

I read some or all of the reply here when I was last on but obviously didn't reply.

I understand your position in all this, but if I could give you an advice, it would be to break your mental prisons as soon as possible when dealing with Satanism.

I decided to check my horoscope today and on the yearly overview (I think it might have been a Chinese horoscope, or at least that was one of them) it said, "2013 is also a good year to break away from stifling moral or religious codes that have been imposed upon you." I only read that for the first time a few minutes before making this reply, and it is something I have been seriously considering prior to reading it here. The rest of the horoscope - main, daily tarot, and love - I'm not certain about it being accurate/relevant to me, however. I also wouldn't say the moral/religious "codes" were imposed upon me; it was my own choice to start attending church and then with a bit of encouragement pray the "sinner's prayer".

The rest is absolutely up to you to use and see for yourself, which will alone produce proof. We cannot prove that meditations work, that one can become a god, that planets, runes, sigils and numbers have power and influence over us, but information is given so that one may try it out and see. The astrology section contains techniques and interpretations, but not scientific explanations, because these you won't find anywhere.

I would like to know if in Satanism one can be specific or an 'expert' in one thing, or perhaps a 'Jack of all trades'. Or perhaps the ultimate goal is to make oneself a god and these other things are basically useful tools in order to help us accomplish that. Or is being a god something one would choose to pursue instead of doing something else? To try and explain my question with a bad example, would it be similar to academia in a sense, in that students are free to choose which path they want to go on: medicine; law; politics; arts; etc, or are these 'college and university courses' the tools which help me earn money - become a god? Or what? Basically, what I'm asking is what is the point of Satanism? What can it do for and with me, and what can I do for and with it? Is it for everyone to become a god, or perhaps some don't want to be gods so they decide to do/be/have something else? I expect a general answer to be that it's to help us make the most out of this life and live a great one before the afterlife (or whatever terminology Satanism uses), then depending on what we do here will influence what happens when our bodies cease to function and our spirit and soul goes on to do whatever. I consider that general statement to be acceptable, however what makes Satanism different?

Also please forgive me for this bad comparison, but in a sense I am like a half-blood in Harry Potter, in that I have some form of spiritual knowledge and belief - sort of like Hermione.
Granger. Yet even though she was borne to non-magical parents, she is one of the most best witches of her generation. In a way similar to that I would like to be 'all I can be' in a spiritual thing including if that means better than some 'full-blood' Satanists; Christianity, I suppose you could say, was a sort of step into some type of spiritual thing (although I know it has been accused of being non-spiritual), and like I said it seems...*clears throat* you know... But now I've come across Satanism. What can/must I do to be "the greatest [witch/wizard/warlock/sorcerer?] of all time"? - I hope that doesn't sound too arrogant, and I also hope my bad comparison example makes sense in what I'm trying to ask while being ignorant at this stage.

Soon enough, however, for most of us at least, things become clear to the point we can see that it's not the occult (all the disciplines taught and practiced in Satanism) that's missing science, it's science that's missing the occult.

So basically you're saying science is discovering things in a non-spiritual way but is lacking 'life', in a sense? Lacking 'vigour', or 'energy' or whatever?

There most definitely are explanations for the occult, but any knowledge on this is undesirable for the enemy because this way those more scientifically inclined (mostly atheists) are prevented from believing it, thus cutting them from the power it can give.

I expect reading JoS and serpentis666 should be sufficient material, but are there any other sites/materials I could read on? Preferably not from googling, because from after googling it I came across LaVeyan, and to be honest, it seemed to me to be nothing more than a rebellion against the Church and its leaders because he was angry with the hypocrisy of the leaders fawning over women in carnivals that were there, then back on Sunday they were all perfect and clean again, yet back in the carnival they were dirty and unclean again. - Sunday Christians. To me he was pissed off and decided, "Fuck it!" and basically made a rebellion against it - not necessarily having any spiritual connotation. At least none I could pick up on.

Science can't and won't explain that which doesn't interest it...

That's very similar to an argument I have which says science can't and won't explain everything, so I suppose you saying that here confirms that.

...there aren't any researchers focusing on this anywhere on the planet, so scientific explanations for the occult will be missing at least until enemy control of what is "science" and academia in general is gone.

That's interesting. It is my understanding, as I believe it is a lot of peoples', that Christianity, and I suppose Judaism and Islam, are all holding scientific and technological progress back.

Nevertheless, with some research you will be able to find historical evidence that many great scientists were also accomplished occultists.

Evidently history has kept that very quiet.

Again, good luck on your journey.

Thank you!
I understand your position in all this, but if I could give you an advice, it would be to break your mental prisons as soon as possible when dealing with Satanism.

Unfortunately, on JoS the only proof of anything that we can give is that Christianity is false and that the Jews are the enemies of mankind.

The rest is absolutely up to you to use and see for yourself, which will alone produce proof. Thank you for your reply. :-)

Oh, I have been reading JoS.org, actually. On the 666 Yahoo! group in my introduction thread I mentioned that I've been reading on and off for several months about Satanism, and JoS.org and Serpentis 666 are I think the main 2 sites I have been reading about it on. I haven't read everything yet, though.

I haven't read about Astrology on there, however. There is something I should admit which I mentioned in my introduction post on the 666 group: I am/was a Christian*, however haven't been to church in about 3 1/2 years. I know they are "the enemy" and they and any sympathisers of them will be banned, but I hope I will be allowed to remain a member because things just don't seem... well, I don't know how to say it. I have realised things about things since I left there which I didn't notice while I was there. The way things are, the way people behave... They just don't seem... something. Part of the way people behave is as if they're forcing it, like it's fake, a facade.

"There's a lot of basic information on astrology there, but if you have any doubts, you can always do some research with google or something. If you really can't understand something or simply want to know more, you can always ask here and we'll be happy to help."

Thanks for the offer. At present I have the attitude that Astrology is a load of [insert any
relevant words here], both from a (nearly former)* Christian point of view, and also from a scientific one. I'm not a scientist, but "there isn't any scientific proof" to support the positions of celestial object affects one's life. In fact from watching TV, which will probably weaken my argument, an Astronomy professor said that Astrology is not true, as well.

> > Before I first became a Christian - and before that, before I started attending church - I believed a bit in Astrology. - I didn't immediately stop believing in Astronomy when I started attending, not when I first became a Christian, of course. In the papers/magazines there is a fine print that says it's for entertainment purposes only, and the fact that if you allow someone to influence your mind, then such things will happen; sort of like self-fulfilling prophesies, for example - you keep saying, "I am stupid", then you'll start to believe it and behave accordingly. If, however, according to Satanism Astrology is more truthful than I realise, then I don't have a problem in researching it. :-)

> > Thank you! I hope I will!

> > *There is still within me the inability to 'let go' of my faith (and I use that term rather loosely now, to be honest), and I don't want to rush into things. I'm just trying to be careful. I wasn't raised a Christian - an Athiest, actually - but it's buried so deeply within me I can't simply eject it; it's clearly a slow process. So basically, as I said on 666, I hope, since "Satan understands", that he'd be patient with me.

Hi, everyone. I'm new here.

I recently joined the JoS 666 group and am awaiting a decision by the owner/mods to allow me to participate.

I am a Pisces, myself, and to be fair I don't know a lot about it. I have a cup with my name and some explanations of it, with signs, stones, and similar things. I would like to know more about these things generally and specifically to do with me; numerology, and anything else I don't know about, as well.

I am not certain what is Satanic and what isn't; I know there is a lot of literature out there about different things, and it seems to me people dislike LaVeyan Satanism. I am confused by that because I thought LaVey invented Spiritual Satanism, but I think I have seen something which seems to contradict that. But he/it is disliked, regardless.

Anyway, thank you for allowing me to join. I hope I can participate soon.

Hi!

Surely this is something that got to have significance right:)? yes i have just met a girl which i first had interest in but now its almost totally gone. i am a scorpio and have a strong emphasis on it in my natal, im also looking through this girls natal at the moment.

her ascendant is saggitarious, and her sun sign is in cancer. i thought the ascendant is always in our zodiac sign btw, is this incorrect? but i think this is the second chart im looking a bit deeper into so im not sure.

anyways, is there a way for me to see if we match(natally speaking) judging from her i think that cancer is a damn weak sign(does anyone agree btw?) and i see no future with us together but nonetheless is does not hurt for me trying to figure out our natal aspects(for better or worse)

does our ascendant signs play a crucial part here? or is it the zodiac that has the most influence for a match or a "dump her" signal? i have a hunch that venus might have big influence too while speaking of love?

her venus is in leo(eight house) and this describes her very good, a nervous wreck thats jealous and demands 1000000% attention at all time( and ohyea she is a sexfreak xD)

this does not work at all for the scorpio i am, my venus is in me 11th house(libra) which makes for a romantic dude but not at all in her portion, she mostly just keeps yappin about herself and being generally scared of anything, she cried hysterically for 20 mins after seeing a tiny mouse one time --.- seriously?

but i guess every single planet and its placements holds signifigance in its own way when doing this Natal-matchmaking too huh?

does anyone know how i should see which planets and their placements how they correspond to my own?
Hi!

am i the only one who feels Gangbanged by the stars and planets?

i just took time to check out more which stars i had conjunct with planets, one question btw: which should i focus on-1: the stars positions on my natal planets or the planets and which sign and orb they are in right now?

anyways, i got most bad news, and long-term aspects i do already have are being more influenced by stars which make it only heavier.

aside from meditation how can i learn to dampen/ease these aspects? can i draw in energy from the stars which are currently fucking with me? will that just make it worse?

can i draw in energy from the planet/planets that the stars are currently conjucting? would that make it better or worse aswell? cuz the planet/planets are making it bad just as it is, then i assume that additional intake of the energy(mostly neptune im reffering to) will make me worse.

or does taking in their energy learn me how to control their energy?

im a rat in a maze here it seems:)

Cheers..

Synastry isn't that simple. There are many layers of compatibility between charts, and a relationship often needs a strong combination of that to work out.

The Ascendant is obviously important, because it's a huge part of personality, but in relationships what you seek is the opposite sign, the Descendant.

For example, if her AC is Sagittarius, her DC would be Gemini. The 7th house describes the partner, and in this case she seeks and attracts Gemini-like personalities, but this can change depending on the placement of Mercury in the chart. For things to work out as it is, you would need to bring her Mercurial qualities, which you may or may not have, depending on your chart. Depending on your own AC/DC axis, she may or may not bring to you what you seek in a relationship.

Venus in Libra makes for easy adaptation to other people, but because of your Scorpio (fixed) emphasis, it's not easy for you to deal with her. Venus in Leo sure likes drama, as does Cancer, so depending on her Moon sign you're really in for a soap opera story with her. But here's the deal: her chart asks for a flexible (Gemini-like) partner that can cope with her. Are you flexible with such a strong Scorpio emphasis?

Cancer is very compatible with Scorpio, though, because these are both water signs, meaning they work in trine aspect. Cancer is very emotional, so her actions are very normal, even if exaggerated by her ascendant and Venus (and possibly her Moon sign).

Planetary aspects between charts say a lot, so it would need more than just that info to be sure if you'd be good for each other. Easy aspects are good for compatibility but don't do much for passion and intensity. Hard aspects bring challenges, but variety is the spice of life after all. The main planets you'd look for when
analysing two charts are the personal planets (Sun through Mars), but obviously all are important.

Subject: the natal chart
do we reincarnate in a random moment?
don't we choose the natal chart we want?
in this case it would be very unfair. Our character would be "imposed" to us....

Hail Satan

Subject: Re: the natal chart
This is my theory, as I don't believe that anything is really random in Astrology or the Occult:
The nature of the soul is to grow in power and evolve. We reincarnate in the most opportune moment, when the planets are in all the right places for we to evolve.

It's not that our souls can see and choose the planetary positions, it's more that the energetic signature of a moment in time and space is given by the planetary positions. The soul is bound to the body that will be born with the most compatible signature.

What about disastrous charts then? Well, the soul must be extremely bad as well to be born under such circumstances. Nevertheless, charts always represent potential, which may or may not be fulfilled, for good or bad.

It actually falls within the last sentence: it's all potential.

I'm pretty sure Hitler wasn't the only person born that day in the same place or nearby, yet we heard nothing about those other people.

There are levels of expression for each chart. To see what will really come out of someone's life, the chart needs to be combined with the person's soul energy, numerology etc.. Although something won't happen if there's absolutely no indication of that in a chart, whatever IS indicated can happen in many different ways.

What are the general meanings I mean. I don't really understand what retrograde Neptune does. I read from the site: drugs, anything spiritual. Browsing the web has this same common theme: "Neptune is where one is weak, undecided, prone to fantasy and impressionable. Neptune is where one is inspired spiritually" (That's from JoS) and in retrograde so they make the meaning the opposite, where you're wide awake.

Planes that are retrograde often have trouble in expressing their energies, and usually cause troubles, delays or blockages related to them and/or the houses they rule. This is much more the case with the inner /personal planets (Sun through Mars), the rest is really rarely felt.

Neptune retrograde is not a big deal at all in most cases.

Is this something good or bad?

I'm quite certain my North Node is in Libra, but my hometown isn't included in that program commonly used to calculate charts, and the closest town included in that program is roughly 400 kilometers away.

My North node is apparently Capricorn, which I do not think is accurate.

Can someone tell me the best way to deal with NN Libra/SN Aries and their significance?

Location doesn't change the Node position. The Nodes move very slowly through the year, the only thing that can change with location is their house position. If you have the NN marked at Capricorn, then believe it, it's really there.

It would take many years for the nodes to reach Capricorn/Cancer from Libra/Aries.

If I have, for example Mars retrograde in the sign of Virgo, will it affect my ability to learn? Because Mercury rules Virgo, along with Gemini. Is it valid? Mars is prominently placed, exact conjunct the 10th house cusp of Virgo. Mars is also the only planet on the southern half (the top half) being the handling of my bucket chart. (Mars is also my co-ruler)

Mercury is in the sign of Aquarius, it's exaltation, in the third house.

I will not expose here the whole chart.. I just want to know how Mars retrograde in Virgo affect Mercury.. If at all, affecting.

HAIL SATAN!!!!

i downloaded an app earlier called "egyptian horoscope" hahah the accuracy is ofc questionable of an nocharge-app but nonetheless this sparked my interest about it.

i know there is something called vedic astrology, originating from India adn i know that their system is not directly as the western type.

the jos focuses on the western right? is there a reason why the vedic astrology is not mentioned?

also i know that the babylonians had a complex astrological system, although the Egyptian is what is fascinating me the most.

does anyone know any site or book that is credible and provides good info on Egyptian astrology or babylonian?

Cheers..

Just a reminder as I have said it before, I have nothing retrograde in my chart except for the dragon's head & tail. Which makes me a minority. So I can't speak from any experience in this area nataly.

Mercury is in the sign of Aquarius, it's exaltation, in the third house.

I will not expose here the whole chart.. I just want to know how Mars retrograde in Virgo affect Mercury.. If at all, affecting.

It's interesting because I actually have difficulties with learning. And I do think it's related to the two. I also had problems with school. And I didn't finished school (Mercury rules early schooling).

Mercury in Aquarius is naturally attracted to Science and Mathematics. I suck at the two.

To how degree are you sure in the fact that the planets in the signs don't affect their rulers? Thanks again.

Planets in signs don't affect their rulers unless, of course, they are aspeeting each other. Your Mercury is extremely well placed, and I can't imagine you having trouble learning, unless there are other bad placements for this in your chart.

If you do have any trouble learning, these planets are probably not the cause.

Virgo doesn't deal much with learning as Gemini does. Mars gives energy and in Virgo it focuses on work and health. The only issues you could have with Mars retrograde there (and probably only because it's so prominent) are health related.

Depends on your 3rd house in general, not only Mercury. I'm fairly sure, with the information you've given,
Mercury and Mars are not the cause. Saturn in the 3rd house, Saturn in Gemini, challenging aspects to
Mercury or Jupiter can cause trouble in learning.

Some astrologers believe that adverse aspects to the Ascendant can cause mental issues, as it rules the
head, and this could possibly lead to learning problems, but I don't have any more info on that.

Planets in signs don't affect their rulers. Many astrologers claim that the sign's ruler affects any planet therein

which is an exceptional case where both planets are in each other's ruling signs. This doesn't seem to be

The Relation of Hellenistic to Indian Astrology

Of all the ancient astrologies, Indian and Hellenistic are closer to one another in fundamental conception and practice than either of them is to Chinese or Meso-American astrology, for instance. They are also closer to one another than either is to modern astrology. Indian and Hellenistic astrology may both be called "horoscopic" in the sense that much of their chart analysis depends heavily on the determination of the rising degree at the time of birth, and not merely the zodiacal position of the planets on the year, month, or day of birth, as is the case in many other ancient astrologies. They are also very similar in their use of sign-based aspects and in their fundamental house assignments. The Hellenistic time-lord procedures have a role analogous to that of the celebrated Indian dasas, although the procedures for determining the sequence and duration of the planetary rulers are different in the two traditions. And they are alike in innumerable points of detail.

Nevertheless, there are significant differences. Indian astrology makes extensive use of the nakṣatras, which are a division of the zodiac into 27 or 28 portions corresponding to the daily motion of the Moon. Although the "lunar mansions" are known in Medieval Western astrology, they are not found in the original Hellenistic material and seem to have been imported later from India. Then again, Indian astrology does not have the fivefold irregular division of each sign into "bounds" (called "terms" in Medieval Latin), which is a central concept for Hellenistic astrology. Indian astrology places far more importance on the lunar nodes than does Hellenistic, almost giving them the status of planets. Hellenistic astrology has an elaborately developed system of lots (often but mistakenly called "Arabic Parts"), which are lacking in Indian astrology proper, although they were introduced later as a result of Persian influence. Conversely, Indian astrology has an extensive development of divisional (or "harmonic" charts), while Hellenistic basically employed only a version of the twelfth (and possibly thirteenth) harmonic. Then there is the nagging problem of the choice of the beginning of the zodiac, where Indian astrology has various alternative starting points for a sidereal zodiac; by contrast, there is reason to believe that many Hellenistic astrologers -- certainly those influenced by Ptolemy -- favored a tropical zodiac, although it is still unresolved whether the earliest Hellenistic astrologers used a sidereal or a tropical zodiac. These two astrologies also differ on quite a number of points of detail.

How are we to account for these likenesses and differences? There is an opinion current among many Indian astrologers that horoscopic astrology originated in India at some distant time in the past as the formulation of insights obtained by certain enlightened "seers" in meditative states. From India, it spread throughout the Middle East and was introduced to the Hellenistic world by Indian colonists, whereupon it underwent its own characteristic development.

Compare this with the opinion of the Western scholar David Pingree, who argues that the Yavanajātaka, a Sanskrit translation made circa 150 C.E. of a Greek astrological text, whose title he translates as The Horoscopy of the Greeks, is one of the two primary source texts for all later Indian astrology, along with a lost translation from a second Greek text. In support of his thesis he cites in detail many parallels between particular
Indian doctrines and those of Hellenistic astrology. In particular, he demonstrates that much of the technical Sanskrit astrological and astronomical vocabulary consists of simple transliterations of the corresponding Greek terms, producing words that have no meaning in Sanskrit itself.

To one who approaches the evidence with an open mind, it is hard to avoid the conclusion that sometime in the first few centuries of the Christian era, Hellenistic astrology left an unmistakable imprint on Indian astrology, particularly in the terminology and practices concerned with the astrological houses. However, this still does not rule out the possibility that Indian astrology had undergone substantial indigenous development prior to this Hellenistic influence, especially since many of its concepts such as the nakṣatras have no clear Greek antecedents.

We do not intend to go further into this divisive historical problem at this time. Even if Hellenistic astrology did ultimately derive from Indian sources, we take the view that it is effectively a fresh starting point in the development of astrology, which has enough internal consistency that it can be understood on its own terms and from its own presuppositions. In fact, we intend to show that Hellenistic astrology possessed a clear and coherent theoretical foundation that motivated the introduction of its concepts and techniques. It is true that the search for theoretical foundations is a uniquely Western obsession. Indian astrologers, with their view that astrological doctrine was communicated to ordinary mortals by enlightened beings, seem to exhibit little interest in the question of theoretical foundations, although I have several times heard them say that astrology makes no sense without the the concept of karma and the doctrine of reincarnation. To us, the question is whether such a hypothesis gives a sufficient rationale for the astrological techniques they use, and whether it is capable of giving coherence to the dizzying array of concepts; for I believe that this can be said of the theoretical assumptions underlying Hellenistic astrology.

the website does not disclose why it is considered such a bad degree or what to expect except bad luck... why do you think I am asking about the 15 degrees of Leo? I did see the website and I have done research in regards to degrees in a natal chart (i have done extensive research in my natal chart). I did see one website which said 15 degrees of leo is not such a bad degree but a decent degree which is hopeful, the book is inside degrees by Ellias Lonsdale. I don't understand the 15 degrees of leo in my chart bc is it co-ruled with mars 20 degrees of leo (both 1st house)... I'm still new to astrology, my own natal chart is what has gotten me obsessed. If I understood how the 15 degrees of leo is a bad sign I could probably turn it into lemonade which I have started doing with my life as a whole now that I understand myself better than I did 2 weeks ago.

Hello everyone
recently I have been trying to organize my life to a calendar. So I thought finally getting to understand the way the planets work with my own life would be good, but I am having trouble finding out how to learn more.
It would be greatly appreciated if someone could give me a quick how to, or send some links that would be helpful.
To be completely honest I seriously have no idea what astrology has to do with Satanism, however it seems quite interesting!
Thank you for reading this over.
Again any information would be great!

Hail Satan!
Hmm, I’m not quite sure exactly how to word this question, but I’m going to try and hope someone understands me.

When comparing natal charts with someone (like for love or something, but not necessarily limited to that) how do you know what parts of your charts aspect each other. If that makes any sense. And also how do you know what these kinds of things mean? Is it just like looking at how these things affect your own chart. Except it’s between two people instead.

Also, another thing I’ve been wondering is finding out birth times. I was interested in having a look at my mums chart but I don’t know what time she was born. But I know she has a lot of significant life events that stand out (like having her first child at an extremely young age.) So, is there a specific way of finding out the time, or is it more like trial and error. Do I just use what I know until it I find something that corresponds with some of her major life events?

Anyway, sorry if none of that made any sense. But I hope someone can help clear some of this up a bit.

Hail Satan!

I am sure that it is possible as you simply need 3 planets/points for it. However, it is probably fairly rare to have 2 of them. What would 2 of them mean? They are called 'the finger of god'. Unless the 2 are connected with each other, meaning sharing one or more of the same planets/points, I would treat them separately in interpretation. Unless of course there is something else connecting them in interpretation.

[keep in mind that this is not related to JoS, so read with caution. There are some bullshit... but the meaning is good to my understanding]

http://www.pathwaytoascension.com/astrology/lesson5.html

I also agree with the others that replied... it's probably related with your 3rd house planets..
Another possibility you can consider... is intercepted signs.

If you have Gemini/Sagittarius intercepted... in my opinion... this could explain your difficulty to express this data gathering and data analyzing part of yourself.

This could explain what is hindering you in learning

Take a look at this page, to learn about intercepted signs if you don't know about it http://www.bobmarksastrologer.com/Intercepted_signs.htm

Hope this helps...

Many astrologers claim that the sign's ruler affects any planet therein because it is the planet's dispositor, but not the other way around, unless they are in mutual reception, which is an exceptional case where both planets are in each other's ruling signs. This doesn't seem to be your case.

focuses on work and health. The only issues you could have with Mars retrograde there (and probably only because it's so prominent) are health related.

If you do have any trouble learning, these planets are probably not the cause.

If I have, for example Mars retrograde in the sign of Virgo, will it affect my ability to learn? Because Mercury rules Virgo, along with Gemini. Is it valid? Mars is prominently placed, exact conjunct the 10th house cusp of Virgo. Mars is also the only planet on the southern half (the top half) being the handling of my bucket chart. (Mars is also my co-ruler)

Mercury is in the sign of Aquarius, it's exaltation, in the third house.

I will not expose here the whole chart.. I just want to know how Mars retrograde in Virgo affect Mercury.. If at all, affecting.

HAIL SATAN!!!!

The singer of Aiden a very "emo" band. The songs pretty much revolve around relationships and personal suffering, with a lot of intensity too. But some are just kind of "off the wall". This guy has Pluto Saturn and mars all conjunct in Libra, Jupiter in Scorpio, and mercury conjunct Venus in Aquarius.

The video "one love" fits this so perfectly.

See if you totally see the pieces!

https://www.youtube.com/watch?v=PyCznSvLWxA&feature=youtube_gdata_player

I just picked that at total random and decided I'd see what's up. At first I guessed Pisces but this is way better.

Then for me.. well I have a Uranus ruler Jupiter co ruler and I made..

https://www.youtube.com/watch?v=70pkZj-drYQ&feature=youtube_gdata_player

I hope that link works.

My horse (saggitarius) was really sleepy and I started having fun with it and my friend wanted to get it on video xD not sure if the Uranus comes in but... well. Hm. Maybe the fact it was put online.

Since videos play into this I thought I'd take mine and see where it fits :P
Often actors will play parts that have a lot in common with their charts, directors will make movies about the themes of their own charts. Songs and music in general are the best, they can represent very specific astrological influences, aspects etc., with or without the lyrics. Sometimes, simple scenes even when out of context evoke the nature of a sign or planet very strongly, it's just a matter of being open to see it.

1. Signs, planets, and their aspects. What kind of connection does the conjunction within the planes serve. How does it work? Does it matter what kind of conjunction there is or does this conjunction affect the reading of the chart some how?
2. What if the chart ruler does not have a conjunction with a planet? Is it the strongest type of conjunction?
3. Can a venus be in conjunction with a moon? When venus is the chart ruler, like I see that it cant be because it should say something like "moon in conjunction with venus". At the same time does it matter?
4. How do the elements work. Fire, Water, Air, Earth. I am sorry but there is no explanation of the grand trines on the JOS.
5. The true node. I have some vague understanding of it but were can I find some accurate information on it.
6. What the heck is a Chiron?
7. When is Venus is strong in its home signs of Taurus or Libra? How can I find this information?

.....................................................

1. The conjunction is one of the strongest types of aspects between planets... conjunction is when two or more planets are within 0-8 degrees in a chart... the conjunction to my knowledge means that the energies of the planets that are conjunct, are mixing together

when a person has a planet conjunct with another planet, this means that the person cannot separate the energies of the two planets... to see if this is good or bad, first you have to understand the energies of the planets

see what the first planet means... what kind of energies does it express... do the same thing with the other planet... and then combine the results... see if they can be combined harmoniously or do they create disruptions to the person
but...

since you've mentioned that you're a beginner... i would suggest to first read some "cookbook" sites in order to see how it's done...

for example...
http://www.cafeastrology.com/natal/planetsaspectsastrology.html
[keep in mind that this site is not related with the JoS site... and may contain info that is not entirely correct... so read with caution]

..................................

2. Ok, i'm getting a little confused with your question... i think you're mixing up the words "conjunct" and "aspects"

conjunction IS AN aspect

aspect is the relation between two planets in a chart

the strongest aspects are (in parenthesis the degrees between the planets... keep in mind there is a threshold of 0-8 degrees) ...

conjunction (0 degrees)
------------------------
opposition (180 degrees)
square (90 degrees)
------------------------
trine (120 degrees)
sextile (60 degrees)

opposition and square are also called the hard aspects (they're called hard because they cause conflict between the energies of the signs of the planets)

trine and sextile are also called the soft aspects (they're called soft because the signs of the planets are in harmony)

..................................

so... i'm guessing that your 2nd question is...
"what if your chart ruler does not have any aspects"

if your ruler (or any other planet for that matter) doesn't have any aspects with other planets... it is called unaspected

read more here [again... not related with JoS... read with caution]

..................................

3. Yes, if you have read the above... you can see that the Moon CAN be in conjunction with Venus
4. The grand trines is a type of configuration of aspects on a chart... it's an advanced subject in my opinion... as you first need to understand the qualities of the elements... and then understand the aspects... and then you'll be able to understand how the grand trines and other configurations work.

Here's a link that will help you understand some basics about the elements and the qualities of the signs
http://www.astro.com/astrology/in_elements_e.htm

5. The true node (also known as the north node) is an imaginary point of the cross-section of orbit of the moon and the orbit of the earth...

The best picture I could find... demonstrates the above...

If you want to read how to interpret the meaning of the north node... read this article [again this is not related with JoS... so read with caution, as some of the interpretations maybe a little bit of... this is just to get you started]
http://www.cafeastrology.com/nodesofthemoon.html

6. Chiron is an asteroid... and because of it's size... many take chiron into consideration when interpreting a chart.

Read more here [with caution]
http://www.cafeastrology.com/chiron.html

7. When you want to find the current sign of a planet... or when you want to find when the planet will enter a sign... you use a site like this...

http://planetwatcher.com/

For example if you use the calendar at the above page... you can see that... Venus is currently in Cancer and... in 17 Aug 2013 will enter Libra.

I hope the above make sense!

Hail Satan
Hail Azazel

I think Neptune conjunct Pluto people would be subject to extreme subconscious forces, which, of course, would be a double-edged sword. While Pluto (in this case in the 8th house) could bring one into the most potent realms of healing, at the same time, Neptune could bolster this effect by adding a necessary spiritual facet to the healing ability. In this sense, because of the deep psychological association of both of these planets, the healing that manifests could be one of a cathartic leap in awareness. Such as what happens when one accepts one's power and animal nature in Satanism).

To be able to direct an eruptive, ever-shifting Pluto that is conjunct a dreamy, illusionary Neptune, though, is a feat of profound mastery. Pluto will take you down to your depths. Neptune will cause you to not know where you are. You will have had to have learned to engage your personal power beforehand. With this aspect, you can not refuse the invitation to power. You can try running, via Neptunian activities like drinking, drugs, ideological fanaticism, but when Pluto transits Mars or Uranus, it will blow the fantasy, and your life, apart. The harder you run, the harder it will slam you. Apart. This aspect gives the opportunity for awesome self-awareness. Approach it through knowledge of its house, sign on its house cusp, aspects and house's ruler(s). If either or both of these planets "sees" Uranus, make spiritual transformation your main goal in life.

so... i’m guessing that your 2nd question is...
"what if your chart ruler does not have any aspects"

if your ruler (or any other planet for that matter) doesn't have any aspects with other planets... it is called unaspected

read more here [again... not related with JoS... read with caution]

3.
Yes, if you have read the above... you can see that the Moon CAN be in conjunction with Venus

4.
The grand trines is a type of configuration of aspects on a chart... it's an advanced subject in my opinion... as you first need to understand the qualities of the elements... and then understand the aspects... and then you’ll be able to understand how the grand trines and other configurations work

here’s a link that will help you understand some basics about the elements and the qualities of the signs
http://www.astro.com/astrology/in_elements_e.htm

5.
The true node (also known as the north node)... is an imaginary point of the cross-section of orbit of the moon and the orbit of the earth...

the best picture i could find... demonstrates the above...

if you want to read how to interpret the meaning of the north node... read this article [again this is not related with JoS... so read with caution, as some of the interpretations maybe a little bit of... this is just to get you started]
http://www.cafeastrology.com/nodesofthemoon.html

6.
Chiron is an asteroid... and because of it’s size... many take chiron into consideration when interpreting a chart

read more here [with caution]
http://www.cafeastrology.com/chiron.html

7.
when you want to find the current sign of a planet... or when you want to find when the planet will enter a sign... you use a site like this...
for example if you use the calendar at the above page... you can see that... Venus is currently in Cancer and... in 17 Aug 2013 will enter Libra

I hope the above make sense!

I don't really know how the stars operate, but I do know it just does.
I'm guessing stars have different energy patterns? I dunno.

I did see the website and I have done research in regards to degrees in a natal chart (i have done extensive research in my natal chart). I did see one website which said 15 degrees of leo is not such a bad degree but a decent degree which is hopeful, the book is inside degrees by Ellias Lonsdale. I don't understand the 15 degrees of leo in my chart bc is it co-ruled with mars 20 degrees of leo (both 1st house)... I'm still new to astrology, my own natal chart is what has gotten me obsessed. If I understood how the 15 degrees of leo is a bad sign I could probably turn it into lemonade which I have started doing with my life as a whole now that I understand myself better than I did 2 weeks ago.

**Subject:** Re: Noob Questions. Please reply.

I can understand why you are thinking that it would be a problem... but i know that we are Spiritual Satanists... and we have power to overcome such things
To explain... first of all...

2nd House... is the house of physical valuables and money... it's an earth element house...

Virgo... is also an earth element... and usually represents earning money by providing services... great organization skills... and very good with details...

So... combining the above... means that...

you are probably practical and you will have the tendency to keep detailed accounts of income and expenditure... you'll have an inner urge to work very hard for financial security...

to my understanding it's a good combination for earning money

just check if the other parts of your chart are in agreement with the above, just to be sure

Now... about the Mercury in 12th...

I know that 12th house is called the house of misfortune... but to my knowledge it is not... it may be for other people... but we are Spiritual Satanists... we strive for advancement!

The planets in the 12th house have their energies obscured

I imagine the energies of the planets in the 12th house... to come from a higher/spiritual plane... these higher/spiritual energies are difficult to translate to the physical plane in order to use them in material matters (for example raising money)

But this is just a difficulty that can be overcome... and nothing more!

This is NOT misfortune... we are SS... not some helpless sheep waiting for our doom.

We meditate and solve such difficulties... so my advice is to meditate on this... for example... do the Mercury Square... and if you do this... i don't think this would ever become a problem

http://www.angelfire.com/empire/serpentis666/Mercury_Square.html

Hope this helps

I have no astrology background what so ever and I am diving in to the pool when I cant swim. On top of everything JOS astrology pages are not noob friendly. So sorry for awkward and stupid questions in adventist.

1. Signs, planets, and their aspects. What kind of connection does the conjunction within the planes serve. How does it work? Does it matter what kind of conjunction there is or does this conjunction affect the reading of the chart some how?

2. What if the chart ruler does not have a conjunction with a planet? Is it the strongest type of conjunction?

3. Can a venus be in conjunction with a moon? When venus is the chart ruler, like I see that it cant be because it should say some thing like "moon in conjunction with venus". At the same time does it matter?

4. How do the elements work. Fire, Water, Air, Earth. I am sorry but there is no explanation of the grand trines on the JOS.

5. The true node. I have some vague understanding of it but were can I find some accurate information on it.

6. What the heck is a Chiron?

7. When is Venus is strong in its home signs of Taurus or Libra? How can I find this information?

Interesting.. I too am Scorpio with Mars and Pluto in Scorpio.. I am not sure about past life, but I guess with that kind of planetary alignment, there are quite a few things that fall in place.. Pluto is the lord of the underworld and occult. Mars is the god of war. Sun sign Scorpios are intense and focused. For me, the added advantage is that I have my moon sign Pisces (that makes me a far deeper and emotional Scorpio, but also brings in certain psychic abilities).

I think that the combination of all this makes us more adept in black magic as well as spiritually aware naturally.

Example of how does the Yod work:
Person has Moon in 7 house, Saturn in 5 house - sextile; Sun in 12 house - the opposite to the middle of sextile. All his life he has unexplicable obsession of all the occult, especially magic, magic is his greatest passion, he feel free and happy only when doing magic. There are in plenty other points in his chart that makes him absolutely lonely, but the Saturn and Moon in sextile in love (5 house) and partnership (7th) both directing there energies to 12 house (occult)(where is the ruler of the 11 house also) make him desireing to have his love/friends/partners/guardians in the astral - not to mention that he's SS.

Subject: Lunar perigee (also known as "black moon", "oscular Lilith" on astro

I am really interested what SS think of that point, house in which it's located, conjunction, aspects, transits with it, etc. In my country it's called "black moon", but not in the sense of "New moon", but in the sense of lunar perigee (where Moon is most far from The Earth).

I was dabbling in astrology from long ago (unfortunately, everything in my post-comunist country is shitted up with Jew Age/xian crap) and noticed that all RPH astrologies stress Lunar perigee as terrible and nearly most painfully point in all the chart. Funny, when I dabbled in one RPH seminar (years before I became SS), all of those who'd come claimed that so that was exactly in their lives (every one there was very xian and all used name "Lilith" - sorry!).

What exactly they said, was: house of L.P is all ruined to no end, exemple: 7th - ruined relationship, 1th - all life to endure insults and self-abuse, 8th - all life in violence and death-danger, 11th - loneliness and outcasting, 10th - ruined career, etc. Conjunction with natal planet ruins down all energies of that planet, example L.P.+Venus = broken heart, etc. Synastry with L.P. ruins the energies of another one's planet, example: L.P+S.Moon = emotional sucking out all Moon-person's powers, etc.

Nowhere on Satanic resources, including JoS, I've found information about L.P. - no SS suffer from L.P.? So maybe RPH astrologies and company are suffering from L.P. because of their blasphemies? I noticed also that RPH like Saturn much more than LPH do, they claim that Saturn is the only planet that's good when in aspect with L.P.

So what does L.P mean for you? what's your opinion?

Sorry! I mixed up two terms: perigee and apogee
Lunar perigee - it's when Moon is nearest to the Earth
Lunar Apogee - it's when Moon is farthest to the Earth - "IT's the one, that's called Black Moon"
Of course I mean Apogee in my topic.

My experience (only IMHO): This point brings a great desire in those areas where it is located, for example:
u home - a great need for love, 2 - the pursuit of wealth. But yod gives more passion than LA Example: 11 House - LA and 12 home yod. This man is very lonely, but if the friendship interfere with his occult studies, he will choose the occult.

Don't worry. In my example the men has two his chart rulers both participating in the yod (Sun and Moon) - that's why maybe it effects so seriously. If there is no chart ruler in your yod (especially Apex), maybe all situation will be different.

If they were perceiving Black Moon Lilith as a "wasted something", SCREW THOSE FUCKERS.

It is the same crap as saying that by exposing ourselves to the Cronian energies and getting our asses kicked, we mature, as it is with RHP pussies.

I personally like this name, because although the explanations people are using is one of the jewish myth, one with Inanna and the huluppu tree where a spirit of Lilit was cast out of it precedes that of kike scum, and it shows the Black Lunar principles as something that we need to incorporate AGAIN, something that was cast out (and why it was this way? JEWISH ABOMINATION). It is our *personal* shadow self.

The Black Moon should be treated as an axis - if you have it in, say Virgo (strung up, able to be one's self only at work), the way to overcome this is to utilise the positive qualities of the opposite sign - here, Pisces. IF NOT, than the Lunar Perigee, Priapus, the rational masculine mind will overwhelm us and... anyway,
suppression for a Satanist is a no-no.

The other thing is, in regards to this axis and suppression, I read somewhere that the sign the BLM is in shows the qualities we long for, yet will never be fulfilled. That is why the opposite sign, utilising its positive qualities, will be vital to reunite the principles indicated by the BML.

"With the Black Moon in the sign of Virgo, the person should have strong ties that connect him with Earth and the rhythm of nature. But it is usually not the case in youth, when the realization of weaknesses of the human being goes on and its helplessness before the higher powers, old age and death. This is where various fears come from and to overcome them, much intellectual work, contemplation, travel and liberating of spirit is necessary."

I have Scorpio in my Sun, Mars and Pluto. Scorpio is in my 11th house. I read that people that have Scorpio in Pluto and Mars have empowered themselves in a past life and that they are natural black mages. If anyone has any other info on this I would like to know. Thanks.

Thank you for sharing this, I really had not seen any good descriptions or analyses for the Black Moon, but these seem on point.

Very interesting insights, both from your post and the website. Explains and strengthens themes already strongly represented in my chart.

The point is, people focus more on the main objects (hardly can it be said it is wrong), and forget that astrology, as complete as it is, is an OPEN system.

For instance, take 2060 Chiron (the wounded healer, to which astrologers try to attach the nazarene crap) with other centaurs (Phollus, Nessus, Asbolus, Chariklo - I don't know the ordinal numbers, sorry:P). 1 Ceres, 2 Pallas, 3 Juno and 4 Vesta - these complement / extend the meaning of Venus and the Moon. Some are being discovered, so it can be slightly hard to apply them, not to mention that they are generational, like Eris, Varuna, Quaoar, Chaos, etc. There are many more, but obviously, if one ignores them, as for me, they lose much. On the other hand, incorporating too much can dilute the whole meaning of the chart. Which is why I stick to the 5 Ladies and one centaur. But as with everything, common sense and one has to read it Our way :)
mind will overwhelm us and... anyway, suppression for a Satanist is a no-no.

I also felt the energies/gifts of my house/sign with BLM more sweet then those of the opposite house/sign, though the sweetest are in the house of yod-Apex (at least for me). Thanks for the answer!

As for "screwing those fuckers", I subscribe totally! I was labeled as "insane" in that mother-fucking group for one and only reason that I have natal conjunction osc. Lilith/Chiron in 11 house oppositing Uranus. Really proud of that aspect!

As for Cronian energies and ass-kick, they expend their shit-fears to all outer planets just for being "outer".

to RPH ass-troll-oges: THOU FOOLS!!!!!!
If they were perceiving Black Moon Lilith as a "wasted something", SCREW THOSE FUCKERS.

It is the same crap as saying that by exposing ourselves to the Cronian energies and getting our asses kicked, we mature, as it is with RHP pussies.

I personally like this name, because although the explanations people are using is one of the jewish myth, one with Innana and the huluppu tree where a spirit of Lilit was cast out of it precedes that of kike scum, and it shows the Black Lunar principles as something that we need to incorporate AGAIN, something that was cast out (and why it was this way? JEWISH ABOMINATION). It is our *personal* shadow self.

The Black Moon should be treated as an axis - if you have it in, say Virgo (strung up, able to be one's self only at work), the way to overcome this is to utilise the positive qualities of the opposite sign - here, Pisces. IF NOT, than the Lunar Perigee, Priapus, the rational masculine mind will overwhelm us and... anyway, suppression for a Satanist is a no-no.

The other thing is, in regards to this axis and suppression, I read somewhere that the sign the BLM is in shows the qualities we long for, yet will never be fulfilled. That is why the opposite sign, utilising its positive qualities, will be vital to reunite the principles indicated by the BML.

"With the Black Moon in the sign of Virgo, the person should have strong ties that connect him with Earth and the rhythm of nature. Okay I'm fairly sure that the whole learning, thinking process, manual dexterity and anything related to the 3rd house is having problems in my chart. I didn't drop it and I kept learning my chart and search for bad degrees and other problems but couldn't find the cause. Which lead me to Mars and Mercury again.

Something I didn't mention is my Aquarius and Leo signs being intercepted. Meaning the 3rd house and the 9th house are intercepted. I totally overlooked it as I thought it cannot be the cause, but I don't know where to look anymore.

My thinking process is flawed, this is for sure. I need to read your posts and others like 3 times to begin to understand. Early school was a pain in the ass. Also I have noticed changes in my quickness and general manual dexterity. Some days I was quick and alert regarding my hands and some other days I sucked. This imbalance implies even more there are problems. But where? I personally do not think it is the Intercepted sign but maybe you know different.

Well, everything indicates it is. Not only the signs are intercepted, but Mercury as well, since it's in Aquarius. Mercury is exalted in Aquarius, but it is known to cause disruptive thought patterns and early schooling situations. Traditional learning processes usually don't work in this case.
With these signs intercepted it means that Capricorn co-rules your 3rd house, and that may cause problems, since it's ruled by Saturn. Count in the placement of Saturn, any aspects between Uranus and Mercury, and you may find out more details about the issue.

That's all definitely related to the problem, but I myself would never guess it could cause so much trouble. You write exceptionally well for someone with trouble learning and processing information.

If I remember well, you have Saturn in Pisces like me, so you must be around my age. We are very young, so if you feel this will cause serious trouble in your plans for the future, it's extremely important that you understand what is happening right now, so that you can work on it. I'm sure your problem can be solved if you work on it, either with meditation/re-writing your thought processes and/or persistently training to get better.

To how degree are you sure in the fact that the planets in the signs don't affect their rulers? Thanks again.

Virgo doesn't deal much with learning as Gemini does. Mars gives energy and in Virgo it focuses on work and health. The only issues you could have with Mars retrograde there (and probably only because it's so prominent) are health related.

Planets in signs don't affect their rulers unless, of course, they are aspecting each other. Your Mercury is extremely well placed, and I can't imagine you having trouble learning, unless there are other bad placements for this in your chart.

If you do have any trouble learning, these planets are probably not the cause.

If I have, for example Mars retrograde in the sign of Virgo, will it affect my ability to learn? Because Mercury rules Virgo, along with Gemini. Is it valid? Mars is prominently placed, exact conjunct the 10th house cusp of Virgo. Mars is also the only planet on the southern half (the top half) being the handling of my bucket chart. (Mars is also my co-ruler)

Mercury is in the sign of Aquarius, it's exaltation, in the third house.

I will not expose here the whole chart. I just want to know how Mars retrograde in Virgo affect Mercury.. If at all, affecting.

This post was very helpful. I'm getting closer!

If Capricorn co-rules my 3rd house does it mean Pisces co-rules my 3rd house too? Or is it just the beginning of the cusp?

No revealing aspect between Uranus and Mercury.

I may write well, but my learning process is extremely poor. Trust me when I say this. I didn't know this since a while ago. You know, it's like seeing bad, you don't really know you see bad until you comparison with others. I would do void meditation but thoughts didn't come up in my mind. I simply could not concentrate for more than 5 seconds without losing it. When I think of it, I do not think. At all. My brain is pretty much dead.

Indeed I have Saturn in Pisces, within the 4th house. I put alot of emphasis on Saturn since I have 3 planets in Capricorn (they conjunct each other, called Stellium I think and Mars exact conjunct the 10th house cusp.
of Virgo (which you already know about).
I even have Saturn quite prominent, conjunct the 4th house cusp.

I thought about doing Mercury Square, but now I'm thinking of doing Saturn's. What is your opinion?

Planets in signs don't affect their rulers. Many astrologers claim that the sign's ruler affects any planet therein because it is the planet's dispositor, but not the other way around, unless they are in mutual reception, which is an exceptional case where both planets are in each other's ruling signs. This doesn't seem to be your case.

It's interesting because I actually have difficulties with learning. And I do think it's related to the two. I also had problems with school. And I didn't finished school (Mercury rules early schooling).

Mercury in Aquarius is naturally attracted to Science and Mathematics. I suck at the two.

To how degree are you sure in the fact that the planets in the signs don't affect their rulers? Thanks again.

Virgo doesn't deal much with learning as Gemini does. Mars gives energy and in Virgo it focuses on work and health. The only issues you could have with Mars retrograde there (and probably only because it's so prominent) are health related.

Planets in signs don't affect their rulers unless, of course, they are aspecting each other. Your Mercury is extremely well placed, and I can't imagine you having trouble learning, unless there are other bad placements for this in your chart.

If you do have any trouble learning, these planets are probably not the cause.

--- In JoS_Astrology@yahoogroups.com, "hailazazel" <hailazazel@>

If I have, for example Mars retrograde in the sign of Virgo, will it affect my ability to learn? Because Mercury rules Virgo, along with Gemini. Is it valid? Mars is prominently placed, exact conjunct the 10th house cusp of Virgo. Mars is also the only planet on the southern half (the top half) being the handling of my bucket chart. (Mars is also my co-ruler)

Mercury is in the sign of Aquarius, it's exaltation, in the third house.

I will not expose here the whole chart.. I just want to know how Mars retrograde in Virgo affect Mercury.. If at all, affecting.

HAIL SATAN!!!!
Pisces rules your 4th house, only Capricorn and Aquarius have influence over your 3rd house. Saturn is strong in your chart, and in Pisces it weakens your 3rd house, so that's definitely a big part of the problem. If Saturn squares your ascendant, then the case is pretty much solved.

I don't know much about meditations to counteract this, but I guess the Mercury square would do more for you, as Saturn's square can actually make things worse. If Saturn is already so prominent, I wouldn't mess with that square, at least not for now.

The Mercury square is huge, though. A better and probably longer lasting solution would be meditating directly on the chakras, especially the throat and the base. If you're feeling "empty" and/or lethargic, empowering the solar chakra may help a lot as it provides much energy to the entire system. When you get consistent results, you can do the Mercury square for a definitive change.

Just my thoughts, though, as I'm really inexperienced with meditation.

If I remember well, you have Saturn in Pisces like me, so you must be around my age. We are very young, so if you feel this will cause serious trouble in your plans for the future, it's extremely important that you understand what is happening right now, so that you can work on it. I'm sure your problem can be solved if you work on it, either with meditation/re-writing your thought processes and/or persistently training to get better.

So if both Aquarius and Capricorn have influence over my 3rd house, when both of them are ruled by Saturn, This is all obvious now.

Saturn is in the sign of Pisces, which as you said, weakens my 3rd house but not only that, It is in the 4th house of childhood.

Now intercepted signs and planets are already being hard to express, especially when they are so prominent (Mercury in the 3rd house of Aquarius), Now Saturn make it all logical.

Also my co-ruler is retrograde don't forget. I do not believe anymore, that Mars has directly effect on my Mercury and 3rd house however when so prominent Planet of a chart is retrograde the person will be a so called "late bloomer" and I'm indeed one.

I have read a great analogy in the other site, regarding intercepted signs and planets. The intercepted sign is like separate room within my house, which doesn't have any doors to it. Making it unavailable to reach it. Doing Mercury square in my opinion wouldn't help, as it is locked in the room. I need to find another key such as Saturn.

There is no one cause. I now begin to see the whole picture and it is very likely that the whole 3rd house gives me problems throughout my childhood. Maybe I will be some kind of "retarded" within the eyes of others untill the age of 30. Because astrologically I'm still a child.

I was told to come here by a fellow Satanist after asking it on the Teenager group of JoS, saying that you guys might have a better answer for this.

So the question is, why do the outside planets of the planetary squares have smaller days and lesser mantras, while the inner and closer ones are the complete opposite. The Moon requires you to vibrate 3321 times, and Mercury, 2080, but Saturn, 45. Why is this?

Also the other question was that why aren't there any squares for Uranus, Neptune, and Pluto. The answer I received was an unsure one, but his/her theory is that the Energies are similar to the inner planets, i.e. Pluto being the higher octave of Mars, Neptune being the higher octave of Venus, etc.

I recently completed my Jupiter squares and got no results, I did every thing perfect,

Yes. I did 'bother' reading. But there are not benefits there.

"Suffering, misery, loss, endurance, the father, the aged, discipline, recluses, restrictions, poverty, delay, defects, fatalities, misers, those who fast or starve, ascetics, denial, debts, the widowed, corpses, graves, fear, insecurity, disease, grief, long ties, duty, limitations, time and clocks, patience, serious, skeptical, pessimistic, learning from mistakes the hard way"

Also I'm looking for some personal experiences, if you have.

I used the Saturn spiritual & material square three times. And had virtually no ill-effects deriving from this planet.

For destruction and to "feed" my kundalini and stimulate it's ascension.

It made me feel more hardworking, serious, and focused. As for, the kundalini-- twice i had to stop the working because of the massive energy it creates/stimulates. I had some blockages in my legs that were getting very uncomfortable with each daily repetition. But it supercharge my sexual energy as i could easily have surpassed sex 6+ times a day.

Neptune is in pisces right now and will continue to be in pisces for the next some odd twenty years. Neptune is STRONGEST in pisces, as that means Neptune is within it's home ruling sign. So why isn't there a Neptune Square?

And if there isn't a neptune Square hiding out somewhere (i know there isn't one on the site), what can I do to make my neptune stronger if its in fall? Do I just draw down it's energy into my pineal gland? Or is there more to it?

The Outer Planets' energies are overwhelming by nature, you do not want to "make them stronger". This is especially true for Neptune, the planet of self-undoing.

What one should do with them is ATTUNE to their energies, and use them for one's benefit, so that they don't run unchecked. For this you can just study your own chart, learn your weaknesses/strengths related to the planet and start trying to solve them.

Meditation on the planets can be done in a variety of ways, but you can of course just focus on it, feel it and try to learn how to use it.

I thought that a planet was strongest when exalted, not ruling. For Neptune exalting signs are Cancer (and Sagittarius?). Am I not right?

There is idea: when planet is bad - work with her ruller and the house where her ruller is. When I wondered how to take gifts of the house where my Lilith was located, I found her ruller and worked on the affairs of the house where he was, and then understood.

No. The planet is strongest when it's in ruling and half as strong when it's in it's exalted. If it's in a sign that isn't any of the four (ruling, exalted, detriment, fall) then it's just normal. The planet functions weakly when it is in fall, which is what I have in neptune. Detriment tends to operate with the least strength. For neptune, the exalted sign is cancer. Neptune is ruled by pisces, which is trining my sun. So I want to take advantage of this and raise my psychic power over these next 20 years.

When do transiting planets make an impact on our personal planets? My thoughts on this are: on the approach to, exit from, and all the way through our own personal placements.

For example: Lets say that someone had their Neptune at 17 degrees of Scorpio. On Saturday November 30th 2013, Saturn will be at 17 degrees of Scorpio. What might happen? And when should that person be on the lookout for events changing in their life?

Btw, this is not my personal placement I picked something way off, just to cite an example.

Effects of transits begin at 5 degrees before exactness & last until 5 degrees after exactness. However, it is only within 1 degree before thru 1 degree after that it is in full time operation. Outside of the 1 degree range are generally rumblings before exactness & after effects after exactness. However, very few transits operate in isolation, so sometimes transits of inner planets act as timing devices for the outer ones. When multiple outer planer transits are occuring, then when all the planets involved are closest to being exact, is the best way to time them along with inner planet planets as timing devices. Sometimes the moon is the final arbiter of timing.

Saturn is the planet of consolidation and Neptune is the planet of dissolution. When these two planets combine (especially conjunct) by transit, there can be a great opportunity to bring one's spiritual study and goals "down to Earth", establishing them in a more tangible, useable form. Conversely, if one finds oneself to be lacking a meaningful spiritual facet in their lives, this transit can be an opportunity to be particularly vigilant regarding new spiritual insights that might appear, sometimes "out of the blue".

Medically, if one is suffering from any "watery" condition or "drying, calcifying" condition, than this transit conjunction can be used to allay these symptoms by working with the planetary energies.

When transiting Neptune conjuncted my natal Saturn, it dissolved all of the structures in my life. I lost my job & had to wind up moving in my friend. I found nothing positive in it as survival limits your focus on other things. However, that was my experience.

I think it’s just another literal interpretation of what we believe in. Symbols that pop out are the black stone and four corners. There are some sermons somewhere in these groups that I think answers these.

Anyways don't quote me on this :p

Hey guys,

I just read that Venus is in its ruling sign Libra from August 16th to September 10th. I was planning to use the Venus square. Can someone please throw more light whether this would be a good time to start off the Venus square?

Is it just a coincidence that the kikes who are known for their extreme greed and materialism had their religion begin in the age of Taurus the sign of wealth and money?  

Also Taurus rules tradition and convention and as we know they love to brag at how they're the only race to remain unassimilated throughout the centuries whilst all the others have gone.

Just curious.

The Jews are not as old as they claim. The only record of them shows they appear around 2500 to 2800 years ago. Not five thousand.

The Bull is a sacred animal.

That's it, 3000? I thought its was much more than that, like a little after the Gods were bound

I didn't think they had been around that long. Which record are you referring to HP Don? I can put this to good use when exposing them.

No. The planet is strongest when it's in ruling and half as strong when it's in it's exalted. If it's in a sign that isn't any of the four (ruling, exalted, detriment, fall) than it's just normal. The planet functions weakly when it is in fall, which is what I have in neptune. Detriment tends to operate with the least strength. For neptune, the exalted sign is cancer. Neptune is ruled by pisces, which is trining my sun. So I want to take advantage of this and raise my psychic power over these next 20 years.

Hail Satan!

I thought that a planet was strongest when exalted, not rulling. For Neptune exalting signs are Cancer (and Sagittarius?). Am I not right?

There is idea: when planet is bad - work with her ruller and the house where her ruller is. When I wondered how to take gifts of the house where my Lilith was located, I found her ruller and worked on the affairs of the house where he was, and then understood.

I was watching some James Dean films a week ago but I was interested in finding out more about his life extra, via his astrology etc. He had some good planets, but I wonder what caused him to die so young. Was this a misplaced Mars in the 8th House of something?

Drakedannii,

You bring up an important point, one that implicative, as well. There must be those in JOS who understand the jew's weakness, from an astrological perspective and how to exploit it. Group ritual using astrological (and other) associations may be key in tearing the jews down. We have the power. There is no doubt about that.

Numerologically, I believe the jew's number is 2, which, among other things, indicates one who feigns weakness (or victimization). The second house, is, of course, the house ruled by Taurus.

2 is of Satan and on top of that, there is no stable base to start an astrological reading to destroy all the jews. You do not need to be a technician to destroy the kikes. If they would have a number, it would be the number 6.

6 Million jews and many other connections. There is no need for astrological perspectives. The nature of the jew is known and we know it by looking on the exact opposite of the Gentile nature.

The Jews are not as old as they claim. The only record of them shows they appear around 2500 to 2800 years ago. Not five thousand.

The Bull is a sacred animal.

Is it just a coincidence that the kikes who are known for their extreme greed and materialism had their religion begin in the age of Taurus the sign of wealth and money?

Also Taurus rules tradition and convention and as we know they love to brag at how they're the only race to remain unassimilated throughout the centuries whilst all the others have gone.

Just curious.

Judaism is like xianity its a rewrote mix of other religions, Brahmanism with Abraham [Brahma] Sara [Saraswati] and on. The Sumerian's with the Garden of Eden. Egypt in many places such as much of the Psalms and the creation epic. We have Moses being stolen form Bacchus-Osiris, minus the ten plagues on Egypt. Sampson is proven to have been stolen from Hercules. This title of Yaweh was in use before Judaism existed in some regions. This caused a national uproar in Germany when the Assyriologist gave his findings to the Kaiser in person on this. This was found before Judaism officially existed hence the revealed name to the Jewish patriarch is bullshit. They even lifted this name.
Much of Judaism is also from Canaan. The earliest image of the Jewish god Yaweh from 500 BC is stolen from the popular image of Zeus. Jehovah is stolen from Jove a title for Jupiter the Roman Zeus. The image found in the earliest known synagogue from 2000 years ago in Syria is Helios. And the first name of their god is EL or Elohim in their bible. There is some later Zoroastrianism influences as well. With Yahweh taking the place of Mazda.

Elohim was originally a title of Osiris and of the Gods in Sumeria and elsewhere.

The Hyksos situation is also not the origin of the Jews nor the far East. I have looked this over and over along with Tsarion's works on the subject. The Hyksos where a Gentile dynasty that source of power was in the Minoan Empire. The court of the Hyksos capital was found its identical to the imperial place of Knossos in Crete. Many of the Hyksos dynasty where married into the conquering faction. The Hyksos arose in a period of the collapse of the pervious dynasty. This is also why some many items for other regions where found with the Hyksos. It was from the other parts of the Minoan Empire. These where blood lines all from a common Aryan source. And shared the same religion.

It seems the Jews came out of the ME, Canaan region and moved outwards in all directions. The region they started in was the key area between East and West which is the perfect start point for such a program. Their Torah is corrupted from the Tarot the 5 Books of Thoth. If you look on the Wheel of Fortune card. It states in one direction Tarot on the Wheel. And Torah in another direction.

We also have the fact gene studies on the Cohen gene. Trace them to the identical NE region.

The Jews Biggest Lie

Looking at the major claimed history and historical figures of the Jews we can see the plain truth. Their entire history is false and stolen from Gentiles. The real foundation of their history rests upon two major characters Abraham and Moses.

The supposed Great Patriarch Abraham and his family the first "official" Jews in history, are in fact stolen from the ancient Hindu Trinity of Brahma, Vishnu and Siva, along with Saraswati:
Since Krishna was not born of man, he was not actually the earthly father of Brahma and Mahesh. Therefore, he himself was the protector (Tara) of Brahma. In Sanskrit, Tara means "savior; protector." It is a term generally used with the gods Rudra, Shiva, Vishnu and Brahma. Even our Old Testament says that the father (protector) of Abraham was Terah (Genesis 11:26.) The Bible tells us that Abraham and Sarah were half-siblings. (Genesis 12:19-20.) The Hindu holy books also tell us that a blood relationship existed between them. The Puranas relate Sarasvati to Brahma and Vishnu. Most frequently, she is associated with Brahma. Her connection with him dates earlier than to any other God. She is portrayed mostly as his wife and occasionally as his daughter. When Vishnu's popularity in India increased, myths relating Saraswati to him appeared. (Ref: Sarasvati and the Gods; www.vishvarupa.com.) Therefore, Brahma or Vishnu would also have been the Tara (Terah) of Sarasvati because of her divine origins.

Brahm (Abraham) Sarasvati (Sarah)

Abraham or Brahma's home was the land of Haran (Genesis 1:4.) Haran was the coastal principality governed by Krishna. It was even named after him because Hara (Sun God) is another name of Krishna. Brahma/Abraham was 75 years old when he left Haran.

The Bible mentions Haran and Haryana. The Hindu holy books also say that Brahma/Abraham lived in Ur of the Chaldees. Ur was a Sumerian name for "town; city." Chaldee (pronounced Kaldee) derives from the Sanskrit Kaul, a Brahman caste, and Deva (demi-god). The North Indian Kauldevas worshiped idols representing their ancestors. According to the Hindus, Brahma married Sarasvati in Chaldea, the part that is now Afghanistan.

In Hindu mythology, Sarai-Svati is Brahm's sister. The bible gives two stories of Abraham. In this first version, Abraham told Pharaoh that he was lying when he introduced Sarai as his sister. In the second version, he also told the king of Gerar that Sarai was really his sister. However, when the king scolded him for lying, Abraham said that Sarai was in reality both his wife and his sister! "...and yet indeed she is my sister; she is the daughter of my father, but not the daughter of my mother; and she became my wife." (Genesis 20:12.)

But the anomalies don't end here. In India, a tributary of the river Saraisvati is Ghaggar. Another tributary of the same river is Hakra. According to Jewish
traditions, Hagar was Sarai's maidservant; the Moslems say she was an Egyptian princess. Notice the similarities of Ghaggar, Hakra and Hagar.

The bible also states that Ishmael, son of Hagar, and his descendants lived in India. "...Ishmael breathed his last and died, and was gathered to his kin... They dwelt from Havilah (India), by Shur, which is close to Egypt, all the way to Asshur." (Genesis 25:17-18.) It is an interesting fact that the names of Isaac and Ishmael are derive from Sanskrit: (Hebrew) Ishaak = (Sanskrit) Ishakhu = "Friend of Shiva." (Hebrew) Ishmael = (Sanskrit) Ish-Mahal = "Great Shiva."-Matlock

Lingam worship in the Bible:
In the 28th chapter of Genesis Jacob, after having a dream about a 'ladder' reaching up to heaven with angels 'limbing' it and God standing at the top(12), erects a 'pillar' with the stone he was using for a pillow and consecrates it with oil (18). He calls the place Beit-El ('Bethel' in english, which means 'House of God') (19). He says that the stone pillar itself was "God's house" (22). And he later, in chapter 35 v14, erects another one on the road from Paddan-Aram.

The worship of Brahma was also in the Near Eastern World:
"About 1900 BC, the cult of Brahm was carried to the Middle and Near East by several different Indian groups after a severe rainfall and earthquake tore Northern India apart, even changing the courses of the Indus and Saraisvati rivers."

"...the Temple of Mecca was founded by a colony of Brahmins from India.it was a sacred place before the time of Mohamed, and they were permitted to make pilgrimages to it for several centuries after his time. Its great celebrity as a sacred place long before the time of the prophet cannot be doubted." (Anacalypsis, Vol. I, p. 421.)

"...the city of Mecca is said by the Brahmins, on the authority of their old books, to have been built by a colony from India; and its inhabitants from the earliest era have had a tradition that it was built by Ishmael, the son of Agar. This town, in the Indus language, would be called Ishmaelistan." (Ibid, p. 424.)
Before Mohammed's time, The Hinduism of the Arab peoples was called Tsaba. Tsaba or Saba is a Sanskrit word, meaning "Assembly of the Gods ". Tsaba was also called Isha-ayalam (Shiva's Temple). The term Moslem or Moshe-ayalam (Shiva's Temple) is just another name of Sabaism.-Matlock

The facts on Mohammed fictional existence:
http://exposingthelieofislam.wordpress.com/muhammad-never-existed/

One of the shrines in the Kaaba was also dedicated to the Hindu Creator God, Brahma, which is why the illiterate prophet of Islam claimed it was dedicated to Abraham. The word "Abraham" is none other than a malpronunciation of the word Brahma. This can be clearly proven if one investigates the root meanings of both words. Abraham is said to be one of the oldest Semitic prophets. His name is supposed to be derived from the two Semitic words 'Ab' meaning 'Father' and 'Raam/Raham' meaning 'of the exalted.' In the book of Genesis, Abraham simply means 'Multitude.' The word Abraham is derived from the Sanskrit word Brahma. The root of Brahma is 'Brah' which means - 'to grow or multiply in number.' In addition Lord Brahma, the Creator God of Hinduism is said to be the Father of all Men and Exalted of all the Gods, for it is from him that all beings were generated. Thus again we come to the meaning 'Exalted Father.' This is a clear pointer that Abraham is none other than the heavenly father."

Where does the term Hebrew actually come from?

One of the most important finds in Egypt happened with the Egyptologist and Archaeologist Professor Walter B. Emery (1903-1971) while excavating tombs at Saqqara. Emery found men with blond hair and fair complexions. These individuals were revered by the Egyptians as a special class, an endowed elite the "Shemsu Hor" (Serpents of He of The Ari). The famous Egyptologist, author of Archaic Egypt discovered the remains who lived in the pre-dynastic epoch. These presented a dolichocephalous skull larger than that of the local ethnic group, fair hair and a taller, heavier build. Emery declared that this stock wasn't indigenous to EgyptÂ This race kept its distance from the common people, blending only with the aristocratic classesÂ .the scholar associated them with the Shemsu HorÂ .The Shemsu Hor are recognized as the dominant sacerdotal caste in pre-dynastic Egypt."

-V. Di Cesare and A. Forgione "Malta: Skulls of the Mother Goddess"
Professor Emery wrote of these Shemsu Hor: "The Demigods of Manetho's history." 
These Shemsu Hor were stated to have originally lived on an island homeland as well. A very revealing text on the truth of the ancient Egyptians record of their origin:

"Hebrew comes from Ibaru he letter H added as a prefix meant the and so the word Hebrew means the Ibaru the term rabbi is a variant of this Ibara. The Ibaru were part of the Shemsu Hor who travelled to Egypt in the ancient past. Due to the similarity to Apiru which means undesirable, this term has been confused."-Tsarion

The claims the Hebrews where Apriu/ Habiru are misleading again, the truth such peoples where from the region called Aryavarta {North India, Pakistan) when the gradual abandonment of the Saraswati civilizations due to the drying up of the river, there was major waves of former inhabitants of the region which from modern finds would have been extensive as the population of the Saraswati area was into the millions. These people became migrants and refugees that moved out over the generations to new areas:

About 1900 BC, the cult of Brahm was carried to the Middle and Near East by several different Indian groups after a severe rainfall and earthquake tore Northern India apart, even changing the courses of the Indus and Sarasvati rivers. The classical geographer Strabo tells us just how nearly complete the abandonment of Northwestern India was. "Aristobolus says that when he was sent upon a certain mission in India, he saw a country of more than a thousand cities, together with villages, that had been deserted because the Indus had abandoned its proper bed." (Strabo's Geography, XV.I.19.)

"The drying up of the Sarasvati around 1900 BCE, which led to a major relocation of the population centered around in the Sindhu and the Sarasvati valleys, could have been the event that caused a migration westward from India. It is soon after this time that the Indic element begins to appear all over West Asia, Egypt, and Greece." (Indic Ideas in the Graeco-Roman World, by Subhash Kak, taken from IndiaStar online literary magazine; p.14)

"The exodus of refugees out of ancient India did not occur all at once but over a period of one or more thousand years. If all these refugee ruling peoples were exclusively of Indian heritage, why doesn't History mention them? Indeed they
are mentioned as Kassites, Hititites, Syrians, Assyrians, Hurrians, Arameans, Mittanians, Amalekites, Aethiops (Atha-Yop), Phoenicians, Chaldeans, and many others. But we have been wrongly taught to regard them as ethnicities indigenous to Western Asia." - Matlock

Many of these peoples became free companies, workers and in some cases criminals and conquerors of new regions to settle in from the early records on the subject, many such as the peoples mentioned above would conquer their own kingdoms and empires.

The Sumerian logogram SA.GAZ appears in texts from Southern Mesopotamia, dated from about 1850 BC, where it is applied to small bands of soldiers, apparently mercenaries at the service of local city-states and being supplied with food or sheep. One of those texts uses the Akkadian cuneiform word Hapiri instead of the logogram; another described them as "soldiers from the West". Their names are predominantly Akkadian; some are West Semitic, some unknown. Their origins, when recorded, are in local towns.

A letter to an Old Assyrian merchant resident in Aliʔar requests his aid in freeing or ransoming some Hapiri, formerly attached to the palace of Shalahshuwe (as yet unidentified), now prisoners of the local authorities.

The Tikunani Prism, dated from around 1550 BC, lists the names of 438 Habiru soldiers or servants of king Tunip-Tessup of Tikunani, a small city-state in central Mesopotamia. The majority of these names are typically Hurrian, the rest are Semitic, one is Kassite.

Another text from around 1500 BC describes the Hapiru as soldiers or laborers, organized into bands of various sizes commanded by SA.GAZ leaders: one band from Tapduwa has 15 soldiers, another from Sarkuhe has 29, and another from Alalakh has 1,436.

The Hapiru where simply the ancient equivalent of Cossacks. The truth is the title Hebrew [Ibaru] comes from Egypt it was a title for a Solar Priest. Its no mistake the important Jewish pass over is stolen from the Egyptian festival of Easter. A solar custom of Egypt.
"The priests of the Mysteries were symbolized as a serpent, sometimes called Hydra...The Serpent Kings reigned over the earth. It was these Serpent Kings who founded the Mystery schools which later appeared as the Egyptian and Brahmin Mysteries...The serpent was their symbol...They were the true Sons of Light, and from them have descended a long line of adepts and initiates."
- Hall

"The Apiru or Hapiru were not the same people as the Hebrews (Aryan) Magi had journeyed far and wide and established mystery schools throughout the world. The early Egyptians knew them as the Shemsu Hor "Disciples of Horus." The Shemsu Hor were councilors to, and perhaps even initiators of the pharaohs of Egypt."-Tsarion

"The word Hebrew can also be traced to the Gaelic Heber meaning "fire" or "sun." A "Hebrew" (Ibaru) was a priest of the sun."

"Cohen, the Jewish name for priest, comes from Cahen, the Egyptian pronunciation for a priest and a prince. Even circumcision, that uniquely 'Jewish' tradition, came from the Egyptian mystery schools and was performed at least as far back as 4,000 BC. You could not be initiated unless you were circumcised. The Hebrew religion did not exist in Egypt and there was no Hebrew law because there was no Hebrew 'race'. The only worship was Egyptian worship"

The High Priest of the Levities breast plate and all is nothing more then a stolen image of a Ibaru leader from Egypt.

This leads us to the next major claimed character of the Jewish "historical record" Moses:

Like that of Osiris, the story of Dionysus includes his own mythical conquest of India. Dionysus is not only Osiris but also the counterpart of Moses: "That the god Bacchus was the archetype of Moses seems to have been the opinion of many learned men, particularly the celebrated Bishop of Huet, and I Vossius, who agree that the Arabian name of Bacchus is Meses."

Biblical scholarship and archaeology have basically proved that the Pentateuch, or first five books of the Bible, were not composed by the great lawgiver Moses himself. In the Bible Unearthed, archaeologist Israel Finkelstien demonstrates
that much biblical composition was done from the 8th century BCE onward. Even in ancient times it was recognized that Moses did not compose the Pentateuch. According to the myth, the Jews at the time of the Exodus celebrated the feat of the Lamb, which refers to the Age of Aries. In the Dionysian myth, the sacred Lamb or Ram provides water to Dionysus's army in the middle of the desert, the water-in-the-desert motif also being in the Moses myth. Like Dionysus and Amon, Moses is depicted wearing ram's horns. 

Another tale that found its way into the Bible is that of Bacchus's miracle of stopping the motion of the sun and moon, replayed in the story of Joshua.

It is related in the hymns of Orpheus, that Bacchus had a rod with which he performed miracles, and which he could change into a serpent at his pleasure. He passed the Red Sea, dry shod, at the head of his army. He divided the waters of the rivers Orontes and Hydaspus by the touch of his rod, and passed through them dry-shod. By the same mighty wand, he drew water from a rock, and wherever they marched, the land flowed with wine, milk and honey.

Bacchus, was called the "Law-giver, and it was said of Bacchus," as well of Moses, that his laws were written on two tables of stone. Bacchus was represented horned, and so was Moses. Bacchus was picked up in a box that floated on the water, and so was Moses. Bacchus had two mothers, one by nature, and one by adoption, so had Moses. Bacchus and his army enjoyed the light of the sun at night, Moses and his army a pillar of fire by night.

Moses being called the Law-giver and the laws being written on two tablets of stone, were obviously copied from Bacchus, but the idea of his (Moses) receiving the commandments from the Lord on a mountain was undoubtedly taken from the Persian legend of Zoroaster. "In his gentler (Dionysus) aspects he is a lawgiver."

It is also well known now by Egyptologists that the Ten Commandments are stolen from the 42 negative confessions from the Egyptian Book Of The Dead.

It seems apparent that the Israelite conquest of "The Holy Land" was taken from Dionysus mythical conquests, they just changed the direction as awhole.
This leads into the next connection with Egypt and the Brotherhood of the Serpent centers again as Dionysus another form or alias of the Egyptian God Osiris:

Herodotus compared the Greek god Dionysus and the Egyptian god Osiris as long ago as the fifth century B.C. and found them to be nearly equal in all their mythology characteristics and virtues.

Pausanias, Description of Greece 10. 29. 4 (trans. Jones) (Greek travelogue C2nd A.D.)

"Both the Greeks and the Egyptians have many legends about Dionysos."
Like his alter ego Osiris, Dionysus, the most popular god in the Roman Empire, was considered an immensely old deity, according to Herodotus who imparted that, even though he was one of the "youngest" gods, Dionysus supposedly appeared "15,000 years before Amasis" (Ahmose. fl. 1550 BCE).- Murdock

The Egyptians, reports Herodotus, claimed to be "quite certain of this dates."
Having kept careful records. The assertion that Dionysus/Bacchus's presence on Crete, where he was said to have been born, extends back even further, as his epithet "Iakchos" is found at the palace at Knossos, with an apparent Egyptian connection.

In Avaris archaeologist have found Cretan motifs on the walls only found appearing previous on the walls of the palace in Knossos in ancient Crete. Both Osiris followers of Egypt and Cretans held the Bull sacred. The Cretan culture was identical to the Egyptian one even being ruled by a Priest King along with Serpent Brotherhoods the Kaberoi.

Dionysus was born on December 25th, the same as Osiris. Like Osiris, Dionysus was torn into 14 pieces, and also like Osiris, Dionysus was considered both the son and father of Zeus, according to an Orphic verse"-Murdock

"Osiris Who was the "first to drink wine" and who taught mankind about the vine, according to Plutarch is referred to as the "Lord of Wine in the Æ festival." Dionysus was the great Olympian god of wine, vegetation, pleasure and festivity."- Murdock

Dionysus was also the Lord of Whine.
The staff of Osiris and the thyrsos of Dionysus are identical in appearance both being pine-cone tipped.

With such antiquity also came an enormous territory, as Dionysus was much beloved in a widespread area from Egypt to Greece to Macedonian, the Near East and beyond.-Murdock

We can also see in the creation of the religion of Serapis created by the Greek pharaoh Ptolemy I. The later fusion of Osiris with an Hellenic guise. Which demonstrates the same God can be worshipped by two peoples.

The rites of Eleusinians where Dionysian in nature And Dionysus as shown was also worshipped as Osiris in Egypt. By examination of the Eleusinian rites and ranks we are seeing a window into the Brotherhood Of The Serpent centers in Memphis Heliopolis[ called ON meaning Sun in Egyptian] and Avaris in Egypt. This is the actual reason Avaris was known in the ancient description as the "City of the Hebrews" because it was a major seat of the Egypt Priesthood of the Ibaru. Avaris was also called Zaon {Zion} and had a Royal Court called the Levities there.

"Reverend Taylor discovered the truth when he studied the Eleusinian Tradition of Greece, which dates back to before 1500 years BCE. He lays out the schemata for the ritual and dramatic performances customary to the Eleusinians:

Eleusis- The Beginning or Opening
Hierophant- The Magus Overseeing the Rites
Hupereet-Ordinary Priest, or Minister
Diaconos-A Deacon, or lower Officer
Diadochos-Torch-Bearer
Photagogue-Bringer and Wielder of Light
Autoptos-Candidate Witnessing the Rite
Autopsy-The Act of Witnessing of Seeing
Hebrew-The Initiated One (who has passed through all trials and been purified)
Teleios-The Perfected Adept
Israelite-The Purified, God-Inspired Adept (the "God Seer")
Jew-God Himself. The State of Perfection. Man as Enlightened Being."
-Tsarion
"The ancient terms Israelite and Ibaru (Hebrew) referred to high ranking, spiritually endowed Egyptians and their ancestors." Israelite also comes from "worshipper of Essa or Essaite" Essa, Esus. Etc Are all ancient titles for the Sun Gods, The Phoenician God Saturn was also called Israel, Saturn was a Sun God in the aspect of the period of the sun before its death and rebirth on the Winter Solstice hence the Winter Solstice festival of Saturnia in ancient Rome.

Yahweh is originally an ancient name for the sun concept, the Egyptians had a title for a solar deity called Yahu/yahew, the Persians word for sun was yawnah the Phoenicians had yahwe and the Syrians Yaw. Origins of this can be traced in the Veda with the title Yaha...etc Even the term "Ad-ON-I" is Egypt in origin.

The five books of the Jewish Torah is stolen and corrupted from the five suits of the Tarot, Tarot means "Royal Road" in ancient Egyptian, the name signifies the kundalini Serpent ascension up the spine. The Kabala was also stolen from Egypt KA BA ANKH = "Kabalah:

The Temple of Sol-om-on was stolen from Egypt. It's the temple of the soul and its most ancient symbol is the Pyramid and the capstone. It represents the Godhead. Once again we are looking at another literalized fictional event, taken and corrupted from a spiritual concept nothing more:

The PYRAMID is symbolic of the shape of the human chakra. The missing capstone represents the unfinished work and the ALL-SEEING EYE represents the gnosis and all-knowing when one reaches the godhead. This state is also known as "SAMADI" or "SUPER CONSCIOUSNESS." The photo at left was taken from the US One Dollar Bill. The United States, government and all, was founded upon Masonic principles and is not Christian by any stretch of the imagination.

The Benben stone in Egypt represented as a pyramid shaped stone and the dwelling place of the sun god with its association with the Bennu bird (also Benu bird). The Benu bird is the Egyptian name for the Phoenix. The Benben stone represents
the Temple Of Solomon.

The Jews simply stole the core of their identity from the Gentile Brotherhood Of the Serpent and their orders in Egypt. Which was one of the major Serpent centers in the ancient world.

They was no exodus and no Biblical homeland in the Canaanite lands:

"Nay, only are there no proofs for the twelve tribes of Israel having ever existed, but Herodotus, the most accurate of historians, who was in Assyria when Erza flourished, never mentions the Israelites at all. How is this possible? - Madame Helena Blavatsky (The Secret Doctrine, vol 3)

"Nowhere in Torah (also called the Pentateuch, or the first five books of the Bible) is there any mention of Jerusalem let alone a temple anywhere in Jerusalem." - Stephen M. St. John

Many writers of this ear were not even aware of the existence of Judea. The Greek Historian Herodotus, painstakingly exact in his documentation of the nations and peoples of the known world, refers only to the Syrians of Palestine when he describes the area - Joseph Atwill (Cesar's Messiah)

Although the Tell-el-Amarna tablets give much information regarding Canaan at about the period of the Exodus, they make no allusions to the Jews in Egypt or to the great catastrophe caused by the events preceding their escape - Ernest Busenbark

We need to recognize that our understanding of Israel as a people and as a nation is unrelated to any known historical Israel. They created this 'Israel' not as it once existed in an earlier period, but in away that was meaningful to themselves - Thomas. L Thompson (The Mythic Past: Biblical Archaeology and the Myth of Israel)

Of course, there was an Israel! The name itself is used already at the close of the Late Bronze Age on an Egyptian monument to refer to the People of Canaan that Pharaoh Merenptah's military campaign into Palestine fought against. But this is not the Israel that the Bible deals with - Hyam Maccoby's The Mythmaker: Paul and the Invention of Christianity
While it is hard-won principle of Biblical archaeology that the historicity of ancient Biblical narratives about old Israel cannot be confirmed unless we have extra-Biblical confirmation, it is more likely to confirm the Bible’s literary and metaphorical tropes than to establish it as historical record—Thomas. L Thompson (The Mythic Past: Biblical Archaeology and the Myth of Israel)

Jerusalem’s history remains impossible to write. Although the Egyptian Amarna letters, which give us correspondences between Palestine’s petty princes and kings and the Egyptian Pharaoh of the late fourteenth an nearly thirteenth centuries, tell us much of about the town of Urusalim and about its patron and king, Abdi-Hepa, we know nothing about this town from archaeology. We are not even certain where it was located, though we have every reason to believe that it was Jerusalem. The Iron Age town of Jerusalem on Mount Ophel, which has been excavated by Kathleen Kenyon before the 1967 Israel-Arab war offered no significant remains from the Late Bronze Age—Thomas. L Thompson (The Mythic Past: Biblical Archaeology and the Myth of Israel)

Palestine never developed a political power of any great international significance. It was always so divided by its many small regions that it never developed a common history except when it was controlled by some power from outside, such as Egypt, Assyria and Babylonia. High culture, as expressed in art, architecture, literature and pageant, hardly existed. Most of what has survived is either foreign in origins or derivative from Phoenicia on the Syrian coast—Thomas. L Thompson (The Mythic Past: Biblical Archaeology and the Myth of Israel)

The annals of Pharaoh Ramesis II (the Great) make reference to Semitic people who settled in the delta region of Goshen, but this does not really help because they are not specified as Israelites, but included in the Arab races of Syria, Phoenicia, Mesopotamia and the Fertile Crescent in general—Laurence Gardner (Genesis of the Grail Kings)

Although the name Judea is a geographical term occurring in Assyrian period texts, referring to the highlands south of Jerusalem, in the Persian period the name is political. It is the name of the Persian province. The Assyrians’ name for the southern highlands, Jaudaa, and the Persians’ imperial name, Yehud, were no more reflective of a people than were any of the other names for regions of the empire. Moreover the geographical spread of people referred to as Yehudim is
so great that is would be rash to assume that this name refers to their place of origin. More should we continue to understand this term as ethnographic, without evidence--Thomas. L Thompson (The Mythic Past: Biblical Archaeology and the Myth of Israel)

One of the most striking and wonderful things about an "historian" like Josephus is that he knows almost nothing about "the past" that we ourselves do not already know from other sources. When an account he gives of a supposed event of two centuries earlier "confirms" something we can read in other works, it is only because he has copied or paraphrased it. Josephus has been well described as a person one wouldn't buy a used car from--Thomas. L Thompson (The Mythic Past: Biblical Archaeology and the Myth of Israel)

The earliest part of this period in the hill country has been traditionally presented as the "Golden Age" of ancient Egypt with its capital in Jerusalem. The era has been associated with the "United Monarchy" wielding the political power of a Saul, a David and a Solomon and controlling a land-bridge from the Nile to the Euphrates, concept of a temple built by Solomon as the center of worship of Yahweh. These images have no place in descriptions of the real historical past. We known them only as a story, and wheat we known about such stories does not encourage us to treat them as if they were or were ever meant to be historical. There is no evidence of a United Monarchy, no evidence of a capital at Jerusalem. We do not have evidence for the existence of kings named Saul, David or Solomon; nor do we have evidence for any temple at Jerusalem--Thomas. L Thompson (The Mythic Past: Biblical Archaeology and the Myth of Israel)

Megiddo, Gezer and Hazor and Jerusalem were in reality more like villages with small public buildings and poorly constructed dwellings with clay floors. The objects reveal a material culture, which, even by the standards of the ancient Near East, could not be judged sophisticated or luxurious. The "magnificence" of the age of Solomon is parochial and decidedly lackluster--professor James Pritchard (Solomon and Sheba)

As far as the Bible geography is concerned it appears that the main person responsible for its misinterpretation was Constantine the Great, who had definite motives for transferring the arena of Jewish history and that of Christ to another region altogether. He used Christianity as a valuable political
asset, selected the East as this Empire, and with the aid of Eusebius, Jerome and others, invented the present Palestine.

NOT A SINGLE INSCRIPTION HAS BEEN FOUND IN Palestine which can be identified with the Hebrew kingdom- H.D.DAUNT (The Center of Ancient Civilization)

The 12 tribes of Israel are taken from the celestial kingdom of the 12 constellations of the Zodiac, with the Sun as the ruler, hence the Lion of Judah rules the Lion[Leo] is the symbol of the Sun as its height of power as it journeys through the Zodiac.

Note on the Hyksos, a popular view is the Jews where descended from the Hyksos Sheppard kings, this claim more then naught originates with the Jewish propagandist Josephus and was an attempt to legitimize the fictional history of the Jews in his day:

In his Against Apion, the 1st-century CE historian Josephus Flavius debates the synchronism between the Biblical account of the Exodus of the Israelites from Egypt, and two Exodus-like events that the Egyptian historian Manetho apparently mentions. It is difficult to distinguish between what Manetho himself recounted, and how Josephus or Apion interpret him.

Josephus identifies the Israelite Exodus with the first exodus mentioned by Manetho, when some 480,000 Hyksos "shepherd kings" (also referred to as just 'shepherds', as 'kings' and as 'captive shepherds' in his discussion of Manetho) left Egypt for Jerusalem.[24] The mention of "Hyksos" identifies this first exodus with the Hyksos period (16th century BC).

One of the most striking and wonderful things about an "historian" like Josephus is that he knows almost nothing about "the past" that we ourselves do not already know from other sources. When an account he gives of a supposed event of two centuries earlier "confirms" something we can read in other works, it is only because he has copied or paraphrased it. Josephus has been well described as a person one wouldn't buy a used car from—Thomas. L Thompson(The Mythic Past: Biblical Archaeology and the Myth of Israel)

The Hyksos arose in a turbulent period in Egyptian history one theory handed
down is they invaded by force but this claim has fallen apart on new findings:

The ceramic evidence in the Memphis-Fayum region of Lower Egypt argues against the presence of new invading foreigners. Janine Bourriau's excavation in Memphis of ceramic material retrieved from Lisht and Dahshur during the Second Intermediate Period shows a continuity of Middle Kingdom ceramic type wares throughout this era. She finds in them no evidence of intrusion of Hyksos-style wares. Bourriau's evidence strongly suggests that the traditional Egyptian view, long espoused by Manetho, that the Hyksos invaded and sacked the Memphite region and imposed their authority there, is fictitious.

The German Egyptologist Wolfgang Helck once argued that the Hyksos were part of massive and widespread Hurrian and Indo-Aryan migrations into the Near East. According to Helck, the Hyksos were Hurrians and part of a Hurrian empire that, he claimed, extended over much of Western Asia at this period. Most scholars have rejected this theory and Helck himself has now abandoned this hypothesis in a 1993 article.

Egypt was divided into two lands upper and lower and scholar Peter Ellis states that Foreigner a term given to the Hyksos was the term applied to men of lower Egypt. The fact is the Hyksos where worshippers of the Egyptian God Set. Set was the dominate God of lower Egypt during this period. Set was a solar God and is among the crucified and resurrected saviors of the Pagan world. Another evidence shows Canaanite deities and worship around this time in the region. The constant terming of them as Asiatic is most likely a miss translation of Aamu, meaning Amorites who where described as Aryan in appearance and race.

Aamu was the contemporary term used to distinguish the people of Avaris, the Hyksos capital in Egypt, from Egyptians. Egyptologists conventionally translate aamu as "asiatics" The Jewish historian, Josephus, in his Contra Apionem, claims that Manetho was the first to use the Greek term, Hyksos, incorrectly translated as "shepherd-kings". Contemporary Egyptians during the Hyksos invasion designated them as hikau khausut, which meant "rulers of foreign countries",

The final clues as to their origin come from the latest finds in their capital Avaris:

Minoan Paintings in Avaris, Egypt
http://www.therafoundation.org/articles/art/minoanpaintingsinavarisegypt
"To the East of the platform were found numerous dumps of wall plaster with Minoan wall paintings, which are discussed below. Most probably they originate from this building."

"base of this tableau a half-rosette and triglyph frieze can be reconstructed, which should be seen as an emblem of the palace, most probably of the palace of Knossos itself."

As shown they was a major cultural similarly of the Minoans with the Egyptians, around this time the Minoans ruled one of the most powerful Empires in the Aegean and had bases in Palestine /Canaan as well. They had been Nubian dynasties in Egypt and there was obviously mass intermarriage with Egyptian Royals with Royals of other Empires such as the Hittite’s.etc We are probably simply looking another situation in which due to blood line connections a Minoan backed dynasty took control of a region, and displaced the weak Nubian one. This seems to be further evident when the Hyksos where driven out they left to major bases where the Minoans had imperial holdings in Canaan(which explains the Canaanite influence as well) and aboard.

The fact is the Hyksos where Gentile Royals[Priesthoods] who had extensive connections with the other Royal houses and bases across a larger area then Egypt. Part of the fighting between them and the rival Thebans was simply a replay of the old rivals between the two Kingdoms and the theocratic nature of the regions. And all this happened hundreds of years before any legitimate record of the Jews appears.

I also believe given the fact many of these Hyksos stayed in Egypt and where part of the dynasties that followed theirs shows the claims of the strife and bitter warfare of this period have been largely over dramatized in history, Tsarion states:

From an academic point of view, the Minoan civilization is considered the finest in Europe. It was sophisticated and an inspiration to many other races. The work of Butler and Dafoe reveals the Cretans to have been a technically advanced Western people. As we mention above, recent discoveries suggest the Cretans were
related biologically or, at least economically, with the Hyksos kings of Egypt. Artwork found in the Hyksos city of Avaris appears to be of Cretan artifice, and a few investigators believe trade took place between these peoples. Writers, such as Ralph Ellis, point to the fact that when the Minoan civilization was brought to an end by the devastating volcanic eruption on the nearby island of Thera, the Hyksos empire subsequently went into rapid decline. The search for a stronger relationship between the Hyksos of Egypt and the Cretans continues. Examples of Minoan merchandise have regularly turned up in various tombs in Egypt. They have been found in the Levant and, through the matter is somewhat contentious, Minoan-type jewelry and goldwork has even been found in the graves of Wessex Culture, a race living in what is now southern England at a time contemporary with Minoan Crete at its heyday. The Cretans established a chain of outposts throughout the Aegean and the Mediterranean...trade was probably on a fairly large scale. Soon after the takeover of Crete by the Mycenaeans of mainland Greece sometime around 1400 BC, there are records to indicate that the palace of Knossos alone was running over 50,000 sheep – Alan Butler & Stephen Dafoe (The Knights Templar Revealed)

...there is much on Crete from Minoan times to show the existence of a flourishing middle class which may have been partly made up of private merchants. Plush villas have been located, some very close to the many ports of the island, whilst in those places where everyday Minoan life is viewable, such as in the lava-buried settlement on Santorini, it appears that even the common folk of the Cretans lived a very comfortable life —

Another theory pushed by Jew Sigmund Freud was that Ahnkenton was Moses. As researcher John Kaminski states on the subject:

The man who invented psychology, Sigmund Freud, thought so highly of Akhnaton that he tried his best several times to attribute the Hebrew religion to this odd pharaoh's precepts, speculating in chapter after chapter how Moses might have interfaced with Akhnaton's idea that the Sun was the source of everything and all those other gods were simply not of the same all-encompassing magnitude. But in his last book, Moses and Monotheism (1939), Freud couldn't make the connection convincingly, and was left guessing because Egyptology was not sufficiently advanced in his time; plus, he didn't live long enough to learn that the Old Testament was a clumsy fiction of writers
fabricating a tradition out of ideas stolen from other Cultures

Freud's attempt to link Akhnaton and Moses failed not only timewise but by intent, as Akhnaton's god Aton was a pacificistic bestower of the gift of life on humanity, whereas Moses's dictatorial Yahweh—a or Jahve, as Freud called him was a violent volcano god more interested in scaring his flock into submission than in loving them or let's say, more interested in the profits than the promise.

Like Josephus his Jewish ancestor before him Freud is simply attempting to create another set of lies to attempt to give historical legitimacy to the Jews phony history. Further more we don't have an actual traceable record of Jews existing before around the mid part of the last millennium BCE. It appears the Jews created their core of their identity in Egypt at some point and moved outwards into the different major key networks of the ancient world. The one thing all these Jewish communities have in common from India, Africa, China etc is the Torah, meaning they most likely all came out of Egypt after creating this fake history. Graham Hancock mentions there is a record of a Jewish synagogue being demolished by the Priest of Sobek in Egypt around the mid 4th century BCE. This is one of the earliest actual records outside of the fictional accounts and dubious histories we get of them.

While the concept of the Messiah[meaning Chief Cornerstone/Capstone of the Pyramid] is Egyptian-Gentile in origin and deals with the Magnum Opus/Temple of Solomon. The Jews stole this concept and corrupted it just as they stole their identity from the Brotherhood of the Serpent centers in Egypt.

The fact is the Jews as mentioned simply dispersed in every direction to infest every major capital center in the ancient world and work to bring the Gentiles down and create the base of an international network of power and control, same as they do today. Their fictional history is designed to unite them [they created Israel today from myth making this belief/myth manifested more in reality] and create a powerful psychic intent to manifest there Messiah and Zion who shall unite the Diaspora, conqueror the world for Global Zion and rule from
his Golden Throne in Jerusalem. And have all Gentiles on there knees as servants and slaves. This is why the Jewish programs from Christianity to Islam all have the Messiah prophecy which they stole once again from the Gentiles. To create the intent and vortex of energy to manifest their Chief Corner Stone[meaning of Messiah] who shall be the capstone upon the pinnacle[the pinnacle is the place the capstone is laid on the Pyramid] of the Temple Of Solomon [The Jewish Race] and thus complete the Temple Of Solomon and bring the Jew World Order into full and absolute power. The Jews stated in their Protocol's this Messiah is the keystone[capstone] to their entire agenda.

The real Jewish Messiah is the Christ Character he has two faces one is Joshua[Yashua] the Torah Messiah who unites the 12 Tribes and conquerors the Gentiles and builds Zion. The second face is Joshua[Yausha] two for the Gentiles to be yoked unto the Jews and under their spell which uses Gentiles to bring about their own destruction and enslavement. While Yashua one binds the Jewish racial psyche together to manifest the same monster.

That is the cruel fact the Jews rub it right in our faces in the Bible especially in the New Testament in the parable of Jesus [Yashua/Joshua in Hebrew] standing on the pinnacle of the Temple dominating all the kingdoms of the world [showing him as the chief cornerstone of the Temple as the Lord of the Pyramid, the Messiah of the Jews, the Empire of the Jews manifested].

Behold, I lay in Zion a chief cornerstone, elect, precious, and he who believes on Him will by no means be put to shame" (1 Peter 2:6, NKJV).

The Apha and Omega represents the Chief Cornerstone:
Revelation 22:12 "And behold, I am coming quickly, and My reward is with Me, to give to every one according to his work. I am the Alpha and the Omega, the Beginning and the End, the First and the Last."

The biggest lie of the Jews is their own history.

The Jews are not as old as they claim. The only record of them shows they appear around 2500 to 2800 years ago. Not five thousand.

Subject: [JoS_Astrology] Age of Taurus & Judaism

Is it just a coincidence that the kikes who are known for their extreme greed and materialism had their religion begin in the age of Taurus the sign of wealth and money? Also Taurus rules tradition and convention and as we know they love to brag at how they're the only race to remain unassimilated throughout the centuries whilst all the others have gone. Just curious.

Also gene studies have debunked the Kazar theory which was promoted by Jews themselves at the time for misinformation reasons. Identical to Icke and the fake Jews Zionism, cover over fraud of now.

Judaism is like xianity its a rewrote mix of other religions, Brahmanism with Abraham [Brahma] Sara [Saraswati] and on. The Sumerian's with the Garden of Edin. Egypt in many places such as much of the Psalms and the creation epic. We have Moses being stolen form Bacchus-Osiris, minus the ten plagues on Egypt. Sampson is proven to have been stolen from Hercules. This title of Yaweh was in use before Judaism existed in some regions. This caused a national uproar in Germany when the Assyriologist gave his findings to the Kaiser in person on this. This was found before Judaism officially existed hence the revealed name to the Jewish patriarch is bullshit. They even lifted this name.

Much of Judaism is also from Canaan. The earliest image of the Jewish god Yaweh from 500 BC is stolen from the popular image of Zeus. Jehovah is stolen from Jove a title for Jupiter the Roman Zeus. The image found in the earliest known synagogue from 2000 years ago in Syria is Helios. And the first name of their god is EL or Elohim in their bible. There is some later Zoroastrianism influences as well. With Yahweh taking the place of Mazda. Elohim was originally a title of Osiris and of the Gods in Sumeria and elsewhere.

The Hyksos situation is also not the origin of the Jews nor the far East. I have looked this over and over along with Tsarion's works on the subject. The Hyksos arose in a period of the collapse of the pervious dynasty. This is also why some many items for other regions where found with the Hyksos. It was from the other parts of the Minoan Empire. These where blood lines all from a common Aryan source. And shared the same religion.

It seems the Jews came out of the ME, Canaan region and moved outwards in all directions. The region they started in was the key area between East and West. If you look on the Wheel of Fortune card. It states in one direction Tarot on the Wheel. And Torah in another direction.

We also have the fact gene studies on the Cohen gene. Trace them to the identical NE region.

The Jews Biggest Lie Looking at the major claimed history and historical figures of the Jews we can see the plain truth. Their entire history is false and story.

One of the shrines in the Kaaba was also dedicated to the Hindu Creator God, Brahma, which is why the illiterate prophet of Islam claimed it was dedicated to Abraham. The word "Abraham" is none other than
a malpronunciation of the word Brahma. This can be clearly proven if one investigates the root meanings of both words. Abraham is said to be one of the oldest Semitic prophets. His name is supposed to be derived
from the two Semitic words 'Ab' meaning 'Father' and 'Raam/Raham' meaning 'of the exalted.' In the book of Genesis, Abraham simply means 'Multitude.' The word Abraham is derived from the Sanskrit word Brahma. The root of Brahma
'Brah' which means - 'to grow or multiply in number.' In addition Lord Brahma, the Creator God of Hinduism is said to be the Father of all Men and Exalted of all the Gods, for it is
from him that all beings were generated. Thus again we come to the meaning 'Exalted Father.' This is a clear pointer that Abraham is none other than the heavenly father. Where does the term Hebrew actually come from?

modern finds would have been extensive as the population of the Saraswati area was into the millions. These people became migrants and refugees that moved out over the generations to new areas: About 1900 BC, the cult of
Brahm was carried to the Middle and Near East by several different Indian groups after a severe rainfall and earthquake tore Northern India apart, even changing the courses of the Indus and Saraisvati rivers. The classical geographer Strabo
tells us just how nearly complete the abandonment of Northwestern India was. "Aristobolus says that when he was sent upon a certain mission in India, he saw a country of more than a thousand cities, together with villages,
that had been deserted because the Indus had abandoned its proper bed."

(Strabo's Geography, XV.1.19.)

"The exodus of refugees out of ancient India did not occur all at once but over a period of one or more thousand

If all these refugee ruling peoples were exclusively of Indian heritage, why doesn't History mention them? Indeed they are mentioned as Kassites, Hittites, Syrians, Assyrians, Hurrians, Arameans, Mittanians, Amalekites, Aethiops (Atha-Yop), Phoenicians, Chaldeans, and many others.

Many of these peoples became free companies, workers and in some cases criminals and conquerors of new regions to settle in from
the early records on the subject, many such as the peoples mentioned above would conqueror their own kingdoms and empires. The Sumerian logogram SA.GAZ appears in texts from Southern Mesopotamia, dated from about 1850 BC, where it is
applied to small bands of soldiers, apparently mercenaries at the service of local city-states and being supplied with food or sheep. One of those texts uses the Akkadian cuneiform word Hapiri instead of the logogram; another described
them as "soldiers from the West". Their names are predominantly Akkadian; some are West Semitic, some unknown. Their origins, when recorded, are in local towns. A letter to an Old Assyrian merchant resident in Ali?ar requests his aid.
in freeing or ransoming some Hapiri, formerly attached to the palace of Shalahshuwe (as yet unidentified), now prisoners of the local authorities. The Tikunani Prism, dated from around 1550 BC, lists the names of 438 Habiru soldiers or
servants of king Tunip-Tessup of Tikunani, a small city-state in central Mesopotamia. The majority of these names are typically Hurrian, the rest are Semitic, one is Kassite. Another text from around 1500 BC describes the Hapiru.
as soldiers or laborers, organized into bands of various sizes commanded by SA.GAZ leaders: one band from Tapduwa has 15 soldiers, another from Sarkuhe has 29, and another from Alalakh has 1,436. The Hapiru where simply the ancient
equivalent of Cossacks. The truth is the title Hebrew [Ibaru] comes from Egypt. It was a title for a Solar Priest. Its no mistake the important Jewish pass over is stolen from the Egyptian festival of Easter.

Egyptian Amarna letters, which give us correspondences between Palestine's petty princes and kings and the Egyptian Pharaoh of the late fourteenth and dearly thirteenth centuries, tell us much of about the town of Urusalim and about its patron
and king, Abdi-Hepa, we know nothing about this town from archaeology. We are not even certain where it was located, though we have every reason to believe that it was Jerusalem. The Iron Age town of Jerusalem

never developed a political power of any great international significance. It was always so divided by its many small regions that it never developed a common historical identity. Bourriau's evidence strongly suggests that the traditional Egyptian view, long espoused by Manetho, that the Hyksos invaded and sacked the Memphite region in 1660 B.C., is incorrect. There is no evidence of a United Monarchy, no evidence of a capital at Jerusalem. We do not have evidence for the existence of kings named Saul, David or Solomon; nor do we have evidence for any temple before the time of Solomon. After the fall of the Kingdoms the site of the Temple and of the palace was abandoned. We have no evidence for the presence of any temple in Jerusalem in the 8th century B.C. or later. Megiddo, Gezer and Hazor and Jerusalem were in reality more like villages, with small public buildings and poorly constructed dwellings with clay floors. The objects reveal a material culture, which was neither advanced nor rich in precious materials. The discovery of new inscriptions is the key to the understanding of this period. Not a single inscription has been found in Palestine which can be identified with the Hebrew kingdom. H. D. Daunt (The Hebrew Kingdom ceramic type wares throughout this era. Another theory pushed by Jew Sigmund Freud was that Ahnkenton was Moses. As researcher John Kaminski states on the essay "Moses and Monotheism" (1939), Freud couldn't make the connection convincingly, and was left guessing because Egyptology was not sufficiently advanced in his time; plus, he didn't live long enough to learn that the Old Testament was a clumsy fiction of writers like Josephus his Jewish ancestor before him Freud is suggesting. Freud is suggesting that the Bible is a collection of stories, myths, and legends that have been passed down orally for generations and later written down. Another theory is that the Bible is based on the experiences and stories of ancient Near Eastern civilizations, such as Egypt and Mesopotamia. The Bull is a sacred animal. Methods of death & timing of death are almost always impossible to predict & can usually only be ascertained astrologically after death. The aspects involved are usually almost always very complex. However, there was one astrologer who predicted his own death accurately. (I forgot his name.) He waited to buy life insurance until he absolutely had to.

