There will be an update soon with an additional Ritual that will be extremely potent against the enemy. The basis will be the already flattening F-RTR.

Until this is released [it may take a few days - we will not write exactly], we continue doing the Final RTR daily and without fail.

These are extremely crucial times. We have to do our part and what it is our duty to do.

We have been doing monumental progress. Stay strong and focused.

HAIL SATAN!!!
