

[Preparedness: 27 January 2020](#)

Post by [High Priestess Maxine Dietrich](#) » Mon Jan 27, 2020
9:26 am

I've studied preparedness, survival and related quite a lot over the years. I'm going to write several articles here to give our people tips in case of disaster.

I also want to add here, our Gods admire cooperation and teamwork. If you have any survival knowledge or suggestions, please post them here.

Satan, Lilith, Azazel and our Gods have been elaborating on "plague" to me for years. I'm sure I'm not the only one who has heard this here from them. They also got onto me quite a bit to stop eating Asian foods. I love Asian food.

I also want to add here, don't blame the Chinese or Asian people. The problem is with the Jews.

Looking at this astrologically, this will be very serious.

Common sense is enough to see what will happen if the Chinese economy collapses and the goods stop being produced.

Right now, at this time, it is exceptionally important to stay on top of the news. Both Reuters and CNN are up to the minute. Everyone should really keep on top of this situation, as the number of people infected and the deaths are rapidly multiplying.

As I already mentioned in my article "China 2020" nearly everything, including ingredients, pharmaceuticals, and even things we overlook are manufactured in China.

Be prepared and the time is now. Don't wait.

Look through everything in your living place and take an inventory. Foodstuffs, dry goods such as feminine products, diapers, any medications, supplements, pet supplies and food, hygiene products... I will be posting a standard list here later.

What do you use on a regular basis?

Try to stock up on these items as best you can now.

I will be writing more about this later.

China has a stationary Saturn that will be hovering across their ascendant soon and the US has a retrograde Saturn which will station close to Pluto, ruler of US public health along with a Pluto return. (Scorpio intercepted in the 6th house).

Things could happen rapidly. Use your own judgment and common sense. Streets now in China are empty in some major cities. No one. No traffic, totally desolate. No one's going to work... Because of the international Jew, so many countries are totally dependent on China.

Think about it...

I will do my best to post a lot of tips here.

For now, stay on top of the news and start preparing.
