

# Occult History of Kerala

The history of the Jews in India officially started in AD 72. They entered Kerala after Judah was destroyed by the Romans in the Judeo-Roman war. The Jewish population in Kerala once numbered in the tens of thousands and has only gone down with the migration of most of them to modern Israel. There are large copper plates in the synagogues of Kerala from AD 379 granting the Jews large tracts of land. The Jews were powerful merchants in Kerala.

Here one can detect a pattern of how the enemy works:

"Kerala, a lush tropical state, gained prominence some fifteen years ago when it produced the first democratically elected Communist government in the world. Many of the people are Syrian Catholics, or members of the Eastern Orthodox Church in Kerala, a church founded by very early Christian missionaries, even before the formation of the Roman Catholic church. Kerala is often known as a Marxist-Catholic state." [1]

Kerala has the largest Christian community in India and is the historic base of Christianity in India.

The Nestorian (Syrian Church) in Kerala is ancient and goes back to the first Jewish sects spreading this ideology across the Gentile world. Its founding legend in Kerala is as follows:

Thomas arrived in India in Kerala:

"As he [Saint Thomas] traveled alone by foot along the inland coastal routes, Thomas began working to make converts for Christianity. Besides giving informal sermons to the natives, Thomas oversaw the construction of Christian churches within which he could regularly preach the new faith. Then, during the next twenty years he succeeded in conquering much of Kerala in the name of his Jewish Master." [2]

The Jews arrived by the thousands in Hindu India in the first century and built a powerful base community in a Gentile host nation. Then they proceeded with decades of their Jewish ritual magic of the Torah and curses against the population and start to amass wealth and political power, as the synagogue edicts from Kings in Kerala show. They are made above the laws of commoners in many cases even not having to pay certain taxes. The Jews were very involved with their money and occult influence in Kerala political affairs.

The Jews of the west created Christianity in Alexandria and started to spread this across the Roman Empire and throughout Persia, India and the general East. Naturally they followed the trade routes of their merchant scheme enterprises.

The Jewish community in Kerala used their affluence to established Christianity in Kerala, along with building Christian churches. And they had their brethren spread the Jewish program to the Kerala Goyim like with the Roman Empire. The Jews spent decades generating the psychic energy matrix in Kerala for this to be successful, which is why Christianity then spread everywhere like a psychic pandemic in Kerala in rapid succession of this program arriving but was rejected elsewhere in ancient India. As the statement mentions the Jews literally "conquered" Kerala with their program of Christianity in twenty years.

Centuries of the Jewish influence of Christianity and the Jewish race and their energy matrix in Kerala are influencing Kerala to become a Judeo-Marxist state. It's already a Judeo-Christian state. The energies all connect into the same Jewtrix. This is microcosm example of the global picture of how the Jewish race has been taking over the Gentile world for centuries.
