Greetings to all of our Satanic Warriors and Comrades.

We are exiting a highly successful cycle of warfare against the enemy from the 11st to the 22nd. After a few days of rest [and intermediary fruitless planets], we are now going to start another short and to the point schedule. Now, headed in the New Year, it's time to bless up. So buckle up.

Due to the nature of affairs currently ongoing, these schedules will not be as long as to give the enemy a lot of time for preparation. This schedule we will be following is rather simple this time, and will consist of 3 Rituals done in total. These revolve around blessing our common gathering, so that people are benefiting during upcoming difficult times. Please refer to past made topics so that you are not alarmed, and keep meditating and stay strong.

From now on, the daily RTR, should also include the Tetragrammaton reversal/Veil removal. This only adds a few additional minutes if anything and is extremely strong, and should be thrown as napalm to the enemy. It also does too many positive things for our side to currently write [may elaborate even more in the future, as awareness is paramount]. Those of you who are psychic, you understand full well what these things may be.

All in all, this will drag down all the fake idols of the enemy, including xianity, which is basically a basic proponent of the hebrew veil itself. "Christianity" is nothing but a hebrew mental apparition on the minds of Gentiles, to bring them under control. It's an occult weapon of the enemy and it'll go down with the rest of the arsenal. It's going to die out very fast.

HPS Maxine has related to me earlier this year, the enemy is having major issues and is rather depleted. This is only far more real now. Now is the time to hit them so hard with the Final and Veil Removal.

I strongly believe that our members need frequent blessings, not only to avoid hardship, but also to receive rewards and assistance for fighting spiritually for Satan. This is mandatory for everyone's well-being. I hope Santa brings you lots of gifts next year. Worldwide, things will be hard next year. These will lessen the blow.

Every Ritual done henceforth will come at increased potency. This deals with increased power and less resistance by the enemy.

Happy New Year to everyone, and **bless up**.
