

Sanat Kumara, the God of Love

The new age writings on Sanat Kumara refer to Him as "the God of love," but then confuse the meaning of such and further confuse the meaning and history of Sanat Kumara. Sanat Kumara is the God of love as He is Sukra in the East, the Sanskrit name of Venus.

In the ancient texts, love [Venus] is "the union of opposites." Sanat Kumara, in Hindu spiritual tradition on the allegorical level, is generated by the union of Shiva and Shakti. What this means is that the flowing of the moon and sun nadis into the central nadi generates the spark of love, and this is the etheric charge that is manifested from the union of the lunar and solar energies that opens the center channel and allows the serpent to rise into the crown; thus Shakti the serpent merges with Her consort Shiva at the crown chakra. This generates what the religions of the East call the "Kumara body" or light body. The serpent uniting the male and female chakras and merging with the crown chakra takes one to the Para Shiva which is the level of super consciousness that manifests as what is called Satcitananda. Satcitananda is the state of spiritual blissfulness and ecstatic joy that comes with fully realized consciousness. This is a positive state of being. This is Sanat Kumara on the esoteric level.

Sanat Kumara means "The Eternal Light Body." The light body is generated by the union of the male and female chakras and nadis becoming united.

The interference that is made by new age authors on this is that Jesus is "Sananda" Kumara and Sanat Kumara is Satan Lucifer. This includes the strange belief that Sanat Kumara is the human psyche in the state of the fallen Kundalini that creates a destructive and negative level of consciousness based on illusion and lower ego, and that Jesus is the state of consciousness of the serpent fully risen that brings "Christ consciousness."

Within the Bible, it's true that Satan is Sanat Kumara. The Bible openly in the book of Revelation calls Zeus "Satan." Zeus is Dionysus who is documented by Western scholars of Hindu to be Sanat Kumara, and the ancient Greeks also mention the same thing themselves. One new age author and researcher does openly state in his book that Sanat Kumara is indeed the "Satan" in the Jewish books, and they took Sanat Kumara and turned Him into an evil being as an attack on spirituality.

There is no record in the Eastern traditions of Sanat Kumara being a fallen angel. Sanat Kumara cannot represent the state of consciousness of the fallen Kundalini because the very meaning of the title Sanat Kumara is the title of the

state of being and consciousness of the risen Kundalini in the original traditions in the East.

These lies are all within the Biblical context which is built on the lie of the Jews where they make themselves into "god" and curse Gentiles to be their slaves. This context however does not even support the claims of new age authors on the "Sananda Jesus" claim. The garden of Eden text is stolen from the Sumerian Eridu texts. In Babylon and Sumeria, the God Enki ruled Eridu. Enki is called Oannes which is Ioannes to the Greeks, a title of Dionysus and thus Sanat Kumara.

Enki was shown allegorically as the serpent wrapped around the tree of life 13 times. Sanat Kumara was shown as the risen serpent to the Sumerians, and the positive state of consciousness that comes with this including eternal life.

The Jewish race at some point stole this and wrote their own agenda into this text by corrupting it. Originally, Adamu and Eve do eat the fruits of the tree of life. The fruits represent the activation of the chakras on the tree. Mithra the Vedic deity eats the seven sacred fruits of the tree of life, and then realizes his nakedness and puts on a cloak of leaves.

Adamu and Eve, after eating the sacred fruit, realize their nakedness and put on garments of leaves and obtain the state of enlightenment. The garment of leaves is the symbol of the light body being activated with the raising of the serpent. The leaves represent the aura body, the outer halo of life of the physical tree of life which is the spine. The serpent wrapped around the tree is the risen kundalini energy. It's a symbolic map of the human energy body and soul.

In the Christian religion, the established theology has always been from the start that every time "god" in the Bible talks or physically appears, it's Jesus. Jesus confirms this himself in the New Testament. In the text of the Garden of Eden, it's Jesus who appears and confesses that the serpent did not lie to Adamu and Eve, and that if they finish the work that the serpent is instructing them in then they will become "Shining Ones" and Jesus the "god" of the Jews will not be able to keep mankind as his Goyim [animal or cattle] slaves.

It was Jesus who drove the serpent down the tree and cursed it to dwell within the earth of the root chakra in the Garden of Eden, bound by Jewish curses at the bottom of the spine.

Sanat Kumara or Satan is the state of the ascended serpent and light body; it's right in the book of Genesis.

The new aged authors have actually inverted the truth in order to promote the destructive lie of Christ. These are the effects of the enemy spell book of the Bible on the minds of Gentiles.
