

[Satanic Souls Have Been Cursed, And We're Fixing This](#)

I didn't want to get into the details of this before to not cause non-necessary panic as many people not only have picked up on this on their own (the older ones and the more advanced ones), anyway, but many people have lived this reality.

We, or let's say, our group, and us personally, we have been cursed over and over again by the enemy. As you can imagine this has went back and forth. However due to the rise of Retardianity and BaboonIQanity or Christianity, and Pisslam namely, their energies have been very rampant. But this is the case no more.

You open the jewbooks and you see most curses are directed to us personally, or rather, the branches of existence that we and the Gods represent. These curses are not only based on category but they are based on who we are at the very core. When the enemy curses idolaters to die, it's souls that get punished for it, and this, depending on the power of such souls, can manifest more or less strongly on them.

Personal karmic flaws aside (aka, some people are goddamn lazy and they do not put effort to get out of their rut, that's a human weakness) there is a large percent of curses that try to prevent you from all sorts of things. These curses may be personal or social. Now with the latest RTR you will drastically see many of these going away. This is why many people have related they were really elevated and felt a lot of relief by the RTR's. Not only the astral is turned into a disgusting toilet by the jews, but the same goes for their thousand year old excretion of "Abrahamic Religions" on Gentiles.

As far as personal matters are concerned here, they have fought 'you' personally. Many of you have felt this also. We are not like normal people, the lives of normal people can go way better with a minimal amount of effort because they do not have many enemies. For us life mastery comes after we put roots in our spiritual ground and start growing power, simply because, we have been attacked to never do this.

The enemy is also very aware the future of this world depends on all of you here, or rather, our Soul group, which is essentially linked with all the soul groups that the enemy expresses they want exterminated in every torah page. Obviously, they have failed.

With the amount of useless goyim populating this planet and praying to these egregores with the rise of the jewish powers after the 1950's where people have had children brainlessly to the point the planet is being eaten up (the amounts of many of these have quadrupled since, and billions and billions have been fully deceived on top of everything else), the enemy curses became more impactful. Ironically, these people not only cursed themselves, and us, but the planet and the world. Yet these effects are also on a personal level.

It's unlikely that serious Satanists are souls that simply came out of nowhere, and you know this too about yourself. I have seen Satan's markings in many astrological charts, personalities here, and over and over again. You're Satan's creations and we are related to the Gods in spirit, and the majority here will have a conscious remembrance of the friendship with the Gods. We rise

and fall together with them, because we share many things with them let alone our past, and our future.

This bond can manifest itself as respect to them, interest in them, a dislike to the hebrew programs way above the ordinary, and so forth. This bond also can't break due to brainwashing and even if the enemy tries to postpone the realization of a Satanist to their true nature, it will only come at them at some later point in their life. We have people who have dedicated on the age of 70 or further. They have been Satanic souls all along but their life circumstances (censorship, many long hours of work, peers and family pressures) did not allow them to wake up.

Lastly the final RTR given will reverse all of the above and bring peace, personal benefits, and many other things and blessings to everyone doing this, plus cause total disability to the enemy. It is part of meditation duty to be honest at this point to do this everyday and get rid of all these alien assaults on your soul which came from the enemy. In due time, these will also help uplift society and everything else.

Everyone has every right to believe in their ancestral Gods, advance, and improve in existence. The enemy took these away to make people suffer. The enemy has heaped an enormous amount of pain, disability, and disgusting energy onto this world, unmindful, and also only for their own personal benefit. Everyone else was forced to succumb into their hebrew bullshit and feel suffocated everyday of their life and be killed for this.

Me and also obviously the Gods and others have felt a lot of disdain and sadness for this situation. We are now going to work to fix this and reverse this. We will be successful by our common effort here.

The suffering so many people, and so many generations have underwent because of enemy curses, spread ignorance, stealing and subversion of countries and knowledge, is untold. Humanity has only had suffering in the most part with any joy being very scarce on the surface of the planet.

The latest RTR will fix personal problems that result from these curses for those doing it, not only worldly problems.

You will see the true meaning of how peaceful and decent a world without the enemy is, both inside and outside of yourself as this advancement is being undertaken more and more.