There was an illegal alien in Texas on death row in the 1990s whose sentence was commuted after DNA evidence proved his non-guilt. He went back to Mexico & died in an auto accident ...... on the day & approximate time he was scheduled for execution in Texas.
It is my personal belief that when one could die can occur multiple times in one's life. How you handle your life can sometimes dictate which time. Let's say you become an alcoholic. Then you could possibly die from complications of alcoholism at an earlier time than as if you had never become one in the first place.

It is also my belief that the universe will cooperate when a enough people come within close proximity of each other who have a potential for some "similar in nature type of event" could occur, such as say a tornado for example or say a building collapse, etc., etc., then the environment will cooperate .... somehow.

The Jews Biggest Lie

Looking at the major claimed history and historical figures of the Jews we can see the plain truth. Their entire history is false and stolen from Gentiles. The real foundation of their history rests upon two major characters Abraham and Moses.

The supposed Great Patriarch Abraham and his family the first "official" Jews in history, are in fact stolen from the ancient Hindu Trinity of Brahma, Vishnu and Siva, along with Saraswati:
Since Krishna was not born of man, he was not actually the earthly father of Brahma and Mahesh. Therefore, he himself was the protector (Tara) of Brahma. In Sanskrit, Tara means "savior; protector." It is a term generally used with the gods Rudra, Shiva, Vishnu and Brahma. Even our Old Testament says that the father (protector) of Abraham was Terah (Genesis 11:26.) The Bible tells us that Abraham and Sarah were half-siblings. (Genesis 12:19-20.). The Hindu holy books also tell us that a blood relationship existed between them. The Puranas relate Sarasvati to Brahma and Vishnu. Most frequently, she is associated with Brahma. Her connection with him dates earlier than to any other God. She is portrayed mostly as his wife and occasionally as his daughter. When Vishnu's popularity in India increased, myths relating Sarasvati to him appeared. (Ref: Sarasvati and the Gods; www.vishvarupa.com.) Therefore, Brahma or Vishnu would also have been the Tara (Terah) of Sarasvati because of her divine origins.

Brahm (Abraham) Sarasvati (Sarah)

Abraham or Brahma's home was the land of Haran (Genesis 1:4.) Haran was the coastal principality governed by Krishna. It was even named after him because Hara (Sun God) is another name of Krishna. Brahma/Abraham was 75 years old when he left Haran.

The Bible mentions Haran and Haryana. The Hindu holy books also say that Brahma/Abraham lived in Ur of the Chaldees. Ur was a Sumerian name for "town; city." Chaldee (pronounced Kaldee) derives from the Sanskrit Kaul, a Brahman caste, and Deva (demi-god). The North Indian Kauldevas worshiped idols representing their ancestors. According to the Hindus, Brahma married Sarasvati in Chaldea, the part that is now Afghanistan.

In Hindu mythology, Sarai-Svati is Brahm's sister. The bible gives two stories of Abraham. In this first version, Abraham told Pharaoh that he was lying when he introduced Sarai as his sister. In the second version, he also told the king of Gerar that Sarai was really his sister. However, when the king scolded him for lying, Abraham said that Sarai was in reality both his wife and his sister! "...and yet indeed she is my sister; she is the daughter of my father, but not the daughter of my mother; and she became my wife." (Genesis 20:12.)
But the anomalies don't end here. In India, a tributary of the river Saraisvati is Ghaggar. Another tributary of the same river is Hakra. According to Jewish traditions, Hagar was Sarai's maidservant; the Moslems say she was an Egyptian princess. Notice the similarities of Ghaggar, Hakra and Hagar.

The bible also states that Ishmael, son of Hagar, and his descendants lived in India. "...Ishmael breathed his last and died, and was gathered to his kin... They dwelt from Havilah (India), by Shur, which is close to Egypt, all the way to Asshur."
(Genesis 25:17-18.) It is an interesting fact that the names of Isaac and Ishmael are derive from Sanskrit: (Hebrew) Ishaak = (Sanskrit) Ishakhu = "Friend of Shiva." (Hebrew) Ishmael = (Sanskrit) Ish-Mahal = "Great Shiva."-Matlock

Lingam worship in the Bible:
In the 28th chapter of Genesis Jacob, after having a dream about a 'ladder' reaching up to heaven with angels 'limbing' it and God standing at the top(12), erects a 'pillar' with the stone he was using for a pillow and concerates it with oil (18). He calls the place Beit-El ('Bethel' in english, which means 'House of God') (19). He says that the stone pillar itself was "God's house" (22). And he later, in chapter 35 v14, erects another one on the road from Paddan-Aram.

The worship of Brahma was also in the Near Eastern World:
"About 1900 BC, the cult of Brahm was carried to the Middle and Near East by several different Indian groups after a severe rainfall and earthquake tore Northern India apart, even changing the courses of the Indus and Saraisvati rivers."

"...the Temple of Mecca was founded by a colony of Brahmins from India. it was a sacred place before the time of Mohamed, and they were permitted to make pilgrimages to it for several centuries after his time. Its great celebrity as a sacred place long before the time of the prophet cannot be doubted."
(Anacalypsis, Vol. I, p. 421.)

"...the city of Mecca is said by the Brahmins, on the authority of their old books, to have been built by a colony from India; and its inhabitants from the
earliest era have had a tradition that it was built by Ishmael, the son of Agar. This town, in the Indus language, would be called Ishmaelistan." (Ibid, p. 424.)

Before Mohammed's time, The Hinduism of the Arab peoples was called Tsaba. Tsaba or Saba is a Sanskrit word, meaning "Assembly of the Gods ". Tsaba was also called Isha-ayalam (Shiva's Temple). The term Moslem or Moshe-ayalam (Shiva's Temple) is just another name of Sabaism.-Matlock

The facts on Mohammed fictional existence:

Indeed they are mentioned as Kassites, Hittites, Syrians, Assyrians, Hurrians, Arameans, Mitannians, Amalekites, Aethiops (Atha-Yop), Phoenicians, Chaldeans, and many others. But we have been wrongly taught to regard them as ethnicities indigenous to Western Asia."- Matlock

Many of these peoples became free companies, workers and in some cases criminals and conquerors of new regions to settle in from the early records on the subject, many such as the peoples mentioned above would conqueror their own kingdoms and empires.

The Sumerian logogram SA.GAZ appears in texts from Southern Mesopotamia, dated from about 1850 BC, where it is applied to small bands of soldiers, apparently mercenaries at the service of local city-states and being supplied with food or sheep. One of those texts uses the Akkadian cuneiform word Hapiri instead of the logogram; another described them as "soldiers from the West". Their names are predominantly Akkadian; some are West Semitic, some unknown. Their origins, when recorded, are in local towns.

A letter to an Old Assyrian merchant resident in Ali?ar requests his aid in freeing or ransoming some Hapiri, formerly attached to the palace of Shalahshuwe (as yet unidentified), now prisoners of the local authorities.

The Tikunani Prism, dated from around 1550 BC, lists the names of 438 Habiru soldiers or servants of king Tunip-Tessup of Tikunani, a small city-state in central Mesopotamia. The majority of these names are typically Hurrian, the rest are Semitic, one is Kassite.

Another text from around 1500 BC describes the Hapiru as soldiers or laborers, organized into bands of various sizes commanded by SA.GAZ leaders: one band from Tapduwa has 15 soldiers, another from Sarkuhe has 29, and another from Alalakh has 1,436.

The Hapiru where simply the ancient equivalent of Cossacks. The truth is the title Hebrew [Ibaru] comes from Egypt it was a title for a Solar Priest. Its no mistake the important Jewish pass over is stolen from the Egyptian festival of
Easter. A solar custom of Egypt.

"The priests of the Mysteries were symbolized as a serpent, sometimes called Hydra...The Serpent Kings reigned over the earth. It was these Serpent Kings who founded the Mystery schools which later appeared as the Egyptian and Brahmin Mysteries...

...The serpent was their symbol...They were the true Sons of Light, and from them have descended a long line of adepts and initiates."

- Hall

"The Apiru or Hapiru were not the same people as the Hebrews (Aryan) Magi had journeyed far and wide and established mystery schools throughout the world. The early Egyptians knew them as the Shemsu Hor "Disciples of Horus." The Shemsu Hor were counselors to, and perhaps even initiators of the pharaohs of Egypt." -Tsarion

"The word Hebrew can also be traced to the Gaelic Heber meaning "fire" or "sun" A "Hebrew" (Ibaru) was a priest of the sun."

"Cohen, the Jewish name for priest, comes from Cahen, the Egyptian pronunciation for a priest and a prince. Even circumcision, that uniquely 'Jewish' tradition, came from the Egyptian mystery schools and was performed at least as far back as 4,000 BC. You could not be initiated unless you were circumcised. The Hebrew religion did not exist in Egypt and there was no Hebrew law because there was no Hebrew 'race'. The only worship was Egyptian worship"

The High Priest of the Levities breast plate and all is nothing more then a stolen image of a Ibaru leader from Egypt.

This leads us to the next major claimed character of the Jewish "historical record" Moses:

Like that of Osiris, the story of Dionysus includes his own mythical conquest of India. Dionysus is not only Osiris but also the counterpart of Moses: "That the god Bacchus was the archetype of Moses seems to have been the opinion of many learned men, particularly the celebrated Bishop of Huet, and I Vossius, who agree that the Arabian name of Bacchus is Meses."
Biblical scholarship and archaeology have basically proved that the Pentateuch, or first five books of the Bible, were not composed by the great lawgiver Moses himself. In the Bible Unearthed, archaeologist Israel Finkelstien demonstrates that much biblical composition was done from the 8th century BCE onward. Even in ancient times it was recognized that Moses did not compose the Pentateuch.

According to the myth, the Jews at the time of the Exodus celebrated the feat of the Lamb, which refers to the Age of Aries. In the Dionysian myth, the sacred Lamb or Ram provides water to Dionysus's army in the middle of the desert, the water-in-the-desert motif also being in the Moses myth. Like Dionysus and Amon, Moses is depicted wearing ram's horns.

Another tale that found its way into the Bible is that of Bacchus's miracle of stopping the motion of the sun and moon, replayed in the story of Joshua.

It is related in the hymns of Orpheus, that Bacchus had a rod with which he performed miracles, and which he could change into a serpent at his pleasure. He passed the Red Sea, dry shod, at the head of his army. He divided the waters of the rivers Orontes and Hydaspus by the touch of his rod, and passed through them dry-shod. By the same mighty wand, he drew water from a rock, and wherever they marched, the land flowed with wine, milk and honey.

Bacchus, was called the "Law-giver, and it was said of Bacchus," as well of Moses, that his laws were written on two tables of stone. Bacchus was represented horned, and so was Moses. Bacchus was picked up in a box that floated on the water, and so was Moses. Bacchus had two mothers, one by nature, and one by adoption, so had Moses. Bacchus and his army enjoyed the light of the sun at night, Moses and his army a pillar of fire by night.

Moses being called the Law-giver and the laws being written on two tablets of stone, were obviously copied from Bacchus, but the idea of his (Moses) receiving the commandments from the Lord on a mountain was undoubtedly taken from the Persian legend of Zoroaster.

"In his gentler (Dionysus) aspects he is a lawgiver."

It is also well known now by Egyptologists that the Ten Commandments are stolen from the 42 negative confessions from the Egyptian Book Of The Dead.

It seems apparent that the Israelite conquest of "The Holy Land" was
taken from Dionysus mythical conquests, they just changed the direction as a whole.

This leads into the next connection with Egypt and the Brotherhood of the Serpent centers again as Dionysus another form or alias of the Egyptian God Osiris:

Herodotus compared the Greek god Dionysus and the Egyptian god Osiris as long ago as the fifth century B.C. and found them to be nearly equal in all their mythology characteristics and virtues. Pausanias, Description of Greece 10. 29. 4 (trans. Jones) (Greek travelogue C2nd A.D.):

"Both the Greeks and the Egyptians have many legends about Dionysos."

Like his alter ego Osiris, Dionysus, the most popular god in the Roman Empire, was considered an immensely old deity, according to Herodotus who imparted that, even though he was on of the "youngest" gods, Dionysus supposedly appeared "15,000 years before Amasis" (Ahmose.fl. 1550 BCE).- Murdock

The Egyptians, reports Herodotus, claimed to be "quite certain of this dates." Having kept careful records. The assertion that Dionysus/Bacchus's presence on Crete, where he was said to have been born, extends back even further, as his epithet "Iakchos" is found at the palace at Knossos, with an apparent Egyptian connection."

In Avaris archaeologist have found Cretan motifs on the walls only found appearing previous on the walls of the palace in Knossos in ancient Crete. Both Osiris followers of Egypt and Cretans held the Bull sacred. The Cretan culture was identical to the Egyptian one even being ruled by a Priest King along with Serpent Brotherhoods the Kaberoi.

Dionysus was born on December 25th, the same as Osiris' "like Osiris, Dionysus was torn into 14 pieces, and also like Osiris, Dionysus was considered both the son and father of Zeus, according to an Orphic verse"-Murdock

"Osiris who was the "first to drink wine" and who taught mankind about the vine, according to Plutarch-is referred to as the "Lord of Wine in the festival." Dionysus was the great Olympian god of wine, vegetation, pleasure and festivity."- Murdock
Dionysus was also the Lord of Whine.

The staff of Osiris and the thyrsos of Dionysus are identical in appearance both being pine-cone tipped.

With such antiquity also came an enormous territory, as Dionysus was much beloved in a widespread area from Egypt to Greece to Macedonian, the Near East and beyond.-Murdock

We can also see in the creation of the religion of Serapis created by the Greek pharaoh Ptolemy I. The later fusion of Osiris with an Hellenic guise. Which demonstrates the same God can be worshipped by two peoples.

The rites of Eleusinians where Dionysian in nature And Dionysus as shown was also worshipped as Osiris in Egypt. By examination of the Eleusinian rites and ranks we are seeing a window into the Brotherhood Of The Serpent centers in Memphis Heliopolis[ called ON meaning Sun in Egyptian] and Avaris in Egypt. This is the actual reason Avaris was known in the ancient description as the "City of the Hebrews" because it was a major seat of the Egypt Priesthood of the Ibaru. Avaris was also called Zaon {Zion} and had a Royal Court called the Levities there.

"Reverend Taylor discovered the truth when he studied the Eleusinian Tradition of Greece, which dates back to before 1500 years BCE. He lays out the schemata for the ritual and dramatic performances customary to the Eleusinians:

Eleusis- The Beginning or Opening
Hierophant- The Magus Overseeing the Rites
Hupereet-Ordinary Priest, or Minister
Diaconos-A Deacon, or lower Officer
Diadochos-Torch-Bearer
Photagogue-Bringer and Wielder of Light
Autoptos-Candidate Witnessing the Rite
Autopsy-The Act of Witnessing of Seeing
Hebrew-The Initiated One (who has passed through all trials and been purified)
Teleios-The Perfected Adept
Israelite-The Purified, God-Inspired Adept (the "God Seer")
Jew-God Himself. The State of Perfection. Man as Enlightened Being."

-Tsarion

"The ancient terms Israelite and Ibaru (Hebrew) referred to high ranking, spiritually endowed Egyptians and their ancestors." Israelite also comes from "worshipper of Essa or Essaite" Essa, Esus. Etc Are all ancient titles for the Sun Gods, The Phoenician God Saturn was also called Israel, Saturn was a Sun God in the aspect of the period of the sun before its death and rebirth on the Winter Solstice hence the Winter Solstice festival of Saturnia in ancient Rome.

Yahweh is originally an ancient name for the sun concept, the Egyptians had a title for a solar deity called Yahu/yahew, the Persians word for sun was yawnah the Phoenicians had yahwe and the Syrians Yaw. Origins of this can be traced in the Veda with the title Yahva...etc Even the term "Ad-ON-i" is Egypt in origin.

The five books of the Jewish Torah is stolen and corrupted from the five suits of the Tarot, Tarot means "Royal Road" in ancient Egyptian, the name signifies the kundalini Serpent ascension up the spine. The Kabala was also stolen from Egypt KA BA ANKH = "Kabalah:

The Temple of Sol-om-on was stolen from Egypt. It's the temple of the soul and its most ancient symbol is the Pyramid and the capstone. It represents the Godhead. Once again we are looking at another literalized fictional event, taken and corrupted from a spiritual concept nothing more:

The PYRAMID is symbolic of the shape of the human chakra. The missing capstone represents the unfinished work and the ALL-SEEING EYE represents the gnosis and all-knowing when one reaches the godhead. This state is also known as "SAMADI" or "SUPER CONSCIOUSNESS." The photo at left was taken from the US One Dollar Bill. The United States, government and all, was founded upon Masonic principles and is not Christian by any stretch of the imagination.

The Benben stone in Egypt represented as a pyramid shaped stone and the dwelling place of the sun god with its association with the Bennu bird (also Benu bird). The Benu bird is the Egyptian name for the Phoenix. The Benben stone represents the Temple Of Solomon.

The Jews simply stole the core of their identity from the Gentile Brotherhood Of the Serpent and their orders in Egypt. Which was one of the major Serpent centers in the ancient world.

They was no exodus and no Biblical homeland in the Canaanite lands:

"Nay, only are there no proofs for the twelve tribes of Israel having ever existed, but Herodotus, the most accurate of historians, who was in Assyria when Erza flourished, never mentions the Israelites at all. How is this possible? - Madame Helena Blavatsky (The Secret Doctrine, vol 3)

"Nowhere in Torah (also called the Pentateuch, or the first five books of the Bible) is there any mention of Jerusalem let alone a temple anywhere in Jerusalem." - Stephen M. St. John

Many writers of this era were not even aware of the existence of Judea. The Greek Historian Herodotus, painstakingly exact in his documentation of the nations and peoples of the known world, refers only to the Syrians of Palestine when he describes the area - Joseph Atwill (Cesar's Messiah)

Although the Tell-el-Amarna tablets give much information regarding Canaan at about the period of the Exodus, they make no allusions to the Jews in Egypt or to the great catastrophe caused by the events preceding their escape - Ernest Busenbark

We need to recognize that our understanding of Israel as a people and as a nation is unrelated to any known historical Israel. They created this `Israel' not as it once existed in an earlier period, but in away that was meaningful to themselves - Thomas L. Thompson (The Mythic Past: Biblical Archaeology and the Myth of Israel)

Of course, there was an Israel! The name itself is used already at the close of the Late Bronze Age on an Egyptian monument to refer to the People of Canaan that Pharaoh Merenptah's military campaign into Palestine fought against. But
this is not the Israel that the Bible deals with-Hyam Maccoby’s The Mythmaker: Paul and the Invention of Christianity

While it is hard-won principle of Biblical archaeology that the historicity of ancient Biblical narratives about old Israel cannot be confirmed unless we have extra-Biblical confirmation, it is more likely to confirm the Bible's literary and metaphorical tropes than to establish it as historical record--Thomas. L Thompson(The Mythic Past: Biblical Archaeology and the Myth of Israel)

Jerusalem’s history remains impossible to write. Although the Egyptian Amarna letters, which give us correspondences between Palestine's petty princes and kings and the Egyptian Pharaoh of the late fourteenth an early thirteenth centuries, tell us much of about the town of Urusalim and about its patron and king, Abdi-Hepa, we know nothing about this town from archaeology. We are not even certain where it was located, though we have every reason to believe that it was Jerusalem. The Iron Age town of Jerusalem on Mount Ophel, which has been excavated by Kathleen Kenyon before the 1967 Israel-Arab war offered no significant remains from the Late Bronze Age-Thomas. L Thompson(The Mythic Past: Biblical Archaeology and the Myth of Israel)

Palestine never developed a political power of any great international significance. It was always so divided by its many small regions that it never developed a common history except when it was controlled by some power from outside, such as Egypt, Assyria and Babylonia. High culture, as expressed in art, architecture, literature and pageant, hardly existed. Most of what has survived is either foreign in origins or derivative from Phoenicia on the Syrian coast-Thomas. L Thompson(The Mythic Past: Biblical Archaeology and the Myth of Israel)

The annals of Pharaoh Ramesis II (the Great) make reference to Semitic people who settled in the delta region of Goshen, but this does not really help because they are not specified as Israelites, but included in the Arab races of Syria, Phoenicia, Mesopotamia and the Fertile Crescent in general-Laurence Gardner (Genesis of the Grail Kings)

Although the name Judea is a geographical term occurring in Assyrian period texts, referring to the highlands south of Jerusalem, in the Persian period the name is political. It is the name of the Persian province. The Assyrians’ name
for the southern highlands, Jaudaa, and the Persians' imperial name, Yehud, were no more reflective of a people than were any of the other names for regions of the empire. Moreover the geographical spread of people referred to as Yehudim is so great that it would be rash to assume that this name refers to their place of origin. More should we continue to understand this term as ethnographic, without evidence—Thomas L. Thompson (The Mythic Past: Biblical Archaeology and the Myth of Israel).

One of the most striking and wonderful things about an "historian" like Josephus is that he knows almost nothing about "the past" that we ourselves do not already know from other sources. When an account he gives of a supposed event of two centuries earlier "confirms" something we can read in other works, it is only because he has copied or paraphrased it. Josephus has been well described as a person one wouldn't buy a used car from—Thomas L. Thompson (The Mythic Past: Biblical Archaeology and the Myth of Israel).

The earliest part of this period in the hill country has been traditionally presented as the "Golden Age" of ancient Egypt with its capital in Jerusalem. The era has been associated with the "United Monarchy" wielding the political power of a Saul, a David and a Solomon and controlling a land-bridge from the Nile to the Euphrates, concept of a temple built by Solomon as the center of worship of Yahweh. These images have no place in descriptions of the real historical past. We known them only as a story, and what we known about such stories does not encourage us to treat them as if they were or were ever meant to be historical. There is no evidence of a United Monarchy, no evidence of a capital at Jerusalem. We do not have evidence for the existence of kings named Saul, David or Solomon; nor do we have evidence for any temple at Jerusalem—Thomas L. Thompson (The Mythic Past: Biblical Archaeology and the Myth of Israel).

Megiddo, Gezer and Hazor and Jerusalem were in reality more like villages with small public buildings and poorly constructed dwellings with clay floors. The objects reveal a material culture, which, even by the standards of the ancient Near East, could not be judged sophisticated or luxurious. The `magnificence' of the age of Solomon is parochial and decidedly lackluster—professor James Pritchard (Solomon and Sheba).

As far as the Bible geography is concerned it appears that the main person
responsible for its misinterpretation was Constantine the Great, who had definite motives for transferring the arena of Jewish history and that of Christ to another region altogether. He used Christianity as a valuable political asset, selected the East as this Empire, and with the aid of Eusebius, Jerome and others, invented the present Palestine.

NOT A SINGLE INSCRIPTION HAS BEEN FOUND IN Palestine which can be identified with the Hebrew kingdom- H.D.DAUNT (The Center of Ancient Civilization)

The 12 tribes of Israel are taken from the celestial kingdom of the 12 constellations of the Zodiac, with the Sun as the ruler, hence the Lion of Judah rules the Lion[Leo] is the symbol of the sun as its height of power as it journeys thought the Zodiac.

Note on the Hyksos, a popular view is the Jews where descended from the Hyksos Sheppard kings, this claim more then naught originates with the Jewish propagandist Josephus and was an attempt to legitimize the fictional history of the Jews in his day:

In his Against Apion, the 1st-century CE historian Josephus Flavius debates the synchronism between the Biblical account of the Exodus of the Israelites from Egypt, and two Exodus-like events that the Egyptian historian Manetho apparently mentions. It is difficult to distinguish between what Manetho himself recounted, and how Josephus or Apion interpret him.

Josephus identifies the Israelite Exodus with the first exodus mentioned by Manetho, when some 480,000 Hyksos "shepherd kings" (also referred to as just 'shepherds', as 'kings' and as 'captive shepherds' in his discussion of Manetho) left Egypt for Jerusalem.[24] The mention of "Hyksos" identifies this first exodus with the Hyksos period (16th century BC).

One of the most striking and wonderful things about an "historian" like Josephus is that he knows almost nothing about "the past" that we ourselves do not already know from other sources. When an account he gives of a supposed event of two centuries earlier "confirms" something we can read in other works, it is only because he has copied or paraphrased it. Josephus has been well described as a person one wouldn't buy a used car from--Thomas. L Thompson(The Mythic
The Hyksos arose in a turbulent period in Egyptian history one theory handed down is they invaded by force but this claim has fallen apart on new findings:

The ceramic evidence in the Memphis-Fayum region of Lower Egypt argues against the presence of new invading foreigners. Janine Bourriau's excavation in Memphis of ceramic material retrieved from Lisht and Dahshur during the Second Intermediate Period shows a continuity of Middle Kingdom ceramic type wares throughout this era. She finds in them no evidence of intrusion of Hyksos-style wares.[16] Bourriau's evidence strongly suggests that the traditional Egyptian view, long espoused by Manetho, that the Hyksos invaded and sacked the Memphite region and imposed their authority there, is fictitious.

The German Egyptologist Wolfgang Helck once argued that the Hyksos were part of massive and widespread Hurrian and Indo-Aryan migrations into the Near East. According to Helck, the Hyksos were Hurrians and part of a Hurrian empire that, he claimed, extended over much of Western Asia at this period. Most scholars have rejected this theory and Helck himself has now abandoned this hypothesis in a 1993 article.[23]

Egypt was divided into two lands upper and lower and scholar Peter Ellis states that Foreigner a term given to the Hyksos was the term applied to men of lower Egypt. The fact is the Hyksos where worshippers of the Egyptian God Set. Set was the dominate God of lower Egypt during this period. Set was a solar God and is among the crucified and resurrected saviors of the Pagan world. Another evidence shows Canaanite deities and worship around this time in the region. The constant terming of them as Asiatic is most likely a miss translation of Aamu, meaning Amorites who where described as Aryan in appearance and race.

Aamu was the contemporary term used to distinguish the people of Avaris, the Hyksos capital in Egypt, from Egyptians. Egyptologists conventionally translate aamu as "asiatics" The Jewish historian, Josephus, in his Contra Apionem, claims that Manetho was the first to use the Greek term, Hyksos, incorrectly translated as "shepherd-kings". Contemporary Egyptians during the Hyksos invasion designated them as hikau khausut, which meant "rulers of foreign countries".

The final clues as to their origin come from the latest finds in their capital Avaris:
Minoan Paintings in Avaris, Egypt
http://www.therafoundation.org/articles/art/minoanpaintingsinavarisegypt

"To the East of the platform were found numerous dumps of wall plaster with Minoan wall paintings, which are discussed below. Most probably they originate from this building."

"base of this tableau a half-rosette and triglyph frieze can be reconstructed, which should be seen as an emblem of the palace, most probably of the palace of Knossos itself."

As shown they was a major cultural similarly of the Minoans with the Egyptians, around this time the Minoans ruled one of the most powerful Empires in the Aegean and had bases in Palestine /Canaan as well. They had been Nubian dynasties in Egypt and there was obviously mass intermarriage with Egyptian Royals with Royals of other Empires such as the Hittite’s.etc We are probably simply looking another situation in which due to blood line connections a Minoan backed dynasty took control of a region, and displaced the weak Nubian one. This seems to be further evident when the Hyksos where driven out they left to major bases where the Minoans had imperial holdings in Canaan(which explains the Canaanite influence as well) and aboard.

The fact is the Hyksos where Gentile Royals[Priesthoods] who had extensive connections with the other Royal houses and bases across a larger area then Egypt. Part of the fighting between them and the rival Thebans was simply a replay of the old rivals between the two Kingdoms and the theocratic nature of the regions. And all this happened hundreds of years before any legitimate record of the Jews appears.

I also believe given the fact many of these Hyksos stayed in Egypt and where part of the dynasties that followed theirs shows the claims of the strife and bitter warfare of this period have been largely over dramatized in history, Tsarion states:

From an academic point of view, the Minoan civilization is considered the finest
in Europe. It was sophisticated and an inspiration to many other races. The work of Butler and Dafoe reveals the Cretans to have been a technically advanced Western people. As we mention above, recent discoveries suggest the Cretans were related biologically or, at least economically, with the Hyksos kings of Egypt. Artwork found in the Hyksos city of Avaris appears to be of Cretan artifice, and a few investigators believe trade took place between these peoples. Writers, such as Ralph Ellis, point to the fact that when the Minoan civilization was brought to an end by the devastating volcanic eruption on the nearby island of Thera, the Hyksos empire subsequently went into rapid decline. The search for a stronger relationship between the Hyksos of Egypt and the Cretans continues. Examples of Minoan merchandise have regularly turned up in various tombs in Egypt. They have been found in the Levant and, through the matter is somewhat contentious, Minoan-type jewelry and goldwork has even been found in the graves of Wessex Culture, a race living in what is now southern England at a time contemporary with Minoan Crete at its heyday. The Cretans established a chain of outposts throughout the Aegean and the Mediterranean...trade was probably on a fairly large scale. Soon after the takeover of Crete by the Mycenaean of mainland Greece sometime around 1400 BC, there are records to indicate that the palace of Knossos alone was running over 50,000 sheep - Alan Butler & Stephen Dafoe (The Knights Templar Revealed)

...there is much on Crete from Minoan times to show the existence of a flourishing middle class which may have been partly made up of private merchants. Plush villas have been located, some very close to the many ports of the island, whilst in those places where everyday Minoan life is viewable, such as in the lava-buried settlement on Santorini, it appears that even the common folk of the Cretans lived a very comfortable life ibid.

Another theory pushed by Jew Sigmund Freud was that Ahnkenton was Moses. As researcher John Kaminski states on the subject:

The man who invented psychology, Sigmund Freud, thought so highly of Akhnaton that he tried his best several times to attribute the Hebrew religion to this odd pharaoh’s precepts, speculating in chapter after chapter how Moses might have interfaced with Akhnaton’s idea that the Sun was the source of everything and all those other gods were simply not of the same all-encompassing magnitude. But in his last book, Moses and Monotheism (1939), Freud couldn’t make the connection
convincingly, and was left guessing because Egyptology was not sufficiently advanced in his time; plus, he didn't live long enough to learn that the Old Testament was a clumsy fiction of writers fabricating a tradition out of ideas stolen from other Cultures.

Freud's attempt to link Akhnaton and Moses failed not only timewise but by intent, as Akhnaton's god Aton was a pacifistic bestower of the gift of life on humanity, whereas Moses's dictatorial Yahweh É or Jahve, as Freud called him É was a violent volcano god more interested in scaring his flock into submission than in loving them É or let's say, more interested in the profits than the promise.

Like Josephus his Jewish ancestor before him Freud is simply attempting to create another set of lies to attempt to give historical legitimacy to the Jews phony history. Further more we don't have an actual traceable record of Jews existing before around the mid part of the last millennium BCE. It appears the Jews created their core of their identity in Egypt at some point and moved outwards into the different major key networks of the ancient world. The one thing all these Jewish communities have in common from India, Africa, China etc is the Torah, meaning they most likely all came out of Egypt after creating this fake history. Graham Hancock mentions there is a record of a Jewish synagogue being demolished by the Priest of Sobek in Egypt around the mid 4th century BCE. This is one of the earliest actual records outside of the fictional accounts and dubious histories we get of them.

While the concept of the Messiah[meaning Chief Cornerstone/Capstone of the Pyramid] is Egyptian-Gentile in origin and deals with the Magnum Opus/Temple of Solomon. The Jews stole this concept and corrupted it just as they stole their identity from the Brotherhood of the Serpent centers in Egypt.

The fact is the Jews as mentioned simply dispersed in every direction to infest every major capital center in the ancient world and work to bring the Gentiles down and create the base of an international network of power and control, same as they do today. Their fictional history is designed to unite them [they
created Israel today from myth making this belief/myth manifested more in reality] and create a powerful psychic intent to manifest there Messiah and Zion who shall unite the Diaspora, conqueror the world for Global Zion and rule from his Golden Throne in Jerusalem. And have all Gentiles on there knees as servants and slaves. This is why the Jewish programs from Christianity to Islam all have the Messiah prophecy which they stole once again from the Gentiles. To create the intent and vortex of energy to manifest their Chief Corner Stone[meaning of Messiah] who shall be the capstone upon the pinnacle[the pinnacle is the place the capstone is laid on the Pyramid] of the Temple Of Solomon [The Jewish Race] and thus complete the Temple Of Solomon and bring the Jew World Order into full and absolute power. The Jews stated in their Protocol's this Messiah is the keystone[capstone] to their entire agenda.

The real Jewish Messiah is the Christ Character he has two faces one is Joshua[Yashua] the Torah Messiah who unites the 12 Tribes and conquerors the Gentiles and builds Zion. The second face is Joshua[Yausha] two for the Gentiles to be yoked unto the Jews and under their spell which uses Gentiles to bring about their own destruction and enslavement. While Yashua one binds the Jewish racial psyche together to manifest the same monster.

That is the cruel fact the Jews rub it right in our faces in the Bible especially in the New Testament in the parable of Jesus [Yashua/Joshua in Hebrew] standing on the pinnacle of the Temple dominating all the kingdoms of the world [showing him as the chief cornerstone of the Temple as the Lord of the Pyramid, the Messiah of the Jews, the Empire of the Jews manifested].

Behold, I lay in Zion a chief cornerstone, elect, precious, and he who believes on Him will by no means be put to shame" (1 Peter 2:6, NKJV).

The Apha and Omega represents the Chief Cornerstone: Revelation 22:12 "And behold, I am coming quickly, and My reward is with Me, to give to every one according to his work. I am the Alpha and the Omega, the Beginning and the End, the First and the Last."

The biggest lie of the Jews is their own history.

Is it just a coincidence that the kikes who are known for their extreme greed and materialism had their religion begin in the age of Taurus the sign of wealth and money? Also Taurus rules tradition and convention and as we know they love to brag at how they’re the only race to remain unassimilated throughout the centuries whilst all the others have gone. Just curious.

Judaism is like xianity its a rewrote mix of other religions, Brahmanism with Abraham [Brahma] Sara [Saraswati] and on. The Sumerian's with the Garden of Edin. Egypt in many places such as much of the Psalms and the creation epic. We have Moses being stolen form Bacchus-Osiris, minus the ten plagues on Egypt. Sampson is proven to have been stolen from Hercules. This title of Yaweh was in use before Judaism existed in some regions. This caused a national uproar in Germany when the Assyriologist gave his findings to the Kaiser in person on this. This was found before Judaism officially existed hence the revealed name to the Jewish patriarch is bullshit. They even lifted this name.
Much of Judaism is also from Canaan. The earliest image of the Jewish god Yaweh from 500 BC is stolen from the popular image of Zeus. Jehovah is stolen from Jove a title for Jupiter the Roman Zeus. The image found in the earliest known synagogue from 2000 years ago in Syria is Helios. And the first name of their god is EL or Elohim in their bible. There is some later Zoroastrianism influences as well. With Yahweh taking the place of Mazda.

Elohim was originally a title of Osiris and of the Gods in Sumeria and elsewhere.

The Hyksos situation is also not the origin of the Jews nor the far East. I have looked this over and over along with Tsarion's works on the subject. The Hyksos where a Gentile dynasty that source of power was in the Minoan Empire. The court of the Hyksos capital was found its identical to the imperial place of Knossos in Crete. Many of the Hyksos dynasty where married into the conquering faction. The Hyksos arose in a period of the collapse of the pervious dynasty. This is also why some many items for other regions where found with the Hyksos. It was from the other parts of the Minoan Empire. These where blood lines all from a common Aryan source. And shared the same religion.

It seems the Jews came out of the ME, Canaan region and moved outwards in all directions. The region they started in was the key area between East and West which is the perfect start point for such a program. Their Torah is corrupted from the Tarot the 5 Books of Thoth. If you look on the Wheel of Fortune card. It states in one direction Tarot on the Wheel. And Torah in another direction.

We also have the fact gene studies on the Cohen gene. Trace them to the identical NE region.

The Jews Biggest Lie

Looking at the major claimed history and historical figures of the Jews we can see the plain truth. Their entire history is false and stolen from Gentiles. The real foundation of their history rests upon two major characters Abraham and Moses.

The supposed Great Patriarch Abraham and his family the first "official" Jews in history, are in fact stolen from the ancient Hindu Trinity of Brahma, Vishnu and Siva, along with Saraswati:
Since Krishna was not born of man, he was not actually the earthly father of Brahma and Mahesh. Therefore, he himself was the protector (Tara) of Brahma. In Sanskrit, Tara means "savior; protector." It is a term generally used with the gods Rudra, Shiva, Vishnu and Brahma. Even our Old Testament says that the father (protector) of Abraham was Terah (Genesis 11:26.) The Bible tells us that Abraham and Sarah were half-siblings. (Genesis 12:19-20.) The Hindu holy books also tell us that a blood relationship existed between them. The Puranas relate Sarasvati to Brahma and Vishnu. Most frequently, she is associated with Brahma. Her connection with him dates earlier than to any other God. She is portrayed mostly as his wife and occasionally as his daughter. When Vishnu's popularity in India increased, myths relating Saraswati to him appeared. (Ref: Sarasvati and the Gods; www.vishvarupa.com.) Therefore, Brahma or Vishnu would also have been the Tara (Terah) of Sarasvati because of her divine origins.

Brahm (Abraham) Sarasvati (Sarah)

Abraham or Brahma's home was the land of Haran (Genesis 1:4.) Haran was the coastal principality governed by Krishna. It was even named after him because Hara (Sun God) is another name of Krishna. Brahma/Abraham was 75 years old when he left Haran.

The Bible mentions Haran and Haryana. The Hindu holy books also say that Brahma/Abraham lived in Ur of the Chaldees. Ur was a Sumerian name for "town; city." Chaldee (pronounced Kaldee) derives from the Sanskrit Kaul, a Brahman caste, and Deva (demi-god). The North Indian Kauldevas worshiped idols representing their ancestors. According to the Hindus, Brahma married Sarasvati in Chaldea, the part that is now Afghanistan.

In Hindu mythology, Sarai-Svati is Brahm's sister. The bible gives two stories of Abraham. In this first version, Abraham told Pharaoh that he was lying when he introduced Sarai as his sister. In the second version, he also told the king of Gerar that Sarai was really his sister. However, when the king scolded him for lying, Abraham said that Sarai was in reality both his wife and his sister! "...and yet indeed she is my sister; she is the daughter of my father, but not the daughter of my mother; and she became my wife." (Genesis 20:12.)

But the anomalies don't end here. In India, a tributary of the river Saraisvati is Ghaggar. Another tributary of the same river is Hakra. According to Jewish
traditions, Hagar was Sarai's maidservant; the Moslems say she was an Egyptian princess. Notice the similarities of Ghaggar, Hakra and Hagar.

The bible also states that Ishmael, son of Hagar, and his descendants lived in India. "...Ishmael breathed his last and died, and was gathered to his kin... They dwelt from Havilah (India), by Shur, which is close to Egypt, all the way to Asshur."

(Genesis 25:17-18.) It is an interesting fact that the names of Isaac and Ishmael are derive from Sanskrit: (Hebrew) Ishaak = (Sanskrit) Ishakhu = "Friend of Shiva." (Hebrew) Ishmael = (Sanskrit) Ish-Mahal = "Great Shiva."-Matlock

Lingam worship in the Bible:
In the 28th chapter of Genesis Jacob, after having a dream about a 'ladder' reaching up to heaven with angels 'limbing' it and God standing at the top(12), erects a 'pillar' with the stone he was using for a pillow and conecrates it with oil (18). He calls the place Beit-El ('Bethel' in english, which means 'House of God') (19). He says that the stone pillar itself was "God's house" (22). And he later, in chapter 35 v14, erects another one on the road from Paddan-Aram.

The worship of Brahma was also in the Near Eastern World:
"About 1900 BC, the cult of Brahm was carried to the Middle and Near East by several different Indian groups after a severe rainfall and earthquake tore Northern India apart, even changing the courses of the Indus and Saraisvati rivers."

"...the Temple of Mecca was founded by a colony of Brahmins from India.it was a sacred place before the time of Mohamed, and they were permitted to make pilgrimages to it for several centuries after his time. Its great celebrity as a sacred place long before the time of the prophet cannot be doubted."

(Anacalypsis, Vol. I, p. 421.)

"...the city of Mecca is said by the Brahmins, on the authority of their old books, to have been built by a colony from India; and its inhabitants from the earliest era have had a tradition that it was built by Ishmael, the son of Agar. This town, in the Indus language, would be called Ishmaelistan." (Ibid, p. 424.)
Before Mohammed's time, The Hinduism of the Arab peoples was called Tsaba. Tsaba or Saba is a Sanskrit word, meaning "Assembly of the Gods ". Tsaba was also called Isha-ayalam (Shiva's Temple). The term Moslem or Moshe-ayalam (Shiva's Temple) is just another name of Sabaism. -Matlock

The facts on Mohammed fictional existence:
http://exposingthelieofislam.wordpress.com/muhammad-never-existed/

One of the shrines in the Kaaba was also dedicated to the Hindu Creator God, Brahma, which is why the illiterate prophet of Islam claimed it was dedicated to Abraham. The word "Abraham" is none other than a malpronunciation of the word Brahma. This can be clearly proven if one investigates the root meanings of both words. Abraham is said to be one of the oldest Semitic prophets. His name is supposed to be derived from the two Semitic words 'Ab' meaning 'Father' and 'Raam/Raham' meaning 'of the exalted.' In the book of Genesis, Abraham simply means 'Multitude.' The word Abraham is derived from the Sanskrit word Brahma. The root of Brahma is 'Brah' which means 'to grow or multiply in number.' In addition Lord Brahma, the Creator God of Hinduism is said to be the Father of all Men and Exalted of all the Gods, for it is from him that all beings were generated. Thus again we come to the meaning 'Exalted Father.' This is a clear pointer that Abraham is none other than the heavenly father."

Where does the term Hebrew actually come from?

One of the most important finds in Egypt happened with the Egyptologist and Archaeologist Professor Walter B. Emery (1903-1971) while excavating tombs at Saqqara. Emery found men with blond hair and fair complexions. These individuals were revered by the Egyptians as a special class, an endowed elite the "Shemsu Hor" (Serpents of He of The Ari). The famous Egyptologist, author of Archaic Egypt discovered the remains who lived in the pre-dynastic epoch. These presented a dolichocephalous skull larger than that of the local ethnic group, fair hair and a taller, heavier build. Emery declared that this stock wasn't indigenous to Egypt. This race kept its distance from the common people, blending only with the aristocratic classes. The scholar associated them with the Shemsu Hor. The Shemsu Hor are recognized as the dominant sacerdotal caste in pre-dynastic Egypt.

-V. Di Cesare and A. Forgione "Malta: Skulls of the Mother Goddess"
Professor Emery wrote of these Shemsu Hor: "The Demigods of Manetho's history."
These Shemsu Hor were stated to have originally lived on an island homeland as well. A very revealing text on the truth of the ancient Egyptians record of their origin:

"Hebrew comes from Ibaru he letter H added as a prefix meant the and so the word Hebrew means the Ibaru the term rabbi is a variant of this Ibarua. The Ibaru were part of the Shemsu Hor who travelled to Egypt in the ancient past. Due to the similarity to Apiru which means undesirable, this term has been confused."-Tsarion

The claims the Hebrews where Apiru/ Habiru are misleading again, the truth such peoples where from the region called Aryavarta (North India, Pakistan) when the gradual abandonment of the Saraswati civilizations due to the drying up of the river, there was major waves of former inhabitants of the region which from modern finds would have been extensive as the population of the Saraswati area was into the millions. These people became migrants and refugees that moved out over the generations to new areas:

About 1900 BC, the cult of Brahm was carried to the Middle and Near East by several different Indian groups after a severe rainfall and earthquake tore Northern India apart, even changing the courses of the Indus and Sarasvati rivers. The classical geographer Strabo tells us just how nearly complete the abandonment of Northwestern India was. "Aristobolus says that when he was sent upon a certain mission in India, he saw a country of more than a thousand cities, together with villages, that had been deserted because the Indus had abandoned its proper bed." (Strabo's Geography, XV.I.19.)

"The drying up of the Sarasvati around 1900 BCE, which led to a major relocation of the population centered around in the Sindhu and the Sarasvati valleys, could have been the event that caused a migration westward from India. It is soon after this time that the Indic element begins to appear all over West Asia, Egypt, and Greece." (Indic Ideas in the Graeco-Roman World, by Subhash Kak, taken from IndiaStar online literary magazine; p.14)

"The exodus of refugees out of ancient India did not occur all at once but over a period of one or more thousand years. If all these refugee ruling peoples were exclusively of Indian heritage, why doesn't History mention them? Indeed they
are mentioned as Kassites, Hittites, Syrians, Assyrians, Hurrians, Arameans, Mittanians, Amalekites, Aethiops (Atha-Yop), Phoenicians, Chaldeans, and many others. But we have been wrongly taught to regard them as ethnicities indigenous to Western Asia." - Matlock

Many of these peoples became free companies, workers and in some cases criminals and conquerors of new regions to settle in from the early records on the subject, many such as the peoples mentioned above would conqueror their own kingdoms and empires.

The Sumerian logogram SA.GAZ appears in texts from Southern Mesopotamia, dated from about 1850 BC, where it is applied to small bands of soldiers, apparently mercenaries at the service of local city-states and being supplied with food or sheep. One of those texts uses the Akkadian cuneiform word Hapiri instead of the logogram; another described them as "soldiers from the West". Their names are predominantly Akkadian; some are West Semitic, some unknown. Their origins, when recorded, are in local towns.

A letter to an Old Assyrian merchant resident in Ali?ar requests his aid in freeing or ransoming some Hapiri, formerly attached to the palace of Shalahshuwe (as yet unidentified), now prisoners of the local authorities.

The Tikunani Prism, dated from around 1550 BC, lists the names of 438 Habiru soldiers or servants of king Tunip-Tessup of Tikunani, a small city-state in central Mesopotamia. The majority of these names are typically Hurrian, the rest are Semitic, one is Kassite.

Another text from around 1500 BC describes the Hapiru as soldiers or laborers, organized into bands of various sizes commanded by SA.GAZ leaders: one band from Tapduwa has 15 soldiers, another from Sarkuhe has 29, and another from Alalakh has 1,436.

The Hapiru where simply the ancient equivalent of Cossacks. The truth is the title Hebrew [Ibaru] comes from Egypt it was a title for a Solar Priest. Its no mistake the important Jewish pass over is stolen from the Egyptian festival of Easter. A solar custom of Egypt.
"The priests of the Mysteries were symbolized as a serpent, sometimes called Hydra. The Serpent Kings reigned over the earth. It was these Serpent Kings who founded the Mystery schools which later appeared as the Egyptian and Brahmin Mysteries... The serpent was their symbol... They were the true Sons of Light, and from them have descended a long line of adepts and initiates."

- Hall

"The Apiru or Hapiru were not the same people as the Hebrews (Aryan) Magi had journeyed far and wide and established mystery schools throughout the world. The early Egyptians knew them as the Shemsu Hor "Disciples of Horus." The Shemsu Hor were counselors to, and perhaps even initiators of the pharaohs of Egypt."

-Tsarion

"The word Hebrew can also be traced to the Gaelic Heber meaning "fire" or "sun. A "Hebrew" (Ibaru) was a priest of the sun."

"Cohen, the Jewish name for priest, comes from Cahen, the Egyptian pronunciation for a priest and a prince. Even circumcision, that uniquely 'Jewish' tradition, came from the Egyptian mystery schools and was performed at least as far back as 4,000 BC. You could not be initiated unless you were circumcised. The Hebrew religion did not exist in Egypt and there was no Hebrew law because there was no Hebrew 'race'. The only worship was Egyptian worship."

The High Priest of the Levities breast plate and all is nothing more then a stolen image of a Ibaru leader from Egypt.

This leads us to the next major claimed character of the Jewish "historical record" Moses:

Like that of Osiris, the story of Dionysus includes his own mythical conquest of India. Dionysus is not only Osiris but also the counterpart of Moses: "That the god Bacchus was the archetype of Moses seems to have been the opinion of many learned men, particularly the celebrated Bishop of Huet, and I Vossius, who agree that the Arabian name of Bacchus is Meses."

Biblical scholarship and archaeology have basically proved that the Pentateuch, or first five books of the Bible, were not composed by the great lawgiver Moses himself. In the Bible Unearthed, archaeologist Israel Finkelstien demonstrates
that much biblical composition was done from the 8th century BCE onward. Even in ancient times it was recognized that Moses did not compose the Pentateuch."

According to the myth, the Jews at the time of the Exodus celebrated the feat of the Lamb, which refers to the Age of Aries. In the Dionysian myth, the sacred Lamb or Ram provides water to Dionysus’s army in the middle of the desert, the water-in-the-desert motif also being in the Moses myth. Like Dionysus and Amon, Moses is depicted wearing ram’s horns. ”

Another tale that found its way into the Bible is that of Bacchus's miracle of stopping the motion of the sun and moon, replayed in the story of Joshua.

It is related in the hymns of Orpheus, that Bacchus had a rod with which he performed miracles, and which he could change into a serpent at his pleasure. He passed the Red Sea, dry shod, at the head of his army. He divided the waters of the rivers Orontes and Hydaspus by the touch of his rod, and passed through them dry-shod. By the same mighty wand, he drew water from a rock, and wherever they marched, the land flowed with wine, milk and honey.

Bacchus, was called the "Law-giver, and it was said of Bacchus," as well of Moses, that his laws were written on two tables of stone. Bacchus was represented horned, and so was Moses. Bacchus was picked up in a box that floated on the water, and so was Moses. Bacchus had two mothers, one by nature, and one by adoption, so had Moses. Bacchus and his army enjoyed the light of the sun at night, Moses and his army a pillar of fire by night.

Moses being called the Law-giver and the laws being written on two tablets of stone, were obviously copied from Bacchus, but the idea of his (Moses) receiving the commandments from the Lord on a mountain was undoubtedly taken from the Persian legend of Zoroaster. "In his gentler (Dionysus) aspects he is a lawgiver."

It is also well known now by Egyptologists that the Ten Commandments are stolen from the 42 negative confessions from the Egyptian Book Of The Dead.

It seems apparent that the Israelite conquest of "The Holy Land" was taken from Dionysus mythical conquests, they just changed the direction as a whole.
This leads into the next connection with Egypt and the Brotherhood of the Serpent centers again as Dionysus another form or alias of the Egyptian God Osiris:

Herodotus compared the Greek god Dionysus and the Egyptian god Osiris as long ago as the fifth century B.C. and found them to be nearly equal in all their mythology characteristics and virtues.

Pausanias, Description of Greece 10.29.4 (trans. Jones) (Greek travelogue C2nd A.D.)

"Both the Greeks and the Egyptians have many legends about Dionysos." Like his alter ego Osiris, Dionysus, the most popular god in the Roman Empire, was considered an immensely old deity, according to Herodotus who imparted that, even though he was one of the "youngest" gods, Dionysus supposedly appeared "15,000 years before Amasis" (Ahmose.fl.1550 BCE). - Murdock

The Egyptians, reports Herodotus, claimed to be "quite certain of this dates." Having kept careful records. The assertion that Dionysus/Bacchus's presence on Crete, where he was said to have been born, extends back even further, as his epithet "Iakchos" is found at the palace at Knossos, with an apparent Egyptian connection.

In Avaris archaeologists have found Cretan motifs on the walls only found appearing previous on the walls of the palace in Knossos in ancient Crete. Both Osiris followers of Egypt and Cretans held the Bull sacred. The Cretan culture was identical to the Egyptian one even being ruled by a Priest King along with Serpent Brotherhoods the Kaberoi.

Dionysus was born on December 25th, the same as Osiris. Like Osiris, Dionysus was torn into 14 pieces, and also like Osiris, Dionysus was considered both the son and father of Zeus, according to an Orphic verse" - Murdock

"Osiris who was the "first to drink wine" and who taught mankind about the vine, according to Plutarch is referred to as the "Lord of Wine in the festival." Dionysus was the great Olympian god of wine, vegetation, pleasure and festivity." - Murdock

Dionysus was also the Lord of Whine.
The staff of Osiris and the thyrsos of Dionysus are identical in appearance both being pine-cone tipped.

With such antiquity also came an enormous territory, as Dionysus was much beloved in a widespread area from Egypt to Greece to Macedonian, the Near East and beyond. -Murdock

We can also see in the creation of the religion of Serapis created by the Greek pharaoh Ptolemy I. The later fusion of Osiris with an Hellenic guise. Which demonstrates the same God can be worshipped by two peoples.

The rites of Eleusinians where Dionysian in nature And Dionysus as shown was also worshipped as Osiris in Egypt. By examination of the Eleusinian rites and ranks we are seeing a window into the Brotherhood Of The Serpent centers in Memphis Heliopolis[ called ON meaning Sun in Egyptian] and Avaris in Egypt. This is the actual reason Avaris was known in the ancient description as the "City of the Hebrews" because it was a major seat of the Egypt Priesthood of the Ibaru. Avaris was also called Zaon {Zion} and had a Royal Court called the Levities there.

"Reverend Taylor discovered the truth when he studied the Eleusinian Tradition of Greece, which dates back to before 1500 years BCE. He lays out the schemata for the ritual and dramatic performances customary to the Eleusinians:

Eleusis- The Beginning or Opening
Hierophant- The Magus Overseeing the Rites
Hupereet-Ordinary Priest, or Minister
Diaconos-A Deacon, or lower Officer
Diadochos-Torch-Bearer
Photagoge-Bringer and Wielder of Light
Autoptos-Candidate Witnessing the Rite
Autopsy-The Act of Witnessing of Seeing
Hebrew-The Initiated One (who has passed through all trials and been purified)
Teleios-The Perfected Adept
Israelite-The Purified, God-Inspired Adept (the "God Seer")
Jew-God Himself. The State of Perfection. Man as Enlightened Being."
-Tsarion
The ancient terms Israelite and Ibaru (Hebrew) referred to high ranking, spiritually endowed Egyptians and their ancestors. Israelite also comes from "worshipper of Essa or Essaite" Essa, Esus. Etc Are all ancient titles for the Sun Gods. The Phoenician God Saturn was also called Israel. Saturn was a Sun God in the aspect of the period of the sun before its death and rebirth on the Winter Solstice hence the Winter Solstice festival of Saturnia in ancient Rome.

Yahweh is originally an ancient name for the sun concept, the Egyptians had a title for a solar deity called Yahu/yahew, the Persians word for sun was yawnah the Phoenicians had yahwe and the Syrians Yaw. Origins of this can be traced in the Veda with the title Yahva...etc Even the term "Ad-ON-i" is Egypt in origin.

The five books of the Jewish Torah is stolen and corrupted from the five suits of the Tarot. Tarot means "Royal Road" in ancient Egyptian, the name signifies the kundalini Serpent ascension up the spine. The Kabala was also stolen from Egypt KA BA ANKH = "Kabalah:

The Temple of Sol-om-on was stolen from Egypt. It's the temple of the soul and its most ancient symbol is the Pyramid and the capstone. It represents the Godhead. Once again we are looking at another literalized fictional event, taken and corrupted from a spiritual concept nothing more:

The PYRAMID is symbolic of the shape of the human chakra. The missing capstone represents the unfinished work and the ALL-SEEING EYE represents the gnosis and all-knowing when one reaches the godhead. This state is also known as "SAMADI" or "SUPER CONSCIOUSNESS." The photo at left was taken from the US One Dollar Bill. The United States, government and all, was founded upon Masonic principles and is not Christian by any stretch of the imagination.

The Benben stone in Egypt represented as a pyramid shaped stone and the dwelling place of the sun god with its association with the Bennu bird (also Benu bird). The Benu bird is the Egyptian name for the Phoenix. The Benben stone represents
the Temple Of Solomon.

The Jews simply stole the core of their identity from the Gentile Brotherhood Of the Serpent and their orders in Egypt. Which was one of the major Serpent centers in the ancient world.

They was no exodus and no Biblical homeland in the Canaanite lands:

"Nay, only are there no proofs for the twelve tribes of Israel having ever existed, but Herodotus, the most accurate of historians, who was in Assyria when Erza flourished, never mentions the Israelites at all. How is this possible? - Madame Helena Blavatsky (The Secret Doctrine, vol 3)

"Nowhere in Torah (also called the Pentateuch, or the first five books of the Bible) is there any mention of Jerusalem let alone a temple anywhere in Jerusalem." - Stephen M. St. John

Many writers of this era were not even aware of the existence of Judea. The Greek Historian Herodotus, painstakingly exact in his documentation of the nations and peoples of the known world, refers only to the Syrians of Palestine when he describes the area - Joseph Atwill (Cesar’s Messiah)

Although the Tell-el-Amarna tablets give much information regarding Canaan at about the period of the Exodus, they make no allusions to the Jews in Egypt or to the great catastrophe caused by the events preceding their escape - Ernest Busenbark

We need to recognize that our understanding of Israel as a people and as a nation is unrelated to any known historical Israel. They created this 'Israel' not as it once existed in an earlier period, but in a way that was meaningful to themselves - Thomas. L. Thompson (The Mythic Past: Biblical Archaeology and the Myth of Israel)

Of course, there was an Israel! The name itself is used already at the close of the Late Bronze Age on an Egyptian monument to refer to the People of Canaan that Pharaoh Merenptah's military campaign into Palestine fought against. But this is not the Israel that the Bible deals with - Hyam Maccoby's The Mythmaker: Paul and the Invention of Christianity
While it is hard-won principle of Biblical archaeology that the historicity of ancient Biblical narratives about old Israel cannot be confirmed unless we have extra-Biblical confirmation, it is more likely to confirm the Bible's literary and metaphorical tropes than to establish it as historical record--Thomas. L Thompson (The Mythic Past: Biblical Archaeology and the Myth of Israel)

Jerusalem's history remains impossible to write. Although the Egyptian Amarna letters, which give us correspondences between Palestine's petty princes and kings and the Egyptian Pharaoh of the late fourteenth an nearly thirteenth centuries, tell us much of about the town of Urusalim and about its patron and king, Abdi-Hepa, we know nothing about this town from archaeology. We are not even certain where it was located, though we have every reason to believe that it was Jerusalem. The Iron Age town of Jerusalem on Mount Ophel, which has been excavated by Kathleen Kenyon before the 1967 Israel-Arab war offered no significant remains from the Late Bronze Age--Thomas. L Thompson (The Mythic Past: Biblical Archaeology and the Myth of Israel)

Palestine never developed a political power of any great international significance. It was always so divided by its many small regions that it never developed a common history except when it was controlled by some power from outside, such as Egypt, Assyria and Babylonia. High culture, as expressed in art, architecture, literature and pageant, hardly existed. Most of what has survived is either foreign in origins or derivative from Phoenicia on the Syrian coast--Thomas. L Thompson (The Mythic Past: Biblical Archaeology and the Myth of Israel)

The annals of Pharaoh Ramesis II (the Great) make reference to Semitic people who settled in the delta region of Goshen, but this does not really help because they are not specified as Israelites, but included in the Arab races of Syria, Phoenicia, Mesopotamia and the Fertile Crescent in general--Laurence Gardner (Genesis of the Grail Kings)

Although the name Judea is a geographical term occurring in Assyrian period texts, referring to the highlands south of Jerusalem, in the Persian period the name is political. It is the name of the Persian province. The Assyrians' name for the southern highlands, Jaudaa, and the Persians' imperial name, Yehud, were no more reflective of a people than were any of the other names for regions of the empire. Moreover the geographical spread of people referred to as Yehudim is
so great that is would be rash to assume that this name refers to their place of origin. More should we continue to understand this term as ethnographic, without evidence—Thomas. L Thompson (The Mythic Past: Biblical Archaeology and the Myth of Israel)

One of the most striking and wonderful things about an "historian" like Josephus is that he knows almost nothing about "the past" that we ourselves do not already know from other sources. When an account he gives of a supposed event of two centuries earlier "confirms" something we can read in other works, it is only because he has copied or paraphrased it. Josephus has been well described as a person one wouldn't buy a used car from—Thomas. L Thompson (The Mythic Past: Biblical Archaeology and the Myth of Israel)

The earliest part of this period in the hill country has been traditionally presented as the "Golden Age" of ancient Egypt with its capital in Jerusalem. The ear has been associated with the "United Monarchy" wielding the political power of a Saul, a David and a Solomon and controlling a land-bridge from the Nile to the Euphrates, concept of a temple built by Solomon as the center of worship of Yahweh. Theses images have no place in descriptions of the real historical past. We known them only as a story, and wheat we known about such stories does not encourage us to treat them as if they were or were ever meant to be historical. There is no evidence of a United Monarchy, no evidence of a capital at Jerusalem. We do not have evidence for the existence of kings named Saul, David or Solomon; nor do we have evidence for any temple at Jerusalem—Thomas. L Thompson (The Mythic Past: Biblical Archaeology and the Myth of Israel)

Megiddo, Gezer and Hazor and Jerusalem were in reality more like villages. with small public buildings and poorly constructed dwellings with clay floors. The objects reveal a material culture, which, even by the standards of the ancient Near East, could not be judged sophisticated or luxurious. The `magnificence' of the age of Solomon is parochial and decidedly lackluster—professor James Pritchard (Solomon and Sheba)

As far as the Bible geography is concerned it appears that the main person responsible for its misinterpretation was Constantine the Great, who had definite motives for transferring the arena of Jewish history and that of Christ to another region altogether. He used Christianity as a valuable political
asset, selected the East as this Empire, and with the aid of Eusebius, Jerome and others, invented the present Palestine.

NOT A SINGLE INSCRIPTION HAS BEEN FOUND IN Palestine which can be identified with the Hebrew kingdom- H.D. DAUNT (The Center of Ancient Civilization)

The 12 tribes of Israel are taken from the celestial kingdom of the 12 constellations of the Zodiac, with the Sun as the ruler, hence the Lion of Judah rules the Lion [Leo] is the symbol of the sun as its height of power as it journeys thought the Zodiac.

Note on the Hyksos, a popular view is the Jews where descended from the Hyksos Sheppard kings, this claim more then naught originates with the Jewish propagandist Josephus and was an attempt to legitimize the fictional history of the Jews in his day:

In his Against Apion, the 1st-century CE historian Josephus Flavius debates the synchronism between the Biblical account of the Exodus of the Israelites from Egypt, and two Exodus-like events that the Egyptian historian Manetho apparently mentions. It is difficult to distinguish between what Manetho himself recounted, and how Josephus or Apion interpret him.

Josephus identifies the Israelite Exodus with the first exodus mentioned by Manetho, when some 480,000 Hyksos "shepherd kings" (also referred to as just 'shepherds', as 'kings' and as 'captive shepherds' in his discussion of Manetho) left Egypt for Jerusalem. The mention of "Hyksos" identifies this first exodus with the Hyksos period (16th century BC).

One of the most striking and wonderful things about an "historian" like Josephus is that he knows almost nothing about "the past" that we ourselves do not already know from other sources. When an account he gives of a supposed event of two centuries earlier "confirms" something we can read in other works, it is only because he has copied or paraphrased it. Josephus has been well described as a person one wouldn't buy a used car from—Thomas. L. Thompson (The Mythic Past: Biblical Archaeology and the Myth of Israel)

The Hyksos arose in a turbulent period in Egyptian history one theory handed
down is they invaded by force but this claim has fallen apart on new findings:

The ceramic evidence in the Memphis-Fayum region of Lower Egypt argues against the presence of new invading foreigners. Janine Bourriau's excavation in Memphis of ceramic material retrieved from Lisht and Dahshur during the Second Intermediate Period shows a continuity of Middle Kingdom ceramic type wares throughout this era. She finds in them no evidence of intrusion of Hyksos-style wares.[16] Bourriau's evidence strongly suggests that the traditional Egyptian view, long espoused by Manetho, that the Hyksos invaded and sacked the Memphite region and imposed their authority there, is fictitious. The German Egyptologist Wolfgang Helck once argued that the Hyksos were part of massive and widespread Hurrian and Indo-Aryan migrations into the Near East. According to Helck, the Hyksos were Hurrians and part of a Hurrian empire that, he claimed, extended over much of Western Asia at this period. Most scholars have rejected this theory and Helck himself has now abandoned this hypothesis in a 1993 article.[23]

Egypt was divided into two lands upper and lower and scholar Peter Ellis states that Foreigner a term given to the Hyksos was the term applied to men of lower Egypt. The fact is the Hyksos where worshippers of the Egyptian God Set. Set was the dominate God of lower Egypt during this period. Set was a solar God and is among the crucified and resurrected saviors of the Pagan world. Another evidence shows Canaanite deities and worship around this time in the region. The constant terming of them as Asiatic is most likely a miss translation of Aamu, meaning Amorites who where described as Aryan in appearance and race.

Aamu was the contemporary term used to distinguish the people of Avaris, the Hyksos capital in Egypt, from Egyptians. Egyptologists conventionally translate aamu as "asiatics" The Jewish historian, Josephus, in his Contra Apionem, claims that Manetho was the first to use the Greek term, Hyksos, incorrectly translated as "shepherd-kings". Contemporary Egyptians during the Hyksos invasion designated them as hikau khausut, which meant "rulers of foreign countries",

The final clues as to their origin come from the latest finds in their capital Avaris:

Minoan Paintings in Avaris, Egypt
http://www.therafoundation.org/articles/art/minoanpaintingsinavarisegypt
"To the East of the platform were found numerous dumps of wall plaster with Minoan wall paintings, which are discussed below. Most probably they originate from this building."

"base of this tableau a half-rosette and triglyph frieze can be reconstructed, which should be seen as an emblem of the palace, most probably of the palace of Knossos itself."

As shown they was a major cultural similarly of the Minoans with the Egyptians, around this time the Minoans ruled one of the most powerful Empires in the Aegean and had bases in Palestine /Canaan as well. They had been Nubian dynasties in Egypt and there was obviously mass intermarriage with Egyptian Royals with Royals of other Empires such as the Hittite's, etc. We are probably simply looking another situation in which due to blood line connections a Minoan backed dynasty took control of a region, and displaced the weak Nubian one. This seems to be further evident when the Hyksos where driven out they left to major bases where the Minoans had imperial holdings in Canaan (which explains the Canaanite influence as well) and aboard.

The fact is the Hyksos where Gentile Royals[Priesthoods] who had extensive connections with the other Royal houses and bases across a larger area then Egypt. Part of the fighting between them and the rival Thebans was simply a replay of the old rivals between the two Kingdoms and the theocratic nature of the regions. And all this happened hundreds of years before any legitimate record of the Jews appears.

I also believe given the fact many of these Hyksos stayed in Egypt and where part of the dynasties that followed theirs shows the claims of the strife and bitter warfare of this period have been largely over dramatized in history, Tsarion states:

From an academic point of view, the Minoan civilization is considered the finest in Europe. It was sophisticated and an inspiration to many other races. The work of Butler and Dafoe reveals the Cretans to have been a technically advanced Western people. As we mention above, recent discoveries suggest the Cretans were
related biologically or, at least economically, with the Hyksos kings of Egypt. Artwork found in the Hyksos city of Avaris appears to be of Cretan artifice, and a few investigators believe trade took place between these peoples. Writers, such as Ralph Ellis, point to the fact that when the Minoan civilization was brought to an end by the devastating volcanic eruption on the nearby island of Thera, the Hyksos empire subsequently went into rapid decline. The search for a stronger relationship between the Hyksos of Egypt and the Cretans continues. Examples of Minoan merchandise have regularly turned up in various tombs in Egypt. They have been found in the Levant and, through the matter is somewhat contentious, Minoan-type jewelry and goldwork has even been found in the graves of Wessex Culture, a race living in what is now southern England at a time contemporaneous with Minoan Crete at its heyday. The Cretans established a chain of outposts throughout the Aegean and the Mediterranean...trade was probably on a fairly large scale. Soon after the takeover of Crete by the Mycenaeans of mainland Greece sometime around 1400 BC, there are records to indicate that the palace of Knossos alone was running over 50,000 sheep - Alan Butler & Stephen Dafoe (The Knights Templar Revealed)

...there is much on Crete from Minoan times to show the existence of a flourishing middle class which may have been partly made up of private merchants. Plush villas have been located, some very close to the many ports of the island, whilst in those places where everyday Minoan life is viewable, such as in the lava-buried settlement on Santorini, it appears that even the common folk of the Cretans lived a very comfortable life —ibid,

Another theory pushed by Jew Sigmund Freud was that Ahnkenton was Moses. As researcher John Kaminski states on the subject:

The man who invented psychology, Sigmund Freud, thought so highly of Akhnaton that he tried his best several times to attribute the Hebrew religion to this odd pharaoh's precepts, speculating in chapter after chapter how Moses might have interfaced with Akhnaton's idea that the Sun was the source of everything and all those other gods were simply not of the same all-encompassing magnitude. But in his last book, Moses and Monotheism (1939), Freud couldn't make the connection convincingly, and was left guessing because Egyptology was not sufficiently advanced in his time; plus, he didn't live long enough to learn that the Old Testament was a clumsy fiction of writers
fabricating a tradition out of ideas stolen from other Cultures

Freud's attempt to link Akhnaton and Moses failed not only timewise but by intent, as Akhnaton's god Aton was a pacificistic bestower of the gift of life on humanity, whereas Moses's dictatorial Yahweh, or Jahve, as Freud called him, was a violent volcano god more interested in scaring his flock into submission than in loving them, or let's say, more interested in the profits than the promise.

Like Josephus his Jewish ancestor before him, Freud is simply attempting to create another set of lies to attempt to give historical legitimacy to the Jews phony history. Further more we don't have an actual traceable record of Jews existing before around the mid part of the last millennium BCE. It appears the Jews created their core of their identity in Egypt at some point and moved outwards into the different major key networks of the ancient world. The one thing all these Jewish communities have in common from India, Africa, China etc is the Torah, meaning they most likely all came out of Egypt after creating this fake history. Graham Hancock mentions there is a record of a Jewish synagogue being demolished by the Priest of Sobek in Egypt around the mid 4th century BCE. This is one of the earliest actual records outside of the fictional accounts and dubious histories we get of them.

While the concept of the Messiah[meaning Chief Cornerstone/Capstone of the Pyramid] is Egyptian-Gentile in origin and deals with the Magnum Opus/Temple of Solomon. The Jews stole this concept and corrupted it just as they stole their identity from the Brotherhood of the Serpent centers in Egypt.

The fact is the Jews as mentioned simply dispersed in every direction to infest every major capital center in the ancient world and work to bring the Gentiles down and create the base of an international network of power and control, same as they do today. Their fictional history is designed to unite them[they created Israel today from myth making this belief/myth manifested more in reality] and create a powerful psychic intent to manifest there Messiah and Zion who shall unite the Diaspora, conqueror the world for Global Zion and rule from
his Golden Throne in Jerusalem. And have all Gentiles on there knees as servants and slaves. This is why the Jewish programs from Christianity to Islam all have the Messiah prophecy which they stole once again from the Gentiles. To create the intent and vortex of energy to manifest their Chief Corner Stone[meaning of Messiah] who shall be the capstone upon the pinnacle[the pinnacle is the place the capstone is laid on the Pyramid] of the Temple Of Solomon [The Jewish Race] and thus complete the Temple Of Solomon and bring the Jew World Order into full and absolute power. The Jews stated in their Protocol's this Messiah is the keystone[capstone] to their entire agenda.

The real Jewish Messiah is the Christ Character he has two faces one is Joshua[Yashua] the Torah Messiah who unites the 12 Tribes and conquerors the Gentiles and builds Zion. The second face is Joshua[Yausha] two for the Gentiles to be yoked unto the Jews and under their spell which uses Gentiles to bring about their own destruction and enslavement. While Yashua one binds the Jewish racial psyche together to manifest the same monster.

That is the cruel fact the Jews rub it right in our faces in the Bible especially in the New Testament in the parable of Jesus [Yashua/Joshua in Hebrew] standing on the pinnacle of the Temple dominating all the kingdoms of the world [showing him as the chief cornerstone of the Temple as the Lord of the Pyramid, the Messiah of the Jews, the Empire of the Jews manifested].

Behold, I lay in Zion a chief cornerstone, elect, precious, and he who believes on Him will by no means be put to shame" (1 Peter 2:6, NKJV).

The Apha and Omega represents the Chief Cornerstone:
Revelation 22:12 "And behold, I am coming quickly, and My reward is with Me, to give to every one according to his work. I am the Alpha and the Omega, the Beginning and the End, the First and the Last."

The biggest lie of the Jews is their own own history.

The Jews are not as old as they claim. The only record of them shows they appear around 2500 to 2800 years ago. Not five thousand.

Not to berate the issue, however .... The thing about this is that something fatal to one may not be fatal to another. We are all made up of the 'fingerprint' of our natal charts. Therefore & additionally, the disease is also subject to durations & fluctuations of timing of transits, the intensity of the transits & of course the planet(s) involved & how they affect us based on our own charts. Even house locations can come into play.* One person may get thru one set of circumstances that another might not. Granted, some things may certainly be fatal, such as lymphatic cancer. However, other cancers may not be fatal.

*A side note on outer planet transits in houses: When an outer planet leaves a house, it will drop you a little reminder of what that transit was about right before it leaves that house.

---

That is an unobjectionable observation.

I did, however, write "fatal diseases and accidents" which both result in death. If it equals death or not is just wordplay, but you still die from them. Predict these and you have indications of death. 

Like yourself, I am not presenting an answer but an idea.

Hi! I've been a SS for a few months. I've never really understood astrology, though. It's like the math of SS to me.

I was wondering if someone could send me all the links I need to read and study to fully understand it, or if someone could reply everything?

That sounds like a lot, though, so the latter will be fine.

Thank you,

Ave Satanas~

Go to astro.com and make a free natal chart. Read everything in here: http://www.angelfire.com/empire/serpentis666/Astro_index.html

And also there's a bunch of files here in this group that you can read. :]

Good luck! The JoS one is a great starting point.

Thank you Maxine!

I do have my Saturn placed in the 4th house of Pisces. Aquarius is intercepted and Capricorn is on the cusp of the 3rd. With Neptune in Capricorn (Mutual reception), on the 22nd degree.

Now here's something very interesting I was just finding out;

Natal Jupiter squares my Saturn. (very tight), With Sagittarius on the cusp of the 2nd. Within the 2nd house I have a Stellium of the Sun, Neptune and Uranus, (all found in Capricorn).

This could be the answer to my Low vitality and self-esteem. Thank you!!!!

Too bad the Sun is in Libra ...

HAIL SATAN!!!!

Don't be. Thank you.

In my case, it was an adoptive parent who was extremely over protective, domaineering, then physically abusive... then I was drugged... then more of the whatnots.

Beyond that i found out recently she has some form of spiritual power. Meaning she could see exactly what she was doing and what the drugs were doing too me. And consequently meaning that she did not give a fuck. I was, I believe, in her mind, something for her, not my own self. Plus the state gave her 15,000 dollars as a one time payment and payments after that, continuing after I was adopted, medical and shit... and as a crapricorn coated woman, stellium of 4 planets including saturn, she loves her money. The thing about being a kid with no father who lost his family, taken by the state is no matter how friendly and oblivious you are, you still need something too hang on to. If i had spoken up about the abuse i would have lost qhat i had. As a child, i did not have the strength too sit down and make clear decisions about my life. I couldnt say, alright, this is for the best, take some phone numbers, make some plans... I actually had a dream in the last week relevant too this. I was playing the mario game i used too play as a kid, and i said at some point, " mario is great for when your adopted because then you see mario and luigi and you're like hey, I know those guys,"

Anyways, with the drugging and the beating, saturn being in my first house, thankfully not conjunct my ascendant, mostly the drugging, i went from having....well. shit fried my fucking brain, practically ruined me. If you ever see me get emotional about the drugging of children, you know why now. Without Satan, my dedication too him id be fucking useless. Fucking useless. Like 100 percent, retarded ass peice of shit. And without you, high priestess Maxine Dietrich, i would have never been able too find him, or gain these great spiritual powers, never would have been free. So with the above in mind I thank you, and the forces of orion, and father satan. also the abuse and degradation above is not in any way a complete representation of what happened, however the ,"fucking useless," statement is very accurate. Also that was not how i would have been, by nature.

I have a bit of time today, so I can go into an example. I read a book some time ago about a woman [she had Jupiter at 9 degrees of Virgo, in exact opposition to Uranus at 9 of Pisces. When aspects like this are tight within 1-2 degrees of orb], or even more intense—on exactly the same degree, these are fated events in the life. If three or more planets link up, this is even more so. This woman's father was a Jewish communist. He worked for the Ford Motor Company here in the USA, but was involved in communist activities. This was back in the late 1920's and early 1930's. After the 1929 depression hit here, many at Ford feared job loss and related. Back then, Stalin; the USSR had more deceitful come-a-long-brotherhood programs, promising a "worker's paradise" and good living, etc. Ford Motor Company had opened a plant at Gorky in the USSR. Through this, American workers were invited to get this plant established; spending 1-2 years in Gorky. This situation was not only limited to Ford Motor Company, but was a swindle to get Americans to the USSR in many other areas; exploiting the depression and hard economic times here. Other families, totally unrelated to this particular experience were duped into this as well. This woman in the following example was known to be the "only female American survivor of the Siberian gulag."

I noted a case where a woman had a Uranus/Jupiter opposition at 9 degrees of Virgo and Pisces—degrees of extreme suffering. Jupiter has to do with travel and though her birth time was not given, I am led to believe she had Aquarius on her ascendant by the events that took place in her life according to the biography. Jupiter opposed her ruling Uranus and got her through unimaginable hell and by 'hell' I mean that as a figure of speech. Jupiter is a protector in a sense, but can still bring extreme misfortune when placed on a bad degree.

In 1932, when this woman was eleven years old [she was born in 1921], her father worked for the Ford automobile plant in Detroit. Times were hard with the depression and he was duped along with many others into leaving the USA and moving to Gorky in the USSR, under Stalin. Same old Jewish brotherhood programs, like xianity, promising a better life and a 'worker's paradise.' Now, Jupiter rules foreign countries and travel. Hers was at 9 of Virgo, a degree of extreme suffering. They were to stay in Gorky and work on a new Ford plant over there under the direction of Ford for about a year, then return back to the USA. Needless to say, at her early age, when they arrived in Moscow, she noted how there was something wrong, the people were dressed in rags and were notably hungry and freezing in the bitter cold.
streets were very dreary, no heat in the street cars or any other transportation and everyone looked exceptionally depressed. They were moved to a one room flat. They had to share a kitchen and bathroom down the hall and both were in horrendous filth, especially the bathroom. To take a bath or a shower, one had to walk some 3-4 blocks down the street to the public bathhouse. Every other day, they alternated the men and women. There was no variety of food, only fish and stale black bread and porridge for every meal. But, this was paradise compared to what followed in this woman's life.

In 1938, they were still there and her father was arrested by the NKVD and she and her mother never saw or heard from him again. They were ousted from their one room flat, as they no longer had any income or any rights at all. They moved to a tiny closet in the basement of some rat trap building and then looked for work. Then the war came. They lived on rotten potatoes and other garbage of which they worked brutally for. There was little or not heat through the Russian winters in their places of dwelling. She was forced to dig anti-tank ditches until her hands bled for hours and hours every day.
sun up to sun down in the bitter cold. Her mother walked several miles to get sacks of the rotten potatoes they survived on. After the war, the NKVD arrested her as she said the wrong thing innocently about wanting to go back to the USA some British visiting military over there and word got back they tried to get her out of there. Even the worst American prisons are nothing compared to the prisons in Russia. She was sentenced to 10 years in a Siberian labor camp, of which she is the only known American woman to survive. It was unimaginable suffering. She finally made it back to the USA through risking her life, though it was late in her life, if I remember correctly, she was in her 60's. What I read of what she went through was horrific.

I do note, when the chart ruler is at 9 of Virgo or Pisces, it is much worse than other planets in the chart. There was another case, which was the worst. I had ever seen. A woman had her chart ruler, the Moon at 9 of Pisces, opposing Pluto at 9 degrees of Virgo, with Jupiter at 9 of Aries [another bad degree] tying in. Semi-sextiles, I have found in my research are not so much personality traits as they are fated experiences in one's life. Mars opposed Saturn at 22 of Leo and Aquarius [both bad degrees] across her 3rd/9th house axis of travel. This tied into Capricorn on the 7th house, which is often abuse/misfortune coming from others. Her Sun/Mercury conjunction was at 26 of Taurus, in conjunction with Caput Algol of violence. Her ascendant was at 6 of Cancer; 6 of cardinal signs often indicating a physical problem or handicap. When she was 15 years old, her natal south node was tightly conjunct the ascendant of her solar return for the year. This is always something fated, but by itself, is not always bad.
You have to look at everything. In this case, it was horrendous. Like I said, this was about the worst astro chart I had ever seen. Her 1978 solar return also had the Saturn in conjunction with Mars 15 degrees of Leo, but this was loose, in the solar return 7th house for that year. I note when certain aspects repeat in a return chart like that; those that have a tight aspect in the natal chart, this will trigger a fated event within that year, and the aspect does not have to be the same. In this case, Saturn opposed Mars [violence] in her natal chart and in the solar return chart, they conjoined.

She ran away from home that year and wound up in California. Her living situation did not work out and she made the bad judgment of hitching a ride. She was financially broke, etc. A devout Christian picked her up. He then took her into the desert, raped her, stabbed her and chopped her arms off, with an axe, of which she survived. His planets tied right into hers for violence. He was given a light prison sentence and upon release, stabbed another woman to death after raping her. The former woman who survived was forced to testify at this new trial when her lunar nodes were conjoined by transiting the nodes. The nodes are not personality traits, but points of fate in one’s chart.

In closing, always remember this, as it is extremely important. I have studied astrology on my own for many, many years. The case above, I came across in an astrology book and then did some of my own research. This was a long time ago. I believe the author was Edna Rowlands or something like that, I can’t remember. Never, ever have I run across a murder/victim case, where the murderer’s Saturn was not in hard aspect to the victim’s ruler. Saturn is our weak point in our own charts; where we suffer and experience related losses through life, but it is a point of our own personal power when relating to others. Always check the charts of others for their Saturn position in relating to your chart ruler/s. The hard aspects, such as the conjunction, square, and opposition are blatant, but also be aware of the semi-sextile, the semi-square, the inconjunct and the sesi-square. At least, this person can bring problems into your life; victimizing you in some way, or at worst, mayhem and murder. Lesser aspects I have noted in regards to the Saturn ties also do include the trine, the sextile, and the inconjunct. They will have something over on you and can use it against you. Just be very aware of the Saturn placements in relationship charts.

Anyone has more information on the 9th degree of Pisces?
I'm asking because I have Saturn placed on the 9th of Pisces.

Hello Maxine. You've mentioned about the USA chart having the sun/pluto aspect. Exactly what could happen with the sun/pluto aspect?

I'm not experienced in mundane astrology, but the USA will indeed have an exact Sun-Pluto opposition in next year's solar return. Not only a simple opposition, there will be in fact a grand cross (two oppositions connected with squares) between Sun, Pluto, Mars and Uranus. Though not exact, I believe the Mars-Uranus opposition will play a big part as well. The fact that it's a cardinal cross also implies added impact to the events that will take place next year, whatever they may be.

This, taken all by itself, can bring much internal tension, with the possibility of oppression (Sun/Pluto) followed by rebellion (Mars/Uranus). A possible scenario is the government (or the international community) imposing oppressive measures (possibly laws, since the Sun is in the 9th house), introducing restrictions and possibly taking rights away, and people will naturally react. However, it seems reactions will be subdued because Mars is weak in Libra and in the 12th house of self-undoing and weakness. Not only that, Saturn is also in the first house contributing to the oppression and restrictions.

Neptune transiting the 10th house has been weakening the country's/government's public image (especially now that Neptune has entered Pisces), and next year, it seems, it will try to impose itself more sternly.

It was simply declared as ratified.

Without this, the current system could not function.

The current government is based on this fraud. (Amongst others of course.)

I have actual copies of the scanned congressional records.

So my question is what can I use instead? Should I use the date of the change of the regime in 1989 (October 23rd, the declaration of the 3rd Hungarian Republic, the current regime)? It's really quite impossible to trace back the exact date and time of the founding of my country.

Any help appreciated.

I couldnt say, alright, this is for the best, take some phone numbers, make some plans... I actually had a dream in the last week relevant too this. I was playing the mario game I used too play as a kid, and I said at some point, "mario is great for when your adopted because then you see mario and luigi and you're like hey, I know those guys,"

Anyways, with the drugging and the beating, saturn being in my first house, thankfully not conjunct my ascendant, mostly the drugging, I went from having.... well. shit fried my fucking brain, practically ruined me. If you ever see me get emotional about the drugging of children, you know why now. Without Satan, my dedication to him id be fucking useless. Fucking useless. Like 100 percent, retarded ass piece of shit. And without you, high priestess Maxine Dietrich, I would have never been able too find him, or gain these great spiritual powers, never would have been free. So with the above in mind I thank you, and the forces of orion, and father satan. also the abuse and degradation above is not in any way a complete representation of what happened, however the "fucking useless," statement is very accurate. Also that was not how I would have been, by nature.

This is especially pronounced if one's chart ruler/s is at one of those degrees, but meditation and knowing beforehand can help to offset this somewhat. Remember, no chart is perfect; no life is perfect. We all get our asses kicked in life.

Look to your house/s in your chart that have Capricorn on the cusp; also look to the house placement of Saturn, and to a lesser extent, the house/s with Aquarius on the cusp. The affairs ruled by these placements should give you an idea of where any problems will manifest.

In addition, the nature of Saturn, as well. Do any other planets tie in, as with tight aspects? Does your Saturn align with your lunar nodes? All of this is important. Planets at 9 degrees, I have noted are very bad, but of Virgo and Pisces, these are worse. Be aware... no astrology chart is perfect. No one gets through this life unscathed. Knowing where potential problems can come from can be a great help in working to prevent them.

I have a bit of time today, so I can go into an example. I read a book some time ago about a woman [she had Jupiter at 9 degrees of Virgo, in exact opposition to Uranus at 9 of Pisces. When aspects like this are tight [within 1-2 degrees of orb], or even more intense- on exactly the same degree, these are fated events in the life. If three or more planets link up, this is even more so. This woman's father was a jewish communist. He worked for the Ford Motor Company here in the USA, but was involved in communist activities. This was back in the late 1920's and early 1930's. After the 1929 depression hit here, many at Ford feared job loss and related. Back then, Stalin; the USSR had more deceitful come-a-longs-brotherhood programs, promising a "worker's paradise" and good living, etc. Ford Motor Company had opened a plant at Gorky in the USSR. Through this, American workers were invited to get this plant established; spending 1-2 years in Gorky. This situation was not only limited to Ford Motor Company, but was a swindle to get Americans to the USSR in many other areas; exploiting the depression and hard economic times here. Other families,
totally unrelated to this particular experience were duped into this as
well. This woman in the following example was known to be the "only female
American survivor of the Siberian gulag."

Sorry for the repeat, but this will go much faster; I just found, copied,
and pasted this from what I wrote in an e-mail some time ago regarding this
case:

I noted a case where a woman had a Uranus/Jupiter opposition at 9 degrees
of Virgo and Pisces- degrees of extreme suffering. Jupiter has to do with
travel and though her birth time was not given, I am led to believe she had
Aquarius on her ascendant by the events that took place in her life
according to the biography. Jupiter opposed her ruling Uranus and got her
through unimaginable hell and by 'hell' I mean that as a figure of speech.
Jupiter is a protector in a sense, but can still bring extreme misfortune
when placed on a bad degree.

In 1932, when this woman was eleven years old [she was born in 1921], her
father worked for the Ford automobile plant in Detroit. Times were hard
with the depression and he was duped along with many others into leaving the USA
and moving to Gorky in the USSR, under Stalin. Same old Jewish brotherhood
programs, like xianity, promising a better life and a 'worker's paradise.'
Now, Jupiter rules foreign countries and travel. Hers was at 9 of Virgo, a
degree of extreme suffering. They were to stay in Gorky and work on a new
Ford plant over there under the direction of Ford for about a year, then
return back to the USA. Needless to say, at her early age, when they
arrived in Moscow, she noted how there was something wrong, the people were dressed
in rags and were notably hungry and freezing in the bitter cold. The
streets were very dreary, no heat in the street cars or any other transportation
and everyone looked exceptionally depressed. They were moved to a one room
flat.

They had to share a kitchen and bathroom down the hall and both were in horrid filth, especially the bathroom. To take a bath or a shower, one
had to walk some 3-4 blocks down the street to the public bathhouse. Every
other day, they alternated the men and women. There was no variety of food,
only fish and stale black bread and porridge for every meal. But, this was
paradise compared to what followed in this woman's life.

In 1938, they were still there and her father was arrested by the NKVD and
she and her mother never saw or heard from him again. They were ousted from
their one room flat, as they no longer had any income or any rights at all.
They moved to a tiny closet in the basement of some rat trap building and
then looked for work. Then the war came. They lived on rotten potatoes and other garbage of which they worked brutally for. There was little or not heat through the Russian winters in their places of dwelling. She was forced to dig anti-tank ditches until her hands bled for hours and hours every day—sun up to sun down in the bitter cold. Her mother walked several miles to get sacks of the rotten potatoes they survived on. After the war, the NKVD arrested her as she said the wrong thing innocently about wanting to go back to the USA to some British visiting military over there and word got back they tried to get her out of there. Even the worst American prisons are nothing compared to the prisons in Russia. She was sentenced to 10 years in a Siberian labor camp, of which she is the only known American woman to survive. It was unimaginable suffering. She finally made it back to the USA through risking her life, though it was late in her life, if I remember correctly, she was in her 60's. What I read of what she went through was horrific.

I do note, when the chart ruler is at 9 of Virgo or Pisces, it is much worse than other planets in the chart. There was another case, which was the worst.

I had ever seen. A woman had her chart ruler, the Moon at 9 of Pisces, opposing Pluto at 9 degrees of Virgo, with Jupiter at 9 of Aries [another bad degree] tying in. Semi-sextiles, I have found in my research are not so much personality traits as they are fated experiences in one's life. Mars opposed Saturn at 22 of Leo and Aquarius [both bad degrees] across her 3rd/9th house axis of travel. This tied into Capricorn on the 7th house, which is often abuse/misfortune coming from others. Her Sun/Mercury conjunction was at 26 of Taurus, in conjunction with Caput Algol of violence. Her ascendant was at 6 of Cancer; 6 of cardinal signs often indicating a physical problem or handicap. When she was 15 years old, her natal south node was tightly conjunct the ascendant of her solar return for the year. This is always something fated, but by itself, is not always bad. You have to look at everything. In this case, it was horrendous. Like I said, this was about the worst astro chart I had ever seen. Her 1978 solar return also had the Saturn in conjunction with Mars 15 degrees of Leo [another hideous degree], but this was loose, in the solar return 7th house for that year. I note when certain aspects repeat in a return chart like that; those that have a tight aspect in the natal chart, this will trigger a fated event within that year, and the aspect does not have to be the same.

In this case, Saturn opposed Mars [violence] in her natal chart and in the solar return chart, they conjoined.

She ran away from home that year and wound up in California. Her living situation did not work out and she made the bad judgment of hitching a ride. She was financially broke, etc. A devout Christian picked her up. He then took her into the desert, raped her, stabbed her and chopped her arms off,
with an axe, of which she survived. His planets tied right into hers for violence. He was given a light prison sentence and upon release, stabbed another woman to death after raping her. The former woman who survived was forced to testify at this new trial when her lunar nodes were conjoined by transiting the nodes. The nodes are not personality traits, but points of fate in one's chart.

In closing, always remember this, as it is extremely important. I have studied astrology on my own for many, many years. The case above, I came across in an astrology book and then did some of my own research. This was a long time ago. I believe the author was Edna Rowlands or something like that, I can't remember. Never, ever have I run across a murder/victim case, where the murderer's Saturn was not in hard aspect to the victim's ruler. Saturn is our weak point in our own charts; where we suffer and experience related losses through life, but it is a point of our own personal power when relating to others. Always check the charts of others for their Saturn position in relating to your chart ruler/s. The hard aspects, such as the conjunction, square, and opposition are blatant, but also be aware of the semi-sextile, the semi-square, the inconjunct and the sesi-square. At least, this person can bring problems into your life; victimizing you in some way, or at worst, mayhem and murder. Lesser aspects I have noted in regards to the Saturn ties also do include the trine, the sextile, and the inconjunct. They will have something over on you and can use it against you. Just be very aware of the Saturn placements in relationship charts.

9 Degrees of Virgo and Pisces are known as fatal degrees, body in the ditch. degrees and degrees of suffering. 9 degrees of Pisces is one of the worst degrees in the Zodiac.

Anyone has more information on the 9th degree of Pisces?
I'm asking because I have Saturn placed on the 9th of Pisces.

Lee surrenders to Grant.

The Federal Reserve Act in 1913. (Just had a transiting Pluto opposition Pluto - see chart in pictures of group.)

Which chart are you going by? The U.S. started in the 1700s no longer exist. The current U.S. is based on the purported & never ratified 14th amendment.

I'm not experienced in mundane astrology, but the USA will indeed have an exact Sun-Pluto opposition in next year's solar return. Not only a simple opposition, there will be in fact a grand cross (two oppositions connected with squares) between Sun, Pluto, Mars and Uranus. Though not exact, I believe the Mars-Uranus opposition will play a big part as well. The fact that it's a cardinal cross also implies added impact to the events that will take place next year, whatever they may be.

This, taken all by itself, can bring much internal tension, with the possibility of oppression (Sun/Pluto) followed by rebellion (Mars/Uranus). A possible scenario is the government (or the international community) imposing oppressive measures (possibly laws, since the Sun is in the 9th house), introducing restrictions and possibly taking rights away, and people will naturally react. However, it seems reactions will be subdued because Mars is weak in Libra and in the 12th house of self-undoing and weakness. Not only that, Saturn is also in the first house contributing to the oppression and restrictions.
Neptune transiting the 10th house has been weakening the country's/government's public image (especially now that Neptune has entered Pisces), and next year, it seems, it will try to impose itself more sternly.

That chart does seem to be the most often used by many & works. What I want to know is that do other charts based on some of the list I provided work concurrently with that chart as well. And if so, which ones?

Each major event should be reflected in the original chart so one would suspect that the important ones would work as well.

Now when does the U.S. have a flipped chart for its solar return, so we can know when this current nightmare will end?

One more thing to consider. Relocation charts. Philadelphia to New York to Washington, DC.
I used the Declaration of Independence with the 2:13 AM time since that's what Maxine recently mentioned she uses for her predictions in a sermon from the JoS Newsletter. Here's the excerpt, and it really does seem accurate:

"In the year 2020-2021, the USA solar return has a Mars/Saturn opposition across the ascendant/descendant axis, with Mars in the first house, as was with WW2, meaning war. Jupiter happened to aspect Mars in the 1941 return and this indicated the USA would win the war; Saturn is the opposite. I have always used the Gemini ascending chart for the USA, as Satanist Benjamin Franklin who was educated in astrology and the occult had the declaration signed after 2 am, putting Uranus on the ascendant for the US Natal chart. This has held up with everything, including the September 11th attacks."

I'm not experienced in mundane astrology, but the USA will indeed have an exact Sun-Pluto opposition in next year's solar return. Not only a simple opposition, there will be in fact a grand cross (two oppositions connected with squares) between Sun, Pluto, Mars and Uranus. Though not exact, I believe the Mars-Uranus opposition will play a big part as well. The fact that it's a cardinal cross also implies added impact to the events that will take place next year, whatever they may be.

This, taken all by itself, can bring much internal tension, with the possibility of oppression (Sun/Pluto) followed by rebellion (Mars/Uranus). A possible scenario is the government (or the international community) imposing oppressive measures (possibly laws, since the Sun is in the 9th house), introducing restrictions and possibly taking rights away, and people will naturally react. However, it seems reactions will be subdued because Mars is weak in Libra and in the 12th house of self-undoing and weakness. Not only that, Saturn is also in the first house contributing to the oppression and restrictions.

Neptune transiting the 10th house has been weakening the country's/government's public image (especially now that Neptune has entered Pisces), and next year, it seems, it will try to impose itself more sternly.

That chart does seem to be the most often used by many & works. What I want to know is that do other charts based on some of the list I provided work concurrently with that chart as well. And if so, which ones?

Each major event should be reflected in the original chart so one would suspect that the important ones would work as well.

Now when does the U.S. have a flipped chart for its solar return, so we can know when this current nightmare will end?

One more thing to consider. Relocation charts. Philadelphia to New York to Washington, DC.

I used the Declaration of Independence with the 2:13 AM time since that's what Maxine recently mentioned she uses for her predictions in a sermon from the JoS Newsletter. Here's the excerpt, and it really does seem accurate:

"In the year 2020-2021, the USA solar return has a Mars/Saturn opposition across the ascendant/descendant axis, with Mars in the first house, as was with WW2, meaning war. Jupiter happened to aspect Mars in the 1941 return and this indicated the USA would win the war; Saturn is the opposite. I have always used the Gemini ascending chart for the USA, as Satanist Benjamin Franklin who was educated in astrology and the occult had the declaration signed after 2 am, putting Uranus on the ascendant for the US Natal chart. This has held up with everything, including the September 11th attacks."

I really haven't studied enough of mundane astrology and countries' charts to give explanations, but I do feel that, in the case of the Declaration of Independence, it really takes the role of birth rather than conception. Just like an intercourse (reflected in the pre-natal epoch chart), the convention of leaders with the common idea of independence would take the role of conception.

From this convention begins the period of "gestation" in which the document was carefully prepared. Then everything converges to the moment in which the document was officially signed, thus giving birth to the new country.

I'm not american and I really haven't studied the US history very deeply, so I might be losing some details here.

Now, for the proper beginning of a career I believe there can only be a general idea and not a precise "birth" time. The career itself is an aggregate of activities (all of which start and end at different times) undertaken within a common professional theme, so there isn't a way to cast a chart for that... only (maybe) for the individual activities/jobs that constitute the whole and these would be limited to themselves.

A career would generally, but not always, mean being compensated for services, whereas learning or training would not necessarily be. A lot depends on specifics. Paying to learn then being paid. You don't really have a career until someone pays you for it. A degree with not ever having practiced what the degree is for is not a career.

Well, this is way out of topic lol, but I have to disagree. Though I agree that a degree that was never used does not make a career, the career is a much broader concept than just having a job, or even having a job and being compensated for it.

Rather, the career is a path one follows in life which, of course, shines through the professional side but is composed of many other things such as studies (skills/knowledge to practice an activity), social position, contacts with other people as well as the job and the money. A person following an academic career can surely be considered starting a career from the beginning of his/her undergraduate course, for example, as it
would be considered the very first step.

The 10th house trines the 6th and the 2nd but does not rely on them for its concept to exist, therefore the career does not depend intrinsically on the job or the money even if they are parts of it. The compensation definitely isn't so important to define a career since it invariably comes from others and isn't really self-generated: the second house from the 10th is the 11th house of large groups of people and the second from the 6th is the 7th of the associates or clients.

My business is architectural & structural engineering. I can't consider drawing with crayons & pencils as a preschooler, etc. as part of my career origins. Yet in reality, it really was.

My chart for my first job still works for my career of now over 30 years, even though that job ended a year after it began. Being paid to do something indicates that you really are no longer in training. However, one could earn something as an intern. And of course one also never stops learning. So to me, where do you make a demarcation point? Some people don't have college either. I can do what I do without college, a degree or a license in Texas with restrictions (types &/or size of projects mainly). The engineering part is limited to drafting only as a license is required for that. I have zero college except for some programing courses taken 15 years ago at a community college. Drafting was not offered in my school until 9th grade. I could have taken it in 12th, but didn't. I got my first job at 22 almost 23. Thus there was 5 years of having done absolutely nothing related to my profession. Additionally, I had all of my math credits to graduate high school by the end of the 9th grade. LOL!

The 10th house is public standing. If you have a career, then it falls under that. Not everyone has a career. Everyone does have a public standing. The 6th is simply any job (the job itself) that you have or will have & the immediate surroundings (environment) of that job. (Of course the 6th also rules the condition/health of the body as well as employees or servants if you have them. Pets are the 6th house & are actually considered servants. Some farm animals clearly are. Dogs can be used for many things.

If I ever became a professional astrologer, I wouldn't consider my first reading of horoscopes in the newspaper as my beginning. I would consider the beginning as being part of my Neptune sextile Neptune & Saturn return. However, at the time of my would be first fee, I would consider it the beginning of new my career.

Back to Pluto/Sun. I have natal Pluto within 2 degrees of my ascendant in Virgo. I also have Mercury, the Moon & Neptune in Scorpio. Venus is barely in Sagittarius. My natal Sun is Libra & barely in Libra. I have experienced transiting Pluto conjunct my natal Sun. Transiting Pluto conjunct my secondary progressed Sun. I also have had Solar Arc Pluto conjunct my natal Sun. Pluto has conjuncted all of my planets now but Saturn and Mars. It will never conjunct Mars, but I will experience the opposition to it. The only opposition I will ever have from transiting Pluto. Pluto conjuncted my ascendant in retrograde after birth. (Hurricane Carla.) Pluto also conjuncted all of these midpoints as well. Pluto has been in range of conjuncting my Saturn, but has yet to be exact. It will next year. My chart is a locomotive. Death and transformation for me is simply everyday existence. I consider myself a Plutonian.

Rather, the career is a path one follows in life which, of course, shines through the professional side but is composed of many other things such as studies (skills/knowledge to practice an activity), social position, contacts with other people as well as the job and the money. A person following an academic career can surely be considered starting a career from the beginning of his/her undergraduate course, for example, as it would be considered the very first step.

The 10th house trines the 6th and the 2nd but does not rely on them for its concept to exist, therefore the career does not depend intrinsically on the job or the money even if they are parts of it. The compensation definitely isn't so important to define a career since it invariably comes from others and isn't really self-generated: the second house from the 10th is the 11th house of large groups of people and the second from the 6th is the 7th of the associates or clients.

No conjunction of Uranus or opposition to Uranus as well.

Back to Pluto/Sun. I have natal Pluto within 2 degrees of my ascendant in Virgo. I also have Mercury, the Moon & Neptune in Scorpio. Venus is barely in Sagittarius. My natal Sun is Libra & barely in Libra. I have experienced transiting Pluto conjunct my natal Sun. Transiting Pluto conjunct my secondary progressed Sun. I also have had Solar Arc Pluto conjunct my natal Sun. Pluto has conjuncted all of my planets now but Saturn and Mars. It will never conjunct Mars, but I will experience the opposition to it. The only opposition I will ever have from transiting Pluto. Pluto conjuncted my ascendant in retrograde after birth. (Hurricane Carla.) Pluto also conjuncted all of these midpoints as well. Pluto has been in range of conjuncting my Saturn, but has yet to be exact. It will next year. My chart is a locomotive. Death and transformation for me is simply everyday existence. I consider myself a Plutonian.

My business is architectural & structural engineering. I can't consider drawing with crayons & pencils as a pre-schooler, etc. as part of my career origins. Yet in reality, it really was.

