

# Nostradamus

Nostradamus was a converso French Jew, which means he was a crypto Jew. He pretended to be Gentile in public. This is well known today. The importance of this is Nostradamus's book "The Centuries" in which he states how he was able to obtain the psychic abilities using the exact same techniques recorded in the Kabbalistic system of Rabbi Tatzayah, who was alive at the same time. Nostradamus was a Jew using the occult knowledge of his fellow Jews. From historical claims, the Jewish occult knowledge that Nostradamus learned, he probably learned from French and Spanish Jews. Nostradamus disappeared for awhile and then when he returned he had obtained the psychic abilities he is famous for. He left to be trained by Rabbis in secret, as Jewish authors have shown. Jewish authors have commented on this fact. This is the reason Nostradamus wrote in such a cryptic manner to hide the source of his abilities and training in developing such abilities otherwise he would have been in trouble and been shown as a converso Jew.

The Jews such as Tatzayah were in Syria and further east where they also gained a lot of knowledge. Tatzayah made the number squares well known around this time. He admitted that they are in use in India and China but brought them into the west. The Jews then corrupted this spiritual knowledge of the squares and converted it into Judaic occultism to tie into the thoughtforms, or angels, they have created for each planet. This ties into certain letters in their Hebrew alphabet and Hebrew mantras, which are toxic to Gentiles. They corrupted all the knowledge.

The ancient Jewish teachings, the ones passed down orally and in private books always had practical instructions on how to use these occult techniques, with practices to develop them. Some of the texts have stated that parts in them are not permitted to be written down, but only given orally. These books are only in Hebrew in select Jewish groups. Some of these texts also have incorrect information put into them that only the adept Rabbis will be able to correct to any Jewish students they are training. They are also encoded to hide the actual occult information for only the Chosen for their criminal practices. Mention of the existence of many of these texts outside of that only exists in a footnote in Jewish books for other Jews. The Jews who are taught this are taught no more than two at a time by the Rabbi. The Jews also have curses placed on these texts for any who do not abide by their instructions. In Judaism, there are daily prayers the Rabbis recite as curses against any Jews who do not fall in line. This connects with the curses on such texts as well. They guard this knowledge drastically, as it is the total source of all their power.

Nostradamus shows the abilities the Jews have training to develop and how effective they can be. Also note that Nostradamus's prophecies are basically all negative. These visions were given to him with his opened abilities by the enemy extraterrestrials, the Seraphim, which are a reptilian hive, as Rabbis who have developed these abilities and communicated with them directly have stated. It's based on their hatred and desire to destroy Gentile humanity.
