

# Kundalini

Satguru Sivaya Subramuniyaswami stated that Sanat Kumara is the God of Kundalini Yoga and that KU is a name of Sanat Kumara in the east. KU means the serpent fire. KU is extended into the mantra name of Kundalini. The title Kundalini is a name of Sanat Kumara.

Sanat Kumara is Dionysus in the west [1] and the Jewish Bible calls Zeus the name Satan in the book of Revelation. Dionysus is the physical form of Zeus, as Sanat Kumara is the physical form of Siva. Dionysus-Sanat Kumara is Satan to the enemy. The goat, serpent, and peacock are the major symbols of Sanat Kumara and Dionysus.

The ancient texts from the East mention the purpose of Kundalini Yoga:

Tirumantiram:

*612: Perfect Meditation Leads to Immortality  
Having abated not in the rules of vows,  
The Yogi that has to meditate learned,  
Coursing Kundalini through spinal column,  
And passing Mandalas Three with felicity equal  
He in fleshly body forever lives.*

*728: Yoga Leads to Imperishable Body  
Three the coils of serpent Kundalini  
Ten the Vayus that agitate the body;  
Twelve finger-length the Prana breath;  
When the two bags of spiration  
Are tight controlled,  
And you sit in meditation unwavering  
The body perishes not ever.*

*786: Greatness of Kundalini Yoga  
None knows Kundalini that spans high  
None knows the science of breath control  
They who know it not perish away  
I knew the truth that none know.*

Note that the Tirumantiram calls Karma Yoga just physical work which accomplishes nothing spiritual.

*644: Karma Yoga Practices are Inferior to Eight Siddhis  
Karma yoga is several, several in number;  
Twenty thousand eight hundred kinds they count;  
And all they can give is but physical work,  
Inferior are they to the Eight Siddhis Great.*

If one goes back into the ancient writings, the current paths of modern RHP Hinduism are denounced as inferior and accomplishing nothing.

The ancient symbols and teachings, the further back one goes, are based on spiritual practices that transform the person into the Siva Rupa: The Light Body, or Kumara body, which is immortality and the power of all the Siddhis. Sanat Kumara is born of Cosmic Fire, Siva. Just as Dionysus, which means Twice Born, is born of Cosmic Fire, Zeus, the serpent fire. This is the purpose of the original teachings that Sanat Kumara, Satan, gave to humanity.

The enemy program of Jewish Christianity has nothing spiritual. Its ideology and practices of worshipping "god" 24/7 are simply a form of Hebrew Kabbalah magic that is designed to empower the servitor of the Jewish racial soul called YHVH and give the Jews control over the world. The universe does not require or need your flattery and worship. Your life is your own. However the Jews need to feed off your psychic energy with their witchcraft of Christianity.