My chart for my first job still works for my career of now over 30 years, even though that job ended a year after it began. Being paid to do something indicates that you really are no longer in training. However, one could earn something as an intern. And of course one also never stops learning. So to me, where do you make a demarcation point? Some people don't have college either. I can do what I do without college, a degree or a
license in Texas with restrictions (types &/or size of projects mainly). The engineering part is limited to drafting only as a license is required for that. I have zero college except for some programming courses taken 15 years ago at a community college. Drafting was not offered in my school until 9th grade. I could have taken it in 12th, but didn't. I got my first job at 22 almost 23. Thus there was 5 years of having done absolutely nothing related to my profession. Additionally, I had all of my math credits to graduate high school by the end of the 9th grade. LOL!

The 10th house is public standing. If you have a career, then it falls under that. Not everyone has a career. Everyone does have a public standing. The 6th is simply any job (the job itself) that you have or will have & the immediate surroundings (environment) of that job. (Of course the 6th also rules the condition/health of the body as well as employees or servants if you have them. Pets are the 6th house & are actually considered servants. Some farm animals clearly are. Dogs can be used for many things.

If I ever became a professional astrologer, I wouldn't consider my first reading of horoscopes in the newspaper as my beginning. I would consider the beginning as being part of my Neptune sextile Neptune & Saturn return. However, at the time of my would be first fee, I would consider it the beginning of new my career.

Well, this is way out of topic lol, but I have to disagree. Though I agree that a degree that was never used does not make a career, the career is a much broader concept than just having a job, or even having a job and being compensated for it.

It can go that way with some! Some are really outgoing. My best friend and dad are strong saggitarians and they're the most hilarious fun and honest people I know, trust the shit out of em. Sometimes one is very ignorant.. my mom has a saggitarius ac, and is actually a sun Aries and doesn't go out and socialize with anyone. She's the biggest hermit. But I'm not sure that it is truly because she is shy, or just that she feels so independent/ set apart from the crowd that she doesn't exactly fit in. and she's okay with that. Maybe its that way for you. Fire can be that way! Its not a watery type shy just a sort of... loss of common ground at times? Maybe I'm right maybe I'm wrong!
I wouldn't say its always true, my Saturn strongly placed.... Venus and the sun are conjunct and opposition to it. Maybe I don't see it yet but the effects of the Saturn Venus aspect are directed really nicely, or were easier to overcome. Never had a problem with my love life either. I would start a relationship sometimes and start feeling restricted a week later and call it quitters. And the dude who's Wang I first got all up in the grills of the basement with was a total mistake, but...... as for the sun, nah man I hardly even see it. My dad and I aren't close and I did get a hatred for him at some point around 13 because of it but that's out. Basically I think with those two planets almost building a filter I think there are ways around Saturn. That's with dedication and meditation, I hardly notice!

**Placement of and aspects to Saturn**
Saturn is where we get our ass kicked in life. Aspects from Saturn to the other planets, and the house and sign Saturn is in reveal where we will experience problems, limitations, losses, and denials in life.

How can I find when my next saturn will kick my ass again? Is it possible to find this information?

In my Birth chart I got some Saturn's but I don't understand how can I predict when the next one will happen again?

I made some research on the internet and people say this conjuction is of obsesssive people, overly dominating and possessive, and self-destructive because of this...

I have moon conjuct pluto (0'29º) on house 12. Also my ascendant is scorpio, and I have both moon and pluto on it. I have sun, venus and mercury on libra on house 12 too, but I think the scorpio side dominates more because sun is weak on libra...

Is it really bad for me? I do have very dominating/obsessive mother (no joke here, almost to the point of sickness). Was I born with the formula to get fucked up? haha

I came across your message when approving messages. These groups are so screwed up, I don't normally reply. I can't reply back to this post, if there are any more questions.

Pluto/Moon aspects usually relate to one's mother and you mention below she is domineering. This is your Pluto/Moon conjunction. The Moon has to do with one's mother. Pluto/Moon aspects, especially the hard aspects and even more so if they are very tight, indicate a domineering/possessive mother and/or a very close relationship with one's mother. In some cases, the mother relationship can be very close through one's adult years.

The father is ruled by the Sun. Pluto/Sun aspects indicate the very same with one's father.

The 4th house Pluto also often indicates the same and can be both the mother and the father.

In nearly all cases, the parental influence is extremely strong. I knew a man who had a very tight Sun/Pluto square and he had no father. This affected him deeply. Whether the parent is in the life or is absent, the influence is very strong.

When reading a chart, though, you have to look at all of the chart, the houses, and such. Say someone with the Pluto/Moon has a 4th house Saturn; then, the mother's influence can be harmful and destructive. It is the same with a hard Saturn/Moon aspect in addition to the Pluto/Moon.

I knew a man who had a Pluto/Moon opposition. His Moon was in Capricorn, which has a Saturn-like influence over one's emotions [emotional needs not met]. He had a third house Saturn [siblings], and Scorpio on the cusp of the 3rd house. He had a close relationship with his mother for all of his life. Mother would telephone on a very frequent basis and he would bring his family to mother's house nearly every weekend and all holidays for a meal and to visit. Mother favored the younger brother to an extreme [Saturn in the third- problem with a sibling], and Scorpio on the cusp, indicating jealousy of
a sibling. He, himself had an obsession with his mother, always wanting her approval and love which he never got. The younger brother also had a Pluto/Moon aspect, as she was very controlling of him as well. I saw this go on for over 40 years. The younger brother, who was spoiled to an extreme, had Jupiter in Aries, as he was extremely self-centered. There was an eldest sister and she moved to a far away state, and escaped some of this, but the mother still kept in very close contact with her as well and would visit her regularly every year and the sister would come home for the Yule season and such.

Actress Judy Garland, who played Dorothy in the 1939 Wizard of Oz, got that part at 14 through the "casting couch." Her mother made her sleep with dirty old men at that young age and even worse and any knowledgeable astrologer can see the rotten mother influence in her chart. Virgo rules her fourth house of the mother. Virgo on the 4th often gives a very critical mother who can also be a neat freak. Saturn at 0 of Libra [very critical degree] in the 4th house indicates a hard family life and problems with the mother. Ruler of her 4th; Mercury is in the 12th of undoings and misfortune, and is at 0 of Cancer, another very critical degree, exactly squaring Saturn. Adding into this, her Moon at 29 of Sagittarius [mother] is in very tight square aspect to Saturn, again- problems with the mother; anything from emotional needs not being met to emotional and physical abuse.

Marilyn Monroe was another, who had a bad mother influence. Her mother went insane when Marilyn was very young and had to be institutionalized, leaving Marilyn an orphan who was placed in over 15 different foster homes during her childhood and orphanages. Saturn in her 4th house is at 21 of Scorpio, conjunct fixed star Unukalhai of loss. This Saturn also squares her Aquarius Moon. The Saturn in her chart is also the singleton of a bucket configuration. The single planet "drives" the entire chart, meaning, it has a much stronger influence than the other planets, both in the personality and the events in ones life. It is a stand out planet. Her unhappy childhood never left her and was the focus of causing her life-long emotional problems. Scorpio on the cusp of her 4th is rules by Pluto at 13 degrees of Cancer, right on the cusp of her 12th house at 13 of Cancer. 13 degrees of cardinal signs is also a critical degree, giving the planet a stronger influence.

The above two examples are what I am referring to in reading a chart accurately, as with the bad Moon aspects, there are many more placements and aspects that support the bad mother influence. The more there are like this, the worse the situation is.

Also, a while ago in this group, there were posts regarding a lack of an element. Helen Keller, blind and deaf from early childhood, with her ruler at 15 of Leo [degree that often brings physical problems regarding sight and/or hearing and other] and no planets in air signs [communications and senses], and only one planet in an air house, spent most of her life communicating. She wrote books and from what I understand, even lectured to audiences. Point being, those who lack an element often manifest that element in an entirely different way. The lack of air and her ruler at 15 of Leo made her blind and deaf, but she did communicate.

Just as for example, someone with no water signs. This does not make one cold and callous. Quite the contrary. It makes for one who expresses and experiences their emotions differently. I know someone who has no water and this person is exceptionally caring and has very deep feelings, and is very compassionate. Those who lack an element express that element differently than those who have planets in the element.

I have quite a few personal stories about hard Moon-Pluto aspects and lack/excess of an element.

My mother died when I was three from a sudden heart attack (or something, her death was not really investigated). Literally, one day she was there and in the next she was not. I went to live with my father, but not without the ever strong presence of my very plutonian grandmother (my mother's mother), who even has Pluto in Cancer in the 4th house. She was so deeply connected with my mother that she couldn't let her go, it's been almost 20 years and she still begrudges everything related to my mother's death as well as other nasty stuff from ther past.

I also happened to live with a professional astrologer for several months last year. I was new and alone in another city and her son (who was my friend, but didn't live with her) said she would have me if we shared the expenses in half. I obviously accepted since she seemed to be a very nice woman. She was very experienced and as I was learned in astrology as well, we became very close, very quickly. I met her entire family, became close friends with one of her daughters, met all of her closest friends and it was like we had known each other forever. She started treating me as something of a son.

One thing rubbed me the wrong way, though, as I couldn't understand why would her son and two daughters not want to live with her. They all had different fathers, all of their fathers had left her and all of them were very clear stating that though they loved her, she was an extremely difficult person to live with and preferred to stay at a healthy distance.

I could see where that was coming from, as she had Pluto in Virgo exactly conjunct her ascendant and Mars conjunct her Moon in Cancer, but couldn't really see it in her immediatly as she was really, really nice... it was not very long however until I started noticing all the signs that she was an EXTREMELY controlling person, who would only have her way, and ONLY her way for everything. She would have sudden extreme emotinal explosions and threw tantrums as if she were a child (she had Uranus in Leo, quite close to her
ascendant as well), not to mention that she would nitpick every little fault in everything she saw. She was extremely obsessive about order and cleanliness as well.

Eventually she started having some problems with money as she was losing a lot of her clients and she started to become even more unstable. I helped her any way I could and paid pretty much all the bills in this period. At one point she "asked" for my participation in a new astrology project she came up with to get some money, but I declined since it involved showing our images on the internet and I wasn't comfortable with that. The next day she simply threw me out of the house, even after all the help I gave her. No questions asked, no explanations given. All the bonds I had formed with her were cut in a few hours.

These are the strongest factual evidences I have of my exact Moon-Pluto square (0°00' orb). I tend to become involved with strongly plutonian mother figures, form strong bonds with them very quickly and then experience sudden (often traumatic) separations. Bonds are something of a taboo for me and that's caused me a lot of trouble ever since I was a child. Not only that, I also have Virgo in the 4th House, fitting with their overall profile. My grandmother is extremely critical of others, an absolute neat freak, as is my stepmother (Sun and 4 other planets in Virgo).

Of course I could only understand and start working on that when I learned astrology.

Incidentally, this astrologer shared some of her experiences with me and said pretty much exactly what Maxine said. Most people with a lack of a certain element tend to overcompensate it somehow and attract situations related to them: people with little to no air are generally given to study, they always search for more information (even if not formally) and tend to hone their communication skills; people with little to no earth will be always looking for material comfort and all kinds of security even if they have plenty of it, it will never be enough for them; people with little to no fire will do their very best to be noticed by others and people with little to no water will tend to be emotional and go through many emotional situations.

The opposite can also be true: with an excess, this element will be so strong and so natural in this person's makeup that he/she will either deal with it very well or neglect it completely, concealing its excess, even though it *is* still there and will show up in certain situations. I've personally noticed that people with little to no water and lots of air tend to be most often the overly emotional ones, those who explode in tears and suffer many emotional ups and downs.

If I ever became a professional astrologer, I wouldn't consider my first reading of horoscopes in the newspaper as my beginning. I would consider the beginning as being part of my Neptune sextile Neptune & Saturn return. However, at the time of my would be first fee, I would consider it the beginning of new my career.
Well, this is way out of topic lol, but I have to disagree. Though I agree that a degree that was never used does not make a career, the career is a much broader concept than just having a job, or even having a job and being compensated for it.

Rather, the career is a path one follows in life which, of course, shines through the professional side but is composed of many other things such as studies (skills/knowledge to practice an activity), social position, contacts with other people as well as the job and the money. A person following an academic career can surely be considered starting a career from the beginning of his/her undergraduate course, for example, as it would be considered the very first step.

The 10th house trines the 6th and the 2nd but does not rely on them for its concept to exist, therefore the career does not depend intrinsically on the job or the money even if they are parts of it. The compensation definitely isn't so important to define a career since it invariably comes from others and isn't really self-generated: the second house from the 10th is the 11th house of large groups of people and the second from the 6th is the 7th of the associates or clients.

It isn't unusual for a Plutonian to completely cut ties, friendships, etc., etc. in a heart beat. If they can't do so because they have to still be around them such as in a working environment, they will act as if the other person doesn't even exist.

I work at home for that very reason. (Truthfully, there are more reasons, however ....) I generally can't stand most people anyway. Call that attitude whatever you want. I don't care. (Plutonian attitude as well.)

Most people either love me or hate me. Some people go from loving me to hating me as well. I wouldn't have it any other way.
I also happened to live with a professional astrologer for several months last year. I was new and alone in another city and her son (who was my friend, but didn't live with her) said she would have me if we shared the expenses in half. I obviously accepted since she seemed to be a very nice woman. She was very experienced and as I was learned in astrology as well, we became very close, very quickly. I met her entire family, became close friends with one of her daughters, met all of her closest friends and it was like we had known each other forever. She started treating me as something of a son.

One thing rubbed me the wrong way, though, as I couldn't understand why would her son and two daughters not want to live with her. They all had different fathers, all of their fathers had left her and all of them were very clear stating that though they loved her, she was an extremely difficult person to live with and preferred to stay at a healthy distance.

I could see where that was coming from, as she had Pluto in Virgo exactly conjunct her ascendant and Mars conjunct her Moon in Cancer, but couldn't really see it in her immediately as she was really, really nice... it was not very long however until I started noticing all the signs that she was an EXTREMELEY controlling person, who would only have her way, and ONLY her way for everything. She would have sudden extreme emotinal explosions and threw tantrums as if she were a child (she had Uranus in Leo, quite close to her ascendant as well), not to mention that she would nitpick every little fault in everything she saw. She was extremely obsessive about order and cleanliness as well.

Eventually she started having some problems with money as she was losing a lot of her clients and she started to become even more unstable. I helped her any way I could and paid pretty much all the bills in this period. At one point she "asked" for my participation in a new astrology project she came up with to get some money, but I declined since it involved showing our images on the internet and I wasn't comfortable with that. The next day she simply threw me out of the house, even after all the help I gave her. No questions asked, no explanations given. All the bonds I had formed with her were cut in a few hours.

These are the strongest factual evidences I have of my exact Moon-Pluto square (0°00′ orb). I tend to become involved with strongly plutonian mother figures, form strong bonds with them very quickly and then experience sudden (often traumatic) separations. Bonds are something of a taboo for me and that's caused me a lot of trouble ever since I was a child. Not only that, I also have Virgo in the 4th House, fitting with their overall profile. My grandmother is extremely critical of others, an absolute neat freak, as is my stepmother (Sun and 4 other planets in Virgo).

Of course I could only understand and start working on that when I learned astrology.

Incidentally, this astrologer shared some of her experiences with me and said pretty much exactly what Maxine said. Most people with a lack of a certain element tend to overcompensate it somehow and attract situations related to them: people with little to no air are generally given to study, they always search for more information (even if not formally) and tend to hone their communication skills; people with little to no earth will be always looking for material comfort and all kinds of security even if they have plenty of it, it will never be enough for them; people with little to no fire will do their very best to be noticed by others and people with little to no water will tend to be emotional and go through many emotional situations.

The opposite can also be true: with an excess, this element will be so strong and so natural in this person's makeup that he/she will either deal with it very well or neglect it completely, concealing its excess, even though it *is* still there and will show up in certain situations. I've personally noticed that people with little to no water and lots of air tend to be most often the overly emotional ones, those who explode in tears and suffer many emotional ups and downs.

Pluto/Moon aspects usually relate to one's mother and you mention below she is domineering. This is your Pluto/Moon conjunction. The Moon has to do with one's mother. Pluto/Moon aspects, especially the hard aspects and even more so if they are very tight, indicate a domineering/possessive mother and/or a very close relationship with one's mother. In some cases, the mother relationship can be very close through one's adult years.

The father is ruled by the Sun. Pluto/Sun aspects indicate the very same with one's father.

The 4th house Pluto also often indicates the same and can be both the mother and the father.

In nearly all cases, the parental influence is extremely strong. I knew a man who had a very tight Sun/Pluto square and he had no father. This affected him deeply. Whether the parent is in the life or is absent, the influence is very strong.

When reading a chart, though, you have to look at all of the chart, the houses, and such. Say someone with the Pluto/Moon has a 4th house Saturn; then, the mother's influence can be harmful and destructive. It is the same with a hard Saturn/Moon aspect in addition to the Pluto/Moon.

I knew a man who had a Pluto/Moon opposition. His Moon was in Capricorn, which has a Saturn-like influence over one's emotions [emotional needs not met]. He had a third house Saturn [siblings], and Scorpio on the cusp of the 3rd house. He had a close relationship with his mother for all of his life. Mother would telephone on a very frequent basis and he would bring his family to mother's house nearly every weekend and all holidays for a meal and to visit. Mother favored the younger brother to an extreme [Saturn in the third- problem with a sibling], and Scorpio on the cusp, indicating jealousy of a sibling. He, himself had an obsession with his mother, always wanting her approval and love which he never got. The younger brother also had a Pluto/Moon aspect, as she was very controlling of him as well. I saw this go on for over 40 years. The younger brother, who was spoiled to an extreme, had Jupiter in Aries, as he was extremely self-centered. There was an eldest sister and she moved to a far away state, and escaped some of this, but the mother still kept in very close contact with her as well and would visit her regularly every year and the sister would come home for the Yule season and such.

Actress Judy Garland, who played Dorothy in the 1939 Wizard of Oz, got that part at 14 through the “casting couch.” Her mother made her sleep with dirty old men at that young age and even worse and any knowledgeable astrologer can see the rotten mother influence in her chart.

Virgo rules her fourth house of the mother. Virgo on the 4th often gives a very critical mother who can also be a neat freak. Saturn at 0 of Libra [very critical degree] in the 4th house indicates a hard family life and problems with the mother. Ruler of her 4th; Mercury is in the 12th of undoings and misfortune, and is at 0 of Cancer, another very critical degree, exactly squaring Saturn. Adding into this, her Moon at 29 of Sagittarius [mother] is in very tight square aspect to Saturn, again- problems with the mother; anything from emotional needs not being met to emotional and physical abuse.

Marilyn Monroe was another, who had a bad mother influence. Her mother went insane when Marilyn was very young and had to be institutionalized, leaving Marilyn an orphan
who was placed in over 15 different foster homes during her childhood and orphanages. Saturn in her 4th house is at 21 of Scorpio, conjunct fixed star Unukalhai of loss. This Saturn also squares her Aquarius Moon. The Saturn in her chart is also the singleton of a bucket configuration. The single planet drives the entire chart, meaning, it has a much stronger influence than the other planets, both in the personality and the events in ones life. It is a stand out planet. Her unhappy childhood never left her and was the focus of causing her life-long emotional problems. Scorpio on the cusp of her 4th is rules by Pluto at 13 degrees of Cancer, right on the cusp of her 12th house at 13 of Cancer. 13 degrees of cardinal signs is also a critical degree, giving the planet a stronger influence.

The above two examples are what I am referring to in reading a chart accurately, as with the bad Moon aspects, there are many more placements and aspects that support the bad mother influence. The more there are like this, the worse the situation is.

Also, a while ago in this group, there were posts regarding a lack of an element. Helen Keller, blind and deaf from early childhood, with her ruler at 15 of Leo [degree that often brings physical problems regarding sight and/or hearing and other] and no planets in air signs [communications and senses], and only one planet in an air house, spent most of her life communicating. She wrote books and from what I understand, even lectured to audiences. Point being, those who lack an element often manifest that element in an entirely different way. The lack of air and her ruler at 15 of Leo made her blind and deaf, but she did communicate.

Just as for example, someone with no water signs. This does not make one cold and callous. Quite the contrary. It makes for one who expresses and experiences their emotions differently. I know someone who has no water and this person is exceptionally caring and has very deep feelings, and is very compassionate. Those who lack an element express that element differently than those who have planets in the element.

Look to your house/s in your chart that have Capricorn on the cusp; also look to the house placement of Saturn, and to a lesser extent, the house/s with Aquarius on the cusp. The affairs ruled by these placements should give you an idea of where any problems will manifest.
In addition, the nature of Saturn, as well. Do any other planets tie in, as with tight aspects? Does your Saturn align with your lunar nodes? All of this is important. Planets at 9 degrees, I have noted are very bad, but of Virgo and Pisces, these are worse. Be aware... no astrology chart is perfect. No one gets through this life unscathed. Knowing where potential problems can come from can be a great help in working to prevent them.

I have a bit of time today, so I can go into an example. I read a book some time ago about a woman [she had Jupiter at 9 degrees of Virgo, in exact opposition to Uranus at 9 of Pisces. When aspects like this are tight [within 1-2 degrees of orb], or even more intense-exactly the same degree, these are fated events in the life. If three or more planets link up, this is even more so. This woman's father was a Jewish communist. He worked for the Ford Motor Company here in the USA, but was involved in communist activities. This was back in the late 1920s and early 1930s. After the 1929 depression hit here, many at Ford feared job loss and related. Back then, Stalin; the USSR had more deceitful come-a-long-brotherhood programs, promising a 'worker's paradise' and good living, etc. Ford Motor Company had opened a plant at Gorky in the USSR. Through this, American workers were invited to get this plant established; spending 1-2 years in Gorky. This situation was not only limited to Ford Motor Company, but was a swindle to get Americans to the USSR in many other areas; exploiting the depression and hard economic times here. Other families, totally unrelated to this particular experience were duped into this as well. This woman in the following example was known to be the only female American survivor of the Siberian gulag.È

Sorry for the repeat, but this will go much faster; I just found, copied, and pasted this from what I wrote in an e-mail some time ago regarding this case:

I noted a case where a woman had a Uranus/Jupiter opposition at 9 degrees of Virgo and Pisces- degrees of extreme suffering. Jupiter has to do with travel and though her birth time was not given, I am led to believe she had Aquarius on her ascendant by the events that took place in her life according to the biography. Jupiter opposed her ruling Uranus and got her through unimaginable hell and by 'hell' I mean that as a figure of speech. Jupiter is a protector in a sense, but can still bring extreme misfortune when placed on a bad degree.

In 1932, when this woman was eleven years old [she was born in 1921], her father worked for the Ford automobile plant in Detroit. Times were hard with the depression and he was duped along with many others into leaving the USA and moving to Gorky in the USSR, under Stalin. Same old Jewish brotherhood programs, like xianity, promising a better life and a 'worker's paradise.' Now, Jupiter rules foreign countries and travel. Hers was at 9 of Virgo, a degree of extreme suffering. They were to stay in Gorky and work on a new Ford plant over there under the direction of Ford for about a year, then return back to the USA. Needless to say, at her early age, when they arrived in Moscow, she noted how there was something wrong, the people were dressed in rags and were notably hungry and freezing in the bitter cold. The streets were very dreary, no heat in the street cars or any other transportation and everyone looked exceptionally depressed. They were moved to a one room flat. They had to share a kitchen and bathroom down the hall and both were in horrendous filth, especially the bathroom. To take a bath or a shower, one had to walk some 3-4 blocks down the street to the public bathhouse. Every other day, they alternated the men and women. There was no variety of food, only fish and stale black bread and porridge for every meal. But, this was paradise compared to what followed in this woman's life.
In 1938, they were still there and her father was arrested by the NKVD and she and her mother never saw or heard from him again. They were ousted from their one room flat, as they no longer had any income or any rights at all. They moved to a tiny closet in the basement of some rat trap building and then looked for work. Then the war came. They lived on rotten potatoes and other garbage of which they worked brutally for. There was little or no heat through the Russian winters in their places of dwelling. She was forced to dig anti-tank ditches until her hands bled for hours and hours every day—sun up to sun down in the bitter cold. Her mother walked several miles to get sacks of the rotten potatoes they survived on. After the war, the NKVD arrested her as she said the wrong thing innocently about wanting to go back to the USA to some British visiting military over there and word got back they tried to get her out of there. Even the worst American prisons are nothing compared to the prisons in Russia. She was sentenced to 10 years in a Siberian labor camp, of which she is the only known American woman to survive. It was unimaginable suffering. She finally made it back to the USA through risking her life, though it was late in her life, if I remember correctly, she was in her 60s. What I read of what she went through was horrific.

I do note, when the chart ruler is at 9 of Virgo or Pisces, it is much worse than other planets in the chart. There was another case, which was the worst I had ever seen. A woman had her chart ruler, the Moon at 9 of Pisces, opposing Pluto at 9 degrees of Virgo, with Jupiter at 9 of Aries [another bad degree] tying in. Semi-sextiles, I have found in my research are not so much personality traits as they are fated experiences in ones life. Mars opposed Saturn at 22 of Leo and Aquarius [both bad degrees] across her 3rd/9th house axis of travel. This tied into Capricorn on the 7th house, which is often abuse/misfortune coming from others. Her Sun/Mercury conjunction was at 26 of Taurus, in conjunction with Caput Algol of violence. Her ascendant was at 6 of Cancer; 6 of cardinal signs often indicating a physical problem or handicap. When she was 15 years old, her natal south node was tightly conjunct the ascendant of her solar return for the year. This is always something fated, but by itself, is not always bad. You have to look at everything. In this case, it was horrendous. Like I said, this was about the worst astro chart I had ever seen. Her 1978 solar return also had the Saturn in conjunction with Mars 15 degrees of Leo [another hideous degree], but this was loose, in the solar return 7th house for that year. I note when certain aspects repeat in a return chart like that; those that have a tight aspect in the natal chart, this will trigger a fated event within that year, and the aspect does not have to be the same. In this case, Saturn opposed Mars [violence] in her natal chart and in the solar return chart, they conjoined.

She ran away from home that year and wound up in California. Her living situation did not work out and she made the bad judgment of hitching a ride. She was financially broke, etc. A devout Christian picked her up. He then took her into the desert, raped her, stabbed her and chopped her arms off, with an axe, of which she survived. His planets tied right into hers for violence. He was given a light prison sentence and upon release, stabbed another woman to death after raping her. The former woman who survived was forced to testify at this new trial when her lunar nodes were conjoined by transiting the nodes. The nodes are not personality traits, but points of fate in ones chart.

In closing, always remember this, as it is extremely important. I have studied astrology on my own for many, many years. The case above, I came across in an astrology book and then did some of my own research. This was a long time ago. I believe the author was Edna Rowlands or something like that, I can’t remember. Never, ever have I run across a murder/victim case, where the murderer’s Saturn was not in hard aspect to the victims ruler. Saturn is our weak point in our own charts; where we suffer and experience related...
losses through life, but it is a point of our own personal power when relating to others.
Always check the charts of others for their Saturn position in relating to your chart ruler/s. The hard aspects, such as the conjunction, square, and opposition are blatant, but also be aware of the semi-sextile, the semi-square, the inconjunct and the sesi-square. At least, this person can bring problems into your life; victimizing you in some way, or at worst, mayhem and murder. Lesser aspects I have noted in regards to the Saturn ties also do include the trine, the sextile, and the inconjunct. They will have something over on you and can use it against you. Just be very aware of the Saturn placements in relationship charts.

But I guess if we aren't wise enough before the events, we must learn with its consequences.

I felt so easy all my life to cut ties with people, even them being really important before. Very good influence from Pluto, I see this intensity as a way to be free, leaving what doesn't matter and sticking to the important things.

I have quite a few personal stories about hard Moon-Pluto aspects and lack/excess of an element.

My mother died when I was three from a sudden heart attack (or something, her death was not really investigated). Literally, one day she was there and in the next she was not. I went to live with my father, but not without the ever strong presence of my very plutonian grandmother (my mother's mother), who even has Pluto in Cancer in the 4th house. She was so deeply connected with my mother that she couldn't let her go, it's been almost 20 years and she still begrudges everything related to my mother's death as well as other nasty stuff from her past.

Thank you very much for the analysis and the examples!
Lots of things said there were really familiar to me! I do have this kind of crazy mother, mine is so angry and obsessive that it can be considered sickness, beating me all the time even with punches until 18-19 years. Now that I'm older with 23 and strong I just have to deal with her huge negativity and extreme agressive and volatile temper at least.
I also have saturn on capricorn on the third house, which shows exactly my relation with older sister in my childhood.
My older half-sister was very abusive with me when I was young, making me feel bad, afraid or cry just for fun, and she was/is also the favorite of my mother. Many times frightening me with ghosts, since I'm aware of my family psychic history.
But this I could completely get rid of, and the huge fear from ghosts I had that stoped me from trying Astral Projection for 6 years, got completely destroyed after last months of power meditation and raising my aura of protection. I got a big confidence on myself, like never before. I feel I'm more in control and not a victim waiting to be punished.
I will try to learn and consider the other planets effects on my chart.. I have 5 planets on the house of misfortune plus this family stuff, but somehow I'm a very lucky guy and accomplish 95% of what I try, so I'm missing some important details for sure, or maybe I received their positive aspects.
I still don't have knowledge enough to read entirely my own chart, but from what I could read only with the information of the JoS, most of things were like if you got a book of my life and wrote it down, with mother, sister, interests, travels, the big need to be alone... Everything! I will keep on practicing.
It was really shocking for me to see astrology so serious as I see now, after the shocking revelations about my life. I thought it was just a delusion of new age and drug addicted hippies.
My sincere Thanks to HP Maxine and AZAZEL for turning this marvelous tool available for us!

Sorry for the long selfish post, but its one more for statistics of Pluto-Moon and Saturn on 3rd house.

Subject: Re: The 9th Degree
As for the USA chart, I have always used the 2:17 am version. This has been highly accurate, not only through researching historical events, but also the 911 everything recent. Benjamin Franklin who was a Satanist, had the Declaration signed at that time, as he was an astrologer. I know history has been altered and rewritten. There are quite a few notable astrologers who also use the 2:17 version and swear by it. Do some research on your own and you will see what I mean.

The solar return for the USA in 1941 had Mars at 1 degree of Aries [exceptionally critical], placed in the SR first house, intercepted. The SR ascendant for that year was at 24 of Pisces, aligning with SR Saturn at 24 of Taurus, conjunct fixed star of extreme violence Caput Algol. SR Saturn was in conjunction with SR Uranus. The attacks on Pearl Harbor were sudden, unexpected and by surprise. Uranus is the planet of the unexpected, and the sudden. SR ruler Neptune at 25 of Virgo conjunct SR descendant also tied in. Transiting Jupiter was exactly in conjunction with USA chart co-ruler Uranus and USA chart ascendant. This influenced a favorable outcome and acted as a protective influence. There are many more indications of war in the solar return. I have to cut this a bit short here, as I don't have time.

Mars is always involved regarding war, as it rules over war. As for the US Civil War, Mars was in tight conjunction with the Moon in the solar return. The Moon indicated domestic and not foreign. The SR Moon/Mars conjunction in late degrees of Capricorn, opposed SR stellium in Leo; Jupiter, Mercury and Venus; seesaw configuration, indicating a split. Progressed Mars for that year was at 15 of Leo, a very bad degree.

The 2021 solar return for the USA has SR Mars at 14 of Leo, conjunct the SR ascendant. This in addition to being one degree away from 15 of Leo, is at the 14th degree. I have found the 14th degree is a very sensitive point for the USA. It aligns with the USA chart Saturn and the USA chart IC/Midheaven axis. 14 degrees was very prevalent with the 911 attacks, it was all over the place.

This SR Mars is in tight opposition to SR Saturn, which is in conjunction with the SR descendant, in the 7th house of others [foreign countries]. The SR Saturn is in very tight conjunction with the USA chart midheaven. SR [and transiting] Pluto at 25 of Capricorn is opposing USA chart ruler Mercury, bringing major and permanent changes. SR ruling Sun is in the SR 12th house of undoing and misfortune. Tight SR Moon/Uranus conjunction in the SR tenth [ruling the presidency] possibly indicates an assassination? 29 degrees is on the SR IC/midheaven axis.

USA progressed planets for that year include progressed solar arc Jupiter at 9 of Pisces; fatal degree, progressed solar arc Mercury [USA chart ruler] at 29 of Pisces, which is a degree of endings, progressed Mercury is at 21 of Aquarius, a critical and unfortunate degree, progressed solar arc Neptune is conjunct Caput Algol, progressed Pluto of power is on another degree of endings- 29 of Capricorn.

I am short on time, but it appears problems will be manifesting from 2015 onward. Aside from transiting Saturn entering Sagittarius [this nearly always causes a financial crisis], the 1929 crash and the 1987 crisis, SR Neptune in the SR second house of finances, ruled by Pisces [Neptune] is at fatal 9 degrees of Pisces. Jupiter/Venus conjunction aligning with SR Mercury, ruler of the USA chart, indicates this will not be permanent.

I am basing all of this on past events and certain placements and aspects that have repeated themselves.

Planets in Earth & Cardinal Signs : Saturn: 10 degrees of Capricorn, 3rd house [intercepted]

Mars trine Saturn

Saturn conjunct Uranus

Saturn conjunct Neptune

Saturn sextile Pluto
When you were born, Saturn was standing at a specific point in space, which in your case would be 10 degrees of Capricorn.

In the birth chart, the sky and the planet's positions are all taken in relation to the constellations of the zodiac. There are 12 zodiac signs for a 360 degree circle around the Earth, so each sign takes 30 degrees of the circle. Depending on where a planet is in the zodiac, it may have positive or negative attributes, but that will depend on a variety of factors.

"Mars trine Saturn", "Saturn conjunct Uranus", "Saturn conjunct Neptune" etc. are aspects, which are relations between one planet and another when you were born. Some of them are positive, others are negative, but with Saturn they are usually negative (though not always). These aspects will be with you for your entire life as they don't change over time. You need to know them and learn how to deal with them.

The planets do move around the Sun, but your birth chart is static. When a planet moving in the sky right now makes an aspect to another planet in your natal chart, this is called a transit. For example, Pluto is in Capricorn right now, so in a few years it will conjunct all the planets you have in Capricorn in your birth chart.

Saturn moves very slowly in the sky (about 29 years for a complete cycle) so Saturn transits are not that frequent. To know where Saturn is right now and to know which planets it's aspecting in your birth chart, you need to check an Ephemeris or an astrology software that gives you transit information. http://astro.com does that, but it's better to learn what your birth chart says first and only then look for the transits. Otherwise it won't make much sense anyway.

Totaly agree. I also have natal 7house Moon - 4house Pluto in Scorpio in tight square and dominating mom paranoid on cleaness and order. Also her womenfull beauty is very obsessive emotionally, when she forces me to do smth, she allways does it with feminine coquetry so that if i had power to refuse, i wouldn't have desire to refuse - as if she were my wife.

Agreed, and my example is my own sister and some former "best friends" with pussy attitude and failing me after I help them. I broke my hand beating someone for the pussies when they had no courage, and they left me in middle of the "battlefield" when the job was done.

But I guess if we aren't wise enough before the events, we must learn with its consequences.

I felt so easy all my life to cut ties with people, even them being really important before. Very good influence from Pluto, I see this intensity as a way to be free, leaving what doesn't matter and sticking to the important things.

It isn't unusual for a Plutonian to completely cut ties, friendships, etc., etc. in a heart beat. If they can't do so because they have to still be around them such as in a working environment, they will act as if the other person doesn't even exist.

I work at home for that very reason. (Truthfully, there are more reasons, however ....) I generally can't stand most people anyway. Call that attitude whatever you want. I don't care. (Plutonian attitude as well.)

Most people either love me or hate me. Some people go from loving me to hating me as well. I wouldn't have it any other way.

I have quite a few personal stories about hard Moon-Pluto aspects and lack/excess of an element.

My mother died when I was three from a sudden heart attack (or something, her death was not really investigated). Literally, one day she was there and in the next she was not. I went to live with my father, but not without the ever strong presence of my very plutonian grandmother (my mother's mother), who even has Pluto in Cancer in the 4th house. She was so deeply connected with my mother that she couldn't let her go, it's been almost 20 years and she still begrudges everything related to my mother's death as well as other nasty stuff from her past.

I also happened to live with a professional astrologer for several months last year. I was new and alone in another city and her son (who was my friend, but didn't live with her) said she would have me if we shared the expenses in half. I obviously accepted since she seemed to be a very nice woman. She was very experienced and as I was learned in astrology as well, we became very close, very quickly. I met her entire family, became close friends with one of her daughters, met all of her closest friends and it was like we had known each other forever. She started treating me as something of a son.

One thing rubbed me the wrong way, though, as I couldn't understand why would her son and two
daughters not want to live with her. They all had different fathers, all of their fathers had left her and all of them were very clear stating that though they loved her, she was an extremely difficult person to live with and preferred to stay at a healthy distance.

I could see where that was coming from, as she had Pluto in Virgo exactly conjunct her ascendant and Mars conjunct her Moon in Cancer, but couldn't really see it in her immeditely as she was really, really nice... it was not very long however until I started noticing all the signs that she was an EXTREMELY controlling person, who would only have her way, and ONLY her way for everything. She would have sudden extreme emotional explosions and threw tantrums as if she were a child (she had Uranus in Leo, quite close to her ascendant as well), not to mention that she would nitpick every little fault in everything she saw. She was extremely obsessive about order and cleanliness as well.

Eventually she started having some problems with money as she was losing a lot of her clients and she started to become even more unstable. I helped her any way I could and paid pretty much all the bills in this period. At one point she "asked" for my participation in a new astrology project she came up with to get some money, but I declined since it involved showing our images on the internet and I wasn't comfortable with that. The next day she simply threw me out of the house, even after all the help I gave her. No questions asked, no explanations given. All the bonds I had formed with her were cut in a few hours.

These are the strongest factual evidences I have of my exact Moon-Pluto square (0°00' orb). I tend to become involved with strongly plutonian mother figures, form strong bonds with them very quickly and then experience sudden (often traumatic) separations. Bonds are something of a taboo for me and that's caused me a lot of trouble ever since I was a child. Not only that, I also have Virgo in the 4th House, fitting with their overall profile. My grandmother is extremely critical of others, an absolute neat freak, as is my stepmother (Sun and 4 other planets in Virgo).

Of course I could only understand and start working on that when I learned astrology.

Incidentally, this astrologer shared some of her experiences with me and said pretty much exactly what Maxine said. Most people with a lack of a certain element tend to overcompensate it somehow and attract situations related to them: people with little to no air are generally given to study, they always search for more information (even if not formally) and tend to hone their communication skills; people with little to no earth will be always looking for material comfort and all kinds of security even if they have plenty of it, it will never be enough for them; people with little to no fire will do their very best to be noticed by others and people with little to no water will tend to be emotional and go through many emotional situations.

The opposite can also be true: with an excess, this element will be so strong and so natural in this person's makeup that he/she will either deal with it very well or neglect it completely, concealing its excess, even though it *is* still there and will show up in certain situations. I've personally noticed that people with little to no water and lots of air tend to be most often the overly emotional ones, those who explode in tears and suffer many emotional ups and downs.

I came across your message when approving messages. These groups are so screwed up, I don't normally reply. I can't reply back to this post, if there are any more questions.

Pluto/Moon aspects usually relate to one's mother and you mention below she is domineering. This is your Pluto/Moon conjunction. The Moon has to do with one's mother.
Pluto/Moon aspects, especially the hard aspects and even more so if they are very tight, indicate a domineering/possessive mother and/or a very close relationship with one's mother. In some cases, the mother relationship can be very close through one's adult years.

The father is ruled by the Sun. Pluto/Sun aspects indicate the very same with one's father.

The 4th house Pluto also often indicates the same and can be both the mother and the father.

In nearly all cases, the parental influence is extremely strong. I knew a man who had a very tight Sun/Pluto square and he had no father. This affected him deeply. Whether the parent is in the life or is absent, the influence is very strong.

When reading a chart, though, you have to look at all of the chart, the houses, and such. Say someone with the Pluto/Moon has a 4th house Saturn; then, the mother's influence can be harmful and destructive. It is the same with a hard Saturn/Moon aspect in addition to the Pluto/Moon.

I knew a man who had a Pluto/Moon opposition. His Moon was in Capricorn, which has a Saturn-like influence over one's emotions [emotional needs not met]. He had a third house Saturn [siblings], and Scorpio on the cusp of the 3rd house. He had a close relationship with his mother for all of his life. Mother would telephone on a very frequent basis and he would bring his family to mother's house nearly every weekend and all holidays for a meal and to visit. Mother favored the younger brother to an extreme [Saturn in the third- problem with a sibling], and Scorpio on the cusp, indicating jealousy of a sibling. He, himself had an obsession with his mother, always wanting her approval and love which he never got. The younger brother also had a Pluto/Moon aspect, as she was very controlling of him as well. I saw this go on for over 40 years. The younger brother, who was spoiled to an extreme, had Jupiter in Aries, as he was extremely self-centered. There was an eldest sister and she moved to a far away state, and escaped some of this, but the mother still kept in very close contact with her as well and would visit her regularly every year and the sister would come home for the Yule season and such.

Actress Judy Garland, who played Dorothy in the 1939 Wizard of Oz, got that part at 14 through the "casting couch." Her mother made her sleep with dirty old men at that young age and even worse and any knowledgeable astrologer can see the rotten mother influence in her chart.

Virgo rules her fourth house of the mother. Virgo on the 4th often gives a very critical mother who can also be a neat freak. Saturn at 0 of Libra [very critical degree] in the 4th house indicates a hard family life and problems with the mother. Ruler of her 4th; Mercury is in the 12th of undoings and misfortune, and is at 0 of Cancer, another very critical degree, exactly squaring Saturn. Adding into this, her Moon at 29 of Sagittarius [mother] is in very tight square aspect to Saturn, again- problems with the mother; anything from emotional needs not being met to emotional and physical abuse.

Marilyn Monroe was another, who had a bad mother influence. Her mother went insane when Marilyn was very young and had to be institutionalized, leaving Marilyn an orphan who was placed in over 15 different foster homes during her childhood and orphanages. Saturn in her 4th house is at 21 of Scorpio, conjunct fixed star Unukalhai of loss. This Saturn also squares her Aquarius Moon. The Saturn in her chart is also the singleton of a bucket configuration. The single planet drives the entire chart, meaning, it has a much stronger influence than the other planets, both in the personality and the events in one's life. It is a stand out planet. Her unhappy childhood never left her and was the focus of causing her life-long emotional problems. Scorpio on the cusp of her 4th is ruled by Pluto at
13 degrees of Cancer, right on the cusp of her 12th house at 13 of Cancer. 13 degrees of cardinal signs is also a critical degree, giving the planet a stronger influence.

The above two examples are what I am referring to in reading a chart accurately, as with the bad Moon aspects, there are many more placements and aspects that support the bad mother influence. The more there are like this, the worse the situation is.

Also, a while ago in this group, there were posts regarding a lack of an element. Helen Keller, blind and deaf from early childhood, with her ruler at 15 of Leo [degree that often brings physical problems regarding sight and/or hearing and other] and no planets in air signs [communications and senses], and only one planet in an air house, spent most of her life communicating. She wrote books and from what I understand, even lectured to audiences. Point being, those who lack an element often manifest that element in an entirely different way. The lack of air and her ruler at 15 of Leo made her blind and deaf, but she did communicate.

Just as for example, someone with no water signs. This does not make one cold and callous. Quite the contrary. It makes for one who expresses and experiences their emotions differently. I know someone who has no water and this person is exceptionally caring and has very deep feelings, and is very compassionate. Those who lack an element express that element differently than those who have planets in the element.

Thank you. I have been trying to keep it quiet here as the network I was with still had certain social hang-ups. However, they have been infiltrated & now are going a direction that I will not go down myself - racial hate for others. So I am doing shows on my own BlogTalkRadio account only as I was doing on supplemental shows previously. I left there & another host as done so as well. I was verbally attacked, along with the state that I live in, by another host & an infiltrator. I have been waiting for the right time to retaliate. As you know, timing is everything. I have started already on my next to last show. The problem is that the other hosts there are young & don't understand what they need to know. Especially dealing with infiltrators. Some of you may know that I was the first to finger HP Dan here as a problem. I was posting under another email address then. I know an infiltrator when I see one. I have been informed about much most of my life & on the net, learned even more & have been in many Yahoo groups outside of the JoS ones.

I spent some time trying to wake-up other movements & had very little luck. I did however, 'help' bring down the Oracle radio network. The patriot movement will never get it. They are lost to us. I even have John Stadmillor's cell phone number. So I got pretty close to trying to make an impact, but he wouldn't go along. I made some headway with Dr. Carley & her sidekick Patrick. (Ironically, she called me the spawn of Lillith, thinking it derogatory. I thanked her for it. (I am descended from Robert the Bruce.) I also owe her an on-air insult for something else.) However, they couldn't get many key issues. A large portion of Oracle's audience came to Renegade, where I just left. I pretty much was the spiritual teacher for Renegade, some there however, had proclivities in that direction already but just needed direction & further information. But with knowledge from the JoS & my own research, I was able to communicate further badly needed information to an audience thirsty for it.

The infiltrator is clearly ADL or SPLC & is pushing Creativity (atheism) & Metzger along with outright racial hate. Hate for sexual preference/orientation as well. My next show will begin the deeper process of retaliation & I will be thoroughly exposing this jew who these other young hosts are blind to. (One is in his early 40s. The rest are early 30s & under. One is having his Saturn return now. Another is having transiting Uranus opposition natal Uranus. None have real time in the movement. One has maybe 10 years but show know better.) It will take 2 more shows to do this completely.

I have thought to offer time to the JoS HPs (or others perhaps) on my channel as I can't do a show a day, but have been hesitant until I thought everything through yet. Now that it is out in the open, maybe that can happen? I can't share my password just yet. Any shows would require me running the show online, with the host skyping me as I remain muted while they do their show. I would also control uploading & the playing of any audio clips for their show as well. I pay $40 a month. My account is set-up for one show a day max. Two hours can be live, but you can record up to an additional hour that is only in the archive. Or you can upload a prerecorded show that is 100 meg max for however long it is. My archives from Renegade are not all up yet on my account. I have other appearances on other shows there that are not in my archives as well. I may post some of those later down

I don't tie myself to a schedule for shows at the moment & they are subject to date & time changes. The next 2 shows will be mid-week. If you want to hear a Plutonian getting revenge, you can listen in.

I do have 3 other Yahoo groups. Most here would not have anything to gain from them. They are there to reach out to the public.

The only one of interest here may be this one:

If you want to do a show, contact me. If you want to hear, you have the links. I guess you may share this info with all interested. No reason to hide it anymore. I may join with the other host who left to do shows. We are talking.

I will be doing some shows on the paranormal as I have a friend who wrote a book & I will be reading from it on those shows. He now lives in Russia. He is from Texas. I also hope to interview him within a month or so. I also have another astrologer that I want to bring on some time. Not sure when. he is the one that I have discussed the U.S. birth chart with. Like Maxine, he has more experience than I do.

Well, I guess I should have said that in a private message haha... Sorry for putting my finger on this. Mercury trine Pluto, I do this all too easily.

From what I’ve seen of those Renegade folks, you're really better off without them at this point. The content of your shows cover what's really important/true out there, and that's why it's good. They're following the opposite path of that now.

Having the HPs with you would be amazing though. If I recall correctly Maxine herself did have a radio show in the past. Maybe it's time for a comeback? I know I would give anything to hear Don and all his sarcasm live lmao. That would really be quite the show.

I hope they consider that, but I'll keep tuned in anyway. I'm really looking forward to whatever's coming next (especially revenge!) and from what you've said, you have some pretty good ideas for the future. It can only get better.

Thank you. I have been trying to keep it quiet here as the network I was with still had certain social hang-ups. However, they have been infiltrated & now are going a direction that I will not go down myself - racial hate for others. So I am doing shows on my own BlogTalkRadio account only as I was doing on supplemental shows previously. I left there & another host as done so as well. I was verbally attacked, along with the state that I live in, by another host & an infiltrator. I have been waiting for the right time to retaliate. As you know, timing is everything. I have started already on my next to last show. The problem is that the other hosts there are young & don't understand what they need to know. Especially dealing with infiltrators. Some of you may know that I was the first to finger HP Dan here as a problem. I was posting under another email address then. I know an infiltrator when I see one. I have been informed about much most of my life & on the net, learned even more & have been in many Yahoo groups outside of the JoS ones.

I spent some time trying to wake-up other movements & had very little luck. I did however, 'help' bring down the Oracle radio network. The patriot movement will never get it. They are lost to us. I even have John Stadmiller's cell phone number. So I got pretty close to trying to make an impact, but he wouldn't go along. I made some headway with Dr. Carley & her sidekick Patrick. (Ironically, she called me the spawn of Lillith, thinking it derogatory. I thanked her for it. (I am descended from Robert the Bruce.) I also owe her an on-air insult for something else.) However, they couldn't get many key issues. A large portion of Oracle's audience came to Renegade, where I just left. I pretty much was the spiritual teacher for Renegade, some there however, had proclivities in that direction already but just needed direction & further information. But with knowledge from the JoS & my own research, I was able to communicate further badly needed information to an audience thirsty for it.

The infiltrator is clearly ADL or SPLC & is pushing Creativity (atheism) & Metzger along with outright racial hate. Hate for sexual preference/orientation as well. My next show will begin the deeper process of retaliation & I will be thoroughly exposing this jew who these other young hosts
are blind to. (One is in his early 40s. The rest are early 30s & under. One is having his Saturn return now. Another is having transiting Uranus opposition natal Uranus. None have real time in the movement. One has maybe 10 years but show know better.) It will take 2 more shows to do this completely.

I have thought to offer time to the JoS HPs (or others perhaps) on my channel as I can't do a show a day, but have been hesitant until I thought everything through yet. Now that it is out in the open, maybe that can happen? I can't share my password just yet. Any shows would require me running the show online, with the host skypping me as I remain muted while they do their show. I would also control uploading & the playing of any audio clips for their show as well. I pay $40 a month. My account is set-up for one show a day max. Two hours can be live, but you can record up to an additional hour that is only in the archive. Or you can upload a prerecorded show that is 100 meg max for however long it is. My archives from Renegade are not all up yet on my account. I have other appearances on other shows there that are not in my archives as well. I may post some of those later down the line.

Now that the cat is out of the bag:

After my next 2 shows are over, those may be removed.

Here is my channel:

http://www.blogtalkradio.com/dragons-lair

The links to my show facebook page are there. If you can figure out my personal facebook profile on your own, you can find me there. I can't be too open on my personal page for many reasons. I had a Satanic profile once along with my personal profile, but it got deleted. I went by David Magus.

I don't tie myself to a schedule for shows at the moment & they are subject to date & time changes. The next 2 shows will be mid-week. If you want to hear a Plutonian getting revenge, you can listen in.

I do have 3 other Yahoo groups. Most here would not have anything to gain from them. They are there to reach out to the public.

The only one of interest here may be this one:

http://groups.yahoo.com/group/Exposing_Christianity/

Don't know what else to say at the moment other than Maxine & Don were told what I was doing & Don gave me permission to use his material in addition to other material that I have accumulated over the years of course.

If you want to do a show, contact me. If you want to hear, you have the links. I guess you may share this info with all interested. No reason to hide it anymore. I may join with the other host who left to do shows. We are talking.

I will be doing some shows on the paranormal as I have a friend who wrote a book & I will be reading from it on those shows. He now lives in Russia. He is from Texas. I also hope to interview him within a month or so. I also have another astrologer that I want to bring on some time. Not sure when. he is the one that I have discussed the U.S. birth chart with. Like Maxine, he has more experience than I do.
Speaking of which, I (kinda) accidentally found your radio show a few days ago and I must say it's pretty neat!

Kudos on the show and keep it going.

Thanks again. That's okay. It would have been discovered sooner or later. I was hoping however that they would have matured in their views, then I could tell others here, but they chose to regress instead. I told Maxine & Don they needed to mature in their views further first. So they knew. I also didn't want to use Don's research without asking. We all borrow form others, but that isn't the point.

Yes she did. However, this is a different format.

I was thinking that maybe sermons &/or Q & A. I can take calls. I don't like it myself obviously, but others could. The Q & As would be nice as people could discuss a lot more than simply typing. Additionally, multiple callers can interact simultaneously. Multiple host would also be good.

Just a thought.

I am better off, but they messed up something that was going good.

Probably more retaliation than revenge.

Anyone know of some good beginner-advanced numerology books? Thanks! Hail Satan!

Tried posting to the new forum. Can't post a link as first post. Have to wait for approval to the first post in order to post a reply with the link in it. (Didn't know approval was required & couldn't find my first post so I presumed it didn't go through & posted it again.) Who knows when that will happen? So here it is.

Does anyone here have their Moon, or Mars at 0 degrees and have really heavy painful periods, ovarian cysts, or anything else that is a little more extreme than most others around you? Extra painful boobs even? Anything connections you could draw to 0 degrees of those planets or any others to health? That's the main thing I'm curious about, I think I might have drawn a correlation :D

Lots of interesting info there.

Whenever I think about the "coincidences" that happen around important events, their numerology and astrology, I wonder how exactly do people plan that. Seems like an absurd amount of information for just a handful of people to plan and for everything to happen so precisely along the lines of what they wanted.

Makes me think if, in reality, they only make a strong, basic "energetic setup" for the act (astrological timing and basic numerological setup, maybe centuries in advance) then the energy itself takes a predictable, controlled path and, by itself, generates all the other congruences... like some sort of indelible signature of what exactly happened and why. This, I think, cannot be controlled by the perpetrators since energy naturally carries information. Numerology happens to be a tool to discover, read and interpret these raw signatures.

Maybe that's the true magickal concept behind events and the apparently endless amount of convergent occult details around them.

Speculating a little further, it may even be possible to raise the energies of past (perhaps even future) events for examination and tracing its sources. Truth in raw form. Well, that may be exactly what seers do, but without even thinking. All this occult forensics gets my plutonic senses tingling lol.

I have Venus at 0 degress, but being a man, I can't offer anything to your situation. However, I can say that planets at 0 degrees represent how you always begin with a cycle of experience. The planet of latest degree is how you end your cycles of experience.

The body itself is the 1H & the condition of the body is represented by the 6H. Rulers of these signs on the cusp of the houses or the house rulers should be looked at. Breast are Cancer or the Moon. The Ovaries are Pluto or Scorpio. Menstruation is also Pluto or Scorpio.

I do want to make it clear that while houses & signs are ruled by the planets, the planets are not the houses or the signs. By the same token, the signs are not the houses.

Does anyone here have their Moon, or Mars at 0 degrees and have really heavy painful periods, ovarian cysts, or anything else that is a little more extreme than most others around you? The conjunction was in the mid-1960s.

I just had a Lunar Return on the same day as my Venus Return on the 8th. (Wow!) Venus at 0 degrees Sag. The Lunar Return has Venus in the 8H & I have the Moon & Saturn in my 7H as well. (Haven't done my Venus Return chart yet.) In my natal chart, my transiting Solar Arc Saturn is conjuncting my natal descendent (7H). The 7H rules your grandparents. My 102 year grandmother just passed away Saturday, the 11th. Her birthday was the 9th. The transiting Solar Arc Saturn is 3 mins. of arc into my 7H. She was obviously a Libra as I am & Saturn is also exalted in Libra & Libra of course rules the 7H. My Solar Return is next week. Having Venus at 0 degrees natally means I begin new cycles of experience with relationship as Libra is ruled by Venus. In this case, a lost relationship. (Not sure about what's ahead, however, keep reading.) In the Solar Return chart for next week,
Venus catches up to & passes Saturn. It however remains within a loose conjunction of Saturn. The effects of the Solar Return always begin around 90 days prior to the Solar Return. My transiting Secondary Progressed Moon is within 1 degree of conjuncting my natal Sun. My first major relationship where I lived with a woman & when my career started at the beginning of this now ending Progressed Moon cycle to my natal Sun & soon to be new cycle as the progressed Moon cycle mimics the Saturn cycle in time to transit the whole chart. At my age, that could be the last time the Progressed Moon conjuncts my natal Sun. (Will happen next at age 82.) My Secondary Progressed Mars in retrograde is conjuncting my natal Mars. (Not quite exact just yet, but very close.) My transiting Solar Arc Mars is also conjuncting my Ascendent. Slightly passed exact.

Transiting Uranus conjuncts transiting Pluto exactly on Nov. 1st. This is the one that is most powerful as it will be the only one that is Heliocentric exact & affects us all. (We are feeling this effect now.) My next Lunar return is Nov. 4th. In that chart the Lunar Return Venus, the planet of my earliest degree will be conjuncting my natal planet of latest degree, Jupiter in Sag. which will also be natally as well of course. In this same chart the Sun & Saturn are conjunct & the house structure is very similar to my natal chart, so my existing transits to all of my other charts become reinforced. I guess I need to hurry up & do my Venus Return chart that began on the 8th. Venus Return charts are VERY IMPORTANT. A lot going on at the moment with her passing but I will report what I find in it when I get to it.

Right before all of this, last year & part of this year, my transiting Solar Arc Pluto conjuncted my natal Sun. Natal Pluto is also transiting my 5H, which is ruled by the Sun.

My transiting Neptune came within about half a degree of conjuncting my descendant before retrograding. So I still have that coming up. At least Neptune will finally get out of my 6H some time this coming year & maybe my work situation can change. Neptune & Virgo energies are very inharmonious. 14 years of drudgery.

Can we say new beginnings?

I meant to say Uranus squaring Pluto on Nov. 1st.

Take the 1960s. The conjunction of transiting Uranus conjuncting transiting Pluto was in the mid-1960s. It would happen regardless. However, they pushed it in the direction that they wanted it to go.

That's a good point, there isn't anything at 29 degrees other than maybe a house cusp and Chiron, but this person has cancer on the 6th house cusp. Mars in Scorpio at zero degrees. Moon at zero degrees in Pisces 1st house. The moon is the cycle itself. Its split into phases of ovulation at 14 days and bleeding at 28. Almost like a solar return having cycles where events are set its possible the moon acts in separate cycles and at the "opposition" and "conjunction" set off the different events. Or at least our bodies have that programmed within us like the placements of the planets move but the meaning is still the same. There's a lot of possibilities to why though I could ramble on and on with what the 0 degrees could be, but basically... I think the more I think about it the more I think it does but the more I think about it the more I think other things effect it too. Maybe the 6th house cancer acts to set off the planets in that way while someone else with those placements would have a diff reaction. It could also be someone's psychologic build.... so that say if they don't let out their emotions and have the cycle effecting them to where they get all mentally whacked it effects them physically. But this person does get emotional... not nutty though. The physical symptoms are worse but this person actually get energy rushes and is happier on their cycle.

Well, I could say for sure that new beginnings are in order just by the progressed New Moon (I've been thinking about writing a small article about progressed moon phases these days, this seems right about time) but there are so many other things converging to that, not to mention all this cardinal energy with Uranus and Pluto squaring each other. Boom. 8 of wands.
If I got your chart right, with all these transits and progressions, I can only think that you'll meet a special someone not too far in the future.

I'm still new to returns other than solar and lunar, so this was my first time doing a Venus return. For this year, Venus is tightly conjunct Mercury, with Gemini on ascendant. A few weeks later was the date of my solar return for this year, and in it was a Mercury return as well. Seems like Mercury will be playing an important role in my life for this year.

The full moon that occurs when the Sun is in your birth sign is the most powerful. However, if you are sensitive to the environment, then the New Moon is felt strongly as well. (If you have Neptune in the 3H for example. I have this.) This is all presuming of course that you had enough sleep, don't have a hangover, aren't ill for some reason, etc. In other words, something that will deter your sensing the effects.

If I am not paying attention to the Moon cycle very closely when the Sun is in Libra (my Sun sign), I sense the change. I then go look at the calendar, then say to myself afterwards, "No wonder I feel ..." (fill in the blank). This full Moon is called astrologically, your 'Personal Full Moon'. Today is mine.

Your birthday (meaning the actual Solar Return day/time) is in my opinion, the best choice. You are more in tune with your true being at that time than any other time of the year. It begins about 5 days before & last until 5 days after, but the waning is less powerful. Also if during the last 5 days (afterwards), the Sun enters into another sign (applies to me), it loses some of the effect. So if you are born in the last 5 degrees of a Sun sign, you will notice the change into the next sign more significantly than otherwise.

**Subject:** 27 Lunar constellations of Vedic Astrology?

Hi!

so im reading on some Vedic Astrology and got the book called "Nakshatras" which displays like a separate Zodiac but it only regards the moon, throughout our Zodiac there is 27 different mansions which basically is a sign of their own, and each nakshatra covers 13.20 degree of the zodiac.

they all are in star constellations i think, have their own Deity and planetary ruler along with traits.

the book tells a system of 28 lunar mansions was used in the Middle east and in china also. the book also talks briefly that the ancient celts had a myth about a Moon king with 27 star wives.

i will see if this is true and learn more, but it is quite fascinating to see older astrology putting so much emphasis on the moon to create separate mansions for it.

why cant we find this in the western Astrology? have anyone read about this, do you think its pointless or agree with it? when im reading about mine it makes sense in a way, as it displays some of the traits my western moon does in my chart. but basically what is your thoughts?

if anybody wants to know, the book is called "Nakshatras" by Dennis M. Harness, with an introduction by Dr. David Frawley.

Cheers..

The Sun is currently on the 29th degree of Libra (the sign of its fall). You can start the Square when it will enter the sign of Scorpio.

You would want to do the Square of the planet which is affected by Saturn, to strengthen its energies, thus defending it from the negative energies of Saturn.

For example, now Saturn is found on the 12th degree of Scorpio. Say it is found on your 3rd house, and on the 9th house you have your natal Mercury, happen to be on the 13th degree, meaning it is affected by Saturn at this time. You would want to do the Spiritual Mercury Square.

The above is just an example and may indicate depressive thoughts and pessimism at that time. You have to look to your chart and analyze where you will benefit the most.

Regarding the Sun, Don has indicated many times, and rightfully that the Sun square may help a transit of Saturn. This very well may help as the Sun works to free your expression. While Saturn works to inhibit.

Also look to the Sun in your chart, analyze its position. Is it strong or weak in your chart?

Good luck.

Should I do a Sun Square to remove/minimize Saturns negative effects?

Should I do a square that rules the particular area of life that Saturn is currently affecting for me and state positive affirmations for this area? (for example a Mercury Square for an exam.)

Or say that the affected house was the 10th (it's not) with Libra on the cusp. Should I do a Venus square and state positive affirmations?

Just trying to understand this so I don't begin the wrong one.
If you're a guy especially because Venus is the women in a mans chart, I'm usually attracted to people with something good conjunct my mars! I would suggest the Jupiter square to counteract the negative Saturn energies. Jupiter seems to be the opposite of Saturn as it's the planet of good fortune. It only takes 16 days. My experiences with it, I've been going through the worst Saturn transit thus far in my life, it feels like it to me, and almost instantly upon finishing the Jupiter square things started to get better. I don't know how to explain it but I felt much 'lighter' about things. Jupiter is also in it's exalted sign of Cancer right now.

well...you might read smth about regressions if you want to vice-versa-predict your past life. Carmic astrology is a difficult thing and extremely damaged by xians wit their "past life sins".

As for me, I may say surely only about various Lunar Points and Nodes that they are related to past/future lifes. Example:

North Lunar Node shows your talents that are to develop in this life that will help you in your future life. South one shows what talents you developed in your past life that might help you in present one. It's primitive, you may interpret as you feel more suitable regarding your question. Lunar Appogee (Lilith) shows your conscious and subconscious desires, smth that touches your emotions and feel you with great understanding and feeling like De Ja Vu, like it made you happy smwhen in the past and now your longing to get it back (maybe thats why it's called Lilith). Lilith might represent some most dear for you trend of your past lives - why not?

I doubt Maxine included Chiron. Neither did she with Ceres, Pallas, Juno and Vesta, not to mention Black Moon Lilith.
I myself don't like to include too many objects, because then the chart becomes blurred.

So I limit myself to the 10 planets (2 luminaries + 8 planets), 1 dwarf planet (Ceres), 3 asteroids (2 Pallas, 3 Juno, 4 Vesta) as they provide some wider meaning to the feminine side of our soul, and the mathematical point, the Black Moon, called Lilith.

Whereas these objects hardly RULE any sign, I consider them to be at home/exiled or exalted/debilitated in their respective signs.

Chiron, being the healer and the teacher, can be indeed considered to be at home in Sagittarius and in Virgo. Yet I cannot agree that he rules any sign or house.

**Subject:** Re: Help with planetary square

For maximum results, you would want to start the square where the Sun is transiting the signs of Leo, or Aries. These are ideal of course.

You can also start the Mercury square when Mercury is in the sign of Sagittarius. But for maximum results, you would want it to be in the signs of Gemini or Virgo.

Is the Sun square the only square that one can start when the Sun isn't in fall/detriment? So I can't start a Mercury square except when it's in its home signs?

It's the only Square on the list that says " These times are ideal, but the mantra can be done when the Sun is in other signs as well. "

Regarding the Sun, Don has indicated many times, and rightfully that the Sun square may help a transit of Saturn. This very well may help as the Sun works to free your expression. While Saturn works to inhibit.

Also look to the Sun in your chart, analyze it's position. Is it strong or weak in your chart?

Good luck.

Not sure if any of you have had this experience, but psychically I'm pretty sure I felt that mercury retrograde can kick up old mental habits. Someone I know had dealt with OCD and repetitive thoughts, had basically gotten over it all, then this retrograde hit and had a sort of regressing period.

So heads up if you're noticing anything and you've dealt with an over-stimulated mind or something, just be a step ahead of it and make affirmations and use yah willl. Don't worry about it though, just with a few statements and heads up the retrograde didn't have much of an effect.

Well anyway, everyones different and depends on your BC too.

SO in conclusion, if you had recently been working on something mental and you feel like something failed, just kick it up a notch and your work wasn't worthless at all.

That's IF I'M EVEN RIGHT, what else does anyone notice right now, other than the already stated..

Whenever a retrograde period hits, I actually notice EVERY time that movies from the past, old video games, etc come to mind. Old friends, groups of people, (but nothing ridiculously old) make a comeback. Like, communications from a couple years ago that I had dropped.

As for bad communications, I took state tests for English and math on a retrograde, could not let myself fail
and I knew it was a retrograde. Only two people in the whole flamdamn class did well and it was me and some other kid. I was also the last one in there cuz I was extra careful but got 100%. Im gonna post this in the astrology group too, just for becuzzzz cuzz. bruh.

ALRIGHT BROTHAS AND SISTERS WATCH YO BACKS DON'T EVER GET DISCOURAGED :D

(mercury squares before retrogrades are another/the main suggestion. but it's not always in a good sign for that so just. yeah like Lucius had said - PYYYY ;)

Another thing I think I should add is that this wasn't something that was brought back full on from the retrograde, it was just like an echo of the problem and went away right away.

Also, at times it was an echo, but there were times where it was effortless like before the issue came up with the person and they said they had like no problems.

I forgot to add that in the post I made on the main group. positive mental states can be a throwback too :D If i'm even right. this post might be unclear. but any input go for it.

You would want to do the Square of the planet which is affected by Saturn, to strengthen its energies, thus defending it from the negative energies of Saturn.

For example, now Saturn is found on the 12th degree of Scorpio. Say it is found on your 3rd house, and on the 9th house you have your natal Mercury, happen to be on the 13th degree, meaning it is affected by Saturn at this time. You would want to do the Spiritual Mercury Square.

The above is just an example and may indicate depressive thoughts and pessimism at that time. You have to look to your chart and analyze where you will benefit the most.

Regarding the Sun, Don has indicated many times, and rightfully that the Sun square may help a transit of Saturn. This very well may help as the Sun works to free your expression. While Saturn works to inhibit.

Also look to the Sun in your chart, analyze it's position. Is it strong or weak in your chart?

Is meditation still beneficial during a void of course moon? If so, what kind is more effective during this time? (It is in void right now until 7:00 tonight)

What are the dates and times for the Planets?
Well I know there is some type of program or something that can help tell you what time what planet will be up and so on. I've found some awesome tables on the internet but they are all american or another country because I live in Australia the planets times are slightly different, how much I do not know but I really want to know if there is anything out there to help?

Many great thanks

So how long is the personality report going to be? And how long are the transits/events predicted/calculated for?

I'm also very shocked at the low price. Other Astrology websites charge up to 300 dollars!

I went ahead a number of years looking at someone's solar returns, and I come across one where the IC/MC axis is flipped from the natal chart (indicator of death, please refer to a previous post by HPS Maxine if unfamiliar). 6 degrees off. And not sure if this matters but the AC/DC axis is flipped conjunct natal AC/DC axis 1/2 degree orb off.

The only planet on a late degree is Saturn at 29 degrees.

Not sure if this matters either, but SR AC will be conjunct natal vertex 3 degrees.

Nothing in 12th house, Uranus in 8th, Pluto in 4th. One of the natal chart co-rulers will be at 9 degrees Pisces (fatal degree). Two planets, one being a natal chart co-ruler, will be tightly conjunct at 22 degrees Leo for the SR.

Just thought I would post to potentially start an interesting thread and get this group more active again.

I've been real busy dealing with important issues. I haven't been on the new web site lately either. I hope to be more active soon. In the meantime, I will participate when I can. I have several significant transits that will be exact several times next year. Some will be simultaneous. All major transits. Trying to interpret them "for me" now. Too early to tell. More later when I get a better feel for them.

I will have some shows posted on my BlogTalkRadio page as well in response to me leaving Renegade Broadcasting. I have one more to do before making them public.

I find this interesting and thanks for this. My son who was 20 at the time died 9 4 2011 (8). His birthday 12 31 1990 (8). I have an ancestral association with Azazel (8). My birthdate begins and ends with 8. I don't know if you can answer but did azazel take my son? I dreamed of his death (not the exact death) and I even spoke it out loud to my son as a concern of mine...as a 'mom lecture' not a 'this is going to happen to you'. I guess I just wonder about coincidence and this number and could his death have been prevented? I'm sorry I'm not sure really why I felt the need to respond but here I am :)

It is said that the Moon is VoC if it forms no aspects with inferior planets, i.e. Mercury and/or Venus, yet I have my natal Moon in Aquarius (29th degree) squaring my natal Mercury in Sagittarius... can somebody explain to me this phenomenon?

Well since this is up here... my numbers 5 and 7 are pretty "coincidental" both of the ones saying related to Aquarius and linked to freedom at the top, and my AC is aquarius aye ... also born on the 7th, on the 5th day of the week. 1995.. 95 is 5. To the person who said Azazel taking your son.... NO. his number 8 is likely not even related to you in my opinion. That's like saying hey my birthday, death day, his birthday, annd that one day my friend went to band camp!!! Its totally random, doesn't fit, His 8 is on

Subject: Good dates for planetary squares first part 2014

As we have now a braeak in our warfare, I give here some dates that I investigated are suitable for various squares for the first part 2014:

19 dec 2013 - start Jupiter square (very good time!!!)
15 dec 2013, 6 and 13 apr 2014, 3 and 10 aug 2014 - start Sun square (6 apr 2014 great - Moon in Cancer!)
29 July, 5 or 12 Aug 2014 - you can start Mars (don’t do it earlier - earlier it is in Libra detriment!)
15 or 31 Jan 2014 - start Mercury, better 15 Jan.
14 Feb, 5 and 12 March 2014 - Mercury, 5 is best
19 Jan, 16 Jan, 6 Feb, 13 Feb, 6 Mar (the best!), 13 Mar, 3 Apr, 10 Apr, 17 Apr, 1 May, 8 May, 15 May - all good for starting Jupiter, Jupiter is quick, do several times.
14 or 28 May 2014 - start Mercury, 28 is better.
11 or 18 Apr or 2 May 2014 - start Venus, note 2 May Sun is in Taurus - ruled by Venus!

Now about Moon square: I prefer 10 March, for those who want right now, I copypast my full message.

http://www.lunarium.co.uk/calendar/universal.jsp

Look, Moon is void of course rather long at 17 Dec, I would not risk and prefer 19 Dec (Full in Cancer Apogee) or if you prefer only Mondays - then Monday 23 still full though in Virgo. 19 Dec is good, for Jupiter (ruling Thursday) is rather close to the Moon by his character and I feel Apogee (Lunar point Lilith in chart) as a good time. If you firmly prefer only Mondays, I know one wonderful Monday 10 March 2014 - waxing crescent Cancer a day before Apogee and not void of course, the only problem is you have to wait, and who knows, maybe a ritual will occur then or later, for Moon square is 81 day - almost three months. Though... Moon square would probably intrude with our rituals despite of when you start because of it’s length, we usually don’t delay for 3 months so it might not very much matter when you start. 10 March is a best day for a Moon square IMHO.

Also Moon square might be done in Jan 2014: 9 and 15 (also not Mondays) and February: 10 Monday
http://www.lunarium.co.uk/calendar/universal.jsp?calendarYear=2014&calendarMonth=1

but Ephemeris say Cancer will be at Tuesday, you might try at night between these two days. I truly don’t know why they vary. I would make chart with transits in astro.com and wait when transit Moon comes to 0 Cancer.

Squares end 2013 – total 2014

Recommendations of importance from worst to least (look into your charts):

Dangerously important: Hard aspect to Saturn (!!!!!!!)

Very important: Minor aspect to Saturn (!!!)

Very weak planet: planet in detriment (!)

Weak planet: planet in fall (!)

I like to vibrate each square into the chakra connected to the planet: Venus in throat, Moon in pinal gland, etc - IMHO they work better then.

Please, if you have satanic relatives or friends that are new or have no possibility to the groups themselves, send them them this table.

Jupiter

19 Dec 2013 - start Jupiter square (very good time!!!), 9 Jan, 16 Jan, 6 Feb, 13 Feb, 6 Mar (the best), 13 Mar, 3 Apr, 10 Apr, 17 Apr, 1 May, 8 May, 15 May - all good for starting Jupiter, Jupiter is quick, do several times.

Sun

15 Dec 2013, 6 and 13 Apr 2014, 3 and 10 Aug 2014 - start Sun square (6 Apr 2014 great - Moon in Cancer!) - you can start the Sun
Mars

29 july, 5 or 12 aug 2014 - you can start Mars (don't do it earlier - earlier it is in Libra detriment!), 2 or 9 sep (if prefer 9 sep, do early in the morning Çin the evening Moon's void), as Mars is 25 days you can pack two squares both in aug and in sep 2014.

Mercury

15 or 31 jan 2014 - start Mercury, better 15 jan. 14 feb 2014, 5 and 12 march 2014 - Mercury, 5 march is best. 14 or 28 may 2014 - start Mercury, 28 is better. 18 june, 2 or 9 july, 2 sep 2014 Çall good for Mercury

Venus

11 or 18 apr or 2 may 2014 - start Venus, note 2 may Sun is in Taurus - ruled by Venus! 6 or 13 june, 3 or 10 oct (choose 10 ÇFull Moon in Taurus, 3 is much worse ÇMoon in Capricorn detriment) 2014. Best are 2 may and 10 oct.

Moon

18 or 19 dec 2013, 10 march 2014, 7 apr, 5 may (great ÇSun in Taurus!), 8 dec 2014

If you start it on 18-19 dec you will over it befor 10 march - so will pack two squares in this time. Also not to mess with the beginning of Jupiter (19 dec) I would start Moon 18 dec. But if you start one on 10 march you won't over it till 5 may, so if you're ok to combine it with potential ritual ÇI would prefer to wait till 5 may. If you start 5 may it will not mess with 8 dec 2014.

Hi brothers and sisters, I was researching my birthday for divination purposes and stumbled upon a website called kabalarians.com They basically analyze your name and birthdate for free and see if they are compatible. It is recommended that I change my last name ASAP and I could not help but feel what the description of why they said it was true. Does anyone have any experience with this theory? Hail Father Satan

How would a title that your parents thought about, at the time of your birth. Would imply on any thing at all. There are many big scams out there. I think you just found one.

Personally, I did not find it accurate. The examination of the most-used name was way off for me. Especially in the suggested fields-of-occupation. There are good numerology sites out there. I do not think this is one of them. I tried to do some research on their main consultant, Dhorea Delain, but couldn't find anything off-site. The fact that they are calling themselves kabalarians suggests to me that there might be some jewish element in the group, and that could denote an agenda of dis-empowerment.

Try this one & see what you think:

BTW - I have new shows along with responses to Renegade. Don't omit the prerequisite shows to these response shows either. The last show posted is Mike Sledge putting his foot in his own mouth from another network.

I found the Sadowski site to be extremely accurate. I noticed that they use a different criteria from the Kabalarians' site. The former employs a middle name, while the later calls for only the first and last.

No, it can be started any Thursday until July 10th.

We all want to live in a purely Gentile/ Pagan world free from the clutches of the Jews and their vile malicious programs. Satan wants us to be Free. What are you doing for Satan to help achieve this goal?

Those of you who have been actively working to destroy the enemies of Satan know that we have a large task ahead of us. We are at a crucial time in this fight- the breaking point for our freedom. Now is the time to work together more than ever to wake up as many people as we possibly can! We have the Power and Strength in numbers. The only question is- Are we using this to our advantage?

Thousands of Dedicated Spiritual Satanists are reading this post. How many of us have YouTube channels? How many of us are using them to help spread the truth? How many of us have a Printer at home or access to a printer? We can all find a printer to use. Even if you don't own a printer, the library in your local area usually will have a printer than you can use to make copies on. You could even use a FedEx Office location (if one is nearby to where you live) to print out and distribute Anti-Tracts. Just make sure that you are Private about it. They make such a huge difference in your local area when regularly distributed. Believe me; I have seen Results over the years! Anti-Tracts work. You could also burn PDF documents such as 666 Black Sun, found in Satan's Library, to a CD and leave it in an undisclosed location. With a Sharpie marker write on the CD an eye catching title such as "The Jews do NOT want you to have this!" Just be creative and safe in whatever method you choose to use in getting the truth out.

We all have different abilities and methods of getting the truth out to the populace and IF we all work together to accomplish this goal, we will get there much quicker. I encourage each of you to work with us to bring down our enemies and wake up our Gentile people.

You can make YouTube videos; Leave comments such as ExposingChristianity.com and JoyofSatan.com all over YouTube; Leave Anti-Tracts in your local area for people to find. Making use of the Internet is the Fastest and most Effective means of spreading the Truth. If you are running Windows 7 on your computer you can use Windows Live Movie Maker to start making a video today. You can even add music to your video for Free when you upload it on YouTube.

Subject: 29th ascendent / descendent??

I've come across a person who has his natal Ascendant as well as Medium Coeli EXACTLY on the 29th degree (Asc Virgo, MC Gemini).

Has anybody ever come across such an odd situation? I only know that the 29th, as well as the 0 degree are critical, where the energies are heightened to the extremes... and these are not planets but ANGLES.

Make sure that the information in your videos is Valid. The Channels with Good videos will be added to this site:

Likewise, if you have an idea for a New Anti-Tract please submit these as well. It is best if they are written in plain text, black and white, small is preferable (we get more per page). Full page tracts are acceptable. The ones that are the most cost effective are the “Stickers” and the ones like "Discover and Learn" and "Good News". I just updated them today.

Subject: Re: Good dates for planetary squares first part 2014

About Mercury. Sorry if I included fridays, it's a mistake, only wendsgays. Smt I give Moon squares dates not on Monday because it's too hard to find Moon in rulership/exaltation full on Monday. But regarding Mercury and other planets, it's better to use their days.

About every planet's day till some date. First I looked at waxing/waning Moon phases also. But as I myself have blown several squares several times, I see how it's difficult to not mistake. So I can say - don't look at
Moon phase if there is a high possibility to mistake, mistake and mistake till warfare ritual start - or you just won't do anything. Look only on where is the planet of a square. About Jupiter - yes, any Thursday. But about Mercury - not any Wednesday: not on 5 and 12 February, because then it is in Pisces detriment.

So every Wednesday 15 Jan - 27 Aug excluding Mercury in Pisces and Leo, more privileged ones are: 15, 22, 29 Jan, 19, 26 Feb, 5, 12 Mar, 14, 21, 28 May, 18, 25 June, 2, 9 Jul, 20, 27 Aug 2014.

Jupiter - till 16 July 2014 every Thursday.

For Venus and others also, most important that the planet is not in detriment or fall. Everything else is acceptable. I looked on Moon phases only for physical squares for gaining some fortunes for it's best on waxing Moon.

Also, I want to add, recently I searched up group messages where it was said inconjunct is a major aspect. So where I said "MINOR ASPRCTS TO SATURN" (!!!), I meant every possible aspect, except: trine, sextile, conjunction, opposition and square (conjunctions, oppositions and squares are hard (!!!!!!!)).

I would say that it's a lot like planets, when the angles are contacted in a hard or significant way there are major changes having to do with what the angles houses signs and planets are doing that are involved!

My aunt has a lot on the 29th degree including AC but I don't know what's completely in her personal life. Something that stood out to me is she broke a cycle of batshit crazy and cruel moms in our family, it was a ripple effect and that time is over. Her moon 29 degrees taurus and jupiter in opposition at 29 degrees scorpio.

She got in a divorce once, 29 degrees taurus. Thing wound up for the better, jupiter opposition? 29 degrees moon taurus conjunct saturn in Gemini, finished a degree but couldn't do anything with it. Unfinished education in high school set her back from doing what she wanted, started and stopped a lot of different things with education. She did get to where she wanted though after some obstacles and doing different things. that could be gemini. hm. it all ties together! but yeah.

Emphasis on this being just my guess of these events and details being related to 29th degree! I haven't studied it much, I just now looked because I saw this and thought hey why not.

I read that when things are at a significant degree and it's contacted event's are set off or certain life events indicated.

Sorry, in my previous post I have mistaken in terms. When I analized Venus points in conjunction to natal Sun, in my ZET 9 there was clicked "second focus" instead of apohelium (afelium). Second focus is also
called "Black Sun of the planet". They are two different points: afelium/apohelium is the most distant point on the orbit of the planet from the Sun. So there was no "Black Venus" in conjunction with natal Sun of those people - "Black Sun of Venus" was, well "Black Sun of Venus" is in conjunction less 1 degree orb to Sun always: http://www.horusset.com/RIKB/bsastro.htm, so it's not very interesting that they conjunct.

More interesting that Black Suns of the specific relationship houses rulers were in conjunction to Chart Rulers (in one of the cases it was the Sun). The link above (very informative!) says also that for outer planets "The Black Sun" must be baricentric.

People, about my post of apogee-perigee and Nodes. Here is a good program (as they say, I myself are in a stage of learning it) that can show all apohelium-perihelium, ((when planet is most close to Sun and to Earth and when it is most far), all Nodes of all planets including Pluto and transplutos and a lot of other things. Also ZET 9 GEO is a program that counts these points. Now I use Zet9Geo for it's much easier, but they recommend RIYAL more, now I am still studing how to use it. For it's a little bit complicated. So what I want to tell with all of this.

If one found out that Lunar points are of fate and of past-future lives trends, why not to assume that all Nodes, apogee-
perigee/apohelium-perihelium - of all planets in Solar sistem - might be interesting in this regard. For ex, I found out that myself and some other person somehow emphasized on love and has our Venus apogee on the Sun. I also noticed that the affairs of the house with a lot of apogees and North Nodes can be quiet attractive and charming for the person (of course with the correction to the nature of the planet) while the one with only perigees and South Nodes is dull and fed up. Also the very fact of a big group of apogee-perigee-nodes points in one house shows great potential that this house contains in itself for person's development. Especially the situation like this when person has his planets spread through out all the chart and their points concentrated in one house, it might show that the spheres of where plants are spread over are somehow tied in into the affairs of this specific house (with the points concentrated in).

Hehe, 1st - I saw I titled the post wrong - it should be Ascendent / Medium Coeli :P, 2nd - thanks for the input Amber-electric :)

The angles of that person are in exact square, creating the Grand Mutable Cross. I've tried to approach it from this side, as a grand cross, BUT the angles themselves don't generate energy (Bil Tierney, the Dynamics of Aspects Analysis), contrary to the planets.

But let's look at the rulers: Mercury tight sesqisquare Jupiter / tight semisquare Neptune. So, still tense aspects...

Any views on this?

Maybe just helps trigger if there are other planets involved. Whenever Pluto, Saturn, Jupiter crosses over a house cusp or something there are definite noticeable changes for me. I have a lot on 0 degrees, nothing on 29 though so personally I'm not sure.

I'm going to have to get what a mutable cross and what not means in my head, I havent read that whole PDF yet either!

Hmmm... that's just a guess - or maybe a synchronicity - but I had problems with deciphering this person (i.e. guessing his ascendent) from the way he behaved... BUT this has led me to an interesting conclusion - HESITATION. 29th degree is about planning one thing and doing the other without a thought... 29th Vir, but his features are quite smooth, and basically he is quite likeable - Libra.

Yeah, Tierney requires cramming, that's for sure =] It's a good book, but one can't read it like a novel.

Thanks Amber for the interest though =]

I have wondered about this for quite some time. What are the most powerful placements to have in relation to the Elements and Chakras?

For instance, what's more powerful or more Water; a Cancer Moon or Scorpio Moon?

Also, we know what the Noted Planetary Placements are:

But what is someone has Venus in Leo? It's not listed on the Noted Placements. So where would Venus in Leo Rank? Is it powerful or Weak?

I heard that a Pisces Sun is the Weakest. How are the Planets Ranked when they are not listed on the Noted Planetary Placements page?

http://gblt.webs.com/Chakras666.htm At the bottom of the page you can click on the chakras, and they each have a planet.
These are the zodiac signs and what planets rule them.

For how powerful an aspect would be you look at the degrees, [http://www.angelfire.com/empire/serpentis666/Astrology.html](http://www.angelfire.com/empire/serpentis666/Astrology.html) this will help in reading a chart.

These are the Venus positions and what they mean.

Pisces are said to be some of the oldest souls. They can be dreamers and easily influenced it's a feminine sign but doesn't mean the person is weak because there are many aspects that go into a person's chart. You have to look at everything.

I hope that helps

**Subject: transiting saturn?**

Hi

so i want to understand this planet more, so many times ive read it only causes negative shit but here and there i see good traits like dicipline endurance and stabillity. but how do you know? what points is there to follow etc.

saturn is surely having its way now, it has been moving around my first house and has done so for some time, and i have done own research on what it will bring but i want others views too. first house specifically. its now right over my first house scorpio stellium, its mars mercury + pluto. at the same time its squaring my natal saturn(3h aquarius) and with that its hard to imagine posetive outcomes but once again ive had contradicting answers.

saturn does more now aswell , mabye more good example is its sextiling tight neptune/uranus conjunction(nep,18,35,ura 18,36) in third house cap.

one last, it will soon trine natal moon(4h pisces.) now my moon is already exposed to some degree natally.

what will happen here? saturn conjucting the stellium and soon after trine moon, while sextiling ura/nep conjunction while trining natal saturn? surely saturn is making changes as ive had some already, started last year and will do so this year more. also there are some beneficial transits going on but saturn is biggest mystery so thats where ill ask.

so far ive felt saturn conjuct mars energy alot while being slave at work, while some days i feel like a wasp. but mercury is worse as i feel incredibly shut down and limited in my way of thinking, its like im going through early childhood all over again..

pluto being still mystery but it will soon reveal. ive had help with Guardian giving info on how it will evolve me, but nothing on what will happen during it(sat will leave scorpio around yule i think?) and much ive felt its draining the body of energy alot. and i do have rheumatism which does not make transit any sweeter as ive seen many times this stuff can give rheumatic pains and bones have surely gotten worse beyond what i thought was possible. but also aside from physical stuff? the mental outcome is what interests me.

Cheers.

"Once is not enough. To really alter your fate, especially when thje fates of others are involved, such as many people in these difficult economic times are trying to secure a decent income, one must be strong. Your soul must be strong. This is accomplished through empowering your chakras, hatha [physical yoga], or tai chi or other internal martial arts, and breathing exercises. One's energies should be raised daily and kept strong." www.JoyofSatan.org

"If you see bad times coming, working to alter the negative energies with consistent applied power meditation, and keeping your energies high will often sublimate the negative planetary influences. Knowing the effects of the planets is a tremendous help in understanding what is occurring in your own life and in the lives of others." www.JoyofSatan.org
I couldn't find exactly what I was looking for, but the basic thing is that astrology can tell you when bad things are going to happen. But if you practice daily meditation and kundalini yoga, and your energies are high, this helps to basically repel negative things. Maxine has talked about this in a couple different sermons where her or someone she knew where going through hard Saturn aspects but kept their energies high and were perfectly fine. She has talked about predicting death in an astrology chart, and predicted her own death. With Satan, daily mediation and yoga this did not happen.

Hi

so i want to understand this planet more, so many times ive read it only causes negative shit but here and there i see good traits like dicipline endurance and stabillity. but how do you know? what points is there to follow etc.

saturn is surely having its way now, it has been moving around my first house and has done so for some time, and i have done own research on what it will bring but i wants others views too. first house specifically. its now right over my first house scorpio stellium, its mars mercury + pluto. at the same time its squaring my natal saturn(3h aquarius) and with that its hard to imagine posetive outcomes but once again ive had contradicting answers.

saturn does more now aswell , mabye more good example is its sextiling tight neptune/uranus conjunction(nep,18,35,ura 18,36) in third house cap.

one last, it will soon trine natal moon(4h pisces.) now my moon is already exposed to some degree natally.

what will happen here? saturn conjucting the stellium and soon after trine moon, while sextiling ura/nep conjunction while trining natal saturn? surely saturn is making changes as ive had some already, started last year and will do so this year more. also there are some beneficial transits going on but saturn is biggest mystery so thats where ill ask.

so far ive felt saturn conjuct mars energy alot while being slave at work, while some days i feel like a wasp. but mercury is worse as i feel incredibly shut down and limited in my way of thinking, its like im going through early childhood all over again..

I know hardly anything about astrology. All I know is that there are 12 (13) main zodiacs, and that each one, including the planets, affect us. I have no idea what the different aspects of each one are, and I have no idea how to read a chart or what "squares" are. Are there any links or articles that I should read to get me started? I am totally new to astrology.

Subject: Total Lunar Eclipse

In the Western Hemisphere, there is going to be a total lunar eclipse on April 15. Any rituals on that date?? HAIL SATAN! Praise and Glory to all the Demons/Demonesses under Lord Satan's Domain! Death to the Nazarene and his vile, filth allies! SEIG HEIL!

Subject: Re: Total Lunar Eclipse

I sure hope so, but if not I will conduct my own. What adds more power this eclipse is the grand cross formation in cardinal signs between the planets Uranus, Pluto, Jupiter, and Mars. The day before this the Moon will be making a very tight grand cross for a few hours where every aforementioned planet, with the exception of Mars, will be at, or close to 13 degrees of a cardinal sign. 0, 13, and 26 degrees of all cardinal signs are important degrees. The Usa natal chart has the Sun at 12 degrees cancer if I remember correctly, and I believe Saturn at 14 degrees of Libra. This would be an excellent time for a ritual, or at the very least sending energy to Satan and Lilith.

I don't have time to reply to any questions here. I felt compelled to share this knowledge in the way that it will be of great help to most of you throughout your lives, especially after reading of an extreme case, of which I may go into detail later on.

This list is incomplete in the way that I will not include every single aspect, but the most important ones. These aspects below, I have witnessed myself.

Knowing the below, can prevent tragedy. If you are in a situation where someone else's Saturn is in hard aspect to your ruler, and you cannot get away from that person, it is very important not to provoke him/her. This is a no win situation.

Put aside all of the crap in the astrology books that claim the Sun and even in some cases the Moon are of prime importance in one's chart. This is NOT so. The most important planet in one's astrology chart is one's chart ruler and if there are co-rulers. This also includes the ascendant and the first house. Your chart ruler represents YOU, as does your first house. I cannot stress this enough.

I will get to the point here. This list is incomplete, but these are from cases I have witnessed myself. Not just one case, but many. I have been doing astrology for close to 40 years.

Saturn.
I have yet to see [and I have studies hundreds of murder cases] one case where the murderer's Saturn was not in hard aspect to the victim's ruler. This is 100%. In addition to murder, there are also hundreds of cases where the Saturn individual inflicted great harm upon the person whose chart ruler that individual's Saturn was in hard aspect to.

By hard aspect, I am referring to the conjunction, the square, the opposition, and also minor aspects such as the semi-square [45 degrees] and the sesi-square [135 degrees] The inconjunct also factors in at 150 degrees. I have also seen trouble with the trine aspect as well. If another person's Saturn is in hard aspect to your chart ruler or in your first house- STAY AWAY from that person. Knowing this can save lives! This isn't of course to say that every relationship with one's Saturn afflicting the other person's ruler will result in murder, obviously...what I AM saying is yes, in the

...
extreme, but any relationship with the above will eventually result in harm for the chart ruler individual.

To determine someone’s Saturn, all you need is their date of birth, as Saturn moves slowly.

I will start with Saturn here. In some cases, trines and sextiles can be secondary. Below, I will be referring to the conjunction, the opposition and the square aspects.

**Saturn/Sun**
Saturn is very hard on Sun’s self-esteem. Saturn can act as a teacher to Sun in some cases. Saturn also inhibits Sun’s self-expression and sense of fun and individuality.

**Saturn/Moon**
Saturn can be a depressing influence upon Moon. The Moon person usually suffers more in the relationship.

**Saturn/Mercury**
Saturn does not want to hear Mercury. Saturn inhibits communications with the Mercury person. This aspect is very bad for any relationship, as the Saturn person stifles the Mercury person in all areas of communications...such as repeatedly telling Mercury to shut up.

**Saturn/Venus**
Saturn can reject Venus’s offerings of love. If the two do get together, Saturn will usually be the one to walk out of the relationship if there is a break-up. Saturn rejects Venus.

**Saturn/Mars**
This brings mutual antagonism and animosity to any relationship, with possible violence.

**Saturn/Uranus**
Saturn can be the jealous control freak here. This is most serious, and even the trine factors in, but is less than the conjunction, opposition or square. Saturn is very jealous and controlling of Uranus. Saturn tries to dominate Uranus and refuses to give Uranus any freedom. If there are other nasty aspects, this can be deadly. Saturn’s imagination can run wild in the way of Saturn making accusations of Uranus "cheating" "flirting" and such, and if other malefics factor in, there can be violence and even worse. This is a very bad aspect to have between two people.

---

Sun in hard aspect to Sun
Here the egos clash. Each will try to outdo the other. There is much rivalry.

**Sun/Moon**
[Conjunction and opposition] The Moon person usually is drawn to the Sun person. This is a positive aspect to have, especially in a love relationship.

**Sun/Venus**
This is a powerful love aspect. In progressions, if one's progressed Sun makes any aspect, even a trine or a sextile to another's Venus, the Venus person will fall in love with the Sun person. Another one is if one's Venus by progression makes an aspect to another's Sun, the Sun person will fall in love with the Venus person. From what I have seen personally, this is a one-way deal. Unless there are other supporting factors, this is not always mutual. The one whose planet is moving onto another's by progression acts to trigger an emotional response in the one whose natal planet it is aspecting.

Sun/Jupiter
Jupiter admires the Sun person. Jupiter is good for Sun's self-esteem. This is an excellent aspect to have in any relationship. The Sun person benefits from the relationship.

Sun/chart ruler
The chart ruler is often attracted to the Sun person.

Moon/Mars
Mars can be attracted and drawn to Moon, but can also be rude, emotionally upsetting, and even violent to Moon. This is not good for any domestic situation.

Venus/Mars
Strong attraction, especially sexually. Mars is attracted to Venus.

Mars/Jupiter
Mars is often attracted to Jupiter, especially sexually.

Mars/chart ruler
Mars can be attracted to the chart ruler individual, but if there are malefic aspects, Mars can be violent to chart ruler, this also goes for Mars in hard aspect to one's ascendant- Mars can be violent to the ascendant person.

Jupiter/Venus
Jupiter attracts, arouses and inspires much love form Venus

Jupiter/chart ruler
This is the exact opposite of the Saturn. Jupiter usually likes chart ruler. Jupiter can grant favors and do things of benefit for chart ruler. This is especially strong with the conjunction and the opposition. Other aspects such as the square and trine don't factor in. Also, if Saturn factors in with what I already wrote in the above, this aspect does not offset the malefic tendencies.
Pluto and obsessive love and fatal attractions:
Watch out here. In a natal chart, where there are Pluto/Venus aspects, the individual in whose chart this occurs is prone to love obsession. In relationships, if there are hard aspects between one's Venus and another person's Pluto, Pluto will become obsessed with Venus. The tighter the aspect, the worse this can get. Pluto can become jealous, controlling, and very obsessive with Venus.
If one's Venus by progression moves into aspect with another's Pluto, the Pluto person will get obsessed with the Venus person. The worst of this is the conjunction, opposition, and square, but all aspects triggered by this will provoke a response, and in many cases, this can result in unrequited love. If two people have mutual Venus/Pluto aspects, they may both become obsessed with each other and as long as it is mutual, this can be very deep and happy, but unfortunately, this is not usually the case.

Pluto can also have the same influence when one's Pluto is in aspect to another's chart ruler. Pluto can become obsessed, jealous, and controlling of chart ruler person.

I will try to write more about this and also include some case studies. I know Satan wanted me to share this knowledge. Always know a potential partner's astrology chart before making any commitments. These Synastry aspects can also be adapted to friendships, co-workers and daily associates, though I wrote the above mainly in the way of sexual relationships. In platonic relationships, just adapt the above...such as the Saturn person, even if a friend will be jealous and controlling of the Uranus person, constricting his/her freedom. Venus/Mars aspects in platonic relationships can draw two people together. Jupiter is always of benefit in a relationship, but does not really offset anything serious like hard Saturn aspects.

In closing, a second factor is the stellium. If one has a stellium [grouping of three or more planets in a sign], and Saturn is in hard aspect to the stellium, this is a malefic influence. Again, Jupiter is the opposite and is beneficial.

Astrology is not always pleasant, but it is very truthful when accurately interpreted. Astrology has been a major help beyond words for me throughout my life in understanding why hard times occur, keeping me safe from people who were negative influences and reading into others and understanding them. Astrology is a gift from Satan.

Subject: Enlighten me on reading my own astrology chart please?
Hey guys!

I have been studying astrology for some time, started from 0 here in JOS and I’m trying to get as much information as possible and to be able to properly read a chart. Always I had interest in astrology, but I was thinking it was just bullshit, until I read the one in JOS and checked my chart with that information. The results were astonishing and I got a little obsession with astrology since then, due to having big part of my life and family just written there.

I already read all the astrology part of JOS (for my chart and from family/gf charts), more than one time, but I lack the element of experience, of combining my aspects together and seeing it in the bigger picture.

So I humbly ask for this favor: could you take a fast look at my chart and just point the most important? The things that jumps to the eye, if there is any?

Here is a list of aspects, houses and all that I could get from my birth chart:

Did you look at what the degrees mean and if you have any stars in your chart?

**Astrological Degrees and Fixed Stars**

If you go to astro.com you can look at your forecast

Did you look at if you had any retrograde planets?

**Subject:** Re: Enlight me on reading my own astrology chart please?

I'm a novice so take any conclusions that I give with a hefty dose of salt (as the saying goes).

By using the "How to Read an Astrology Chart" guide on Joy of Satan and writing your findings out as you go through it will help organise the information.

I noticed you didn't add in "Vertex" to your chart, so I'd redo it with that included.

Finding your chart ruler is the important thing to do first.

Your sign on the AC is Scorpio, ruled by Pluto, co-ruled by Mars.

I would hazard that Pluto is your ruler and Mars a co-ruler.

The sign that a Planet is in factors into their relative strengths, Sun in Aries (as an example) Aries is the Sun's exalted sign and thus is strengthened, look on "Noted Planetary Placements" for quick reference when going through the chart.

Basically you sort through the raw information and write down the points like that above, once you've collated all the material of interest then you can draw conclusions.

Just an example of how I write things out, a more experienced Astrologer would factor in much more than that.

I hope this helps.

Hail Satan.
Ahh, i suggest you put away that info. If the enemy finds this it could mean deeep shit for u. They could
time their magic with the info from ur birth chart and cause devastating negative effects. You should never
give out this information to a public domain. Its nearly the same thing as saying ¨hey heres my address and
my keys just come take whatever you want¨ If you need help reading ur birthchart i suggest asking ur
guardian demon. Or a very close and trusted companion of urs to help you read it. Also im not very good
with astrology but i could give u some tips. Write down important points such as the ruler, whats in what
sign and house, what exalted, in fall, etc. Then u write down any opposite traits and see which one is has
more effect on ur chart. Then you combine everything together. At least thats how i would do it.

And what does this Vertex do?

HS!

Hello brothers and sisters i had a few questions about the moon square

1 Is it a good time planetary wise to start a moon square?  
2 Do the shortcut mantras make the overall working less powerful then if i would have used the full ones?  

Thanks brothers and sisters :D

Full moon in cancer or taurus on a monday is the best time. And yea the shortcuts work just as good as the

Hmm I didn't think about this chart being used against me, well said, I may delete it from here after a few
days...

Thank you for all the replies! Usually, thats also what I do. I look for the most proeminent things. I will
make some research about vexes, because I don't know what is it so far. In my novice reading, these are
the most proeminent things I can point, in order from the most important. I would be very glad if you could
give me your sincere opinion about it, if i am making big mistakes and not considering major things, or
giving too much emphasys to lesser things:
1- Pluto being the ruler on scorpio and house 12, which would give a lot of intensity and ability in the occult, loneliness and also Pluto destroying complications at my life. This give me much joy after I found out it was the most important aspect and on his sign.

2- Scorpio ascendant, with Moon in scorpio with close conjunction with pluto in house 12, which may add psychic ability and sensitivity, mysterious and intense personality, but as well as my very dominating mother. My Moon is in 16º33' of scorpio, and there is one unfortunate star at 14 of scorpio, and a very fortunate star at 18 of scorpio. This now is a complicated point for me, but as the unfortunate star can give body anomalies and I have none, I guess I have more influence from the good one.

3- Having the Sun, Moon, Pluto, Mercury and Venus in the house 12, can indicate that I may turn into an ascetic or spend some time in prison or in some kind of reclusive situation (?). Could also give me a lot of misfortune and bad luck, but I consider myself lucky and my life is not very good but also not bad.

4- Jupiter in Leo 11º02' on house 9 should give me a lot of luck in the life, since Jupiter is in his house, and some leadership skills. Since Leo in 12º degrees is a degree of beauty, does it mean my Jupiter on Leo 11º gives me beauty in my ideals and philosophy, physical, or none at all?

5- Mars, co-ruler, being on Gemini may give me some mental activity, appreciation for intellect and some arguments. Mars on house 7th would give me an aggressive wife and could result in plenty of arguments maybe.

6- Saturn on Capricorn in house 3 should be what gave me big problems with abuse of my older sister in my childhood and plenty of shyness in teenager times, but also some talent for business and reliability.

Full moon in cancer or taurus on a Monday is the best time. And yea the shortcuts work just as good as the long ones

What does it mean when planets are in conjunction
It is when 2 Planets are close to each other (within a 10 Degree Orb), and their energies merge to become one. The closer the planets (the tighter the Orb), the more powerful the conjunction becomes.

Group Ritual for Sunday, 22 of June 2014

The ritual can be performed any time after midnight, your own local time Sunday, the 22nd of June.

The words below are to be vibrated. By vibrating these words, this will remove another powerful biblical curse. The more people we have who will be doing this ritual, the better, as there is both strength and power in numbers. This ritual is the third of a series of rituals of which we will be doing similar each month or in some cases, twice a month in harmony with planetary energies. We are removing the weapons from the enemy’s hands. The effects of this ritual will result in full power for us Gentiles.

Practice the words [I have included an mp3 of the words for you all to download], as much as you can before performing the ritual.

Sunday 22 June 2014.

You can perform the Raum meditation to raise your powers before performing the ritual.

If you are experienced and already have a meditation that works effectively for you that raises your energies, then use whatever works best for you.

Vibrate RAUM

◯ RRR into your base chakra [be sure to roll the R's]
AHH into your sacral chakra

UUU into your solar plexus chakra

MMM into your heart chakra

Now, vibrate RRR into your heart chakra [be sure to roll the R’s]

AAAH into your throat chakra

UUU into your 6th chakra

MMM into your crown chakra.

The above is one round. Do several rounds. It is best to do 13 rounds, or a multiple of 13.

Vibrate EEEE focusing on the right side of your body and immediately follow by vibrating OOOOH focusing on the left side of your body [going back and forth], 40 times.

For example, vibrate EEEE focusing on the right side of your body [torso], then immediately vibrate OOOH focusing on the left side of your body. That is one round. Then, immediately vibrate EEEE on the right, then immediately vibrate OOOH on the left. That is the second round. Do 40 rounds of vibrating I then O using a Satanic rosary. A Satanic rosary is used so one is not distracted when vibrating high numbers of repetitions, by trying to keep count. This is not mandatory, though. If you do not have a Satanic rosary, use anything that works.

The I vibration, pronounced as EEE, is pronounced as the long American English E, as in the American English words SEE, TEA, and ME.

The OOOH vibration is the American English long O, such as in the words HOLD, and NO.

Following the completion of the above, vibrate E-A. Vibrate E, pronounced AY, as in the American English words MAY, SAY, DAY; focusing on the front of your body, and then AHHHH, focusing on your entire spine.

For example, vibrate AAAAAYYYYY, focusing on the front of your body - just your torso, then immediately vibrate AAAAAH focusing on your entire spine. That is one round. Then, immediately vibrate AAYYYY on focusing on the front of your body, then immediately vibrate AAAAAH focusing on your entire spine. That is the second round. Do 40 rounds of vibrating E then A using a Satanic rosary.

Following this, vibrate RAUM into your entire aura 7 times.
This meditation empowers the entire soul. The heart chakra is a connector and energy vibrated into it from below will then connect to and transfer into the upper chakras in the second part of the meditation. Just be aware, this is exceptionally powerful and you will definitely feel it the very first time.

This is a powerful meditation to use both before a formal ritual or any informal working.

RITUAL:

INVOCATION TO SATAN:

In Nomine Dei Nostri Satanas, Luciferi Excelsi.

In the Name of Satan, Ruler of the Earth, True God, Almighty, and Ineffable, Who hast created man to reflect in Thine own image and likeness, I invite the Forces of Hell to bestow their great power upon me. Come forth to greet me as your Brother/Sister and friend.

Deliver me O Mighty Satan from all past error and delusion, fill me with truth, wisdom and understanding, keep me strong in my faith and service, that I may abide always in Thee with Praise, Honor and Glory be given Thee forever and ever.

Vibrate the following words below 9 times. What this means is vibrate each of the words below, every word from the first word to the last. That is one time. Then, vibrate the same again and again until you have done this 9 times.

MAHT-OHT-AHMÇTEH "., NOHR-HAH-AH "., AYT-HAM

After vibrating the above paragraph 9 times, state with conviction 9 times:

Vibrate AUM

All obstacles are totally, permanently, and completely removed!
Satan is fully empowered!
Satan has Supreme and Invincible Power
Satan's Supreme and Invincible Power is Forever!
Vibrate AUM

[*All of the above together is one round]

HAIL SATAN FOREVER!!

End of Ritual

Key to pronouncing the words correctly:

- AH as in the American English word father
- AY as in the American English words day, say, made
- EE as in the American English words seek and week
- EH as in the American English words pet, set, and let
- I as in the American English words eye, sigh, tie, might.
- KH is guttural and the sound is made in the back of the throat
- OH as in the American English words oh and go
- R's should be rolled
- UH as in the American English word cut and tub
- UU as in the American English words sooth and tooth

Hi, I have a question regarding my chart; I realize that the ascendant is the most important aspect of a chart, mine being scorpio; but I am also born April 22; does this mean that I have both aries and taurus as my sun sign?

Looking at an astrology book I have, "The only astrology book you'll ever need," by Joanna Martine Woolfolk. Says the second cusp of Aries are people born between April 15 and 19. The first cusp of Taurus are people born April 20 through April 24. You are Taurus with Aries tendencies. - Description from book- You are self sufficient and determined, but also spirited and independent. You cannot bear being restricted by other peoples rules and whatever the situation. Whatever the situation, you always assert your own personality. People often come to you for advise, you may be know as having great style and confidence, and in truth you sometimes feel insecure, but you hide it very well. You take the intellectual approach to solving problems. In love you are impulsive and extravagant.

Subject: Group Ritual- 6 August 2014

Hi,

I just made a ritual for Unity in our Grand Satanic Family.

The ritual will be done in 6 August 2014, day of Mercury, because the moon will be in Sagittarius.

The moon will be waxing, so this should be a good time to perform the ritual.

I inspired myself for this ritual: https://groups.yahoo.com/neo/groups/JoyofSatan666/conversations/topics/75722

But this ritual is shortened. It take 5, maybe 10 minutes of your time.

Everyone shoul do this.

Runes used in Ritual:

Wunjo, Algiz, Ehwaz, Sowilo

The ritual should be done during the hour of Jupiter, Venus, mercury, the moon or the sun.

Pay attention to void moon.

Open up the ritual using the standard ritual

Read the ritual prayer with intent. As it burns recite in your head or aloud "There is an unstoppable healthy harmony in the army of Satan at all times." Until it is finished burning

Vibrate the rune "Wunjo" 8, 16, 24, 32 or any multiple of 8 times

Inhale and as you are inhaling recite in your head "The energies of Wunjo are creating an unstoppable healthy harmony in the army of Satan at all times."

Vibrate the rune "Algiz" 8, 16, 24, 32 or any multiple of 8

Inhale and as you are inhaling recite in your head "The energies of Algiz are creating an unstoppable healthy harmony in the army of Satan at all times."

Vibrate the rune "Ehwaz" 8, 16, 24, 32 or any multiple of 8
Inhale and as you are inhaling recite in your head “The energies of Ehwaz are creating an unstoppable healthy harmony in the army of Satan at all times.”

Vibrate the rune “Sowilo” 8, 16, 24, 32 or any multiple of 8 times

Inhale and as you are inhaling recite in your head “The energies of Sowilo are creating an unstoppable healthy harmony in the army of Satan at all times.”

After each vibration imagine a sphere of blue energy.

At the end of set (e.g. after vibrating Wunjo for 8 times), direct this sphere of energy to our Family, “knowing” that the goal was accomplished.

Then continue with the rest of the runes, doing the same.

Ave Satanas!

Subject: How can i get over this Saturn imbalance?

So I've been doing the 6 months program and I am in the 4th month, but also learning astrology...

I have saturn in 11th house and aquarius, toghether with sun and mercury... 3 planets in the same sign and house and it's one of the most important aspect of my personality...

As i see I have a lot of air/fire, earth seems to be in balance and a serious lack of water in soul:

Saturn is giving me this problems wich I quite feel them for a while:

Aquarius
These people, especially as they get older in life may become loners by choice. The emotional nature with this placement can be cool, detached, and controlled, unless there is a strong Scorpio emphasis in the chart. In some cases, there can be heavy responsibilities involving groups and organizations. In the early years, friends may have let these people down and later in life; they feel they work best when they work alone. Issues in the life can revolve around personal liberties and freedom. People with this placement can let their friends down or just not be there for them.

11th house
People with this placement can be let down in regards to friends, and/or they may have very few close friends. In many cases, there are heavy responsibilities involving groups and organizations. Personal goals may be restricted in one way or another. Friendships are often established with those who are much more mature and in same cases, in positions of authority and power. Friends and/or groups can make heavy demands upon those who have this placement.
Should I spent a lot of time invoking water to solve the problem (like 1-2 months)? so I can balance the soul, can I solve this problem, or should I accept it as it is... in my chart it seems my problem is that of being alone, and that I am too selective :/

**Subject:** How to predict world events?

Hey everyone!

I'm familiar with the basic methods of astrological prediction with natal charts. I also know that certain mundane events can be predicted with these methods, for example the events in the life of a country, by casting a chart with the date and place of the founding of the country.

I have two questions regarding this:

1. If one doesn't know when a certain country has been founded, how can that country's events be predicted?
2. Is there a method with which one can predict greater, worldwide events?

I'm looking for answers from those who have a better knowledge of astrology. Thanks.

**Subject:** Uranus opp Mars in SR?

I have recently seen in quite a few solar returns, for people as well as countries, SR Uranus opposite SR Mars. Pluto and Saturn also make aspects, either through square, trine, or inconjunct. I know these planets aspecting each other can indicate violence/war. Does anyone else have any thoughts on this?

**Group:** JoS_Astrology  **Message:** 1715  **From:** High Priestess Maxine Dietrich  **Date:** 8/7/2014

**Subject:** Re: Uranus opp Mars in SR?

Yes this happened just recently. If you have the planets in your return, to determine just how much they would affect you, you need to look at their placements in the SR chart. There are certain aspects that are in everyone's chart given the length they are in affect. Just how they affect each individual is a different matter.

Look to where the opposition [in this case] occurs in your return. The tighter the orb on the aspect, the more it will affect you. For example,
with an opposition, if the orb is 7-9 degrees, more than likely, it won't be
anything major and may even go by unnoticed. When the aspect is under 2
degrees orb, chances are it will cause an event to occur.

Now, say the orb is less than 2 degrees and the degrees of the opposition
line up with other planets on the same degree, and/or house cusps and
especially your angles. If the opposition for example is across your
ascendant-descendant axis, given the nature of Mars/Uranus, this could cause
you to have an accident. But, this all depends upon the tightness of the
orb, and if the opposition lines up with other planets and/or house cusps on
the exact degree or near. Another thing to look for in a solar return, and
even lunar and other planetary returns is return planets aspecting planets
in the natal chart. Conjunctions are the most powerful, followed by
oppositions and then squares. These produce events in your life in nature to
the energies of the planets.

Sublimating a Mars/Uranus opposition would include being aware of any
potential risks during the period. These often play themselves out in a
lunar return. The aspect can be repeated in the lunar return, or even a
different aspect. Also, if you have this aspect natally, there can be a
higher probability for an event occurring than for those who lack the
aspect. Also, look to your lunar nodes [exact degrees, even if this is a
minor aspect]. Sublimating Mars/Uranus energies can be done through hard
work. This can be upsetting and even exhausting, but it is a positive outlet
for these energies. Left to their own, they are indicative of an accident.

I also want to comment on death returns. I, myself have looked in my own SR
charts and my midheaven/IC axis flipped more than once. Obviously, I am
alive. This only means the tendency is there. Also, in going through my own
charts, I have had years in my past where I had a very hard Saturn and
ironically, the year was very happy. This is not the norm, though. I do know
that transiting planets are triggers for events and everything must be taken
together.

If the transiting Saturn is also making aspects to your personal planets,
then really be aware and look out. There are rare times when a hard SR
Saturn, say for example in hard aspect to the SR ruler, but a time when
there are no hard aspects from transiting Saturn to your natal planets,
especially your personal planets, the SR Saturn may manifest itself in a
positive manner. This includes the other SR planets as well.

If anyone notes their midheaven/IC axis flipping in a solar return, do not
get alarmed. The point is to be careful. From what I have seen, this does
occur in everyone's life at certain years. You have to look at what else is
going on and then, if things are really bad, then just be aware and of
course, really build a strong aura of protection around yourself. Reinforce
it daily. I have had several times when I saw my potential fate and was
alert and aware and the energies manifested in a better way than if I had
just walked into it unknowing.

One case I found very interesting was that of OJ and Nicole Brown Simpson.
His Saturn was in hard aspect to her ruler, among other deadly aspects.
There were many other antagonistic aspects as well. She had an exact
Sun/Jupiter opposition that played a major part in her murder. She was very
overconfident. IMO, this case was creepy. With SRs, the locality chart and
the birth chart will both reveal the same events for the year, though in
different ways as the house positions [say if someone moved far from the
place of their birth] will be different.

Her death occurred within a couple of weeks [if I remember correctly] of her
birthday [a time when one is vulnerable]. Transiting Saturn crossed her
ascendant into her first house. This is a most horrid transit in anyone's
life and this is where your luck runs out. Interestingly, her overconfidence
like I mentioned before played a major role in her murder. OJ was jealous
and controlling. She divorced him and then a couple years later, wanted him
back. Then, million dollars later with gifts, etc, she then decided she
didn't want him and dumped him. In addition, she was having a very open
affair with his friend and his friend would park his SUV outside of her
condominium every day and OJ was having her followed by private detectives.
My bringing this up is for an example of a classic and very creepy
astrological case that was blatant, with Mars/ Uranus involved.

Her exact Sun/Jupiter opposition was at 27 degrees Taurus/Scorpio. In the SR
for the year she was murdered, 1994, 5 of her ten planets lined up on the
26th degree, Mars on late 25th degree, all under 2 degrees orb to the
Sun/Jupiter opposition. Her best friend begged her to take a trip to Mexico,
but she refused and stated there was no reason to do this. It may have saved
her life. SR Uranus/Neptune conjunction opposed her natal co-ruler Mars. SR
Saturn was tightly conjunct her SR descendant [others]. SR IC also lined up
exact with her 7th house Moon. The 7th is the house of others and this can
be the others doing the victimizing. Her natal co-ruler Mars in the SR is in
the 8th house of death. To add to this, 6 of her ten planets in her solar
return are all on late degrees. In this case, it was death. You have to look
at everything.

Now, for the relation to her lunar return for her month of death, Virgo,
which was rising in her SR is contained in her LR first house with 29 of Leo
on the cusp. This is a repeat of the SR. In her locality LR for Los Angeles,
Mars/ Uranus of violence is on the angles and as I stated this before, this
intensifies the energies and influence of the planets involved. LR Pluto
makes in inconjunct to the LR Mars from the 8th house of death. The
Mars/ Uranus square is tight, just 2 degrees of orb from being exact. Her LR
8th house of death cusp is tightly conjunct Unukalhai of loss.

Jupiter isn't always positive. She had Jupiter in Scorpio in the 8th house
of death and Scorpio is also the sign of death. SR Jupiter was conjunct her
natal chart ruler Neptune in Scorpio. Given all of the other indications,
this resulted in her death. There are many more indications. I mentioned
this because of the Mars/ Uranus hard aspect that was intensified by her
location in Los Angeles. There is much more, but I am real busy and have
gone on with this too long as it is.

Also, concerning world affairs, this is something I don't know very much
about, but my mother told me when she was very young, she and her mother
were standing out on a field on their farm and the Sun was glowing red and
there was a black spot on the Sun and her mother told her [this was in the
late 1930's] that there would be a war. Also, Neptune and Pluto are in the
signs exactly opposite that they were before WW2 at this time. Jupiter and
Uranus are also involved. I could go on and on, but have to get offline

Thank you for answer... I'll a square for one of those planets since is a good period.

I would like to ask on more thing. Must one have a chart ruller? because I see that that I have no planet in my ascendant sign, but I have a planet in my descendant sign... I have 3 planets (in the same house) in one sign and 4 planets (in 2 houses) in another sign.

Can SR Venus conjunct natal Sun in the 5th INTERCEPTED, but with Venus as the ruler of the 5th mean anything else than some romantic relationship?

Soon I’ll be having this aspect, so I wonder how money- or skill-wise could I use it to my benefit - any ideas?

HS!

Can it somehow awake some latent artistic talents of mine? :P

With Mercury in Libra in an angular house...

Okay Shannon, thank you for your input =]

Hello all.

I have received my astrology chart and full reading from Maxine a few years ago. It was brilliant. My birthday is soon approaching and I would like to for cast for the year! Seeing as how our High Priestess is taking a break on Astrological services I would like to hear some recommendations from other Satanist members. I've seen different software available for casting charts and finding progressions for personal planets and also seen people advertising their chart services for solar return and other predictive methods. Of course I am not so open to trusting anybody besides the High priestess. Have any of you received services through a respectable individual? Do you have more info on how to predict oneself?

Thank you very much for your input.

As times go by, many people are and many are now becoming aware of what the jews have been doing to us Gentiles for centuries. For that reason, people are becoming very enraged, rightfully desiring a revenge against this race of people. As the days go by, people are making their research. We do our part in fighting global jewry, by educating people. When people find themselves the lies the enemy has spewed, about religion, about every facet of life, people are becoming even more hatefully aggressive towards the Chosen ones.
The chosen ēonesò have one ēgodò and its name is ēmoneyə. Without their so called ēgodò, they are nothing but a piece of shit. There are people who are unaware of the jews, one thing: read history. Read history from unbiased sources. There are more than hundreds books of 1000 pages or more, revealing the crimes of the jews, be it in Ancient Greece, Ancient Egypt, Roman Empire (whom they destroyed), Assyria and the Middle east, Even in the Americas (murder of the Indians) and so forth. People are being educated and not ed-jew-cated as they have done in the Age of Pisces.

The Age of Pisces and confusion and lies of the Abrahamic pieces of shit are over, unfortunately.

People nowadays know of the Inquisition that destroyed Europe and plettered the land with blood of the ēheathensəand people know of the crimes of the Vatican. People know what Christianity and the other ēholyə major religions have done to Humanity, Science and everything that is beautiful. People know what happened in the middle ages (people dying like rats from the Bubonic plague because xianity said that ēcats were of the devilə and mass murdered them, as thus letting the infected rats roam). People know about the ēpurity beltsə people know about the Federal Reserve and who owns it, people know about the stolen land of pissrael, people know about all these things or have even heard about them. People know the CEO heads and the ilk in the big-ass industries, be them pharmaceutical, or food industries. People know about the Black Slave trade, people know the curses the Ancient Egyptians receive in the bible. People know all these things. People know how Hitler was dragged into war and never intended there to be war. People ARE learning about USSR and the jews beast, people have seen what the jews do when they have power. People know about the jewish mafia in Brazil and the cocaine cartels, people know all of this. People know of their direct involvement and control of anything. People know of the Torah, of their Protocols in where they are calling us a piece of meat and goy. People know about the Rothschilds and the civil war. People see what the jewish spawn of ēcommunisməs doing to china and how it shaped these people.

The Great masses of people aweaken. People know that we have a Soul and that we owe nothing in the jews. Their spells are breaking and their state is crumbling.

People know that to the jews are are only to be slaves, animals and dead meat.

People are getting to realize the ēgodôof nowadays that has allowed the world to rot for 2000 years, is just another jew, with stolen identity and personality from many major Ancient Gods.

People KNOW.

Nowdays, people know what they do. They know their unholy alliance with ETə and other entities, how they stole spiritual knowledge, how xianity, islam and Judaism have one aim: world domination under the jews. People see about Gaza everyday, how people are getting chopped and are dying, the murdering of the Yezidis by their kike-run and guided wars.

People know their lies.
But you know more, you know the Truth.

You know the capability of the Human Race, you know the True Father, you have the means to exact Spiritual justice on these spiritual, mental and physical criminals! So what should you do?

BRING SPIRITUAL JUSTICE.

If millions of souls who have been destroyed, raped, mutilated, poisoned, made lost, made insane and have endlessly suffered under the Jews don't give you the shivers, if you deny all the Gentiles that live within you and in your blood, that have suffered for your sake by trying to survive, that have spilled their blood for you, so you can live today and have another chance in defeating this scum.

Every Satanist must therefore affirm and say:

"WE GENTILES OF SATAN ARE DEAD ANGRY WITH YOU, ALL OF YOU AND WE WILL NOT LET YOU ESCAPE THIS TIME. THIS TIME YOU WILL BE SHOWN NO SPIRITUAL MERCY. WE ARE FREE FROM YOUR LIES AND KNOW IT ALL ABOUT YOU AND YOUR TREACHEROUS WORK AGAINST US!"

Satan wants nobody to allow themselves to be fast asleep when we have this chance to exact justice on this race of Criminals who are and stand against whatever we have been trying to create as Gentile people. Destroy spiritually what has been destroying for thousands of years.

NONE OF YOU IS ALLOWED TO ALLOW THEM TO DESTROY YOU, BECAUSE YOUR LIVES AND YOUR FUTURES, THE FUTURE OF HUMANITY IS MORE PRECIOUS THAN A MERE COMFORT OF COWARDICE.

People of our Pagan Gods have spilled their blood in the sand and the Earth, screaming that one day will be back and take revenge against those who destroyed the world of Satan. Now us, as their Sons and Daughters, take the Holy fire to incinerate SPIRITUALLY all that has been destroying for so long! THE JEWISH TYRANNY AGAINST US, THAT OF THE JEWISH RACE!

So, do you want a new future? Or do you want us to be destroyed?

When we are so close to the new dawn, nobody is allowed to not welcome the Sun!

I'm a little bit confused concerning the orbs in astrology.

One of my astrology books says that each planet has different orbs for different of the aspects, for example the Sun:

- 17° for conjunctions and oppositions,
- 11°20' for trines,
- 5°40' for sextiles,
- 8°30' for squares, and
- 4° for the minor aspects

Are these correct?

Another source stated that the orbs differ from each other only in regards to the aspects, but we should use the same orbs for every planet, except the Sun and the Moon.

So what exactly are we using here? I'm really confused.
Thanks in advance.

HAIL SATAN!

Personally, I have always used for interpreting birth charts:

For conjunctions, squares, trines and oppositions 8-9 degrees
For sextiles 6 degrees
For inconjuncts 5 degrees
For semi-sextiles, semi-squares, sesi-squares, quintiles 1 1/2 degrees.

In some cases, as with synastry, if there is a Saturn aspect to the ruler, of which I already posted on, it is best to use caution and widen the orb, even the sign, such as opposing signs i.e., Scorpio/Taurus, and signs that square i.e., Libra/Capricorn. But as for doing birth chart interpretations,
I have always used the above.

I also want to add through my own research, semi-sextiles and the other so-called "minor aspects" are aspects of fate; especially the semi-sextile, rather than aspects of personality traits. The reason being, if correctly read, the orbs are very tight and when one has two or more planets linked on a certain degree or within 1 1/2 orb of a certain degree, there will be a fated event that will occur in the life at some point. The more planets that tie into that degree, the more major the event will be. A major turning point in one's life.

In some cases, the linked planets can also indicate something one is born with such as a special talent or an anomaly. I knew a woman who had an IQ of over 185 and she had an exact Mercury/Uranus square linked with her ascendant degree, making this personal. People born on that day would have the tight Mercury/Uranus square, but when an aspect links to one's ascendant, chart ruler or midheaven and the orb is under 1 1/2 degrees, it becomes personal.

This is something very important to me as I am a Physicist and my degree caused me to study this in mathematical detail in the past. And btw, I’m dedicated and have read Jos throughout.

We exist in a three-dimensional "sea" of stars and planets. The way we see them is from our relative position in all this mess. They all interact with us to a certain degree too; the most obvious are the fact that the sun won't let us out of an elliptical orbit (thank gods, lol) and the tides are a special gift from the moon. Gravity!

Now, all the others influence each other too. About 100 to 200 years ago people started noticing what they called "anomalies" in their calculations and predictions on where planets should be. Smart people figured out that there is an unknown planet pulling and predicted where it should be. And yep, there is was! They kept going and found most of the outer planets that way.

So, is worrying about retrograde Mars, Saturn in the house of whatever, etc. just the belief that small gravitational tugs affect our daily lives? I don't see how. I do agree the moon (especially full) affects behavior...

And even the biggest question of all, why in the Hell would Satan even care? He sees them from a different view/angle anyway. Shouldn't we use star maps as viewed from Orion?

Thanks!!

Well, it really doesn't have much of anything to do with gravity.

You said it right the first time: we exist in a "sea of planets"

More accurately, we exist in a "sea of space" and the planets give SHAPE to that space.

Space, EXISTENCE, is consciousness. The Ether. Akasha. Spirit.

Matter rises from consciousness, not the other way around.

This does not mean that the universe IS conscious. It is not. But it is made of the stuff that gives rise to all aspects of a conscious being - emotions, feelings, volition, thought - these are cosmic forces which find their ultimate expression and manifestation in the living being.
And humans are very, very advanced living beings. So they express these qualities thoroughly.

And Gods are perfect living beings. They express these qualities perfectly and for eternity.

The planets, being massive, and existing at intervals from the center star of the system, SHAPE the space, the consciousness that surrounds us.

They are beacons of energy, and their positions relative to the Earth (where those life forms exist) will therefore "pull" on the souls of those beings who are upon the Earth.

Life is made of the same stuff that the stars are made of - both physically and spiritually, at the soul.

The planets' energies affect everything around them. When they move, we feel it, even on a subconscious level. That's why the stuff of the occult is called "subtle" - it's hard for most people to notice, but it governs our very reality.

If we were in Hell, standing on the surface of the planet where Satan is now, then yes, we would be looking at whatever stars and planets were in our vicinity - those stars and planets would be shaping OUR reality.

But we are on Earth, and so Neptune is more important to us than, say, Betelgeuse.

We are nowhere near Betelgeuse. It still affects us, but not as directly or as strongly.

Satan and the other Gods have mastered astrology - they lived in this star system for tens upon hundreds of thousands of years so they especially know this star system's astrology - many of the gods were BORN here so that takes their connection to this star system to a whole other level as well. They are also still interested in Earth astrology because this is their planet, and we (their children) are still living on it. And it is a battlefield in the war that they are fighting. So they have to pay attention to the planets' positions here - because those planets govern this reality.

But as for THEIR daily lives, yes, they would be concerned with whatever stars and planets were in their own cosmic backyard.

But on the other hand, they are Gods. So their relationship to stars and planets is ENTIRELY DIFFERENT than our relationship to stars and planets - because THEY are GODS - they can read and direct all the energies of the planets and bend them to their own will. Easily.

Humans, on the other hand, are far weaker. Therefore, we are thrown around by the energies of the planets, and have very little control over how the planets' energies manifest in our lives, by comparison. This is where you get into "fate." This is why humans have so little control over their own lives - humans have weak souls and are therefore at the mercy of whatever energies are around them, and subject to the whims of higher beings as well - whether benevolent (our gods) or not (the enemy).

And so the study of astrology is also important for us, because although we might not be able to literally direct the energies of the planets (basically "telling" a planet how its energies will manifest), humans still can direct the energies of the planets to some limited degree by knowing what energies are coming and trying to act accordingly. For example, if Mars and Uranus are squaring each other, this is a time when accidents are more likely to happen. Because that's the nature of those planets and that aspect. Mars rules violence and bloodshed, Uranus rules unexpected events. The Square is an aspect of stress. You get the picture. Someone who studies astrology would know that such a time is not ideal for visiting an amusement park and getting on the brand new rollercoaster. This is a very simple example but you get the idea.

So it is still useful for humans to know astrology, because humans can try and adjust their actions in the physical world to maximize the energies around them, which astrology will reveal. Gods, on the other hand, will just DECIDE NOT TO HAVE ANY ACCIDENTS - and the accidents just won't happen. They are kind of...
more powerful than the planets. It's not that the planets don't have power. They do. But the Gods can
direct that power and decide how that energy will manifest in the physical world.

Energies all have their own natures, and each planet's energy is entirely different, and therefore each planet
rules over some aspect of consciousness and some aspect of our lives. Life on Earth is nothing more than a
miniature version of the solar system. The human soul is a miniature version of the solar system - Mars
represents the head of the human body, the brain (along with Mercury), etc and Mars also rules the blood
and arteries - and in the soul, Mars rules the 2nd chakra. The Sun rules the 3rd chakra in the soul, and the
heart and spine in the physical body. Et cetera.

So when The Sun's energy is weak, this will affect life on Earth (and will affect every life form differently,
depending on their own genetics and astrology, etc). Someone with a weak 3rd chakra and a weak Sun in
their astrology chart will have a tough time when the Sun is also weak, and so on. An afflicted Sun in one's
astrology chart can indicate a heart condition, since the heart is ruled by The Sun. You get the idea.

Anyway, welcome.

"One day for each year progressions are used for the Sun, Moon, Mercury, Venus, Mars, and the four
glasses [the ascendant, midheaven, IC, and descendant]. The outer planets move too slowly for this
particular method. The midnight date and the noon dates determine the 6 months for the year in
question; this is especially helpful in charting the course of the Moon, as it moves faster than the
other planets."

Does it mean that when the year starts, one should cast a chart with midnight or noon? Because it is
unclear...

**Subject:** Retrograde Planets

Hi. I have been working with Astrology for a few weeks now and have picked up on it very well. I went back
to look at my chart and became somewhat confused with the answers it was providing me. I noticed I had
five retrograde planets. Most of them were dominant in the chart as well, meaning they had more power. I
also took a closer look and noticed most of them were in a house of delay and problems, ie. Pluto in
Scorpio, Jupiter in Sagittarius, and Uranus in Aquarius. I am kinda worried what this means. I have been
frantically reading the page on the JoS site, but it's providing no answers on the "delays or problems" in
these houses. Could someone help me out? I posted the information on the retrograde planets below.

Mercury in Gemini, House 12, Retrograde, Dominant
Jupiter in Sagittarius, House 6, Retrograde, Dominant
Uranus in Aquarius, House 8, Retrograde, Dominant
Neptune in Capricorn, House 7, Retrograde
Pluto in Scorpio, House 5, Retrograde, Dominant

I hope this does not mean anything bad, but I'd rather be prepared for what is ahead then live in fear of it
not knowing what it does. Please help!

Hail Satan! Hail Lilith! Hail Asmodeus!
Due to that if answering only on a post, many would still remain with questions, a sermon is written so that things will grow clearer from those suffering from enemy attacks and that sort of thing.

Those who have went far in Satanism know it’s not an easy road, neither pelted with roses and glitter. Anything but that. But, as we grow powerful and in power we can escape the grip of other entities and people who are hindering our freedom, emotional, spiritual or whatever. Satan is the True God, He is the Truth and he opens our eyes to the Truth once we dedicate, given we are aware, meditate and ask him to enlighten us. With opening one’s eyes to the Truth, we see beautiful and ugly things, both in the extremities. First of all, we have understood a global Jewish conspiracy from “out there”. Those who have went far in Satanism know this beyond any doubt and see this with their own eyes. Satan has showed me many times things that I did not like, but, above all I like the Truth being handed to me, which is exactly what he did.

The enemy race of Jews is the architect and slave master of the major programs of removal of spiritual knowledge. By their grip in mass media, by their massive financial power and all other powers they possess, they create a society of slaves, idiots and careless people without a Soul. They teach people being a slave is a virtue, so they can enslave them. Their protocols of ZION, their bible, their created koran and all their philosophies revolve around making everything a big clump of no diversity while they are at the top. They have the nerve to say that even "God" himself must be a Jew. So far the idiocy and putrid soul and mind of these desert nomads has went, that they even claim to be the chosen of some...Psychopathic "god" that sits on the clouds, strikes people and watches you when you masturbate because he himself ordained is a sin and therefore he will send you to hell for it, but HEEEY wait, he knew you would sin so practically created you to punish you in a lake of fire?

You will see where I am going with that, just bear with me.

Okay people are we serious now? Do you see, grasp and understand that all these insane bullshit have been infesting the minds of humanity for 2000 years and more? I know to people here who are spiritually liberated thanks to Satan, masturbating or whatever does feel literally freeing. Sex is a pleasure. But do you realize there are people out there who are afraid to touch their genitalia, or get the man/woman of their dreams, or even have a decent home, or even eat meat at Thursdays and Fridays? Do you realize the depth of programming that has orchestrated by the Jews inside the souls and minds of people? Do you realize this filthy nonexistent piece of shit has made the whole society neurotic and incapable by a large degree, and even devastated TOTALLY BEYOND REPAIR the minds and souls of numerous people?

Do you understand how much they underestimate us subconsciously and what messages they are passing in their bible etc? That "god" must be a Jew and so forth. When this ugly non-existent piece of shit did not answer prayers, obviously one felt even more rejected by "god", who is a Jew and therefore the mind makes the co-relation to respect the Jews (therefore according to Xian faith "god") or that they have power and other things. The subconscious mind makes all these connections.

DO YOU REALIZE THE UGLINESS OF THEY HAVE CREATED? THE VILENESS OF THEIR WORKS? WAKE UP HUMANITY, WAKE UP SATANISTS!!!!

Now if you take a look around, these people are people we probably have had in our families. People whom we know, even the people who held us when we came out of the womb of our mother (which in many cases has been a Xian as well) and maybe when we came into this world the first thing we heard was "fucking jizzus its a boy/girl!!!". For those growing up in xian household, they know how much indoctrination we have had from school, from people and so forth.

Tie into ALL of that the media, the games, the bullshit, the interaction of our psyche with the psyche of all
around us in a subconscious level and so forth. The enemy has had us almost totally. All their "projections" placed before our eyes set us the goy into the "right" and "politically correct" path of obeying to some sort of hebrew kike zombie, who is supposedly a jew and is the "god of all creation". You get the motto here? No matter if we payed attention to these things, our minds do. The package of all the above comes with a streak of fear, illusions, lack of knowledge, choosing to be arrogant, losing one's self and so forth. Let alone the historical torture, total lack of scientific knowledge, even malnutrition caused by the jews and their famines, the massive degeneration of the pure races and their Genetics (which were bestowed upon the Gentile Races by our Gods when they were here physically) and so forth. This has been going on for 2000 years. All that torture is imprint to a degree upon a Soul.

Infact, everyone tries to shape us into some good slave.

MEDITATION AND ADVANCING IN SATANISM BRINGS THE *EXACT* OPPOSITE OF THIS EFFECT, LIBERATION, MENTAL, SPIRITUAL AND EXISTENTIAL!! Therefore I let it up to you to understand that our mind being loyal to the programmings it have received might do to deter us from....Our own good. The jews want even to take your mental peace away. To have you live in fear of some kike 'god', to own you and your Soul and all you are. Can you grasp this concept? Do you see and understand the PURE EVIL NATURE of these people and of their creations now?

Those of us who are here have obviously been for the most part immune to this brainwashing, as our Souls /Genetics have been to where we are able to understand the rotten society and status quo of the enemy. Internally we know the Truth about our origins and so forth and in due time, this prevailed over the lies and we started searching. We found Satan, dedicated and are evolving in His path and way, re-vamping our Soul energy, our powers of the mind and so forth, meditating.

Now take all the above in conjunction and add the alien bastards into the story. Thing is, the alien bastards of the enemy did what they had to do. They infested society, guided their agents and so forth. To really understand why the attacks occur, take all the above in consideration and then, put personal problems we might have as people (there is a variety) and mix all of that. The enemy has created and shaped our minds since we were toddlers against all these things we do. Against power, against being somebody, against being our True self (they tried to cover everything with lies), against building a strong body, against everything creative and productive.

Do you understand there are people, so subconsciously dehumanized, out there who pollute the Earth and destroy the globe, justifying it in their sub conscience or even CONSCIOUSLY and VERBALLY that "THE EARTH IS TRANSIENT AND WAS CREATED BY "GOD" SO ITS NOT IMPORTANT AS WE GO TO HEAVEN, THIS WORLD BELONGS TO SATAN". Yes, there are fucking retards with single digit IQ who think that way, being so faithfully under the jewish rot and programming. Do you GRASP that its up to you to end this hoax of CATASTROPHIC proportions and its orchestrators? Do you understand that the Earth herself is going to pay, let alone the whole Humanity, the fruit of all that?

Thats why we do our Destruction Rituals and EVERYONE has to participate.

The subconsciously minds of others and their domination (or our domination to them) and so forth. For instance you might grow out of nowhere too bored to meditate. If someone in your early life used to dominate you in some way and your mind convinced itself that you want to be under their influence, then this may contribute to that you self stop yourself from advancing, as to remain on the programmed path of your mind. In other words, what we want consciously, we must make sure we want subconsciously. The
subconscious mind with all these situations of today and all this sick and insane world, rarely is at benefit of someone so it has be reworked and reprogrammed. Then you will understand where MANY of these attacks come from, our own minds. I know it sounds strange and in no way one should forget the enemy...But... The enemy has worked it out to where most of us self-attack our own self. Thats how intelligent and deceptive they are. Deprogramming yourselves from xianity/islam and maintaining self control will put most of their attacks to a dead end. When all this is under control, and you know it, then you can be sure its them. Sometimes, its both.

In closing, what I am saying is to stop being paranoid and examine the causes ALWAYS. For instance if you have a stabbing pain somewhere, it MAY be an attack, but it MAY also be some disease, something bad you ate or whatever. Its not always some alien from outer-space, other than that when it really is. Many do not know how much power these bastard beings have (or used to have, because now they try to save pissrael from her undoing). This is more than just telepathy. Being paranoid that one gets attacked is a main reason of drawing these to you. Tune them out. Like they do not exist. You feel attacked? Attack back, protect yourself, not in a way of making them exist even more in your life.

Tune in Satan more instead, make True God's influence in your life stronger and brighter. Do not dwell on some fucked up aliens with no conscience. Dwell on beings that love you and have proved it, you GD and our Gods. Keep on advancing. Do self reasearch. Do you "expect" and attack or feel "worthy" of an attack? This might draw attention to you, like your own mind drawing them. Do you feel very "warlike" and want to somehow taunt them or something? This might do that. Just do your protection, maintain self control and know yourself. The enemy is crumbling as we speak and has been crumbling for a long time. As we go, they will be destroyed further by our spiritual works and in the Satanic End, we will have exacted spiritual justice on these spiritual criminals, the murderers of the Human Spirit and Soul.

Satan is the Real God, has the Real Power and is for the Real Gentile Spirit and Glory. Allow Him to open your eyes, totally and unconditionally. Work on building a strong relation with Him. We must annihilate the enemy. When you realize the depth of the ugliness and the work of the enemy, you will surely rage so much beyond doubt. Work on freeing yourselves.

It is not a good idea to post personal information for the public to see. Your astrological birth chart gives away your weaknesses and can be used to make curses against you significantly more effective. There are many people who would be pleased by the death or ruin of a Spiritual Satanist. Releasing persona information can cause severe problems in the future.

**Subject:** Pluto

As of last year, and in fact, for the next 4 years or so, Pluto has, is and will be aspecting my Natal Moon.
Now, the effects of this aspect have been very transformative, for example, as the Moon rules the family unit, my family life has been greatly changed and transformed. My sister has gone to study in another country, and my father also moved to another country to work, though he comes back regularly for visits. Soon, as well, my mother is due to work, so basically, there is going to be no one living at home par me and my brothers.

Pluto is aspecting my Fifth House Moon from the Fifth House of children (indicating a new baby), my baby cousin was born.

So now, the question. Cancer (ruler of Moon) is in my 12th House of psychic ability/powers of the mind. My psychic powers and mind powers have greatly increased, in that I have became more and more spiritually open. I can understand messages from the Gods and such and also, I can sense a person's energy, what they are about and how xian/pisslim they are by just a look on their face. I have been told that this is a very good opportunity to permanently open myself up to the astral, in that I can openly hear and see other entities on the astral. So far, my Guardian only mentioned the Moon Square to me. Anyone else have any other methods that are powerful opening up the Soul that worked with them?

Another question, when I looked at my Solar Return charts for the next 5-6 years, I saw Pluto in different positions every time, and at one stage, I even saw Pluto in the Ascendant/1st House. I thought Pluto is the slowest moving Planet and it should stay in one House/position for a long time??

Thanks in Advance.

Subject: Finishing off the Jewish Tyranny. [Small Working]
http://josministries.prophpbb.com/topic5159.html

Fellow Brothers, Sisters and Commrades.

Today it is another day like all others that we belong to the Truth and serve the Truth. Those of us who have been with us until the end, saw and have done all the big work we are seeing the seeds of today. We have been rampantly attacking Israel and will continue doing so. There were members who went very far with this as all our family has done, attacked the enemy ruthlessly for 40 or even 80 days concussively. Due to the effort of these modern day Heroes and our Freedom fighters, international jewry is crumbling as the day goes by.

Though, as much as we see victory, we see something very evident: That the enemy will not just stand there and die. That they are very dangerous now like they never were.

We have had people who doubted, run away in lazyness or fear, those Faithful Warriors of Satan know that Satan stands above them and has them under his wings. We had people who worked ruthlessly and wrote and are still writting history in its most subtle level. THIS IS YOU. YOU ARE NOT THE IGNORANT, YOU ARE THE BEINGS OF TRUTH AND THE LIGHT. I ask both of you to stand on your height of Soul and finish off the intruders of our life. There is not one problem in our lives that is not connected to the international jewry. You see what they do to Gaza, what they have done to countless civilizations. This is only a bit of dust on
what they will do to us if they will prevail.

For that reason I call the spiritual elites of this Era, to fight them ruthlessly, once more and until the end. Even when things are seemingly over, we must not fool ourselves as they will not go down so easily. Those who stop now, steps before the end, are not worthy of what it is to come. WE WANT A FREE WORLD. A WORLD FOR YOU AND ME AND NOT THESE JEWS TO RULE ON.

I call everyone to the Spiritual Arms. These days like no other days the enemy has been around their coffin. Its of serious historical imporantant that you act now. I tell you this from the bottom of my Soul, from the bottom of my Heart. If you are not the greatest and most brave people in the world, I do not know who that is.

Those who know what we do, know that we should decimate those who oppress us. Now is our most fatal opportunity.

You raised your head in spiritual tyranny, you have been with us from the start to the end. And you are now living to see the fruits which we have planted.

Be merciless in your pursuit of justice and in your pursuit of a better, Satanic World.

We are the most defamed, the most misunderstood, the most brave, the women and men against time, those who have an eternal vision of a greater tommorow. Its up to you who have the tools of shaping the world to shape it. FATE CALLS YOU ALL TO DO IT!!!

So what I am asking is quite easy.

Everyday, until the day that a Ritual will come, which will be soon, raise the following and direct it as following.

-Thurisaz x9.

Then affirm Once with intent-

"Israel and all the jewish race of peoples are permanently and completely destroyed in every and all levels of existence."

-Hagalaz x9

Then affirm Once with intent-

"Israel and all the jewish race of peoples are permanently and completely destroyed in every and all levels of existence."

You can multiply 9 vibrations and do this, like x18 Thurisaz or x18 Hagalaz.

An Alternate affirmation would be as following: "Israel and the jewish race as a whole are now being permanently and completely destroyed, in every and all levels of existence."

****ALL THE ABOVE IS TO BE DONE EVERYDAY, UNTIL A NEW RITUAL IS POSTED. THIS SHOULD BE PART OF YOUR DAILY MEDITATIONS. PREFFERABLY, DO THIS FIRST AND THEN DO YOUR AURA OF PROTECTION AND CLEANING MEDITATION!

Use whichever feels more on the point for you. Both are the same thing. But some might have a tendency toward one or the other.
You can imagine grey energy suffocating them all over the globe, with severe intensity. This is to be done daily with your daily meditations. This will add up to our older Rituals and finish the job. But the job is not finished until WE finish it. And we are not idiots to think that Israel is overwith...Far from it.

Satan has placed his faith in us. Lets make Father Satan proud and create a world in which his name stands proud for all the Ages!

HAIL SATAN!!!!!!

HAIL THE GODS AND DEMONS OF SATAN!!!!!!

HAIL TO OUR MOST PRECIOUS AND FAITHFUL COMRADES AND WARRIORS!!

Greetings to our family.

We see many times and have saw in the past, some posts in regards to the Gods and sexuality, or claims that people get intimate with the Gods or that sort of thing. This is TRUE in the case of succubi and incubi, but I see much blasphemy going around in regards to High Ranking Gods who actually are for the most part, married or engaged from beings from their own kind. I have heard atrocious claims in regards to Satan and Lilith and even more.

Let alone the gossip some people do with the personal lives of the Gods. That's their personal business and if they feel like sharing, they will. Satan is open with all of us and so are the Gods. [Seriously............Thats not fucking hollywood and some need to wake up]

I DO NOT MEAN IN REGARDS TO ANY SUCCUBUS OR THE INCUBI. I CLEAR THIS RIGHT NOW!!! These relations are a specific gift from Satan himself and some of these Gods actually have the want to be with us Humans for many reasons. This is something entirely different, True and goes both ways.

Most of the time, this is a tendency of infiltrators to make the Gods seem as sex freaks, or like Highest Rankings Gods from Orion's belt would be interested in "getting laid" with someone from here...for some simple and stupid reasons...Or like the Gods have to abide into the sexual needs of little them. That's pathetic.

With the above of idiotic/infiltrative and delusional exceptions, I have to point out some things as after a point its not only too wrong and disgusting, it comes off as ignorant. People tend to overly fantasize.

This has one purpose, to tie in our Gods to the good ol' kike mindset that our Gods are some sex addicted beings who actually are all about and revolve all around sexuality. I.e, Sexual Granting machines, money and fame, the good old kike propaganda against Pagan Gods. The only religion that obsesses over sexuality to a degree of insanity, is the judaic filth and its branches. Generally these faiths are all around and about prohibiting recreation, sexuality, controlling sexuality and so forth. This creates severe hangups in people and moreso severe backlashes.

The gradual degradation of the sexual act nowadays is exactly the outcome of such stupid beliefs that originate from neurotic and insane jews. Remember, sexuality is where we would create more Gentiles, merge with one another, form families and bonds, liberate our Kundalini, use the energy constructively and
so forth, evolve to be free, heal Humanity and more things. Jews as the racial and social infiltrators they are, could never find a more sensitive point to attack. On one hand, they enforce insane celibacy, to the point of mental distress and internal destruction of the psyche, that remains unconnected and unexpressed. Even worse, even MASTURBATION will end you up in the biblical lake of fire. You must repent for relieving a NATURAL need. Then on the other hand, they push sexuality to an insane extreme. The will write books, open sick bordellos, shoot hardcore porn (all the porn industry is owned by jews, search for yourself, they are taking pride in it) and create unrealistic and sick expectations in people. Then sex becomes nothing. Sex is nothing today other than a small chemical explosion in the brain, an attempt to evade the jewish matrix for some seconds.

Though even there, the jews and their programs have made sure to make people un-orgasmic, complex, guilty and against even their own last sense of fulfillment and momentarily pleasure in a world of restriction and lack of hope. Their doctrines, be these spiritual or others, infest the mind of people so that they find the wrong partners and get even more destroyed sexually; at least the majority of people. There are many sexually sad cases that have fallen victim to that.

They tried to steal even your last pleasure in this world and destroy it and malign it so something putrid as it gets. After all, you are all Goy and so am I, we are lower than animals and our sexuality is an act of beasts and even lower, according to them. The "goy" [as they call is in their derogatory term] have to even repent for coming into the world, because some kike 'god' on the clouds and his professional victim kike choose son (what a neurotic and putrid race to choose your chosen pieces of shit it was) said so. After all mr YHVH has no other job, given he is such a creator of even the universe [according to these insane jews], than to watch random rape/gangbangs around the globe and biblical fable characters "spilling their seed on the ground" as they put it. This is all in their bible for the few who know.

Must be a supremely intelligent god that of theirs. A filthy, low IQ, sexually perverse kike sitting on a cloud that punishes people. Thats what the majority of sheep today believe.

Do you realize the depth and how deep this goes? All the above, it requires two or three braincells to understand that it creates severe sexual hangups.

Sex in the Ancient World, except for personal gratification, had a purpose, to bring as one. All the 'affairs' of the Gods and them having sex and producing kids with one another, are deep allegorical meanings of bringing opposites together or merging energies or connecting things, bringing together. Sex was spiritual and the births of children in the Myths were the new energies and the new existential and transcendental/spiritual ideals created by the act.

This is entirely different than what sex is and is done for today. The Gods do thing without meaning. They are higher level of realized beings.

So to get to the point, the major hangups in conjunction to the weaknesses of present day manking, the lack of meaning in the sexual act and the need to merge with something greater than ourselves, in the cases of sane people, is a call of their mind to connect with some ideal. Its not the actual God, unless its agreed upon with Father Satan and you have a succubus. Many people fantasize about the Gods and this is something personal. You are of course allowed to glorify the Gods with your sexual act, when these are done respectfully and for personal reasons, or just because you admire them. After all, explosive happiness or creative energy sometimes has to be sublimated that way, for some people.

But know this is one street deal and everything is your own realm of thought. The High Ranking Gods are very realized to do these things. There could be SOME exceptions and Succubi/Incubbi are always real. But the next time some infiltrator comes and tells you they are married to some god or mermaid, or that 'my husband _____[high ranking god]_____ said this', know they are delusional, stupid and if they are legitimately interested to know the real reasons, send them this post. In Satanism one must want the Truth.

To sum up, there are two kinds of people, the delusional paranoid infiltrators who are no different than a
kid believing in a fairytale that they are married with the prince, because they are too weak to admit reality and that its just an admiration.

The others who know that in Truth, their dreams and their meanings MIGHT actually be an attempt of their mind to help them 'merge' with an ideal or the power of the Gods, or a particular element these Gods over whom they are fascinated with needs attention in their personality / soul.

Do a favor to yourselves and stop treading in a fake imaginary land. Thing is, the Gods want to be heared with open ears and open hearts, with those who really see them for what they are, whether these things apply or conform to our personal mind and status quo, or mentally created fairytales...Or whatever.

All the above to help and assist you in finding real love and affection, either with your Succubi/Incubbi, or with some other Human being, devoid of bad imagination and products of loneliness meant to distract you from this.

I've had this before. Mars Pluto opposition, annd we just have a really deep connection, physically and in a psychic way. But our feelings get shaken up really easy esp his and it really can get difficult keeping him. Fuckin. Sane. Over very small things. Another dude hits on me he's like asking to get shot. Be careful with these strong aspects they can really tie people into your life.

By "waxing" and "waning" planets it is understood that they are in apogee and perigee, i.e. furthest away from the Earth and the closest to it, correct?

**Subject:** How to use natal chart in conjunction with current planetary positio

Hello,

I was able to study my natal chart and wrote it out in plain, easy to understand wording. I have a basic interpretation for all of the positions, degrees, houses in my chart. For example, I know that in my chart Jupiter: 1 degrees of Scorpio, 5th house. What can be said of that is there is a strong interest in the occult and the spiritual. From what I gathered, the 5th house also indicates that I strongly impress the need for education upon my children. I do homeschool my children, so that makes sense.

However, how do I apply this knowledge into getting a better sense of my future? How does my natal chart relate to the current planetary positions? I'm going through a lot right now and
need better clarification or something to guide me into how to approach certain issues in my relationships. For example, my boyfriend had a natal chart reading done and Saturn is in his House now. I have no idea how to obtain that info from my own chart. How can my natal chart be used to find out more about future events? So far I've only been able to somewhat interpret the chart in finding out more about the type of person I am, but not necessarily about my future.

I apologize if the answer is right in front of me, but I can't seem to find it on JOS or any other astrology site. I'm always directed to Planetwatcher.com's current transiting positions. How do I use that chart with my own natal chart? I hope I'm making sense. Any recommended books or websites would be greatly appreciated. Thanks in advance!

Hail Satan!

You've been a lot of help. I truly appreciate it. I just received your response, so I haven't had the chance to actually complete the steps, but just skimming over what you wrote gives me more confidence. Many thanks your way. :)

need help i bought the astronomy thing from the jos web site an still dont have anything
Особая благодарность нашему Антихристу, который дал мне эту медитацию телепатически. Он один из немногих, кто совершил Магнум Опус и достиг бессмертия.
Эта медитация усиливает всю душу. Она одна из мощнейших, которые я когда-либо делала. Ее продвинутый вариант немного длинный. Здесь сначала представлен продвинутый вариант, потом для промежуточного раздела.

Для продвинутого уровня

1. Вибрация РАУМ

PPP в базисную чакру
AAA в сакральную чакру
UUU в солнечную чакру
MMM в сердечную чакру
Это один круг. Сделайте 108 кругов, используя сатанинские четки.

2. Вибрируйте РАУМ еще раз, на этот раз в высшие чакры.

PPP в сердечную чакру
AAA в горловую чакру
UUU в шестую чакру
MMM в коронную чакру.
Это один круг. Сделайте 108 кругов, используя сатанинские четки.

3. По окончании работы с чакрами, вибрируйте ИО.

Вибрируйте ИИИ в правую половину тела и сразу же без остановки в левую половину тела вибрируйте ООО 108 раз.
Например, вибрируйте ИИИ вправо, затем тут же вибрируйте ООО влево. Это один круг. Затем, сразу [наберите дыхание] и вибрируйте ИИИ вправо, затем сразу ООО влево. Это второй круг. Сделайте 108 кругов, используя сатанинские четки.

4. После окончания вышеназванного, вибрируйте ЭА, ЭЭЭ во фронтальную половину тела, а ААА в спину и всю заднюю половину. Это один круг. Сделайте 108 кругов.

Для промежуточного уровня

1. Вибрация РАУМ

РРР в базисную чакру
ААА в сакральную чакру
УУУ в солнечную чакру
МММ в сердечную чакру
Это один круг. Сделайте 13 кругов, используя сатанинские четки.

2. Вибрируйте РАУМ еще раз, на этот раз в высшие чакры.

РРР в сердечную чакру
ААА в горловую чакру
УУУ в шестую чакру
МММ в коронную чакру.

Это один круг. Сделайте 13 кругов, используя сатанинские четки.

3. По окончании работы с чакрами, вибрируйте ИО.

Вибрируйте ИИИ в правую половину тела и сразу же без остановки в левую половину тела вибрируйте ООО. Это один круг. Сделайте 40 кругов.
Например, Вибрируйте ИИИ вправо, затем тут же вибрируйте ООО влево. Это один круг. Затем, сразу [наберите дыхание] и вибрируйте ИИИ вправо, затем сразу ООО влево. Это второй круг. Сделайте 108 кругов, используя сатанинские четки.
После окончания вышеизложенного, вибрируйте ЗА, ЗЭЭ во фронтальную половину тела, а ААА в спину и всю заднюю половину. Это один круг. Сделайте 40 кругов.

По окончании этого вибрируйте РАУМ 7 раз в свою ауру.

Это усилит всю душу целиком, хоть она и занимает некоторое время. Сердечная чакра– это соединитель, и энергия, которая аккумулируется вибрацией вниз, потом подсоединяется и к верхним чакрам и образует поток вверх во второй части медитации. Просто имейте в виду, медитация очень мощная, и вы почувствуйте это сразу.

Это могущественная медитация для поднятия сил перед любым формальным ритуалом или неформальной работой.

РИТУАЛ:

ПРИЗЫВАНИЕ К САТАНЕ:

In Nomine Dei Nostri Satanas, Luciferi Excelsi [Ин Номинэ Дие Ностри Сатанас, Люцифери Экзельси].

Во имя Сатаны, Властелина Земли, Истинного бога, Всемогущего и невыразимого, который создал человека по Своему образу и подобию, я приглашаю Силы Ада даровать мне свое могущество. Выходите и приветствуйте меня как своего брата (сестру) и друга.

Изволь меня, Великий Сатана, от всех прошлых ошибок и заблуждений, наполни меня правдой, мудростью и пониманием, держи меня сильным в моей вере и службе, чтобы я мог воздать Тебе хвалу, Честь и Слава да пребудут с Тобой во веки веков

Вибрируйте следующий парагراف 9 раз. Это означает, что необходимо вибрировать каждое слово из нижеизложенного, от первого до последнего. Потом снова от первого до последнего, и так далее, пока не достигнете 9 раз. Используйте четки, бусы, все, чтобы не сбиться со счета.
Внимание!!! Текст написан русскими буквами, кроме TH. Ничего не зубрить, можно читать. Гортанный звук КХ выделены синим и курсивом. Англ. сочетание букв TH, формирующие звук, для которого нет русского эквивалента, выделены зеленым и подчеркиванием. Если это не удобно, можно пользоваться файлом Word, где все выделение можно убрать.

Тот же параграф на английском в оригинальном варианте для тех, кому так удобнее:

Вибрируйте АУМ
Все препятствия убраны полностью, окончательно и вечно!
Змея поднимается!
Змея абсолютно наполнена силой!
Змея вечна!
Вибрируйте АУМ

[*все это вместе – 1 круг, сделайте 9]

ДА ЗДРАВСТВУЕТ САТАНА ВО ВЕКИ ВЕКОВ!!

Avoid the moon in Aries. Always remember “NEVER have any surgical procedures done when the moon is in the sign that rules that area of the body. Also, avoid a full moon if possible. This also includes any procedures for pets. When the moon is in the sign that rules the part of the body, such as the face with Aries, things tend to go wrong.

I remember many years ago, I had an impacted wisdom tooth. I wasn’t able to make an appointment at any other time, as they were backed up, and had to have dental surgery to remove it. This was during a full moon and yes, I knew about it. Well, 5 shots of Novocain didn’t numb me up. I was wide awake during the whole thing. Needless to say, it wasn’t pleasant. They succeeded in ripping the tooth out of my mouth, and I mean rip. Afterwards, I had to wait endlessly for the codeine pain pills and experienced a reaction to the overdose of the Novocain. Then, there was the long trip home on the bus and the aftermath. I got off lucky, though. Complications can be severe and this is something to always be aware of.

The signs and the parts of the body they rule are listed here:

Hello Brothers and Sisters,

I was wondering if anyone can recommend a reputable astrologer?
Since HP Maxine is extremely busy and is not offering astrological services at this time, I am looking for a competent and accurate interpreter of natal charts.

Any help is much appreciated!

A link below is for an extremely revealing video on the most horrendous of the jew programs, islam. As usual, there are bits that should be taken in a Satanic perspective, however, it shows the undeniable truth that islam was created by jews as evident in that shitty quran, where the jew is praised and enriched, and Gentiles, raped and massacred.

The thing to note though, is that this "MEMRI" is an organisation set up by israeli kikes. However, being myself a native Arabic speaker, I can assure you that the translations are exact from Arabic.

I have lived in the Middle East for about 5 years of my life, having been born in Saudi Arabia. I am very familiar with the fundies present in the US, and I will tell you that they are nothing compared to the islamics. This so called "king" of Saudi Arabia is a jew whose family, just like the domeh of Turkey, descended from jews who spread out across the Middle East after the Byzantium empire collapsed. The point is, this jew is known as the "servant of the holy place" (mecca) over there and is responsible for the maintenance of that giant energy vortex of souls.

What this islam has done to the Middle East is horrific.

As we all know, islam is a vile and exceptionally dangerous program which has infested humanity for far too long. High Priestess Maxine Dietrich has also mentioned the urgent importance of fighting against this program and opening the eyes of our Gentile People to the truth concerning the horror of what this program is really designed to do.

Spiritual and online warfare is vital, and all of us should be doing our part to assist, in some way. Get onto yahoo answers, religious forums, discussion boards and even news forums where islam is being discussed and give the following link:
http://exposingthelieofislam.weebly.com/

As High Priest Don has mentioned in the past, the quran is based on the jewish "torah". It is a jewish program through and through, designed to further the enemy agenda. Let people know this, and let them know that it is FOREIGN and unnatural to the Gentile People. Let them know that it is based upon stolen and corrupted material, and let them know that it is centered around the destruction and enslavement of our Gentile People.

This is extremely important at this point in time. Do your part to rid the world of this disease and return the Truth of our Father Satan to humanity!

No problem, I hope you figured it out.

Subject: Destroy the Tyrants, Obliterate the Slavers!

There has once been a time and age where Freedom was prevailing, not freedom that was chaotic, but freedom of Divine Order, where all beings are pleased, happy and in accordance to Natural Law. This was the Golden Age. The most Glorified, Most Holy and Most Reverend of all Ages! There was no poverty, men owned land, people were able to produce, labor and get their fruit out of their labor. People were creating the Needs and not Needs the people. Who was to be King was King, and what he did was serve and only serve. Those who served the most, who had the most responsibility, those who
were the one sitting with the responsibility of the whole, were the Leaders. And in this, this is why they were called Leaders. A Leader is not someone who seeks pleasure or to please one’s self, a Leader is he who is willing to sacrifice everything and anything! Even his own personal well being, just for the sake and well being of the whole! This was the age where the farmer was the richest, the laborers were the happiest they ever was, for they all created and nourished the Earth! They created and created again, until the Stars were to be numbered! Death has been a distant memory, as everyone had a spirit of life. Even when one died, their Soul was instantly re-incarnated so they could keep up their Divine Purpose, which was the pursuit of Godhead. The Leaders were on the front and the Volk was faithfully following. With no remorse, without any sense of Hatred, only love and loyalty, only for common interest and eternal Joy! AS different Races, with peaceful associations that protected our Holy differences, We were all one large body, one large battalion! As one and only body, in where every cell is as its happiest and all the more happy in itself!

But something atrocious did happen next, we were attacked. Without deserving it, without even doing anything remotely to draw this upon ourselves. Attacked by subservience all in itself! We were attacked by these parasites in Human form. These rootless hyenas, these damned parasites, these pestilence of the Earth, the Jews and their sickening awareness. The only race so selfish, the only humans without any remorse, the worst profiteers, the empty soulless creatures that only seek their pleasure in physicality and to whom their spirit means nothing. We all want to be free. Humanity has fought countless wars to finally, break free JUST ONE BIT from their Xian, Muslim and Judaic filth and tyranny. Hostile energies have been entering the Earth, those of death, slavery, suppression, sadness, depression, hatred and senseless warfare, which were brought up in the worst manifestation by the Jews. For what? Simply because so they ŇWillľ They will then experience what ŇSo we Willľ and this is FREEDOM FOR US AND HUMANITY AT ALL COSTS. They have disrupted our Divine Order, our history, our Golden Age. Now there are no leaders and no followers, there are only masters and slaves. Everyone is a slave more or less, knowingly or unknowingly. People are treated as slaves, disposed as slaves and soulless sheep. They have replaced caring for the whole, with a care of a most putrid form for only one’s self. They have replaced Truth with lies, Freedom with oppression, health with disease, beauty with ugliness. They have attacked any and all Nations, Races and peoples, ruthlessly. They have murdered, raped, destroyed and created malignancy where it never existed before. They have even tried to replace and murder Ňgodň himself, they have hid from us the creator of ours, Satan, they have hid from us and STOLEN our own Soul, they have been the result that this life and the next life for so many millions are only filled with suffering, poverty and worthlessness, death and anguish. They have rewrote our history and lied to no end about it, made people neurotic, spread diseases in all levels and pestilences of all sorts. The Earth herself screams for freedom, as she suffers from their senseless and meaningless parasitic mentality, which they have projected both in the peoples and in the world. What more do you want to see, how much more can you stay there and be the victim they have TAUGHT you to be?

They have TAUGHT you to be a victim, for they fear one thing: That us, The Gentile Lions rebel against that race of racketeers, fleas, rats and worthless beings! Bring on what they were always most afraid of! Bring on the curses, bring on the Spiritual Death, unleash endless Chaos to them and above all, Execute Eternal Justice for every lost city, every lost Soul, every Child and Animal that died under or from the Jewish blade. We know of your crimes and we will forever stand, selflessly in our duty! We must and should fight from freedom and for every lost Soul. We stand tall in the Aeons of failure, injustice, where the liars are the Ňgodsň and the Gods are the criminals. For we are the ones with the eternal vision. May Satan be praised, and may we all act for order to Return. No more Gentile Souls will go down the drain, no more Gentile Souls will bathe in Blood, No more Injustice, No more Tyranny! We accept no more insolence, no more murder against us Gentiles, no more parasitism, no more dreams from weak infidels to enslave us, let alone actions. Time to Rise! If these blasphemous parasites asks for War, this is exactly what we bring, but only thousand fold of what they could ever imagine. If these sick beings ask to enslave us, they shall know that the Gentiles are not Slaves, they themselves will be the ones to submit. Thousand times more of returns is nothing even equal compared to what they have committed against us. And a billionth times more will be the joy when the body of Humanity will be free from this Spiritual
Cancer of the jews! Fight for our Freedom and Seize it!

So what I am asking is quite easy.

Everyday, until the day that a Ritual will come, which will be soon, raise the following and direct it as following.

-Thurisaz x9.

Then affirm Once with intent-

"Israel and all the jewish race of peoples are permanently and completely destroyed in every and all levels of existence."

-Hagalaz x9

Then affirm Once with intent-

"Israel and all the jewish race of peoples are permanently and completely destroyed in every and all levels of existence."

You can multiply 9 vibrations and do this, like x18 Thurisaz or x18 Hagalaz.

An Alternate affirmation would be as following: "Israel and the jewish race as a whole are now being permanently and completely destroyed, in every and all
levels of existence."

****ALL THE ABOVE IS TO BE DONE EVERYDAY, UNTIL A NEW RITUAL IS POSTED. THIS SHOULD BE PART OF YOUR DAILY MEDITATIONS. PREFERABLY, DO THIS FIRST AND THEN DO YOUR AURA OF PROTECTION AND CLEANING MEDITATION!

I am hoping to get other members' experiences or thoughts with this, as I think we need some more activity in this group. I really enjoy learning from everyone in here.

I have been meaning to post this for a while but I never got around to it. My Solar Return chart for my last year was absolutely terrible. I won't give too many details, but Saturn was right on the SR ascendant and also aspecting my natal ruler. So, when I generated my new Solar Return chart on Astro.com to get kind of a preview of what the next year would be like, I was actually pleasantly surprised to see several fortunate placements. And from what my previous Solar Return chart had looked like, anything would be an improvement. I did note, however, the SR Sun would be in a cadent house, and I learned from HPs Maxine, through her forecast reading for me, that this can mean one's health is not as good as other years. At this point, I was really tired of having to spend time and energy alleviating the problems I'd had that year.

So, I thought about it for a while and I figured I could actually tweak the ascendant degree, thus the house degrees and thus certain planets' house positions by changing my location at the time of the Solar Return. TADA!! I had moved the SR Sun into the next house, which is a very fortunate placement. All it took was a small train trip. The trip home was extremely unpleasant, though, as I got very sick, but, again, I won't get into too many details. I think maybe this was the Saturn influence from the previous SR year making its last move to get me? It literally felt that way. I had also had more problems than usual leading up to my birthday. Has anyone experienced anything similar?

Anyway, my point is - in case someone didn't know - you can tweak your Solar Return chart fairly easily.

I noticed that right as my moms Pluto when into her 12th is when she had my brother and I. Right as Pluto went into my 12th I had my baby. Pluto also transiting my Mercury and Gemini is on the 4th and 5th house.

Could signify kids in some situations with the nature of Pisces and what not. Also, Pluto transiting the 12th "powerful and dangerous enemies" a psychotic ex nearly killed me. his Mars in Taurus near 25 degrees opposition Pluto, Venus Mars aspect, ect.

off subject, I would highly suggest looking for the signs of an abusive partner and don't consider yourself an exception no matter how normal it seems. You may not get hurt but come very close depending on yourself and the gods, but still someone like that always is as they are. Even on medication this one guy is a crazy little fucker.

Re: Pluto transiting 12th something interesting
In your case, it was most likely the Pluto aspecting your Mercury and influencing the 4th and 5th house. Pluto contacts to the fourth house is obviously change within the family, but to the fifth house it can mean the stork is on its way to one's self. It is the same with Pluto going through these houses. In your mom's case, was there any aspects from Uranus to the ruler(s) of her fourth or fifth house cusps or was it going through any of these houses? Pluto and/or Uranus to the natal Sun or Moon could probably signify a pregnancy, regardless of house cusps. Also check Solar Returns for critical degrees and so forth.

As for the enemy-thing, yes, I wish there was some sort of button (only for me obviously) I could press and see the astro data of everyone I met. It would be so convenient.

Satan and the Powers of Hell care about nature, the Earth and animals. Senseless and needless animal suffering is going on daily and we can put an end to this, or at least lessen the damage these poor animals are undergoing. I urge everyone to sign this petition as this is horrendous. These animals have absolutely no way to absolve themselves of their suffering, if we do not help them. Signing petitions helps. No animal must suffer needlessly under stupid and sadistic individuals.

Sign here:

From the petition:

"United States Department of Agriculture (USDA)

Undercover footage and a USDA investigation have revealed horrific abuses at a roadside zoo in Virginia. Natural Bridge Zoo violated dozens of federal regulations pertaining to animal incidents. Lack of veterinary care, filthy living conditions, and intentional harassment of animals by zoo staff were just a few of the issues that were uncovered. We can no longer allow this to continue.

The atrocities came to light thanks to an undercover investigation done by the Humane Society followed by the USDA inspection in January. What they discovered is graphic and heartbreaking. Guinea pigs were "euthanized" by slamming them against concrete. A capuchin monkey died when rat poison was placed too close to its enclosure. Neglect resulted in the death of a pregnant giraffe and baby camel. These are just a few of the cruel and unnecessary deaths documented at Natural Bridge Zoo.

Life is not much better for the animals who manage to survive. The USDA found 35 creatures in need of medical attention. A baby monkey named Sydney who went weeks without treatment for a wound that ran clear to his bone. A baby monkey and its mother were jabbed with a rod and, once captured, slammed to the ground. Animal habitats were deemed filthy and uninhabitable. An elephant, one of the most social species on earth, hadn't seen another of her kind in nearly a decade. The evidence goes on, making it clear that Natural Bridge Zoo cannot be entrusted to care for animals.

How do zoo officials respond? The zoo's owner dismissed powerful photos and videos captured by The Humane Society, telling one local paper, "You can always take a bad picture."
Luckily, the images and report say it all. Natural Bridge Zoo is a nightmare for the creatures trapped in it, and it’s time for authorities to shut it down for good. Please sign and share the petition today. Thank You.

That's terrible. I'm glad you shared that petition I heard about this a little while back but didn't know about the petition. I live not to far from there, I've been there actually.

These animals have absolutely no way to absolve themselves of their suffering, if we do not help them. Signing petitions helps. No animal must suffer needlessly under stupid and sadistic individuals.

From the petition:

"United States Department of Agriculture (USDA)  
Undercover footage and a USDA investigation have revealed horrific abuses at a roadside zoo in Virginia. Natural Bridge Zoo violated dozens of federal regulations protecting captive animals and failed to provide basic care. Lack of veterinary care, filthy living conditions, and intentional harassment of animals by zoo staff were just a few of the issues that were uncovered. We call on the USDA to close Natural Bridge Zoo and relocate the animals to sanctuaries.

The atrocities came to light thanks to an undercover investigation done by the Humane Society followed by the USDA inspection in January. What they discovered is graphic and heartbreaking. Neglect resulted in the death of a pregnant giraffe and baby camel. These are just a few of the cruel and unnecessary deaths documented at Natural Bridge Zoo.

Life is not much better for the animals who manage to survive. The USDA found 35 creatures in need of medical attention. A young elephant was not treated for a wound that ran clear to his bone. A baby monkey and its mother were jabbed with a rod and, once captured, slammed to the ground. Animal habitats were deemed filthy and uninhabitable. An elephant, one of the most social species on earth, hadn't seen another of her kind in nearly a decade. The evidence goes on, making it clear that Natural Bridge Zoo cannot be entrusted to care for animals.

How do zoo officials respond? The zoo's owner dismissed powerful photos and videos captured by The Humane Society, telling one local paper, “You can always take a bad picture.”
Luckily, the images and report say it all. Natural Bridge Zoo is a nightmare for the creatures trapped in it, and it’s time for authorities to shut it down for good. Please join me in calling for the USDA to close the Natural Bridge Zoo and relocate the animals to sanctuaries. Please sign and share the petition today. Thank You.”

**Subject:** Satan Ruled The Golden Age

Satan Ruled The Golden Age

The Yazidhi came out of ancient India and called Satan, Shaitan. I doubt they started doing this when Islam and Christianity appeared. Given the consequences and why would they call their beloved God "one who is nasty." Who has been altering and attacking Hindu culture forever.....maybe its time for people to start putting their thinking caps on.

Why alter the meaning of this word in Hindi, the enemy has worked to alter the meaning of this word everywhere as its the name of the real God....Why not the enemy has already altered the meaning of so many words. If a person looks at Sri Lanka and sees they have the same religion of the Yazidhi at the core and worship the same God and the Yazidhi’s came from India thousands of years ago and stated Sri Lanka as the Garden of Paradise like other Arab cultures. Then note the Druids, Greeks, Romans, Egyptians, Vedic Aryans state they came from the Island continent in the East [the pillars of Hercules is the raising sun in the East] of which Sri Lanka is left and all had the same head God. Then maybe they will start to put things together and one step leads to another. Like unraveling yarn.

Atlantis was in the East:
[post180.html#p180](post180.html#p180)

The isolationist model is another phoney claim. Its well known and admitted the one mother language of all Europeans languages is Sanskrit, the same for many eastern groups and even some in America. But then we are supposed to believe all these people had nothing in common and didn't come from the same root place and culture. Despite they all speak the same language, had identical cultures and stated they all came from the same place and culture in the ancient past. Its so obvious even ten thousand years of culture diffusion has not covered this over.

Also.....

Sanat is an anagram of Satan.
Sanat was the Lord of Kumara Kandam the name of this Golden Age Paradise in the Sri Lanka texts of which the current Sri Lanka is all that is left of a much larger island as they mention as well as numerous other cultures in South Asia, India, The Middle East and Europe the South Pacific and America's. Satan [Sanat] ruled the First Sangam. And taught humans the knowledge of the serpent power Yoga. As the numerous cultures stated all mention.

The original name of the Primordial Golden Age religion was Sanatana Dharma.

In the east we find the important SATANAMA mantra which is given high importance. What this mantra is saying is NAMA meaning name and SATA meaning God, Sata is the name of God. This is seen in the Ram mantra. RAM NAM. In some cases NAMA is on the front of the mantra paying homage like NAMA SIVAYA. Sometimes on the end. This is shown in SAT NAM of which SATANAMA is the full mantra of.

However Sanatana Dharma is the name of the Golden Age religion so it holds the highest importance.

Sanat is an anagram of Satan. The Yedizi's who stated they came from India around three thousand years ago use Satan but mention Shamballa in their texts. The Lord of Shamballa is Sanat Kumara. SATAN is also a divine name in the East which means SAT as truth and AN as eternal. Eternal Truth. This relates to the serpent power. Which grants the power of enlightenment and liberation as well. The serpent is the symbol of Satan east and west and the serpent is the original image of God. SAT is the name of the highest God in the east.

N and M is redundant as its the same nasal vibration.

Sanat-ana Dharma is SATAN-ANA Dharma. Which meaning translates to Sata/Satan is the name of the True, eternal, everlasting God. And the way to enlightenment. Looking in the east and Egypt. Sata is also spelled as Satan or SAT.

The Jews call Satan their most hated enemy. The Jews are the enemies of God, spiritual freedom and enlightenment.

But don't you think that the translation should be in a combination of Hindi and English. Even most of guys today speak like that. Also Hindi word for Lord Satan is Shaitan, the same as Arabic word meaning one who's nasty in English. You'll have to call him as Lord shiva then. Also many guys who are teenagers speak in Hindi but have problems reading it like I myself have. I do speak Marathi fluently but have a problem writing it correctly. Pute Hindi is very difficult and writing meditation terms will be tough. Translating site to Tamil will be a giod option though.
What we are fighting for?

We are fighting spiritually for many things. We are fighting for Freedom. Freedom for people to live a peaceful and spiritual life, with all the physical necessities. Freedom against the jewish hoaxes that punish people mentally, spiritually and in their mind. We are fighting to abolish the poison of lack of knowledge, we are fighting to get rid of fear in people's hearts. We are fighting so that no more Gentile people will be dying in the streets, homeless and without a loaf of bread. We are fighting so that those who are trying to enslave humanity do get destroyed. We are fighting for health, physical and spiritual health. We are fighting to build new towns, reconstruct, rebuild and help the Earth. We are fighting so that no children will die due to hunger or abuse by primitive actions. We are fighting for those who have no voice and no awareness to see their enemies. For those who have fallen down and have quitted, letting themselves die. We are here to show them that the world of our largest dreams is not lost- its here to be worked for. We are fighting for our each and respective Gentile Race, for each and our respective pride and our Ancestral past.

We are fighting for those who have died or have never lived a life due to the jewish teachings. We are fighting so Humans can regain their Souls, that they have lost due to the cancer of Abrahamic hoaxes. We are fighting to get people who have been made insane back to health again. We are fighting for Mother Earth and to save her from suffering. We are fighting for any animal that is being senselessly abused, that is thrown away like a lifeless piece of trash. We are fighting for those who are in the hospitals suffering from disease that was heaped to them either by lack of scientific knowledge, or by the insane teachings of the enemy that cause people emotional problems- all this by the enemy. We are fighting for beauty, the preservation of art, history. We are fighting for those who are being tortured, secluded and brought to ashes by the jewish dreams of world domination. We are fighting for our Gods, our Pagan Gods, who have been helping Humanity for hundreds of years. We are fighting for those and like those, who have shouted "FREEDOM" and then later have sacrificed, in the eternal flame, not giving one thought about that they would certainly die. We are fighting for those who are trying to escape this jewish order of living to find peace. We are fighting for those who are seeking the Truth but cannot find it. We are fighting for the Sovereignty of people and of States and Races. We are fighting for the preservation of what is different. We are fighting against the most atrocious and sick people, these sick jews, which have built the middle ages, the dark ages, the ages of suffering and destruction that made humanity pour seas of needless blood. We are fighting against those who consider themselves entitled to harm, destroy, enslave and mutilate whole people and nations. We are fighting to certify and guarantee that people will remain free and that our civilization will undergo the least damage possible.

We are here to spiritually destroy the "chosen of god" and the people that created the nasty alien catastrophic religious hoaxes themselves, that have brought humanity seas of blood, injustice, suffering and destruction to anything that lives and breathes more or less. We are here to destroy this psychopath murderer that they call god. We are the Darkness, which is the True Eternal Light, we are the Past, the Now and the Future, we are the original people of God, whom is none but Satan, the one and only eternal and everlasting Truth.

We are fighting for what all our Ancestors have fought, we are the ones holding their flame. When you see yourself in the mirror, see hundreds of those before you, do not only see yourself, for you are not only yourself, you are your Race, your Volk, your Ancestors and every one of them. You are someone the Gods left here, entrusting them with a mission! To Save this world. The weight of responsibility falls then on your back and NEVER, EVER question your capability. You are the one that are aware, that have woken up and that have been brave enough to seek our Ancient Father. What is a war or a thousand wars to those who have DARED to find themselves!

We are fighting for the Real God of Humanity. For the Father of Truth, Satan, the Eternal God, whose promise stands proud for as much as recorded history- to make Humans.
Curse the enemy with all your hatred, let the curses run like the greatest scorching fire upon their petty souls! Here is how to fight:

Everyday, until the day that a Ritual will come, which will be soon, raise the following and direct it as following.

Vibrate:

-Thurisaz x9.

Then affirm Once with intent-

"Israel and all the jewish race of peoples are permanently and completely destroyed in every and all levels of existence."

-Hagalaz x9

Then affirm Once with intent-

"Israel and all the jewish race of peoples are permanently and completely destroyed in every and all levels of existence."

You can multiply 9 vibrations and do this, like x18 Thurisaz or x18 Hagalaz. X36 Thurisaz and X36 HAGALAZ and so forth.

An Alternate affirmation would be as following: "Israel and the jewish race as a whole are now being permanently and completely destroyed, in every and all levels of existence."

****ALL THE ABOVE IS TO BE DONE EVERYDAY, UNTIL A NEW RITUAL IS POSTED. THIS SHOULD BE PART OF YOUR DAILY MEDITATIONS. PREFERABLY, DO THIS FIRST AND THEN DO YOUR AURA OF PROTECTION AND CLEANING MEDITATION!

Use whichever feels more on the point for you. Both are the same thing. But some might have a tendency toward one or the other.

You can imagine grey energy suffocating them all over the globe, with severe intensity. With all your hatred inside. This is to be done daily with your daily meditations. This will add up to our older Rituals and finish the job. But the job is not finished until WE finish it. And we are not idiots to think that Israel is over-with...Far from it.

Satan has placed his faith in us. Lets make Father Satan proud and create a world in which his name stands proud for all the Ages!

The World the Enemy Fantasizes About.

This world can become two things. Either what we desire and envision [http://josministries.prophpbb.com/topic8277.html], or what the enemy desires and envisions. Many do not understand quite, how deep the rabbit hole goes and how in regards to this. How deep, how dangerous and how serious is this warfare and us taking a stand. You can see this everywhere, at whatever the enemy does create and does sought.

First of all, you need search no further than Hollywood. Hollywood is jew owned. It has since forever being projecting jewish propaganda, jewish ideals, jewish thoughts and jewish dreams in screen. It is the ultimate means of propaganda and subliminal programming. I will not mention what I SEE first, but only after. This is what they say on their own.

[I may have some mistakes in the plots as I was told about/ read about these and didn’t watch all of these. Although I really like movies, some are beyond simply being any movie. They are jewish propaganda machine. Futuristic is a nice gerne, but this is something entirely different. These are straight propaganda.]

There are some movies that come in mind, such as the movie Time with the jew Justin Timberlake. What the plot of this move is roughly, is that everyone is physically immortal after they reach 25 years old. As always, there is no spirituality and there is a rough division of people between poor and rich, nothing less and nothing more. People do get paid with ð time to live and not money. In that sense a worker gets payed hours to live, not in money, as everyone is ð mortal given they have ð enough time. The ð system is the master of life and death and its inside them and internalized. The ð clock in which these people receive their ð time to live is attached on their hands. So the poor can aswell die for not being payed enough ð time. The kike oligarchy is at the top with huge numbers of time, as they control the ð system as thus they can live eternally, being master of life and death, in the whole of the planet. There is communism and people have no rights at all, completely and ultimately dependent on a slavish, physical only reality, in which they are trapped. Now this is only a projection of what they dream and want. Everything positive, the jew will degrade and pervert to their level.
For the kikes and their dreams, technology is nothing more than a means to destroy people, push communism, destroy and degrade the ſoułò fully, as they themselves have nothing as the Soul of a Gentile. They themselves cannot advance or evolve as they are slaves of higher powers, to which they cannot overcome or even talk against. They are slaves and they seek to become your slave masters.

Then this is this other movie, named ſurrogatesò. This movie is basically about a future world and how everyone has given up their physical body to live through a ſrobotò body which they control through a device they stay inside. They arenò no longer themselves but technically cyborgs attached to a metal body. How good and such the body will be is dependent on how much money one makes, bodies are sold in markets and so forth, so people can live the "ideal life". They live in total denial of themselves. The motto is here the same. The ſystemò controls everyone. Whomever doesnò have money will perish. The world is a sick lie, there is no ſoułò but only mere biological ſpleasureò by ſnervous stimulationò from the machine through which the body operates the robot. Nothing natural, nothing human, nothing sane.

The jëw only sees technology as a means to get into your brain, destroy you, rob your freedom, know what you are, what you do, what you feel, whatever, so they can manipulate you, own you and control you. Same message through the ages. Machines as they were used for torture in the middle ages, they sought to make the future no exception.

Then you have another movie named ſource Codeò. This movie is about a man who is trapped into a military scientific anti-terror program. He is in reality destroyed in his body but he is locked up in a simulation, that runs over and over a memory from his mind about an terror attack, so he can gather information about the incident through re-running the memory. He doesnò know it and his mind keeps and keeps relapsing into the memory, while his brain is jacked into a machine, so he can gather information, playing the memory over and over and having ſ8 minutesò to act and find the memory. He dies and experiences everything over and over in the memory. The actor is jëwish aswell. The number 8 signifies eternity as some know and this is a horrific message to tie into something so insane.

While the ending of the movie is ſpositiveò as in how his ſconsciousnessò escapes to some parallel universe or something, the jëwish dream and message in the movie remains the same:

They literally want to fucking jack you into a machine and control you, keep you alive to torture you, mind body, even soul and consciousness. The only reason they do not is because they canò. They canò because of ſrebelsò like us worldwide who do not want their shitty dreams of world domination and total slavery. They preach you are nothing but a shitty flesh that will basically perish. After all, according to them you are a soulless animal.
The message is also even more sly and DEADLIER. DISASTERS "MUST" COME, SO THAT POSITIVITY CAN COME. THIS IS THE MOTTO OF THE ENEMY. THE "PROMISED GOOD" NEVER COMES THOUGH. THIS IS A MAIN MESSAGE OF ALL THEIR CRAP. DISASTERS ARE TO BE "SOUGHT" FOR SOMEHOW.

Another Jewish dreamy movie is the movie "Hunger Games." Roughly the plot is the same. The rich are separated from the poor, science has advanced so much they are under total control. People are living in districts which range from District one which is the richest, ranging down to District 13 which is the most poor. Children are chosen from each district to fight in an arena warfare type of game, killing each other, so the rich can watch this in television as a show and have fun. The chosen have to find sponsors to give them money and help to win the race. Its in other words a money game, an investment. The last man standing wins and gains a chance to get to the rich district and live there. Rich is, slavish rich, to the point of pure insanity. The arena in which the people are trapped inside is a place where anything can be injected with a computer, from beasts to bombs to whatever. People get mutilated and such for a position to live better and for the laughs of the higher ones.

I will not mention the hundreds of movies and video games or novels, with the same mental propaganda- the war gets destroyed, the good Jewish factor is the savior, the bad guy is almost always an Aryan looking guy, the Armageddon and all this. Some virus outbreak, nuclear catastrophe etc. That's what they force people to dwell on. Destruction of knowledge, post apocalyptic war in which no springle of civilization remains.

DESTROY CIVILIZATION, INCITE WARS, DESTROY WHATS HEALTHY, MAN IS A PHYSICAL BEING AND A ROBOT, A SLAVE. THEY WANT TO DESTROY THE WORLD, UNLESS THIS WORLD SUBMITS TO THEIR DEMANDS, WHICH ARE SLAVERY, SERVITUDE AND DEATH. IF YOU CAN'T GET IT THROUGH YOUR HEAD, CHECK THE THREATS AND WARS OF ISRAEL. CHECK THE TALMUD, CHECK THE TORAH, CHECK THE PROTOCOLS OF ZION. CHECK WHO OWNS THE BANKS, WHO HAS THEIR TENTACLES INTO THE CRIMINAL WORLD. What all these movies have all the same as a message? Also, mind the false opposition. The xians and other idiots think they are again these things, or claim to be, but they are all worshiping what is simply a step before all this destruction. They worship ideals that bring exactly these things in reality. They are faithfully working at the meat machine of the enemy. "Disasters are to come and to be sought for" for these idiots. They are welcome. They keep their meaningless and nonspiritual lives "busy".
Its all the same motto—Things that the jew wants. Things and dreams that they have in their racial only books since hundreds of years. That is their future plan, more or less. That is the production of the collective mind of these peoples. They want to be immortal rulers, ruling through money and racketeering, to destroy civilization, destroy any sense of Gods and the Ancient Past, erase the Soul and the Individual Races of people, and race mix everyone so they can rule over them, to make people internalize technology and money in such way that they become masters over life and death, sitting, eating, shitting and raping your daughters and you as well. Not only physically, but if they do not like you, ON THE SOUL LEVEL EVEN. They want to OWN you totally, like a schizo, only more, like their insane creation Jesus who apparently is the creator of the universe yet prohibits you to masturbate and watches you as you do it. Total Communism and total destruction of everything that is right, natural, positive and good for people. All humanity to be equal, all humanity to be enslaved and without rights. No individual rights, no freedoms, let alone anything more. A world in which there are poor people who cannot even eat properly. They want and desire to rule, even if this is in a world of damned ashes and destruction. For those who are blind to this, or think these are all dreams think again. Television was a dream in 1900 and few years later it was made possible. In 1900 it was a joke and by 1970 a total reality. While all this might seem distant, the JOO WORLD ORDER tries to march toward the first baby steps, Micro chipping and so forth. If you LET them succeed, yes, LET them, because you have a SAY with our workings in this decision, they will have almost no obstacles. Its up to those who know how to do it. Our Gods are on our back so do we march forth.

For the record, Satan has once showed me a vision on what the enemy wants to do to this place. It was what they want, or what they have already committed to others, and how it could turn out in this Earth. It wasn't the necessary future. It was horrific. There were greys, in an actual post apocalyptic type of planet. There were people who were survivors and they were forming lines, naked and hungry and totally unable to react to anything as the enemy had weaponry, the greys checked them, took samples for DNA checking, micro chipped them and so forth and then took them towards somewhere to do nasty shit to them, like a huge space. The grounds where this was happening was like an old factory, with tons of nuclear dust and slimy yellow walls (what had remained of them) and floors. I couldn't see any further, as it was horrific for any being to see. They say reality extends far more than the wildest fantasy and this is what reality extends to in regards to the enemy ETs and clique that back up the down here people of the enemy. The people of the enemy will also be disposed and tortured in the end, as they are merely a means to a way. The greys are also themselves micro chipped, bar-coded workers that work for higher species, namely the ones mentioned as reptilians to whom and with which the jewish people represent in how they look and in their gaze, let alone how they see the world in general. JUDAISM IS COMMUNISM. ABRAHATIC RELIGIONS ARE COMMUNISM.

Also- For the sake of mentioning. Satan has told me that the enemy follows the pattern that when they are done with the purpose, they are getting killed later and others take their place, as they are only the means to a way. And that when the jews serve their 'purpose' most will be killed by their own, except of the few who would be chosen to continue the purpose. The jews are a well known racial group that kills their own people without remorse, betrays their own a lot and also, they also have a very strict racial policy to where the more mixed jews are supposedly flower than the others in hierarchy. They are at their core a slave race, who thinks is privileged to reign over the Goy being a slave race of theirs. This is all entirely the same as the policy the reptilians and the enemy ETs are taking with their dealings, both with one another and this is evident in these Christian psychics and others who serve the enemy. So long they serve, they are at a no attack mode towards them, but they ofcourse give them all suffering one can imagine, so that they are under constant
fear. When these people deep in the enemy dare leave them without protection from Satan or some other being, or even question them, they are getting killed, destroyed or in the mental ward or worse. The enemy never gives them any knowledge to defend themselves or have their own way and they have zero if any free will. The enemy incessantly pushes themselves to them, using terror and other methods to get them to act. The bargain is that you serve them, they give something in return that is physical and as thus has no real substance to it and also provided you gain NOTHING SPIRITUAL or ACTUAL in the process of existing. Let alone anything like the Magnum Opus etc. At the end they dispose the Soul and who knows what else. They never give any knowledge, information or even remote advice on anything, never solutions, never anything. They are all terror, lack of knowledge, cutthroat and fear. Lilith went on and told me This is why the jews are god fearing, because their God is someone who will destroy them and torture them if they do not obey it. What Lilith meant by God is the reptilians and greys and whatever ET thing they worship and feed energy into. There are many reasons for this, but one that I can figure out is that the enemy desires blood sacrifice for the same reason.

And to save and help the world be saved from doom, you MUST fight, as so many have done before us, so we can be at least as free as we are now. So we can live and breathe. So that there are billions of people on this Earth and not some chosen few, masters and slaves. So that Humanity can live and raise itself!

UPDATES TO EXPOSING ISLAM- Exposing Alchemical Corruptions

The above proves how islam has STOLEN everything it has from Ancient Pagan Religions that predated it by thousands of years. No different than xianity.

Please don't forget to continue to spread this information online and in any way you can to awaken our Gentile People to the Truth!! Only if we continue to fight will this vermin be wiped off of the face of this Earth!

Leave the following link anywhere you are able when fighting online:

http://exposingthelieofislam.weebly.com/contact.html
The Gods of Hell do protect us. If you want to somehow help other Satanists, you can direct protective energy everyday to the Powers of Hell, Satan and Lilith. They will sublimate this energy to the brother/sister in need. You can also RAISE yourself and send this. Trying to somehow drain others and so forth will never work. Satanism isn't about being carried off by others like a flea on the back, but co-operating with others, in equal terms and so forth. Parasites, lazy drones and so forth will cause the stronger ones to draw the pesticide to say the least. Satan has accepted you and you are strong enough for that. A strong whole becomes as such by strong persons. Parasites, fearful idiots, weaklings by choice that choose no never meditate and try to act like parasites, they are of no importance to me or Satan. They are of importance to nobody, not even themselves. In Satanism, everyone raises a Stone and this is how we build empires. The ones who can will raise the boulders, others will drag the sand, others will make the food, others will protect and so forth.

From there there are many things you can do, to protect yourself and others:
1. Send energy to Satan and Lilith, so they will direct it to those in dire need.
2. Raise energy to help others who are being attacked. [Algiz, Suryae etc]
3. Become very strong yourself and with others strong as you start building the necessary conditions so others can exist. This involves physical things as well. Building, creating.

Now, if you sense something is about to come that you are unaware, you can call in the Gods. The Gods sublimate energy we send them to protect us and to destroy the enemy as well.

Nobody wants a mental and spiritual parasite hanging around or some lazy asshole that demands energy for whatever reason, no different than the reptilian collective "jhvh" who sit there and demands people killed. This so called "god" has his hands bathed in the blood of countless innocent beings. While Satan understands our problems and grants our requests, its fundamental to give back. Giving back to Satan means giving back to Humanity and Yourselves. The Gods do not "need" nothing. We just need them. They are fighting to build a world on justice, where people will not be diseased, starve and that will live on the level of the Gods without any restriction, as conscious beings that are free. The fact that you are not bred in a farm, that you have a family, that you have a job, some freedoms, more or less wealth and so forth, these are all up to the Gods and certain people who fought for these things, back in these gloomy jew-ruled ages. People tend to forget this and the enemy knows this. Countless have sacrificed their lives, went out in the streets and fought wars so we can be where we are today. Is it perfect? No. Though its a hundred times better than the conditions back then in the Middle Ages for instance. People were actually bred as in chickens in the Middle Ages. Disobedient chickens were endlessly tortured and then put to death. There was no "opinion", no "free speech", nothing of these things we know today. And the enemy wouldn't be hesitant at all to steal these from people again and again. Even daring to disbelieve or criticize was a death penalty. Science was a crime. Thought was a criminal offence. This "god" of theirs is so afraid, is hiding behind weapons, so murderous, a pure slaver. What a pathetic "god" would guide his followers to kill all cats and then, 1/3rd of European Population would die due to Bubonic Plague? So much for the love of "god"?

You do not need to force yourself, other than DOING WHAT YOU CAN. This is a major thing. We have to do just what we can. You can meditate for 15 minutes? You do this. You can become stronger? You do this. You strive towards something greater. Not caring and not trying, this is identical to having a parasite and weakening inside a coven. 11 very strong people and two weaklings and the coven will fail. A person who is live and let be yet calls others to somehow "work" with them, this is at the very least hypocritical. Other people come at random in the groups and cry that others should send them energy or pray for them. This is not xianity. This "prayer" of xianity is nothing but a lie. Prayer in Satanism is Telepathic Communication and Magick/Meditation. They are lazy, ask ask ask, take take take and give nothing back. Satan has stated such people are of no importance to Him. They are on their own and all this could possibly entail, in this life and in their existence. If you supposedly want to help other Brothers and Sisters in Satan, draining and trying to do such shit will not do nothing, nothing also will do crying, whining and what "if's", complaints, tears and shit. The enemy teaches people this attitude so they will never actually make any progress in existing. Yes, we are humans and we experience all these things. We shouldn't damn them. But these things are to show us a direction to go, to better ourselves and the whole. This is not how you build a life, your life, or a Greater Satanic World. You build this by building, searching, caring, doing, seeking, destroying, creating, living, existing.

If some people want so badly to complain because they aren't fake disney $$$ princesses (after all they were supposed to be, anyone should be a princess), or because Nordic Aliens didn't show up in their first week of meditation so they can make them millions of dollars so they can live their jewish mindset, oh my, something must be so wrong. Some simply do whine about not being Gods actually or having every their damn wish granted. Most of your wishes are created by this society. Many things are lost along the way and have been replaced by perversions or marketing. Those living in America's consumerism might
have a hard time to understand this. This isn't different than other places of the world, as this is the country the enemy tries to take over to push these things. They bring everything to the unnatural extreme. America is the land of the free and guess what, this pisses off the jews. They do not like it. They want to rule it and take it over, while using America to do as they see fit to weaker states. The enemy doesn't like freedom. They do not like public libraries, intellectual pursuit for the goy, they don't even like that people go to school. If they can't do something about it, this is a whole another matter. The enemy has done this and if circumstances could assist, they would do this again immediately.

The enemy has lied to you, real bad and real hard- right in the face. You do not know who you are and what you want unless you deprogramm yourself. As always, they sell people bullshit to make them unhappy. You must be strong in all levels, moreso in the physical one aswell. And maybe even be ruthless. You must have, own, be everything you can. This is how empires are built. The enemy has gained what they have down here, because of endless unhonest work, lies, deceit, but also, spiritual effort. Their retarded and eternally accursed ET friends have worked their ass too. Many have became meat in the process, but who cares, so long they fullfill their purposes. Every kike down to the last one has worked their ass. They worked like wheels on a train to get the train where they thought it should be. Those who study history know this is a work of centuries upon centuries. And people whine when only in few years, we have been hitting the enemy so hard? This is unacceptable! They are definitely terrified to no end. We are stealing history right from their nasty hands.

topic8549.html

And we will keep strong until the end and then even further. This world must be saved. The Gods are giving a great war and so are our people. We are in times of war, not in times of peace. This must be comprehended. When the last of these degraded filths is brought down and this Humanity can live without this bullshit slavery and torture, then we can say peace has dawned. Until then, we fight, fight fight, destroy, destroy, destroy, create create, create and then create again.

Give a reason to yourself first and then meditate faithfully. Satan keeps his promise. From closely a decade in Satanism, I can guarantee you this and so do many others. Patience is mandatory. To even half-awake from this slumber of centuries, this destruction, it takes time. Yes, something is wrong. And this is Humanity and the way people see things, thanks to the jew. Something is wrong in this endless egotism and stupidity. This personal vanity of mortals who simply consume all their enviroment to simply become rot and do it again, is definitely "ungodly" and this is Abrahamism, this is the enemy. The enemy has told people to fear "god". Satan is God and you must open your Soul and mind to Satan, who has been shedding life and light to all of us since we began existing. Something is wrong in the people not having faith in themselves and in that they can achieve and conquer all this darknesst that is eating Humanity's Soul. Nevertheless, the Gods are always there. People are too blind to understand and to appriciate this. You here are not blind, you here can see Satan's light.

Others in this universe have perished under the enemy and they are helpless, without a hope, living in such farms and so forth. People died in street protests for what we today consider so "normal", because they were being exploited to shreds. You must read history as the enemy makes sure to always erase the past. If you think exploitation, lack of freedoms and everything else is too distant, you seriously need to wake up. These things are being under attack by the abrahamics, who consider themselves above any and all Human rights. Even in other countries than in the developed ones, women are getting stoned for loving someone (or even because someone SUSPECTS they LOOKED at someone), people live in communism and if they get payed, the get paid with a loaf of bread, to live in a small appartment with other 20 people, children die to diseases long forgotten in other parts of the world. At the same time, children are working to death and have to cut their limbs due to working in shithole factories. THIS IS THE REALITY THE JEWS CREATED BY THEIR ENDLESS MAGICK, THEIR ENDLESS "SPELLS", THEIR "BELIEF SYSTEMS", THEIR "GOD" AND THE RELATED FILTH THEY TRY TO PUSH OBNOXIOUSLY TO GENTILES. THIS IS HOW "REALITY" IS MADE ON THE HIGHER LEVEL, WHILE THIS LEVEL IS WHERE WE ACT ASWELL. All those who know of Occultism do know that this is how
reality is created. Thought predates action. And some people whine and cry over an attack or breaking a fingernail, or not living Disney after they have dedicated to Satan. Well, Satanism is about living life truly and becoming a God. Satanism is about reaching the highest elevation and elevating yourself. You will advance and you will become the highest being you can become. That's Satanism. That's the purpose. To ever become, to ever evolve. Not to stay stuck in this loophole of endless destruction the enemy has created, that leads a soul to nowhere.

"Caring" doesn't mean "I tie in negativity" or that "I exhaust myself" or however else. It doesn't have to do with any slave-live caring, or caring for things that you shouldn't. This is the enemy. This is how the enemy "cares". In the most fake, the most perverted, the most sick nature, that in the end, reinforces the destruction. They sit there and gloom over the bad, the ugly and the wrong that they create and they are dependent upon. These fake "religions" could never survive in a healthy reality with happy people. They thrive and survive in misery, pain, affliction, disease and lack of knowledge. In Satanism we care in the healthy manner. When we shouldn't care, we do not care. Satanism is about health, positivity, freedom, beauty etc. You do not need to destroy your mind over such matters, but simply know. For most things, knowing and being aware is enough. Knowledge creates awareness. One becomes aware and defends these things. And we can defend these things. If people are fast asleep, these things one sweet day these things are stolen from people and nothing exists anymore.

A God is higher than a King, even though if they are Kings. They are the highest attainment of existing. A God can have nothing and feel as if they own the universe itself, and then more. Those who are spiritually aware know exactly what I have stated and the depth of this meaning. Others know subconsciously but this will take a while until it comes to them. It will and you must carry on. Many people are born as they are, without the chance to advance to any direction, live and above all exist in any acceptable level. This is the enemy, caging and destroying humanity. The Judaic system will not allow them to even breathe freely. You have to, like a soldier, stand proud and the strongest you can be on yourself first. You have to be patient, strong, fearless, obedient in the Warrior sense and that of the Student, yet critical and with your consciousness woken up. For the new members, you will understand down the road exactly what is meant here. You will understand the Truth the enemy tries to hide.

Now there are idiots who say they should sit back and do nothing. Since such idiots still exist, that, you know, who cares, if animals suffer, the Earth is getting polluted, freedoms are being lost. All they care about is them. They can't see further, so who cares. Who cares if the Gods are being attacked, Humanity suffers, innocents suffer, right? Seeing the kikes looting, raping and enslaving the whole planet, then congratulations to these people. They surely are the most loyal of the Judaic slaves. Perfect slaves. Not giving a fuck. The perfect victim. Letting the enemy do as they see fit. Alone and helpless, purposeless. A bounty ready to be stolen and seized by these predators. You win the trophy of being a worthless piece of shit that literally doesn't give a fuck about anything, not even its own self, that should be a cucumber and not a man. Infact, a cucumber cannot even be a slave. These people are worse than a vegetable. They have been created into exactly what benefits the Judaic status quo to exist. The perfect slave.

Those who have been exposed to the Truth can only either totally and unconditionally follow (and these are Satan's chosen) and will become Gods. For you, our faithful warriors, there is nothing I can utter that you are worthy of, nothing that matches the height of a Soul that fights as such. Not stars, not towns, not gold, not a thing, and all these things. You deserve to stand and so shall stand, besides the throne of the Great One. By unconditionally and totally, this means that the Truth must be defended, the same for Freedom of Speech, our Nations and so forth, without any step back. It means that you do not step back from these things.

Approach the Gods and open your heart and mind to them, in a healthy manner. If you are really willing to understand them and experience their miracles,
you will live things that most can only imagine. Those who get help from Satan and are close to Him, and their Guardian Demons, can relate exactly to what I state. We all more or less have felt their Providence and Love towards us. Open your minds to Satan and you will understand that Satanism is about something far greater than our present day comprehension. Its about a new Man, a new Person and as thus, a New World.

What the enemy has failed to understand, is that for us, there are only two ways: We either live with our head and spine upright, or we choose to not live at all. The enemy does not know, and never will know, the fearless spirit of the Gods and their Daughters and Sons. What can the filthy enemy understand of the heart of a Satanic Warrior and a Satanic Builder?

Hey no offence but thats very lazy of you. Im new (well dedicated for 2 years) and i think that just sounds like a dumb question to ask of HP Maxine. The information on the JOS is there for you to LEARN. No one else is here to do it for you. As a Satanist i feel like its important to become adept in Astrology, Magic, etc...its our job to SIFT THE GOLD FROM THE GRIME. Theres 1000s of books out there about Astrology and Wicca and nearly all of them have some xtian influence (something i LEARNED to see after my dedication to Satan) it was literally in every Magick book i had. I trashed most of them, but my point is the bottom line the truths are there. Breathing Exercises, Meditation, Chakra Work aswell as Astrology are all part of empowering the soul. Learning about the Gods and psychic power is also all part of spiritual empowerment as a Satanist.

It has come to my understanding that Satanism encompasses all of what true spirituality is and was before the xian take over...

This is a path with NO BOOK.

Learn more about astrology, study the planets and read books about how to read your natal chart. Eventually you wont need books, or online forums to answer your questions because YOU'LL know the answers.

Thank you to the JOY OF SATAN Ministry and thank you Satan and the Gods of Hell for your guidance and knowledge.

Ave Satanas!!!

I was doing my research on breathing exercises and there 2 useful files that can be found on this site namely "the 10 titeban breathing and the 5 titeban breathing". It was very helpful to know this techniques. But i still haven't found my answers yet. You see, am looking for breathing techniques that induce particularly Beta, Alpha, Theta and Delta state of brain. Having a full awareness and understanding of how to consciously in in either one of the four states is very helpful but I don't know yet any breathing techniques for this one. We all know the inducing trance breathing technique but are there other ways??

Hail Satan.
@Nick

Thanks dude.

@archdandy

Exactly what Nick said, I WAS going to pay, also, I am studying myself... trying to at least. Keyword, TRYING... and at least I'm doing that, right?

Right but to completely blow it all off for someone else to do just seemed kinda lazy to me, which is what i got from your post...but i understand.... if she can help you understand more about your chart then awesome... i apologize if i came off like a butthole...

No problem man. I am a bit on the lazy side, no doubt about that, but I'm improving... you should of saw me 4 or 3 years ago... LAZY AS ALL HELL. :) I couldn't even vacuum my own house, let alone change the cat litter, now I do these things everyday, right along with meditation and yoga. Born and raised witha silver spoon doesn't exactly have it's benefits when it comes to being responsible...

Yeah, no doubt man... I too was surprised on how accurate my natal chart was, I was (before) a bit skeptic of the whole astrology thing, but as soon as I seen my natal chart and seeing how it matched up with almost everything in my life, was kind of weird... to say the least...

Perhaps since this is an area of interest to you, you might set about researching this through personal trial and error and report your findings??

I am bumping this (I hope). As I want to know if anyone else has also done this?

Hello everyone, I have a question, Jupiter Square for material issues also strengthens the houses of Sagittarius and Pisces or only spiritual square? thanks Hail Enki.

Only the spiritual squares, material ones are for money!

I wanted to ask whether if I can start Jupiter Square for spiritual purposes, for health since I've messed up Sun Square. Currently, Jupiter is in the sign of Leo. Would it be worth doing it now?
The Jupiter squares will give results but not as strong as when its in its strong signs. Doing Sun squares now is equally fine. Even though its not in its strongest signs, it will still work.

Hail Satan!

Comrades and Satanic Forces, the days of Victory are drawing near and closer as the time goes by. This is only happening for one reason. Our collective effort. Your brave hearts and spiritual deeds. Those of you, who despite of any opposition, still stand. Those of you who fight in the sight of doubt, fear and arrogance. Those of you who have chosen, no matter if it means their own life, to go against this bestial enemy. An enemy of gigantic proportions, but of a vain heart. A spiritual tyrant established on lies upon lies, deception upon deception.

We are at the crucial point where we must not take one step back. We must fight and fight again. Things are heating up towards where they never were before. Be merciless. Satan will take care of us as he has always done. Our loving Father is here and guides us actively. Satan has loved us and guided us towards Greatness. Towards the Truth itself.

The enemy has tortured and destroyed, raped and pillaged every Gentile civilization. Literally. These people from back "then" who were attacked simply for existing, have given you the Torch of Victory and Our Civilization. They have demanded of us to torch the lies of the enemy and AVENGE them. For the first to the last fallen comrade and Gentile, whom they have brought down in anyway, we are the answer to their cry for Justice.

Whomever knows the Truth cannot look back and cannot stop. All of us here, older and newcomers, do know the Truth. We are learning and understanding it. What a privilege, that they tried to strip us of. What a Honor. But also, what Duty it brings. We are here to move forward and bring Spiritual Justice. They have tried for hundreds of years to undo us all, both our Knowledge, our Gods and subvert and destroy our civilization to the bitter end.

We took a serious beating. We were damaged. The Gods offered us their hand and are raising us from the Dead. AND THIS HAND WE MUST TAKE. WE MUST TAKE IT, HOLD IT FIRMLY AND HONOR THEM. Honor them by winning this War.

But some Gentile people never gave up. The Gods, never gave up on us. Against impossible odds and even in the face of death himself, the last ones stood proud. They decided to die in the front of the Throne of Satan than to bow on the enemy's feet and save their lives. This includes men, women and even children. The enemy made no discretion and gave nobody no mercy. They butchered alike Pagan men, women and children alike. They didn't even hesitate. We were as alien to them then, than we are today. With the same unrelenting hatred, they attack Gentiles from all sides, so they do to our Father Satan. Through re-writing of history and systematic brainwashing, tons of magick and assistance, they think they could bind the Truth. Thing is, they have failed in the most miserable manner.

We still stand. We have raised our head in this World of tyranny of the Soul.

Others, the vain hearted, might have fallen behind. Victims of their own insolence. Their own fears, projected into the effort or wherever. Defeated not by any enemy, but their own self. I pity them. So different and so low of value, compared to you. Those of you, who the Gods have loved and guided. Those unrelenting people of Truth. Those who are fighting against this hidden and invisible monstrosity.

WE WILL WIN OVER THE ENEMY. WE HAVE WON ALREADY. But we haven't won, until we have WON. Until they are completely obliterated and GONE. This is, until over is long overdue. And after this, we will have to
do many other things in recovering everything from the damage they have caused. Paradise is to be fought. You have to make for yourself, a Paradise for yourself. They are trying to create a living world of pain and misery for everyone.

You all here have decided to carry this World on a small back of yours. Or so you thought. You are nothing small compared to this deed. The moment you decided to lift this, this same moment the Gods have seen YOU. As it seems, we are standing strong and always capable. We are mere commoners who are walking the path of the Gods. Mere Gentiles who are looking up to our Gods. Who are looking back our Ancestors. Who treading the forgotten path.

WE ARE RIPPING THE ENEMY APART IN SO FAR LESS THAN TWO DECADES!!! They have made efforts of hundreds of years, so we can come out of nowhere and damage them unlike anything has ever damaged them. Their lies only bought them time. From the Truth of the Cosmos nobody can hide. They are criminals and murderers. They are assisting a criminal spiritual order and they want the worst for everyone. This all of us here know. They have everything to hide. They are afraid and guilty. They know the Eternal Eye of Satan is seeing them. This is what and whom we represent. This is for whom we do fight. The eternal, unclosed eyes of Spiritual Justice. This eye of Satan has discovered, unmasked and is burning the enemy eternally.

We are the most peaceful of people. We are the civilizers of the Earth. We are Warriors. When wronged and lied, we are intolerable. It’s not in us to stay without a Word in the face of these lies and deceptions. Everything is at stake and we will play for EVERYTHING. When our legacy as Gentiles is attacked, our Honor and our Creation, from aliens such as these, we become worse than DEATH. Because we serve loyally and faithfully the Truth. The unforgotten past. The future that is to come. We are going against time and against all times, at all times.

Here we stand, besides the hoards of the enemy, the hoards of the mindless sheep, the destroyers of civilization, giving a victorious fight. We will drive them to the cliffs and undo them. No matter how hard, no matter the impossible, no matter time, no matter the ages, no matter numbers. Such are only illusions in the eyes of the Gods. Spiritual Justice will be served. Do not let them blind you. The Truth stands eternal.

MY COMMRADES AND MY PEOPLE, ALL OUR HEARTS ARE BEATING IN THE SAME DIRECTION. IN THE SAME WAY WE WALK, TOWARDS THE SAME WAY WE FIGHT. WE WIN TOGETHER AND TAKE A BEAT TOGETHER! WHEN ONE IS DAMAGED, THE OTHER ONE SHALL AVENGE THE FALLEN BROTHER. WE ALL ADVANCE AND MOVE TOGETHER. WE SHALL NEVER ALLOW, WE SHALL NEVER TOLERATE THE ENEMY. WE ARE THEIR UNDOING. WE ARE THE NEMESIS OF THE GODS. INDIVIDUALS, BUT ONE AND ONLY BATTALION! MANY SOULS, YET ONE SOUL IN TRUTH!

Hold each other’s hand in this battle, as a chain unbroken, unmovable, a chain of Satanic Truth.

WE STAND FIRMLY AND DECLARE: ßTHIS IS WHERE THIS ALL ENDSß THIS IS WHERE WE END THEM!

LET YOUR VIBRATIONS AND MAGICK RIP THE ASTRAL AND LET US ALL DESTROY THE ENEMY!! RIP THEM APART, IN SATANß ETERNAL NAME!!! RAISE YOUR SERPENT AND SUCCOCATE THE ENEMY IN THE ETERNAL FLAME OF TRUTH!!!

ONWARDS TO VICTORY!!!

----------------------------------------------------------------------------------------------------------------------------------

Here is how to fight:

Everyday, until the day that a Ritual will come, which will be soon, raise the following and direct it as following.

-Thurisaz x9.
Then affirm Once with intent-

"Israel and all the jewish race of peoples are permanently and completely destroyed in every and all levels of existence."

-Hagalaz x9

Then affirm Once with intent-

"Israel and all the jewish race of peoples are permanently and completely destroyed in every and all levels of existence."

You can multiply 9 vibrations and do this, like x18 Thurisaz or x18 Hagalaz.

An Alternate affirmation would be as following: "Israel and the jewish race as a whole are now being permanently and completely destroyed, in every and all levels of existence."

****ALL THE ABOVE IS TO BE DONE EVERYDAY, UNTIL A NEW RITUAL IS POSTED. THIS SHOULD BE PART OF YOUR DAILY MEDITATIONS. PREFERABLY, DO THIS FIRST AND THEN DO YOUR AURA OF PROTECTION AND CLEANING MEDITATION!

Hello Brothers and Sisters!

I have recently experienced something interesting with Energy Vampires (Psychic Vampires.) and their Saturn in hard aspects.

This has happened with two people that I have done Synastry match with. The chakra being ruled by the planet which has Saturn in hard aspects is the chakra most voulnerable to attachments, and it is the usual chakra they "go after."

This is the experience:

Their Saturn is in hard aspect (square) to my Venus, and that was the chakra they attached themselves to.

One of them also was in sesi-square to my Sun, and attached herself there as well.

This happens when I am in proximity to the energy vampire.

Hail Satan!
Perhaps it's unintentional on their part and simply part of the normal human interaction as defined by the planets which causes this?

I've never paid much attention to links and such as I believe this only strengthens it's influence. Paying it no attention means that the stronger aura wins out, which with enough meditation is almost always that of the Spiritual Satanist. When the stronger aura gives creedence and attention to another's links and energy draining it actually increases it's influence as your divesting your energy to it and through it if that makes sense.

Good day people. Please I need help on how to consecrate a Satanic Rosary. Please. Thank you

No, you can't. But you can change some features of character IF YOU WANT TO. Planetary combinations do not force us to be the way we are - they explain.

How significant are co-rulers of signs in correlation with signs on house cusps?

On the "Houses" page on the JoS, it says that the sign ruling a planet in the 8th house being on the cusp of a house of relationships can mean the people ruled by the house may die. Also that the partner, if it's the 7th house cusp, may be powerful and important.

Does this apply to co-rulers? Take, for example, Pisces on the cusp of the 7th house with Jupiter (as the co-ruler of Pisces) in the 8th house. Will the above interpretation still be in full effect as if it was the natural ruler (Neptune in this case) that was in the 8th?

Given your astrologi chart to a stranger is very risky. As they could cause havoc in your life if they knew about your planets.

I recommend High Priestess Maxine Dietrich astrology reading, but I believe she is not currently available for such.

So my best advice to you is learn it yourself. It is free after all :)

I'm wondering if astrology is effecting business

We (3 ladies) are trying for a year now to get our business off the ground, I doubt that there is anyone who
has worked has hard as we have without giving up, but now we are starting to feel the pressure, everyday we think this is our breakthru, to only be dissappointed again, giving up will be the saddest thing. Must admit, we are feeling sick, depressed and scared, money to carry on is our problem now, without the few essentials like phone and internet we cannot carry on.

I've taken a look at the Azazel's Astrology for Satanists, still too much for me to learn at this stage, I'm still on beginners meditations.

Question is:
Will astrology (planets, houses, rulers etc) have any influences on why it's being such a struggle ... if so, would someone be willing to help me look into our chart perhaps.

Hail Satan!

There can be astrology difficulties with your business yes.

Be careful with revealing you natal charts to strangers. They can do some dirty stuff with it knowing your bad planets etc. And these groups are infiltrated.

I do not know of anyone able to read your chart right now. So check into this link. I also added Azazel's Astrology for Satanists link.

Natal charts can be cast for businesses too, not just people. Draw one up for when you started your business, solar returns too.

Have you done any workings to ensure the success of your business? Sun square can be started soon, it will be in Leo which is an excellent time for business success.

Also, daily affirmations. After yoga or breathing exercises is best. Surround yourself (inside and out; your soul, light body, and aura) with gold energy and affirm something like "our business is very successful" 20 times, every day. You mentioned you are a beginner, but if your chakras are open, try vibrating the mantra of the sun (Suryae) 20, 40, 54, or 108 times, and then make the affirmation.

Are the other ladies SS as well, or just you? If they are too then that will be 3x the magickal energy that can be put towards the success of your business.

I'm just writing quickly as I'm busy right now and rarely even in these groups any more but checking out a friend's health group that was just started and I saw this post.

Thank you Lydia, I have started using the Suryae mantra in the aura cleansing meditations, never thought of adding an affirmation to it, will definately be doing that from today onwards, and will also start the full Sun square cycle on Sunday.

Unfortunately the other 2 ladies are not SS, with all the stress I don't want to tell them just yet, they might think of it in a negative way, I first want to grow a bit more and meditate on the right time. We are all trying to be positive in our own ways, the one does affirmations, (my daughter) she believes just that works, the other girl is a full on christian, her whole family have fasted and "prayed" for her (us) and I know she also uses affirmations daily, even very careful what she speaks out.

Hi guys

I'm new to astrology and I just wanted to know if anyone can read my chart and tell me what's up? I'm trying to learn the subject but its very difficult line pointing in a lot of places *confusing*

Be careful with who you show your birth chart to. These groups are infiltrated and a person knowing your bad planets and transits with these etc can cause major problems in your life.

The best is to learn astrology for yourself, I provided some links for you:

Hail ClarinetPlayer666,
To understand/read your birth chart is relatively easy.
Note the zodiac signs, each has a date range so you can know percise timings of planetary effects. The little numbers under a planet sign is the "degree". This helps specify a date. Example: 7th degree of Aries is March 27th.
Note the planetary effects. All info is in Azazel's Astrology Links. Example: Pluto's effect is helplessness/low-energy/dependency, ECT. This is a BAD planet. Example 2: Venus's effect is ensuring a great time for love/relationships/knowing-what-zodiac-house-your-"soul mate"-is.

Once you break down the dates of the houses and what planets are in them, and you know their effects, you will be able to prepare for them. I hope this gave you a novice understand, and wish you the best of luck.

Hail Father and Lady Agares!!!
Re: I'm wondering if astrology is effecting business

Hey Stygian :) I know, it's been a while! I usually check in on the JoS forums, not so much the yahoo groups. I'm not nearly as active here as I used to be, unfortunately. I'm hoping I'll have more time starting these next few weeks to get back in them.

Hail Satan!

Re: Birth Chart

This is a perfect example of why you can't just give out your information to anyone. The guy who replied to this topic asking for your email 'Christan Gates' is a known infiltrator who tried to spread xitian nuu age information that was harmful to people. If you had given him your information you would be opening yourself up for curses.

Never give out your Astrology information! Doesn't matter if your personal information is not attached in my opinion.

These groups are infiltrated and knowing your bad planets and transits they can create some serious problems for you.
Libra is in your first house. And everything in your chart affects each other. Like HPS Maxine has stated:

Remember, the interpretations for each aspect, house placement and sign a planet is in is taken alone. You must take the placements of the other planets, signs, and house positions into consideration, along with the shape of the chart, and blend in everything.

Depends on the meditation.

For freeing the soul and such, "removing things", I recommend starting it on a waning moon.

For "building things", start at a waxing moon.

Make sure that the Moon is NOT Void-of-Course. ALWAYS!

Still I don't like it when SS do that stuff. hehe

Anyways. Looks like they deleted it know so I am glad.

Hope you got the answer you were looking for :)

Don't do it.

For the sake of making this easier for myself, I'll see if I can delete the post. If not, moderators I would like this post deleted please.

Yes it is. But don't reveal your astrology chart or personal informations to strangers. If someone know your bad planets and transits they can cause you some serious problems.

Best way I to learn Astrology yourself. Check out the JoS link :)
Timing your Magick with the Moon

Timing your magick with the phases of the Moon is essential for success. A rule of thumb is to remember for white magick, this is best done while the moon is waxi...

Yes I am the same person. My names online are CrimsonRaven666 (Oftened shortened to Crimson or Crim)
Emma.epsilon (or emmaepsilon)

I have a couple others that I use for personal accounts and for gaming things. Those I keep separate from the groups and only a handle of people on Twitter know those names and they are linked to me.

But yes... I am one person xD

Good stuff!

I thought it might be one of the infiltrators that use similar names as some of the members.

Subject: Using Transits in Prediction

If my Pluto [5 degrees] is squaring my Venus [6 degrees], is my Venus weaker than my Pluto because of it's higher degree? And if my Pluto is 5 degrees into Sagittarius and Venus is 6 degrees into Virgo, how can I use this to predict an event?

On the degrees, not necessarily. You'll have to take the whole chart into consideration.

On the event, you can't use the placement of the planets in your natal chart, only, to predict an event. You can predict an event by knowing the transiting planets, and their aspect to your natal planets, houses etc.

Subject: Issues in September?

I cross posted this in the JOS group as well.

I noticed a lot of issues building up this September. Mainly, Saturn making a rough transition into Sagittarius. I remember Maxine talking about this and I think it needs to be brought up again. The last time Saturn was in Sagittarius, the Great Depression happened.
A kike on my news feed also posted that the Jews are calling for the end of America in September. They call it the end of the shemitah year. What such a foul word.. (article posted below)
But my theory is that the Jews are going to try and predict it to scare the Gentiles back in line. Does anyone else have information regarding this?

I don't have any info yet (Haven't done much looking) but it's good to bring this back up at September approaches. I think we should post this to all groups and if Maxine does make a post about it I’m sure she'll do that as well.

They can't scare us if we already know the plan.

I recently seen an image on Telok.Vovim's YouTube channel showing dates in which Venus will line between Earth and the sun. The last date was on 1/6/14 and the next is August 13th 2015. What is the significance of this event and it's planetary influence? Thank you for your knowledge.

Hail Odin, All-Father! Hail Lady Agares! Hail to our Legions!

Venus is the planet of all things that are indulgence. Anytime a planet aligns with the earth, their rulers become in effect. However you have to keep in mind what will cross paths with Venus. say Saturn get's in the way, The effects of Venus will become negative and we will lose what Venus rules.

Thank you Piplup, I will look into it more and prepare for what effects are to come. If I find anything interesting I will comment here.

Hi!

So I'm aware that the best time to start a business should be during a waxing moon. I was thinking a Thursday or Sunday. According to my location, the 16, 20, 23 or 27th of August will be best and there is not any void moons any of those days.

I'm studying astrology but I'm still unsure about other planetary positions that may be more favorable to start a business.

We actually already started selling our goods and the response has been great, however we have to get a business license and other permits in order to expand and move forward. Should we wait until the best astronomical day to file for a business license, or does our success hinge on the day we actually started selling our goods? We're working hard and great opportunities are becoming available to us, so I'm confident that this business can be successful. but I am wondering if the day we incorporate/file for our license will determine the success of our business.

Any advice or tips on how to find the best astrological date/time to file for our business license would be greatly appreciated. Thanks!

Recently, there has been a lot of people forecasting a downfall of the economy in September. So I would wait a little while.

The best time to get a business license would be when there is no void of course moon. I would do it on a Sunday as it is the day of the sun which brings money. You can also do it on a Friday or a Thursday as Venus and Jupiter complement money.

Thank you Piplup. This new business is how we are currently making our money. In order to continue, we absolutely have to create a new entity. We used a family members business to get our foot in the door and we've been operating "under the radar". However now we have received a new opportunity but we need to provide a business license, insurance and other legal forms in order to continue to operate. Unfortunately our family members license is no longer valid and they are also operating under the radar because they're unable to renew their license. Because of the joo system, they owe a lot of money in back taxes and that is why they cannot get their license. So now my husband and I have to get a license.

Do you or someone recommend a specific working to help our new business through the potential downfall of the economy? I've done sun squares before but I'm not confident as I'm unable to roll my r's ( I'm working on that). I'm currently vibrating the Fehu rune for general prosperity and this new business and opportunities coming our way feel like the working is having an effect. :) but just wondering if there's something even more specific to help our business survive the potential downfall of our economy in September. Any advice would be greatly appreciated. Thanks!

Yes, I do have a working for you that will help out with this issue. I tried to post it to the JoS e group but it never made it through, so I hope it helps you.

I recently experimented with a working that brought a lot of rain to California. It took seven people to get it to work, but this working may take hundreds to protect and prevent the financial problems. Please share this working with everyone in hopes that it will divert some of the bad financial energy that is coming.

The runes are in the Celtic cross/ Equal Arms cross formation to help harmonize the energies for this ritual. Please make sure the runes are pronounced correctly and are used in this specific formation to make the ritual work.

The ritual:
Vibrate Dagaz 23 times. Dagaz is the rune of intuition and knowledge. It will allow Gentiles to see what is coming and to prepare for it.
Vibrate Thurisaz 3 times. Thurisaz is the rune of courage, wisdom, healing, independence, and leadership. In the coming hard times, we need the Gentiles to be courageous and independent of anything that will shackle us. It will also dull the effects of the 9th degree of Pisces
Vibrate Fehu 1 time. Fehu is the rune of money, expansion, property, and the environment. This rune will make sure money is still flowing in and the Gentiles will not lose their property.
Vibrate Algiz 15 times. Algiz is the rune of protection It will ensure that all the Gentiles are protected with the coming negative energy.
Vibrate Ehwaz 19 times. Ehwaz is used to unite the runes energies, which is why it is at the center of the image.

The affirmation for this ritual is "All the gentiles are aware of the coming financial crisis and are prepared and protected in every way."

Once again it is:
Dagaz x23
Thurisaz x3
Fehu x1
Algiz x15
Ehwaz x19
"All the gentiles are aware of the coming financial crisis and are prepared and protected in every way."
I hope this helps. Good luck!
Hail Satan!

Nice try. Let's dillute the attention off from the real problem, that is the CAUSE of the economic depression, and do bullshit workings to supposedly help about anybody, or do not even accomplish that. A bad way to use your powers, really. But in this case, this is outright trolling, I cannot help it but spot how both of you have been ov the verge of reacting as trolls. If you do this to "help" just about anyone (but the kikes, since you will give them nessesarcy time by any idiot who is willing to listen to this crap) it will not be long (if it works) that they will say the abrahamic zombie "god" helped them in the financial crisis.

People need to wake up and if there will be brutality, then so be it. The financial crisis is a small thing compared to what the kikes have in store if they remain amongst us and keep doing their nasty work. They are the source of everything. Stop treating symptoms and trying in a deceitful and stupid manner to use the good hearts of people to protect something so broadly and senseless and use your mind where you will cause real change. All economic crises did happen because of the jews. This is a well documented fact.

The people are being automatically protected since the negative energy raised against the jews who are working the Torah and other means, is destroying their efforts to succeed, aside with them too. If you have anyone specific you want to protect, do to them the Aura of protection. Also, make sure they find the JoS and start meditating.

I apologize for asking the question. I am worried about the financial crisis only because my family is in so much financial trouble right now as it is.

However, I do understand what you are saying and will continue to do the destruction rituals everyday that I have been doing to fight the real problem.

Thanks. I clearly wasn't thinking about what I came on the board to ask about in the first place.

Satan doesn't want for us to be attacked and deceived by the enemy, as this incident. Its nothing personal for asking a question. Its just that things have to get answered, because we are fighting an important war with the enemy and there is no way or reason to dillute energies like this. Again, attack the root, not the branches on the seed.

Hello High Priest hooded Cobra it is a pleasure to meet you and discuss things with you! This meditation I designed to help gentiles realize that they are worshiping the horrible deity that the kikes invented. I've used this meditation several times and people have been asking me about Satan in an honest manner. I do not tell them, I just give them a card to the JoS website because I know not to speak openly about the issue. I am not trying to dilute the energy, I am trying to point it right back at the kikes and laugh in their faces about it.

I figured I give everyone a chance and if they refuse then I make sure their energies are dealt with. Is that an issue? I thought we were supposed to bring people into enlightenment and to help fight with us.

Piplup, what you are doing is wasting our time with these post and suggested self-made "workings". I read through your instructions and find myself regretting it as it truly is pointless. The image you made is not necessary, as is all talismanic magic. Satan gives us all we need to complete a working. We do NOT need such props as this silly drawing.

Rather than waste your energy doing this, you should join the rest of us WARRIORS in daily cursing rituals and work to use your energy towards self advancement. And be patiently aware that another major reversing ritual will be coming soon.

I like the card idea however, and I found it to be a very clever method.

Don't waste your power and come join us in doing work that is needed.

Hail Odin, All-Father! Hail Lady Agares! Hail to our Legions!

Hello Lucius,

I would like to inform you that I do perform the rituals daily. The image is just an example to explain the workings and it has effectively brought rain to California within the past few weeks. My goal is to both crush the enemy and bring relief. I send my power both ways and I have enough to do it. Satan actually gave me this method to banish various entities when I was living in a previous location. Turned out there was high energy rifts that were spewing grey energy out onto the world. These were mainly located in churches and Jewish temples. I managed to close them all using the runes and binding them shut. It caused the energy to fluctuate and people became more happier and felt relieved.

Once again, I do perform the rituals against the jews, but I also want to bring relief while dong it. I have seen what happens when you only perform cursing rituals. It messes up your psyche and you only want to destroy. Once the enemy is eliminated, there will be an issue. Everyone will be blood thirsty still because they are in that psyche. Satan wants us to both create and destroy and I am doing that.

I personally do not see anything wrong with relief and destruction at the same time. Please correct me if I am wrong, I am open to suggestions.

We will not be "bloodthirsty" after all these cursing rituals. Through meditation, we balance our energies. And after the enemy is destroyed, we will be focusing on recovering from all the damage the enemy has caused us and our planet.

As for Satan wanting us to both create and destroy, don't use that to push your personal agenda here. That's a common tactic of the enemy, and we have seen it many times in these groups with other people trying to waste our time. Of course we create, that has nothing to do with your proposed working.

Hail Satan

Come one guys, let him go back to the Yeshiva school. Simply look at these arguments. Anyone with a decent IQ can understand these methods. It simply is alarmed and wants to save its race. Because we, the
bad, evil Gentile bloodthirsters are attacking back after 2000+ years of Jewish psychic attacks. Oh my-literally. Simply, do not spiritually attack the Jews. Waste your time everywhere else, but don't spiritually attack the Jews...For reasons mentioned by the Yeshiva, right here.

Supposedly first, savior without a cause. He saved the whole of California. Then, it acts like bringing rain in California is a big deal. Yes. Alright. Then, supposedly, the enemy will SURELY get destroyed, so, we have to move to part TWO, which is "regeneration"...Regeneration before having finished any job...Not after they are GONE and OBLITERATED, but now. This is a common Jewish tactic to use the instincts of people and fear that if they attack them, they will somehow damage themselves or their civilizations. This is UNTRUE in all its essence and this is one of the main things that has kept them around all along. The Bible is filled in with that shit, as in, if you supposedly "attack" the Jews, what will be the consequences.

This is a well established programming in the mind of Gentiles. As mentioned in my latest post, the story of Balaam, who attacked the Jews with magic to destroy them, another subliminal. Nobody is as insane, bloodthirsty and malignant as a Jew and history has proven this. The worst monstrosities of the world have been either Jews, or have been indirectly influenced by close up Jews. Mao, Stalin, Beria, Pol Pot and many other instances stand there. Even today countries are being used to wage war for the Jewish ends, nevermind Pissrael itself. Find me some Gentiles who have been unaffected and did all these, who were free of xianity and Jewish influence. You will find none, because no Gentile, unless mentally insane acts that way.

Because, if the Jewish disease and all it has created is spiritually wiped away, we will be bloodthirsty...And how bad it is to be bloodthirsty...As bloodthirsty as a white blood cell that succeeds on its war in wiping out a disease. People are dying everyday because the Jews keep the food from getting to people, people are dying everyday because they are illiterate and they are told to wipe themselves in TNT and go die to meet "Allah", states are crumbling, economy is collapsing, people are working for nickels- all these and hundreds of other problems simply because the Jews dictate it as such, and here comes the Yeshiva prophet of "Non Bloodthirsty-ness". Oh vey, bad to restore order. And as you know, this is unnatural and makes someone "violent", like anyone who has recovered from a disease. Do you see the new ager Jesus speaking here? Double mouthed as it gets. "Yes, attack, but...Don't become bloodthirsty." When it comes to such events, spiritual bloodthirst is to be welcomed.

Not only there will NOT be violence if the enemy is gone, but there will be peace, as there is no need for war between Gentiles, and yes, there is space, food and everything for anyone. The enemy on purpose keeps and withholds all that from people so they will suffer and seek war, crime and any other ways to gratify the desires the Jews project. Satan doesn't have plans for waging wars against anyone else. The mere destruction of their spiritual creations, will involve all the shit you state as supposedly the "rifts" and any other shit, as all this is reinforced, created and directed by the Kikes. All these are kept up by the Kikes on the highest level, as the Torah directs and coordinates all these actions. Your ignorance is just astounding, your arguments Yeshiva and you can keep trolling.

"Correct me if I am wrong", we do and then, you continue the rhetoric. Another classic. If you do not have it in your heart to destroy the enemy, for whatever reasons, do not invent stupid pseudo-ethical arguments to troll people. Because here you might get some posts inside, troll etc, but the being whose name you state so easily as a basis troll, "Satan", sees everything. Especially when it comes here, which is His own house so to speak.

-High Priest Hooded Cobra 666

Now if in the given case, there is True ignorance, for anyone who sees these or doesn't quite understand what is going on...Check the forums and the posted messages here, and you will quickly get the "motto".

Thank you High Priest Hooded Cobra 666. The line about the white blood-cells brought a smile to my face.

It is highly doubtable that you we're able to converse with Satan and him directly give you this meditation. When I was new (only a year in or so) I swore I heard instruction from the All-Father too. This was a lie, as it was really Angelic grays using false telepathy to gain my trust and be steered wrong. Be careful, for even with doing a banish ritual and removing meditation, the grays will still deceive you and you must work several times before becoming free.

As for your remarks on the "aftermath" of solely doing cursing rituals. I have done them everyday sometimes multiple times a day since the instruction from our HP's several months ago. I have not felt any "bloodlust" or so forth. I even use the (Thorisaz) rune which is more powerful of the two. Perhaps you have also forgotten that we are inclined to clean our auras daily as well.

From my observation of you and your post, you do indeed come off as a Troll and a bluffing liar. "I did a working that brought rain to California", "I caused major negative energy to fluctuate and bring relief to people”, "I have the power to do both", "Satan told me." All words said by q novice which believes himself to be higher than he is. The most offensive of these is that you claim you spoke to the All-Father and was personally give this meditation, but the HP's weren't.

Perhaps you are just misguided but I see you more as being a deceiving little troll.

If truly do hope the HP's catch wind of you and are watching you and ban you if you are.

I want to reconcile my parent's and I relationship. I know the perfect timing for this would be when the moon is in Cancer [no void of moon until after 7pm, no retrogrades]. I want to know how can I make this working extremely powerful and effective for 40 days straight. How can I use my birth chart for this working? My 4th house is in Virgo, which is the house of family, so I definitely don't want to start if Saturn is transiting Virgo.

**Subject:** Re: Best time to reconcile family members
Ok well first off, Saturn won't be transiting Virgo for another 20-something years so you don't have to worry
about that.

For family and reconciling relationships, you will need good Moon and Venus energies.

Venus is currently retrograde, and Venus rules peace and harmony etc, so this is not a good time yet. Btw
Mars retrograde is good for a working like this but it won't be retrograde for a while yet.

Venus will be in Libra (a very good placement) in November. On November 29th, Moon will be in Cancer,
and day of Sunday so that would be a pretty good time to start this working. If you wanted to start the
working sooner, wait until Venus is direct again, in late September it will be direct in Leo so a decent time.
October 4th and 5th, Venus will be in Leo, Sun will be in Libra (good), Moon in Cancer. Day of Sun (4th) or
day of Moon (5th).

Also... make sure you 100% want your relationship with your parents to be mended. Workings don't work
out if we are not 100% in tune with ourselves and the working. Speaking from personal experience,
sometimes we are better off without some people in our lives.

Hail Satan!

I'm reading on JOS that the herb Chamomile can be used to incite psychic dreams. By doing that, you have
to evoke the elements quintessence and water, during a full moon. What I would like to know is...how can I
program it? Would a rune also help empower it further?

But anyway. So. Brew the tea, then hold the cup within your hands (palm chakras direct the energy) and
affirm that this tea is inciting psychic dreams for you. Affirm it however many times you feel necessary, 5-10
or a power number multiple of 8 or 9 etc. I'm not sure of your meditation level so I'm throwing this all out
there. And obviously if the mug is too hot then set it on a table and hold your hands around it but not
touching.

As a magickal practitioner, you will have to figure out the order than works best for you ;) The programming
of the tea, the invoking of the elements, when to drink the tea, etc. If I were to tell you my step-by-step
method, it might not work as well for you :)

You could definitely use a rune as well, here's the list so you can find for yourself:

how can I program it for me to dream of a specific dream?

How to find chart ruler?

What is chart ruler

I trying to figure how to use astrology. This is my very first time doing this, beside horoscope ( if that even count as astrology)

I just want to know did I find the chart ruler

These are the steps I follow:

Step 1

I went to this website(http://www.astro.com) and got my chart

Step 2
I found my ascendent (horizontal line to the left, more bolder line then the rest)

It was pointing or intersecting to the Capricorn Sign like the image below

http://astrofix.net/wp-content/uploads/2013/05/Capricorn-Ascendant.png

Step 3

Then I went to this link for Planetary Ruler-ships

http://www.angelfire.com/empire/serpentis666/Planetary_Rulerships.html

I found out it was Saturn :, but it okay I hope.
I found that info in this link: http://www.angelfire.com/empire/serpentis666/PlanetSaturn.html
Where it say "Rules: Capricorn (co-rules Aquarius)"

Anyway I was wondering if this is right or the right way to do it for finding Chart Ruler.

Yes, as your AC is in Capricorn, then Saturn is your chart ruler. But this isn't a bad thing, so don't worry :) As for whether or not it's the right way to find the Chart ruler, in time you'll just be able to take a glance at a chart and know the chart ruler. You did it the correct way for a beginner. Also, if there are any planets in the 1st house, they would also be co-rulers, but since you don't, then just Saturn is.

Loooonng, long time ago HPs Maxine posted something on how Saturn as the chart ruler works. In a nutshell, it bestows long lasting / permanent changes when it transits a natal house.

And since we evolve, powerful aura sublimates destructive, limiting Saturnian energies, converting them into stabilising, structurising ones.

Short and sweet - weak aura = Saturin is a bitch (limits, pessimism, delay, etc). Strong aura = Saturn stabilises, provides structure, realistic outlook, practicality, etc.

Be aware that 30 minutes difference in the time of Birth chante the ascendant

Saturn as a chart ruler tends to give one self discipline and great emotional control. It can also give you a tendency to be overly hard on yourself but this eases with meditation and the subconscious clearing which occurs at some point or another. Routine is most likely your strongest asset, even if you don't realise it yet (took me a while to figure that part out). Look to the planets that Saturn aspects and the house and sign it is in for more info...

My SR Moon is in Taurus on 26 degree (tight conjunction to Algol), in SR 9th House, ruling my SR 11th house. Apart from doing power meditations, is there any other way I could protect myself from its malefic influence? OR, should I even be worried? I know that this is the most malefic star after all...

HS!

I agree with you so much. It funny you mention, I walking on creating an organizer and scheduler. Every time I keep doing things without it I collapse.

Hail Satan!
Hail Gods of the Du'At!

Check the house that has Cancer on the cusp in your natal chart. Take precautions as to who you interact with, especially if you travel. Be sure not to dwell on anything negative, this is very important. Keep your energies high and your aura of protection up and you're good to go. You can sublimate the energies and spread the truth online on a global scale or whatever projects you feel like doing.

It is time our Gentile People knew exactly what the extent of islams vile brutality is. The article is long, but please take the time to read it, and use it to educate those who still believe that islam is harmless or a "religion of peace".

It is vital that we fight against this sick program!!

Islam is possibly the most sick and twisted of all of the abrahamic enemy programs and the one which has garnered the most bloodshed.

It has waged a war upon and grown like a cancer within the cells of Humanity since its inception. Violence, torture and brutality often come to mind when one thinks of islam and its vile quran, and this is validated by history itself.

Quran 22:19-22: "fight and slay the Pagans, seize them, beleaguer them, and lie in wait for them in every stratagem" "for them (the unbelievers) garments of fire shall be cut and there shall be poured over their heads boiling water whereby whatever is in their bowels and skin shall be dissolved and they will be punished with hooked iron rods"

As a jewish program, islam has always displayed a morbid hatred for PAGAN Gentile Humanity. Remember, all Gentiles are Pagan by nature. The Abrahamic filth of the enemy is foreign to our Souls. The above verse, quoted from isalms "book of peace" displays in vivid detail this intense hatred of Pagan Gentiles. Not only does
it call for the murder of our Pagan People, but for the brutal TORTURE and murder of our Pagan People.

Well, islam has kept true to its word throughout the centuries, upholding this verse and others like it with a sick ferocity that comes so naturally to that tribe of delinquent, bandit thieves and parasites- the jews. Far from being the "religion of peace", islam spread via means of physical force and coercion. There were basically two choices for you when islam infested your area:

1. Convert and give up your land and personal possessions to your new slave masters and live the rest of your life as a prisoner in your own homeland, paying daily and slavish worship to their alien "god" Allah. I.E., your life was pretty crap from that point onwards and there was nothing you could do about it. If you did decide to change your mind somewhere along the line, well that brought you swiftly to choice number 2.

2. Be brutally, publically tortured and slaughtered along with your family and other loved ones.

As well as this, islam also eventually devised another means of forcing conversion: It worked to make life impossible and unbearable to any non-muslims residing in an area where it had spread its vile tentacles. Non-muslims were forbidden to own their own land, forbidden to legally own any possessions, to be involved in agriculture to feed themselves and their families, stripped of all rights and forced to pay exorbitant taxes to the islamic war lords, known as Jizya. They could essentially only be slaves, living imprisoned in the lands that they once built, owned and made to flourish.

This eventually broke the backs of many of the Gentile People who were struggling immensely day by day to feed and clothe their families, and they eventually gave in and converted to islam. (As we know, money and TAX have long been a means for the jews to control Gentile Humanity!) Life was literally a living nightmare under islam, as it still is today. The nightmare has yet to end.

Many who opposed islam and refused to convert soon learned the extent of "Allahs love". Let's take a look at some examples of the "religion of peace" in action.

The islamic crusades
(aka Genocide of the Pagan East)

There is a mountain range called Hindu Kush in what is now Afghanistan, whose name can be translated as "Death Mountain" because of the amount of bloodshed and death that took place here during the islamic genocide in the 11th century. Here, Hindu referred to the inhabitants originating from the Indus Valley region. These Peoples were Pagans. Original inhabitants of the region were massacred by the hundreds of thousands, literally cut down by the blood thirsty muslim tyrants.

Those who were not slaughtered for whatever reason were taken into the lands that had been conquered by the muslim monsters and kept as slaves. Thousands more died of dehydration, starvation and hypothermia making the terrible journey through the mountain range once they had been captive and enslaved. The Pagan slaves were driven through ice and snow up dangerously steep pass ways with minimal clothing and often very little or no food and water. This was secondary slaughter as it was highly unlikely one would survive this journey in these conditions. If you did happen to survive, you were greeted on the other side by your new life as a slave of the worst kind, treated lower than a dog.

Hindu Kush is but one example. Eye witness accounts from the times of the islamic genocide state the green of the hills and the water running within the streams literally turned crimson with the blood of the murdered Pagan victims.

In 633, muslim lunatics invaded the Ancient City of Ullais situated along the Euphrates River (Modern day Iraq). They were led by a particularly blood thirsty schizo-proto jew by the name of Khalid Ibn Walid, who instructed them to massacre men, women and children mercilessly. Thousands were captured and beheaded and the blood happened to flow into a nearby canal, and was so plentiful that it caused the water to turn red. From this moment, it was nicknamed "blood canal" or "Blood River. So from Death Mountain we now move on to Blood Canal. Isn't islam wonderful? Its historicity literally reads like a horror novel.

There was another muslim crypto jew war lord named Umar Ibn Al Khattab who had such a deep hatred for the Aryan Gentile People known as Airyanem Vaejah that he was recorded as saying he wished there was a mountain of fire between himself and them so that they would never have to meet.

He dedicated his entire life to the slaughter and destruction of these People. After slaughtering one of their
tribes, he took a 3 YEAR OLD GIRL as a sex slave. Islam has always condoned and glorified paedophilia. Muhammad himself was said to have taken a 6 year old girl as his wife, sexually defiling her at the age of 9: https://exposingthelieofislam.wordpress ... hin-islam/

This deep seated hatred for and fear of Aryans is so typical of the jewish soul, and islam as we know is jewish to its very core.

Umar Ibn Al Khattab, after slaughtering thousands of the Aireyanem/Aryan Pagan People, sold their women as sex slaves in the islamic capital of Medina. This shows the extent of his sadistic and sick hatred of the Aryan Pagans.

The modern day Yezidi People of Iraq are distant descendants of these Airyanem Vaejah, illustrated in the fact that many of these men and women still exhibit the Aryan physical features such as blond hair and blue eyes:

http://i.dailymail.co.uk/i/pix/2014/08/14/article-2724658-2084D29B00000578-826_964x641.jpg

https://s-media-cache-ak0.pinimg.com/236x/4b/15/f4/4b15f45d9a43d67ce2839e879413dc23.jpg

Still today, Umar Ibns hatred of our Aryan Gentile People, or should I say the jewish hatred of our People, lives on as we can see in the Islamic genocide of these Yazidi's currently taking place today.

http://www.dailymail.co.uk/news/article ... aq-UN.html

Note how they use rape and impregnation as a means of destruction. They are trying to eradicate the Aryan genes from Humanity altogether. They used the same tactics during the Islamic conquests. Many of the women of the conquered lands who were not slaughtered were taken as sex slaves, impregnated and their genes destroyed. The Jews often used this tactic to infiltrate, as I spoke about in more detail in my sermon about the true origins of Islam. It is also why they encourage and push race mixing upon Gentile Humanity. This is systematic genocide!

The Muslim conquest of India was particularly brutal and blood thirsty. India, along with Sri Lanka, are very Ancient and powerful Spiritual seats of Aryan Gentile Humanity. The Ancient Priesthood of India was an Aryan one that ruled under direct Guidance from our Gods. High Priest Mageson has written on this in-depth in many of his sermons, including the one about the True Atlantis: topic85.html

It is for this reason that Islam attacked India with such brutal ferocity. Historians have called the conquests of India the bloodiest chapter of human history.

As well as millions being tortured and slaughtered from the 6th all the way to the 12th centuries, thousands of Ancient Pagan Temples, Sacred Sites and Libraries containing Ancient Spiritual Knowledge were pillaged and burnt to the ground, totally destroyed. Whatever was not destroyed, was taken and kept as spoils of war by the barbaric invaders and used to their own ends.

In the year 997, an Islamic “Sultan” by the name of Mahmud, who had seized control of a city in Afghanistan, led a violent rampage through India, slaughtering inhabitants of villages and stealing their possessions.

He began with Bhimnagar, slaughtering literally every single inhabitant of the village which numbered over 50 000. He emptied the homes and Temples of all valuables before burning them to the ground. He also stormed on Mathura, slaughtering all inhabitants and stealing all valuables. Before he left, he entered Mathura’s most sacred Temple, ordered his troops to take note of the architecture so that he could duplicate one exactly like it for his alien Jewish “god”, and then ordered that it be soaked in naptha and set alight. Note the utter arrogance—stealing the architectural design of the Sacred Temple and then destroying it.

At Somnath, he killed 50 000 inhabitants and once again looted the homes and Temples for valuables and burnt them to the ground. There were many other villages that he seized and raised to the ground, and when he did not slaughter an inhabitant, he kept them to be sold as slaves. His greed for money and material possessions was so profound, yet not a cent of his wealth came via honest means. He ended up as one of the richest rulers in history because of the huge amounts he plundered from villages in India and money he made off of selling the captured Pagans as slaves. In turn, he also became one of the most prolific slave traders in Arabia at the time. It was also recorded that each time before he led his troop of barbarians into a village to begin a
massacre, he knelt and prayed to his Jewish-alien god ‘Allah’. This schizo-murderer and kleptomaniac was later canonized as a ‘saint’ in Islam and is still revered as one of their most beloved leaders. Go figure. The sicker and more twisted you are, the higher status you will have in Islam.

Many of his successors followed his shining example, gathering their wealth by no means other than pillaging villages and slaughtering their innocent Pagan inhabitants.

The Ancient City of Delhi was stormed by a Muslim tribe from Afghanistan called the Ghuri in 1186. They slaughtered the best of the inhabitants to destroy its livelihood, and the rest they kept as slaves. They trashed the Ancient Temples, smashed statues of the Gods and burnt literature, before seizing the Palaces and taking up residence in them. From here, they distributed the stolen wealth amongst themselves and enforced Islamic rule by pain of torture and death. Here, an estimated 50,000 Pagans were chained into lives of slavery in the land they had once called home. It is recorded that 100,000 more were slaughtered.

One of the ‘Sultans’ of Delhi, Bulban’s favourite pastime was to have Pagans and others who refused to convert to Islam, trampled under the feet of Elephants, their skins removed and had them stuffed with straw to be hung from the Palace Gates to set an example to any who were thinking of standing up against Islam.

Sultan Muhammad bin Tughlak was so brutal and enjoyed slaughtering Pagans so much that he was known for having a pile of dead bodies outside his court every single day. It was so bad that his workers complained of being exhausted from transporting all the corpses every day. He also killed a young boy who dared to rebel against him and his Islamic rule, and proceeded to force feed his flesh to his mother and family. A blind man once defied one of his orders, and he had him dragged behind a horse ridden from Delhi to Daulatabad, so that only one leg remained of the man when the journey had ended.

Needless to say, this horrific pig is now considered a hero in Islam. To any normal person, he would be considered an abominable savage of the worst kind, but in Islam he is considered a saint.

Bengal was later besieged under the rule of Sultan Firoz Shah. He offered a huge monetary reward to anyone who killed a Pagan. Better yet if it was done brutally. 180,000 Pagans were killed by Muslim savages as prizes.

Sultan Ahmed Khah, his successor, declared celebratory feasts and parties that went on for 3 days every time the number of Pagans slaughtered in one day in any village in India exceeded that of 20,000. This was an incentive to encourage his bands of savages to slaughter Pagans indiscriminately. The Islamic world very literally celebrated every drop of blood shed by our Gentile Pagan People.

This is just the tip of the iceberg. A few examples of the bloodshed that took place in India under the rampage of Islam. Over 500,000 Pagans were slaughtered brutally in their own homes. Women were raped before being killed or taken as sex slaves. Children were slaughtered or sold as slaves. India was literally painted red with the blood of our People and the sacred Knowledge given to us as gifts from our Gods was defiled and burned. All in the name of Islam’s Jewish alien god ‘Allah’.

The conquests of Egypt and Spain were just as brutal and bloody. Muslim conquests of Egypt led to the final and total destruction of the Ancient Egyptian People and their Sacred Pagan Culture. The sick state that Egypt is in today, rife with poverty, destruction and disease, is a direct result of the Islamic conquest. As High Priest Mageson has already written on, Egypt had already been targeted by the enemy from the inside, and had already contracted a cancer that was in the process of eating it away from the inside. This cancer was the Jews and their creation of Alexandrian Christianity. The Jewish program of Islam was the final nail in the coffin that sealed the fate of Ancient Egypt for good.

Anyone who knows the above and still considers Islam to be a religion of peace is quite simply either mentally unstable or an outright sociopath. Or both. Islam is possibly the finest example of the sick and twisted inner workings of the Jewish mind in action. A morbid obsession with torture, blood and death, paedophilia, rape and theft. This is what Islam is built on. A river of blood and tears flows beneath its foundation, and it is the blood and tears of our Pagan Gentile People!

High Priestess Maxine Dietrich as well as High Priest Hooded Cobra have written about the parasitic magick of the Jews, and how they use blood to feed their rituals. The same goes for fear. Fear is an exceptionally powerful energy. The Islamic conquests were literally a gigantic blood sacrifice ritual, dedicated to the Jewish Thotform ‘god’ Allah.

It cannot be stressed enough, the importance of fighting against this vile program, and working to expose it
before the eyes of our Gentile People, for what is truly is! A death machine.

Much more will be added to this article over time. As I said, this is only the tip of the ice berg regarding the bloodshed caused by islam.

Please make our People aware of this!

We must stand and fight against it for the memories of our Pagan Ancestors that were so brutally slaughtered because they refused to convert to the jewish filth of islam, for the future of our world and for the Truth of our God Satan!

Comrades, Satanic Warriors and Forces

The Age of the enemy is setting. Slowly and steadily. All of you might not see it now, but it is coming. And not on its own, not without good reason. It happens through our combined effort. We are building this with our own toil, labor and vigor. We are reviving and bringing back to life a Reverence well lost. A Reverence that has been hidden and attempted to be murdered. The only things of Worth that mankind has created, some individuals who name themselves "Jews" have brought down to ruin. They now stand blamed and revealed for all they have committed. Nobody, nobody in this World has committed so many evil and atrocious acts.

The hand of no other Race of beings, in the whole planet, has been behind all these monstrous deeds. Nobody has produced so much massive misery, anguish and destruction. It is time the accounts are settled and the criminals are brought to Spiritual Justice. Nobody talks. They are all afraid. They are ruled by fear, fear is their ruler, fear is the Jews. I am not ruled either by fear or by Jews. I am ruled by the One, who calls Himself Satan, and so are you. We know not their masters. They are the fathers of all lies, fear, ignorance and pain. They have always been hiding, but now, they stand revealed. Revealed for all the wrongs they have committed against unsuspecting folks. The blood and extinction of whole folks, seas of blood, these are all in their hands. They are bathed in seas of blood, deception, lies and scourge. And this scourge can never be washed. It will only eat them alive. They think they can shut the Eternal Eyes of Justice, but Satan well observes. Satan well sees. And Satan well prepares.

The suffering is spreading itself every moment nobody fights to reverse this. Every moment someone fights, it gets lessened. Every hour, more people drop dead. For ages and aeons now. People that should have had the chance to live and the chance to reach their potential. More lives are being lost. People who are "alive", they are living dead. Empty and devoid. More Souls are being devoured by the Jewish monstrosity. Purposelessly. Simply and merely because, some parasites can only survive that way. Simply because, some enemies from out there, declared it so.

The enemy leads all their forces so they can achieve their final end. World enslavement. A world that will be long gone and will have zero beauty. A world where no Soul will be wanting to come. A world where everyone will be enslaved. A world where evil has reigned over good. A world that even the most sick of imaginations cannot bring into shape. Other than the Jewish one, no imagination can bring this in place.

Races that have been created in millions of years, the enemy wants to assimilate. Countries and states that have been built on endless lives of labor, the enemy wants to drag down and destroy. Freedoms that have been won by seas of blood, tears and anguish, endless revolts, the enemy wants to render like these never happened. Knowledge that has been accumulating for hundreds of years, the enemy wants hidden and gone. Ages of Glory they want to destroy, Dark Ages like the Middle Ages they want to revive again and bring to life. Traditions, Religions, all these mean nothing to the enemy. Life itself has been replaced by a web of Jewish lies. All these have been replaced with programs. Creations have been created into monstrosities. Love has been created into hatred and slavery. Freedom into bondage. Reality into illusion. Truth has been bathed in lies. The eyes of people have been shut spiritually and mentally. We are living in the age where all indicators show that humanity has been lost in itself.

But nothing has been lost. We are here for them all.
To look all this in the eyes requires amount of bravery that is beyond what can be counted or perceived. Most people will freeze at the sight of this monstrosity named “judea”. Countless souls have been bent in front of this terrific monster. Countless bodies have dropped dead. Many souls have been bound and severely tortured by this slaver authority. And to look around and see all this monstrosity has created, it can fill with terror the weak.

But what can shake and move the hearts of the Brave? Those who in themselves and in their respective Blood, they do carry a legacy? Those that once conquered the Worlds and once saw their Empires? Those who have seen in their minds and underwent what most cannot even imagine? The Souls in which resides both the greatest, the most FATAL FURY, but also, the most Exalted essence in Man? The Souls of those who still retain the Memory of the Great One, our Father and our Gods. No force can bind them. For they are free. No legions can move them, for they are one legion on their own.

In this world of fallen sheep, we Satanists come forth and declare ourselves Masters. Masters of Ourselves. We will guide people to freedom and safety. This World Belongs to us. This World belongs to those, who seek a Greater and Free future for it. Those who that in themselves have banished the darkness.

We are here to reclaim what was once great and now, seemingly rotten. We will sharply and with deadly fury cut through the veils of all these illusions. We are here to restore this World to mighty Greatness, Justice and Pride. We are here to destroy all the lies of the enemy, restore all deception they have caused. Wipe away the tears of the Souls who are suffering in all this. Open the eyes of the Blind. We are here to fight for the New Golden Age. We are here to take the heat and save everyone. We are their Saviors, because we are Saving Ourselves. We are here to destroy, create and create again.

Fate and Satan’s Divine Providence has chosen us. We may stand outnumbered today, but one day soon, we will conquer the World. The forces of ignorance and of the enemy, they will fail. Our Ancestors from all over the World have written this. The Truth shall defeat the Darkness. And I believe in Them. I believe in Ourselves. They inscribed this everywhere, but above all, in our Blood. Inside yourself lies your Divine Mission. They have handed us the Divine Torch. And we must run with it. We must run and never look back. We will run, fight and if needed, make the greatest sacrifice.

We may be outnumbered now, but believe not in Illusions. What are millions of sheep worth, for one God? What are billions of lies in the Face of ONE Truth. We march forward and behind us march uncountable Souls. Souls of those who have been beaten down, wronged, defamed and attacked and destroyed. Behind us and inside us, Marches Divine Legacy. Our Comrades from all Ages and times, they march among us and also march with us in Spirit, and many might not see it, but they are Here. They are Here with Us. The Forces and Powers of our Side, those aligned with us, they are far vaster than the Force of Fate herself. We are Stronger than our enemy. Let this materialize in all Worlds. Let everyone know that the Masters are here, to save these befallen lands.

So I ask for your Faith, Fanaticism and Loyalty. I ask for you to carry this Divine Torch named Satanic Truth. I ask of you, to never give up those who never gave you up. TO NEVER BEND. TO ALWAYS, ALWAYS FIGHT. To not accept a world of slaves, a world shattered. To let from within yourself bloom the long forgotten gardens and flowers, who the enemy says are lost dreams. To show them, that these are not dreams. That these are realities. That all these things are alive, that they are here. To show to all of those who look at you as an animal, that you are a God. I ask for you to See, what you were made to See. To Feel, what you were made to Feel. To touch the greatness you were made to touch. The Truth.

I ask of you to demand this. To drag down all the agents of lies. To ground them and run them over spiritually. Nobody ever told you that, YOU, that YOU Possess the Power? That in your Hands do lie the forces of Fate? That its your responsibility to wipe the darkness from this World? That inside you, rests Satan and He desires to soar away all the lies and illusions of our enemies?
I ask you to open yourself up to the Source of All Human Greatness. The Higher Truth.

And let your mighty fire explode from within you. I ask for your stand against all these chains, maims and bindings the enemy has attacked our World with. No matter who you are, you are now made Divine, if only so you choose. You asked for Satan's hand and Providence, now you must take it. You must elevate yourself.

Seize your chance to fight against the Rot and Darkness. Seize your chance to destroy the World's Greatest Evil.

Here is how:

Koran And Holy Bible Are The Same

Full Proof that Christian Leaders of both Europe and Russia are fighting for Islamization and White Genocide

There is such shit as a "Three Faiths Forum" out there in the net. Just type it in the search and a jewish paid crap of tolerance and muliculture will
This thing is aimed to mix and destroy Races and cultures, while using the obvious similarity of those three rat faiths, which are all Jewish Torah in the core. Articles below exposes well how all differences between so called "three faiths" are fake, and this fact is admitted even by their own leaders. If one read bible and coran together without being blind follower of any, they would probably think that one copied pasted from another, so alike they are. First kikes invent stereotyped Jewish religion for different Races and call it different hebraic names, than they force these Races to fuse with one another, using this "similarities of 3 faiths" to destroy last differences and unic traits of their original cultures which are Pagain and NOT alike from the begining. These "three faiths" are not three but one rat faith - Judaism. This is the reason their leaders work together.

"Pope Benedicts XVI's (not a Jew himself as I was informed but definitely with obvious ties to Judaism and to the Jews, this is obvious considering his numerous efforts to unite Jews and Christians) visit to Jordan in which he was invited into the largest mosque in the country, where he made the statement that he has deep respect for Islam. He also gave a speech on the importance of Muslim and Christian unity - High Presiess Zildar Raasi

Pope Expresses 'Deep Respect' for Islam at Beginning of Mideast Trip
http://www.haaretz.com/hasen/spages/1084185.html

"Pope Benedict XVI began a delicate trip to the Middle East on Friday by expressing "deep respect" for Islam and calling for a three-way dialogue of Christians, Muslims and Jews to help peace.

He said that peace efforts were often blocked by partisan interests and that the Church could "help reasonable positions bloom" and that it wanted to engage Jews and Muslims in a dialogue for peace.

"A trilateral dialogue must move forward. It is very important for peace and also to allow each person to live his or her faith well," he said."

Pope Francis: "Koran and Holy Bible Are The Same"
http://www.haaretz.com/hasen/spages/1084185.html

"Pope Benedict XVI's visit to Jordan is expected to be characterized by the cultural and religious significance of the country and its Muslim-majority population. The visit is the first by a Pope to Jordan since 1999, and it comes at a time when the region is facing a number of challenges, including political instability and the ongoing conflict in Syria."

Pope Benedict XVI's Visit to Jordan
http://www.haaretz.com/hasen/spages/1084185.html

"Pope Benedict XVI's visit to Jordan is expected to bring a message of peace and unity to the region. The visit is seen as an opportunity for the Pope to meet with leaders from Jordan and to discuss issues such as the ongoing conflict in Syria and the need for a two-state solution for the Israeli-Palestinian conflict."
News Pope Francis says: Koran And Holy Bible Are The Same

"On Monday the Bishop Of Rome addressed Catholic followers regarding the dire importance of exhibiting religious tolerance. During his hour-long speech, a smiling Pope Francis was quoted telling the Vatican's guests that the Koran, and the spiritual teachings contained therein, are just as valid as the Holy Bible.

Jesus Christ, Jehovah, Allah. These are all names employed to describe an entity that is distinctly the same across the world. For centuries, blood has been needlessly shed because of the desire to segregate our faiths. This, however, should be the very concept which unites us as people, as nations, and as a world bound by faith. Together, we can bring about an unprecedented age of peace, all we need to achieve such a state is respect each others beliefs, for we are all children of God regardless of the name we choose to address him by. We can accomplish miraculous things in the world by merging our faiths, and the time for such a movement is now. No longer shall we slaughter our neighbors over differences in reference to their God.

The pontiff drew harsh criticisms in December after photos of the 78-year-old Catholic leader was released depicting Pope Francis kissing a Koran. The Muslim Holy Book was given to Francis during a meeting with Muslim leaders after a lengthy Muslim prayer held at the Vatican.

St. John Paul II has courted several controversies since being elected as Pope Benedicto XVII's replacement in 2013. Francis has gone on record to say that homosexuals are not to be judged, Proselytism is nonsense and has endorsed the usage of contraceptive by Catholics.

The Vatican will meet again with Muslim leaders in late February where they plan to talk about further steps that can be taken to spread understanding and awareness of the Islamic religion."

In middle Ages Vatican was the centre of White genocide known as Catholic Inquisition, which attacked same European countries muslims attack now under the same protection of Catholic Pope for the same reason of destroying our original Pagan Religion:

Pope demands more Europeans dead
http://nojew.weebly.com/pope-demands-more-europeans-dead.html

Nowadays Vatican lost its Middle Age power, instead it is helping more powerful enemies of the White Race such as Communism:

The Catholic Church Working With Communism
Catholic Pope Receives Communist Hammer & Sickle on top of Crucifix as a Gift
http://deathofcommunism.weebly.com/catholic-pope-receives-communist hammer.html

Pope says Communists are Closet Christians

It is known fact that while Vatican helped Soviet Jewnion against Nazi during WW2 while Nazi was trying to infiltrate and overthrow Vatican while cleansing their own country of christianity:

Reinhard Heydrich and his Work to Destroy Christianity

Newest historical investigation shows the same - Pope helped Soviets:

What the Vatican Archives Really Say About Pius XII
http://www.newoxfordreview.org/reviews.jsp?did=0200-cavalli

"During World War II the Vatican publicly maintained its impartiality between the warring powers. This attitude often angered both sides. However, the Vatican often violated its own impartiality. For example, in the early months of 1940, the Pope acted as an intermediary between the British government and a group of German generals who wanted to overthrow Hitler. Unfortunately, the conspiracy never went forward.

Critics of the Vatican such as Saul Friedlander and Guenther Lewy often explain the Pope’s silence by suggesting that he saw the Nazis as a bulwark against the Soviet Union. In fact, Pius XII indirectly assisted the Soviet Union during the war."

Let us see what side Vatican takes in nowadays jew-owned immigrant war against White Race of Europe:

Pope Francis brands rejection of migrants 'an act of war'

Pope Francis has called the rejection of migrants fleeing violence an act of war

Speaking to a youth group, he said the situation where desperate migrants were bounced from country to country seeking shelter was an unresolved conflict... and this is war, this is violence, its called murder

The British government has been particularly criticised for its handling of the migrant crisis in Calais as people, some of whom who have already made the dangerous Mediterranean crossing, attempt to board trains and lorries travelling through the Eurotunnel.

Prime Minister David Cameron in particular was called "racist" by the Deputy Mayor of Calais for calling the migrants "a swarm".
He said the comments showed his "ignorance of the situation".

Foreign Secretary Philip Hammond caused further controversy on Sunday when he told the BBC he believed "marauding" migrants threatened the British "standard of living". Amnesty International condemned the remarks saying they were "mean spirited" and "shameful".

Let us look why British Delegatory is so "mean spirited" and what is the situation he shows such an "ignorance of":

https://www.youtube.com/watch?v=rAx_1X2n_EM

Pope does not only scorns European governments for not letting more muslim rapists and cannibals in, but settle immigrants in his own Vatican and giving them expensive gifts at the expense of Europeans. My note: Vatican is one of those regions of the world that never pay any taxes, never report to anyone of their real estate, sourses and what they are really funding in. Read more:

Exposing the Christian "CHARITY" Racket: Billions and billions of tax-exempt dollars are allocated to advance Communism
http://www.exposingchristianity.com/XianCharity.html

"In June, the Pope said countries that turn away migrants would need to seek forgiveness from God for their actions.

In his weekly audience in Vatican City he said: Ê invite you all to ask forgiveness for the persons and the institutions who close the door to these people who are seeking a family, who are seeking to be protected.Ê

In 2013, he gave Christmas presents to 2,000 immigrants in a shelter near the Vatican.

Each of the gift packages sent to the Dono di Maria shelter in Rome contained a Christmas card signed by the Pope, a pre-paid international calling card and a free day pass on the metro in Rome.

Now there is an illusion going around among White Nazi society that Russia is somehow a "last harbor" of White Nazism and kike Putin with his “Rusian Christian Orthodox Church” are somehow keeping Russia "racally clean" and away of Cultural Marxism and other bad "Western" influences. This is kike racket, look here:

Putinism: communism of the 21 Century
http://deathofcommunism.weebly.com/judeo-putinism.html

In fact kikes try to make out of Russia and China communist global superpowers Soviet Union was in 20 century to take over this world. On the territories of both Russia and China there were very Ancient Civilizations which were swept by barbaric non-White tribes many centuries ago, one of examples of such sweep away is known today as Chingiz khan's conquest. These countries are very Race- and Culture-mixed from the very Ancient Times already. From that Ancient point and till nowadays they have never been fully "White Nazi". That's why kikes found comfortable to
make out of them the seat of their communism - because White Racial elements there have been already subverted to some point. For detailed
information read here:

White Nationalist Delusions About Russia

Russia, China Hold Large-Scale War Games
http://deathofcommunism.weebly.com/russia-china-hold-large-scale-war-games.html

Now let us see what the institution known as "Rusian Christian Orthodox Church" thinks about Islamization of Russia.

https://www.youtube.com/watch?v=LEHF50oS-TM

"Future belongs to muslims" - Archpriest Dmitry Smirnov

This is clearly obvious how this Orthodox leader actually admits that xianity and islam has the same "god", they are just two ways leading to the
same end, just current followers of one way are a bit closer to this end (total White genocide) than followers of the other. But their both ways’ end is
the same. This is a spit into faces of all deluded fools who fought for centuries against each other over these two parts of the same abrahamic crap.

If we ask jewish rabbi, we will hear the same answer, word by word. There is no actually any difference between how they both (xian leader and
jewish leader) attack xianity for "straying too far" from their mutual abrahamic god, which is as jewish in muslim coran as it is in judeo-xian bible:

'Islamization of Europe a good thing' - Rabbi Baruch Efrati
http://www.ynetnews.com/articles/0,7340,L-4299673,00.html

"Rabbi Baruch Efrati believes Jews should 'rejoice at the fact that Europe is paying for what it did to us for hundreds of years by losing its identity.'
He praises Islam for promoting modesty, respect for God. Rabbi Baruch Efrati, a yeshiva head and community rabbi in the West Bank settlement of
Efrat, believes that the Islamization of Europe is actually a good thing. "With the help of God, the gentiles there will adopt a healthier life with a lot of
modesty and integrity, and not like the hypocritical Christianity which appears pure but is fundamentally corrupt," he explained."

As we see Russian Orthodox Church leaders fight for islamization of their countries as well as Catholic Popes do in Europe and the West - with
kikes at their side. And all this hype that xianity protects Race is total hoax admitted by xianity itself:

"There is neither Jew nor Gentile, neither slave nor free, nor is there male and female, for you are all one in Christ Jesus."
- Galatians 3:28

Btw the same Dmitry Smirnov is well-known for protecting human microchipping, FRID passport and all FRID spy technology. The same person who
fights for islamization and praises alien immigration, is fighting for Jew World Order and microship implants, which blatantly shows that islam, xianity
and zionism / human microchipping are interconnected and not "3 faiths" but only one:

https://www.youtube.com/watch?v=zOBPlMohkkq (Russian only)

"If there will be a FRID passport, I will be the first to accept it"

"Let them know everything. We have nothing to conceal" (about spying and datebases)

- Archpriest Dmitry Smirnov

Learn more about xianity working for Jew World Order:
Christianity advocates microchips

Jew Putin who in well-known protector of "religious feelings" and even created a law forbidding any "insult to religion" after Pussy Riot incident. Though the law did not specify what exactly religion it forbade to insult, it brought Jew Putin large support of Russian muslims as well as Russian xians. A lot of deluded White Nazi consider him protecting his country from alien immigration. Here is some research exposing this lie:

Some excerpts from "Putin is an enemy of Russian state" by A. Saveliev:

"I. Putin is an enemy of Russian nation

1. During 8 years of Putin`s reign, number of ethnic Russians in Russia shrunked by 8 millions. Annual demographic losses are the same as in 1990`s, when Yeltsin was in power and when Russia didn`t have huge profits from oil and gas export. Number of officially registered abortions is stable, about 2 millions per year. Quality of medical care significantly dropped, free state medicine is almost destroyed and substituted by commercial medicine. Vast majority of Russian citizens can`t afford it.

3. By changing immigration laws, Putin opened borders for millions of non-white immigrants. Many non-native societies were formed in Russian cities. They are terrorizing local indigenous population with help from Putin`s protégés, who hold all of the key positions in administrations and law-enforcing structures. All protests are stamped by illegal arrests and non-lawful court decisions.

4. Putin de-facto acknowledged an independence of Chechnya and the fact, that 500 thousands of ethnic Russians were cleansed from this region, and also gave amnesty for all bandits and terrorists, who fought against Russia. Some of the terrorists even received the Hero of Russia award, the highest award in Russia. Russian refugees from Chechnya didn`t receive any help, although ethnic Checnen victims of the war received and continue to receive tens of thousands of dollars per person.

II. Putin is an enemy of Russian society
4. Putin constantly visits social rallies of the Tatars, Jews, different diasporas of the Asian nations, but he never participated in any such event of Russian organizations.

5. Putin openly supports warm relations with Hasidí’s leader Berl Lazar. Mosques start to rise in core Russian cities."

Full research can be found here:

Jewish Owned Russia Marching Into Jew World Order

Al the above blatantly shows how this fraud crypto-jewish organisation called "Christian Church" despite of where it is and what false front it represents (be it "orthodox" or "catholic", Russian/Soviet or "Western") works for Jew World Order, which pushes both islam, xianity and communism all together serving one and only god - THE JEWISH RACE, and fighting for one and only goal - TOTAL GENOCIDE OF THE WHITE RACE AND ENSLAVEMENT OF EVERYBODY ELSE.

Thank you all.
I have been inspired and have learned so much from all of you especially the other HPs. I will always continue to study and grow.

I am very pleased to have started an official group for Blacks.
With the awakening of all gentile humanity, I know that the group for blacks will grow in numbers in time and the group will always be there for them for special support in guidance. I am very pleased at the information I have come across on the black race, it is very rewarded and liberating to know. Special thanks to HP Mageson who has been very helpful in introducing me to much advice when it comes to my study. There is so much to be found on the Black race and our Satanic origins.

I encourage all to continue to do much research on our past and to share in the groups. We are in this together.

I am glad to Announce that we have a New High Priestess in the Joy of Satan.

Shannon Outlaw has been ordained.

I am happy to announce, that she will be in charge of the Black Satanic Community. Now, all people of our members who are of Black Descent can join a group where they can work together and co-operate for the advancement of Satanism amongst their own people. This is a big step for all of us.

Also its to be stated that HPS Shannon also has a very useful group in regards to Health and Wellbeing. This is a place where people can conversate specifically about these topics, solve and advance in this Area.
Everyone who is interested owes to join the groups, keep them alive and flourishing as to develop Satanism, while they are developing under a Racial Banner, which is nevertheless, part of the Greater Satanic Banner we are all under.

Congratulations to our New High Priestess!

We march Forward!!!

Hi, All!

As some of you may already know, I recreated a new Black group because Yahoo is...well...we all know how screwed up Yahoo can be. Anyway, I created the new group and encourage all who already joined to re Join this one. The Link is under my signature, BlacksforSatan.

Even non blacks welcome because we all have something to bring to the table

Also, because of Yahoo changes, I was not able to make the group invisible to Non members BUT the group is moderated fully and the members list is only visible to me so there is privacy. Not much I can do. But it will go on.

Posts coming soon!

Thanks, Everyone <3
Hi, I really like to join into This group, I am looking forward to joining it, I feel like talking to brothers and sisters. thanks a lot for fighting our freedom!

Subject: [JoS_Astrology] ABOUT THE BLACK-AMERICAN/AFRICAN SATANIC GROUP 2
Birth time is noted as 12 noon, and looking at her chart for this time, it fits. 10th house stellium (prominent career) and Uranus on 7th house cusp (marriage to an intellectual, possibly genius), her husband was also a pioneer in his field of radioactivity.

Capricorn ascendant, chart ruler Saturn in 10th house of career, conjunct Venus and Mars. These three planets plus Sun (9th house) in Scorpio, the sign of intensity. Marie Curie was noted for working 16+ hour days in her lab until she was places in a sanatorium due to radium poisoning, shortly before her death at age 66. Jupiter square Saturn, workaholic with great potential for success.

Venus conjunct Saturn, misfortune and delay in love, she did not marry until age 28 (late for that era) and her husband was killed in an accident 11 years after marriage. She had an affair years later and was publicly humiliated and slandered in the press even though she was a widow. Her 10th house Saturn placement adds to her reputation suffering.

Sun in 9th house, higher education, travels far from home (born in Poland and lived in France). Educational honors, won two Nobel Prizes (shared one with her husband). She is the only person in history to win Nobel Prizes in two different sciences. Mercury in Sagittarius, life-long student. First house Jupiter, also with emphasis on education. Mercury square Jupiter adds to love of education etc. Pluto in 3rd house, obsession with knowledge and research.

10th house: Venus here indicates pleasant working environment, she and her husband worked side-by-side in harmony until his death. Mars here, intense ambition, obsession with work (working all day long, despite having 2 children). Saturn placement, hard work and perseverance. Mercury in 10th, her father also was intellectual, teaching physics and mathematics.

Venus conjunct Saturn in Scorpio, Moon in Pisces, and Neptune in 2nd house, all indicate poverty. Her parents lost their fortune and jobs in Poland. She and her husband refused to patent their method for isolating radium which would have made them quite wealthy. She also gave away most of her Nobel Prize money and other money given to her, to scientific institutions and friends and family. Her Jupiter in Aquarius explains why she didn’t want to patent their method, she believed scientific knowledge should be free and research unhindered. This placement, as well as her Sun trine Uranus, is also for individuality and freedom and rebellion, she was agnostic and married in a civil union to avoid a religious ceremony.

Transits for life events:

Uranus was transiting her natal Sun when she married. Leo intercepted in her 7th house of partnership, Sun is a co-ruler of that house. Jupiter was transiting this house as well. Pluto was transiting her 5th house (love affairs), inconjunct her natal Sun. Pluto transiting 5th when her first child was born.

Uranus was transiting her 11th house (goals) when she won her first Nobel Prize. Jupiter was conjunct her 2nd house natal Moon (1 degree exactly), Nobel Prizes have a monetary prize as well. At the time she won her 2nd Nobel Prize, Jupiter was conjunct her 10th house stellium.

When her husband died, Uranus was transiting her 12th house. 12th is the house of sorrow, natal Uranus on cusp of 7th. Not sure if this is an indicator, but it’s interesting to note. Also Saturn was transiting her 1st house, the worst time in one’s life.

At the time her affair (after she was widowed, but in that era it was still taboo) was made public, followed by disgrace, Saturn was transiting her natal Pluto, Scorpio on cusp of 10th house, 10th rules the reputation. She was slandered in the press.

At the time of her death, Saturn was again transiting on a late degree in her 1st house, conjunct her Jupiter. Jupiter rules her 12th house of endings. Neptune was in her 8th house (rules death). Neptune rules weakening and poisons, she died from years of exposure to radiation.
Benjamin Franklin was born January 17, 1706, in Boston, Massachusetts. Birth time originally 10:30am, rectified by a professional to 9:37am, placing Saturn in his 2nd house instead of 1st, a few other changes.

From my notes, I think the first time is more accurate. Saturn in 1st house, endurance and discipline, and this puts his MC in Capricorn, emphasis on his notable career and reputation. Also, with the original birth time, Uranus is trine his AC. Uranus aspects to chart ruler and/or AC is noted in charts of exceptionally gifted people. However, he also has Mercury opposite Uranus, another indicator of being highly intelligent. With the original birth time, his AC is in Aries, chart ruler Mars in 9th house of publishing, and he was a leading author and printer (opened his own print shop at age 17). Pluto in 5th (instead of 6th with the rectified birth time) much creative power. However, with the rectified chart, Uranus in 6th makes sense (inventors, geniuses, humanitarian work).

With the original birth time, his DC (7th house cusp, house of relationships) would be on the star Vindemiatix, marriage can be unfortunate (entered common-law relationship, unable to marry due to her being previously married to to a man who ran off with her dowry, anti-bigamy laws prevented her from remarrying). This star rules loss of partner through death, he outlived her by 16 years.

Benjamin Franklin has a yod in his chart. Yods indicate a fated life (see HPS Maxine's post on yods). His yod planets Moon and Venus pointing to Uranus, the planet of inventions, higher knowledge, revolution, freedom, progress.

Fire grand trine (Neptune-Pluto-Mars). Independent, self-starter, good for health (he lived to 85, much higher than life expectancy in that era).

Jupiter in Cancer, very patriotic (became president of America). Venus in 10th, enjoys being before the public.

Sun in 11th house (both birth times). Emphasis on friends, fairness, humanitarian nature. Enjoys leadership and belonging to groups and
organizations. Describes him perfectly. Mercury in Aquarius, innovator and inventor, interested in bettering humanity and change existing conditions, talent with science and mathematics.

Mercury is retrograde, perceives information and communications differently, excellent in research and details. Mercury square Saturn, not good for education, he only did a few years of formal schooling. Thorough and hardworking in regards to education and learning. Opposite Pluto, excellent concentration and investigating.

Moon at 4 Pisces (Deneb Adige), above average intelligence, money made through arts and sciences. Saturn conjunct Almach, popular influence, possible fame, prominent position.

Mars in Sagittarius, honest, loves travel (traveled many times to England etc), life-long student. Mars in 9th adds to this, as well as with my first paragraphs of authoring and publishing. Also, conflict with in-laws, the mother of his common-law wife would not let them marry, and married her to someone else while he was in England (that husband ran away with her dowry, never heard from again).

Moon in 12th house Pisces. Shyness, loneliness, sensitive, compassionate, psychic ability, active imagination. Inconjunct Uranus, unusual family life, had 16 siblings and a common-law relationship (common-law was not the norm for that era).

Jupiter and Uranus are retrograde, freedom, rebellion, spirituality, intuition. Pluto is also retrograde, inner intensity, do-or-die attitude.

Normally I'd be including transits for life events, but none of my ephemerides go back that far and I'm short on time today.
To keep this group active, and to initiate conversations based on astrology charts, I will be doing charts on notable people and posting them. I invite anyone else to join in.
I’ll be focusing on natal charts and transits happening during notable events in their lives, and as well anything relating to their deaths (if deceased).

People included: Famous scientists, nobility, artists, actors, inventors, etc. I’ll be choosing charts randomly, on whim, or by request.

These readings won’t be very long, and a lot will probably be in short hand (note) form, simply because I’m not getting paid to do them, lol. This is purely for research, practice, and because I like knowing what makes people the way they are (psych major here).
Thanks, HP Cobra :) My natal chart readings are usually quite a bit longer, but I'm hoping other people who are interested in learning will chime in with anything else they see.

Dear, it is not 'Curie' but Sklodowska (Curie is after her hubby, but she was Polish - and many use Pierre's surname, instead of her maiden one).

She was a workaholic "screw the harsh conditions, as long as I can work, it is okay". There was cold in her lab, and although she COULD light the fire, Sklodowska couldn't care less about it.

SCO VE - she was promiscuous, or at least had many lovers. Oh, and I don't know if the following account goes to Venus, BUT so strong was her love towards Pierre that she used to touch (caress?) the suit her husband died in - obsession? Definitely - a stellium in SCO is clearly visible.

I used the name she is known by. And she used both surnames together, not just her maiden, if you want to get technical here. But I agree that I should have included it anyway, I'm surprised that I didn't.

I didn't think it was necessary to remark on her sexual life and possible fetishes, but as she had a Scorpio stellium including Venus and Mars, then I agree that she could very well have been promiscuous, but didn't think it was relevant or important. Feel free to comment on Benjamin Franklin's sex life as well, as I posted his chart and you seem to be interested in pointing these things out. But as the purpose of me doing this was to initiate astrology discussions, then I am glad someone joined in :)

Aquarius AC, chart ruler Uranus in Leo, along with Sun and Mercury (not a stellium though). Western hemisphere emphasis, need for others in his life. Southern hemisphere (6 planets), social and outgoing.

Chart ruler Uranus conjunct star Alphard: Lack of control (current world leaders are puppets of the jews), unethical, subject to imprisonment and tragedy. Moon is conjunct Hyades: greedy, excessive nature, exploitative of others, can be tremendous success but can cause one's own ruin. Saturn conjunct Terebellum: greedy, scheming, shrewd. Jupiter conjunct Altair: sudden wealth, position of high command (president of America). Mars conjunct Denebola: honors and wealth (won Nobel Peace Prize, two presidential terms), disgrace. North Node conjunct Regulus: often obtain high positions of power, success, leadership ability, but possibility of disgrace and disastrous fall from prominent position.

Sun in Leo: leadership ability, loves to be in public eye. 6th house, workaholic, needs to be of service to others and to be noticed for their work. He worked in the inner-city of Chicago helping the poor get education and training needed for better jobs before he went to law school. His only Sun aspect is to Neptune (square). Neptune weakens- confusion about the self. Hard Sun-Neptune aspects can indicate a weak father, his father abandoned the family when he was a young child.
Mercury in same sign/house placement, loves being center of attention, talent with speaking and lecturing before others, continuous study for work/career. Mercury semi-sextile Venus, sextile Moon, opposite Jupiter: personal charm and charisma, sense of humor, talkative, inspiring others through communication. We can see why many people voted for him in the elections. Mercury square Neptune, excellent liar, dishonesty, deceptive.

Obama also has aspects indicating much travel in his life; he was born in Hawaii, lived in Indonesia, travelled Africa, and has traveled much more since becoming president.

Moon in 4th house Gemini, talkative, moves many times throughout life, excels in all types of communications, wide variety of friends, strong need for a family. Moon trine Jupiter and Saturn, and square Pluto: mother is a strong influence in his life. Jupiter indicates good relationship with mother, Saturn indicates bad relationship, Pluto indicates domineering.

Venus in 5th house, a need for love and romance. Generally well liked, popular (again, he did win 2 presidential elections). Venus trine Neptune, very creative, compassionate. His Jupiter-Neptune aspect also indicates much compassion for others, and creative talent.

Mars in Virgo, very hygienic and tidy, hard-working, reliable and responsible. Mars square Venus and Mars in 7th house, not good for relationships. Possible violence, especially with Pluto in 7th house. Pluto here indicates jealous partner.

Neptune in 9th house is often seen in those who travel for spiritual purposes where much can be learned. Obama traveled through Africa to become closer to his racial heritage (his father, from Kenya, had left the family). He later published a book regarding this.

Jupiter and Saturn, conjunct in 12th house: powerful imagination (Jupiter square Neptune adds to this), good for meditation but prone to depression. Jupiter in Aquarius, happiest when belonging to groups and with friends, interested in betting humanity and social reforms, progressive. Jupiter conjunct Saturn, heavy responsibilities, potential for great success through hard work and discipline, workaholic. Saturn in Capricorn, professional success through hard work and effort, workaholic, practical, dependable, reliable, responsible, talent for business. Cares about his reputation.
Transits for life events:

When Obama was 10, his mother sent him to live with his grandparents in Hawaii, his mother was living in Indonesia with her new husband. Saturn was transiting his 4th house Moon. The Moon rules the mother, 4th house rules domestic scene. Saturn here, separation.

Pluto and Saturn were transiting his 8th house (death) when his father died. Pluto rules his 10th house which rules the father, and Saturn rules death. Uranus was transiting his 10th house as well, and Uranus rules the unexpected. He did not have contact with his father, his aunt was the one who informed him of the death.

When he was elected to state senate, Pluto had recently entered his 10th house. Uranus was conjoining his Jupiter, Sagittarius on cusp of 11th (groups, goals).

When his first child was born, Pluto was opposite his natal Moon, Gemini on cusp on 5th house. Pluto to Moon is common for change in domestic scene and someone being born, 5th house is one’s children.

At the time he was elected as president of USA, Pluto was transiting his 11th house — obsession with goals and ambitions, possibility of being placed in a position of power. Transiting Pluto opposite his natal Venus, inconjunct his Moon and Mercury, trine natal Pluto (rules MC in Scorpio). Jupiter was also transiting this house (semi-sextile his AC), and Uranus transiting his 1st (changes in life).

When he won the Nobel Peace Prize in 2009, transiting Jupiter was conjunct his AC, Pluto still in his 11th.
Pluto was still in his 11\textsuperscript{th} house when he was re-elected president, inconjunct his Moon and Mercury, opposite his Venus, semi-sextile his Jupiter, trine his natal Pluto (rules Scorpio on his MC). Transiting Uranus and Saturn were also making aspects to all these planets. Transiting Jupiter was trine his AC.

Adolf Hitler and the Nazis really did CARE about the people. This is a first thing to look on your so called "Authorities", on if they are your òAuthorityò or not. Do they care about you? Do you really matter to them? Do they help you out? Do they make your life better and easier? Do they have any underhand òwillsò do they steal you freedoms or they make you free? Etc.

As for Hitler and the Nazis. They started, fought there, started and ended with the people. Hitler repeatedly stated òI started like every one of you, as an unknown Soldierò. He was still, this Unknown Soldier. He fought, lived and charged forward like this Soldier. On all His meetings with the officials of other countries, they reported how humble he was. He was even humble in the way that he ate. He never ate too much, or abused too much of anything. The Nazis never stole money for their own personal interest. People stopped being hungry in Germany, unemployment stopped, perversions like drugs and other fatalities also stopped, forever. People had titanic freedoms that up to this point were unknown to the World contrary to what the enemy states. The enemy always makes the bluff that oh my, people didnòt have what people do today. Obviously. Since is it was like, 1940. Times advance, people advance, everything advances. Germany had begun this very good.

These include a car for every working family, so they could enjoy themselves, at a very cheap price and affordable for anyone. First, the freedom to survive, live and be healthy, which is robbed by these so called òCountriesò nowadays. Then, the freedom to exist. To exist in a team with people, to serve and give what you are able to give, without being harmed and pushed into an unfamiliar direction. For once, children and people were asked what they WANT to do, what is their VOCATION to become. They didnòt do this merely to survive, as things are nowadays. People worked for other people, for the wellbeing of anyone else, including their own. This is the stolen meaning of communism, where the enemy manipulates the masses to be slaves to the jews. Only, that in this case, this TRULY happened. The jews know the power of this thing and they manipulate this. The fruit of their work they could receive, it wasnò stolen by some jew òup thereò or some other òphantomò

But the jews destroyed our Satanic Nation before it had flourished. Its well known that the Bolshevik Russia would attack and was preparing for attack, 3 weeks after the invasion of Hitler. Hitler just attacked first. Also, Hitler invaded Poland because the Germans in Poland were being terrorized, attacked and tortured by the natives. Who knows what jewish seeds orchestrated this thing. Whatever war Hitler waged, he spared the lives of as many soldiers as possible. Hitler didnòt let the army exhume their hatred on the ordinary people, in anyway, shape or form. The Red army was called the òrapist armyò. You can
The Nazis, they were part of the people, came from the womb of the people and they were too part of the people. The people had weapons, they could complain and anything else. Hitler didn’t go in front of all His people, with a 30 cm bullet proof glass. He went there in the open. The time of the Nazis was a time of the rule of the people, and the enemy halted this especially for this reason, because the people were building something for themselves. Hitler always credited the people who were with Him, around Him and the people of His own Nation, all the time. Not in word, but in both word and deed. People had guns in Nazi Germany, now the “authorities” are confiscating everything.

Hitler cared for people. He cared for the people to be strong enough to survive. He cared about how the people see one another in His country, how man and wife live together, what was the future of the Children of people. This included all Gentile people, but Hitler’s hand could only reach that far. The enemy made sure to attack His government since the first day, and manipulate all the decision centers against him. He cared for the hearts of the people. He didn’t care first for the „money“ the „honors“ and anything so low. His professional costume was the costume of the Party. He didn’t own hundreds of houses, make a huge bank account, destroy his country and leave it. He stayed there until the end. He cared enough place His life in the frontlines, to take the responsibility, to take the toil, to take the deprivations that came with it, to take the sleepless nights, to accept the worst calamities that hit him in his younger years. Hitler didn’t have it easy. The whole of Hitler’s life was a battle, against enemies seen and unseen. The same goes for all Nazis and anyone who takes the path of the light, in a world so dark and devoid of Truth.

These are the Authorities one should take in mind, not all these jewish psychos that people have in their minds. Authority always comes with exceptional responsibility. Responsibility means pretty much the sacrifice of personal freedoms, many times in the extremes, to even totalities. Authority is about the wellbeing of the people who are being guided, not about the one doing this. This man most likely has it the hardest and suffers the hardest.

Lastly, I wanted to state something else. Nothing of the above can happen without love. His love for people of the World was enormous. He didn’t affirm big words on honesty or anything else, his actions spoke of himself. Contrary to the lies of the jews, Hitler also was GENUINELY interested about people of all Gentile Races, the preservation of their culture and their deep betterment- down to the roots. This is why Hitler projected the messages he projected to people. He tried to literally bring down the Bolshevik and jewish bankers, all these oppressors and devourers of Human life and flesh, who are rooted in the jews. He tried to destroy the lies of xianity, who are bringing the Souls of Humanity down the pit of doom, since these religions are based in lies, bias and are devoid of scientific knowledge.

Hitler’s beliefs and policies were largely dependent on Science, physical and metaphysical. If you read in all his writings, he was obsessed with scientific exploration, which shows in fact the Natural Order. One of the things he was very displeased about, was the halting of science, which kept the whole of Humanity back. Hitler believed that science is the doorway to the unexplored regions and infinity. Satanism goes hand in hand with science. It can be known or unknown, but more and more is being discovered. Spirituality will be eventually understood, if the jews leave science be and stop being materialist crap.
and forcing science to serve their demands, or alter the outcomes of it. Spirituality will be proved/discovered as a legitimate practice. It already has to a degree, and this is going thankfully to become better. It nevertheless, produces outcomes, whether one believes or not, given its done right.

But the jews destroyed our Satanic Nation before it had flourished. Its well-known that the Bolshevik Russia would attack and was preparing for attack, 3 weeks later, than the invasion of Hitler. Hitler just attacked first, to avoid further losses. The above knowledge was of course, hidden to the public, but the hidden records in the USSR showed this. Also, Hitler invaded Poland because the Germans in Poland were being terrorized, attacked and tortured by the natives. Who knows what jewish seeds orchestrated this thing. Whatever war Hitler waged, he spared the lives of as many soldiers as possible. Hitler didn’t let the army exhume their hatred on the ordinary people, in anyway, shape or form. The Red army was called the “rapist army.” You can figure out the rest.

The people of Hitler fought a war, outnumbered, they suffered, and they suffered great losses, deprivations, millions of deaths. This is why, the people loved Hitler. They loved Him after the end of the war, in peace, during the war, in this life or the next life. You could see this in His rallies, the smile on their faces, their loyalty. They loved that He was honest. They knew who they were following, and who followed Him, knew Him. He wasn’t elected and then, disappeared, like all these puppets ruling today. They went and died in the frontlines with a smile in their face, knowing that their Führer too would die, one more time, at this moment of theirs. How many people can honestly say this nowadays? Who, if anyone, feels anything very positive to this depth, about who leads them? Hitler didn’t die once, no, never did. He died millions of deaths, for every one of His own people.

Hitler CARED for his people, but also all people and humanity. This is why these people fought against jewish Bolshevism and Communism, which are the blueprints of enslaving Humanity under the jews. Read some history, learn the Truth, stop being a Goyim and believing what your jewish farmholders have to state. Seek the Truth.

A note on his Sun-Neptune square. Neptune being the planet of deception and the Sun ruling over his father can indicate and absent father, but also confusion as to who the real father is. I believe his real father might be frank marshall davis, a communist who looks much more like him than his supposed Kenyan father. The Jupiter-Saturn conjunction in the 12th can also give some serious skeletons in the closet, especially since Saturn is in negative aspect (inconjunct) to his chart ruler Uranus.

If there are any questions you have it's just to state them in this group. Also remember to never give out your personal information. And not your date of birth or time of birth. As there are infiltrators here, and with a natal chart it's easier to curse someone.

Yes of course! His chart is first on my to-do list. I had some problems with my laptop and then I had some work to do, so over the next few days I'll be able to do more charts for here :)

Greetings to all our Comrades and Family!

It's been a while I have been thinking to make this post, which is about nobody else but Father Satan.

You know, Satan really loves Humanity. He doesn't love Humanity from somewhere afar, he doesn't demand a return of this love, he loves Humanity both as a concept and a whole. He doesn't ask for endless worship, he really is Nature's finest. He doesn't want His "ego" filled. He is only interested in our wellbeing, happiness and ascendance as species and peoples, on a personal level. Satan loves perfectly and also, hates perfectly. He does this both in accordance to highest principle. Even His name, means the highest principle in existence, to be ever conceived by Humanity: Truth. This is what Satan personifies and is.

Nowadays, we know this being as Satan, which is stolen from the Sumerian root of "Satyan" which means "Eternal Truth". Stolen by the jews, that is, and perverted into the exact reverse. In any other culture, He had other names. He had though one thing in common with everything. He was the loving, powerful and defiant Creator God of Humanity, the Gentile people, the establisher and teacher of civilization. He was the one who gave us knowledge and consciousness so we can be conscious beings and not animals, in all these cultures. In just one alien sub-culture, the one of His sworn enemies, His name ended up to mean "Adversary". Adversary is what the Truth has been made to these people, but this is a whole another matter. In just one "culture", which is nothing but an amassment of everything that is stolen from everyone else, Satan ended up as an evil being, the Gods who helped Humanity ended up as evil beings. This is the jewish, stolen and perverse pseudo-culture, that is nothing of relation to the whole of Humanity. These people literally state they are of "another g-d" and totally something unrelated to all other people.

But this was never the case. Now those of you here, you have made a brave step. Despite of what all this "society" and what the "ruling beliefs" were, you approached Father Satan, breaking the barriers of fear the enemy has created to enslave you. Something inside you told you all the time that what is being said about Him is total blasphemy and dishonesty. Something inside your own heart, knew the Truth. How this manifested in your choices and what motivated you to seek Him, or when you decided this, is another matter and falls under the core reason itself. What matters is that you have returned to Him.

Satan though was never absent and never was far away from us. Satan never made vain or fake promises or demanded anything of Humanity, other than to do what is beneficial and frees their Spirit and Mind. Satan asked us to become our own Gods, because He gave us this ability inherently in ourselves. His enemies have demanded us to be slaves, eternally damned and to return to the state of Soullessness- on top of these values and aims, all the creation they have created is shaped.
I know from within me that many of you here, you have been alone, you have been weak and frail, as this world strikes ruthlessly to break down everyone and put them under either subservience, slavery or to totally crush down their Soul. You have had a Soul in the midst of a Soulless world, a sense of Justice in a world unjust and of course, something inside you that was free inside this world of programmed slavery. Many even have been crushed to the point that they have been drained of even the Will to live. But Satan did not give you up, and He called you from within you. His call has a reason. Have you ever closed your eyes to listen to this reason, only to just feel it, only to just know Him? Without any expectations, without any desire to exalt one's vanity, position or anything other we have learned that "matters".

There are things that matter way, way more. What makes you an exalted creature has already happened: You embraced the Truth, in an age where the lies are ruling. This was a highlight in one's life and it should be treated with the same respect. For those who don't realize this, then, I have nothing but pity about their chained mind. As for others who have... We are all here moving defiantly against murderous and treacherous lies, steadfastly in the road of Truth. What motivates one deep down, but the love of Power, Truth and Light? Nothing else.

So many people say that Satan is about Darkness. While everything is under Him, including Darkness, so many do forget that after the Darkness, in the Magnum Opus, comes the Light. Satan is about this Light, eternal life. His title as Lucifer in all cultures testifies the same thing. So many enemies lie and claim of this, in the attempt to steal this from Humanity and confuse Humanity. They are investing their time in creating multitudes of lies, so that the people will be lost and never advance. They are attacking and blinding His Children in the attempt to harm our Creator, but because this is impossible, they just want to enslave what Humanity is capable of. For us here who know of Satan's Light, of Satan's love, everything is clear. We can see through all these vain promises, attempts and purposeless and unintelligent attempts of the enemy to enslave Humanity and its consciousness to an animal level. We can see the layers of this disgusting work. We can recognize its forms and our eyes have been opened. Above all, we have taken a decision: To Spiritually Act on What we SEE.

You know, the enemy supposedly, "owns" this world for this while. As Asmodeus stated, this time will be short. How many people do you see being totally happy and loved deep down? Supposedly, this world is created about "love". But there is no love in this world in any serious and higher level. Its just relations of exploitation, savior complexes, wanna-be and desires about it, songs about it, hymns about it, its blackened with victimization, sadomasochism and fear, subservience and slavery- this is the love the enemy is teaching Humanity all along. Where are the actions and the knowledge on how to love correctly? How many people you can see and state that the Light of Truth lives within them?

Obviously no being that belongs to the enemy is to be listed in this. In their eyes you can see only fear. Fear and lack of knowledge or consequence guides all their actions. Even the war these programed robots are waging against Satan in anyway, is a war because of the "fear" of "God" or plain our sadomasochism and fear of their own "survival", and the program that reassures it. Nobody can state the same for Satan's Warriors. Satan's Warriors fight genuinely and from the Heart. Satan has touched brave and strong men to tears and made them kneel to the ground from His overwhelming majesty. How many times has He sent His beloved Demons to help you out and raise you from the pits of everlasting darkness and torment? How many of you has Satan made better, healed and elevate yourselves?

Satan shows us His love. You don't need to believe in Him as this is beyond this relation. Satan wants you to have faith and conviction in yourself, for you are a piece of Him. He doesn't demand anything but of you to be happy, well versed, civilized and powerful. He doesn't offer anything but Power and Truth, which are centered within you. Satan is the Teacher of Teachers. Satan helps in moments least anticipated, in ways that most people cannot even understand
or see, or outright and blantly. Satan acts perfectly. Satan and the Gods are not dependent on "Our" worship, or anything of this nature. They are beyond this.

Even from all His enemies, which are so unworthy of Him, they all of course may doubt the existence of their "god" which is nothing but a low grade spiritual terrorist, but almost nobody is skeptical about Satan's existence. His love is not only some emotion or some sort of promise. Satan proved His love countless of times in History, with the epitome of it being that He helped elevate and ascend Humanity to a point that it will be able to stand on its own ground. Satan gave us the deepest depths of knowledge which is the Spiritual Knowledge.

Satan was the one who came down here and helped us implement this and put it into use. Satan is the one who gave Humanity the status to be more than Animals. And Satan's enemies are the ones who are trying to rob this from people. Satan showed us endless love. He loved us as we were and like a Father, He didn't focus on providing solely, but on making His children able to provide on their own, for themselves and their existence.

Despite of what is going on right now, in this befallen Epoch, Satan's name was once sung all over the world. In any Alias and any tradition, His essence reigned triumphant. His spirit was ascended and was giving eternal life to people. The people returned this love, not because Satan wanted this or demanded this, but because they felt as such. In my own dictionary, I love means I protect and it means I fight. Satan's enemies are the enemies of all those who have seen His honest heart and love. You already have the highest privilege a being can have, right in their hands. Satan doesn't just "love" anybody personally without a reason or a mutual return, but Humanity as a whole He is obviously defending endlessly. I can also tell you of one thing Satan hates. Satan hates the jews, for they have attacked and they have sworn to destroy what He has created and put into establishment- Humanity. Satan's name must be defended from all the jewish lies, as the blasphemy these beings have committed is beyond any word. To love someone means to stand by them, not in word, but in deed.

So many are wandering around, purposelessly and asleep, without realizing what they are to do, that inside them sleeps the Gift of Satan's Providence. The Godhead. How many will die this day without the gift that you yourself have found? Does it take too much of a choice to realize, that this is the Greatest chance on can ever have? What have you done this day to seize this chance? Wake up and once and for all, realize that we have the GREATEST, STRONGEST AND MOST PROUD AND BEAUTIFUL GOD THERE IS!!

SATAN IS KING!!

For Satan's Love, usher it and climb the mountain of Truth. Hold your Brothers fast, the Banner High and for Satan's love, March forward!

My brothers and sisters I have not posted any comments before now. I was moved to action by the words I read. It pleases me so much to know that as my journey unfolds the family of my Father is alive and well.

As I read these beautiful words about Father Satan all the blessings and the lessons learned were like mist before my eyes reminding of all the ways Father and His Family have been there for me.

Thank you for opening your heart & mind. For sharing with us all what it means to be a Child of the King.

Hail Satan!

Satan helps in moments least anticipated, in ways that most people cannot even understand or see, or outright and blatantly. Satan acts perfectly. Satan and the Gods are not dependent on "Our" worship, or anything of this nature. They are beyond this.

> Even from all His enemies, which are so unworthy of Him, they all of course may doubt the existence of their "god" which is nothing but a low
grade spiritual terrorist, but almost nobody is skeptical about Satan's existence. His love is not only some emotion or some sort of promise. Satan proved His love countless of times in History, with the epitome of it being that He helped elevate and ascend Humanity to a point that it will be able to stand on its own ground. Satan gave us the deepest depths of knowledge which is the Spiritual Knowledge.

>Satan was the one who came down here and helped us implement this and put it into use. Satan is the one who gave Humanity the status to be more than Animals. And Satan's enemies are the ones who are trying to rob this from people. Satan showed us endless love. He loved us as we were and like a Father, He didn't focus on providing solely, but on making His children able to provide on their own, for themselves and their existence.

>Despite of what is going on right now, in this befallen Epoch, Satan's name was once sung all over the world. In any Alias and any tradition, His essence reigned triumphant. His spirit was ascended and was giving eternal life to people. The people returned this love, not because Satan wanted this or demanded this, but because they felt as such. In my own dictionary, I love means I protect and it means I fight. Satan's enemies are the enemies of all those who have seen His honest heart and love. You already have the highest privilege a being can have, right in their hands. Satan doesn't just "love" anybody personally without a reason or a mutual return, but Humanity as a whole He is obviously defending endlessly. I can also tell you of one thing Satan hates. Satan hates the jews, for they have attacked and they have sworn to destroy what He has created and put into establishment- Humanity. Satan's name must be defended from all the jewish lies, as the blasphemy these beings have committed is beyond any word. To love someone means to stand by them, not in word, but in deed.

>So many are wandering around, purposelessly and asleep, without realizing what they are to do, that inside them sleeps the Gift of Satan's Providence. The Godhead. How many will die this day without the gift that you yourself have found? Does it take too much of a choice to realize, that this is the Greatest chance on can ever have? What have you done this day to seize this chance? Wake up and once and for all, realize that we have the GREATEST, STRONGEST AND MOST PROUD AND BEAUTIFUL GOD THERE IS!!

My brothers and sisters I have not posted any comments before now. I was moved to action by the words I read. It pleases me so much to know that as my journey unfolds the family of my Father is alive and well.

As I read these beautiful words about Father Satan all the blessings and the lessons learned were like mist before my eyes reminding of all the ways Father and His Family have been there for me.
Thank you for opening your heart & mind. For sharing with us all what it means to be a Child of the King.

Hail Satan!

This is the jewish, stolen and perverse pseudo-culture, that is nothing of relation to the whole of Humanity. These people literally state they are of "another g-d" and totally something unrelated to all other people.
> 
> But this was never the case. Now those of you here, you have made a brave step. Despite of what all this "society" and what the "ruling beliefs" were, you approached Father Satan, breaking the barriers of fear the enemy has created to enslave you. Something inside you told you all the time that what is being said about Him is total blasphemy and dishonesty. Something inside your own heart, knew the Truth. How this manifested in your choices and what motivated you to seek Him, or when you decided this, is another matter and falls under the core reason itself. What matters is that you have returned to Him.
Satan though was never absent and never was far away from us. Satan never made vain or fake promises or demanded anything of Humanity, other than to do what is beneficial and frees their Spirit and Mind. Satan asked us to become our own Gods, because He gave us this ability inherently in ourselves. His enemies have demanded us to be slaves, eternally damned and to return to the state of Soullessness- on top of these values and aims, all the creation they have created is shaped.

I know from within me that many of you here, you have been alone, you have been weak and frail, as this world strikes ruthlessly to break down everyone and put them under either subservience, slavery or to totally crush down their Soul. You have had a Soul in the midst of a Soulless world, a sense of Justice in a world unjust and of course, something inside you that was free inside this world of programmed slavery. Many even have been crushed to the point that they have been drained of even the Will to live. But Satan did not give you up, and He called you from within you. His call has a reason. Have you ever closed your eyes to listen to this reason, only to just feel it, only to just know Him? Without any expectations, without any desire to exalt one's vanity, position or anything other we have learned that "matters".

There are things that matter way, way more. What makes you an exalted creature has already happened: You embraced the Truth, in an age where the lies are ruling. This was a highlight in one's life and it should be treated with the same respect. For those who don't realize this, then, I have nothing but pity about their chained mind. As for others who have... We are all here moving defiantly against murderous and treacherous lies, steadfastly in the road of Truth. What motivates one deep down, but the love of Power, Truth and Light? Nothing else.

So many people say that Satan is about Darkness. While everything is under Him, including Darkness, so many do forget that after the Darkness, in the Magnum Opus, comes the Light. Satan is about this Light, eternal life. His title as Lucifer in all cultures testifies the same thing. So many enemies lie and claim of this, in the attempt to steal this from Humanity and confuse Humanity. They are investing their time in creating multitudes of lies, so that the people will be lost and never advance. They are attacking and blinding His Children in the attempt to harm our Creator, but because this is impossible, they just want to enslave what Humanity is capable of. For us here who know of Satan's Light, of Satan's love, everything is clear. We can see through all these vain promises, attempts and purposeless and unintelligent attempts of the enemy to enslave Humanity and its consciousness to an animal level. We can see the layers of this disgusting work. We can recognize its forms and our eyes have been opened. Above all, we have taken a decision: To Spiritually Act on What we SEE.

You know, the enemy supposedly, "owns" this world for this while. As Asmodeus stated, this time will be short. How many people do you see being totally happy and loved deep down? Supposedly, this world is created about "love". But there is no love in this world in any serious and higher level. Its just relations of exploitation, savior complexes, wanna-be and desires about it, songs about it, hymns about it, its blackened with victimization, sadomasochism and fear, subservience and slavery- this is the love the enemy is teaching Humanity all along. Where are the actions and the knowledge on how to love correctly? How many people you can see and state that the Light of Truth lives within them?

Obviously no being that belongs to the enemy is to be listed in this. In their eyes you can see only fear. Fear and lack of knowledge or consequence guides all their actions. Even the war these programed robots are waging against Satan in anyway, is a war because of the "fear" of "God" or plain our sadomasochism and fear of their own "survival", and the program that reassures it. Nobody can state the same for Satan's Warriors. Satan's Warriors fight genuinely and from the Heart. Satan has touched brave and strong men to tears and made them kneel to the
ground from His overwhelming majesty. How many times has He sent His beloved Demons to help you out and raise you from the pits of everlasting darkness and torment? How many of you has Satan made better, healed and elevate yourselves?

>Satan shows us His love. You don't need to believe in Him as this is beyond this relation. Satan wants you to have faith and conviction in yourself, for you are a piece of Him. He doesn't demand anything but of you to be happy, well versed, civilized and powerful. He doesn't offer anything but Power and Truth, which are centered within you. Satan is the Teacher of Teachers. Satan helps in moments least anticipated, in ways that most people cannot even understand or see, or outright and blantly. Satan acts perfectly. Satan and the Gods are not dependent on "Our" worship, or anything of this nature. They are beyond this.

Lydia,

I would love to know the price for a natal chart. I would like one for me and eventually many family members who are not SS, but in need of help. Please advise on your price, turnaround time and availability. Thanks!

My website is [http://lydia-astrology.16mb.com/index.html](http://lydia-astrology.16mb.com/index.html)

I know the prices may seem a bit high but most astrologers charge twice that and don`t have the knowledge and psychic ability for the readings that I do. The readings I`ve posted to the groups are only basic, a paid reading gives much more info.

As for turnaround time, I have more time off my day job these coming few weeks so I have much more time to do charts. I can usually get a full natal chart
plus solar return plus current transits done within a day but I always wait overnight as I kinda do astrology in my sleep. I know, it sounds weird... I wake up in the middle of the night or first thing in the morning and usually something has popped into my head that I missed the previous day.

Wow the fact that your actually charging brothers and sisters in Satan for this is fucking shameful. This group is not a advertisement where you can just sell your product. Instead of charging why don’t you make some post on how to read a chart so people can help themselves.

Okay, let's calm it down. She was asked about her services and she answered......sheesh......

LOL Wtf? I HAVE been helping others here (mostly in the forums). My website is mainly for non-SS, hence the no Satanic stuff on it. I’ve had the website for months and never posted it anywhere here. I only post it if someone asks for it. I do not advertise it. And you forget, HPS Maxine used to charge for readings. Why? Because it takes A LOT of time and effort into doing them. Believe me, if I were rich and sitting on piles of gold I would gladly do astrology for free.

I actually made a post in the forums debating this, as I knew astrology is the career choice for me, but I didn't want to "advertise" it, and one of the HP's told me to go ahead and charge, as it's a service that I provide.

I think your post to me was "fucking shameful". By your reasoning, I should just go on welfare to pay the bills so I can do charts for free.

What do you think the posts I was making on notable people was meant for? To help beginners see what to look for in charts and so on. I did not include the link to my website in them at all. I only posted it when someone asked for it.

I agree that people should learn how to read there own birthcharts and astrology in general, but Lydia has every right to post her website for extra earnings on the side... she isn't selling out, she was answering the question.

And by the way, why don't you get your head out of your ass and realize that we don't live in paradise yet, that we actually have to make a living. With who I am, "normal" jobs don't work for me. Astrology and writing are basically my only real career options. And I'm not going to live on welfare and do those for free.

Thanks Emma and Mina minaret. The thing is, some people have more of a talent than others for certain things. For example, I’m actually looking to purchase a Satanic rosary made by a fellow SS. Am I expecting one for free? No, I will pay for one. Can I make one myself? Yes, but it would be shabby and fall apart shortly, speaking from experience. I made one that fell apart after a few weeks.

It could take someone with no natural talent for astrology many years to learn how to fully read their chart, or a fellow SS can decipher it quickly which would be of great benefit for the person who is new to astrology and has talents that lie elsewhere.

Hello,

I recently discovered that my Chart Ruler, the Sun, which is found in my Fourth House, is in direct, or almost direct opposition to the Fixed Star Caput Algol. Knowing the nature of this Star, with its deadly and violent attributes, should I be concerned? Is there anything I can do to sublimate the energies?

I, like many others in my life, noticed an intensity in my personality, but I always figured that it was due to the Pluto/Mars square and Scorpio emphasis (Chart Ruler in Scorpio) in my Chart.

Can someone explain to me the effects of this placement?

Thanks

For the disaster and misfortune of the star, I feel that doing the Sun square to strengthen your Sun should offset it. Make sure to use a fitting affirmation. That plus your aura of protection.

For your health. Have you done a large health working? I’m talking a full satanic rosary TWICE a day, once during daylight hours and during nighttime, for 40 days. There is an eastern mantra that I could find for you, it's in my email (it was given from a HP to a fellow SS who had health problems) but I think the Sun mantra would be best. You have Uranus in 6th, and Uranus rules the unexpected. You don't want to be hit with any other health problem.

Yeah Lydia, it is definitely within 2 degrees.

Yes, I have a stellium in my Sixth House, with a Neptune and Uranus conjunction!! Also, a distant Jupiter and Neptune conjunction of a little over 10 degrees. Needless to say, I have incessant and HORRIBLE allergies. Quite literally anything that smells strong, feels rough or tastes weird triggers my allergies. I also have asthma and other breathing problems, an also, hypersensitivity to the overall weather.

To make matters worse, my Sun (Chart Ruler) is trining my Saturn in my natal chart, and Saturn is the ruler of my Sixth House. Saturn rules hearing and the ears, among other things. By the age of 12, severe air turbulence on a plane burst my eardrum.

As for violence, not much accept for a Pluto/Mars square. I have done the Sun Square several times, as I was going through a very bad Saturn transit. But I was focusing more on the personal level, is this aspect "severe" or powerful? I certainly am very intense, and my nature is sometimes violent if I am pissed off, but what about the disaster and misfortune associated with this star? I read somewhere that the Chinese, if I am not mistaken, called this star "pile of dead corpses"!!

HAIL SATAN!

I have some questions to add if you guys don't mind.
1) what is the effect of a fixed star being in opposition versus being in conjunction (2 degree orb of course) for example alphecca opposition sun 9 deg

Thank you very much

I did the Sun Square several times before, and it definitely helped. Saturn was transiting through my Second and Fourth Houses the past 2 years, conjunction with my Sun Chart Ruler of almost 2 degrees, and it was horrible. But lucky, it is all over now!!

I will plan a health working soon, just a bit busy nowadays.

Thanks Lydia

Oh I had meant, for a non-SS it could be awful. Being SS and cleaning aura, aura of protection, and any workings would greatly offset it :)

It is not recommended to post your birth info, especially in such detail. And as you have never posted here before, it's recommended to end with a "Hail Satan" so we know you are one of us, which will make us much more willing to help you. I have had christians and muslims email me before to get my help, while in the next sentence they try to convert me to their filthy religion.

But hey, as your post was addressed to men only (sirs) and I am just a mere woman, what do I know, lol.

And what reason did you have in telling us you are wearing an opal ring?

Uhhgg i did it again. Sorry everyone for my post. I was being extremely rude and i apologize. My sun sign is sagittarius so i have a temper, couple that with stress and enemy attacks lately and you have a recipe for disaster :/ Of course that's no excuse. I am working on it i just have a long ways to go. Anyways again sorry for being such a dick, Lydia i'm sorry i wish you all the success for your business.

Subject: How To Learn More About Transits and Aspects

Hello,

I have been studying Azazel's Astrology quite thoroughly and it is amazing and eye opening. However, I would like to know if anyone can recommend a reputable source for learning about transits and aspects?

The info on the JOS is great, but there are a lot of holes that I need to fill in.

Any help would be greatly appreciated.

Thanks everyone!

HAIL SATAN!!!!

Quintiles and bi-quintiles, aspect orb: 1 1/2 degrees and less. So your Moon-Neptune is probably out.

They are more aspects of fate, rather than personality traits. Keep an eye on transiting planets, look ahead through the weeks/months/years. Planetwatcher.com is my go-to, have one internet browser tab at your natal chart and the other to planetwatcher and go back and forth to see when any planets will transit your quintiles, scrolling through the months etc. When transiting planets, especially outer planets, especially more than one tie in through conjunction mainly, events can happen. Could be good or bad, depends on the planets and houses involved. Look ahead, if you see any bad transits that could happen, do a working to rid your soul of the past-life karma that could be triggered by the event. Also look at your solar returns.

Thank you very very much! One more little question if you don't mind :) It it true that if a planet is at the end of a house it is interpreted as if it were in the next house
My Jupiter is 19'22 in the 4th house and the house ends at 19'27
Also
My sun is 9deg in 6th and the 7th starts at 11deg
Again thank you so much for helping I really appreciate your time

Greetings to all our Comrades and Satanic Forces!!

It occurs to anyone who is watching the global events, that the jews are forcing matters in a very obvious manner. Now that they are being exposed, that their conquest for Europe and wiping out the Europeans is getting in way, they are turning the attention of people towards the Turkish/Russian conflict. This is fairly evident what they want to do with all this and there are many reasons for this.

First of all, the ISIS is a jewish organization (Check the Forum History) and then, they want to cleanse the Syrian peoples and anyone else in the Middle East that is basically, non jewish. This solves problem one: Ground for Israel to expand, this is rooted in the bible and in the language of the enemy, this is the "Greater Israel".

This of course serves the jews to play their good cop-bad cop routine over the populace and keep up their lies, turning the hatred from their exposal to the "Bad Arabs" and other poor people who basically are forced by the radical Islam and the jewish leaders of ISIS (agents of the jews) to fall into the fangs of war.

The problems that occur from the actions of Israel and its warmongering, Europeans must pay with their extinction, economy collapsing, with destroyed cities and raped citizens. OF course, the jews always try to pass it out as being the good guy. They are the one causing all the problems, the disease and all that is to "come" as they were the ones who started the warfare in the Middle East and established themselves in a stolen Palestinian land.

The little jew started all this and now they are trying to sit back and watch the people devour themselves. This is a classic method of the jews. This is the same thing they did in WW2 and in all other historical times, such as the Roman Empire. The jewish ideas and brainwashing started up as a virus and shortly, the Romans started eating one another like animals. The jews don't want war for themselves, as they know wars cause victims and wars are just ways to weaken one's resources. OF COURSE, they also gamble their fortunes and everything at wars. J ust like in a dog fight, let the "Goyim" fight and make your bets. The energies of all these bloody incidents of course are a big giant gifts to the evil and Human hating forces the jewish god and company are allied to. The more war, the better. The more suffering and misery, the better.
Yet the Jews think of course that the masses of the people are stupid and since the media think for these people and not the people for themselves, the media are on a rampage to make everyone else guilty but the Jews. Obviously, the Jewish media are going to defend the Jews. The Jews are very good when it comes to causing wars, frail and afraid when it's to carry them. So what do they have to do, is cause Gentiles and other States to fight for them. The Jewish oligarchy is pushing Gentile Soldiers to actually do what the Jews don't want to do.

The highest reason for this is to cause ethnic cleansing of the people in the Middle East, while destroying Europe and generally salvaging everything else they can for Israel. Israel and all the Jews are in a race against time. With the exposal at this rate and what they are causing becoming so evident, economy going to crumble, the people will definitely revolt and they will find themselves again in the center like in the era of 1920.

This might have almost went out of hand, so others, over the excuse of "Terrorism" (Hollande is a Jew, Putin is a Jew) have gotten in too to solve things that Israel and America could not. Now since this started, things are on the brink of a war between Russia and Turkey. If these countries are involved in war, NATO will almost certainly get involved and everyone sane can imagine that Israel might try to get in too, trying to push Turkey on the weak side. We will keep a watch on how this escalates, but things aren't looking very good at this point. We are hoping for a peaceful solution, but the Jews definitely in every historical occurrence when they are unveiled and discovered, they are causing major distractions to keep the people occupied. It's also stated and well known, that for any tyrannical order to exist in a good manner, rumors of wars and wars have to be on the table every day. This was the case of USSR and American in the Cold War, for instance.

If someone is new, then something must be reminded. I urge everyone to study and we all have for years upon years. The ability of the people to study, thanks to the Jewish faiths in the Middle Ages and all these murderous ideas, has been robbed up to now. Now you can sit in your home and just delve into every subject, thanks to the "Evil" and Satanic (666). Go read who made Feminism (War of the sexes). Go read who forces people into multicultural societies (War of the Races). Then go learn who introduced Marxism (War of the Classes of the people of a Nation). Go read about Communism (Death of hundreds of millions). Go read who destroyed every Gentile empire (Decay of the people). Go read who created war on the Sexual Preferences of the people (Abrahamic Religions). Go read who created the dogmas and all the practices to attack, destroy and guillify all the creations of Gentiles in the Ancient times (War on the Gods and Civilization).

Go check the ancestry of those who, as such traitors "serve" the people nowadays. Go check who owns all you hear, and listen, who owns the newspapers, who owns the news and large corporations. You might as well open up the Bible, the otherwise Holy book which is the faith of most people in the world, which is just a text of Jewish dominance, servitude and how you are to die or be judged under a Jewish "god", who is supposedly the "Ruling faith" and the well accepted "Sanity". Go read and study. Don't just take it, study for yourself. Don't believe anybody, for Satan doesn't stand for this. HE stands for seeing matters as they are. Satan's name means TRUTH. Just keep the Jews in mind, like a small point. Then if really want to know what's up, why don't you open the books of the enemy. Maybe this is the connecting point. Maybe what once was an
mystery, will now start making sense. Maybe it will occur to you, even if you are of the hardest one's to believe. This is for those who yet don't know. But want to know, why the damn are things like they are. Why never anything made sense. Hear it from the Greatest and the most wrongly defamed man of all time, Adolf Hitler: The Jew. Don't take this word, evaluate it.

But for back to those who do know what's up.

Our Rituals and works are unmasking this enemy and we must keep on the real source of all this. The works of the jews are exposing them like nothing has ever exposed them. Now the whole world knows. Even if its just a joke, something they heard or something else. Nobody sees "Russia" and "Countries" in this way anymore. When people see and discover the jew, and their magickal works, they will understand how its possible in Politics to cause economical misfortunes with the pressing of the button, get the world's superpowers in defense of the jews, eradicate whole Gentile Nations and people's like fleas. They will understand the common point of all this. And when the people do understand this, the problem will be mostly solved. With them on the line, this world will never know independence, peace and freedom. No other Race or idea has caused so much bloodshed and pain to Humanity, like the jewish spawns. This must be stopped.

I want to stay positive about a WW3 and that we will be able to prevent it, because, who doesn't, really. The enemy wants this war at all costs. What I know, a next major war is coming and cultivating, and this is the war of Gentiles VS Jews. Its already there, as it always was. For a better and more accurate statement, people are becoming AWARE of the war waged on them so furiously and unjustly. Those in slumber are waking up. All this was always here. It was always there. Now, this must be made evident.

We have to put a stop to this.

-High Priest Hooded Cobra 666
I directed a bunch of energy at it with some affirmations and got it back up and running again \m/

I've been meaning to do many more charts on notable people to post here, but it's been one thing after another happening :/ I'm hoping to get back on track soon.

Subject: The Yule Season [By HPS Maxine]

The Yule Season

The Yule Season

Yes, we Satanists celebrate the Yule Season. The Yule is and always has been Pagan and of Satan. Christians stole this holiday and corrupted it:

The Yule season is a season of enjoyment, indulgence, and feasting.

- Cooking
- Baking
- Gift giving
- Decorating
- Building snowmen and winter sports in places where there is snow
- Tree decorating
- Blue lights in honor of Lucifer
- Partying
- Santa Claus for the kids
- Shopping and more.

The Nazarene as you can see has no place in the Yule season. December 25th is actually the Persian deity Mithra's birthday, for one. The Yule was stolen from the Pagans and incorporated into the Christian religion as Xmas. Pagan peoples were celebrating the Yule long before the false program of Christianity forced itself onto the scene. We need to take back our holiday!!

Celebrate and Indulge!!
HAIL SATAN!!

Christians have been working to destroy the last Pagan/Satanic practices of the Yule Season and Winter Solstice, such as removing Santa Claus, the Yule tree, and other evidence that reveals the true origins of the Yule and replace them solely with the Nazarene and ilk. For more information and research, type in Jehovah's Witnesses into any internet search engine such as google.com and add 'Pagan holidays.' The information about this is extensive and proves beyond any doubt that these holidays have NOTHING WHATSOEVER TO DO WITH CHRISTIANITY.

The fictitious Nazarene has nothing to do with Xmas. Xmas coincides with the Winter Solstice and the Yule season, the shortest day of the year. December 25th is the birth date of the Persian God Mithra, and the Roman Holiday of Saturnalias. The tree, the decorations, baking, gifts, and celebrating have NOTHING to do with the Nazarene. These are carry-overs from original Pagan celebrations. The Yule tree is really symbolic of the human soul, with the trunk being representative of the spine, the branches, the 144,000 nadis [pathways of the vril/witchpower/chi], and the lights being symbolic of the nadis all lit up with Satan's Serpentine Energy. The star on top of the tree is representative of the risen Serpent of Satan.

Since the "Goyim know" and they can't "SHUT IT DOWN"... They are basically admitting of doing internet warfare to people, just because they have the right to free speech and because they can't get it down outright and kill you or put you in a Gulag like they would do in their lovely Communist Paradise of the USSR. This is so unjust really. Why can the Goyim still talk, buy and exchange and have an opinion? Just, why? According to Rabbinical Literature you are nothing but an animal to the jews. An animal shouldn't be able to judge, exact opinion and oy vey, react against their ultimate universal masters. Right, this is you, "Goyim" (Animal in Hebrew) and your self appointed masters are the Jews and the Jewish Race. Because they said it.

Or why not even outright kill those against them and sacrifice them to "YHVH" as the Talmud and Torah [Highest Holy Books of Jews] dictate. Its done every now and then anyway.

The Jew hates freedom. They hate you too. They hate it when you even speak. They don't want to be questioned, judged or criticized, as they are above the law, any law, above everyone else, above your countries and above everything. Of course, in some countries where their hold is total, you can end up in jail or worse for just question on criticism against them. Who cares about laws, free speech, your rights and your rights to even exist and think for yourself, when this has to do with the Cheezen of "G-D"?

I've been studying it for a year now but I can't find a way to use it when I'm about to create a spell. Can someone help me?

As you can see, 80% of "Poor" Male Migrants who want to enforce Sharia Law and carry out Intifada, or breed out the Evil White Race, or just outright murder to people of Europe, they come with gifts. Many many gifts. They of course bring in their "poor wives" which as reports say they share with even 20 people at once, like they are animals, infecting many with AIDS and all other forms of diseases, or sell them outright as cheap whores for as little as 5$ a go.
Might have some relation, don't you think. Only recently, 142,000 people came in with HIV/AIDS. The percent of which Migrants are involved, seems to be quite elevated. I read in another research its about 30%. Take the jew talk protection which hampers science out and who knows, it might be 40% or more, in the real research.

What I know, 142,000 more people will suffer NEEDLESSLY from now on, for all their lives, just because the jews want forced immigration and assimilation of Gentile people to go on, or because they followed the jewish doctrines and never cared about anything. They want to kill us all, after all. The jew will enjoy having hundreds more of sick victims, filling millions of money to their genocidal agenda, to further their advances on destroying the whole World.

Leftism, Silent worship or outright worship of the Kosher Jew Karl Marx, making the Social Marxist doctrine a law to live, the list goes...These people, they have followed doctrines and rules on how to live, which were made by jews to make us all extinct. Now, the payday is at hand and its only the beginning. Soon, probably yet another economic collapse.

Who knows what more gifts will come due to the Migrants, except of outright killing of people in the streets, blood in every neighborhood, rape, trafficking, disease and economic collapse. The jews have staged this out perfectly, or so they think.

As for the news, its glaringly evident that one cannot know the naked Truth with the jews on the media and so forth. Make sure to visit the best available sources.

Europe has seen 142,000 new infections of HIV this year, the virus which causes AIDS — the highest number in one year ever.

Although the rising rates of transmission due to heterosexual intercourse and careless use of unclean drug paraphernalia has been cited in the media as causing the rise, gay sex between men is still the main source of the virus spread.

Speaking of the rise in infections, World Health Organisation director for Europe Dr Zsuzsanna Jakab said: Despite all the efforts to fight HIV, this year the European Region has reached over 142,000 new HIV infections, the highest number ever — this is a serious concern.

In a remarkable admission, the director named migrants travelling across Europe as being a particular risk for spreading HIV in the continent, reports The Independent. He blamed this on “social exclusion” felt by migrants which made them more likely to engage in risky behaviour, and the reluctance of many European nations to hand out free health care to transient populations.

A third of all new HIV diagnoses in Europe are to migrants and non-native Europeans, despite only accounting for a fraction of the population.

To help limit the spread of the potentially fatal virus, Dr. Jakab called on European nations to offer free HIV treatment to all, regardless of their origin and nationality. He said: “This is also the safest way to protect the resident population from HIV infection.”
The new report on HIV prevalence in Europe is co-authored by the European Centre for Disease Prevention and Control (ECDC), and director Andrea Ammon also has advice for the nations. She said the best way to prevent infection was to give free condoms to high risk groups— including migrants. Remaking on the report, Dr. Ammon said: “Europe has to scale up its efforts to reach out to this group.

This includes looking at new strategies such as pre-exposure prophylaxis for HIV and access to care for EU citizens residing in other EU countries.

---

Satanic Forces, I salute all of you.

A darkness is coming upon this World, or for a more accurate saying, the enemy is trying to bring this over. This world has fell for too long, but not completely, unto the hands of the enemy. The enemy is orchestrating a war. They are aiming for yet another global war which will be, the jewish oligarchy doing genocide, from all Nations and states against one another, merely due to Jewish interests and to fulfill the Jewish hunger for blood. They have written the script, they have called in the actors, their payed their politicians, the sewn their costumes. They have created the stage. They have
indoctrinated many people unto this world to be the audience of this act. An act which is supposed to catapult the enemy into the position of complete power, over all people on Earth. The act ends with the flowers of their dream, which is the Jewish World Order, based on the blood of countless of people. This act has started and it is proceeding.

There are some people, behind this stage. The old backstage-holders are falling, and the enemy has nowhere to turn for advice. They just want to follow the script and finish this act faster. As they are moving with this act, it's supposed to end with much killing, tons of blood. Killing of hundreds of thousands, or millions, or even billions of people. The audience will be surprised to know, what we know and have known for many years and what we have fought against. That this was never an act, and that it was reality. Reality that can shatter any weak Soul and drive them to the ground. They are going to see the blood flow, and this blood will be neither paint, nor an act. It will be as our enemy intended it, the blood of real people which they have shed and are shedding as we speak.

Envision we are above the scene of all this. We have been given orders to get down and stop this act, before it is too late. Stop this before the people do get killed, the audience dies of the terror. We know the script of the enemy, and we know their actors. We know how this ends, and we know of the sharpened knives and guns they hold below their backs. We also know one crucial thing, that this act is moving in desperation. Actors are losing their words, the stageholders are making moves that make the audience suspicious. They have made many to leave, like so many of us have done and are now here, knowing the Truth. But above all, we know the most important thing: To not step in and finish this act, is analogous to becoming a silent acceptor of the death that is to come and follow.

Will you get down with your Brothers and Comrades, and stop this vile act, disrupt their plans? Are you willing to fight, even if it means to exhaust yourself and fall down to shreds? Knowing that you defended countless innocent people, women, children and whole Nations? That you took the only certain route of really freeing and saving, even yourself?

Or you will cower, stay back, mind your own little self and join this audience? Clap and shout for the actors, glorify the act writers, to just die like a chicken in the end?

I just have to point something. Nothing less than Destiny has brought you here. Amongst this folk, amongst your Sisters and Brothers. Under this Banner of Satan. Look at those hundreds around you, being lost in their lies and deceptions, like sleep walkers of the lowest kind, chasing the jewish carrots on a stick all their lives. Every day, you are taking a step towards that destiny, that which is a Destiny of Truth and Awareness. Your Destiny has chosen you, and you must chose it back.

Will you wither away, like another one, who never did anything, minded their small, petty, poor self, the little small life, he who someday, ceased to exist and did not receive the Hand of the Gods to go to the other side? If this is your choice, what is your destiny, but that of just another of these millions of these jewel slaves, who are just waiting for the day the master will take their head, or when will the master throw a carrot so they can feed? What kind of curse are those who are going against us inviting into themselves? What is this denial, causing at their Spirit. Where does it lead their World and our shared existence? Do they affirm and accept that they are a coward, a zero, that they are nothing else, than a helper of the enemy who helps them with their silence, inaction, boredom or whatever other petty excuse? IS THIS YOUR DESTINY?

Or Will you write your name upon this Eternal Stone, of the Heroes of This Age? The ones who kept the legacy of the Gods high, the Ones who raised a voice
against the Tyranny of the enemy? The ones who fought all their life, for what was Right, True and Just?

If you know the Truth, you are Responsible, because you know the Truth and you are able to act. If you was incapable, below of the circumstances, not meant to, or whatever other excuse, you simply would never know. It was your Destiny to know, same as it was your destiny to act.

It was because, something inside you holds an Eternal Fire, like the Truth. Do not betray it, for it is the flame by which you will be made Eternal. Do not extinguish it, for you will only be trying the impossible. Do not try to escape the call, for you will just be in a race of vanity, trying to escape yourself.

No matter how old, and no matter how young, no matter where you stand, or where you come from, or what you are, or ever were. No matter what you have lost, or what you have conquered. Come with us, and become a Hero. March with us, and become a God, for a moment, even. Know for a moment, that you are HERE, that you are standing with your Comrades, defending all that of which others are trying to destroy, all that of which is Worth. Be of the few that will stand up for Truth, and raise their heads against this total Tyranny of the enemy.

Become like Father Satan. For once, raise your head against Tyranny. Fight it. Declare your will that this is going to be no more.

Our God is stronger. Our People are mightier, the Truth stands defiant above all.

Truth can only be hidden, but it can never be defeated.

THAT ENEMY FILTHY ANECDOTE, IT ENDS NOW AND FOREVER.

Your Soul must awaken Brothers and Sisters. You have our conviction and the conviction of everyone of our family, but above all, HIS conviction. Satan leads and we follow. Whomever marches with us, they pledge their faith with us and we become stronger. A huge darkness is coming upon this World, but in your Soul there is enough Light to put this Darkness away. Our Will is Truth and in our Wills, there rests enough power. In our Souls is the Salvation, not only ours, but at this time, of the Whole World.

Our Will is about Peace. The enemy advances must stop and the enemy must be brought down to shackles and be eternally bound. Their lies must be revealed and their plans for the destruction of the world must fall upon themselves and never come in play. The people they have destroyed and they have damaged beyond repair, they must be saved. Their slaves and pawns must meet their enemy masters and share their fate.

This world must stop falling into the war and bloodshed the jews are putting it. There is no reason for this, and it never was, other than the wet dreams of the jews, who want to rule as a slaver authority over people who are supposed to be free. The jews must lose this on this final advance and all advances.

For once, become like Father Satan. Rebel and Win. For once, come like the Morning Star, in this world of Darkness to save the people from Darkness. For once, bring down all the teachings of the enemy, shatter them and prove them entirely wrong, as they always were to begin with. For once, let us write our own story, which is the True Story, which was always the Truth in all Ages and all Aeons.

Satan, The Truth, always Wins. Satan stands triumphant and the liars, who lied about Him, us and stole all this legacy, will know this, despite of all their
attempts to hamper this and stop this. Destiny is on the gates.

Such a needy, slaver and torturous, vile and psychopathic ŒòGod, really in the image of our enemies. A ŒòGod that demands for billions to die, simply due to its insane and slaver desires, to enslave a world, for his chosen degenerates to Œòignò A world destroyed and full of cockroaches, upon which rats will make the "kings"? That is surely the only deserving world the enemy can lead.

We reject them all. And we will fight against them all.

We declare their ŒòGod weak, void, destroyed and bound for all Eternity. We declare the Darkness has lost.

We are more powerful than the enemy, just prove this. Let it show. Show them that a bunch of criminals and blood shedders cannot make this World a pig farm for their own alien desires. Show them that the Truth can never be contained, it can never be bent and it can never be defeated. Show them that our Will is the most absolute.

The Age of Lies is coming to an end, it crumbles. As lies are ending, so does their ŒòGod, the master of all lies, deceptions and plagues put upon Humanity.

The lies will not hold the Truth, as neither will their lies win.

The Truth will Win.

I have many Capricorn planets in the 6th house and I am not hard working or organized or disciplined I am the total opposite, although I wish I could be.

I wonder if this is because my Neptune and Uranus are also 6th house Capricorn planets that they undermine my ability to organize and work hard and structure my life. I even took a personality test on psychology my level of conscientiousness is very low.

How do I change this? I don't want to be a lazy slob all of my life. But if I invoke the Earth element that can't help me because I already have a lot of Earth planets and I do not have positive traits related to that element.

Important Information on How to Perform the Reverse Torah Rituals
1. Raise your energies. Any formal ritual or working is empowered by raising the energies of your soul. Here is information on different ways to do this. Always do whatever you are comfortable with and what works best for you as an individual:

Raising Energies

http://www.exposingcommunism.com/Raising_Energies.htm

To correctly vibrate SATANAS
http://www.exposingcommunism.com/SATANAS.htm

2. The Invocation to Satan is optional. The reason for this is that these reverse torah rituals should be done as often as possible given their importance. Satan and Lilith want these to be as easy to do as possible, yet effective. By shortening the formal ritual, more people will be able to do them more often. There is both strength and power in numbers.

Invocation to Satan
http://www.exposingcommunism.com/Invocation.htm

3. After you have raised your energies and recited the Invocation to Satan, then you proceed to the important part of vibrating the words of power given for each ritual 9 times. The entire paragraph should be vibrated in its entirety for each time. Please listen to the audio recording specific to the ritual provided on an Mp3 for you to download, to make sure you are reciting the words of power properly.

4. When you are finished vibrating the words of power, then you recite the affirmation given with intent and focus.

5. When you are finished with this, the ritual is done.

We are facing a very serious situation. This is a life or death situation, especially in regards to the anti-war rituals. Many people are deluded and too weak to face reality, but this does not make the reality go away. The earth is in a disaster ecologically and has become a horrendous garbage dump. Safe food, water
and even air are disappearing, for one and for another, given the missiles and the nuclear bombs, capable of destroying the entire earth over five times, everyone should be concerned.

Lilith informed me that the future is not written in stone so to speak and is open to change and it is very important that we alter the disastrous course that has been set in motion by the so-called "Holy Bible" which is nothing more than a human-hating manual for the destruction of civilization, along with the death and damnation of everything that is on this planet, along with that depraved and hideous Mudslime Koran, which is nothing more than a book of criminal insanity to its ugliest degree. For more information, please read:

Why There is Suffering? Satan Gives Answers:
http://www.exposingcommunism.com/Why-is-there-suffering.htm

Unlike Christian and Mudslime programs, where one is told to "have faith" and not to ask questions, Satan encourages intelligence, inquiry, and SATAN GIVES ANSWERS. Always remember that no deception, no scam, no swindle or victimization can take place when the intended victim KNOWS AND HAS KNOWLEDGE.

KNOWLEDGE IS THE FOUNDATION OF SATANISM!

There are different sects of Satanism. Joy of Satan Ministries is Spiritual Satanism. Satanism is not a "Christian invention." Satanism predates Christian...
There are a few things you can do. A daily affirmation, strengthening your solar chakra, doing the mars square for energy and motivation... have you seen the post by HPS Shannon on the zodiac mantras? One of those might benefit you. It all depends on which of your houses are ruled by which zodiac... maybe whatever your AC is on (first house rules the Self), or doing Taurus as that sign is good for getting things done.

Another point, since you have a lot of Capricorn/Earth, you might need more Air, to get you out of the rut that Earth can bring. Maybe the Aquarius mantra. Fire would be of benefit to you as well. I'm not sure how many of those planets (Air and Fire) you have, so I'm just tossing suggestions at you. Aquarius, Aries, Sagittarius, just a few ideas.

Whatever working you decide on, it would be good to add a daily affirmation too, after yoga or breathing exercises.

Yes, the planet(s) that rule your AC are your chart rulers. And any planets in your 1st house are co-rulers.

For the planets in the houses and what they mean, basically: http://www.angelfire.com/empire/serpentis666/Planets666.html

There's more to it, all the aspects, and planets that rule houses not just in houses, and so on, but the above link shows the basic planets in houses and signs.

I heard about personal charts on the jos website in relation to using black magick and knowing when someone's Saturn is transiting or something. I'm actually interested in looking at mine and seeing where my planets are now. Where could I see this?

Right here is where you can access your free Natal (birth) chart, and your current chart as well.

Is my current personal chart the same as my daily horoscope? I'm vaguely familiar with astrology I'm still learning haha.

On December 11th there is a new moon and on the 25th there will be a full moon. Is there any specific meditations I can do to help me manifest my desires.

I agree with the whole thing about us SS being treated differently even if we don't tell anyone. I don't get it but it happens, for better and worse. It's weird.

Well I can pull up the site now but can't read anything ): I click on the little tabs and a small black circle appears on the center of the page. Gah, not your fault though, I was just very curious to read your site lol

Is there any way to use a void moon to your advantage, like with timing magick and such? Or any other ways? I know of reasons to /not/ do anything, but are there any positive things a void moon can do?

@Lydia Thanks! And yeah I notice when I keep on top of my chakra meditations I have more motivation and energy for things. Tbh part of me likes how I am cause nothing much seems to bother me in my day to day life, I am usually quite content so that's the plus side.

It's a good time to relax and not be interrupted while meditating. You can also continue workings which were started before the void moon.

Otherwise, no there isn't really any benefit it will confer upon any new working except to make it a pointless waste of time.

I knew stuff previously started could be continued through them but... bleh now I don't like void moons even more lol
Too many negative aspects of it and not enough positive, it's a waste of my time XD

Just look at this psychotic, insane, neurotic and aggressive jew. He also reveals the plans to the Goyim, as to play the "savior" to them of course. Nobody could have said it better than a jew himself. He just relates you to the plan of the Yids.

Just watch this arrogant kike, playing the "Exposing" part of what its jewish ancestors came up with, want to materialize, and now they supposedly defend the stupid "Goyim" from.

Because, "God forbid" (The jews god of course, who is JHVH and who is the collective of the jews beings /race/aliens), they will inform you "prophetically" about what they...themselves caused and invented. And
are creating by the "Torah".

Two sided games, as always. On one hand, the jewish "JHVH" plays the bad guy. The jewish spawns play the intermediates in all levels. The Goyim watch, and await for the "jewish savior" to save them...From what the jews have caused them and are causing to them.

Goyims (animals in Hebrew)...Wake up, before its too late.

How about, we do some very ruthless Reversal Torah Workings, to save the World from this pestillence?

-High Priest Hooded Cobra 666

Former US President Ronald Regan would make promises and statements he had no intention of keeping on a void Moon, purposely. This was stated in a book from his and Nancy Is personal astrologer Joan Quigley.

Also, now this is theory and I can't back this up as I read it, but according to some information I read, any loans taken out during a void Moon wont have to be repaid, but remember, this is something I read, so use common sense.

Also, if you donít want to finish a job, for whatever reason, then begin it on a void Moon.

Using void moons? Mon Dec 14, 2015 7:37 am (PST) . Posted by: thanatos_sun144 Is there any way to use a void moon to your advantage, like with timing magick and such? Or any other ways? I know of reasons to /not/ do anything, but are there any positive things a void moon can do?
Greetings to you

I had a few questions regarding the planetary squares.

1) Suppose a planet is debilitated but is malefic for me, will doing it's square increase it's malefic effects or reduce them?

2) If a planet is strong and malefic for me, then should I do it's square?

3) Can someone please see my birth chart and tell me which planetary squares I need to do? I MAY face an accident very soon and I don't know which planetary squares I need to do. I only want to know which planets/chakras are weak and malefic and the planetary squares I need to do.

Thank you for replying

If you have a planet in a debilitated sign then Satan's magick square will help that for the better. And it's not smart to let others read your birth chart because it contains all of your personal info. Here is a website that will tell you if your sign is afflicted, exalted etc.

These are the ruling planets for the chakras:
Saturn- Base chakra
Mars- Sacral chakra
Sun- Solar plexus chakra
Mercury- Heart chakra
Venus- Throat Chakra
Moon- 6th/ Third eye chakra
Jupiter- Crown chakra

Depending on which one is debilitated or in Fall is the one you may want to do the square on.

If need here is an example:
If Venus was in either Scorpio or Aries it would be detriment or if in Virgo it would be in Fall. Therefore you would want to do the Venus square to offset the negative characteristics.

Hope this helps let me know if you have more questions.

Hello, I began being interested in astrology 2 days ago. I've been studying it for at least 5 hours a day now. I figured everything out for using the including decans/houses/chartrulers/4 dividing lines (Ascendant, IC, Descendant, Midheaven)

After figuring out all my fortunes and misfortunes with each planet's position in the zodiac sign and its degree. I am now wondering what do I need to learn in order to create my own daily horoscopes and etc. Such as learning when Saturn is transiting or its importance. Stuff like that. I want to get more into energy workings and spells so I decided it'd be best to do it on the day it would be most powerful for me!

Can anyone link some intermediate/advanced tutorials/guides for 'stuff' like that?

Hello people. I’m new on astrology, i ve been study for some months now, and i still got some things i dont really understand. Like, the chart ruller/s are the one/s in the AC? (lets presume that the AC hits Scorpio, the rullers are Pluto and co-ruller Mars?) and what if Mercury is in Virgo that makes him a ruller too?

And in predictions i have to watch the ruller, that means Pluto Mars and Mercury?

Another question for you guys would be: in the chart of women (in predictions) if the Sun / Mars conjuncts the Moon or Venus, that means that a relation is about to emerge?

And the last one: if Mercury is in Virgo in the 5th house, the house that Mercury is rulling (3rd house) is more powerfull right?

Thank you in anticipation and sorry for my raw english.

**Subject:** Re: Learned all the basics of chart reading & etc.

I roll my eyes when I hear about "daily horoscopes"... sigh.

Ok. Planets transit fairly slow, except the Moon. Sun moves one degree a day. Really not fast enough to warrant a horoscope for every single day. A Saturn transit can last for months, Pluto for years, especially if it conjoins a natal planet, stations, retrogrades past, stations, goes direct, then conjoins again (same for oppositions squares trines etc).

Planetwatcher.com is my go-to. I check it often enough, more when I was newer but as you get the hang of how fast the planets move it kinda plays out in your head. I check it weekly, and I check ahead for years to be prepared. Also just out of curiosity.

Just a **few** quick tips (and these really are just a few):

Take note of:

-when planets will aspect your natal planets, especially chart ruler(s)

-what houses the outer (more powerful influence) planets are in

-when the outer planets enter a new house

-when the Moon aspects your natal Mars and vice versa, this leads to more rash decision making, more anger, over-assertiveness, etc.

When planets transit natal planets, take into consideration the nature of the planets:

-Uranus transits can bring unexpected, unpredictable, and drastic changes. Pluto, drastic life-changing but either good or bad, depending on everything else happening.

-Saturn will kick your ass but can be alright, it shakes foundations so to speak so it can make life rough but might be better in the long run. Or it might be worse. Always keep your energies high when you see a Saturn transit coming.

-Neptune weakens and brings disillusions and deceptions. Meditation sublimates it, beautiful things can happen (if it doesn't make you insane, that is).

-Jupiter is awesome. Especially if it is a chart ruler. But it may make one a bit lazy at times (transiting through 5th house, too much time spent on recreation for example).
Don't forget to check for all aspects. Inconjunctions, sesi-squares, sextiles, and so on.

It sounds like you're really enjoying learning about astrology :)

**Subject:** Re: Chart Ruller and other questions

Chart ruler is the planet(s) that rule the AC, and any planets in the first house. If there is a stellium (3 or more planets in conjunction) then it is also a major factor.

Mercury in Virgo is a chart ruler only if AC is in Virgo.

If Sun/Mars conjoins Moon/Venus, no. Sun and Mars will conjoin natal Moon and Venus about 3 or more times a year (Sun to Ven, Sun to Moon, Mars to Ven, Mar to Moon; Sun takes 1 year around zodiac and Mars about 2 years), you probably won't have 3 new relationships a year. But if this happens in a Solar return, or solar arc, or progression, then it's quite likely. Many things factor in though. With a solar return, it depends on the houses (natal and SR), it may just bring a change in those houses.

For your last question, Mercury would only be ruling 3rd if it was in 3rd or if Gemini is on the 3rd house cusp. It is the natural ruler of 3rd but all natal charts vary. But Mercury in Virgo does make your Mercury stronger.

Thanks for that information. Sorry about the daily horoscopes thingies, I am still pretty new to this. I bookmarked that link for later purposes, so it can serve me well.

One thing I noticed is that in Azazel's Astrology for Satanists, is that it doesn't mention teach the new-comer about aspects. Or if it does on 'How to read an Astrology Chart' its not very blatant nor detailed. Do you have a resource you wouldn't mine sparing for that? Or perhaps a quick lesson if your not too busy xD

Anyways back to meditation. Ill keep in touch with this ^^

**Subject:** Retrogrades,Moon Phases and Planetary Squares

Hi all

Hi all

I wanted to know if planetary squares can be done during the respective planet's retrograde motion? For e.g. i am thinking of doing the mercury square as mercury is in Aquarius right now but it's already in the retrograde zone and will go stationary retrograde on 5 Jan 8:00 am EST. It will go stationary direct on 25 Jan in Capricorn and leave the retrograde zone on 14 Feb. So, can i do the square during the retrograde period or should i do it after 14 Feb?
Also, does the phase and sign of moon matter in planetary squares? Should I be wary of void of course moon? If is then if a full moon occurs at 22:00 then should I do the working before 22:00 as close to the full moon or sharp at 22:00 as moon is full at a specific time only then it starts waning?

On the chart you get from astro.com they put Chiron in there too. Is Chiron doing something significant as well? If so, where can I find that or what does it do?

Best done when direct. Especially as Mercury retrograde rules things that can mess up, "anything that can go wrong will go wrong". So you begin the square, chances are it will go wrong. I'm pretty sure all squares need to be done when the planet is direct, but I could be wrong.

Don't begin during void moon. As for moon phases and signs, I think it can give a bit of a boost, such as beginning Sun square when Moon is in Leo, but not really enough to bother altering plans much. It's just about the planetary energy. And what I did write about moon sign / phase could just be my own superstition lol.

Squares are always in effect retrograde deepening on planet and house sign put there own spin on it and about the moon yes but only time phase matters is in working far more complex sciences than casting simple charts

Both give me your birth time place of birth and date and in a few moments I'll send you exactly what it means by it's house, sign, and degree.

A full Satanic natal chart reading yields approximately 8-15 pages, so it's not just a simple matter of telling you "what it means". There is so much information that can be found in natal charts. Study Azazel's Astrology on JoS, and there are many other resources online as well, just be wary of the new-age corrupted "info".

Oh and it's not advised to post your birth data online.

There is a group chat on twitter that helps with learning astrology, follow Teloc Vovim and ask to join you :)

Go to the JoS site and read Azazel's Astrology for Satanists. It's under the Satanic Witchcraft section. If you can't do that on your own then don't do Astrology or ask others to just do it for you because you're too lazy.
If your houses are experiencing delay, is it possible to vibrate the word from the sign that house is in? To make its position better? Shannon has posted these in the main group.

Or is there a different way to counter this?

Hello everyone, I wanted to get opinions and such on a major daily healing working I am going to be doing very soon. A very good friend of mine's mother has been in the hospital for a few weeks now, and things have been looking grim. Long story short, terrible doctor didn't do his job and suddenly she finds out she had major blood clots in her legs and cancer. So I am wanting to help save her life. So far I have been doing basic energy workings, breathing white-gold energy into her as much as I can, every day - I've visualized it outside of myself so I do not form a connection with the sicknesses and disease and etc, and then directed it into her, engulfing her in it, and visualizing it getting brighter and more solid in her with every breath.

I've been doing the above just so I have had /something/ to do to help her in the meantime, before I can begin a proper working. What I have planned is this: Two days from now, on the 8th, the moon will be in Virgo, and I will start the working during an hour of the Sun, and obviously taking care not to start this when the moon is void. I will vibrate the runes Thurisaz (JoS states in white magick it is a healing rune), Nauthiz (aiding her mentality to carry on when all seems lost), and Ehwaz (to unite the rune energies harmoniously). During all this I will again visualize her engulfed in white-gold energy. I am not sure how many times I should state the affirmation I have - I've no doubt my affirmation is a good one, I've always been good with affirmations, I just want to know how many times I should state it after I vibrate the runes, or if once is enough?

Thank you for reading, it means a lot to me to whomever can help me with this.

9 is the best number for ending things / healing from disease. Some people use 10 affirmations if it's for healing, some might say 8... it depends on how the affirmation is stated as well. Trust your instinct.

There is also a Sanskrit mantra, it means "physician", it's good for healing. Bhishag-ya. Vibrated BBBAAAA-HHEEEE-SHAAGGG-YYYAAA, if you're interested in trying that as well. Make sure to vibrate all letters, 'g' is at the back of throat like an exaggerated 'y'.

So is the rune combination good? Or do I need to change anything about it? I appreciate the advice on the Sanskrit word, I might not use that though since I don't have experience vibrating it, I prefer to get some practice in, it makes me feel more comfortable to do that first lol.
Subject: Re: Advice/thoughts on healing working I will be doing?

Just make sure that it's not too many runes to be doing each session. I know I've taken on too much at one time before.

Also, clean her aura often. Vi-suddhi is exceptional for deep cleaning of aura and chakras.

Subject: Re: Chart Ruler and Houses

Yes. The chart ruler is the planet(s) ruling the ascending sign. If there are any planets in your first house, they are co-rulers as well.

Houses represent different areas of your life and planets in the houses exert influence on those areas of your life. For example, the second house is the house of finances. If you had Saturn in the second house, that could indicate problems with money as Saturn rules misfortune.

Subject: Re: New moon to full moon

To manifest your desires you need to raise energy through some method like mantas, runes, yoga, or some other method and then program the energy to do what you want. For example, if you want protection you can vibrate the rune ALGIZ and affirm something like "The energies of ALGIZ are permanently protecting me in every way." “The Three Steps of Witchcraft" page on the Joy of Satan website explains how to work magick to manifest your desires.

Subject: Re: Lilith In Scorpio

BLM (Black Moon Lilith) is a mathematical point, not a physical one (so are the nodes btw, which doesn't make them invalid). Some people wanted to add some other 'Liliths' - an invisible moon (Waldemath or somthing), and a physical asteroid, named after a child that died very young.

From a reply in another post:

It's sad a mind like Evola or others didn't quite have the spiritual basis upon which he could understand that "Man Good - Woman Bad" dualism is just Jewish nonsense and perversions. Which just boil into external and internal and such, having nothing to do with "Evil" in any existential form. Evil and Good never had these ethical charge in the Ancient World. Other than when it came to harming other members of one's Race or polity and such and the list goes.

In Ancient Greek these had to do with law, not some outer space meaning. Also, the Positive and Negative aspects of Male and Female, never had to do with "evil" in the social sense, either. This is a common preaching of the Jewish religions, but the Greeks and others completely understood it. This is why women and men were equally following initiation and such in the Greek Religion, while in the Jewish one, the women are put into the bullshit of the "Evil" and "Tempting" in Nature. To be "tempted" is not always evil. In fact, it can be quite a good influence sometimes, if combined with logical thinking.

People due to internal disconnectedness towards their own feminine aspect, or male aspect, tend to externalize this hatred towards the world and other people who are not responsible at all. This is due to the lack, thank Jews, of both spiritual understanding and the free circulation of practices for the people. But the Jews had to back this up even harder, while they themselves knew the fatal Truth behind this statement, as it was stolen by Pagan Gentiles to begin with.

After all it was "Eve's" mistake and such, Adam is supposed to be a stupid idiot etc etc. Well Woman is only for this idiot and made out of his rib, not much importance. So from this stems all you see in the Middle East and all other insanities of such nature. Which of course didn't quite manifest in the same way everywhere, and the list goes, and this of course involves Race and the tendencies of the major parts of Races. How something of such nature manifests should also serve as the basis of understanding what is what, maybe Racially too. I won't get in details as to not deviate from the intention of the post, but this might help people who are interested in advancing their Race, understand.
Truths about Gender, Race or anything else, the jew has accepted these in others and in their own Racial groups, they move for centuries against Gentiles with the Truth that many are not willing to swallow, or even see. So they win and you lose, because you are too much of a wussy and you always get offended. Because oh my, reality stops where one's comfort zone stops. Yet the jews knew these Truths for hundreds of years, abused these and of course formulated everything in accordance to these, no matter how "too much" were they for others. The jew doesn't have your weaknesses such as Social Marxism and feeling a pinch in the butt every time you hear something Racial. The jew lives by the Racial laws and in the knowledge of the weaknesses and strengths of its own Race too.

Back to the jewish fairytales of world domination which portray as religions. Well, this paved the way for the enemy to abuse the feminine largely on the host populace they wanted to destroy, in plain words. And every misogynist or anyone who didn't enjoy women, or had distorted perceptions about them due to childhood drama, somehow had a cosmic backup about their own cuckoldry, lack of understanding of choice, or affection and such, must be transcendental law. Also backed up by the jewish anti-feminine beliefs. You can be an asshole to all women on the planet, simply because "God" is your backup. Now see where this horrendous crap of the enemy and their lies did lead. Women are still being enslaved and abused in the Middle East or in any other region, only due to the shit some paranoid yids said at some point. And every heart broken teenager, male or female, can find transcendental reasons about why the whole opposite Gender sucks. Thanks jews.

But then they come and of course the jews will solve this issue of women. You know when you make a contract with a jew, its going to be a legit one. For sure. I mean just look around. Most trustworthy people, ever. So they basically try to create feminism to totally destroy the feminine and make every woman start being in denial of her nature, man hating bitchy attitude female, or at least just deviate for what she always felt was the right thing to do. Just hate men for the sake of hating them. Or just, whatever. What the jew says will "Liberate" you. If it happens due to some retarded man who thinks he can treat women badly, because of course God is on his side and teaches that men are to be stupid and animal like creatures, so he is what the jewish "god" instructs anyway, and she does what jewish Feminism said, anyway. I mean "god" is on the side of both, since they are stupid enough to listen the jews as their "god".

Another nice extreme way to see things. Screw everybody. Become either a sexless saint, chop your penis off and feed it to the wolves, for it will prohibit your entry on heaven, or become the wildest whore there has ever been and take everything that moves and walks, destroy it just to feel powerful. Become an animal, or fry your own brain by overthinking around the jewish dogma. Both ways, the jew will win, so it doesn't matter. "Opposite extremes", same racial jew behind it all, same Goyim animal slaves in the middle, trying to figure out why they are always wrong to the slaver demands of the jews.

But no matter what, its never enough. No matter what you do, its never enough for the jews and their unnatural and sick demands. You always fall short, because you are in fact looking in the way of uprising in reverse. You are falling and falling lower, every day, and because the jews are on the rock bottom, people keep falling for their shit, sometimes only to find themselves in the mental hospital, only too late. To the jew you will pay debts eternally. Here (you must repent to your sins and bow to the jewish tribal animalistic stupid "god"), before you even were born (Men are born sinners of course, your mothers were whores, so you must repent) and of course, after you die and for all eternity, you will be paying your debts of sins to the jewish "creator" in heaven. Ah...men!
The jews also were the only idiots who put "God" as a "Male" and only in a "Male" form. In the Greek Patehon, there was an equal number of Goddesses and Gods. Also, there were Androgynous Gods like Bacchus, who personify inside them the Union that generates what is called God, as the "third" force in existence, that of creation of Male and Female forces.

Oh and Goyim (Racial jewish slang for non jews, meaning Animals). Since we are all animals and we cannot comprehend our Own Gentile Culture that the jews stole and portray it as their own, (even after historical evidence proves its only recent compared to all other Spiritual Cultures, but, fuck Historical Evidence and praise jooz) and the original is (how original of the jews) they hide from you some things. Well, God is a "male" but...He is dependent on his "Shekinah", which is actually stolen from "Shakti" and is the Feminine Energy or Aspect of "God". Oh, also jewsus, in other "Gospels" which the church removed because they didn't align with what they wanted the Goyim to learn, do openly talk about how "Jesus" was either gay or was in sexual relation with Mary the Magdalene. But the Goyim just need to pray to jewsus and the thoughform JHVH, look in the sky, give their energy to a though form and of course, believe in no other "gods" other than the jewish creator of the cosmos, who, with one fart, created the whole existence. Keep the stolen Pagan knowledge the jews used to formulate these things, hidden from the Goyim.

But the Goyim don't need to know. They need to just have a "male" God. After all we are too stupid to figure out how deeply the jews have destroyed the "male and feminine" aspects and too stupid to figure out from where it was stolen...Which happens to be...all our Gentile Religions. Well. It seems like the Goyim know. As they always knew, way before the emergence of the emergency situation of the jew.

The jews due to lack of internal understanding and because they wanted to stupefy the masses and turn people against people, but also because they were gravely afraid of everything Feminine (as feminity is power, the attractive principle and such, all arousing emotions, unconscious mind, Serpent, Ancestral memory, giving life etc- all hazardous to the enemy's death cult). Give to the jews the greatest thing, give them time and a pen or a scribe and you will soon end with a plan on how to put the world into jewish supremacist regime, how the whole world will be degraded into a communist clump and how the people should be better enslaved under a jewish rule. Its just their supremacist and murderous nature showing itself, nothing more. Their evident paranoia and fear of anything Gentile, as well as the hatred for everything we are and do, or ever did. They turn the greatest things and the most exalted things into the lowest garbage and this is the internal nature of the jew expressed in their works and "Creations".

After all, give the most exalted work of Wagner to a pig. What it can understand? Well at least if it doesn't understand, it may just not destroy things, or formulate a plan to world enslavement with what it is given. Maybe I judge the poor pig too harshly, it doesn't deserve to be paralleled to the jew. The Pig would never do that and its a very good animal. The jew on the other hand is worse.

Its only with the power of the feminine forces this world and more especially life goes in the front and in the guidance or pointing of the masculine, which is supposed traditionally to guide the feminine, while paradoxically being guided by it, that balance and power are achieved. Cut one from the other and both remain weak, and incomplete. Harmony and Unity is what the spiritual process is about. Man and Woman are by nature tied together, and in each every man and woman, no matter they sexually prefer or what they like, are the embodiment of both forces. Both these polarities play a crucial role and complete one another. Also, two men and two women, in the same relation, can be of "Masculine" and "Feminine" nature too. This
is what harmony is about. Of course, yet more lies about the enemy about sodomy or anything else. Shut it down for the masses, gay people in the Gulag and meanwhile, most of the enemy high ranking priests, do sodomy or other "forbidden" sexual practices all the time.

But when it comes to the real perversions and sicknesses of the mind and spirit, such as raping children or sex with minors, the jewish and Abrahamic religions are openly advocating. Of course. Marry every 7 year old you want, every woman at 9 years old can become a wife, suck toddler's dick for its the covenant of Abraham. But, Masturbation will get you killed by the hand of "God" as the "God" killed Annan in the bible, for masturbating. "God" is fine with sexual abuse of minors, sucking baby dick, taking sex slaves in Israel, what have you. But don't you dare masturbate, sinner.

Islam, Judaism and Christianity. Lovely advice. Quite a people to get your ethical and existential advice from, indeed.

The jew lies to people that they are to hate the other sex, or hate their own, their sexuality and anything else, or their polarity, but nothing of such is to be hated but rather accepted, so everyone can become whole and complete, externally and internally. These are personifications of the Divine and in the same way its expressions. So Women, embrace the fact of you being Women, honor this until death to the highest standard, for you are Divine. Men, do the same thing. People of the 3rd sex, adhere to your own special mission.

The jew is about discord, death and ignorance for others, which all do bring the eventual collapse of everything, in the personal, social, ethical and spiritual sphere.

"Peculiar planetary arrangement" piqued my curiosity. I am usually quite busy but I'm stuck at work today and it's a slow day, I can take a look at it.

In some of her posts, she explains specific transits in detail. Here is one such post:  https://groups.yahoo.com/neo/groups/JoS_Astrology/conversations/messages/1510

The book "Dynamics of Aspect Analysis" by Bil Tierny in the files section of this group explains more about how to interpret aspects.

| **Subject:** LOVE COMPATIBILITY: TAURUS & AQUARIUS | Attachments:  
images.jpg |

The Aquarians like to live in the past or the future- they dream a lot. The Taureans on the other hand live in the present, for them, the past and the future hold no meaning.

The Aquarians needs as much as five seconds to call someone they met, their friend. In contrast, the Taurean may take five years and still not be sure if that person is their friend!

So, their union can be successful but it takes time as well as effort.

**TAURUS WOMAN & AQUARIUS MAN**

How would the relationship be?
The Taurus woman is tailor made for romance, the Aquarian man however likes his own space and privacy. His principles are firm and fixed, which he refuses to change. The Taurean woman is attracted to his manly qualities, but to what avail? He treats her as a friend. Although it is only to test where the relationship stands, the Taurus woman has no patience for it.

What would the main loopholes be?
The Taurean woman believes in a forever kind of relationship, she will try to make it work whatever happens. The Aquarian man is also a forever kind of guy- but till the time it is working smoothly, he will choose to end it once it starts causing stress to him.

The Aquarian man can adapt to change easily and this helps him deal better. But the Taurean woman is scared of change. She feels secure and safe with her partner whom she does not want to leave.

These opposite thought processes lead to conflict.

What can be done?
Both of them can learn something from each other. The Taurus woman can learn to be a little easy going, and the Aquarius man can learn to love a little.

In my natal chart I have a total of 14 aspects 6 are squares and 3 are opposition. I have 2 beneficial conj and 2 sextile. And one trine.

My question is does this mean I will have a life full of struggle and it will suck or is there some known successful people with lots of challenging aspect.

Thank you

Pisceans seeks knowledge, and the Taureans provide guidance to them as they are practical.

When it comes to money, Pisceans will worry about it only when there is need, they don’t believe in saving it. Taureans however like to save for a rainy day, and are generally more concerned about their finances.

They also differ when it comes to facing a situation or question. Pisceans will try to escape whereas Taureans will boldly face them.

So, they have several differences and need to adjust with each other.

TAURUS WOMAN AND PISCES MAN

How would the relationship be?

Taureans and Pisceans, both, love peace and quiet. They are more towards the pessimist side, and often find themselves in some or the other trouble. This trouble may be their own, but mostly it is someone else’s doing. They just get mixed up because they are such good listeners and try to solve other people’s problems.

The last thing a Taurean woman will do is dominate her man, this is extremely satisfying for the Piscean man as he is not one to deal with aggressive females. He is gentle and demands a woman who is the same.

What would the main loopholes be?

There are two kinds of Pisceans- those who depend on others, and those who do not. If a Taurean woman falls in love with the kind who is dependant, she will support him both emotionally and financially. However she will lose her temper once he starts depending too much.

Contrarily, if she falls in love with the kind who is independent, she will not be able to comprehend how he is. Her stubbornness will cloud her judgement and there will be disagreements between them.

What can be done?

The Piscean man needs to be loyal, honest and supportive towards his better half. And the Taurean woman needs to understand that her man needs his own time too- to contemplate on certain things important to him, which she might not understand.

Read Taurus Daily Horoscope and Pisces Daily Horoscope to predict your day and plan accordingly.

TAURUS MAN & PISCES WOMAN

How would the relationship be?

The Taurus man can be a little authoritative. But the Piscean woman is not one to bear it silently. She may take it for some time, but then put her foot down.

The good thing about her is that she is bright and sensitive, these qualities complement the Taurus man.

What would the main loopholes be?

The Piscean woman is elusive and secretive. She may also procrastinate a lot. All of this is completely opposite to the disciplined Taurus and this may lead to conflict.

The Taurus man’s belief in male dominance is another reason of disagreement between the two.

What can be done?

The Taurus should not always be pre-occupied with the many things he wants to achieve. He should learn to pay attention to his Piscean woman or else she will wander away.

Squares and oppositions are not always negative, and conjunctions and sextiles are not always positive. Squares and oppositions can be good and give grounding to the individual.

It depends on **what** specifically the aspects are (don't post them here). Depending on what the aspect is, it can have a negative or positive affect. You can check out each aspect at this site:

**The Planets: Signs, Houses and Aspects**

Squares and oppositions, both in natal and in predictive astrology are not all bad. It depends upon the nature of the planets for one. There is a lot more involved as well.
2 examples: 1 man had what nearly every book out there would deem as most benevolent, a Jupiter/Venus conjunction on an angle on the descendant. Now, this aspect DOES give some good fortune in the life, BUT, this man had Sagittarius on his ascendant, ruled by Jupiter. With Taurus on the cusp of his 6th house of health, Venus, which ruled this house was in tight conjunction with his ruling Jupiter, giving a health problem. He swallowed cleaner when he was 2 years old and had a lifetime of serious health problems in connection with his throat [Taurus on the cusp of the 6th].

Whenever someone has the ruler of the sixth, or a planet/s in the 6th aspecting the chart ruler/s, one can expect health problems, often chronic.

There was another one I noted- this woman had very few hard aspects, and a Saturn that was free of hard aspects. She was born 16 July 1948 and had 29 degrees of Scorpio on her ascendant with Sagittarius intercepted. She was plagued by severe health problems her entire life. She was married 5 times, had three kids. Her husbands beat her, she lost all three of her kids, of which she put up for adoption, this also troubled her to an extreme [understandably], she allowed herself to be used and used like a doormat. Her entire life was horrible. She moved around a lot, left jobs and drifted. Nothing ever seemed to last for her.

In spite of all the misery Saturn can plague people with, on the upside it can give stability. It is very important to always finish what you started unless you have a VERY serious REASON [not excuse], not to. Losers are the ones who quit. The winner is always the last one standing. Anyone or even anything that lasts gets respect. Saturn rewards those who last.

I also want to add, those new age and related books that are critical of fixed squares and fixed t-squares for one, neglect to mention the predominance of the fixed signs inclines one to success. Why? Because these people last. These are the people who can stick to a routine and finish what they start. The predominance of fixed signs are seen in highly successful charts, like successful business people and those who have had to study extensively to reach the top level in their careers.

Mutable signs are the weak signs. The same books out there place a positive light on the ability to adapt. Idiots! The mutable signs are the ones who have weaknesses, are changeable in their opinions and everything else, and are easily distracted and above all, rarely finish anything they start. I am talking those who have an emphasis on mutable signs.
In closing, I want to add also here, through power meditation and through channeling energies through goals, much of what is in the natal chart can be sublimated. Olympic gymnast Nadia Comaneci is a strong example here. With a Scorpio stellium [very difficult to handle], she reached the top by applying her tendency to overdo things, take everything to an extreme and her obsession [all traits of a Scorpio stellium] to the sport of gymnastics.

It is a sad fact that there is a lot of misleading and inaccurate information regarding astrology in the mainstream books out there. The majority are written by Jews. Then the holier than thou new agers. I have read my share, reading through pages and pages of endless crap to get to one paragraph or sentence that has something of worth. I also want to add here that few if any authors of these books have all of their information down. They fill in for what they do not know.

What exactly does a stellium do? I checked out on Azazel's astrology, but I still don't quite understand. Apparently I have a stellium in Capricorn, all in the 3rd house, but I'm not quite sure of the effects of the stellium. I have the normal aspects and everything written down, but I'm still learning, and do not understand the effect of the stellium for Capricorn.

Subject: Re: Stressful aspects

Thank you very much for this info HPS. I don't know if you realize but most every example you used is in my natal chart in one way or another! This is very helpful! Especially with the 6th house which was one of my main concern.
My 6th house has Aries on its cusp but is afflicted by 2 planets that are said to bring poor health. One is the sun which in my chart is conj. mars(7th house). Both my sun and Mars are in Taurus. Mars is opposition my ascendant, but doesn't make an aspect to my chart ruler. Honestly I haven't had any health problems yet, but I am still young. Again I really appreciate your time! Hail Satan!!

Subject: How to tell how many children you can have using the 5th house?

https://milkywayastrology.wordpress.com/2013/08/14/using-astrology-to-predict-the-number-of-children-one-will-have/

The link above is a website I randomly searched for about how many children will I have. I see adorable little babies everywhere and can't wait to have one of my own; however, the catch is that I’m planning to transition from a male to female. I'll have to consume an anti-androgen that sterilize you within 6 months - which means I won't be able to father children. It's so important for me know how many children I’d be able to have and I want to know any Satanic astrologers who’d be willing to help me read my birth chart and/or advice?

Subject: Re: How to tell how many children you can have using the 5th house?

You can always freeze your sperm for use at a later date.

Look at the sign of your fifth house cusp. Then look at the ruling planet of the sign, and the very sign of that planet.

Look at your original sign and house in that planet and blend all the information including what the house represents. That will give you an idea. Also look for other planets, houses or aspects in your chart. It is important to take everything into consideration. If you have any planets in the fifth house also may reveal your relationship with them etc.

Please correct me if i'm wrong. I am very new to this.

When you say, my "original sign and house in that planet and blend all the information including what the house represents", what do you mean by that? My zodiac sign is Virgo and the ruler of that sign is Mercury. I only have Mercury in my 4th house; however, I’ve also read that the 5th house represents the 1st child. The second child is in the 11th house and the 3rd, or remaining, in the 1st house.

Looks to me you understood what I meant.

By the original sign, I meant for an example:

Virgo on the third house cusp. Mercury rules the sign Virgo. I would then look at the meaning of that sign in the ruling planet. But also, I would look at the original sign and house I was born with. Which for me is Aquarious in the seventh house of Mercury.

So I blend that information. Third house rules communication.

I assume you don't know how to use an ephemeris to check out your transits or solar/lunar returns?

Sorry, but this is as far as I can help at the moment. But you seem to understand it fine. Take care.

**Subject:** Full Moon February in Leo

Warm Greetings to fellow comrades of Satan!

Can someone advanced in Astrology advise on what workings we should do and Magick - white and favourable will be recommended to do this coming Full
moon 22ND Feb?? (please note , this is for Southern equator)
However I see this full moon is also a Void of Course.

One source says moon will be in Virgo - and void of course moon starts from Monday 22nd (Leo to Virgo)
Remember, this is from (southern equator calendar.
US - Northern says their full moon is in Virgo and 23rd Feb ... I'm confused...
One online source says these planets -

"Sun enters Pisces on 19th Feb & Full Moon @ 3 degrees Pisces/Virgo on Feb 22nd opens Pisces season for the year."

The Full Moon at 3°33Virgo 33 on February 22nd 2016
6:18pm UT

The fiery Leo Full Moon lights up the Night..The Cosmos is putting on a show in the night sky from January 20-February 20é 5 planets will line up in the early morning sky this month.

Mercury will be lowest in the sky, closest to the rising Sun. Then comes Venus, Saturn and Mars with Jupiter riding high in the skyéò

Also do we have to go by our birth chart and planet rulers in order to decipher what times/dates are best to take action in day to day moon phases and astrological aspects??

Much appreciated!

Hail Satan!

Subject: How To Figure Out Exact Birth Time
This was originally just going to be a reply to a post but it became quite long.
It can be figured out (rectified). I’ve successfully done it for everyone in my family since they don't believe in astrology so I couldn't really ask for their birth times... plus most people don't know when they were born. And I wanted to know their charts.

It can take a while of going back and forth with your chart... fiddling around with it. To rectify, use https://alabe.com/freechart/ and not astro.com. Alabe lets you just click on the back button to change the time and then submit for a quick new chart. Astro.com takes too much time to change birth data, and when you have to go back and forth dozens of times, you'll want to save some time.

So to rectify... make the chart with your approx time of birth. Or just noon if not known at all. Look to see where the planets are, compare the info on planetary placements on Azazels astrology (or just your own knowledge, depends on your astro level).

Look at Pluto, which rules our obsessions. Does the house it is in match up with your personality and life? If yes, now look at Mars, where our energies go. Does this match up? Look at Saturn, where our hardships are. Does it match up? If any (or all) do not, then click the back button on your browser, enter a new time based on what house you think any of these planets should be (change it by an hour for a slight variance or even by 20+ hours for drastic variance), and click on "submit". Look at the new chart. Does this match up? And then look at the other planets. You'll need to spend time tweaking it until it's just right, you'll probably find yourself fine-tuning it by changing it by just a minute or two at a time.

The reason I look at Pluto, Mars, and Saturn first is because these aspects of our lives (and the lives of others) is easiest to see. Glaringly obvious, in many cases. Moon, as well, since that's where our emotions are. But keep in mind the nature of the sign the planet is in, don't let that alone make you think the house placement is accurate or not. For example, Moon in Cancer is very similar to Moon in 4th house. So keep in mind that just because your Cancer Moon sounds like the description for Moon in 4th house, your Moon probably is not in 4th house (1 in 12 chance). Blend the two: planet in sign and in house.

So you're going to be going back and forth a lot until the chart makes sense. Once it does, then test it out. Look at when the outer planets transited the houses over your past few years. Do they make sense?

For example: With your new chart and test time, if Saturn is transiting the 2nd house and you are noticing these effects (finances suck), then this may be your correct time. Are you currently focusing on your career? Look to see if Pluto transiting the 10th house of the chart with this birth time. Did these transits take effect in your life around the time the planets entered the houses? Did you make a long distance move recently, or a decade ago? Look to see if Pluto crossed the IC (4th house cusp) around that exact time. A marriage, look to see if any outer planets crossed the DC or aspected the ruler of your 7th.

These are just examples and many other factors play in, but this helps give an idea. At the time Pluto was in my mother's 5th house and conjoined the ruler of her 5th house, I was conceived (her first child) and at the time it retrograded and conjoined again, I was born. This helped verify to myself, that I had figured out her correct birth time, as Pluto aspecting the ruler of the 5th is often seen when one has their first child. The first time she moved internationally, Pluto conjoined the ruler of her 4th house. If I had a different birth time set for her, these would not have made sense. I hadn't even known her approximate time of birth.
This is why if you look online, many astrologers charge a lot of money to rectify charts. It can take days of emailing back and forth and asking personal questions. It can be very time consuming, unless you luck out right away. Be prepared to spend quite a while rectifying your charts. I spent time over the course of a few days figuring out one chart, and it was someone I knew quite well but she had a long and eventful life. This is not always the case though.

If the moon is void, do not start any magickal workings. When looking at websites to see what time the moon is void, look at the time zone the website is using. You will need to convert the given times to your local time zone.

Here is information on how to read your own natal chart. A natal chart is a map of your soul and can be extremely unpleasant as it brutally revealing.

Azazel's Astrology for Satanists

I was studying about the different house systems and how they work and "stumbled" upon some articles that I wanted to share with the group. I think they contain important knowledge for us SS.

According to the following articles the original house system was clockwise! (this means that the 12th house was the first one). One author connects the change from clockwise to counter-clockwise as a corruption of sorts.

Another author locates the loss of knowledge when the astrology texts were translated from Greek to Arabic. The meanings got confused. The xian plague corrupted knowledge in europe and after the Renaissance the (corrupted) Arabic texts got re-translated to english.
Recently some ancient Greek astrology texts were translated revealing that the whole sign system was used. It's mentioned that the Vedic astrology still uses the whole sign system.

This is absolute garbage. First off, astrology SHOWS us who we are, it does not blindly TELL us. Natal charts are a map of the soul. Anyone using the methods you posted here would not get anywhere in astrology. Why? Because it simply is not accurate. I have had readings done by "astrologers", and it was very inaccurate. Some accurate stuff, but most was not. When HPS Maxine did my chart, I was blown away by the real, actual, accurate, in-depth information.

High Priestess Maxine has spent over 40 years studying astrology, and she has knowledge from the Gods. I also have knowledge from the Gods. You know, the Gods who bring us Truth and teach us **real information**, not useless corrupted crap.

I didn't mean to tear into you, but posting garbage like this can really hinder people who are new to astrology. Before posting something and claiming it to be "important knowledge" as you wrote, make sure you do research and test it out for yourself. Go ahead, test out the "knowledge" you posted and see if it is accurate. I can guarantee it is not.

You do understand that I'm not trying to deny astrology, right? And you do understand that I didn't post this articles accepting them as the truth. Right? And also, I didn't deny that the knowledge that the Gods give us is wrong. Is that clear too?

Did you read my questions on the bottom of the list? Do these questions seem that I'm stating these articles as the truth?

I'm looking for a discussion with knowledgeable people, that can share their opinion about these articles, not get attacked and accused without reason!

The way I see it, is that getting attacked without reason, while seeking knowledge and discussion, is a certain way to "hinder people new to astrology".

Even if my opinion is wrong, you can share your opinion so I can learn too. But there's no need to attack me personally for sharing a few articles and asking an opinion on the subject.

I hope this makes sense to you, lydia, and clears the misunderstanding.

Lolo,

I don't think Lydia was attacking you. She pointed out that the 'Important knowledge for us SS.' isn't correct and that information given is false. Therefore, it wouldn't be wise to tell new members who may not understand astrology yet about false and corrupted information. I agree that it's important for everyone to be aware of what is real and true, and what is false and wrong. You expected other's opinions and Lydia gave hers, yet you wouldn't accept that her opinion is different when she pointed out that the information you gave is wrong and wouldn't be helping anyone. That really defeats the whole purpose...

On the second half of your response. You pointed out that you didn't expect such a strong reaction yet you question the response Lydia gave as if she hadn't understood a word you said.

Even if my opinion is wrong, you can share your opinion so I can learn too. But there's no need to attack me personally for sharing a few articles and asking an opinion on the subject.

Then learn from what you just posted and realize that Lydia was not personally attacking you. The statement above goes hand in hand with the line I wrote above that. Next time, maybe read through what you intend to post and ask yourself how others will view this.

Sorry, I really didn't mean to come across like that :/ my apologies. I'll re-answer later today as I'm on my way out and just on my phone.

Thanks Jethro. I really did not mean to attack Lolo so I was surprised that it seemed like I was. It was not my intention to come across like that at all.

Well some things are quite simple. Just lay our your chart, western style. When Saturn comes on the way of your personal planets, just pay attention. Also, pay attention to pluto. Then you will be easily and at once convinced this is the real deal. Western astrology is the real deal.

Now some other systems can be important, theories and such, but many people just cannot accept or understand at once what they see in astrology, so they want to add more and more until it suits their ends. In fact, the simple western chart is very good at understanding things.

Of course there are hidden things in astrology and the Gods can really help with that. When self knowledge suffices, then Astrology comes to help. Its not the tool to understand "everything" with. It's a map.
First of all, Lydia, Jethro, HP Cobra,
Thank you for your replies! I really appreciate it.

And yes, for me also, western astrology makes a lot of sense to me. I've been using the Placidus house system for all my interpretations for more than 8 years now.

It makes sense for my own chart, it makes sense in the charts for my closest friends and family and it makes sense for everyone I ever did a chart.

But I'm always curious and always seek to learn more about how things in astrology work. And that's the reason, even though I can make very accurate interpretations with the placidus house system, that I want to see what other systems exist.

I believe, there's a reason (at least for me) to research this. Not in order to disprove something that I already know that it works, but to strengthen my reasoning about WHY and HOW this works. This is a true expression of my innate interest about the "inner workings" of astrology, and in extension, about the inner workings of our reality. And I feel this feeling comes to me from the Gods.

For me astrology is the fastest and most accurate way to explain the inner workings of a person and his/her soul and explains a lot in a "mathematical" way.

So, after studying a lot of years about western astrology, my analytical mind makes the next
step and it's like;
- What if I change the house system from Placidus to Koch?
- What difference would that make?
- Will the interpretations will still be accurate?
- What if I change the house system to the Whole Sign system?
and so on...

So if anyone has already explored something like this, I would love to hear about it.

I hope this makes sense!

Re: How to tell how many children you can have using the 5th house?
What you need to look at is the sign on the cusp of your fifth house and see what planet rules that sign. For example, if you had Aries on the cusp of your fifth house you would look at the sign Mars is in within your natal chart as Mars rules Aries. You would look at the sign Mars is in, the house it is in, as well as any aspects to other planets Mars may have. Then you would look at any planets that are in your fifth house and take into account the signs they are in and any aspects they may have. To make a final analysis regarding children, you need to take into account Mars, the planets in your fifth house, and the fifth house itself.

I do not think High Priestess Maxine Dietrich is currently doing natal chart readings. If you want a professional, Satanic reading, you can contact Lydia. Her email is lydia.astrology@gmail.com.

You can still do workings to improve your mind and intelligence when Pluto is transiting your natal Mercury. Pluto in Aquarius is not malefic. Pluto is a neutral planet. Pluto in Aquarius is just less powerful than Pluto in an exalted or home sign.

Me? Well, I majored in psychology in university because I wanted to know how people worked. What makes everyone tick. But psychology didn't have the answers I was looking for. After becoming SS I ordered my natal chart reading by Hps Maxine and she wrote astrology would be a good career choice for me. So I said to myself "well she was dead accurate about everything else, I might as well try to learn this". After a month or so, everything started to click.

I didn't set out to make astrology a career, or side-career. People randomly started to email me asking me to do their charts, and as I was unemployed for a while with nothing better to do (this was 4-5 years ago) I was happy to oblige. And some people insisted on paying me. After a few years of this I decided to make an official website and see what happens. I am currently up to my eyeballs in orders with no time for anything else. Not that I'm complaining, it would
be perfect if someone at my day job didn't quit leaving me with extra hours to cover even though I'm only supposed to be part-time there as I am also leaving due to moving away.

I love astrology <3

Hi, everybody!

So... when we have a weak planet in our astrology chart, we can strengthen it by vibrating a kabbalistic square. Also, we can strengthen the effects of different Zodiac signs by vibrating their mantras.

I was wondering if we can also manipulate the aspects between the planets? For example I have a square between my Mercury and my Moon, and it affects my memory quite seriously - I tend to forget things quite easily. If I could "erase" that connection between them, or turn it into a more positive connection, it would be awesome.

Can it be achieved somehow? Or is it only achievable by strengthening the affected planets? If that's the case, what they are both negative planets, e.g. Saturn and Neptune? Are there any mantras or anything that we could use for this?

Thanks in advance.

Doing either of those planet's squares will help with memory, or the rune Mannaz (mannauz is more powerful, lol I beat johnson_akemi to it).

As for manipulating aspects... I did a meditation a while back, every night I would go into a trance and "feel" my chart and the aspects and tweak it a bit. It may not give you the extent of the results you are looking for but it's great to experiment. Working on yourself can overcome any negative aspects. The runic or planetary square working would yield the quickest results.

I`m very sorry, but I cannot enter the discussion. I`m new and I have still a lot of things to learn. Also, I`m currently working on classification of Demons. I almost don`t know anything about Astrology, so I hope that you`re going to forgive me for not giving my oppinion on this subject.
Blessed be,
May Lord Satan and Demons be with us.

So am I confused here? If you would do a working on a planet in a hard degree i.e. 15 degrees leo, would it worsen it or does it do the opposite?

Re: Counteracting hard aspects

That's actually a good question. Some would just assume that it makes it better, but unfortunately some stuff in life can be downright rotten. I personally don't have experience with doing a working on a natal planet and it turning out worse.

I would say, use a positive affirmation. Do the square (unless it's Saturn which can make things much worse) and affirm something like "In a positive and healthy manner, the energy of [planet] is making the positive aspects of my natal [planet] more prominent", or "in a positive and healthy manner my natal [planet] is becoming more positive for me in every way". Just a few ideas, perhaps someone with experience in this specifically can answer. I'm only writing this as nobody else has replied yet.

Re: Counteracting hard aspects

On second thought I doubt degree matters. If it did matter, my chart would not be workable on that area, seeing I have my Saturn in a place which is on the same matter issuing as the 15 degree leo planet would be. Just not in the same sign or house.

Re: How To Invoke Fixed Stars' Energy?

Hello to my fellow astrology experts,

I need help interpreting fixed stars in my girlfriend's natal chart.

Spica Opposite Mercury in 11th House (2 degree orb)

Betelgeuse Conjunct Jupiter in 8th House (1 degree orb)
She is not an SS, so can I invoke the energy of those stars to enhance their power?

Is there such a thing as drawing in too much energy from the stars? The JOS site doesn't give much detail on how long and how much energy I can safely draw down from stars. I don't want to hurt my GF or myself.

Thanks for all your help!

I noticed when Neptune was going over my natal moon it was at the time I was friends with some drug users / drug addicts ...

No. Do not do a Saturn square, vibrate Saturn mantras, or do anything else to strengthen your Saturn. Saturn rules misfortune and increasing the strength of Saturn's energies in your life will bring bad luck, accidents, horrible people, and other misfortune into your life. Having a strong aura of protection and keeping your energies high through meditation keeps negative parts of transits from manifesting.

**Subject:** How To REALLY Interpret Planets, Houses and Signs

Help my fellow experts in Astrology...

I would like to know how Astrologers REALLY interpret planets, houses and signs.

If you ask 100 different astrologers to look at the same chart... you will get 100 different interpretations. Sure, there may be some overlap, but for the most part, it always seems like they are reading a totally different person, even though they are reading the same chart.

I would like to know the METHODOLOGY of how astrologers arrive at their conclusions.

For instance... On Azazel's Astrology webpage, It says the 8th house Rules: Sex, death, taxes, inheritances, money one owes, the partner's finances, what one receives from others, the kind of death one will have, deep soul mate contacts, changes brought about by a major crisis, legacies and wills, how one evolves through suffering. The eighth is the house of the occult, the spiritual and is a house of power.

Now that covers a LOT of different areas of life! And it seems like that for ALL houses.
And then you take the planets and the zodiac signs and they have a laundry list of things they "rule" as well.

So if my Sun is Scorpio in the 8th house... how does an Astrologer know how to break down the endless variables and arrive at a solid conclusion? I mean, it could mean the death of my father or an authority figure. Or maybe it involves my sex life... or maybe it involves some back taxes.

I hope I am making sense here because I don't want to just read quick descriptions on astrology websites that give me a brief overview of planets in the houses and signs... I want to know the METHOD TO THE MADNESS, so to speak.

Any help is greatly appreciated. Thank you!

HAIL SATAN!!

PS. I have been studying the Azazel's Astrology pages for a couple years now. So please do NOT tell me to go to there to learn more. Also, I have read the PDFs in the files section by Bill Tierney and Donna Cunningham.

It seems most astrologers meander on and have tangent after tangent. I can't make sense of any of those PDFs or most astrology websites. Azazel's Astrology is straight to the point. But is just scratches the surface... I need to understand astrology even deeper. Thanks.

Yes but I am kinda sick of meeting people that just aren't there for you when you for one need em and that just are being stupid to you. I don't feel like spending another 2-3 years dealing with this shit. Already have had about 3 years.

I have not been here for long and I certainly am not strong enough to cancel this transit out. Like I said NEPTUNE going over Saturn. So by your info I’d have to do a Saturn square.

Neptune is at 10 pisces and my Saturn is at 12 in pisces.

I take it that this method works with other planets too. I am not an expert just trying to find a way to keep life as easy as possible.

You need to look at the whole chart to narrow down what a particular planetary placement or aspect means. For example, the sixth house represents ōday-to-day stuff,ō like health or work, and properties of planets in the sixth house will be part of that ōday-to-day stuff. If someone has Saturn in the sixth house (Saturn rules shit, hard work, and misfortune) then things like hardship, hard work, and misfortune will be part of that personō ōday-to-day stuff.ōWith Saturn in the 6th house, that could indicate things like chronic health problems or a job that is terrible. If this particular person had their chart ruler in the 10th house, putting an emphasis on things like their career, then the person may have an all-consuming job that is the focus of their life and leaves them little time for anything else. Using your intuition helps when interpreting a chart.

In the example you gave, sun in Scorpio in the 8th house, you would look at the house in your chart with Leo on the cusp (the sun rules Leo) to determine if someone in your life is at risk of dying prematurely. If there is a risk, the risk can be eliminated by building an aura of protection around the person or people ruled by the house with Leo on the cusp.

If you have not done so already, thoroughly read the Joy of Satan website. Doing so will explain much about magick, the mind, energy, and how the world works.

The goal of Spiritual Satanism is to spiritually empower yourself and obtain powers that humans are supposed to have like healing and telepathy. The final goal is to complete the Magnum Opus and become a god. Consistent meditation is key to those goals. A good place to start with meditation is the 40 Day Meditation Program available in Satan’s Library.
Azazel's Astrology for Satanists on the Joy of Satan website explains astrology in a straightforward manner.

If you have not done so already, thoroughly read the Joy of Satan website. Doing so will explain much about how energy, the mind, and magic work.

For your personal safety, do not post your natal chart information online. You natal chart is a map of your strengths and weaknesses and can be used to hurt you.

To increase your sexual appeal to women, you can do a material Venus Square and vibrate the mantra for Venus. You will need to direct the energies of the mantra with an affirmation like, "In a positive manner the energies of the Venus square are permanently increasing my sex appeal."

The whole chart needs to be taken into account to correctly interpret a particular aspect. For example, Jupiter conjunct Betelgeuse will be beneficial for the houses with Pisces and Sagittarius on the cusps. What affairs those are is unique to your girlfriend's chart.

If you invoke the energies of the stars, the energy will empower you. It is possible to invoke too much energy from stars. If you find that you are being over-stimulated then reduce the amount of energy you invoke from the star. The amount of energy you can invoke is determined by how powerful you are spiritually.

It is in your best interest to delete this posting. It is unsafe to post your name and birthday online. Especially together at the same time.

I'm sure you can work something out with this person. lydia.astrology@...

An explanation of how to use the squares is in the Satan's Magikal Squares PDF. You will need to do the vibrations for the square during the appropriate planetary hour. The program Chronos XP shows the planetary hours of the day. The planetary hours are also available online.

Azazel's Astrology for Satanists is more straightforward than a book on astrology. The information there is 100% accurate. Astrology books are corrupted to some degree and, if you read them, you have to sort the truth from lies. You can also just raise your energies and then ask for Father Satan to take them. This can even be done more than once, but always remember, never drain yourself, do NOT give any energy if you are even mildly ill or overly tired.

Also I think I will add the second link to my meditation program. When I first joined somehow the aura of protection seemed stronger than what I can make it now. I have no idea how or why but that does not matter. I need to build an aura strong enough that I won't get hurt by whatever curse and stuff is still with me.

I am quite positive that there is absolutely nothing in my chart that would indicate people being backstabbers, just bullies or anyone else for that matter that would hurt me for no other reason than the way their own mind seems to be. (Like I get to see the worst of the worst in some cases - yuck)

Despite my Saturn in seventh house.
I am quite positive that those things are not to be made to happen by Saturn or a Saturn transit or a planet transiting Saturn.

For all who are interested in astrology, even newbies. This is mostly copy pasted from another thread, but I started a new post to get more people interested in this.

I created a random birth data, and anyone interested can write up a natal report on it. This will allow everyone to see how different, or how similar, natal readings done by Spiritual Satanists can be.

Any interested in astrology can participate. This will be a learning experience for all. By the deadline, everyone can email me their readings and I will start a new thread (for the forums, for this group I will post when I have them as I am on moderation here). Once the new thread has been approved I will reply with
everyone's charts to it all at once, one after the other. I will leave them anonymous if wanted, or post the name if wanted. Up to the individual. Some newbies may be too nervous to have their name published with their readings, no problem. You can always quote it after with your name if you decide to.

The reason why I would want to have them all and then post them all, is to ensure that all get posted. If some advanced astrologers post their readings, then the newbies may feel that theirs are not as good. This will also enable any readings to be anonymous. I will just write "Done by Anonymous" at the top of each one.

I really think this will be a very positive and fun learning experience for all.

Even if all you can get is like half a page, that's still a great start!

**Group:** JoS_Astrology  **Message:** 2199  **From:** kyleshand  **Date:** 4/18/2016  **Subject:** Why does Saturn help me more than the Sun?

I have a weak Sun in my astrology chart, in 7th house, Capricorn. It's also opposite my ascendent and making a square to my Moon. I have many Capricorn planets. Mars, Mercury, Uranus, Neptune and Rahu/North Node in Capricorn as well as the Sun.

My Saturn is in Aquarius 8th house. And despite all conventional astrological wisdom, my 8th house affairs are very good, I do receive quite a lot of other peoples money, from the government. Sex has always been available to me, which is almost miraculous considering I am a loner male with little social status or skills. I make studying the occult the centre of my life and have developed quite a lot of knowledge and skill. I'm far from a master, but certainly know more and can do more than your average person.

Not only that but when I have worked with Saturns energy it really does help me focus on my goals and give me like a calming but focused sense of energy which lets me apply myself consistently to things.

The Sun on the other hand never works for me, even when I try invoking it's energy it doesn't raise my self esteem or vitality or anything, all it seems to do is raise feelings of envy and powerlessness in me and makes me think of how much I hate people who are more successful.

My self esteem sucks, my relationships end in fighting, people do not respect me, and I often feel powerless in the world. It's only because of my exalted Mars and occult knowledge that I have at least had the satisfaction of bringing some pain to the people who don't respect me in the past, but that's not the point, I wish it didn't have to be like that.

Why can some people just naturally shine and be respected and loved and are powerful in social situations so easily, but for me it never works no matter what I try? At best I am unnoticed and at worst I am the laughing stock or sometimes even hated.

I also have a question about Saturn.

On azazels astrology when you go to the planet page of the sun at the bottom it says 'aspects' and somewhere else it is also mentioned that a grand trine is an aspect.

Since my Saturn is in a grand trine, does it affect the whole thing?

I'm no expert - but what I can see is that you have answered your own question.

"I make studying the occult the centre of my life and have developed quite a lot of knowledge and skill"

The only, and the most beautiful (uh, for me) word that comes to my mind in regards to your person is RE-FORGED (maybe the dash is needless, and the re- prefix too, idk).

What I DO know is that you've advanced to such a level where you sublimate the limiting Saturnian energies into structuring ones. And you were able to do it with such a stellium.

Kyle, you're a typical Saturnian - this is fantastic! As for the social aspect - dude, I can HARDLY believe your self-esteem can suck, as the planetary alignments make you DAMN STRONG. A person not to trifle with.

Perhaps a runic working? Wunjo / Wyn? This pessimism is the remaining bitchy Saturnian energies that you have to overcome. Another thing in regards to this bitch i shatter and reforge your thoughts of yourself. Know that you CAN destroy whoever you wish who stands in your way, and let this thought intoxicate you. So NO, if you harmed a person, he or she DID deserve the fate.

In what way are they successful? Money? Stable family life? So ask yourself ĭ how well do they know of what is going on in the world? Do they have Father and the Gods by their side? Or do they simply live as if nothing is going on?

Know that some people who are well off (and Without) do not deserve what they have ĭ and they will lose it, as money and earthly goods are transient - not unimportant, but some compensate with riches, outwardly goods, while lacking INNER ones. And human relationships between those Without are shallow. Doubt you ĭ want to have one.

https://youtu.be/4bRR-Wykh1o?t=1m3s ĭ the refrain. It tells us ALL about Father ĭ s gift.

Ummm... would you rather shine for other people, or for the Gods? For Father, who gave us the very knowledge? By Hell, I know what you mean - all too well (12th house person) BUT I know I'm doing something and I feel better working from behind the scene. Why? Because I understood how I am supposed to work. The world needs builders as well as DESTROYERS. But in order for us to destroy efficiently, we ought to cherish, embrace what we are. For the builders to erect marvels of Satanic splendor, we need to raze, obliterate every ugly monstrosity the kike has ever created. Saturn is a destroyer ĭ be the harbinger of ugliness ĭ demise. Revel in your ever increasing power and KNOW that by destroying, you lay the foundations, stable, durable for the future generations to come.

HAIL SATAN!

HAIL VOLAC!

Great, this should be about 7 readings then :)
When it comes to being strong, you're correct. My Mars is in Capricorn exalted and it is the ruler of my Moon. That's not the type of strength I mean when I say self esteem.

The Mars type of strength you are thinking of is like that of a warrior or soldier. I have that. The strength of will or body to overcome obstacles or enemies, I have this in abundance.

The Sun's power which I am talking about is like that of a King or celebrity, the kind of person people admire and look up to, respect etc. The people who have the charisma and leadership ability. It's this where I lack completely. I am useless at being effective socially.

When it comes to destroying outright enemies, I agree with you, people who harm others unjustly do deserve to be punished. But what I am saying is, I have lashed out with black magick before, over petty things, simply because I have been disrespected so much in life, not taken seriously, laughed at, ignored etc I just wanted to hurt someone.

The amount of times, this sort of thing happens in my life, is too many to count, and I would be spending my life doing black magick if I cursed everyone who treats me with no respect, the amount it happens.

Some people I see, are just respected and liked by others and even lead naturally and would never have to resort to black magick, at least not for the reasons I did.

I guess, for me, being an Occultist, I am more interested in the answer of why my Sun functions this way, simply as a part of gaining occult knowledge more than anything else, I just want to know how it's energy works, how can I make it work for me etc.

Don't forget, the Sun is also a God, Amon Ra. And above all else, it hurts to think Ra looks upon me unfavorably, especially as the Sun God, the giver of life. This is sort of the heart of the matter for me, as an aspiring magician and spiritual Satanist, I don't like limitations, I don't think there should be anything we can not do, including make the planets energies work for us in positive ways and make the best attributes of every planet and sign a part of ourselves.

I enjoyed your response, you made me feel positive about myself and I appreciate it.

So please, share with me more about your own chart and your 12th house emphasis, I hear that is good to have for spiritual advancement.

HAIL SATAN! Praise Be To The Gods.

J just to make sure all participants have enough time, I'll post them all on Tuesday. You can either email them to me or post to the thread with yours.

Btw... the birthdate?

- Dec 23: Satan's personal day
- 1988: 88=HH
- 1:17am: 1+1+7=9
- Hell, Norway: Norway is the only country that has a city named Hell.

I made up the most Satanic date I could. Although I started to think that I should have made the year be like 1788 just for the massive generational influence difference. We may do this again at some point though :)

Just so you know, in America there's a city called Hell, Michigan as well :)

connected to my inner power.

It’s a feeling of pure self, you being completely you and the you, the I being invincible. The center and commander of your world.

Also, this isn't an anti desire teaching. In fact, when the self is weak, often we are afraid to go after our desires because the fear of failure holds us back. Desire is very much alive in me now, but now that my Sun is strong, it is purely a forward moving energy, that feeling of lack of self worth for not having what I want is gone.

I hope this helps, perform some rituals to your Sun God, Ra, Apollo or whichever one you resonate with best, connect with them psychically and pray, honor them each morning when the Sun rises, do rituals on Sunday to them at mid day, they will answer you. My Sun God helped me. The Sun is most generous and answers prayers, as the giver of all life, he never turns his back on living things who come to him.

HAIL SATAN!

Can someone tell me the dates for all the retrogrades? I'm going to start the 40 day and do a few rituals as well. I do want to get my dates mixed up and shit. :P

Thank you in advance and HAIL SATAN!

What do the red and blue lines mean when reading the chart? Are they there for show or do they actually have any meaning?

Hell, Norway

Libra ascendant; chart ruler Venus in 3rd house. Third house has a lot of planets so it is probably major focus on this person's live. Stellium in the third house also makes it a bigger emphasis.

Moon is in conjunction with Betelgeuse this can mark success. Sun in Capricorn gives endurance and ability to outlast anyone. Moon's conjunction to Polaris gives ability to find one's way. Jupiter's conjunction to
Alcyone gives motivation. Mercury opposite and Midheaven conjunct Sirius can also be sign of success in political career. Mercury also conjuncts Wega which gives good stuff. Pluto’s opposition to Almach: Almach gives popularity and other benefits. Earth is emphasised in this person’s chart. This makes one very practical and gives endurance.

Chart ruler Venus is in opposition to Hyades this might ruin this persons career after he/she has became successful. Venus is also in opposition to Epsilon Tauri which is good for career. Mars conjuncts Alpherazt this gives motivation and can indicate success. Along with Capricorn’s endurance the motivation can come to use.

Saturn in Capricorn also gives endurance. Mars opposition to Algorab might make this person dishonest. Jupiter’s conjunction to Caput Algol can give drive to become the best (reach the top) he/she can if the person sublimate Caput Algol’s power if not then he/she is having bad tendencies.

This person can be a pessimist since Sun in in Capricorn and Moon aspects Acumen.
This person’s marriage is influenced by 7th house Mars which is very bad for marriage. Ascendant also conjunct Vindemiatrix which confirms that marriage is probably going to be unfortunate. South node in conjunction to Zosma brings suffering and unhappiness to this person’s life. Sun is in conjunction to Saturn; this can give problems in interaction with men especially if this person is a woman. But interesting thing to note is Jupiter in 8th house which might mean the partner has money.

Sun conjunct Neptune makes this person to have his/hers mood going from overconfidence to self-doubt. This aspect also indicates weak father. Moon is in 9th house this can make one to get far away from one’s place of birth. Family might interfere if this person is going to change religion. Moon/Mars aspect is giving clashes with the family. Moon/Jupiter aspect might make emotional attachment to family but this is unlike as this person’s family (and marriage) seems pretty fucked up. Moon aspecting Saturn indicates problems with the mother. Moon opposition to Uranus also indicates that the mother was missing or unusual in some way. It seems like both parents are weak and/or have problems especially the father. Capricorn is in it’s ruling sign and in 3th house; this is very bad for family relations and can indicate this people thinking of being intellectually
inferior to others; Mercury is in 13°; this gives special importance,

Mercury in Capricorn confirms that: They can lack confidence in their
knowledge and intellect, believing they do not know as much as others.

Degrees can give information of the future of this person. Sun and Uranus
are both in 3rd house and 1° as this degree indicates beginning; Sun is ego
and Uranus is in my understanding rebellion it is very possible that this
person gets away from his/hers family (ruled by 3rd house) when time is
right. It has already been stated that moon in 9th house can make one to
get far away from place of birth.

There are also many hard aspects to ascendant this might tell very much
about the personality and hardships he/she experiences in life.

**Subject:** Re: Astrology Readings - Results

Reading done by Gerecht Ror:

This person will be extremely centered on communication, travels, studies. Chart ruler Venus is in 3rd house together with the stellium. I believe he will travel for all of his life for studying purposes, like some sort of research, and will be very brilliant in new discoveries (Uranus conj. Sun) and will give way to new ideas and visions (Uranus + Sun about degree 1°). This will be related to history and ancient times, as such planets are in
Capricorn. Same for Mercury. He (let's say he is male as I'm male) will have strong intuitions driving him in his studies due to the Moon (in Gemini) opposite to Sun/Uranus. Also Mercury rules the 12th house of unconscious and spirituality.

Pluto sextile Mercury will enforce the transformation of the studies and ideas of this person, possibly in the occult sphere, along his life.

This person will have many enemies (Mars/Aries in 7th) and will face obstacles in his studies due to his family (Saturn rules the 4th and is conjunct to Sun/Uranus in 3rd).

Due to his ascendant in Libra he will be able to work for justice and equilibrium and will study and travel for the sake of finding replies to people's questions. He will love people and relationships, and will probably be the leader of a research group due to his 11th in Leo and the Sun in 3rd. conj. Saturn.

Work and career will be hard for him: both watered by Neptune and the Moon, it seems likely he will be an underwater worker (Lol) or a spiritual minister writing a lot of Sermons... LOL a new HP ? Or most likely will have a very uncertain work path in his life.

Not bad about Money, good heritage from family (8th with Jupiter and in Taurus) and partner, Pluto rules the 2nd and is there creating obsession for material possession and probably many energies spent in getting money with partial success.

**Subject:** Re: Astrology Readings - Results

[Re-posting mine as it hasn't shown up yet, originally posted almost 10 minutes ago]

Reading done by Lydia:

[I had originally written ſhim/herè etc, but as one SS brother made the subject male I decided to make it female strictly for the contrast]

Ascendant is 9.52 Libra, chart ruler Venus is in Sagittarius 3rd house. A 5-planet stellium in Capricorn 3rd house plus Venus as a singleton (not connected to stellium). 9th house Moon was Void at time of birth. Hourglass (seesaw) chart shape. 6 planets in Earth, 2 in Fire, 1 plus AC in Air, 1 in Water. North-eastern hemisphere emphasis (personal privacy and independence are important).

With the chart ruler Venus, along with a 5-planet stellium, in the 3rd house, emphasis will be placed in life in the individual's communication skills,
siblings, relatives, and neighborhood. With Sagittarius Venus and Capricorn Mercury here, there is above average intelligence and much writing creativity and talent. Speaking and writing come naturally to this person. She has much focus and is very grounded and practical, further shown by the heavy Earth emphasis in chart (and therefore personality). Her heavy Earth element and Capricorn stellium offset her Mercury-Neptune lack of focus.

Mercury square Mars offsets the shyness that can come with Mercury in Capricorn. There is much verbal skill and is good at debate and she likely wins any arguments. She is adept at reading people and finding their weaknesses, and using it against them. This is further shown by her Mercury-Pluto sextile, which also increases her natural ability for research, investigation, and concentration.

As she has many planets in her 3rd house, and Mercury being tightly conjunct both the star Vega and Neptune, she has a natural talent for astral communications. Mercury ruling her 12th house cusp of occult talent (Virgo on cusp) adds to this. Her Mercury and IC are also conjunct Sirius-honors and fame.

Neptune in her 3rd gives a rich imagination, which will help greatly with her writing ability. Both Neptune and Uranus here indicates a career of writing or speaking about astrology and other spiritual subjects.

Her Sun in 3rd house adds to her communication and teaching ability. Sun conjunct Uranus here shows that much of her learning is done informally as opposed to in a school setting. Sagittarius on the cusp shows a lifelong love of learning. Moon in Gemini adds to her talent for all forms of communications.

She likely has many siblings, as well as step-siblings. Venus in this house indicates pleasant relationships with them, but Saturn here shows that one sibling may be problematic for her. Uranus here shows possible separation from sibling/s.

Sun conjunct Saturn, and Mars in 7th house inconjunct Pluto show problems with men in her life. Father, relationships, and so on. Her DC is opposite Vindeamatrix — unfortunate marriage. 7th house ruler Mars is at 15 degrees Aries, 15 is an unfortunate degree. Sun conjunct Uranus, and Saturn conjunct Neptune, show more and more problems with her father. Abuse, victimization, and so on. Capricorn on her 4th house cusp indicates an
unhappy childhood. Her Moon being opposite Saturn and Uranus shows problems with her mother, as well. Her South Node is conjunct Zosma, this is a star of abuse, victimization, suffering.

Pluto in 2nd, and ruler Scorpio on the cusp, shows that she greatly values money and material wealth, to the point of obsession. This offsets her Saturn-Neptune influence of poverty, and her retrograde Jupiter’s influence of placing importance of spirituality over materialism. Pluto is conjunct the South Scale, can be unfortunate. Her Capricorn stellium adds to her need for material comfort and financial security. Her Jupiter being in Taurus adds to her love of material wealth.

Aquarius ruling her 5th house of love affairs and hobbies shows that she is not very romantic, and enjoys unique hobbies and recreation. She will allow her children to have their independence and freedom, and as her 5th house ruler Uranus and co-ruler Saturn are both in her 3rd house, she will have the ability to communicate well with her children.

Pisces on the cusp of her 6th house of health, any health issues that arise may be difficult to diagnose. Allergies are common with this placement, added to by her Mars-Neptune square. As Pisces rules the feet, she may have problems with her feet.

Aries ruling her 7th house will bring partners who are assertive, athletic, with leadership personalities. Mars here can indicate potential violence within domestic relationships. Her Aries Mars offsets the shyness that Sun in Capricorn can bring.

With Taurus on the cusp of her 8th house, and Jupiter within, she is very sensual with a high sex drive. She may marry someone who has money, or inherit money somehow. Her 2nd house Pluto can bring major changes regarding money.

Her Moon in 9th house Gemini shows that she may move many times in her life. Many of these changes of residence may be sudden and unexpected, as shown by her Moon-Uranus opposition. Moon in Gemini is dualistic in nature; this is added to by her Sun-Moon opposition.

Void of course Moon gives exceptionality to the area of life to the house ruled by Cancer. Cancer rules her 10th house of career, she has Vega on her
IC opposite MC — this star often brings riches and fame. 10th house ruler the Moon is also opposite the star Betelgeuse, a very fortunate star and brings much success, wealth, fame, fortune. Her Capricorn stellium, especially Sun and Saturn being here, shows that she has the endurance and ambition to reach the top in her profession and career comes first in her life. Her Moon-Saturn opposition adds to her discipline and hard-working nature.

Leo on the cusp of her 11th house indicates that she takes a leadership role among her friends. With Sun being in her 3rd house of siblings, and ruling her 11th house of friends, she may count her siblings as her closest friends.

Ascendant is 9.52 Libra, chart ruler Venus is in Sagittarius 3rd house. A 5-planet stellium in Capricorn 3rd house plus Venus as a singleton (not connected to stellium). 9th house Moon was Void at time of birth. Subject: Re: Why does Saturn help me more than the Sun?

Thank you for sharing that too. It's fascinating, and that answers some of my tendencies. However, I have a strong sun not weak. I know who I am. But you are most certainly right! A weak sun may make a person cling to something to feel complete. I may have that problem...it's hard to describe it. As I don't feel incomplete, just goals I want to accomplish because I know what I want. Whenever I meditate on the Sun mantra or that of Amon Ra, I feel a serious sense of power, a raw power.

HAIL SATAN!!!

Yeah sounds logical. I somehow keep doing stuff and even though it doesn't seem like it my day is always filled. Probably has got something to do with this as well.

Oh and some of the things that I've been through in my life. Which were pretty unfair to be very honest with you.

Subject: Re: Why does Saturn help me more than the Sun?

I'm the opposite, charismatic, magnetic, good with words and people always try to start conversation wherever I am. Friends have asked me if I'm enlightened and even asked if I'm real and that I look like a government created cyborg. Yet I'm lonely and I'm broke. And I have good self-esteem too, I guess I gotta deal with something from the past or a past life.

I'd say that power meditation taken to the max should heal every issue you have, especially self-esteem and gaining respect.

How does one use a natal chart to work magick against or with someone? I specifically want to know how people boost their black magick rituals by knowing where someone's Saturn is and how to work a love ritual with natal charts.

can i use a rudraksha while chanting the laksmi mantra?  
Iso should i sit infront of an idol?

---

Yes, you can use a rudraksha, mala, or Satanic Rosary when chanting mantras.

It is unnecessary to sit in front of an idol. Sitting in front of an idol does not do anything. The power of a mantra comes from the vibration. You can sit or lie down wherever you are comfortable.

Can anyone recommend list of books for beginner to advanced? I have a lot of time and I will be out of the civilization for a long time :) I want to read everything about astrology and learn something. I'm gonna stock all the books and read one by one each one.

Wouldn't this take years for certain alignments to accure? Could I read their chart and figure out what would be the easiest way to curse them?

Sorry what is this ?
Sounds like new-age general horoscope for all the world that is not accurate at all.
"Aries : You will not be able to enjoy the fruits of married life"
So this is supposed to happen to 1 person out of 12 in all the world ?
I think this is out of place here and merely spam.

You can download or get hard copies of the books in the "Files" section of this yahoo group. You can also use HTTrack or WGet to download the entirety of the Joy of Satan website and Satan's Library. The materials in Satan's Library deal with important spiritual topics and will keep you busy for a long time.

So this works on your ascendant?

I'm Scorpio and my brother's bond between him and I was severed through a heated argument. Is there something wrong with me not according to what the sign says it should offer?

No, what the OP posted is just an advertisement and is complete bullshit. It is not astrology and not worth any attention. If you want to learn actual astrology, I recommend you check out Azazel's Astrology for Satanists on the Joy of Satan website.

Problems with siblings would show with Mars or Saturn affecting the third and/or fourth house of your natal chart. This can be through transits, progressions, Solar and Lunar returns, Solar arc progressions, your progressed Mars aspecting a significant planet in your brother's horoscope or the other way around, or something else. You must combine the methods to get any meaning out of it all.

Yesterday I decided to check what sun in the house next to the one is in would mean. Its really close to the line, so I figured there might be a chance that that position could be slightly having traits of the other house as well.

Just those look alike. Then it turned out that what was said about each house was about half the same anyway.

I remembered that a friend told me, that people had been looking on her like she was the leader of a group. Always. She was held responsible for a lot of stuff.

And then when I read that it was as if a coin dropped.

I've been wondering, why am I constantly getting into trouble and have people bad mouthing me and trying to tell me what to do?

Well maybe they 'sense' this somehow, especially immature people.

It couldn't just be a saturn influence. Too out of place. Not saturn like.

Just wondering if anyone else with such placements has had the same kind of experiences.

I was able to get most of the PDFs in Satan's Library using HTTrack. HTTrack does not branch out beyond the url you give it. The url of the old Satan's library was spiritualwarfare666.webs.com/Satans_Library and the PDFs in the old Satan's Library were stored on dawn666blacksun.angelfire.com. If you did not tell HTTrack to download the material on both urls, then HTTrack will download the layout of Satan's Library but not the PDFs. In the New Satan's Library, some of the PDFs are only available through the Internet Archive Wayback Machine and HTTrack will not download them.
If HTTrack is not working for you, you can use the Firefox Add-on "Down Them All" to download everything in Satan's Library.

My Saturn is in my 7th though, so it should show me psychopathic behavior from others a lot yet I even get trouble from people that don't have this. That's the odd thing.

And Johnson would it make them act out?

Subject: Re: Leadership
Yes, people who are tied in to enemy programs, like christianity, will become very rude and even verbally attack you. Also, people like that can be used as a remote by the enemy to some degree. The enemy can use those people against you and use them to watch you.

Also remember that sometimes its not other people who have enemy ties but yourself. The enemy could be controlling you into thinking everyone else is "bad" and make you think that you're all good. Runes and several meditations can fix this, and also talking to Satan or a god can really help you find your way.

Yeah I wasn't trying to start a fight. I was genuinely trying to give information.

The fact that you burst out like that, at me, might be worth looking into to see where all the negative (uncontrolled anger) energy comes from. If you are angry and want to tell if the emotion is truly yours or of someone else's influence, you can cover yourself in ether. If you still feel the emotion then it's yours. If it starts to fade or become diluted then it's something/ someone else's emotion attached to you.

No I am not an egoistic bitch like you've seen all around lately. If that is what you were getting at.

Interpreting transits and other astrological influences is unique for every individual. These kinds of over-generalizations are inaccurate.

Attachments:

juptvirgo25014.jpg

**Aries**

As a planet, Jupiter in sixth house will cause over indulgence in sex. You may start over eating and gain weight. You may become lazy. Jupiter is also the lord of 9th and 12th. It will cause some dent in your luck factor. It is advised that be careful before 10 days and after 20 days when Jupiter has entered Virgo. Otherwise you may face sudden defamation.
Taurus

The mool trikona of Jupiter falls in your 8th. This is why, many times, Jupiter fails to deliver as the 11th house lord for you. You will indulge more in your religious practices; your social circle will increase. People will prefer to consult you over others in matters of trust. You may do some things which will hurt your self respect. Being lord of 12th bhava it will certainly erect some problems related to your progeny, if you are expecting a baby make sure the medical checkup part is up to date. If Jupiter is connected to evil houses then this will be a bad transit for your father.

You can also Check Taurus Daily horoscope to plan your day accordingly.

Gemini

This is the other sign in which major riots have taken place in India between Hindus and Muslims. You will have favors from seniors. You will get promotion in your work sphere; it can be increase in your stature or an actual promotion. You will be liked by your seniors. You may become more religious and God fearing. The 10th house being aspected by own lord will give such results depending upon your natal horoscopes and stellar connectivity of Jupiter. You should try your hand on real estate broking if you are unemployed. You may find happiness there. Jupiter is also your 7th house lord. If your 4th house is not afflicted in your natal chart then you will witness a good marital year otherwise the things will be just reverse.

You can also Check Gemini Daily horoscope to plan your day accordingly.

Cancer
Jupiter exalts in this sign. It will be in the third bhava from this sign. You may feel that your average body temperature has risen above normal but there will be no fever. You are a religious bent of mind person already and now you may feel more inclined towards God and his virtues. You will have good relations with your kiths and kins. Jupiter rules over 6th and 9th. It will aspect its own house of luck thus there will be blessings of almighty and you will have luck favoring you at the times of extreme needs. There will be many travels because third house also denotes travels. You should try the works where advisory or consulting is rewarding like broking of any kind.

You can also Check Cancer daily horoscope to plan your day accordingly.

Leo

The other royal sign, King of planetary kingdom is Sun rules this sign. Jupiter owns 5th and 8th house for this sign. Your astrological skills or intuition will improve. You will get wealth from others. You may get a good spouse if you are planning to marry in this transit and Jupiter is benefic for you in natal chart. You may get diseases of teeth or eyes. There will be increase in your bank balance. You may see an increase in your family size this year. As a planet, Jupiter is a planet which supports expansion. So be ready for some good happenings. You may also get gains from old documents, Government etc. You should be careful in your eating habits because it may lead to problems to liver and kidney. Control your weight. It will be aspecting 10th house from second house.

You can also Check Leo daily horoscope to plan your day accordingly.
Virgo

Those people awaiting marriage will be married in this transit. This is not a wealth giving transit but gains giving transit which can be mental physical or both. Jupiter in ascendant is considered to be a blessing and this Jupiter is untainted, when it was in Leo it was afflicted by rahu and Saturn aspect was also there. It aspects 5, 7, 9 houses from there which are more connected to peace of mind rather than bank balance or wealth etc. If you are passing through some marital problems then in this transit you may feel some relaxed situations. I strongly advise not to sign any deal related to ancestral property or any other property and let this year pass away. You may feel some lack of self esteem at some occasions. You may fall in love with someone you know since long or you both may confess the feelings to each other. This may also lead to tie the knot.

You can also Check Virgo daily horoscope to plan your day accordingly.

Libra

Twelfth house is not a good house in general but Venus enjoys the most in this house. Both are Tamasik in nature and thus the liking. Sun, Moon and Mars all three hold important houses for this ascendant. Mars being a maraka too. Jupiter holds 3rd and 6th bhava for this sign. As a ruler of 6th in 12th will create vipreet rajayoga in transit, those born in this duration will enjoy the fruits of this yoga. Jupiter is also the 3rd house lord. You may face troubles due to your own deeds. You will make other’s life miserable too. You may lose money and waste it on senseless things.

You can also Check Libra daily horoscope to plan your day accordingly.

SAGITTARIUS

To have the ascendant lord in 10th house is a very good thing. There will be rise in your career and fame. If you are
unemployed then this is the time when Job will come to you, just keep posting your resume in the relevant places. Business people will see more rise in their profits and they will work harder. You will out-compete your rivals. Not only for this year but for next also you will be reaping happiness through life and destiny. Those who are born in this transit with moon in moon star and Jupiter direct with no malefic aspects will see a great and grand life ahead in their youth and after. Late shree B.Suryanarayan Rao emphasized a lot on the 10th house situated Jupiter of Late Shree B.V.Raman and we all know the name and fame Late Shree B.V.Raman achieved in his life.

You can also Check [Sagittarius daily horoscope](#) to plan your day accordingly.

**SCORPIO**

For Jupiter transit in Leo I had said that this was the best transit for you and this year also you will be the one to reap the fruits most because Jupiter will be in 11th. After this it will leave for your 12th bhava and will produce some undesired effects but there is a lot of time for that and you can prepare yourself now itself. So that you can be ready for that coming year. The lord of 2nd and 5th house is in 11th house, what else one can ask more!!! Lord of two in eleven is raja yoga and those born in this period with Jupiter direct and moon in moon star will rise to great heights in their youth and beyond. Your interest in music will increase. If you are into performing arts of any kind then you can expect a rise in your career, or if you are into consulting or religion or speculation then also there will be rise in your stature and fortune.

A good hearted person always tries to do well of others even if he is holding a bad portfolio. Jupiter holds 3rd and 12th ownership and thus it is considered a malefic for this ascendant but in my experience I have seen it not to be so. Infact, it may do some good instead of giving bad results of 12th house, it may send you abroad or make you travel to places or fix you in a job which is too much travel oriented. So this will be a blessing in disguise for you. It will be in
your ninth house which is the house for long distance travels and higher education so a travel or stay for educative purposes is also likely. Your inclination towards spirituality may see a rise and you may opt for some courses involving religion or history.

You can also Check [Capricorn daily horoscope](#) to plan your day accordingly.

**Aquarius**

8th house is the most undesired house and is feared just like Saturn or rahu-ketu etc. Jupiter in this house will surely bring some relief but mostly this will be a very bad transit for those who are going through DBA of Jupiter. It will also depend upon the star in which Jupiter is posited at the time of birth. If Jupiter is in own star then there will be gains of some kinds but otherwise one should not get much excited about this transit. As of now your ascendant lord is transiting in 10th house and it will move to 11th next year and this will mitigate the bad effect of Jupiter to a good extent. If Jupiter is in a malefic star then you may become hand to mouth in this period so prepare yourself.

You can also Check [aquarius daily horoscope](#) to plan your day accordingly.

**Pisces**

The lord of ascendant will be in seventh house. This will strengthen your self esteem as the aspect of the lord will be on the ascendant itself. You may have an extramarital affair. If you are passing through a rough time in your married life then this could be the time to get divorced peacefully. The position of Jupiter in this house will facilitate easy separation. Alternately, if you are looking for a patch up then some new guidelines can be followed mutually to stay put. Matters of love will be blooming up. You will face health issues. Enemies will be troubling you.

I uh, think its time I just go ahead and say this....

Ravoin.joshi, we do not appreciate your astrology "help." It is false and misleading, and only an advertisement for a rip-off website that sells lies.

Please do not listen (especially beginners who don't know much) to this guy. Planets that are in signs and houses are UNIQUE to each person and one cannot determine or say what house lies in what sign for the general population. That would be like saying "Everyone north of the equator has brown hair, so here is their horoscope, and everyone who lives south, has red hair." That is OBVIOUSLY not true and neither is this.

**Subject:** [JoS_Astrology] JUPITER TRANSIT IN VIRGO ï 11TH AUGUST 2016: EFFECTS ON YOU [1 Attachment]

**Aries**
As a planet, Jupiter in sixth house will cause over indulgence in sex. You may start over eating and gain weight. You may become lazy. Jupiter is also the lord of 9th and 12th. It will cause some dent in your luck factor. It is advised that be careful before 10 days and after 20 days when Jupiter has entered Virgo. Otherwise you may face sudden defamation.

You can also check Aries daily horoscope to plan your daily accordingly.

**Taurus**
The mool trikona of Jupiter falls in your 8th. This is why, many times, Jupiter fails to deliver as the 11th house lord for you. You will indulge more in your religious practices; your social circle will increase. People will prefer to consult you over others in matters of trust. You may do some things which will hurt your self respect. Being lord of 12th bhava it will certainly erect some problems related to your progeny, if you are expecting a baby make sure the medical checkup part is up to date. If Jupiter is connected to evil houses then this will be a bad transit for your father.

You can also Check [Taurus Daily horoscope](#) to plan your day accordingly.

**Gemini**
This is the other sign in which major riots have taken place in India between Hindus and Muslims. You will have favors from seniors. You will get promotion in your work sphere; it can be increase in your stature or an actual promotion. You will be liked by your seniors. You may become more religious and God fearing. The 10th house being aspected by own lord will give such results depending upon your natal horoscopes and stellar connectivity of Jupiter. You should try your hand on real estate broking if you are unemployed. You may find happiness there. Jupiter is also your 7th house lord. If your 4th house is not afflicted in your natal chart then you will witness a good marital year otherwise the things will be just reverse.

You can also Check [Gemini Daily horoscope](#) to plan your day accordingly.

**Cancer**
Jupiter exalts in this sign. It will be in the third bhava from this sign. you may feel that your average body temperature has risen above normal but there will be no fever. You are a religious bent of mind person already and now you may feel more inclined towards God and his virtues. You will have good relations with your kiths and kins. Jupiter rules over 6th and 9th It will aspect its own house of luck thus there will be blessings of almighty and you will have luck favoring you at the times of extreme needs. There will be many travels because third house also denotes travels. You should try the works where advisory or consulting is rewarding like broking of any kind.

You can also Check [Cancer daily horoscope](#) to plan your day accordingly.

**Leo**
The other royal sign, King of planetary kingdom – Sun rules this sign. Jupiter owns 5th and 8th house for this sign. Your astrological skills or intuition will improve. You will get wealth from others. You may get a good spouse if you are planning to marry in this transit and Jupiter is benefic for you in natal chart. You may get diseases of teeth or eyes. There will be increase in your bank balance. You may see an increase in your family size this year. As a planet, Jupiter is a planet which supports expansion. So be ready for some good happenings. You may also get gains from old documents, Government etc. You should be careful in your eating habits because it may lead to problems to liver and kidney. Control your weight. It will be aspecting 10th house from second house.

You can also Check [Leo daily horoscope](#) to plan your day accordingly.

**Virgo**
Those people awaiting marriage will be married in this transit. This is not a wealth giving transit but gains giving transit which can be mental physical or both. Jupiter in ascendant is considered to be a blessing and this Jupiter is untainted, when it was in Leo Ç it was afflicted by rahu and Saturn
aspect was also there. It aspects 5, 7, 9 houses from there which are more connected to peace of mind rather than bank balance or wealth etc. If you are passing through some marital problems then in this transit you may feel some relaxed situations. I strongly advise not to sign any deal related to ancestral property or any other property and let this year pass away. You may feel some lack of self esteem at some occasions. You may fall in love with someone you know since long or you both may confess the feelings to each other. This may also lead to tie the knot.

You can also Check [Virgo daily horoscope](#) to plan your day accordingly.

**Libra**
Twelfth house is not a good house in general but Venus enjoys the most in this house. Both are तमसिक in nature and thus the liking. Sun, Moon and Mars all three hold important houses for this ascendant. Mars being a maraka too. Jupiter holds 3rd and 6th bhava for this sign. As a ruler of 6th in 12th will create vipreet rajayoga in transit, those born in this duration will enjoy the fruits of this yoga. Jupiter is also the 3rd house lord. You may face troubles due to your own deeds. You will make other’s life miserable too. You may lose money and waste it on senseless things.

You can also Check [Libra daily horoscope](#) to plan your day accordingly.

**SAGITTARIUS**
To have the ascendant lord in 10th house is a very good thing. There will be rise in your career and fame. If you are unemployed then this is the time when Job will come to you, just keep posting your resume in the relevant places. Business people will see more rise in their profits and they will work harder. You will out-compete your rivals. Not only for this year but for next also you will be reaping happiness through life and destiny. Those who are born in this transit with moon in moon star and Jupiter direct with no malefic aspects will see a great and grand life ahead in their youth and after. Late shree B.Suryanarayan Rao emphasized a lot on the 10th house situated Jupiter of Late Shree B.V.Raman and we all know the name and fame Late Shree B.V.Raman achieved in his life.

You can also Check [Sagittarius daily horoscope](#) to plan your day accordingly.

**SCORPIO**
For Jupiter transit in Leo I had said that this was the best transit for you and this year also you will be the one to reap the fruits most because Jupiter will be in 11th. After this it will leave for your 12th bhava and will produce some undesired effects but there is a lot of time for that and you can prepare yourself now itself. So that you can be ready for that coming year. The lord of 2nd and 5th house is in 11th house, what else one can ask more!!! Lord of two in eleven is raja yoga and those born in this period with Jupiter direct and moon in moon star will rise to great heights in their youth and beyond. Your interest in music will increase. If you are into performing arts of any kind then you can expect a rise in your career, or if you are into consulting or religion or speculation then also there will be rise in your stature and fortune.

**Subject:** Predictions in outer planets?

So I’m comparing two charts between two people to when/if their romantic relationship happens, and that involves looking at the Uranus, both in the 7th house and Jupiter, Saturn and Venus. (For the houses they are in)

I’ve looked over several websites and it seems none explain this very well, but what exactly do I need to do to figure out a year/s for the outer planets? If I use the Ephemeris, and one day for a year method, the degrees match up on the dates. As in, in 2019 the Uranus reaches 3 degrees, same as the natal
chart. (This year (2019) actually works for both people, the difference being that its 4 degrees Uranus for the other person)

Anyways, would this still work? Using the day for a year method? I’ve read that they move too slowly so it would not be accurate. What other ways are there and is it still possible to use an ephemeris?

The main question im looking to answer for these people, who are extremely compatible, is finding the year that they actually get together. Which focuses on Uranus in the 7th house for both of them. (amongst other planets) but this is the main one I’m looking at right now.

<td>Hello, I am currently studying Astrology myself but am still in the beginning stages so I don't know much on reading. With that being said I have a personal problem, through the course of a few months I keep having dreams of my boyfriend cheating on me, I just want to know if someone here wouldn't mind giving me a tarot card reading on that or anything that might give me some closure. I hate asking him about it and I hate just having the feeling that he is. O want to know if it's just a dream or if it's some warning. Help would be very much appreciated, thank you.</td>

Our dreams can be excellent and powerful warnings
Yes, there's this side part were around the middle of everything it shows like a lockdown through out my whole home town, and the first few times I would make it to my parents for the lockdown, but recently I made it to my old high school and a military looking man came and told everyone to stay in specific classrooms, they were spreading the students into 3 different groups, all depending on there zodiacs. He has like huge guns and off's covered in body armor. I remember just as he was explaining his plan of "grouping" sounding a lot like a easier way to execute everyone simpler. Along with that the lockdown was due too some other type of "monsters" that showed up, I remember I saw 1 but I can't remember his appearance.

I haven't had nightmares since I dedicated myself to Father Satan. These past 3 days I've been getting them all too lead up to this one. I recently just woke up from this current one. I'll admit it's not near to bad as the ones I used to have, but I've never felt so eery about one. I have yet to see anyone get murdered, but it makes me feel uncomfortable to sleep. And yes, somehow this dream ties in with the teen cheating drama haha

Hi i read this in email and thohught id chiime in cuz I had these dreams too. what your describing is the goverment takeover and cleansing during the events that are too come.. There's an initiative that all the major countries are following to reduce the population to less than 500,000,000. Think of it as the new 10 commandments haha. And like your dreams say, you will be forced to follow the rules

I too have had dreams abt this. very vivid. I had my dreams in peru while taking medicines such as sanango and tobacco diet.Also ayahuasca. I know what the cities will look like afterwards, Basically crumbling cities hardly habitable. I even walked around in them, and the government has cars that will go in the street and roll up besides u while u walk, thats how strange it is in the new world. Tons of military presense. There; is 10-20x less people it feels like(probably more than that) alot of abandoned houses and rooms. they try and group the city off to certain areas and your only allowed to go certain places. It just feels empty and desolate. I wouldn't be suprised if a city of 1-3 million people goes to under 100,000. That's what it felt like.

I was also rounded up initially., some people were killed on site where I was I saw them get shot. All of a sudden military came in my dream and shot a few people, cuffed me and a few others.. stop resisting etc.., another key thing in the dream is the spirits that manifest themselves. In my dreams I saw alot of spirits manifest and they flew freely around. They scared everyone. I saw a king with 4 faces on his head he flew around and looked really demonic reminded me of someone i cant remember in the goetia. I also saw dreams of in south america, jurrasic style monters are on the loose. When I saw a "demon" looking
spirit flying around in the sky in my dream I felt an unnerving feeling in me like this is going bad. I don't or can't confirm that it's a demon. maybe its just some gov project to scare people. It has a ghost like legs... and it stayed in form, that's what drew me off from thinking that this spirit was a real goetic king.. maybe a fake one.

The one thing I took away from the whole dreams was like... you better be careful what you say about the government or theyl come and take you away. In the new world if you fuck up, you'll be killed. They can read your thoughts and even inject thoughts into your mind. They have technology that constintely is connected to your brain, so if you think, man i hate these damn military vehicles... you better believe that one will show up and ask you what your problem is, they constintely monitor what everyone thinks to keep conflict from starting before it even happens! When I was in my dream in my apartment, which was basically a huge vacent apartment building with only 10 other people in it. I had thoughts coming to me from the government telling me to stay calm and stop fighting. Every thought that came to my head was read and responded to by a machine or something that would tell me what to do and how to feel. The main thing was just stay focused on yourself and don't try and fight the people in charge. Something told me the people who were in charge were just really fed up and angry with everyone. The relationship between the people and the police and military was completely destroyed. Completely unlike what it is now... 100x worse.

I've also had positive dreams.. I've seen myself in my true life path like, doing what i love. I was teaching people meditation and how to use magical thought constructs and mantras and magic. I'm an astrologer more than anything but I also practice evocation its a very powerful technique. I traveled all over the world and taught people. I did have a negative experience where I came across a mage who I started saying demonic things too, and he said them, we were fighting :D but ya. i'd say that.. there is tough times to come. but also hope. What you say about deviding us by zodiac is a great idea i'd love to be with my fellow capricorns aquarius.. saggis pisces.. :) I mean.. if we have to be devided.. One thing i'll also say is what those dreams are telling you, is already documented, people call it the NWO or new world order. Basically its just a globalist oligarchy, they'll kill everyone over a certain age, people with diseases, if you break the law etc... whatever it takes to lower the population. No making children etc. So the new world is coming. but you gotta learn that there is a context. there's a reason this is happening.. And there's a plan. and tons of money behind it... and lots of courageous and confident men and women who are making it happen. I'm a sort of a battle and they're fighting for victory against us. so it is kinda bittersweet that this is happening because.. tons of manpower is going into destroying the world. It's just like a sad situation but also beautifully sad.

Oh also I'll say one more dream. I don't necisarily buy into conspiracy and stuff. But i definately had a realllivid dream of multiple other planets in our solar system.. meaning they were just overhead and its so obvious to see another planet like earth where the moon should be.. I COULD MAKE OUT THE DETAILS ON THE PLANET. lol my feeling was that was the planet of the ppl who run mankind. And they had a dwarf sun that made verything glow purple/red, even the atmoshphere was glowing purple read. But their main planet is a world just like ours with rocks and mountains and water. So i really dont know what i think but I thought it was nice to look at and very beautiful. Since i had that dream i learned the world is flat and that that's the reason why there wasn't any earthquakes or gravitational disturbances.. because those don't hold any water. I remember i was at a lake staring up at a planet the size of mars not 1 lunar distance away from me, and the water on the lake was calm like glass. Very bueaituful and tranqui.

Good luck

If this may help, as you are observing Uranus, I found a case where Uranus was transiting in the 7th house of a person that was involved in a bad relationship. As soon as Uranus ended his transit in 7th house this person broke free from the past relationship and began a new one, with more freedom. There was also a Pluto to natal Venus transit involved (permanent changes in partner or finance).

Progressions are just for the inner planets and angles, solar arc for outer planets. Astro.com can calculate it easily. Look to their transits as well. Especially Pluto or Uranus aspecting their 7th house rulers. And progressions, like progressed Venus to 7th house ruler or Sun, for example.

For progressions and solar arcs, 2 degree orb max.

Those dreams are absolutely not going to pass.

I don't know but it sounds like a even more fucked up and jewed up version of the world than what it already is.

So I'd consider this an enemy fucking with your head.

Especially reading this:
"Since i had that dream i learned the world is flat and that that's the reason why there wasnt any earthquakes or graviational disturbances.. because those don't hold any water."

Earthquakes will still happen even if there isn't enough water. What is caused though are tsunami's when there is an earthquake under water. Also the area the earthquake is felt in is much larger than you think. Depends on how heavy it is though.

Now if you meant the water pushing the earth pieces away, well something doesn't add up.

This is what people believe. Truth is, it isn't like that. But what this picture does display is the America's drifting apart from Europe. Which probably still is happening now, which means that it could never be water pushing them aside. Since that'd have caused the pieces to stay together. Or would cause mountain forming in the sea. Without water you die. And. gravitational disturbances? What? Does that even exist?

We don't have the same amount of land now than that we had so many years ago. The lowest places got flooded.

Drug induced dreams are hardly prophetic any real sense.

Yes, I did some meditation when I got home and realized it was just some type of enemy trying to mess with me cause that was really the way to get to me

I want to do a material Venus square this Friday (3.6.16)

Venus is not reticulate or something is it?

Is it safe to do it this Friday?

Moreover, in the Kabbalistic square it is written

"Begin the mantra when Venus is strong in its home signs of Taurus or Libra, or when it is in its exalted sign of Pisces. DO NOT begin this mantra when Venus is in the signs of Virgo [its fall] or Scorpio or Aries [its detriment]."

What does this mean?

Chronos XP does not show any info about this.

How can I know in which sign Venus is?

Pls a detailed explanation is required.

Thanks to all who reply.

Heil Satan!
Venus is currently in Gemini.

Planetwatcher.com shows the planets and signs they are in, and allows the user to scroll ahead and backwards in time.

"pls a detailed explanation is required."

Most of us are too busy with life and Satan's agenda for us to give detailed explanations all the time. It is strongly encouraged by Satan to learn on our own. We can give guidance, but all you had to do was use an internet search engine to find out what sign Venus is currently in.

Hail Emperor Lucifer and all Loyal

One important question I need to know.

Does 'Planet X' ... a planet apparently recently discovered in our solar system; does it affect our current way of reading astrology ? As it is not included in our current map...

You have a ruling sun in pisces, unaware of your house (you should not feel the need to give such information here). But your Leo ascendant gives you a proud, generous nature. You are fiercely competitive and flattery will get you everywhere, loves to be center of attention (unless other planetary affects this) and may have a natural leadership ability (look at the house, typically of a spiritual nature because of the ruling pisces). You are empathetic, intuitive and caring with the ruling pisces.

Though, you must look at the house and the other aspects as well. I have a ruling sun in pisces too. Although I may have a caring side to my personality, I also have another where I can appear as a ruthless, apathetic, sadistic and cruel person. It's important to take all of your planets, signs and houses into consideration. Some of the alignments either strengthens or weakens the nature.

Hail Satan!!!

You should never give such information here to the groups. Here are lurkers that may take hold of this information. Keep this in mind.

However, you should do a Sun Square, and a Munka when you are ready. This WILL help you out, and you should set your chakras on a higher vibration which will deflect negative energies such as bad Saturn energies.

Ek Ong Kara SaTaNaaMa Shiri Vhaa Guru

Vibrate:
AYKK -- OHNG -- KAH-RAH -- SAH-TAH-NAH-AH-MAH -- SHEE-REE -- V-HAH-AH -- GUU-RUU.

This one should be done everyday when you wake up, 20 times is fine. And will give you a nice boost of energy throughout the day.

Take care,
Hail Satan!!!
Planet X, a supposedly monster planet, that hasn't been discovered until recent time? And is a hypothetical theory of how the other 8 planets in our solar system goes in a certain pattern over and over again, is only possible if there is a 9th planet, such as the monster planet X?? Which haven't been discovered until, now...of course, it's still only a hypothetical planet, but it has been discovered...

Uhm, I call this bullshit. But what do I know... There was a planet between Earth and Mars once 3000 years ago that got destroyed by the Enemy, which gave us the ocean we have to this day, and proven as a fact. Which brings me to the questions of how the fuck the sea creatures survived that hit, and the other creatures who lives on the Earth. Soooo, Planet X? Give me a break.

I think some of those sea creatures actually came from that planet..

Could be a bit wrong but somehow it makes sense ?

Even if "planet x" was real, they claim that it has an incredibly slow orbital rate so it wouldn't affect us anyway. It would move too slowly to make any difference to us from one century to the next.

If that planet has no jews bring me there asap lmao

Just wondering everyone's opinions on what planets and points count in yods, by SS standards and not new-agey "oh let's give everyone a yod to make them feel special!"

Hitler had a golden yod, but only if Eris is counted.
Alright, I figured I would post this here.
My supervisor, Christian bi-polar jerk, has been harassing me non-stop. She is making the work environment hostile and I have had to take several days off just to cope and regain composure.
I want to file for harassment. However, I was told when Mars is in retrograde, anyone who tries to issue a lawsuit will lose. Any form of aggression will cause the aggressor to lose. I saw this happen with several groups recently.
How can I overcome this and file harassment? I can tell I do not have much time left at this company as I am barely to keep my mental health well when I work there. Her toxicity drives me up a wall and the company refuses to do anything about it.

Hitler had a golden yod, but only if Eris is counted.

Cope pasted: "The yod configuration, as I mentioned in another post in the main JoS group, is found in the charts of those who are here for a purpose. This is not to say that everyone who has a yod is here for a purpose, but everyone who IS here for a purpose has the yod. The yod is a single planet making
inconjunt to two planets in sextile aspect to each other. There can also be more planets tying in, but that is a classic yod. This can also involve the ascendant/decendant axis, which is this lines up exactly, is very prominent, as to the person being here for a purpose. Now, what the yod heans is at some point in the person's life, an adjustment will be needed in the area of a life change so that the person can carry out what they were meant to do here. After years of preparation and learning, when the person is ready, he/she will experience a life change where adaptation to the new changes will be needed. Once this has occurred, he/she will then be locked in and can only go forward with the fated life. The tighter the yod [more exact the aspects], the more important the role." - HPS Maxine

Another copy paste: "As for the Yod, it points to something very specific a person has to accomplish in a lifetime, but this doesn't mean that everyone who ever did something important to humanity had the Yod. In fact, I believe those who DON'T have the Yod are actually more able and free to make something important happen, even if they aren't "marked" to do so. The Yod usually pushes the person whether they like it or not to whatever it is it needs, and this may or may not be important, good or even desirable." -f.follets

Hello, fellow SS. I recommend to NEVER, EVER give your birth time out to somebody you don't know. This seems fishy as FUCK.

They ask for Name, DOB, Time, Place, and your email. Pretty much almost every identifying factor. If people know your time of birth, place of birth, ext, they can work extremely powerful curses against your weaknesses. Don't fall for this bullshit, SS!

Can you hang on for one week so the universe won't be working against your endeavor? The retrograde period ends June 29.

You can reflect the supervisor's negativity right back at her.

Fighting Back
http://www.angelfire.com/empire/serpentis666/Fighting_Back.html
Keep your aura clean and do not let the harassment bother you. How to cope is individual and different methods work for different people. You can get angry when she tries to harass you and throw all her negativity back at her. You can also ignore the bitch. If she is screaming in your face, whatever. You can also logically tear apart her arguments. Any insults she yells at you are going to have some logical fallacy or incorrect information in them. If it is clear she cannot bother you, then she will try harder before eventually stopping. Degenerate scum like that thrive on the misery of others and the satisfaction of knowing they have the power to ruin someone's day. If they cannot ruin your day or hurt you, then they will move on to someone else. A clean, radiant aura and a strong aura of protection naturally reflect negativity and will repel horrible people. The runes ALGIZ and BERKANO and SOWILO can be used for protection.

A yod is a configuration where there are two planets sextile (60 degrees) from each other and both are quincux (150 degrees) from a third. Someone who is here for a purpose has a yod. Not all people who have yods are here for a purpose, however.

Hey. :)  
The retrograde symbol is basically a capital R

If you made your chart in astro.com then the symbol is a small r.
Take this as an example: http://static1.squarespace.com/static/51ec4bbce4b047f24a8760db/t/570d6db027d4bd5b280a24e2/1460497884362/

You can see in the first house, Jupiter is retrograde, as well as Pluto, in the second house.

Subject: Re: Uranus

If you want confidence, do a sun square or invoke energy from the sun and program the energy using an affirmation like, "The energy from the sun is permanently increasing my confidence in a positive manner for me." The sun rules confidence and the will.

You can invoke energy from Uranus and program it to do what you desire, such as permanently increasing your creativity in a positive manner.

I researched about finding out about your past life using your natal chart. Things you should look for is your South Node, Saturn and it's aspects, as well the house it's present in and the sign. You should also look for the planets retrograde in your natal and search them up to find out what they truly mean. One of my planets is retrograde, Uranus, and it's not a bad thing. It gives you true essence and originality! Basically, conscious and confidence! The karma, however, incites people in your life to try and stop you from expressing your true self. Uranus goes retrograde on July 29th, 2016 and I want to know how can I work with the energies of it to increase self-consciousness? I was thinking about doing the meditation on the spirit? How could I breathe in energy from Uranus itself? What could work?

There is no such thing as karma. Karma is hang-ups, energy links, trauma, christian retardation, and other dross left over from past lives. People are
controlled by karma due to a lack of spiritual knowledge. Karma can be burned away by doing a MUNKA working.

MUNKA Working

If you want to learn more about your past lives, become adept at meditation and do a past life regression. Instructions for the meditation are on the Joy of

I vote no. There are other things one can do to diminish Saturn's effects on them. You can do a freeing the soul working to free yourself from "karmic" effects
using munka, ansuz, or uruz.

Subject: Re: Uranus Retrograde

You can use magick to obtain anything you desire. The power of your magick is determined by the strength of your soul. You need to meditate and do yoga
daily in order to empower your soul and be strong enough to make your magick succeed. A good place to start with meditation is the 40 Day Self
Empowerment Program available in Satan's Library. Some links in the 40 Day Self Empowerment Program PDF are broken. PDF copies of the hatha and
kundalini yoga routines from the broken links are in Satan's Library.

Satan's Library

Clean your aura and build an aura of protection daily. A clean aura naturally repels negative energy, banishes depression, and prevents disease from manifesting. A dirty aura will cause bad luck, negative thoughts, financial hardship, problems with meditation, and other issues. A strong aura of protection will guard you against bad luck, accidents, psychic or physical attack, horrible people, and other misfortune.

One method of using magick is to use runes.

When using runes, you select a rune with properties conducive to your goal. For example, ANSUZ can be used to remove emotional hang-ups and WUNJO (WAUNYO is the more powerful version) can be used for healing. You vibrate the rune a certain number of times and direct the energies raised using affirmations and visualization. Each rune has a number. The number of FEHU is 1, the number of URUZ is 2, the number of THURISAZ is 3, and so on as you go down the list of runes. You vibrate a rune a number of times that is a multiple of the rune's number. For example, the number of THURISAZ is 3 so you would vibrate THURISAZ 27, 54, or another multiple of 3 times. 108 is a power number and doing 108 vibrations of any rune or mantra is extremely powerful.

The Three Steps of Witchcraft
Magick needs to be timed with astrology. Starting a spell during sub-optimal astrological conditions can cause the spell to be severely weakened or fail. A spell should be started during the day and hour of the planet that rules the particular working. For example, the sun, Venus, and Jupiter rule money and wealth. You would want to start a money spell on Thursday (the day of Jupiter), Friday (the day of Venus), or Sunday (the day of the sun) during the hours of Jupiter, the sun, or Venus. The moon sign at the time you start a spell should also be good for the magickal working you are doing. For a money spell, the moon should be waxing in Taurus, Leo, Libra, Sagittarius, or Aquarius.

The moon should NOT be void when you start a spell or magickal working. Starting any magickal working during a void moon will cause it to fail. You can continue the working even if the moon goes void, but you should not start a magickal working when the moon is void. For example, if you started a magickal working on Saturday the moon should not be void when you started the working. If the moon was void all of the next day, you can still do the vibrations for the working even though the moon is void because you already started the working yesterday.

And, participate in our reverse torah rituals. We are in a war here and need to do what we can for our creator, Satan.
Doing a Saturn square will strengthen your natal Saturn and make its malicious effects more powerful. A Saturn square will make the problems caused by Saturn worse. Do not do a Saturn square. Doing a Saturn square will bring bad luck and other misfortune into your life.

Cleaning your aura and building an aura of protection every day will keep negative energies, like those of Saturn, from affecting you. Daily yoga and meditation will increase your bioelectricity and high levels of energy deflect negative energies which prevents misfortune from manifesting in your life. You can also build an aura of protection around your children and pets to keep anything bad from happening to them.

I don't know what you're talking about really as a Capricorn but here let me tell you.

If you want to work with saturn try evoking saturns energy. There's rituals that literally open the gate of saturn.

I've been to saturn on ayahuasca one time. Let me tell you. If you go to saturnians and ask them to help you with your family, they will show up like the devil in disguise in your life to make you look foolish.

If you ask them to show you how you can be a good parent they're just gonna give you a saturnian way on how to do that.

I should expand.

I am 20 and do not have children. The placement of Saturn in my chart signifies the possibility of deformities to my future children. That's what I'm worried about here.

Of course I will follow your advice Johnson Akemi, but I was asking for something along the lines of which square should I do to counteract the Saturn.

I truly appreciate your input though and am following it immediately after this post.

Also, using mind-altering substances like ayahuasca rips holes in your aura and leaves you extremely vulnerable to being influenced by malicious entities or people. High Priestess Maxine Dietrich wrote about drug use in a recent sermon.

If you want children, you should not be doing the Saturn square since you have a fifth house Saturn. Do the Sun square instead. Another advice is to keep meditating, perhaps staring a working on your fertility. There are demons that may help you out with such.

It's not necessarily about fertility, one can have children but then the karmic forces would plight or even kill the offspring (premature death during childhood, incident). Then it talks about taking great responsibility from the parent part, this could mean becoming a crutch for the physically damaged offspring or maybe a rebel/problematic child, a troublemaker.

5th house
Many of those with Saturn in the fifth house are childless. This placement gives a large percentage of people who are infertile and unable to have children. If there are children, there can be problems such as handicap or other issues that require major responsibilities. Most often, there is misfortune in some way involving children.

Yes, but even though, the sun square will help to offset the negative tendencies of Saturn. Satan works to keep families close and well. Maybe baptizing once children to Satan may help. And have a close examination through ultra-sounds to see whether the child is handicap in certain ways that can be seen through this, and prevent it.
Ultrasounds seem to be one of the trouble makers for fertility issues.

Listen you are 20 years old, at least you say so, you do not have children and besides this it is unknown if you're male or female, but regardless take your time considering relationships.

It is okay to be worried and asking but perhaps you might not want to do anything about it till you are ready. Also look the freeing the soul page up. Sometimes desires in this life manifest because they're something we had trouble with before. And maybe I might be a bit off with my advice.

Yeah, I think you are right when you say I am too young to be worrying about. Well, I know you didn't exactly say that, but it was along those lines.

Either way I am going to try that sun square idea out and NOT do the Saturn square. I appreciate and value all of the input and assistance given to me.

Out of curiosity, is there ever a time one would/should do a Saturn square?
I may not be at the knowledge/intelligence level to understand what the Saturn Square page is saying, because I find it hard to completely understand so I appreciate any insight you could give.

A Saturn square would be of use in the situation someone has too little Saturn influence in their life. High Priestess Maxine Dietrich explained about such situations here: [https://groups.yahoo.com/neo/groups/JoS_Astrology/conversations/messages/578](https://groups.yahoo.com/neo/groups/JoS_Astrology/conversations/messages/578)

"Saturn always gets the bad rap [obviously], but I have noted in charts that either have an unaspected saturn, or saturn with no hard aspects, the lives were anything but happy. One woman I knew had a life in total chaos. Saturn is known for stability and this woman had NONE. By the time she was 30, she had been married 5 times, she had 3 kids [not from any of the husbands], she put all three up for adoption [one was 4 at the time], and this haunted her every single day of her life. Her self-esteem was total shit, her health was horrible, she could never stay very long on a job or live very long at any permanent residence, as circumstances always came up. She was bi-sexual, but went through men [no stable relationships of either sex]. She had 29 of scorpio with sagittarius intercepted in the first. Ruling Pluto at one of the worst degrees 15 of Leo.

Saturn at its positive gives endurance and stability."

What if you can't find your exact time of birth?

What I did was use a pendulum. Before using it to find out my birth date hour, I did a short prayer to Satan and my Guardian Demon to help me find out what it was. I was successful with a few numbers because the pendulum swung wildly and assertively when I asked if it was x and y numbers.

Having natal Saturn retrograde does not affect a sun square. A sun square taps the energy of the sun itself which is why the current sun sign is important. The positions of other planets besides the sun are not important when doing a sun square. The only thing you want to take into consideration besides the current sun sign is whether the moon is void or not. Starting anything on a void moon will make the spiritual work fail.

I've been wondering about this for a while.. and I think its my saturn doing this.

Is there anything at all I can do to get rid of this for once and for all?

For those whom think it is my behavior.. no it is not. I could try as many things as possible and it still would not change a thing. Plus thats also what the psychiatrists say and those whom do not seem to understand a darn thing about people.

Stop associating yourself with these people.

Perhaps I was not clear enough, this is not a problem that is confined to only 1 or 2 persons, but it happens over and over and over again with different people ALL THE TIME.

In some psychology texts I read about projecting what you do not want to be into others. Jung talked about this calling this your "shadow". I guess it may have to do with Pluto and with a process of cleaning the dross in the Magnum Opus.
What do you think?

I've been wondering about this for a while.. and I think its my saturn doing this.

A clean, radiant aura and a strong aura of protection naturally repel low-life scum. You can also program your aura to repel annoying people.

Fighting Back
http://www.angelfire.com/empire/serpentis666/Fighting_Back.html

Another option is to bind any obnoxious people that come into your life to keep them from harassing you. The rune ISA can be used for binding.

The Runic Kabalah PDF and Audio Mp3s
http://dawn666blacksun.angelfire.com/Audio_Mp3s.htm

I think it has to do with dross in some ways.. but it's been going for about 14 years (if not longer). Although there has been a slight difference in whom does what in which period. I.e. the first 7 years it was mainly bullying, and now its deceivers and those whom talk shit about you behind your back. Could not necessarily be a change overall, but just a change of tactics.

So considering this I don't think its quite linked to pluto. Since a pluto transit takes 4-5 years or so?

Lol then I'd need to do tons of bindings xD.

You know what it is with the aura.. it goes for 1 person. What if you need to repel 10's or 20's or 100s of those people? Its not very convenient. Especially not if 99.9% of all people that you ever come in a bit closer contact than a just passing by with pulls those tricks.
7 years is more or less the time Saturn needs to square natal Saturn so every 7 years it is in hard aspect to some point in the natal chart. So most likely it is involved, I would check where Saturn was at the time of tactic change to check if Saturn is involved with 7th or 11th house or also 3rd house problems.

How to Obliterate Your Saturn
http://josministries.prophpbb.com/topic15507.html

Pluto is a neutral planet and a Pluto transit brings change for better or worse. If the problem has been going on for years, it may be natal (such as Saturn in the 11th house or a hard aspect between Saturn and the ruler of your 11th house) or due to past life karma. You can remove whatever dross is causing the problem by doing a MUNKA, ANSUZ, or URUZ working.

Workings with the aura do *not* work only on one person.... If you make an affirmation like "my aura repels all the negative people" (or whatever people you don't want around you), it's not just for one person...
@Gerecht: Certainly sounds like it.

@Johnson, thanks, I saw the guide. I will print it and add it to my notes.

@tapa.. wouldn't the energy be spread too thin or easily worn out?

Oh! And I forgot one thing!

About your question on energy being too thin or easily spread out. If you raise your energies and bioelectricity every day, then the energy will never be "not enough". It's watering flowers. If you keep watering all the plants every day, then the plants will never die of dehydration. But if you only water some plants and not others, than those who didn't get any water will start to need water and eventually will die.

I know, bad example for this post because you apparently have hundreds of people who hate you (Which I highly doubt unless you are a very hated on criminal) But hopefully that'll help plus my other post.

tl;dr: Replenish your aura everyday with positive energy from the sun! Might not seem like it's enough, but trust me, after awhile it will start to build up. Just keep your aura clean as well, since there's no point in adding energy if your aura is full of bad stuff. That's like trying to add soapy clean water to a mud bath. Doesn't make the water any cleaner, it just makes an awkward mixture of both. (That you can't wash dishes (chakras) in either)

No, the aura doesn't attach itself on a per person basis.

Think of it like this: You are standing on a sidewalk, with people walking in front of you. Your aura will attach to some people, based on their own energy and aura. But, when those people walk past you and continue on, your aura does not stay attached to them. It may, briefly, come in contact with those people's auras, but it certainly won't attach itself forever.

Now say someone you really hate walks past you. Because you saw this person, you'd immediately think "Oh I hate that person" and your aura would send hate energy. If your thought was brief and the anger quickly subsided, then your aura would pull back to you and thus not form an energy link. BUT, if your thought lasted for several hours and and you kept thinking about how much you hate them, THEN it would form an energy link. It'd be a negative one of course, one full of hate and anger. This is where the strength of your own aura comes into play. The people who you hate and continue to hate may have stronger or more protective auras than yourself. This then causes your hate to bounce off their auras and right back into yours.
And once that hate keeps bouncing into your aura, we have a never ending cycle. You will never find peace (Or whatever comfort you are looking for) if you keep trying this. Your aura would never be strong enough if you keep charging at it, trying to get rid of it.

As an example with my own experience: My mother is a jew (not biologically related to me), and she had a horrible energy link attached to me. She naturally has a strong aura that causes hate and destruction where ever she goes and with my own aura being naturally weak, she attached herself to me. This caused all my hatred and anger towards her to do nothing, and it all came crashing back on top of me. This then caused me to hate her even more so, and I yelled and screamed that she wasn't listening to me and she had ruined my life and she was controlling me and leading me into destruction. All that anger I put toward her, did NOTHING. It did nothing and I was left feeling so helpless and dead inside. All that anger and hate came right back at me and it very nearly destroyed me.

So I helped myself and fixed my problem. I realized that she wasn't really doing anything to me, she simply was just being herself. And I had gone and created a huge problem between us that was caused from my inability to take a step back and look at what was happening. Over time i realized this. And I started meditating more, I worked specifically on my aura so this would never happen again. My aura grew stronger and more deflective. It wouldn't just repel negative energy from one person, but it would repel ANY and ALL negative energy.

So as for some people I know you hate/ dislike very much, I would work on de attaching yourself from them. Un bind any energy links (good or bad) from those people. It'll be like a new beginning! Start fresh and work on your own aura. Sadly this can't just be done in one day or a one time thing. I still hate my mother and our relationship hasn't changed (well, it has changed for the better but I still don't give two shits about her) but it took me at least 2 years to figure out where her hate come from, where my own hate came from, where the negative energy was attached, and of course, working to get rid of it. Even the good things. I just took my aura and cleaned every aspect of it and really just... gave myself freedom from people. Even those who I love I unbound myself and made sure to avoid creating any new bad links.

Good luck! :D

I am sorry. Since the SIDF or whatever, is so healthy, fine and capable, why don't they just spare the sight of all the people who have had their relentless psycho-coup-crap happen? Enough time has been wasted on these trolls and idiots who are so incapable but forever try to infiltrate the group and create a cult group with members from the JoS. Its only sensible that they just follow their bright destiny, and leave us do whatever we are supposed to do.

But no...

It is becoming more boring by the day. The recent wave of traitors and trolls was *again* affiliated with this "SIDF" group, and was nothing more than its leftovers clinging around, and staging *YET ANOTHER* coup. Like some sort of revanche, because they couldn't handle they got foiled in the first place. We gave permission for this group to exist, and with whatever bit of life it acquired, it tried to backstab and attack us. If people feel like they align with this sort of behavior, or are buying twitter lies, or whatever else- they can go. We have no time for drama, or people who are not here in reality. Just get along, and have a nice day.

However, these people prove how obnoxious and mentally decapitated they are, and how much these individuals I exposed months ago have brainwashed them, to the point they recruit them and they send them like paper soldiers or infiltrate and keep tabs on the JoS. Some people cannot cope with the fact that they are being useless, they are damaging the community and they have been wasting chance after chance.

This is what happens when you have too much time in your hands, a big ego, and absolutely no interest in the wellbeing of Satanism whatsoever...

Only jews attack people and later demand to be forgiven, only to do this again, and again, and again. The "SIDF" has proved its intentions and motivations, member to member. Week after week, they attempt to create strife. Month after month they try to create a coup. Year after year they make a "group" and they fail it, and then attack anyone else for their own retardiation.

Any Satanist should have better things to do with their time, mind and self, than joining and staging all this inferior garbage, based solely on the emotions of some wanna-be's that think this group is a circus for their demands.

How bad is the influence of a Saturn squaring natal Saturn? Are there problems arising around that time? Or does that depend on other things as well, like a planet transgressing? (or what you could call it).

Transiting Saturn squaring natal Saturn will negatively affect the house that your natal Saturn is in as well as negatively affecting the houses with Capricorn and Aquarius on the cusps. The Saturn transit may not cause problems to manifest. There may be other transits affecting you that prevent problems from occurring. For example, if you have Aquarius on the cusp of your 9th house but transiting Jupiter was in your 9th house then that would offset the malefic influence of the Saturn transit.

When you said "a planet transgressing" were you referring to progressed planets? If you were, yes progressed planets have influence as well.

I meant a transition, in this case, I am not that positive about it. Although if I am still here by the end of the year I should be fine.

I don't quite understand what a progression is to be honest.

I've been procrastinating on doing the RTR's. I guess procrastination is really too weak of a word. Being a total dumbass, and not taking responsibility for shit when you have the world falling apart and being a weak ass bitch would be better I suppose. I'm doing them today and from now on. Anyway, I was still hung up on some bullshit religious stuff, that I finally resolved yesterday, that I'll share at a later date and that I'm sure you'll find educational.

As far as Astrology goes. I have some groups in my area that seem to be having a lot of fun learning it. However, there faces reflect this soap opera, acting type of mutual jerk off experience is taking place and they look like plastic people. I mean Jewsus heads. Would it benefit me to join them, just long enough, to learn the basic stuff or do these plastic people have even the slightest clue?

**Subject:** Re: Spoken Words of Power - Satanic Resources

Affirmations are just short statements you repeat to program your subconscious mind.

Using Your Powers - Specific Meditations
http://www.angelfire.com/empire/serpentis666/Specific_Meditations.html

Magick is using the powers of your mind and soul to manifest your desires into reality. In order to work magick, you raise energy, program the energy to do what you want, and direct the energy towards its goal. Everything you need to know in order to work successful magick is on the Joy of Satan website.

The Three Steps of Witchcraft

Using runes is one way of working magick. When using runes, you select a rune with properties conducive to your goal. For example, ANSUZ can be used to remove emotional hang-ups and WUNJO (WAUNYO is the more powerful version) can be used for healing. You vibrate the rune a certain number of times and direct the energies raised using affirmations and visualization.

The Runic Kabalah and Satan's Magickal Squares PDFs and Audio Mp3s
http://dawn666blacksun.angelfire.com/Audio_Mp3s.htm
Magick needs to be timed with astrology. Starting a spell during sub-optimal astrological conditions can cause the spell to be severely weakened or fail. A spell should be started during the day and hour of the planet that rules the particular working. For example, the sun, Venus, and Jupiter rule money and wealth. You would want to start a money spell on Thursday (the day of Jupiter), Friday (the day of Venus), or Sunday (the day of the sun) during the hours of Jupiter, the sun, or Venus. The moon sign at the time you start a spell should also be good for the magickal working you are doing. For a money spell, the moon should be waxing in Taurus, Leo, Libra, Sagittarius, or Aquarius. Chronos XP is a program that reveals the planetary hours of the day. There are also iphone apps. "Hours" by Sirius Lab Ltd or "Lunar Calendar by Vyacheslav Petrukhin, that show the planetary hours of the day.

Chronos XP
http://chronosxp.sourceforge.net/en/

Timing your Magick with the Moon

The moon should NOT be void when you start a spell or magickal working. Starting any magickal working during a void moon will cause it to fail. A magickal working can be performed for multiple days. Doing a multi-day magickal working is much more powerful than a one-shot ritual. Make sure the moon is not void when you start the magickal working. On later days, the moon can be void when you perform the spell as the magickal working has already been started. Doing a spell every day for 40 days is extremely powerful as doing a spell for 40 days makes it permanent.

Void Moon Times
Those astrology groups in your area will give you a bunch of new age bullshit and teach you little about actual astrology. They will put far too much emphasis on sun sign, tell you that Saturn is a test that is part of the third ray of intelligence, and other new age crap. Everything you need to know in order to read a chart is on Azazel's Astrology for Satanists and in posts made by High Priestess Maxine Dietrich to this group.

Yes I no. I have been lonely is f*** lately. Just looking for some companionship. I've already learned the symbols for the planets and so forth and will be moving forward with more videos that HP Maxine put together. I've watched them a few times now and I will get it I just need to apply myself more and get started trying to put it all together. I've been really busy sorting out a lot of b******* and got that taken care of and I got started doing the RTR and the 40-day program and learning the basic topics that I need to. I have a high degree of interest in divination, astrology and Magick.

I have read one of Louise L Hay's books:

I liked this one.

Warm Greetings family of Enki Satan

Unfortunately the Anuist/ywh/Nazarene teachings and influence have corrupted MAJORITY of esoteric and even lhp thoughts and writings... My question is I am seeking for us valuable writings, books, resources you can recommend in areas and topics like motivational Power affirmations and magical workings?

Unfortunately authors like Florence Scovel Shinn's are full of "Christ" and biblical affirmations (which I find nauseating) and then you have these authors such as Damon Beans of "Occult Rituals for manifesting money" and "Words of Power" use archangels Jewish shit.

Louise L Hay seems to be good so what I’m asking is recommendations for known authors that come from Ancient Egyptian Gods and Babylonian method of Words of Power of Pagan, Enkist teachings on Words of Power we can apply?? As every where I turn has corrupted xian and Jewish filth embedded ...

New age idiots, christians, and other retards are on a lower level of existence than you are. The moment you be nice to them, they will latch on and drain your energy and project their problems onto you. There is an energy exchange during social interaction and you will be drained of the energy you worked your ass off to obtain and receive filthy, negative energy in exchange that you will have to cleanse from your soul. Cats and Demons are far better company than non-Satanist people. If you are extremely lonely, you can make a thoughtform to keep you company.

Well a lot of information is corrupted. I mean I have these college books/packets spiral bound here I borrowed from my buddy he got them in Utah. They are Jewish Here are the books if you're curious...sports massage,acupressure,hydrotherapy, and reflexology by "Steiner education group and they cost $100 each. Okay and I mean our history about Adolf Hitler and Germany was rewritten altogether plus our own soldiers were lied into a war to save a the sick minded Jews! Because we had crooked politicians, of course we had Jewish politicians back then too!!! Just goes to figure!!!!!

It's the enemy, they did this to me too. They are psychic attacking you.

Symptoms of psychic attack include:

Having Nightmares - Dreaming very frightening nightmares.
Attacker Front and Center in Your Mind - Seeing your attacker in a devilish way, either in your dreams, your meditations, or in your thoughts.
Experiencing Fatigue - Feeling tired and depleted of energy constantly and for no reason.
Feeling Pain - Having pains in the same place at the same time on a regular basis.
Having Weakness - Experiencing illness or pains in areas of weakness that your attacker is already aware of.
Being Lethargic - Lack of concentration and feelings of laziness when it comes to completing daily tasks.
Severe Headaches - Having unusually painful, even severe cases, headaches accompanied with vomiting or dizziness.
Feeling Doubtful - Questioning or doubting your direction in life, even after having been aware of your direction beforehand.
Sense Being Watched - Feeling that you are being watched and seeing shadows around you from the corner of your eye, even when you are alone.
Suicidal - The worst kind of psychic attack can inflict feelings of having a heart attack, and feelings of the desire to commit suicide.
The more you progress, the more attacks take place. First from the greys, then the reptilians try to attack you. Remember that they cannot attack you physically, reptilians also feel pleasure in inflicting fear in their victim.

**Subject:** Re: Getting Started

Right around dedication time I had a few nightmares. F****** pussies. All I did was say "hey f***-face, say hello to my new friend". They were gone. My guardian demon likes messing with them too much. Denies me the pleasure. I just set up a perimeter, when it gets crossed my guardian has already handled it and advises me on what to do. I'm still asleep when it happens. It's done astrally so my body is not disturbed into waking up.

Never experienced fatigue too much anyway. As far as being lethargic goes they try to distract me from completing my meditations. For a long time I blamed this on myself. It was them.

I used to drink quite a bit in order to deal with all the s*** I had to deal with growing up. I would get headaches however they got very very bad.

As far as being watched goes I used to see ghosts a lot so that did scare me a little bit. You never know what you're going to get with those f******.

When I was younger all the way up to my early thirties I felt suicidal a lot. I never tried it but was pushed to the brink. At least four of my friends around me died from suicide. I could tell it was the enemy because I actually physically witnessed it occur on an innocent person that was not related to me. After I kicked this entity out of my area it went across the street and tried to get a girl to kill herself. There were other spiritually aware people around and they let me know what was going on so it was prevented.

I may have already met the greys. They didn't appear to me as the little wobble headed shit eaters they are though. I heard it was best to just ignore them or block them out by denying them any existence. Is that true?

I don't really have much to say about these attacks. Other than, MY TURN!!!

Well, I was hoping that you would tell me that there is some sort of structure to it that I could possibly benefit by learning with others.

But if I was going to give someone advice on whether or not to do it with what are obviously Christians and the like, I would tell them that it's probably going to be like trying to jerk off a large semi solid turd in order to obtain any sort of useful information that would help you to understand the structure of astrology.

I guess I would just be better off asking stupid questions on the astrology board until I figure out what's going on.

The enemies are cosmic assholes and will do anything they can to harm you, scare you, or slow down your spiritual progress. Cleaning your aura and building an aura of protection every day is an absolute necessity. Neglecting to clean your aura or build an aura of protection will leave you extremely vulnerable to enemy attacks and they will take any opportunity to rip you to shreds. They will even attack people you care about to try and hurt you or they will manipulate people near you, like christians or other idiots heavily tied into enemy energy.

Enemy attacks are not an unavoidable part of life. A very strong aura of protection, regular Banishing Rituals, and building shields around your house prevent enemy attacks. Also, if the enemies know they cannot frighten you or know they will be brutally destroyed when they appear they will not harass you as often. Ignoring enemy attacks is key to that. The enemies thrive on attention and the more you pay attention to their crap the more they will bother you. If you pretend the enemy does not exist and completely ignore it, it will eventually leave. You can build an aura of protection around people you care about to protect them against enemy attacks as well.

Also, a lot of "enemy attacks" are not caused by my malicious spiritual entities. Meditation brings mental hangups and other dross to the surface and this cleansing process can be unpleasant. A good way to determine if a thought or feeling is yours, even if negative, is to cover yourself in ether. If the thought or feeling goes away, it is not yours.

I clean everything from head to toe on the chakras. It's very thorough. I'm pretty proud of the job that I do on that.

It's been my experience that not doing the proper aura of protection is just like asking to be screwed over by the enemy.

I know that things are going to get a lot better for me now. In addition to the basics I'm doing the 40-day program and learning what's on the website as I should finally.

And in addition I absolutely love doing the RTR's. I'm finally getting some payback.

There are people in my corner now it seems like for the first time in a long time. That alone gives me a lot of strength. It's the type of person that is always there for you that is to say a demon.

I just wanted to say that holy s*** dude you do an awesome job of answering people's questions on here.
Basically what I said to Johnson_akemi is what is going on. Loneliness, making me think stupidly.

I can’t have pets in my apartment because it’s just too refining, lonely, hot, etc, and I can’t let them outside and it makes me sick to see animals not able to be outside and do what they do. I can sense when they are going nuts, so I’m constantly thinking about that and it’s very distracting.

And I’m still too new, unadvanced, weak and acting like too much of a f***ing dipshit to get any Demons to hang out as is evidenced with this post.

They still come around and communicate very briefly. I just talked to one the other day who told me that “things are going to get better for you.” They always show up in really busy places. It’s hilarious. I always have to try to keep a straight face around large groups of people. They just f***ing show up. They’re not worried about shit. I always get a great kick out of that. Of course I try mumbling verbally and looking at them instead of communicating telepathically like I should so maybe they’re trying to get me to stop that and start developing my telepathy more.

I sent you a message but it was one that disappeared – of course it could have got moderated. I made a pretty crude joke about it, involving stroking a turd off to get…

Your message was one that disappeared and reappeared again recently. I’m not interested in any jew books on massage, acupressure, hydrotherapy or reflexology. I’ve got enough retard shit to deal with thank you.
I do want to learn about reflexology in order to help myself and others with healing some f***en day but I am planning to do it by looking into what aikido originally was all about. If I can find anything on it.

But, while I got your attention, could you tell me if two books on Hitler I have are worth a shit or not? I got them awhile back and then the enemy was messing with me hard and I forgot about them for a while. Anyway they are:

Hitler’s Elite ï The SS 1939-45 / ISBN: 9781 7820 0088 4

Oh also perhaps not exactly necessary to say, but August 30 Mercure will be retrograde again. So from about now on you might expect misunderstandings.

Good luck to all.

magnum whatever you said its k. it sounded kinda funny.

I’ve been rather lonely all my life, so I can understand you there. One day I will get a pet too :) My current pet is a fly that flew in my room a day or 2 ago haha.

Now time to breathe and then off to do something else.
If you happen to mess up the vibration (numbers) on one of the days, do you have to start over again?

Yes, if that happens you have to start again from day one the next time you can begin the square on it's respective day.

Some general tips to prevent you from messing up,

Put some kind of alarm everyday to make sure you don't forget it.
Write a note somewhere, like on your phone if you have one or in a journal or on a calendar where you can keep track of which day you are on and how many vibrations you still need to do, and last but not least, make sure you have a good way of carefully counting the number of vibrations when you are doing the square.

Take it slow and don't rush the squares when you are vibrating them, as that is a sure fire way to mess up or loose count..

This might sound silly, but I keep track of the number of vibrations by using the calculator on my phone and adding +1 to the counter for each vibration. Of course a well made Satanic rosary will work just as well, but if you aren't careful you can mess up with a rosary.

Nothing is more annoying imo then messing up your moon square on day 80 or something like that.

When you make a mistake the entire work is canceled out. This is because the squares are very precise and in order to get them to work they must be performed perfectly because of the nature of the energies you are working with.

So don't take any chances and just work on them carefully.

My problem was that I used a small counting thing and I was supposed to skip the big bead but I didn't. Too sleepy I guess.

Anyway thanks for the clarification. Will skip Saturday and start again on sunday.
guys, i am completely lost here. sorry for making a topic for that but couldn't find another way, i want some help to find my way to start, any advices plz :D

way to start where?

My sun is in 9 degrees Pisces, what does this mean?

Pisces

Idealistic, dreamers, masochistic, self-sacrificing, creative, artistic, intuitive, weak, kind, gullible, romantic, self-pitying, extremely sensitive, compassionate, sympathetic, takes on other people's troubles, puts up with abuse from others. Pisces is the weak sign of the zodiac. When there is a strong emphasis on the sign of Pisces, the individual is often of a weak nature. They are naturally psychic and intuitive and very inclined to daydream and fantasize. When Pisces is very strong in the chart, one can have a masochistic nature. They are natural born empaths, and like the sign of Cancer, they can feel another's pain and suffering. They are extremely sympathetic and compassionate and will readily make concessions and/or self-sacrifices for another. They have a tendency towards shyness and are peace loving. They are one of the easiest signs to get along with in a relationship.

But really, that alone doesn't tell much, your Sun being in 9 degrees instead for example 26 degrees, marks that you have stronger Pisces tendencies.

Study yourself, it's real fun.
Astrology, when interpreted accurately, is the most detailed and advanced method of divination and is essential to timing rituals and working magick.

you going to die

You need to look through the noted planetary placements page on astrology section.

Find the degree and sign.

Well, your Sun in 9 degrees in Pisces can cause you being the victim in many cases of your life, or to be taken advantage by others and such. However, as spiritual Satanists we change our charts the more we progress; what I mean by that is that we empower what we lack and we balance our imbalances.

So, if I were in your place, I would ask from Satan's or your Guardian's advice on how to deal with this planetary position; how to overcome the problems that arise with this placement. :)

As a spiritual Satanist YOU take charge of your destiny.

9 degrees of Pisces is an unfortunate sign yes, but don't let that ruin things for you. You might take up a lot of abuse from others, more than what one should do. One is often ignored and looked down too. One has to fight in order to get heard so to speak. And looked upon as weak and unreliable. Treated very badly for no reason at all. Masochistic in nature. This sucks, but trust me, it will go away when one is with Satan.

You should look at all of the planetary aspects and blend them all together. Not only that sign. Only one sign tells very little about a person, as there are many factors that is imperative.

With meditation and yoga, especially if consistently applied into your daily routines, daily life (everday). You will prevent the destructive tendencies this degree brings. Ask Satan for guidance and help. If you are dedicated, I am sure this will sort out for you.

Take care,
Hail Satan!!!!

Would anybody mind giving me an interpretation of my natal chart?

It is not safe to post your natal chart information here. The natal chart is a map of the soul and shows your strengths and weaknesses. Someone who understands astrology can use your natal chart against you and exploit your weaknesses or time curses against you with bad planetary transits to make your life fall apart. There are infiltrators here who would love to see a Satanist killed or brought to ruin.

Subject: Regarding the "13th Zodiac Sign"

There are people who think that if Ophiuchus is integrated into our "zodiac sun sign wheel" that their natal charts will change. Your natal chart is a map of your soul, as unique to you as your fingerprint. Anyone who is adept as astrology and who knows themselves (these are 2 different things), knows that astrology (as taught by JoS / HPS Maxine / Azazel and other Gods) is 666% accurate.

Most people just don't understand themselves, they don't know who they truly are. This is due to a lifetime of being conditioned to go against our nature. Boys strongly discouraged to never fight, use their polite words and never their fists. Girls are taught that they must behave like the boys and play softball, and not with dolls. Parents expect their children to be miniature replicas of them, and not have their own unique personalities develop. We are bombarded with everything telling us to be someone we are not. Express your individuality, but only if it agrees with the mainstream teachings!

So if your Sun sign is now in Ophiuchus, you are not going to magically become an Ophiuchus person. Your personality is not going to suddenly change. You are who you are, your natal chart ruler(s) and the sign(s) it is in is who you are. You are a blend of your Ascendant sign, and all the signs your planets are in, to one extent or another based on if they are your rulers or not, and if you have a conjunction or stellium or just a singleton in the sign.

These astronomers and new-age astrologers are trying to smush Ophiuchus into poor Scorpio. It's just the novelty of it that makes people excited about it. Look at the personality traits they are assigning to it: secretive, seekers of knowledge, will fight to the end for what they believe in, focused, ambitious… sounds a lot like Scorpio, doesn't it? All of the other signs are vastly different than each sign next to it, so why is Ophiuchus pretty much exactly like Scorpio then?

I'm not saying Ophiuchus isn't real. I'm just pointing out that it does not factor in to natal charts. The traditional 12 zodiac signs are along, or near, the path of the Sun, but Ophiuchus is too far away to factor in. Even with the Earth's axis tilting. Look at a map of the path of the Sun and you will see it. Part of it (the man's right foot) juts between Scorpio and Sagittarius but the bulk of it is up near Hercules, Aquila, and Serpens. Should people with their Sun near the end of Taurus / beginning of Gemini call themselves Orions because the club juts up between those constellations? After all, they tried in the 70's to make Cetus a zodiac sign, and Orion's club is closer to the Sun's path than the head of Cetus is.

And if anyone argues that Ophiuchus at least touches the path of the Sun, unlike Orion, well then, I have a surprise for you! All you people who consider yourselves Aries, are not actually Aries at all because the path of the Sun doesn't really hit any of the main stars in the Aries constellation! Boy, were you Aries people mistaken! I guess this means you are actually Pisces, as that's the last constellation the Sun passed. Yeah... anyone who is an Aries, knows that they most certainly are not a Pisces.
The individuals responsible for this whole mess of putting Ophiuchus into the zodiac wheel, are astronomers. And it's a well-known fact that astronomers hate astrology and consider it all bunk.
You can do the planetary square for the planet ruling the sign on the cusp of your 12th house. If the ruler of your 12th house is one of the outer transcendental planets (Uranus, Neptune, or Pluto) there is no planetary square for those planets. Instead, you can use the zodiac mantras for the sign on the cusp of your 12th house. You can also invoke the energy of the planet ruling the sign on the cusp of your 12th house and affirm something like, "The energies of ______ are permanently improving my 12th house and its effects on my life in a healthy and positive manner for me."

Subject: Re: Unconscious mess
Saturn in the 12th house causes problems relating to the affairs ruled by your 12th house. Be empowering the ruler of your 12th house, you will be offsetting the malefic effects of Saturn. For example, if you have Virgo on the cusp of your 12th house, you can do a Mercury square to improve your 12th house and improve the areas of your life ruled by your 12th house. By doing the Mercury square (if you have Virgo on the cusp of your 12th house) you will be removing problems from your life.

If Capricorn is on the cusp (start) of your 12th house then your 12th house ruler is Saturn. Not the planet that is in there. (or did we not understand that right at all?)

Subject: Re: Question about Sun sign vs. Ascendant
Both make up a large part of it. Your personality and whatnot are made up by ALL the aspects of your astrology chart. But if one were to be the "most important", chart ruler would probably be up there

**Subject:** Re: Question about Sun sign vs. Ascendant

The ascendant is usually more important as the sign on the ascendant determines a person's chart ruler. The chart ruler, and any co-rulers, represent the person the chart is cast for. There are some exceptions to this. If the ascendant is Leo or Leo is intercepted in the first, then the sun sign is extremely important. In those cases, the sun would be the person's chart ruler or co-ruler. The sun can also have extra significance if the sun is part of a stellium or is in conjunction with the person's chart ruler.

Do not do a Saturn square. Doing a Saturn square will make the problems caused by Saturn worse. Do the square for the planet ruling the sign on the cusp of your 12th house.

In that case, you can use SATANAS to improve the powers of your soul. Vibrate SATANAS 40 or 108 times and affirm something like, "In a positive manner, the powers of my soul are permanently improving," or, "My 12th house and its effects on my life are permanently improving in a positive manner for me." You can also use ANSUZ or MUNKA to offset the malefic effects of Saturn in the 12th.

**How to Obliterate your Saturn**

In order for MUNKA to work, don't you need high levels of bioelectricity?

No. It makes it easier, but is not necessary

It's actually not the powers of my soul, it's everything that the 12th house rules:

THE TWELFTH HOUSE:
Cadent
House of Endings
The 12th house is the house of sorrow. In a positive sense, it is the house of psychic ability. It rules and represents the psyche, the unconscious, secret enemies, self-undoing, secrets, and skeletons in the closet. The twelfth is the house of confinement, illness, seclusion, institutions, hospitals, large animals, one's innermost secrets and emotions. It rules imprisonment, and prisons. The twelfth is the house of secrets.

Planets in the 12th, the affairs of the houses they rule are subject to misfortune. Victimization, resentment, loss, disappointment, and misfortune can occur regarding the affairs of the houses that have their rulers placed in the twelfth house. The 12th is a powerhouse of psychic ability and energy, when properly sublimated

It's the psyche, and unconcious and everything to do with psychic energy. When I was trying to clean my aura and visualize a bright and powerful light over myself (which I intended to be a bright white-gold), my mind then starting turning it into grey, which made me feel sick. So anything I do with psychic working fucks me over, and it scares me from advancing spiritually. One day, I had repetitive thoughts, of the Jewish gods name repititing in my mind, which I suspect is because of saturn being in my 12th house. 12th house is also the house of self-undoing, and the unconcious, so it gives me problems there too. I have capricorn in my first house too, so would a MUNKA working to free the soul from all of negative influence work? Or maybe a working to turn saturns negative effects into positive effects?

While typing this, these were the thoughts I had (I didn't have these thoughts conciously, it was the mind speaking or saying thoughts):

"Satan is a jew"
"Hitler is a jew"
When thinking of a solution to this, my mind said "Suicide"
Seriously, wtf..?

Would a MUNKA with the affirmation

"I am permanently free from all of Saturn's negative effects in both my 1st in 12th house"

Work?
Or would

"My soul is permanently free from all of Saturn's negative effects in both my 1st and 12th house"

be better?

HS 88

Honestly, it's probably enemy influence which is causing this mess right now.

What kind of meditations do you do daily?

Most of the thoughts you say you have are things the enemy likes to implant in your mind to mess with you and make you turn away from Satanism or make you depressed so you'll kill yourself because if you do that you'll be no danger to the enemy.

Protect yourself powerfully and meditate well to keep your energies high. Use Suryae to create a powerful aura of protection and use Vinasa to banish any kind of enemy influence.

Do those meditations daily and keep doing them and you'll not have this kind of negative thoughts for long.

Also take back control of your own mind. You know better than to listen to these enemy induced thoughts.

Whenever you hear some thought say "Satan is a jew" Tell it to get the fuck out of your mind.
How dare anything influence you like that! You are a warrior of Satan and even if you aren't that advanced yet, you are stronger than the enemy and you are more powerful than this. You can fight back and push these things out.
The whole point of Spiritual Satanism is to fight back against the negative karma that influences us. Even if your 12th house Saturn is causing these problems, you can at the very least use your will power and mental fortitude to stand against this and fight back.

Use white golden light and visualise this whenever you feel some kind of negativity in your mind.

Also that affirmation for the MUNKA working sounds like a good one.

So your chart ruler is Saturn which is in your 12th house?

Repetitive negative thoughts and golden-white energy turning grey are enemy attacks. You should massively reinforce your aura of protection and do a Banishing Ritual every day to keep enemy entities from attacking you. You can also visualise Satanic electric-blue fire filling your room/house to banish malicious entities.

You can use SURYAE, ALGIZ, BERKANO, SOWILO (SAULO is the more powerful version), SATANAS, solar energy, or some other method to strengthen your aura of protection. I recommend you use all of the above if you can. A very strong aura of protection will make your life much easier as you will be protected against bad luck, accidents, disease, horrible people, physical or psychic attack, and other misfortune.

Well, I’m going to learn magick now, so right away I realized that this is essential in order to understand what's going on with that. I've always sort of had an inkling that was true. I had a bad opinion regarding Astrology because of some of the people out there practicing bullshit and calling it Astrology. I actually started learning some terminology. In addition to "Azazel's Astrology for Satanists" on the Joy of Satan website, there are several books in the "Files" section of this Yahoo Group that can help you learn Astrology.

I started the MUNKA working, during the hour of jupiter day of mercury. Mercury rules freedom, and jupiter blesses (I think), but the moon is in a waxing crescent and the instructions say to **Begin at the waning part of a full moon [from the full to the new phase]**

I hope it's still as effective.

Hoping something is effective, is not going to make it effective. starting a working during the completely wrong time will make it barely effective, if at all.

Sunday October 16, Moon just begins to wane in Taurus. Taurus rules permanence, Sunday rules the Self. This is a good day to begin a freeing the soul working.

Mercury does not rule freedom in the sense of freeing oneself from stuff. I've seen int he groups before, someone posted that and I asked him/her their
reasons for it and they did not reply. Look to multiple sources before making a decision.

As for your other post about wanting to do 3 workings. I have been doing freeing the soul workings for about 5 years. These things take time, to completely rid oneself of multiple karma from multiple lifetimes.

One last thing. I've noticed some people jumping to freeing soul workings right away. Many things do not need a freeing the soul working, they need a working (either spiritual or physical) to get the thing that is desired. For example, if someone has self-doubt. A freeing the soul working to rid oneself of self-doubt is not needed, unless it cripples them to the point of not being able to function in life. What is needed, is practice and experience doing stuff to overcome the self-doubt. Do not underestimate good old practice and experience. It's what toddlers do in the world to grow and develop. Working on the solar chakra also assists for this.

Freeing the soul workings are for deep-rooted issues.

I have not read the book nor do I plan to. Most books on spiritual topics are endless seas of lies and crap that need to be sifted through in order to find a grain of truth. I learned everything about astrology I know from “Azazel's Astrology for Satanists,” posts made by High Priestess Maxine Dietrich to this Yahoo Group, a few questions I asked Lydia, and the following sentence (paraphrased) from "Dynamics of Aspect Analysis:"

1. The energies of soft aspects (like trines) work together more harmoniously than the energies of hard aspects, like the square and opposition.

This Astrology is not what I expected. Here's some interesting things I found out about divination:

**Divination** Divination comes from the Latin word řädivinareò which means, “to foresee, to be inspired by a godò. Being related to the word, řädivinusò or divine; ità the attempt to gain insight into a question or situation by way of an occultic, standardized process or ritualà. In my own opinion, this is a detached and scientific (materialistic) way to refer to řspiritual energy manipulationò. Spiritual energy manipulation being magick and divination being essential magick.
The truth be known; the best efforts of leading materialistic psychologists to understand this phenomena culminates in identifying things that divination makes up never what it is. This is done by plotting dots on an occurrences chart apparently, in order to find out what they think is relevant. What they think is relevant is based entirely on reaction as you will see in a minute. An example of a materialistic psychologists findings; would be the discovery of the made up categories of: 1) fortunetelling, 2) omens and omen texts, 3) sortilege (drawing lots), 4) augury (ranking a given set of possibilities) and 5) spontaneous. While these categories form the hypothesis of a highly educated idiot - that is precisely what they are.

In my opinion, to a Satanist, "spontaneous" would simply refer to open-handed magick.

Another important level of treachery comes to us from the jew book, the xian bible which clearly forbids any act of divination or soothsaying (Predictive Astrology) whatsoever [Deuteronomy 18:10-12 and Leviticus 19:26].

However the jew is allowed to use it to discover the will of yahweh before times of sacrifice. They refer to the "urim" and "thummim" - which was originally the Tablets of Destiny (planetary tables) which belonged to our Gods. This can be found at http://www.biblestudytools.com/dictionary/urim-and-thummim/ and describes the instances of "urim" and "thummim" to be found in the jew xian bible.

According to Wikipedia, "Divination" was considered a Pagan practice in the early Christian church. Later the Catholic Church would pass canon laws forbidding the practice of Divination. In 692 the Quinisext Council, also known as the "Council in Trullo" in the Eastern Orthodox Church, passed canons to eliminate Pagan and Divination practices. [http://apostolicconfraternityseminary.com/council_of_trullo.html] Soothsaying and forms of Divination were widespread through the Middle Ages. In the constitution of 1572 and public regulations of 1661 of Kur-Saxony, capital punishment was used on those predicting the future. Laws forbidding divination practice continue to this day*.

Based on what I've found so far, Astrology is not only "essential" to learning and understanding magick, it's the most important thing you could do. In addition, by not knowing Astrology for a great length of time, people have instead resorted to what are thought of as different types of divination. These are essentially props used to make clearer the processes of intuition and empty handed magick. Astrology is not a prop. The planetary tables are clearly described by our Gods as being "the tablets of destiny". Props would be used in the absence of the tablets of destiny and the use of empty handed magick. There are many of these divination props. For example:
1. Dust
2. Rooster Divination
3. Salt
4. Barley
5. Flour
6. Onion Sprouts
7. Flowers
8. Wind
9. Thunder
10. Sounds
11. Lightning Flashes
12. Burning Coals
13. Burning Sage Or Figs
14. Smoke
15. Spiders
16. Sitting In A Drawn Circle
17. Auras
18. Birds
19. Dogs
20. Arrows
21. Walking
22. Sleep Deprivation
23. Bumps On The Skin
24. Melting Wax
25. Dripping Wax Into Water
26. Striking Gongs Or Copper Bowls
27. Aerial Visions
28. Ice
29. Swirling Water In A Cup
30. Wheels
31. 1000’s moreé

This through further suppression of our survival by the jew insect race, moved into the propitiative prop. For example:

1. Statues
2. Rooster Sacrifice
3. Physical Appearance Of A Person
4. Human Sacrifice (Blood Sacrifice)
5. Studying Entrails
6. Skulls

While these props can be trivialized and made light of they were simply a method of holding onto what we once had, before the enemy parasites stole are Pagan heritage from us. It’s interesting to note that, Demons and the Tarot and other things we consider to be sacred are also included in this list of props that can be found in the recent studies and descriptions "Divination" is defined to mean today.
You can do more than one MUNKA working. You should not use a single MUNKA working for multiple things. For example, if you wanted to free yourself from money hang-ups and an irrational fear of Satan, you should not use a single MUNKA working for both of those things. You can do one MUNKA working to free yourself from money hang-ups and another MUNKA working to free yourself from the irrational fear of Satan, if you wanted to free yourself from both at the same time.

Read "How to Read an Astrology Chart" from Azazel's Astrology for Satanists. Every time you find a word or phrase you do not understand, look it up using a search engine. (Don't use Google. Google tracks you. Use DuckDuckGo or Startpage). For example, if you are reading through and encounter the term "house cusp" look up "astrology house cusp" so you know what a house cusp is.

How to Read an Astrology Chart
http://www.angelfire.com/empire/serpentis666/Astrology.html

After you understand the components of a chart, familiarize yourself with what the planets/signs rule and what that houses represent. After you do that, you should be able to look at your own natal chart and interpret it to some degree. The "Planets: Houses, Signs, and Aspects" section from Azazel's Astrology for Satanist will help you with specific planetary aspects/placements.

You can add a fake chart as an example and we can help you understand and interpretate it.

I'm just answering here to warn you, I don't know enough about astrology myself to really help answer your questions.

Don't share your personal information such as birthdate, or birth place, full name and current residence and anything else here with anyone, unless you know for sure the person you plan to share it with can be trusted and they are valid members.

Remove the picture of your astrology chart here or delete this message as soon as you can and just make a new topic asking the question.

It's been going good. I've been learning a lot. My job has been a major pain in the ass lately and I finally got that under control. I'll have a couple days off here now where I can work on it. I'm finding that just looking at the planets and signs and houses is good enough to get started on the prenatal charts as opposed to trying to interpret aspects at the same time.

I don't really have a "boss". I have "inspectors". In my eyes, they are all equally retarded. It's kind of like trying to work out an ethical solution with the Greys. Pointless. You're dealing with criminal pieces of shit. Literally.
Anyway, I'm doing good at my job. I have received a lot of help with this from Demons. I rarely have any encounters with anyone - and no boss is going to come out to where I am and give me any real shit, because they would lose the form imprint of their ass in their chair and have go and make it all over again. And their fucking retards as well.

I consider Astrology to be essential magick and magick to be essential Astrology, so I'm working on that right now in addition to my "Jew Insect Shit - Gentile Food Poisoning Program" booklet I'm working on. Don't need to get too dispersed. I'm also doing my meditations and RTRs of course.

You're welcome to help me if you want. It's just data, I'm not trying to make money off of a book or something. It's going to be free for everybody on here. I have no secrets from anyone on here nor am I trying to take credit for being more knowledgeable than someone else or some silly thing like that.

I want us all to succeed and realize my dream. That of impaling every fucking jew. And revel in their squirming, anguish and pain for all eternity.

I'm really just getting started with the booklet. Everything will be referenced to real research by professionals.

All is well now. Don't need to tie up psychic energy on retarded fuckers. Lots of smart jews and mudslimes to destroy. But, I appreciate you helping me out with any possible harassment I may be experiencing. I am kind of anxious to try binding some asshole. I have some pretty creative ideas on that and can already think of a couple of shit stain humanoids to try it out on.

I know that the natal chart is a map of the soul and not a diagram of the solar system. I understand the difference between astrological planets and astronomical planets. The astrological planets are inside of us and are part of our being. The astronomical planets are some fucking rocks. It’s nice that you jumped to the conclusion that I didn’t understand shit right away. If I didn’t know that, I wouldn’t be here doing this. Next, time don’t jump to genius conclusions. I have enough geniuses in my life.
The natal chart is cast for a person here on earth. No shit.

It shows the planets in relationship to us on earth, not around the Sun. Again, I know that.

You mean, natal charts are not heliocentric or sun centered, they are geocentric or earth centered. Therefore the center of the natal chart is where earth would be if someone decided to put it on the chart. The Sun revolves around the earth in a circular orbit, while the planets revolve around the Sun in a circular orbit around the Sun (not the earth). So the orbits of the planets travel around in the signs based on these orbits. How the hell is that not relevant? Being able to see these orbital paths would tell someone where the planets have been and where they are going, in addition to where they are fixed.

Maybe I like complaining about sifting through bullshit to get at the truth that has been corrupted and fucked over. Maybe WTF is the only word I know how to say.

Calm down..

Lets use the moon as an example.. the moon circles around the earth and is in a different sign every few days. Seen from the earth it'd be in a different constellation every ... days. I guess you know what a constellation is. (I mean Aries, Taurus, Scorpio, Libra - I mess up what goes where really bad)

Now if you have another planet, like mars, you look from the earth at mars. What constellation would that be in? (what would be in the background?)
You jumped to conclusions thinking I jumped to conclusions, when all I did was answer your questions based on how you presented them.

What I was trying to get at, about your comment on the orbital path not being shown, is that since the Sun appears to us here on earth to move through the constellations in order (Aries Taurus Gemini etc), and since all the planets revolve around the Sun, then all planets move in that order: Aries, Taurus, Gemini, and so on. Hence my comment on how the natal chart, the circle, is a map. The planets don't go from Taurus to Capricorn to Libra, they go in order. Counterclockwise. Unless retrograde for brief periods, then they go backwards.

The planets had been in the previous sign, and they are going into the next sign.

But this was so basic I didn't think it needed explaining. Everybody knows the order of the Sun signs in astrology, and everybody knows that all of the planets revolve around the Sun. I assumed you could add 1+1 to get 2.

So, it is clear that I did not jump to conclusions thinking you "didn't understand shit", if anything I assumed the opposite.

As for sifting through bullshit, only the astrology info online is corrupted, but the explanations about the natal chart and everything is all there.

And a tip: maybe try not being rude and childish to someone who took time out of their day to help you. You can count on the fact that I will not bother to assist you again, based on your childish response and ending with "WTF WTF WTF".

Also, it's "@", not "/". You are directing you comment AT (@) the person, not assigning a percentage (%) to them.

Magnum you're being extremely rude and disrespectful. Lydia took time out of her day to answer your questions, and you were just an asshole in response. She is a HIGHLY respected member, very intelligent, and knows more about astrology than most any of us. If you're gonna ask for help, how about you actually listen to the advice rather than being an abrasive asshole? Don't ask for help if you aren't willing to accept it.

Actually, magnum.arcanum, it is YOU who have been an asshole with inferiority complex.

Lydia helped you, assuming you know, instead of treating you as if you didn't - and yet you dare to be loud-mouthed? You'd better watch your mouth - older members are to be respected, not treated like shit. And not because they are older, but because they KNOW.

You have been kicked from the e-groups once - with such attitude, it can happen AGAIN.

Magnum no need for this. Just chill out.

What Lydia explains is correct in that what she said. No need to go crazy.

By the way, the Astrology is NOT Astronomy. So the layout is different. The apex of comparing is the person and the date of birth, not the sun (like in astronomy and general science).

If you want to see the relationships of the planets on the sky (without an apex of the birth of a human being) there are many applications for phones, books, and many other places to check this.

Astrology shows the influences of the planets with the individual at the center. The degrees on the sky only tie in. Its not Astronomy.
Studying can be confusing to the point of anger sometimes, and akin that when one goes to a class, they can be pissed off at their teacher or peers. So chill and learn, we all are.

-High Priest Hooded Cobra 666

The natal chart is cast for the person here on earth, so it shows the planets in relations to us on earth, not around the Sun. The natal chart is a map of the soul, not a diagram of the solar system.

As for seeing "WTF is going on with them", it is shown. Clearly.

Regarding the "pointless symmetry lines", they are not pointless. Hence why they are there. Some systems do use slightly different aspect orbs so the astrologer has to manually calculate them, but loosing the lines is detrimental.

The degrees and minutes are also very important.

Complaining about correct systems and ways of it all being shown is not the way to go about learning astrology.

Why do they show the planets on the same circle? Why not show them in relationship to their proper orbits around the Sun, so you can see WTF is going on with them? And loose the apparently pointless symmetry lines in the middle and the redundant degrees/minutes numbers on the chart?

See Attached Chart.

@.... do a Banishing Ritual every day and build a very strong aura of protection. Both of those will keep enemy entities from making your life miserable. You can also visualize Satanic electric-blue fire filling your room/house to banish a malicious entity.

I recommend you use all of the above if you can. A very strong aura of protection will make your life much easier as you will be protected against bad luck, accidents, disease, horrible people, physical or psychic attack, and other misfortune.

You can also absorb energy from the sun or visualize yourself in a golden aura and affirm 108 times "I am always safe, secure, protected, and healthy in every way." The protection working can be done multiple times a day.

You can bind literally everyone who may potentially harm you or harass you. This includes neighbors, the local judge, the USDA inspector (who can falsely accuse you of adulterating meat if you work in a meat processing plant), or the annoying traffic cop who likes to hide on your route to the grocery store.

You can make a list of all the people in your life who would make your life miserable if they hated you for some reason. It takes 7 minutes for me to do 108 vibrations of ISA and I can bind multiple people in one day. You can bind one person in the morning, another person in the afternoon, and someone else in the evening. Your life gets a lot easier when everyone is bound. For example, if your boss is bound he cannot harm you in any way. That includes denying a promotion or raise, so if he is bound that can bring you money or other benefits. In my experience, someone who is bound thinks I can do no wrong and that keeps them from harassing me or trying to hurt me.
Take accountability for that shit.

I really take your advice to be very good however I haven't felt the need to bind anyone except for a reptilian that may or may not be the same one and that has harassed me only twice that I am just starting to be aware of. Prior to that I've been harassed as well before even getting into Joy of Satan Satanism. I'm not even sure who it is yet but I'm starting to get a line on it. As far as the job goes I don't need to bind anyone there because they are not acting against me as much as they are acting against themselves by being complete fucking retards. As far as the reptilians that are fucking with me goes I don't wish to bind them, I wish to first torture them and then I wish to kill them. They've earned that.

The 6th rules daily chores/activities (along with health and work environment), so it's no surprise Uranus here is acting up for you.

A daily affirmation when you have an energy buzz (after yoga, breathing exercises, etc) should help.

You could also try a zodiac mantra with a corresponding affirmation, such as Virgo with "in a positive and healthy manner, the energies of Virgo are continuously enforcing a positive daily routine for me".

Or a rune... Fehu (Fayu) gives power over one's environment, Sowilo (Saulo) would be good for this. Same affirmation as above but with the rune name instead of zodiac name.

Also, if Uranus is conjunct a planet that has a square, you could try the planetary square for it, if the timing works out (planet not in detriment).

Also, put in the effort to set a routine. Wake up at the same time every day to get things done, instead of trying to do them here and there throughout the day and having interruptions and distractions.

I'm sure Johnson_akemi will come along with more suggestions ;)

You can also invoke earth daily. This will make you consistent, disciplined and set in your ways.

You can use the mantra for earth. Prithivi.

Vibration is strong and so do about 3-5 times a day and affirm that you are consistent.

I usually do the vibrations and affirm that all the positive characteristics of earth are within me, etc.

There's not really ever a time that my house is empty so I have to go outside to meditate comfortably. Also if I do have a routine in mind but the moon is void and when it comes out it will be in Gemini a mutable sign would it be best to wait?

Cardinal, Fixed, Mutable.
Fire, Earth, Air, Water.

S stands for separating and A for applicating - aspects. When an aspect aplicates, the faster planet gets closer to the exact degree of the slower one. When the aspect is separating, the faster planet is going away from the exact degree.

Example: Moon trine Jupiter.

Aplicating: JU 10Pis26, and MO 8Sco20 (the Moon is before the exact aspect)
Separating: JU 10Pis26, and MO 14Sco04 (the Moon is after the exact aspect)

Yes, I tend to agree. I don't understand these influences yet so, I can't judge anything with regard to their importance yet.

There is obviously some debate about this. Chiron is considered a trapped comet, an asteroid and a small planet. Even though I feel that the physical planets are realities created by us and that astrology deals with the "us" part, understanding these reflections of our manifested reality can at least steer one in the right direction as to what is going on.

Some people don't worry about their influence such as yourself and others do. I'm not going to try to get deeply into this now, as I have a shit-ton of other more important things to learn, but your analogy seems at first glance, excellent. Do you remember where you got it from - so I can prove it to be fact rather than what I consider to be a very good opinion?

"I've looked into Chrion, and kept note of planets transiting my Chiron over the past few years. It just doesn't really fit.... My conclusion is, if Chiron in astrology is indeed legit, then it's very minor. Not the huge deal new-age astrologers claim it is." - Lydia

You should not start major projects, like a working to improve your consistency, when the moon is in Gemini. A fixed sign like Leo would be better.

Thank you for taking the time out to do that. I didn't think you'd actually do it. LOL.

Just looking at the periphery of astrology from a complete beginners standpoint, and without even the slightest inkling of any knowledge having to do with astrology, I felt that there was something wrong with that and it reeked of new age bullshit.

If I can sense it at that level and be in relative agreement with people such as yourself and Lydia I think I can say I nailed that one on the head.

That helped me out a lot because now I can focus on what I need to focus on and not on some new age bullshit / waste of time.

Thanks a lot!

Also more recently, HPS Maxine has told me that she has disregarded Chiron. Makes sense as she has never included it in any of her natal and forecast readings, and I have about half a dozen of her natal chart readings that other SS have emailed me over the years.

It's always nice to cite HP Maxine, but you obviously earned a leadership role on the Astrology board for doing more than channeling xian coven, grey, love energy.

I see no need to cite anyone beyond yourself. You are a completely trustworthy source and there is no need to take it further unless you have time and/or want to because you think it will add something.

Once I saw your name and what you said about it, it was already a done deal. I'm not trying to suck up to you.

I actually know that's true and always have known it as many on here also know it.

Straightening that out for someone just starting is extremely helpful. It saved me a lot of time having to sort new age, retard, xian coven, love energy and shit like that. I appreciate it.

So I’ve been looking at a few charts, and I’ve got a few questions.
1) Retrograde planets. One in specific was when Saturn was Retograde and had 16 degrees in Taurus. That degree means violence, but since its retrograde does it make a difference at all? (Note this is in the 10th house).

2) North and South Node? What do they do and what are they?

3) AC, IC, MC, DC?? What are these?

4) The symbol with a Circle and a plus in the middle has something to do with like a natural skill? Or something like that. But I’m unsure as to how to interprete it.

Thank you in advance for any and all help and information!

YUP! Magnum’s RIGHT!

Lydia is our authority on astrology, alongside HPs Maxine ofc.

Keep it up Dear.

And to all wanna-be-clergy - Lydia is not a HPs, but because of her dedication to Satan, she's gained authority, respect.

LET IT SINK DEEP into your minds.

You guys are making me blush! lol :)

Magnum, HPs Maxine has over 40 years of astro experience which is why I cited her, but I had no link as it was in a personal email.

1. The planet being retro doesn't make a difference for degrees. Here's the link for retrograde planets in case you haven't seen it yet: [http://www.angelfire.com/empire/serpentis666/RETROGRADE.html](http://www.angelfire.com/empire/serpentis666/RETROGRADE.html)

2. The nodes are aspects of fate. "THE MOON'S NODES: Planets conjunct the Moon's nodes are of special importance. The Moon's nodes are of fate. Planets conjunct the north node are often benefitted, but not always. The south node is strongly of fate and when conjunct a planet, especially if tight, this is very fated for the affairs ruled by the house with the sign ruled by the planet." From [http://www.angelfire.com/empire/serpentis666/Astrology.html](http://www.angelfire.com/empire/serpentis666/Astrology.html)

3. Ascendant (1st house cusp), Imum coeli (Latin, bottom of sky) (4th house), Descendant (7th), Midheaven (10th).

4. Part of Fortune. Another aspect of fate. Same with Vertex and Anti vertex.

For the aspects of fate, often important people in our lives have a personal planet conjunct ours and/or vice versa. Or a planet aspecting by progression at the time of meeting.

Also, the North Node can indicate special talents relating to the house it is in.

The pineal gland is ruled by 2 planets, Pluto and Neptune

Now I was wondering.. is this because it has to do with balance (male-female)? If so, which one goes for the ida and which one goes for the pingala?

Just thought this when reading this post:

Greetings to all our People and Satanic Family! A few people have been asking for advice and guidance in regards to Mudras since the last post.

There are infiltrators here and they can use your chart information to put curses on you that are extremely hard to get rid of or to protect yourself from.

You can add a fake chart as an example and we can help you understand and interpretate it.

I'm just answering here to warn you, I don't know enough about astrology myself to really help answer your questions.

Don't share your personal information such as birthdate, or birth place, full name and current residence and anything else here with anyone, unless you know for sure the person you plan to share it with can be trusted and they are valid members.

Remove the picture of your astrology chart here or delete this message as soon as you can and just make a new topic asking the question.

I'm doing Astrology now. Starting to get a feel for the energy and stuff.

I agree.

I do this now:

1. Don't ever miss a power meditations even if it means you don't eat.
2. Always work for Satan. At the very least, do the RTR's.
3. Learn Astrology from Azazel. He didn't tell HP Maxine about it because he thought it would be entertaining. Something I just learned.
4. Continuously read over everything on the website. As you progress, things will take on different meanings and things that weren't clear will become clear. The times you read something in "a new unit of time", the more certain you will be about the material.

You can bind literally anyone who may possibly harass you or harm you. This includes neighbors, the local judge, the local USDA inspector (who has the power to falsely accuse you of adulterating meat) if you worked in a meat processing plant, and the annoying traffic cop who likes to hide on your route to the grocery store. It takes me 7 minutes to do 108 vibrations of ISA and I can bind multiple people in a single day.

Pick a Tuesday or Saturday during a waning moon when the moon is in a favorable sign for black magick, like Scorpio or Capricorn. The moon does NOT have to be in Scorpio or Capricorn for a binding spell to succeed, so do not worry if the moon is not in either of those signs. Go through all the people in your life and make a list of everyone who would make your life miserable if they hated you for some reason. You can bind one person in the morning, one person in the afternoon, and one person in the evening. After a few weeks or months of binding everyone in your life, you will find that your life is much easier.

Apologies to bump in, and this what I am going to say next should be good advice for myself as well..

Don't just assume that when one moves out of life they won't come back biting the butt. We need to be ruthless against our enemies, that means even if they might be a potential threat they should be bound.

Some people seem fine but end up keeping a grudge or whatever against you behind your back. (There are a lot of backstabbers, gossipers and what not in this world too)

While we may be compassionate towards others, our brothers and sisters especially, we should remember...
that we are at war. And that means that who ever is even a potential threat should not be ignored, but rather either kept an eye on or taken care of (and I mean bound in this case).

As for Johnson, may I ask, the binding in the witchcraft section, do you follow that procedure or did you change something about that?

@Taol_van_sherwood, I do not bother with the poppit when binding someone. I just hammer whoever it is with the rune ISA until they stop harassing me or are no longer a threat. I sometimes have to reinforce the binding working if it is someone I encounter on a regular basis.

I have Uranus, Neptune and Jupiter in my second house. My birthday was on October 25th and I read somewhere that the chart will repeat itself on ones birthday. Figuring as how these planets will hit soon, what should I do? Please respond

HAIL SATAN

Your natal chart does not repeat itself on your birthday. Your natal chart is fixed when you were born. On your birthday, you can make a solar return, which is a chart showing events in your life for the next year. There are websites that will generate a solar return for you. Ignore the interpretations the websites give you; the interpretations are inaccurate. You can use the information on Azazel's Astrology for Satanists to help you interpret your solar return.

Perhaps you meant the Solar Return.

There is a section under Azazels Astrology that is about predictions. If I remember correctly it says that when the sun is in the same degree and sign as it was on your birth day a chart is cast for the whole next year. It is supposed to show things that might happen next year and you'd have to put your natal chart next to it. (Do not share your natal chart here publicly).

Although I am not quite sure how to interpret such one it is interesting.

I collected all writings of High Priestess Maxine on astrology from astrology e-group, forum and Joy of Satan website from different sections, mostly Azazel's astrology for Satanists and some others. So that all JoS astrology is in one PDF file.

Happy Halloween!

If I do out my natal chart here, it wouldn't pose a threat. How would I even be afflicted damage? it would literally be just a chart without my name nor birthplace.

A natal chart is a map of your soul and shows your strengths, weaknesses, future, and can be used to make curses against you substantially more effective. For example, a first house Saturn transit is one of the worst times in anyone's life. Adding a curse on top of the bad transit may be all that is necessary to completely ruin someone's life or even get the person killed as the universe will be working against the person. There are infiltrators in these groups and an infiltrator does not need your real name to throw a curse at you. Your username is enough to direct a curse your way.

Knowing someone's natal chart allows you to know them better than they know themselves. For example, if someone has Jupiter in the 5th in hard aspect to their chart ruler, that can make someone prone to gambling addictions. An infiltrator can use that against the person by making a legitimate-looking email saying something like, "Online slots! 100 free credits with sign up!" with a link to a fake website. If the person falls for the fake email and signs up, the infiltrator can get the person's real name, address, real email, and other personal information.

Also, it it not particularly difficult to find your birth date if you post your chart. The position of the sun/moon give away the day and time and the position of Pluto gives away the year. Unless you have a tinfoil-hat level of paranoia about obscuring your internet identity, it is easy to find your IP address and that gives away your geographical location. With both of those, a very persistent infiltrator can potentially track down your actual name by searching through public directories.
I just wanted to commend you on the fine job you did. And I wanted to let you know that you helped me out a lot by what you did.

I was organizing materials fairly well however now instead of spending my time with that I can simply read the materials over and over again until I get everything down.

This means that I can study the materials at work on my phone and so forth and really start to make some progress without the distraction of organizing it all.

Thank you!

Hail Satan!

I also tried to say thank you, Edward. Not sure if my other post went through, I may have replied in another group. This PDF is very well done and organized.

Does anyone know if this is the correct information:

What's the significance of the moon being closer to us than its been in about 70 years? I've been kind of busy lately, but if I remember correctly, this occurs on November 13th.

High Priestess Maxine Dietrich mentioned that the supermoon will be extremely powerful, here: https://groups.yahoo.com/neo/groups/666BlackSun/conversations/topics/3316

In what way the moon is powerful, she did not specify. The "supermoon" on November 13 is when the perigee of the moon's orbit (when the moon is closest to the Earth) coincides with the full moon.

A working to free your soul should be started on a Saturday during the hour of Saturn. The moon should be waning and in a sign good for endings, like Pisces. The moon should NOT be void when you start a magickal working of any sort. Starting any spell during a void moon will cause the working to fail.

Chronos XP is a program that reveals the planetary hours of the day. There are also iPhone apps. ₹Hours by Sirius Lab Ltd or ₹Lunar Calendar by Vyacheslav Petrukhin, that show the planetary hours of the day.

It's actually not going to be on Sunday 13th during daytime.

Depending on your location, it'll happen either the night between Sunday and Monday (the perigee at 3:21 AM and the full moon at 5:51 AM on the West-coast USA), or Monday slightly before noon and right afternoon in Europe (the perigee at 11:21 AM and the full moon at 1:51 PM, London time).

Subject: Moon Perigee/Super Moon

The moon will be extremely close to full on Sunday night/Monday morning and will be in perigee. It will be closest to the earth and this amplifies workings and magick. It is a powerful time. Everyone should take advantage of this.

Now would be the time to start any important workings or meditate and do a personal ritual for goals. This placement will not happen again til 2035. Perigees happen about 3 times a year but this one is special.

The moon will be in Taurus. Good for permanence, growth, money and finances, etc. Regardless of the nature of the working, taking the time to do something significant is beneficial. The energy will be catapulted.

Also everyone should use this time for RTRs!

Check your timing online according to your location. Moon perigee.

Hail Satan!

A waning gibbous and waning crescent are both referring to a waning moon. A waning gibbous is from the full moon to the third quarter (the moon being at 50% light). A waning crescent is from the third quarter to the new moon. You can start a freeing the soul working at any point between the full moon and new moon when the moon is waning. This includes both the waning gibbous and waning crescent.

In my next solar return year, I have Mercury retrograde in the 12th house in Sagittarius (it also conjuncts Saturn, cool!). The sun only conjuncts it later on in the year.

Should I do workings to improve my intelligence next year, or would it be a waste of time? I don't know how solar returns actually effect workings if at all.

(Fine with my details being public as energy takes shortest route anyways)

Energy taking the path of least resistance has nothing to do with keeping you safe from infiltrators who want to kill or ruin any Satanist they can get their hands on. Energy is like the laziest employee on the planet that also has no common sense. If you tell energy to "take out the trash" it will take the trash outside and dump it on the ground instead of walking the extra 10 feet to put the trash in the dumpster. Since energy takes the path of least resistance, affirmations need to cover every possible things energy could do wrong. For example, if you do a spell to attract money the money could come to you through disability payments because you got maimed in an accident. That would be some free and easy money, but being disabled for the rest of your life is not a good way to obtain money. The path of least resistance is usually negative. That is why affirmations always have to have "in a positive manner" or something similar so the energy does not manifest in a negative fashion.

Posting your solar return not only gives away your birth time and location, but also gives away your current location. A very persistent infiltrator can look through public registries and even archives of elementary school graduates in your city to narrow down your real identity. There was an infiltrator named Zryan a while back. He spammed the groups with hundreds of messages a day that the clergy had to spend hours sorting through when approving messages and he also spammed members like Lydia with dozens of messages a day. He did this every day for months until he was forcibly stopped. There are infiltrators like that out there who will do literally anything they can to harm Satanists or Satanism as a whole.
A solar return is like a chart for your year. Instead of personality traits, trends in the solar return manifest as events in your year. For example, with Capricorn on the ascendant of your SR that puts Saturn in the 12th as the ruler of the SR. Having a Saturn-Mercury conjunction in the 12th does not mean that your intelligence is going to go down the toilet and all intelligence workings will fail. The Saturn-Mercury conjunction puts an emphasis on events ruled by Mercury as Saturn is the ruler of the SR.

Also, events in the solar return are often confirmed by transits or progressions. For example, the same time I was having some terrible transits (both transiting Saturn and Mars wreaking havoc on my natal chart), I had an absolute crap solar return. I saw what was coming and went nuts with both sun and Jupiter squares in addition to spending 45 minutes a day empowering my aura of protection with so nothing bad happened.

Having Caput Algol in your 4th house does not mean anything unless the star is conjunct or opposite one of your natal planets or house cusps. A fixed star has no effect unless it is conjunct or opposite a planet/house cusp with a 1-2 degree orb.

A grand trine is when there are three planets all trine (120 degrees) from each other. Not everyone has a grand trine in their chart. To find your elemental make up, look at the element each of your natal planets are in. For example, if you have a lot of planets in fire signs like Leo and Aries and none in water signs like Cancer, you will have more fire in your soul than water. Most people have one or two elements that are dominant. Elemental imbalances can be corrected by invoking the lacking element and affirming something like, "The ______ element is permanently balancing my soul in a healthy and positive manner for me."

I don't think it matters in my case. The enemy probably already knows where I am, there's stuff on the net.

I meant in the sense that if they see a weakness from the chart and curse me in that way, if they'd programmed energy properly in the first place, that energy would do that already.

Thanks for your reply Johnson.

Wow. I'm not to great at sensing energy yet - but I sure the hell sensed that!

It's only an issue if you have it in conjunction or opposition to a planet in your chart. Also, if you have it on your ascendant or descendant or on a house cusp. This includes any other fixed stars and/or degrees. Only 1 or at most 1 1/2 degrees of orb are effective.

"Strengthen the planet being attacked by Saturn."

He went on to explain that by strengthening the planet under attack and stating affirmations every day, the effects of Saturn can be drastically offset.

---------

To do this, you should prepare at least a month before the Saturn hits. Vibrating the planet's mantra on a Satanic rosary, or doing the planetary square. Affirmations following the raising of the planet's energies are also essential.

Knowing what can potentially happen in the future by looking at one's astrology chart is a most helpful gift from Satan.

Affirmations should be stated 18 times with focus, using the light (directing the energy), and visualization.

Visualization can be also placing an aura of white gold light on yourself, while feeling the energies raised with the mantra.
I just want to add here, some of you already know this. I posted this because Satan himself stated this.

In the natal chart, the north node is supposed to indicate special abilities or talents. Look to the signs and the houses, right? But what about the planets? They have to factor in somehow, because the planet itself is aspected by the north node.

My point is, how does this apply to Saturn? Which normally indicates shit luck? How can this planet produce talents?

Saturn represents, time, limitation, boundaries, law, structure, authority (along with the Sun) discipline, karma, old age, basically it's your obstacles in life, things which restrict you or place limitations on you, limitations in the form of health, poverty, relationship, family etc etc.

All of us are under Saturn's influence as long as we are incarnated in this physical world and we all have limitations until we are Gods, all of us have things we are incapable of doing. Even if you are a billionaire, even if you are a super model, even if you are a martial arts expert, even and even and even and even until tomorrow, wherever you are at you still have some limitation. Some have more limitations than others depending on the conditioning of their soul but either way we're all limited. The nature of the physical world is limitation, defined boundaries. Saturn in your astrology chart shows you where your limitations are at. What you will experience as limiting.

Life is about overcoming these limitations as best as we can and in doing so we improve our souls, evolve to a higher spiritual level, more power, awareness and hopefully improve the world around us and life as a whole. Physical and Spiritual mastery, becoming as Gods.

Thanks, that's an awesome answer. I'm trying to draw connections from the planets to their corresponding chakras. I'm aware that not every chakra is listed (base, heart). But I'm primarily focused on the crown chakra and Jupiter.

What can you tell me about Jupiter and how it relates to the crown in our personal lives?

The north node is of fate. Planets, angles, and house cusps conjunct the north node indicate a fated event in the person's life. Solar returns will indicate when the fate event will occur. Planets conjoining the north node through transits or progressions can also trigger fated events. People we are fated to meet often have their personal planet(s) conjunct your north node.

"Fate" is due to programming, connections to other people, spells you did, and other things (both good and bad) left over from past lives. Negative "fated" events can be prevented through meditation, which raises your vibrational level and shields you from negative planetary energies or doing 40/90 day workings to free your soul from the "fate" and "karma." The Sanskrit mantra MUNKA or the runes ANSUZ and URUZ can be used to free yourself from "fate" and "karma."

The energies of planets can be sublimated through meditation. Meditation raises your vibrational level and that shields you from the lower, negative manifestations of planetary energies. For example, Neptune is weakness for most people. Neptune transits often bring drug addiction or other forms of self-destruction. For someone who meditates, a Neptune transit would bring spiritual creativity, deep meditation, and other beneficial effects.

Another way of offsetting planetary energies is to build a very strong aura of protection. A very strong aura of protection will shield you against negative
energies and will keep bad things from happening to you.

Methods of Protection

In the case of Saturn and Saturn transits, you can use the planetary squares. You should do the planetary square for any planets being affected by transiting Saturn. You should also do the planetary square for any natal planets aspected by your natal Saturn. If the planet being affected by Saturn does not have a planetary square, such as Pluto, you can use the zodiac mantras to strengthen the planet. I recommend you do NOT do a Saturn square ever even if the natal planet being attacked by transiting Saturn is your natal Saturn. Doing a Saturn square will make the energies of Saturn stronger in your life and will make the problems caused by Saturn worse.

The "planet being attacked by Saturn" refers to the planet being aspected by Saturn. This includes the conjunction, hard aspects (like the square and opposition) and soft aspects (like the trine). Conjunctions are the worst. Hard aspects from Saturn are bad, but conjunctions are worse.

If you do not want to do a long square, such as a moon square, you can vibrate the planetary mantra from the square. For example, you can vibrate AUM CHANDRAMASE NAMA 20 times a day for 40 days to strengthen your natal moon. You need to state an affirmation to direct the energies. A potential affirmation to use with AUM CHANDRAMASE NAMA is, "My natal moon and its effects on my life are permanently improving in a healthy and positive manner for me."

Subject: Saturn and Pluto in Ruler

Hello companions!

Well, I believe they have asked this many times but I really do not find in the middle so many messages :) If you can clarify me, I will be very grateful.

I have two ruling planets on my natal chart, Saturn in Capricorn in house two and Pluto in Scorpio in the ascendant, both are their natural regency planets. Is this good or bad? The history of these planets is not very friendly :) but I realize that in their certain hours there is a moment of calm and luck in my life, I feel very well in the hours ruled by these planets except for the hours of the Sun and Jupiter. In fact my financial field does not progress but I never lacked the necessary because I always depend on others, I can not do anything alone when there is an association.

Can someone explain me about this?
HAIL SATAN AND GODS OF HELL!
HAIL AZAZEL FOR PASSING THIS GREAT KNOWLEDGE AND THE HIGH PRIESTS!

A planet in its home/ruling/exalted signs is stronger than when it is in any other sign. A planet in its ruling sign will have more influence on your life. A strong planet in its home/ruling sign can be good or bad. For example, a strong Pluto in Scorpio can give someone intense focus, willpower, and other beneficial traits. However, a person who cannot control the energies of a strong Pluto in Scorpio can be prone to obsessions that ruin their life. An example of this is a man who had a Scorpio stellium and spent hours masturbating in the locker room at the fitness center where he worked. He lost his job for it.

Losing your job for masturbating should be terrible, lol
But in fact I do not have that much sex appeal, I spend more time studying and writing while listening to good music and it gives me pleasure.

My Saturn is in Capricorn in house two, my Pluto in Scorpio in house twelve with Bungula I do not know how I can know more about Bungula. Uranus in house two in Capricorn too, the three are my Regents.

If I do the Magic Quadrant for these planets will this help me to make my financial and professional life better?

Thanks for all the answers

I did it. I got a loan years ago and I requested it while the moon was void by purpose. I paid for some months, but then I repaid the whole debt way before its expiration date. However, I repaid it using my own money, I did not get any "extra money", I simply have been able to repay with my finances.

If you take it from the bank, you shouldn't even pay it back. Anything a bank loans you is actually created out of thin air or, better said, is created through your signature. It is not money the bank owns and it's loaning you. You can understand this better studying Universal Commercial Code (UCC), which is what practically rules the world.

I've been doing some research and haven't managed to find some solid info on numbers relating to the planets. Could anyone help perhaps in this regard?

What im working on is reducing power words to a gematria and correspond to certain energies (like planetary energies and runic energies - again, numerology corresponding to this??) for some advanced workings.

Any guidance / cooperation in would be appreciated :)

Vedic astrology is inaccurate. High Priestess Maxine Dietrich explains more here:

Vedic vs. Western
https://groups.yahoo.com/neo/groups/JoS_Astrology/conversations/messages/819

Since you have a Scorpio ascendant, your chart rulers are Pluto and Mars. Wherever Saturn is in your chart, that is where you will experience problems in life. Saturn in the 2nd house can cause problems relating to money and finances. You can offset the problems caused by Saturn in the 2nd house by doing workings to free your soul, such as vibrating MUNKA or ANSUZ. You can also do money spells to improve your financial situation.
Investing is more than spending your money on a Thursday during the hour of Jupiter. "Rich Dad, Poor Dad" is a good start that breaks people out of the jew-instilled mentality where investing is an evil, scary-sounding endeavor that only rich, fat-cat bankers engage in. Because of that mentality, people are scared to invest and let the jews have all the wealth. I recommend you read "The Intelligent Investor" by Benjamin Graham. "The Intelligent Investor" gives a good introduction to the world of investing and discusses some investing techniques.

You need to do a lot of research if you want to make a good investment. The value of something, whether a stock, house, piece of property, or whatever, is what other people THINK it is worth. This is why the stock market is so volatile. If people think a stock is going up in value, they buy the stock and it goes up in value because everyone is buying it. Conversely, if people are panicking about a potential crash in the stock market, everyone sells and that causes a crash to happen. This is how the Rothschilds accumulated vast amounts of wealth. The Rothschilds would trigger a dip in the stock market and that would cause everyone else to panic and sell, crashing the stock market. The Rothschilds would then go in and buy everything for pennies on the dollar. Do the opposite of whatever the herd is doing if you want to make money.

If you want to buy an apartment, you need to take into account a lot of factors. Are you planning on buying the apartment and selling it in the future for more than you paid for it? Are you planning on renting the apartment to someone else? Where is the apartment located? Where is new growth in your city? If the apartment is in a new area of the city, it may be overpriced and you will never make any money on the apartment as its value will decrease over time. Conversely, if you buy an apartment in an older section of the city, it may have no resale potential as people are not willing to pay for an older apartment. Is an apartment the best choice in your area? Are condos, farmland, or some other form of real estate a better investment?

For example, in my area you can plant nut trees on empty land, let the trees mature for a few years, and then sell the land with nut trees on it for far more than you originally paid for it. Even doing that is much more complicated than it looks. Are there nematodes in the soil that will keep the trees from growing?
Are there gophers in the field that will eat young trees? Is there hardpan, rocks, or other problems with the soil that will prevent trees from being planted? Is the land in an area with endangered species? If endangered species are present, you will be stuck with an unsellable piece of land than cannot be used in any way. Are there structures (such as schools) nearby that would prevent application of certain pesticides? A typical, uneducated buyer will want to be able to drench their nut trees with pesticides even if you do not support pesticide use. Is there a water source for the trees, such as groundwater or canal water, that will still be there in 20 years?

Also, why real estate? Real estate has both advantages and drawbacks. There are stocks, bonds, futures, and many other forms of investment out there. The internet is a great tool to learn how to invest. A simple search for "how to invest" will bring up endless sources that will teach you how to invest and turn your money into more money.

6 - Saturn
8 - Mercury
9 - Sun

That's all I have, sorry.

Mr. Johnson is actually a misses! :3

I collected all writings of High Priestess Maxine on astrology from astrology e-group, forum and Joy of Satan website from different sections, mostly Azazel's astrology for Satanists and some others. So that all JoS astrology is in one PDF file.

Happy Halloween!
Has anyone done researches that can match runes to planets? Or is it okay to assume something like this:

Since root chakra is matched with Sowilo, then we can match Sowilo with Saturn as well. (I don't see the connection, it would blatant with Sun instead of Saturn.)

Sacral chakra - Dagur - Mars (I don't see the connection. I would match Mars with Ur. Dagaz could go with the Moon, perhaps?).

Solar plexus chakra - Rauda - Sun (I can see the connection, both with Rauda and Sowilo)

Heart chakra - Gebo - Mercury

Throat chakra - Kaun - Venus (I can see the connection here as well).

Sixth chakra - Thaur - Moon (I don't see the connection. Maybe with Dagaz or Berkano?)

Crown chakra - Ing - Jupiter (...)

What do you think?
The runes are based on the constellations. For example, GEBO is based on Virgo. Virgo is ruled by Mercury and Mercury rules the heart chakra.

GEBO is the only rune where I have concrete answer regarding what constellation it is based on. I only have speculation or nothing regarding what constellations the other runes are based on.

You can do a regression to find out about your past lives using your natal chart.

Regressions are somewhat weak. A better way to find out about your past lives is to do a past life regression.

Online websites are not accurate. Astrology has been heavily corrupted and there is much incorrect information out there. Most astrologers put too much importance on sun sign and are incapable of interpreting basic transits. A person's sun sign is not that important unless the sun is the chart ruler or is part of a configuration like a stellium. Also, modern astrology is infested with new age crap. Many astrologers will tell you crap like "The next leap in consciousness is a change towards the collective." I do not want to be assimilated into a hive mind like the greys are. Azazel's astrology is the only uncorrupted source of astrology information.

Planets that are conjunct act like a single unit. Their energies are blended and the sign they are in influences the result. It is like mixing two colors of paint together on the ground. If I mix the paint together on the dirt, there will be rocks and dirt in the paint mixture. If I mix the paints together on the grass, there will be chunks of grass and little dirt in the paint mixture. The kind of ground I mix the paints together on is like how the signs influence the planets.

My post did not go through...

Check 5 or so different websites. If they all say the same thing then it is probably correct. Also, when you cast a chart and start analyzing it, if the date is incorrect the chart will not match Trump's personality and life events.

Subject: Astrology Programming

It's possible for the Jew to break someone so completely that they become another person. I know this and have studied some of the things that have been proven to have been done. All such people have what are known as "handlers", that literally know how to program the schizo and change their personalities at will. I'm thinking, this is still going on in earnest by the jew, on other jews and Gentiles.

Question: Can the consciousness of the schizo personality develop its own birth date based on this torture / mind control programming? Because I don't think its actually a biological process, but a spiritual person, mental process that records their own astrological birth date.

Based on that: I think many of Trumps staff have been programmed in such a way. They are evidently programmed for 7-9 years but as little as 1-year. After that they are programmed with their astrological date of birth (it varies from there actual biological birth date).

And the most interesting thing of all is, Trumps staff; "real" natal profiles apparently are almost all at the end of the month of November e.g. 29, 30 and 31, including Hillary Clinton's. Trumps is straight forward. (June 14, 1946, 10:54:32 a.m.)

I don't understand this because I haven't started studying Astrology yet. Obviously I had a lot of help with this and I have most of the natal chart, numbers for Trumps cabinet. But, its just too fucken weird for words.

Out of the 25 people I looked at, on Trumps cabinet. Only 1 is a Gentile and she is working for the jews. That's "Betsy DeVos" (Education Secretary). Everybody on his cabinet is a biological jew including him.

My New Years resolution is to learn Astrology. It's very interesting to me and I'll have lots of help.

Hail Satan!

Because it has not been updated. Mercury makes more sense as heart chakra ruler. If you notice, in some places on the JoS website it says that Venus rules the throat chakra.

Here it's said Mercury rules the throat chakra and Venus the heart chakra:  [http://www.angelfire.com/empire/serpentis666/Incense.html](http://www.angelfire.com/empire/serpentis666/Incense.html)

[http://www.angelfire.com/empire/serpentis666/PlanetMercury.html](http://www.angelfire.com/empire/serpentis666/PlanetMercury.html)

Here it's said Mercury rules the heart chakra and Venus the throat chakra:

[http://www.angelfire.com/empire/serpentis666/Heart666Chakra.html](http://www.angelfire.com/empire/serpentis666/Heart666Chakra.html)

[http://www.angelfire.com/empire/serpentis666/Heart_Chakra.html](http://www.angelfire.com/empire/serpentis666/Heart_Chakra.html)

The are several reasons why Mercury is better suited as ruler of the heart chakra and Venus as ruler of the throat chakra.

Yes, it is. Which only means that JoS requires an update, BUT for now there is war going on, so I wouldn't expect it soon.

Throat is about emotions. Mercury, being the communicator, is hardly about them - Venus is.

I'm kind of busy right now. I've got to go to work in an hour. And I know your a lot more busy.

I didn't get the chance to collaborate on anything with my guardian. They helped but not the kind of direct help that I get now. Meaning: The articles are written by me pretty much alone. (Probably not up to your intelligence level). Maybe. Some are pretty dam good I think. Their not "mine" and their referenced to researchers and doctors. Pretty dam good I guess.

I took on too much, have about 30 chapters, about 5 or 6 are worth sending your way. A lot of reference gathered in order to just understand the topic sort of thing...

I'm busy working with my guardian right now learning Demon language. And doing some other stuff for Satan as I know you are.

And no I haven't given up on the Joo Insect Gentile Food Poisoning Program thing. I was going to wrap up what I can by the end of the month, if that's OK.

Is there anything specific I can help you with right now?

The enemy knows I like to go out to eat. My guardian warned me but I couldn't hear her and got food poisoning last week at one of my favorite restaurants. I'll find out who it is.
They've been nailing me about every 2-3 months. There going to fucking pay.

Nice to hear from you.

If mercury doesn't rule throat chakra from experience it definitely affects it. and I dont think that's the case. the Joy of Satan got it right the first time, my birth date is virgo , the planet mercury rules my chart, when that shit aligns in the sky I feel it my thyroid even starts trippen and I dont sleep.

Saying that your birth date is Virgo doesn't make any sense. What do you mean?

It makes perfect sense what do you mean?

Group: JoS_Astrology  Message: 2630  From: starduststreakoflightning  Date: 12/12/2016

Birth date is a date literally. For example, December 12th, 2016. This is a birth data. Virgo can be a lot of things but not a birth date. It can be your:

- AC (rising sign)
- IC (4th house cusp)
- DC (7th house cusp)
- MC (10th house cusp)
- any other house cusp
- an intercepted sign
- your Sun sign
- your Moon sign
- your Mercury sign
- your Venus sign
- your Mars sign
- your Jupiter sign
- your Saturn sign
- your Uranus sign
- your Neptune sign
- your Pluto sign

but certainly not your birth date. By what you wrote, I think you mean that Virgo is your AC.

o hahaha my bad yea

Human and animal sacrifice (you mentioned rooster) are not part of the Pagan culture. They're entirely Jewish.

Mind someone walking thru this for me, for I look at my chart and the numbers but it dont end up to me for some reason. I found 2 or 3 numbers only and that was on the zodiac signs, also none the others I saw. Not even on the stars, that possible? Of course I am not confusing the house number with the star numbers or what they called. Any help or hint on how to look or find the rest of the numbers be helpful thanks.

Hail father Satan
Hail mother Lilith
Hail all the Deitie gods/goddess

Mmm oh, didn't know that. Thanks.

Hello guys i've discovered that my MD lies in 22 degrees of sagittarius and I've found on the azazel's astrology site that it's a bad degree, however nothing else it's said, that it has only a negative nature

I'd like to understand more of this subject as I'm interested if somehow my Pluto (still in Sagitarius, 8 degree) has something to do with it. Thank you in advance and HAIL SATAN!

Not everyone has planets on special degrees or conjunct/opposite fixed stars. If you do not have any planets that line up with degrees listed on "Azazel's Astrology for Satanists, " there is nothing to worry about.

Shouldn't SVAHA be used in this case, since SVAHA is for spiritual stuff, like empowering planets, houses and chakras?

Having the MC/IC axis on 22 degrees can be unfortunate for the 10th and 4th houses. However, if the planets ruling those houses are on good degrees or are well aspected (such as aspects to Jupiter or being in their home/exalted signs) that can offset the MC/IC on 22 degrees. Also, you can do 40 day workings for your career and home to offset any problems caused by the MC/IC at 22 degrees.

Mmm oh, didn't know that. Thanks.
Is there any meaning for the numbers then that don't go to the stars?

@ch2qlf3qcoaaykrgxeyrudydr7n6nwa4q, if you are attacked by malicious entities, clean your aura and build a very strong aura of protection daily. A clean aura naturally repels malicious entities as well as low-life scum in your physical life. A strong aura of protection keep bad things from happening to you and that includes physical or psychic attack.

@ Magnum.arcanum, Haagenti is a Demon. If there was a guy blaspheming Haagenti by using her name while trolling, that guy's messages have been deleted because I could not find them. Either that or your account has been compromised.

SVAHA can be substituted for NAMA when working on spiritual goals, like those you mentioned. However, NAMA can be used for spiritual purposes as well. I have used NAMA for planetary squares to strengthen my natal planets and the squares were still effective with NAMA.

I only use NAMA when doing planetary squares because it is easy to accidentally vibrate SVAHA when I was supposed to vibrate NAMA or the other way around. I messed up several squares that way. I have not messed up a square since switching to only NAMA.

Hello peples,

I`m fascinated by derived house system, but I don`t know a lot of that. I observ : you can find many details of house when use derived system but I like to know mooore. Have someone materials about?

Thank you very much!
I can add that what you feel can be operated by the enemy through a psychic vampire. It may happen one of them attaches to one of your Chakras (Heart Chakra usually) and then the enemy uses him/her to instill those emotions. Also, if the vampire is strongly xian, his/her Soul automatically acts to prevent anything "Satanic" in their victims' Souls.

Try to remember if someone offended or hurt you, both physically or emotionally, this will often help to reduce the vampire influence as they are very weak when spotted!

I strongly suggest the Freeing the Soul Meditation to detach those fuckers.

I cannot confirm 22 degrees influence on this. Rather, I can say 9 degrees Pisces or 9 degrees Virgo often cause this kind of problems if involved with relationship Houses/Planets.

I forgot to add Neptune is now transiting around 9 degrees in Pisces, maybe it has some relations with your problems due to its position in your Natal Chart?

The planets act as lenses for the energies of the constellations and constellations are composed of multiple stars. Certain degrees have more significance due to the energies associated with that specific point in a constellation.

Pluto for male and Neptune for female.
Why?
Neptune is of the Water Element, emotions, etc. Female side.
Pluto doesn't say which element, but it's manly side like Mars is.

It's quite easy when you understand it more. :)

Hope this was helpful!!!
Can I do the same square twice at the same time using NAMA AND SVAHA Vibrating the whole square once twice using 1 of them each time or will this ruin the work? I’m not sure if I should try and get overloaded because maybe I'm not supposed to do this.

@nranch548: It has already been answered by J/A:

"SVAHA can be substituted for NAMA when working on spiritual goals, like those you mentioned. However, NAMA can be used for spiritual purposes as well. I have used NAMA for planetary squares to strengthen my natal planets and the squares were still effective with NAMA.

If I'm still unclear then I'm unclear and I get it now that I see, but am I getting across specifically what I mean clear enough? I really appreciate the feedback thank-you

That's not what I meant. Can I do The same square, the same exact working, using SVAHA At lets say 12:00 p.m. and then NAMA A FEW HOURS later with the exact same working?

k thx guys

@nranch548: No, it would ruin the working.

I would recommend staying with the information on Azazel's Astrology for Satanists. The information there is absolutely accurate and its accuracy becomes more and more apparent as you advance spiritually. Using the methods on Azazel's Astrology for Satanists, you find out that your natal chart is a literal map of your soul.

You can void meditate and detach from the racing thoughts. Daily void meditation will give you the ability to turn off unwanted thoughts at will and still your mind on command. The flame meditation is also good for improving focus.

Being yourself = Being abnormal, needing to see a mental hospital or psychologist in this world.

There are certain things that are dangerous though like psychopathic episodes which could be induced by drugs.. I mean hallucinogens. Even Anti-psychotic drugs can cause psychoses. And schizophrenia could be like the same thing.

Other than that, there is absolutely 0 need for anyone to go see a doctor for anything else that is not as serious as a psychosis or schizophrenia.

Subject: Personal resolutions under VOC moon?
Hello there, SS!

I've looked on the moon calendar and I've seen that the night of 22nd till midday of the 23rd the moon is in VOC, transiting from libra to scorpio. Now my question, we are supposed to celebrate this night and make personal resolutions...under VOC moon XD.

It wouldn't be such a problem of not doing personal resolutions (as I knida did them yesterday through affirmations and some hatha yoga felling much much better now) but still, would the resolutions be "legit" anyway? And in case of doing some celebration rituals for Father Satan? I'm just confused and wold like to understand what others would do... it's the first time I'm celebrating Yule like for real.

Thank you very much and HEIL SATAN! HEIL THE GODS OF HELL!

Yes, you can still celebrate Yule and Satan's Day even if the moon is void. Since you started the affirmations yesterday, you are fine because you started when the moon was not void. Things started when the moon is void do not work out.

It's no problem if you do the RTR's during the Void of Course moon. The VoC only matters when you start things for the First time, all the RTR's we are focussing on now we have already done before so it doesn't disturb the working at all if you do them during the VoC.

In fact, doing workings during the VoC, if you've already begun them earlier, can be a be great thing because you tend to get less disturbed during a VoC.

well..though I felt very dizzy for some time afterwards, I in fact didn't feel like it was a waste of time, as when I was ignorant enough to do my workings under VoC and practically feeling that it was a waste of precious energy. Only after going to see the calendar I’ve panicked and started to have kind of some doubts. Thanks for the attention.

**Subject: Marriage timing**

I have a couple of friends who are wanting to get married, trying to settle on a time (They prefer Spring or
Summer of this year). They are both SS, and have asked for my help to find a good astrological time for the wedding. They will be doing both a civil wedding for their families, as well as a Satanic Wedding Ritual that their families will not attend. Of course, they prefer it to be on the same day, but depending on availabilities for everyone, the dates may be different.

They feel the Satanic Ritual would be more important for a good date, if they can manage it on the same day.

Anyway, I am struggling to find a good time, mainly because there are so many things to consider :P I have a few dates that I *think* would be good, but since I have never exactly figured this out for a wedding before, I want to make sure that it is a good time, especially since they are such close friends. If you could help me, tell me what any issues would be with the dates I have semi-narrowed it down to, that would be appreciated. Or, if you already know of some dates that are perfect astrologically, that would be a great help as well :)

Also, they said they prefer a moon sign of Libra (first choice) or Taurus (second choice), after I sent them stuff from the JoS marriage page.

Here are the more preferable ones I have found:

March 13-14
March 30 (before 17:11)
April 9 (after 6:34) – 10

And some times that I think are less preferable, but could still potentially work (I think?):

Feb 2 (after 18:49) – 4 (before 15:41)
Feb 13 (after 16:42) – 15 (before 18:53)

March 2 (Until 15:27)
April 25 (after 19:56) – 27 (before 19:18)
May 6 (after 12:20) – 8 (before 16:58)
May 23 (after 6:32) – 25 (before 6:15)
June 19 (after 15:52) – 20 (before 22:25)
July 27 (after 9:36) – 29 (before 15:29)

If anyone has any suggestions, or any reason why NONE of these dates would work, feel free to let me know. I am doing my best, but I still have a lot to learn about astrology, hence asking for assistance.
**Subject:** Re: Marriage timing

Make sure the moon is NOT void at the time of marriage. Things started during a void moon do not work out. Also, having a waxing moon is beneficial for starting things. A waning moon is good for ending things.

If you initiate the process of a divorce on a void moon, that will more than likely cause problems with the divorce process or you may end up with the person again. Things you do not want to go through with should be started on a void moon. For example, if some person who you do not really like kept harassing you to hang out with them, you can do all of the scheduling and finalization of the get together during a void moon. That will increase the chance of something happening to where the get together does not work out.

Since a divorce is an ending (of a marriage) a good time to start the divorce proceedings would be on a Saturday (the day of Saturn) during a waning moon with the moon in a sign good for endings such as Capricorn or Pisces.

HAIL SATAN FOREVER!
A waxing gibbous is not the same as a waxing full moon. A waxing gibbous refers to the period between the first quarter (the moon half full) and the full moon. A waxing full moon is the day of the full moon right up to the point where the moon is 100% full. After that, it is a waning full moon.

I would like to do RTR's Continually so If I start getting off because of this, I don't see that happening, That is also the reason this is concerning. This is serious, should I not have Kids? Being Only 75% white,(which is better than many of the unlucky soul's) this would be on kids if I had them. I mean like the part of my family likes certain foods, No wonder I've always hated these foods I now start to think, and am allergic. My immune system literally freaks out and I puff up, Although I feel and have proved to myself I can do amazing actions, doing amazing actions. The same feeling I get when I don't take my medication as prescribed is the same feeling I got before I ever started taking it. And growing up with Christians who promoted these Medications also would abuse me if I even Talked about it. Tears of sadness turn Very Hateful, for me. It could all be a trick setup, as angels and lack of focus physically took the focus away from these exact dates of time in terms of Relevance, So when I was attacked it's obvious the knew eventually I would be here.I found Joy of Satan.org with no influence other than a sudden rebellious teenage energy, That was not in it for anything other than urge to seek and grow in the attractive and beautiful physics of my own soul, and to know Satan and Worship him, Before I even really paid any attention to the Bible's Actual words.

Or The Wonderful Website.Its not coincidental at all.

I think most things can be overcome with applied knowledge and determination. I had been using Adderall also, years ago, during both a Pluto and a Neptune transit at the same time. And I got off of it and never went back. You can. You want it, and you have the tools. You could do a freeing of the soul working with munka or the rune ansuz to free yourself of dependency. [http://eridu666.webs.com/Words-of-Power.htm](http://eridu666.webs.com/Words-of-Power.htm)

I would like to add that it might not be a bad idea to look up how to heal. Oh also there was said that when you complete the magnum opus that your DNA would be purified which means that the mixing part would be gone so it should be alright to have kids then.

The chances are 100% if you take my advice. Adderal is a type of amphetamine, but there are over the counter amphetamines that are much safer to use and can help you get off most stimulants. I'm talking about DMAA or 1,3-dimethylamylamine. You have to start a workout program because you can't just take this stuff without doing so. Its in pre-workout supplements which means there are loads of other substances designed to improve your workout. I'm guessing you start your day with Adderal so do this first thing in the morning. It's easier to wean yourself off of caffeine and DMAA than prescription ADD/ADHD medications.

Look for a product called Mesomorph, Wicked, or Jacked-up. Get the Mesomorph if you can. You really only need half of the dosage recommended because it is really strong. DMAA by itself might be available at bodybuilding/nutrition stores, but it's way more expensive.
You guys are great. Thank-you.

You would do the square for the planet ruling the sign on the cusp of your 2nd house. For example, if you have Aries on the cusp of their 2nd house, you would do a Mars square. If you had Cancer on the cusp of your 2nd house, you would do a moon square. Do NOT do a Saturn square even if Capricorn is on the cusp of your 2nd house. Doing a Saturn square will make the problems caused by Saturn worse.

Wow, so it turns out I actually do have Capricorn on the cusp of my second house. I didn't actually give the correct placement for my Saturn. Simply because of infiltrators, but the planets in my second house will still be damaged by Saturn regardless. It's quite hard to explain without actually putting up your natal chart information. Having both Jupiter and Mars conjunct Caput Algol in the 10th will be unfortunate for the houses with Aries, Sagittarius, and Pisces on the cusps as well as the 10th house. You can do Mars squares and Jupiter squares to strengthen the houses with Aries, Sagittarius, and Pisces on the cusps. You can also do squares for the planet ruling the sign on the cusp of your 10th house. For example, if you had Cancer on the cusp of your 10th house, you would do a moon square. Do NOT do a Saturn square even if Capricorn is on the cusp of your 10th house. Doing a Saturn square will make the problems in your life worse.

Also, you should build a very strong aura of protection and keep your energies high through yoga and meditation. A strong aura of protection and keeping your energies high keeps bad things from happening to you.

<td>So, I was just on a website to calculate Saturn returns. Many of you know there are places in between a return, roughly every 7 years there are quarter, half, and so on markers. I also entered the birth dates of family members. What I found was... interesting. Myself, my dad, and my brother, have a lot of these checkpoints in common for different years. Often they're the same months, too. My brother and I are 7 years apart, so it makes sense. Dad isn't a multiple of 7 older than each of us, but I don't know exactly how this works, it just does. Anyways. It gets weirder. My brother died the month he finished one of these. My dad and I both began and ended one in the same months before my brother died, and it ended the very month before my brother died. Coincidentally, my dad and I were the first ones to discover him dead. Dad found him and yelled for me. What. The. Hell. It gets even more strange, but I will omit that for now.</td>

Whats a zodiac mantra? I still am working on my memory and speech and I would like to do a square but I even have messed up the shortcuts. and I’m doing runes more and more but I’m having to deal with other things at the same time so it limits my time.

It’s about 29 years. Some astrologers here have mentioned once you reach your 29th birthday it can sometimes be the worst time of your life so you gotta do Saturn workings

A Zodiac mantra is basically the combination of a certain planet and a quality (cardinal, fixed, mutable). I never tried using a Zodiac mantra to deal with a transit, but I think using Capricorn for that wouldn't be a great choice, since it's still Saturnian in nature. Correct me if I'm wrong.

You can vibrate the runes with whatever pronunciation suits you. Everyone is different, so which works best for you will also vary greatly. I use the Norse pronunciations of the rune, for example.

Everyone is individual regarding their spiritual preferences. Some prefer Sanskrit over runes, Icelandic pronunciation over Germanic pronunciation, or the other way around. You should use whichever is most comfortable for you.

The zodiac signs are constellations. Each individual star has energy, just as our sun has a specific energy. The planets also have their own individual energies and act as lenses for the energies of the constellations. The zodiac mantras tap the energy of the constellations themselves. The mantra for Capricorn is not necessarily malefic. The mantra for Capricorn can bring much-needed grounding to people who lack grounding. Directing the energies of a mantra with affirmations such as, "In a positive manner the effects of (zodiac sign) are permanently becoming stronger in my life," will ensure you only get the positive effects of a certain zodiac sign.
A Saturn return is when transiting Saturn (the current position of Saturn) returns to the degree and sign of your natal Saturn. A Saturn return is often a maturation for people where they buy their first house, have their first child, etc. In some cases, a Saturn return can be tragic with career-ending injuries or even death. Satanists who protect themselves do not need to worry about dying during a Saturn return. A strong aura of protection naturally repels negative planetary energies and high levels of bioelectricity from meditation shield you from the lower-vibration, malefic energies of planets.

Yesterday doing Venus square one though come to my mind. The Demon color of aura has blue tint in it, the morning star is Venus, Satan is also named the morning star, the planet Venus in her traveling around the sun is making some aspeck with each that if you draw them you will be in end of circling Venus around the sun, got perfect pentagram, the color of troath chakra is blue and is ruled by Venus.

Also the troath chakra is fifth, and Gods live in fifth dimension. Quite interesting.

Ok, thanks. What I meant was this, quoting from a website: "Every 7 years, it forms a square (90 degrees) or opposition (180 degrees) to its natal position in the horoscope, dividing your life into seven-year chapters within its overall story. All are critical life defining periods but each chapter has its own meaning and purpose within the full 28-year cycle of Saturn. - See more at: http://www.astrocal.co.uk/saturn-return-calculator/#sthash.DmWjultq.dpuf"

It "rattled" me when I found out that my dad and I go through these at the same times, down to the months usually. My brother went through these the same years as dad and I, but the months sometimes differed. The strangest was when we all went through one together, which was our last together. Brother began and ended his a month later. The month he died. Dad and I ended ours the last month we had with him alive for the whole month! Saturn is endings, sometimes, right?

I get that physical families are often soul families and we will have astrological relations. I just hate that Saturn is the one that connects us...at least the one I can readily see aside from a few things.

With the negative planetary connection, you might think there'd be abuse or something but there wasn't, nor was there hate. Us three were really close and loved each other a lot. Dad was sometimes uptight and strict, a saturn thing I suppose, but he was that way because he cared and was worried.
are there other good signs? ive seen Leo and one other to be Sun phases, and while money is the result of a job..money isnt necessarily the goal.

a better, enjoyable job, is. i will affirm that it pays damn good tho!

i didnt get around to last week's Leo. soon as i had finished preparing, void of course began, affirmation turned out to be..flawed. so i have stopped and will restart sometime.

moon is in libra now. by the time this message gets through and i see responses, it'll probably be in the next phase, Scorpio.

Sterneguxker.. What you say about soul families is incorrect. You need to be reincarnated at a time and astrological moment that is right FOR YOU. That does not mean that you've always been with your mom and dad through lifes. Sometimes the one you're with at soul level like a lover has not even been born yet. Aside from this we DISCOURAGE having many soul ties as they drain us, make us unable to focus or bring bad and negative people in our lives.

Sometimes you are reincarnated with those whom you do have a connection with in some way and sometimes you don't.

Also I dont exactly think that that saturn thing is a legit connection.. Too much searching honestly.

Try to look for chart type, strengths weaknesses.. Dominance in elements or lack of things. You need both your parents charts not just your dad and siblings..

You would want to start a money spell on Thursday (the day of Jupiter), Friday (the day of Venus), or Sunday (the day of the sun) during the hours of Jupiter, the sun, or Venus. The moon sign at the time you start a spell should also be good for the magickal working you are doing. For a money spell, the moon should be waxing in Taurus, Leo, Libra, Sagittarius, or Aquarius. Chronos XP is a program that reveals the planetary hours of the day. There are also iPhone apps. "Hours" by Sirius Lab Ltd or "Lunar Calendar" by Vyacheslav Petrukhin, that show the planetary hours of the day.

Thank you. Friday is the only day I can reasonably time this..this coming Friday, the 27th. After 3:30pm, the Moon will be waxing Aquarius. at 8:12 pm per Chronos in my area, the hour, day, and moon will ALL be Aquarius. It should still be waxing around that time.

I don't think I could ask for a more perfect time :) thanks!

Hello

Do you know if there's a similar program like cronos that's made for windows smart phone?

Thank you;)

You can look up "Chaldean planetary hours." There are multiple websites that give the planetary hours of the day.

And to this app ad some app who is only calculating planetary hours in place you are and copy in three years in future, from www.lunarium.co.uk website, calendar so that you know all fases of the moon with VoC fase too. Just first set your preferences state, city.
It is imposible to find good moon fases app, and even if you find one, it stil doesn't have for VoC program.

Subject: Azazel's Predictive Astrology?

Hello,

I finally understand how to read my natal chart with Azazel's Astrology. However, I am having a hard time with predictive astrology. I have generated a solar
return chart, a progressed chart, and my current transits. I am trying to look at the predictive tips HPS Maxine has listed on the JOS site, but I still can't make heads or tails of HOW to interpret.

In other words... what are some METHODS to breaking down a solar return or progressed chart step by step? I look at all of these websites with predictive interpretations (i.e., "Transiting Saturn in 5th House means... blah blah). Some sites (Like Celeste Teal's... show tips for reading a solar return.)

I KNOW most everything is corrupted out there and it is hard to trust. But other than Natal interpretations for planets in the houses and signs, there is not much predictive help from the JOS site at this time. Sometimes these "corrupted" astrology sites give me *some* info to push my mind in the right direction. But alas, I know I cannot rely on it 100%.

I want to know how to make smarter decisions based on my predictive charts. But I don't want to get myself all worked up over making inaccurate predictions or interpretations.

Any help is much appreciated!

Hail Satan!!
can bring a pleasant working environment for the year.

In progressions, you look for aspects between the progressed planets and your natal planets. If there is an aspect with a tight orb, 2 degrees max, then that will cause an event or bring that influence into your life. The nature of the event/influence is determined by the planets involved. For example, if progressed Venus was aspecting your natal Pluto, that can bring obsessive love.

With transits, the energies of the transiting planets are hitting your natal planets. In the case of transiting Jupiter, transiting Jupiter brings good luck, fortune, and protection wherever it goes. For example, if you had transiting Jupiter in your 10th house right now, now would be a good time to ask for a pay raise, switch jobs, or otherwise improve your career. If you had transiting Saturn in your 7th house, now would not be a good time to look for a relationship. Having transiting Saturn in your 7th house will make the relationship more than likely end badly. You should wait until transiting Saturn exits your 7th house before pursuing a relationship. Having transiting Pluto aspecting your natal Venus can bring obsessive love. In general, Pluto-Venus aspects can bring obsessive love whether it is natally or in prediction.

Posts made by High Priestess Maxine Dietrich are extremely informative and explain more beyond what is on the Joy of Satan website.

The fifth house is the house of the child and you can normally tell the chances of having children and the outcome by the placement of the fifth house in the chart and what celestial objects are in that house. Example, I have a fifth house stellium which means a luster of planets in one house. I have 5 planets in house 5 so there is a big chance I am going to have kids based off of that and the specific conjunctions of those planets. The house of the mother is house 4 which ties to Cancer. Not entirely sure your question but I hope this helped?

The Afterlife and Reincarnation [Fully Explained]

http://josministries.prophpbb.com/topic7307.html#p34957

"All consciousness that is of the Astral body [conscious consciousness] gives place to the unconscious consciousness of the Higher Part of the Soul at this point of the Soul entering the Fetus. When one enters, the "Ego" part of the Astral body that they had in the last lifetime and they went to Duat with, dissipates again and they gain a new one, the one they will be born with. This part is given to the child by the parents and directly influences the Physical body aswell and this ties into the Racial criteria aswell."
"There are many new Souls, who don't really "incarnate" as they haven't had a lot of past lifetimes. They are really the productions of their parents, and there is nothing bad about this. This is not a sign of any inferiority or weakness and in strong families, can mean the contrary."

"Now, in most Ancient Traditions the rule of heredity is known. There are bloodlines that are spiritually stronger, and Races that fall into the same category. There are powers that can be by heredity passed down to the next generation, or that stay dormant in people until certain Souls reincarnate or certain beings get born by "chance". The spiritual cultivation of humanity ensures this will happen frequently and later on, at will."

Going off of memory of what you asked, so if my answer is not even close to what you're looking for, I apologize. I have issues if I try to answer through online, so I just do the email. Anyway.

Well over 90% of the time a mother (and father)'s chart will actually already show what her children will be like, to a degree, unless she meditates and thus changes her chart. So when the children are born, it won't change her chart. Rather, the children will have charts that reflect what she will do as a mother (which was already shown in her chart), and such.

Perfect. Stunningly perfect. Had some guidance from a God, but had it set up.
Sun, physical chart, has been begun, alongside 108 of the FAYU (I read up pronunciation, hoping I read it correctly), for a job fitting my natal chart, BUT, also able to find temp or long-term employment through others..to pay bills, y'know?

All done on a Friday during hour of Venus, during Aquarius..thing's are looking pretty good.

One thing I noted..if I'm reading it right, the Y in FAYU is pronounced an umlautted U...when I was doing that, the air leaving my lungs, had a..different flavor..ever inhaled helium to change your voice? It..tasted a bit like that, just..really cold..not like normal air we breathe out...even during normal mouth exhale.

Oh well. I shall continue this.

Subject: Houses.

I'd like to discuss houses. I have questions. So, I know my exact birth time. When I look at how my houses would be different by a mere hour, or two, and in some cases minutes, I notice with myself that some of these other houses which the planets are placed in match me far greater than the ones I am have. Aside from houses, my ascendant changes with minutes and I had always felt that I matched that ascendant better. Suppose I was indeed born at the correct time, false documentation was not the issue. I just think of how babies are born and gather that they mark the time when the baby is totally out of the mother. But why should this necessarily constitute birth time for astrology? Should it be when the first breath is taken? When you're mostly out? Lol.. There's technicalities I see everywhere. Seeing how it can all change in minutes and hours makes me question the validity and the value placed on houses sometimes. Sometimes.

Thoughts?

So basically what you are saying is that if a personality change happens inside a person that is not related to a child being born or anything, rather has to do with aspects like transitions oppositions, etc. ?

In that way it is useful what you said.

It's not necessarily NOT due to that, but rather, the transits and such will be the cause, often showing the child's birth as well. So they are related, yes, but the transits are the initial cause

Keep in mind that hospital clocked used to be regular clocks, not digital. They could be off by up to 15 minutes. And they may not have recorded your time of birth right away. And doctors and nurses are overworked and exhausted so they can easily misread a clock when writing down the time.

Unless you were born at home with someone using a reliable clock in attendant, your birth time can easily be off.

If you feel your rectified birth time is accurate, try using divination to verify it. I experienced the same thing with my birth time being off by 5 minutes, which can make a big difference.

I do know that for my own family as well.. it is just that when I was very little.. it seems my mother collapsed of some sort.. so I never knew what she really was like.

I was wondering if it was due to her giving childbirth because when I asked it was around that time.. I don't get along very well with my sibling anyway but that shouldn't be the reason to this.

I have done some research online as to the date for imbolk this year but does it start and end at specific times? I believe it is on feb. 4th but I am not sure how long it lasts.

Candlemas/Imbolc/Feast of Fire

So many of our ancient traditions and rites have been destroyed and corrupted.
In researching for the origins of Candlemas, there were many dead ends and Wiccan...

Depending on where you live the time could be a bit different. On a check I just did it seems sun will be on 15 degrees of aquarius on the 3rd end afternoon, through the 4rth of feb.

I was thinking about this as well since it is soon that it is up.

[end of the article] Conclusion.

1. Quran bible and the rest of jewish writings has no any difference in stories and messages; but only in how they are combined. Which creates a thought that they were created only to make a new digital code. In other words, they are number matrixes, into which kikes put same stolen corrupted Pagan legends and messages connecting certain curses to certain numbers according their nature. Like if they first created matrix with curses and only then filled it with text. Which proves quran has nothing to do with just narrating fairy tales, it is a professionally done curse. If needed kikes even may tear apart one stolen story and clay it to another one, as they did with Tower of Babel / 10 punishments of Egypt. Matrix done for the sake of matrix itself.

2. Though quran and bible are both torah rewritten and recombined many times, quran has slightly other numbers emphasized than bible. If bible concentrates mainly on destruction, misery and imperfection, using 9, 11, 22, 6, 12, 66 and other numbers connected to 6; the next from these three being main Satanic numbers of perfection: 7, 13 and 67 [6+7=13]; which proves bible was mainly done to rob us of power and perfection. New numbers are 8 and 13. Major islamic numbers for warfare against us are: 6, 8, 9, 11, 13 [22 and 66 still are but moved on the background]. Hard labor / imposing slave state, power / violence, endings [of civilization], destruction [of this world] and global change [to the worse]. This proves that quran is meant to actually attack the world and put it on fire.

Actually all quran is one big paranoid attack on humanity. While some surahs are meant to direct the power of numbers like surah #8 and surah #11;
you will not find one surah that would not threaten extreme violence and punishment; most of them reminding of all torah Gentile White genocides over and over again. Quran sounds like it was written under severe paranoid anger attack, as if jewsus christ, when rushing in temple and crushing furniture there, was made to write smth during this specific state of mind he was in. No wonder mudslime wives live under eternal fear, non-ending violence and monstrous bodily punishments; while their husbands suffer severe paranoia, lasting anger attacks, drugs and alcohol abuse.

In the article *Why the Koran Is a More Powerful Tool Than the Bible* the author states that number 8 can drive one insane if its energies are specifically directed. Below I provide one of their stories to show how crazy they are.

Muhammad was known to teach his followers that drinking from lakes and other natural pools in which animals bathed leaving there all their dung and urine as well as corpses of their dead, is ok. No wonder all his followers suffered from digestive problems. Once one of them complained muhammad on diarrhea and asked for medical advice. And after his advice obviously didnit work muhammadís comment was that the stomach of this person was "cheating" him.

Narrated Abu Said: A man came to the prophet and said, 'My brother has got loose motions'. The Prophet said, let him drink honey." The man again (came) and said, 'I made him drink (honey) but that made him worse.' The Prophet said, 'Allah has said the Truth, and the abdomen of your brother has told a lie".Ê
[Sahih Bukhari 7:71:614]
[just note, numbers are 7,8,11; or 15[6] and 11. Total number is 8]

Hard to believe, but itís not an end of the story. Not very long ago I found in the net the following question in mudslime forum with full seriousness addressed to imam. I quote it to show how bad crazy they are till nowadays.

[Quote]
Did the Prophet use soap and water? So why should we?

*I want to ask the muslims why our hygiene practices are different from the Sunnah...*

*The prophet was not known to use soap when taking a shower, nor was he known for taking daily showers unless in a state of impurity or it was hot from the heat.*

*He was also not […] about using towels.*

*When he ate dinner, he never washed his hands with soap and water like we o today before we eat.*

*His showers also never included any shampoo, something we say is hygienic today.*
Of course he never used soap for his teeth only miswak.

Of course there was no deodorant back then so he probably was musky at times or other people were and this was not a problem.

How sick were they?? Rarely would people get sick and it seems they were healthier back then.

So the question is, is it more than just a sunnah? The way people clean today may be going overboard...

How much does it really take to be clean?

Maybe it’s because of the lives we are living that requires us to have new lifestyles.

Maybe if we go back to the sunnah, we would not have to be so “clean” as what we consider today…”

[End of the quote]

Not only number 8 can drive you insane if misused. There is smth more about number 8 that I want to address for this specific book. 8 house in astrology is of extreme power – physical, spiritual and financial one. It contains extreme emotional intensity because symbolically relates to the water sign of Scorpio, but also it is driven to battle by the martial power of Mars. It is a house of extreme. It rules situations of life and death and the most intimate moments in person’s life, such as sex, deep intimate relationship, moment of death and…”

GENETICS. No wonder, because genetic outlook is connected to procreation and change of generations - the most important, crucial things in one’s life.

If we look in quran we will see that this number is connected to the most crucial things to the jews: jihad, White genocide (jihad IS White genocide), torture and rape – all connected to changing genetic outlook and extreme destruction. In the article:

White genocide detailed:
Selective breeding in islam, communism and christianity.
Full exposure of Nation of islam

I explained how you can breed just anything: you can breed a monster; you can breed a hero. You can even breed a Homo Sovieticus out of the Homo Sapience if you want. This is why Stalin mass murdered genetic scientists like Vavilov (Vavilov was genetic ingeneer) because if Stalin had allowed genetic branch of science, the populace would have realized what Stalin was actually doing – changing genetic outlook. This is why kikes invented Boas equality hoax to serve their communism. That’s why racial knowledge is so dangerously held back.

8 is a number that rules White Racial soul via Her shape of Octahedron - White Aryan MerKaBa.
(See in more detail in the article Hexahedron)
It’s a number of our Race, and is used by jews for our racial genocide.

Now what energy islam and bible are mostly connected to? 6 and 9 are very prominent numbers starting of any destructive jewish war on Gentiles.

1914 (WWI and much more wars around the world) Ñ number 6.
1917 (destruction of White Russian Empire through bloodiest civil war and start of most prominent mass murder and world revolution machine in history, Soviet Union) Ñ number 9

End of the civil war and victory of Jewish communism in Russia Ñ 7/6/1923 - 11
05/09/1945 victory of Jewish communism in WWII Ñ number 6

The dimensions of the "kingdom of God" are 1,500 miles wide by 1,500 miles long and 1,500 miles high. Itís a giant cube (Rev. 21:16).
1+5=6
15+15+15=45=9

Solomon laid out the Most Holy Place of his temple to be 30 feet X 30 feet X 30 feet, a perfect cube, separated from the temple’s Holy Place by a curtain (2 Chronicles 3)
3+3+3=9

The tabernacle (also known as the Tent of Meeting) also had a cube-shaped room, 15’ X 15’ X 15’, exactly half the scale of Solomon’s room.
1+5=6
15+15+15=45=9

I also noticed prominent role of the Powerful Ancient number of 13. It participated in global changings of the world usually through global [including pre-kike] wars, including mass White genocides, long before Jews came on the scene. Originally, 13 as well as 8, is Satanic number of extreme power and might, because it is connected to too very much things in human body and soul, and in Nature Herself. 13 main chakras, 13 signs of Zodiac [including Ophiuchus], 13 months in Lunar calendar. The more smth is ingrained in Nature; the more power it derives from the Earth. The 13 is one of the most ingrained in Nature numbers, which makes it one of the most suitable for global affairs that require major Earth/universal powers.

Tatar-mongol Yoke in Russia lasted from 1237[13] to 1480[13]. The invasion itself lasted from 1237[13] to 1242[9]; 1+3+9= also 13. Defeat of Russia opened for mongols the door to Europe and greatest non-Jewish White genocide in history burst out. The major part of all mongol invasions into other countries happened in 13th century.

As far as mudslime idea is connected to global Earth conquest and total world wide change, it has some things connected to this number. 13 wives of Muhammad. Islam stolen Pagan Lunar calendar of 13 months and Pagan Lunar symbol of Crescent, thus connecting itself to the Lunar number 13. "Operatin Hornet’s Nest" also known as Proeect Greater Israel[CIA/mossad term for creating Islamic State] Ñ both make 13. "World Revolution" gives 13. "New World Order" gives 13. And the word Quran counts 13.
So let us see if these numbers quran uses in its spiritual warfare against us.

Jihad:

[Quran 2:191]: "And kill them wherever you find them, and turn them out from where they have turned you out."
191 = 1+9+1 = 11. 11 and 2
11+2 = 13

[Quran 2:216] - "Fighting is prescribed for you, and ye dislike it. But it is possible that ye dislike a thing which is good for you, and that ye love a thing which is bad for you. But Allah knoweth, and ye know not."
216 is powerful magic number by itself, based on 9. But if we count 2 it again gives 11.
2+1+6 = 9. 9+2 = 11
9 and 11 (together 2). 9/11 Fighting is prescribed for you

[Surah 8:12]
"I am with you, so strengthen those who have believed. I will cast terror into the hearts of those who disbelieved, so strike [them] upon the necks and strike from them every fingertip."
8 and 12
8+1+2=11

Quran (61:4) - "Surely Allah loves those who fight in His way"
6+1+4=11

Quran (61:10-12) - "O You who believe! Shall I guide you to a commerce that will save you from a painful torment. That you believe in Allah and His Messenger, and that you strive hard and fight in the Cause of Allah with your wealth and your lives, that will be better for you, if you but know! (If you do so) He will forgive you your sins, and admit you into Gardens under which rivers flow, and pleasant dwelling in Gardens of 'Adn - Eternity ['Adn (Edn) Paradise], that is indeed the great success."
6+1+1+2=11

Quran (66:9) - "O Prophet! Strive against the disbelievers and the hypocrites, and be stern with them. Hell will be their home, a hapless journey's end."
66 and 9
together 75=12

[2.178] ...retaliation is prescribed for you in the matter of the slain... [2.179] ...there is life for you in (the law of) retaliation, O men of understanding, that you may guard yourselves.
2+1+7+8=18=9
"Not equal are those of the believers who sit (at home), except those who are disabled (by injury or are blind or lame, etc.), and those who strive hard and fight in the Cause of Allah with their wealth and their lives.

Bukhari Volume 5, Book 59, Number 448 [long story of perfect jihad: murder all men, enslave all women and kids, die in pain yourself] Altogether 8

Torture:

I will instil terror into the hearts of the Unbelievers: smite ye above their necks and smite all their finger-tips off them." 1+2=3. In quran 3 and 8 are very popular combination you might find in most violent verses. 8+1+2=11

Quran 40:43
"and indeed, the transgressors will be companions of the Fire"
4+4+3=11

Quran (5:33) - "The punishment of those who wage war against Allah and His messenger and strive to make mischief in the land is only this, that they should be murdered or crucified or their hands and their feet should be cut off on opposite sides..."
3+3=6; 5+6=11

Quran (24:2) - "The woman and the man guilty of adultery or fornication, - flog each of them with a hundred stripes: Let not compassion move you." 2+4=6; 6+2=8

Quran (22:19-22) - "But as for those who disbelieve, garments of fire will be cut out for them; boiling fluid will be poured down on their heads. Whereby that which is in their bellies, and their skins too, will be melted; And for them are hooked rods of iron. Whenever, in their anguish, they would go forth from thence they are driven back therein and (it is said unto them): Taste the doom of burning."
22 a lot, biblical number of jew world order
22+19+22=63; 6+3=9 the last judgment.

[Quran 4:56] Surely! Those who disbelieved in Our Ayat We shall burn them in Fire. As often as their skins are roasted through, We shall change them for other skins that they may taste the punishment.
4 and 11; 4+11=15=6.

Ibn Ishaq 764
[muhammad gives orders] Torture him until you extract what he has. So he kindled a fire with flint and steel on his chest until he was nearly dead. Then the apostle delivered him to Muhammad bin Maslama and he struck off his head.
7+6+4=17=8
Torture is also allowed as a form of punishment and when putting people to death. Rather than prescribing quick methods of execution there were times when Muhammad ordered his men to make a victim's death as slow and agonizing as possible. In one case, his men literally pulled apart the body of an elderly woman named Umm Qirfa by tying her limbs to camels then sent in opposite directions (Ibn Ishaq 980).

9+8=17=8

Sahih Bukhari Volume 1, Book 11, Number 626
[Muhammad orders to... take a fire flame to burn all those who had not left their houses so far for the prayer along with their houses."
11 among them; together 8.

Translation of Sahih Muslim, Book 17 is The Book Pertaining to Punishments Prescribed by Islam (Kitab Al-Hudud)
17 is 8; hudud (punishments) gives 11

Children beating:

Abu Dawud (494) - "The Prophet (shit be unto him) said: Command a boy to pray when he reaches the age of seven years. When he becomes ten years old, then beat him for prayer."
7+9+4=17=8

Women beating, torture and rape:

Men are in charge of women by [right of] what Allah has given one over the other and what they spend [for maintenance] from their wealth. So righteous women are devoutly obedient, guarding in [the husband's] absence what Allah would have them guard. But those [wives] from whom you fear arrogance - [first] advise them; [then if they persist], forsake them in bed; and [finally], strike them.
Quran 4:34
4+3+4=11

Quran (38:44) - "And take in your hand a green branch and beat her with it, and do not break your oath..." mudgod telling Job to beat his wife (Tafsir).
3+8=11; 4+4=8; 8 and 11

Quran (2:223) - "Your wives are as a tilth unto you; so approach your tilth when or how ye will..."
Alrogether 9

Abu Dawud Book 11, Number 2126 - "A man from the Ansar called Basrah said: 'I married a virgin woman in her veil. When I entered upon her, I found her pregnant. (I mentioned this to the Prophet).' The Prophet (shit_be_upon_him) said: 'She will get the dower, for you made her vagina lawful for you. The child will be your slave. When she has begotten (a child), flog her"
11 and 11; together 22 [biblical number of jew world order / end of the world]
Abu Dawud Book 11, Number 2141 - "Iyas bin Ḥabīlān bin Abi Dhubab reported the Apostle of Allah (may peace be upon him) as saying: Do not beat Allah's handmaidens, but when 'Umar came to the Apostle of Allah (may peace be upon him) and said: Women have become emboldened towards their husbands, he (the Prophet) gave permission to beat them."

Abu Dawud 11:2150 and Quran 4:24:
Rape of women, taken in battle.
11 and 8

Abu Dawud Book 11, Number 2142
"The Prophet (peace be upon him) said: A man will not be asked as to why he beat his wife."

Sahih Bukhari Volume 7, Book 72, Number 715
Aisha said, "I have not seen any woman suffering as much as the believing women. Look! Her skin is greener than her clothes!"
7, 9 and 22 [biblical number of jew world order / end of the world], together 11

Sahih Muslim Book 009, Number 3507
Muhammad's fathers-in-law (Abu Bakr and Umar) amused him by slapping his wives (Aisha and Hafsa) for annoying him. According to the Hadith, the prophet of Islam laughed upon hearing this.
9 and 6. Together 6, slavery

My note Book #9 is called Divorce (9 - number of endings). Sahih Muslim has also book #6 Fasting (unhealthy diet, eating at night, destruction of physical body), book #17 Legal Punishments (1+7=8, violence), book #11 Funeral laws and book #8 Marriage devoted to the abuse of women, such as rape of captives:

Muhammad teaches his followers how to correctly rape captive Arab women, just showing once more how judeo-pisslam is actually Arabic
Book 008, Number 3371 (altogether 13)

Ibn Ishaq/Hisham 969 Requires that a married woman be "put in a separate room and beaten lightly" if she "act in a sexual manner toward others."
6, slavery

Smashig to the end already defeated enemy:

[Quran 4:104] - "And be not weak hearted in pursuit of the enemy; if you suffer pain, then surely they (too) suffer pain as you suffer pain..." Is pursuing an injured and retreating enemy really an act of self-defense?
4 + 1 + 4 = 9

Moral and physical torture:

[Quran 5:33] - "The punishment of those who wage war against Allah and His messenger and strive to make mischief in the land is only this, that they should be murdered or crucified or their hands and their feet should be cut off on opposite sides or they should be imprisoned; this shall be as a disgrace for them in this world, and in the hereafter they shall have a grievous chastisement"

3 + 3 = 6. 5 + 3 + 3 = 11

[Quran 8:67] - "It is not for a Prophet that he should have prisoners of war until he had made a great slaughter in the land...

6 + 7 = 13. 8 and 13 are both Ancient magic numbers of extreme power.

[Quran 8:65] - "O Prophet, urge the believers to battle. If there are among you twenty [who are] steadfast, they will overcome two hundred. And if there are among you one hundred [who are] steadfast, they will overcome a thousand of those who have disbelieved because they are a people who do not understand."

"and indeed, the transgressors will be companions of the Fire"

Quran (5:33) - "The punishment of those who wage war against Allah and His messenger and strive to make mischief in the land is only this, that they should be murdered or crucified or their hands and their feet should be cut off on opposite sides..."

Quran (24:2) - "The woman and the man guilty of adultery or fornication, - flog each of them with a hundred stripes: Let not compassion move you."

Quran (22:19-22) - "But as for those who disbelieve, garments of fire will be cut out for them; boiling fluid will be poured down on their heads. Whereby that which is in their bellies, and their skins too, will be melted; And for them are hooked rods of iron. Whenever, in their anguish, they would go forth from thence they are driven back therein and (it is said unto them): Taste the doom of burning."

[Quran 4:56] Surely! Those who disbelieved in Our Ayat We shall burn them in Fire. As often as their skins are roasted through, We shall change them for other skins that they may taste the punishment.

Ibn Ishaq 764
[muhammad gives orders] Torture him until you extract what he has. So he kindled a fire with flint and steel on his chest until he was nearly dead. Then the apostle delivered him to Muhammad bin Maslama and he struck off his head.

Torture is also allowed as a form of punishment and when putting people to death. Rather than prescribing quick methods of execution there were times when Muhammad ordered his men to make a victim's death as slow and agonizing as possible. In one case, his men literally pulled apart the body of an elderly woman named Umm Qirfa by tying her limbs to camels then sent in opposite directions (Ibn Ishaq 980).

Translation of Sahih Muslim, Book 17 is The Book Pertaining to Punishments Prescribed by Islam (Kitab Al-Hudud)
17 is 8; hudud (punishments) gives 11
Children beating:

Abu Dawud (494) - "The Prophet (shit be unto him) said: Command a boy to pray when he reaches the age of seven years. When he becomes ten years old, then beat him for prayer."

7+9+4=17=8

Women beating, torture and rape:

Men are in charge of women by [right of] what Allah has given one over the other and what they spend [for maintenance] from their wealth. So righteous women are devoutly obedient, guarding in [the husband's] absence what Allah would have them guard. But those [wives] from whom you fear arrogance - [first] advise them; [then if they persist], forsake them in bed; and [finally], strike them.

Quran 4:34
4+3+4=11

Quran (38:44) - "And take in your hand a green branch and beat her with it, and do not break your oath..." mudgod telling Job to beat his wife (Tafsir).

3+8=11; 4+4=8; 8 and 11

Quran (2:223) - "Your wives are as a tilth unto you; so approach your tilth when or how ye will..."

Altogether 9

Abu Dawud Book 11, Number 2126 - "A man from the Ansar called Basrah said: 'I married a virgin woman in her veil. When I entered upon her, I found her pregnant. (I mentioned this to the Prophet).' The Prophet (shit_be_upon_him) said: 'She will get the dower, for you made her vagina lawful for you. The child will be your slave. When she has begotten (a child), flog her"

11 and 11; together 22 [biblical number of jew world order / end of the world]

Abu Dawud Book 11, Number 2141 - "Iyas bin Abd Allah bin Abi Dhubab reported the Apostle of Allah (may shit be upon him) as saying: Do not beat Allah's handmaidens, but when Emar came to the Apostle of Allah (may shit be upon him) and said: Women have become emboldened towards their husbands, he (the Prophet) gave permission to beat them."

11 and 8

Abu Dawud 11:2150 and quran 4:24:

Rape of women, taken in battle.

11 and 8 for abu Dawud;

Abu Dawud Book 11, Number 2142
"The Prophet (shit be upon him) said: A man will not be asked as to why he beat his wife."

Sahih Bukhari Volume 7, Book 72, Number 715
Aisha said, "I have not seen any woman suffering as much as the believing women. Look! Her skin is greener than her clothes!"

Sahih Muslim Book 009, Number 3507
Muhammad's fathers-in-law (Abu Bakr and Umar) amused him by slapping his wives (Aisha and Hafsa) for annoying him. According to the Hadith, the prophet of Islam laughed upon hearing this.

My note Book #9 is called "Divorce" (9 - number of endings). Sahih Muslim has also book #6 "Fasting" (unhealthy diet, eating at night, destruction of physical body), book #17 "Legal Punishments" (1+7=8, violence), book #11 "Funeral laws" and book #8 "Marriage" devoted to the abuse of women, such as rape of captives:

Muhammad teaches his followers how to correctly rape captive Arab women, just showing once more how judeo-pisslam is actually "Arabic":

Ibn Ishaq/Hisham 969 Requires that a married woman be "put in a separate room and beaten lightly" if she "act in a sexual manner toward others."

Smashig to the end already defeated enemy:

[Quran 4:104] - "And be not weak hearted in pursuit of the enemy; if you suffer pain, then surely they (too) suffer pain as you suffer pain..." Is pursuing an injured and retreating enemy really an act of self-defense?

Moral and physical torture:

[Quran 5:33] - "The punishment of those who wage war against Allah and His messenger and strive to make mischief in the land is only this, that they should be murdered or crucified or their hands and their feet should be cut off on opposite sides or they should be imprisoned; this shall be as a disgrace for them in this world, and in the hereafter they shall have a grievous chastisement"

[Quran 8:67] - "It is not for a Prophet that he should have prisoners of war until he had made a great slaughter in the land..." 6+7 = 13. 8 and 13 are both Ancient magic numbers of extreme power.
[Quran 8:65] - "O Prophet, urge the believers to battle. If there are among you twenty [who are] steadfast, they will overcome two hundred. And if there are among you one hundred [who are] steadfast, they will overcome a thousand of those who have disbelieved because they are a people who do not understand."

6+5=11.

8 and 11, power and destruction.

From this analysis among normal biblical numbers of destruction we know already - 11, 9, 6 - we see new number 8 connected to extreme violence not only to disbelievers but to one's own family members. This number as well as 13 is deep ingrained in nature and our soul. And surah 8 will shed some light on the role it plays in islam.

The Star of the Soul, also known as The Star of Astaroth / The Star of Lada (Russian), - a very popular occult term and very much misinterpreted by new agers; is MerKaBa, the 8-pointed Star which according HP Jake Carlson's knowledge revealed him by Satan and Astaroth, represents collective Aryan Gentile Soul. For all Aryans. [Or even for all Gentiles at all according Joy of Satan website]. New agers usually think that it is 8th chakra above the head.

Numerologists always associated number 8 with great business, power, wealth, money, eternity, balance - everything connected to power. Eights in Tarot always interpreted as element in abundance, such as pentacles - excellently done job, wands - abundance of activity, etc. Tarot Power is placed by different deck producers either on 8th or on 11th position in Major Arcana, usually on 8th. Let us see how this immense unimaginable power of collective Earth Gentile Soul is used in quran.

8th surah is devoted to the inspiration for jihad. It is called Al-Ahfal, The Spoils of War, and the word Al-Anfal numerologically gives 8. This surah is the one concentrated on jihad more than any other surah. And the one revealing the very essence of jihad, which is jihaad al-Shaytaan - the spiritual war against Satan. This is seen if we take together the ayahs which number (after "sign") gives 11.

[Quran 8:65] - "O Prophet, urge the believers to battle. If there are among you twenty [who are] steadfast, they will overcome two hundred. And if there are among you one hundred [who are] steadfast, they will overcome a thousand of those who have disbelieved because they are a people who do not understand."

[Quran 8:11]  
[Remember] when He overwhelmed you with drowsiness [giving] security from Him and sent down upon you from the sky, rain by which to purify you and remove from you the evil [suggestions] of Satan and to make steadfast your hearts and plant firmly thereby your feet.

If we go to the site quran.com and check the whole list of surahs, we will clearly see, that quran was written by numerologists.

Let's for example take surah 11, number of destruction, see surahs that either are 11 or numerologically gives 11, and see that it is a main number of punishment in quran.

Surah#11 contains 123 verses [1+2+3=6]. It is a Meccan sura. It is about the prophet Hud.
The main content of the sura is a series of stories of prophets who warned their people to follow mudgod, the people persisting in defying mudgod, and mudgod punishing and killing them. The sura opens with a discussion on the nature of man and the punishment that awaits those who defy mudgod. Ayat 25Q49 tell the story of Noah and how his people refused to be slaves of mudgod. The unbelievers are drowned in a flood, which includes Noah's son; Noah asks mudgod about this act, but in the answer the lord of all mud insults its servant calling Noah's son "not a member of his family" thus deciding for him who IS and who IS NOT a member of his own family. Sura 66, At-Tahrim, also relates the remarkable gratitude of Jewish god to Noah throwing his wife in hell because she was ìbelieverî.

Ayat 50Q60 deal with the prophet Hud, the namesake of the Sura. He was sent to the A'ad, an Omani tribe. The A'ad also refuse to be slaves, and Hud and those who do believe are rescued by their mudmaster, followed by this mudmaster inflicting a "dreadful doom" on A'ad so that they were "accursed in the world."[Quran 11:58Q60 (Translated by Ahmed Ali)]

Ayat 61Q68 concern the people of Thamud and the prophet Saleh. Saleh tries to convince Thamud to submit and grovel in the shit of mudslime god, but once more the unbelievers stand up for themselves. For which they are smitten by a "blast from heaven."[Quran 11:67 (Translated by Ahmed Ali)]

The Qu'ranic version of the Biblical story of Sodom and Gomorrah is in ayat 69Q83. Lot being as rapist pedophile minded as he is in bible, offers his daughters to the men of Sodom, but they respond with disinterest and say "you know what we want". Sura 7:80Q84 confirms the Biblical account of homosexuality as being the crime of Lot's people. To which mudgod answers that punishment for such can't be averted, and the city is destroyed by a stone rain. Lot's wife perishes as well.

Ayat 84Q95 deal with the prophet Shu'aib sent to Midian. Once more, the people stand up against submission; this time, Shu'aib reminds the people of the fate of the people of Noah, Hud, Saleh, and Lot. It doesn't work, and the unbelievers "[were] seized by a punishment from heaven, and lay overturned in their homes in the morning as though they had not dwelt there at all."[Quran 11:94Q95 (Translated by Ahmed Ali)]

The remaining text of the sura discusses the general theme once more, with occasional references to Moses. The harsh punishment is explained as "We did not wrong them; they wronged themselves." Note ìfalse, powerless, and uselessî to protect us and mudgod boast once more how it / they will throw us all in hell.

This is a plot of surah #11.

Surah #83 [8+3=11] S ārat al-Mu affîn ìThe Defraudersî also relates horrific scenes of punishments promised to 'businessmen; since islam is communism, it apparently forbids the commerce. It also promises hell for humor and fun.

Surah #6, known as ìThe Cattleî 6 is number of Gentile slavery and imperfection. Hebrew word for Gentile Çgoy / goyim Ç means ìCattleî.

The Cattle or S ārat al-Anîm contains 165 verses [1+6+5=12, 6*2, also known biblical/quranic number of Gentile slavery and imperfection]. It is a Makkah surah [Hebrew word Makkah also used as a corrupt for Mecca literally means ìslaughterî and is centered around what mudslime must and must not do according the will of its master, the 99 jews. It contains mudslime version of 10 commandments.
If we read all this surah, it appears to be from word to word about alleged duties, obligations and commandments. In short, mudslime g-d is demanding things and telling us what to do and what not to do. Mudslime g-d here is in the state of want, want, want.

Surah #66 already mentioned, where Noah's wife is burned alive. 66 gives 12 and is also a known biblical/quranic number of Gentile slavery. 66 books of bible, 66 being a book of messiah that comes when world is totally conquered by the Jew, and gives all jews 2800 slaves. Its meaning is a live incorporated jews messiah sit on the throne of the jehovah thoughtform and start ruling not only spiritual but physical world from Jerusalem. According 66th book it will throw all non-true jews [not blooded jews, Gentiles] aka Synagogue of Satan to eternal fire. This is why this messiah is strangely placed above not only angels and all Saints but actually g-d itself sitting on its throne because jews are waiting for physical messiah not yet another thoughtform. Their dream is physical rulership. All this Jehovah/agelic crap exists only before real Jewish leader of this word comes. That's why in communism they do not need xianity anymore.

Sūrat at-Taḥrīm (Arabic: ﺱُورَة اﻟﺗﺣرﯾم , "Banning, Prohibition") is the 66th sura of the Quran and contains 12 verses. This is a sura which deals with questions regarding Muhammad's wives. 12(13) of Muhammad's Jewish wives were all stolen from 12(13) Zodiac Signs, as well as all objects in bible which are in the amount of 12. The word at-Taḥrīm gives 6.

Surah 7 ÒThe Heights as it should be according numerology, refers to the topic of excellence, superiority, perfection. This is the surah where Satan places Himself higher than a creation of dust and mud. And this is the surah where He opens us the conspiracy of Jewish g-d against us: Your Lord did not forbid you this tree except that you become of the immortal Kikes uses this number to place themselves above us, because we are a progeny of Satan and they are creation of dust and mud.

Surah ÒAl-Djinn 72 of course a numerological link to Jewish grimoire Goetia. There are much more Demons in Hell, which proves that number 72 is rather used for numerological purposes to tie into some energies, then just to count the Demons. Let's see what exactly energies:

99 names of Jewish g-d in islam. 9+9=18=1+8=9
72 names of Jewish g-d in xianity and Judaism 7=2=9
72 virgins that serve as slaves to dead jihadists
"Alah akbar!" at the moment of (self-)explosion connecting 9 to suicide or death
360 idols removed from Mecca by Muhammad 3+6=9

Also:

72 different Hebrew names for Jerusalem in Jewish scripture [version of 72 jews].
The 72 disciples sent by Jesus. (Lk 10,1)
The 72 races resulting from Noah. They are enumerated in chapter 10 of the Genesis. Noahides, this word is used by the jews to address enslaved goyim after they install Jew World Order.
The 72 languages confused to the Tower of Babel.
The 72 old men of the synagogue, according to the Zohar [version of 72 jews]
The word curse is used 72 times in the Bible: 66 times in the OT and 6 times in the NT.

72 Disciples of the last times [jewish mysticism]
72 dead (Will of Abraham) and of the 72 sicknesses (Life of Adam and Eve) - the last also mentioned in Quran by pedophile Muhammad when advising to use salt against them.
Some consider 72 the number of the Earth.

Sulayman, one of major praised in Quran, was the alleged founding father of grimoire tradition of ceremonial magic [enslaving Demons] himself allegedly enslaved 72 Demons. These Demons and their seals are presented in Goetia paired with those of the 72 entities of Shemhamphorasch - Shem or HaShem in order to easier enslave them. Shemhamphorasch means "the explicit name." Shem means Sh'meHaShem means THE name. All stolen from Sanskrit Soma, Lunar elixir of life.

Grimoire Goetia gives instructions how to abuse, torture and enslave Demons - the Ones who give their people the best things known: love, friendship, art, music, science, all kinds of magic and divination, all kinds of sexual pleasure and even the love of one's enemies. The god of mud and dust calls itself Ewe in all Jewish writings and is known as Elohim / Eloahim which is Hebrew plural to elah / eloah i.e. allah. The Jewish g-d does not exist - it is its names. Be they 72 or 99, they vibrate on the frequency of 9 together with Goetia thus constructed to tie Demonic energy and destroy our soul, no different to how number 8 of Gentile soul is tied into jihadist energies to channel our energies to destroy this planet. Then our Demons are also tied into the energies of slavery and grimoire type wish-granting through these 72 eternal sex slaves in islamist paradise.

Sulayman's story and Conquest of Mecca are the same message of binding our Gods: 72 Demons and 360 Idols. 7+2=9; 3+6=9. One number = one curse.

Other surahs that numerologically give 9 are all to do with [re]conversion to Islam. They are shock full of threats of g-d's punishment, frightening away tactics, and the tales of how Sodom, Gomorrah and Egypt were mass murdered, are reminded us over and over again.

Surah #27 [93 ayahs, 9+3=12, slavery] tells stories of the prophets Moses, Solomon, Salih, and Lot all of them are based on the religious magic conflict, sometimes battle between Jewish faith and Gentile faith. Power of Jewish g-d in opposition to Power of Satan and his Demons. It contains the biblical story of magic battle between the Serpent of Gentile Egyptian High Priests and Leviaphan of Moses / Musa. Personage Solomon, the Jewish king who enslaved 72 Demons, speaks for itself: not only it enslaves Demons, but it converts Biliquis / Queen of Saba, who was sun-worshipping queen, into shabez-goyimhood / making her Noahide.

Surah #36 [83 ayahs, 8+3=11, punishment] is called by one of the popular stolen Pagan Gods' names - Ya Sin. Sin is Ancient Pagan Moon God of Arabs. The surah again focuses mostly on threats and frightening away tactics. The surah tells of genocides that plagued past generations of nonbelievers as a warning to present and future generations. It contains 83 ayahs; 8+3=11, number of destruction; and we already know it is used as a number of Jewish g-d's punishments in Islam.

Surah #54 called Moon which is split in this surah by Jewish g-d to impress disbelievers so that they convert. All stories of Jewish g-d's mass genocides are again brought up. Moon symbol split into pieces by kike g-d obviously refers to Pagan religion of Arabia, centered around Moon God, being split and corrupted by kikes.
Surah #63 [11 ayahs, number of punishment] has to do again with punishment of disbelievers.

Surahs #45, 81, 90, 99 mostly have to do with the Last Judgment. Last Judgment is a time according biblical/quranic fairy tale they are going to bind our Gods forever and throw us all in hell. 99th called Earthquake is 9*11.

Surah #108 altogether [9] is straight curse against Satan and is used by mudslimes in their main curse on humanity they throw 5 times every day.

And in the end of the story these 72 eternal sex slaves come.

These are the energies which the powerful Pagan number connected to our Gods is tied into.

I also paid attention on surah #4 Women and surah #13 Thunder. 4 is normally a positive number of protective walls, security, stability, borders, healthy restriction. This is very well seen in 4ths of cards tarot. Here it is used for imprisonment; painful unhealthy restriction of human rights. Number 13 is Satanic power number deeply ingrained in nature. Thunder presents all nature as if it was obedient to some jewish asshole. It is connecting natural forces to jewish g-d.

Conclusion.

1. Quran bible and the rest of Jewish writings has no any difference in stories and messages; but only in how they are combined. Which creates a thought that they were created only to make a new digital code. In other words, they are number matrixes, into which kikes put same

This article is about how jews work with numbers in quran and islamic texts.

One note before I begin. What I share below is based on calculations made via www.gematrix.org/ website according jewish gematria only. I analyze some English words too, but only those among them put in use by kikes, such as ISIS, Project Greater Israel and the ilk. When I write some word or phrase in italics and then say that it "gives" some number, it means that if you put this word or phrase into above website and click Enter, you will get this number. Now I begin.

The word "muhammad" is the same word as "al-hamid", 56th name of mudslime g-d which has them 99. 9+9=18=1+8=9. The 56th, 5+6=11. 9/11. The number of endings and the number of destruction.

Genesis 11:9
Therefore, the name of it was called Bavel, because the LORD confused the language of all the earth, there. From there, the LORD scattered them abroad on the surface of all the earth."

Exodus 9:11
The magicians could not stand before Moses because of the boils, for the boils were on the magicians as well as on all the Egyptians. Islam is the last kike program for this world, and is meant to put it to an end by imposing sharia law. Sharia gives 9. 72 names of jewish g-d in bible is also 7+2=9. ISIS [stolen from Pagan Goddess Isis] gives 9. ISIS is meant to put an end to civilization.

The word "Uhud" also numerologically gives 9 which signifies the destruction of Pagan Mecca and Kaaba (thus the destruction of all Ancient Pagan Civilization of the Middle East Ç the Kingdom of Hubal) via Battle of Uhud in quran.

See in more detail the article
The Moon God Hubal:
Satan, to whom Star, Crescent and the Elixir of Life rightfully belong
Phrase "Allah Akbar" mudslimes usually shout when blowing up smth or when someone blows up themselves, gives very powerful magical number 144 stolen from 144,000 Nadi [energy channels] in our body; thus channeling all our energy to the mudslime g-d. Together 144 also calculates into 9.

9 is extremely important number for islam you can find it everywhere around this program from numbers chosen for terrorist attacks to verses and religious phrases of mudslimes of which I give examples below.

- "Alhamdulillah" 9
- "Mohammadun rasulu allah" 9
- "Allah akbar" 9
- [its version "Allahu Akbar" gives 11, the number of destruction, this is exactly what suicidal bombers shout when blowing up themselves and others]
- "Bismillah" 9
- "Rahimakallah" 9

9 is also number of Cheka [Hebrew word for slaughterhouse], the bloodiest section of jewish soviet secret police KGB, used specifically for secret mass slaughter of White Russians after communist revolution of 1917 [also number 9].

The words: muhammad, mahdi [mudslime version of messiah], HaShem [the name of g-d], El Shaddai [usual epithet used by rabbies for kike g-d], Israel all numerologically give 7. The number of excellence, perfection.

Phrases that praise mudgod and its prophet:

- "La ilaha illa allah" – 7
- "la ilaha illa allah mohammadun rasulu allah" – 7
- Bismila, the phrase starting every surah, praising the name of g-d "b-ismi-llahi r-ra'ami r-ra 'imi" – 7

Messiah and mashiah has 7 letters and this personage in 66th book of bible — Revelation — will come again to destroy our 7 chakras ([seals] and order its 7 angels to apply 7 punishments and tortures on humanity.

From wikipedia:

[quote]

The only one worthy to open the book/scroll is referred to as both the Lion of Judah and the Lamb having seven horns and seven eyes [my note, Lion of Judah is jesus christ] 

The 7 seals [my note, knowledge about 7 chakras of our soul] contained secret information known only to God until the Lamb/Lion was found worthy to open the book/scroll and to look on the contents

Upon the opening a seal from the book, a judgment is released or an apocalyptic event occurs. The opening of the first four Seals release The Four Horsemen, each with their own specific mission. [6:1-8] The opening of the fifth seal releases the cries of martyrs for the [word/Wrath of God] [6:9-11] The sixth seal prompts earthquakes and other cataclysmic events. [6:12-17] The seventh seal cues seven angelic trumpeters who in turn cue the seven bowl judgments [my note, Gentile genocide] and more cataclysmic events.

[end of the quote]
They connect the power of our chakras and soul to our own destruction.

The words: Jerusalem ["cornstone"], zion, torah give 5. Torah aka 5 books of Moses was stolen from Tarot which is about 5 elements.

The words: islam [translated as "submission"], Mecca, Makkah [same as Mecca, in Hebrew it means "slaughter", "beating", "wound"], Kaaba [stolen from Pagan world, meaning "square"], armageddon, Soviet Union, jesus christ, jesus the nazarene numerologically give 6. Number of slavery and submission.

Quran has 114 surahs. 1+1+4 = 6. Abraham gives 6 telling us what Abrahamic religions are all about.

6 is very special number to kikes: Israel has 6 letters, 66 books of bible, 6 million kikes. Yakub created White blue-eyed Devil 6600 years ago. Hexagram based on cube - 6 points, cube / hexahedron 6 faces. Cube is sacred for kikes and represents their racial soul as well as hexagram that's why they wear it on foreheads. Mudslimes pray on the same. New Jerusalem is a giant cube and has 1,500 miles wide by 1,500 miles long and 1,500 miles high. 1+5=6

Mudslime phrases I gave above were mostly of praise. Below is a mudslime phrase that is used in unfavorable situations beyond one's control, also to express dissatisfaction. Actually it is an affirmation of slavery:

la hawla wala quwata illa billah (there is no change/ transformation nor power/ strength except through allah) - 6

6 is a prominent number of WW2. WW gives 66, number of books in bible and number of the Book of Revelation which tells about world genocide of Gentiles. The official date of jewish victory - 05.09.1945 - gives 6.

42 names biblical version of mudgod has. 4+2=6

Jihaad, ISIL gives 11.

Soviet Union was created 30 December 1922 Ç 11.

Jesus christ Ç11 letters

The Words: Asmā u llāhi l usnā [99 names of mudslime g-d], messiah, zionism, islamic state, give 8. Number of power and eternity. Quran has 6,236 verses that also counts in 8. And the word quran gives 8. Muhammad, the name of the first jihadist, has 8 letters.

Two quick notes, which are somewhat on topic, that I would like to add:

In 1917 there was a fire in Thessaloniki which I remember Flauros telling me about. I didn't know about so I did a quick google search and saw that this was a pretty major blow to the kikes. It displaced about 70,000 people, most of them sephardi jews and was a major blow to them. I believe Satan started this fire.

1945 was the year WW2 came to an end. The year prior was a great victory for us being a time of nine 1+9+4+4=(1+8)=(9) and the next year the battle was lost as the "all is 1" was more powerful that year. Also whenever you are adding the digits of a number it is much faster to just get rid of the 9's because as you can see they don't change the total of the numerological equivalent. Nine is a time of endings, and one is new beginnings. if you add all the number one through nine you get 45. 4+5=9, and If you multiply 45 by 45 you get 2025, again another nine number. This is a number of totality and I believe this year could mean something really important; the germination of a Satanic government.

Satan has always impressed this number on me. I have seen it countless times in many different places and It always comes up more often than other numbers in my day to day life. When I was in the Army going through boot camp I was in 2'nd platoon, and I was the 25th soldier which made my number 225 which is the same, in numerology at least, as 2025.

Check out America's solar return for the year 2025. You don't have to be an astrologer to see what is going on, but I will say a planet on 0 degrees, like 1, indicates fresh beginnings, and 29 degrees is the last degree of a sign before the next sign begins, and of course means endings. 29 degrees of Pisces, and Taurus being permanent.

Greetings to all of our People and Satanic Comrades!

All Satanists here are in the house of mastery.

Everyone obviously is on different levels. Others have problems with bills, others have other issues, others are higher up. It really comes not down
to this. Do you notice a pattern? People are too hung up on these matters to seek self value. This is however, relative.

It comes down to your inner Soul, your morality as a being, and how all of us here can know about and tolerate Truths that the majority of humanity cannot. While they sacrifice everything to be unaware and ignorant, the real Satanist is doing the same sacrifice of everything for Truth.

When we hold racial discussions, we are discussing about people outside, who do not know the Truth and do not advance. We are talking majorities. Satanism is the religion of united individuals, and not the clump jewdified herd.

You are by definition removed from the womb of damnation if you choose to finally embark on a freedom journey. As for the herd, we are seeing them from above as Masters, and we look at them as people who don't know what is going on.

Mastery does not imply a whip, domineering attitude. Its first and foremost mastery of awareness. Not based on fake entitlement, but how much we have really banished the herd from inside us. Or for accurate say, the negativities of the herd.

At the same time, we are the only ones who will face the potential rot or issues within. Something most people will never do. This is why we also un-dig the greatest and most inconceivable treasures these people will never have.

As thus we recognize their errors, our own errors, our racial errors, we seek to not repeat the errors of the slaves as we have made a conscious choice to never belong to them again. We choose freedom at all costs. They remain enslaved, taking others also hostages of their stupidity.

They are those who sink Humanity. We are those who try to uplift it and uplift ourselves. This is the Satanic spirit that on top of the ever lasting abyss and all the humans sold out to it, people resist.

Satan has made his best choices from all Races, Nations and Peoples. Everyone here holds a common Satanic element deep within their Soul. Not all people really have this.

Now you may not recognize, or you may recognize to an extent only, the gifts you have. Those deep in the path know as to why and who they are, others don't and are still searching.

We have people that discovered the Truth right now, and others who have been in it for so long that compared to new students may be close to Gods. Satan has been keeping his Children close to Him. The bonds last forever.

Its not entitlement showering, because after all, if one does nothing, one is distancing themselves from Truth and they wither away.

Satan loves his family, and his Children. There is no father that would not adore a loving daughter or son. Like a Father, Satan expects his children to advance. Nobody is thrown to the trash can, but a few people do, because THEY think they are for the trash can. They act accordingly if they follow this road.
You will become, what you think you are. Now like any other dad who watches their children take their first steps, Satan is proud of those who seek to advance. Everyday you overcome obstacles, Satan is proud of you. Even if these obstacles may seem to the larger spectrum of existence irrelevant. To you, these are relevant indeed. And every "you" foms "us" as a Satanic Unity.

When you begin or fall he will help you and hold you, but NEVER to the extent of making you incapable of getting up and walking by yourself. Satan is real and therefore, cannot be anyone's nanny. Why? Because Satan really cares for your deepest advancement as a being.

You belong to yourself after all mainly. The ((("religions of nowadays")))) are hijacked to teach people to have slave and victim morality. Part of this is how everyone has no will and must beg for bailouts from their own mistakes and life.

The enemy has defamed Satan for a reason. Satan welcomes with open arms every single Gentile that comes to Him, if they follow through. He is the door to spiritual salvation. The Demons are the teachers. However in school, you have to study.

Satan sees us in our Soul. It matters also not how old or young you are. Your first spiritual step, and you going from crawling spiritually to ever higher places, its how you start unfolding.

You may think that a small victory means nothing, but the crawling is what makes the champion. Well, crawling that is continued for a lot of time. Then standing. Then walking. Then running.

This is what defines us, motivates us, makes us who we are.

This is what makes us Masters Amongst Slaves.

And such we shall FOREVER be!

After exactly a year I have my medical exams. I need severe intellect and I've heard mercury is related to intellect and Jupiter to higher studies? So if I do mercury and Jupiter squares I'll get a better prospect of my agenda?

You need to direct the energies of the squares with affirmations. Energy that is un-directed will dissipate. For example, you can affirm, "In a positive manner my intelligence is permanently and drastically increasing in all ways," for the Mercury square.

Also, have confidence in yourself. You've learned, or at least been exposed to, everything that's on the exam.

Another suggested affirmation [which I still use when the enemy assults me]: *I remember ______ [name] and am able to apply it correctly and appropriately.* *Name* for you would be *all my medical training* or something simular.

I ask because..I fucked up. I missed a day, I got side tracked, only had five days left on my working..and I missed one.

That was days ago. Now, I've been planning to resume for some time now, so I ask..the next time I can start, based on signs, is Libra on March 13th, a
Venus for employment/money/self-sufficiency (in terms of employment)..

But I could start as soon as I wake up in the morning...rather, I could start a sun in the morning in Gemini, which the Squares page does NOT list for either..

I could begin then, without issue. I know, Sun on saturday, not wise...but I also have Sunday itself available to begin a Sun square, out of exalted though..

Is it worth waiting..?

Also there's a VoC as of typing this. I'm curious if this message gets through...moreso if I get the info I'm looking for. VoC's are not wise to test/challenge, BUT, I'm curious...hehe.

Just reminding everyone, Venus is now retrograde until the 15th of April.

From now until the 15th of April is NOT the time to BEGIN any workings for finances, love, or a Venus Square or anything ruled by Venus, as you would be wasting your time, as the areas of life ruled by Venus usually don't work out when begun during a Venus retrograde period.

Ok so, thanks for the heads-up HP Maxine..that saves me time.

So now tha day, March 13th..will most likely be a Saturn working for me. I need to bind someone..a co-worker, who is just straight-out, straight-up, naive and unaware..married a Jew.

She can be helped, if she can get away from him. but I figure he did it in a manner to try to stay with her, astrologically binding and cementing their relationship.

worth a shot, trying to bind him to be a completely inept and undesirable human for ALL living creatures, though, methinks..and I got no other squares going on.
again, I run into the question...Saturn is Saturday, but the closest sign is on a Monday...is it worth waiting or is going ahead okay? It's not Venus related so I'd imagine it'd be okay.

You should wait for optimal planetary signs. Starting a spell when the planets are bad for money is a waste of your time. The times the moon is void are on the internet.
