

Subversion of Hinduism by Criminal Jews

Maya has been translated to "illusion" by later texts which was an attempt to create a strange monotheism out of the more ancient Vedic texts. This was started by Shankara, and one has to study into the Brahma Sutras to witness what is occurring here. Shankara is attempting to take the original conception of Brahman, which is simply the element of quintessence or Ether, and ascribe to this a new strange monism which is meant to open the door to a Christian style monotheism and has in fact occurred in Hinduism. Here is the major understanding in studying current Hindu ideology. Shankara attempts to state that the physical reality is an illusion and a lie and that only Brahman is real. He then attempts to create the basic metaphysical justification of Christianity and Islam which is that of a radically foolish spiritual egalitarianism where everything and everyone is Brahman and thus all are one and equal and the same. According to him, the individual ego is a lie and one must somehow overcome their own soul personality and become "one." This is an attempt to break down people's individuality and turn them into something controllable. This is a common tactic of cults. There appears in Hinduism the demands for veganism, fasting and other techniques of making people's minds broken down to control them. This was around the time the techniques in Hinduism were put in that are called "spiritual" but are actually tools to cause a disassociation to one's physical and individual being. They then mold them into some mind controlled universalist; someone that will embrace this communist narrative. This is also where celibacy comes from in an attempt to shut the door to the original teachings of sexual love as ritual to activate the serpent power. The enemy always goes after sex for this reason. This creates a neurotic individual whom they can then direct better, and this is also why the teachings that Siddhis are to be ignored and not worked for are put in. The original teachings pointed out that Siddhis are the signs of enlightenment. The chakras are activated with light and the soul is transformed to a higher level. This is how they originally tested for signs of enlightenment; by Siddhis. Shankara's false teachings accompany the removal of spiritual knowledge.

Shankara was from Kelara, a city that was well known for being full of a large Jewish population. I find it interesting to note that Shankara attempts to subvert Hinduism which he was openly stated to be doing in his time. But he attempts to subvert Hinduism with what is literally JEWISH KABALA mysticism. This is exactly the same trash that the Rabbis of Kabala teaches which forms the core of Communism when it's put in a secular political form by Kabbalistic Rabbis who wrote the Communist ideology. The Jews seek to subvert every People's culture in whichever nation they exist in. All to bring them down into what we today call

Communism, but it's just the ideology which is the manifestation of the alien racial soul consciousness of the Jewish enemy.

This is why this Jew states Maya has to be a lie here. As Maya is the actual world of forms and thus structural reality of existence which provides us with differences and scientific basis for these fundamental differences and thus natural laws which are physical structures of these differences. So Shankara then declares all of this to be a lie because he needs some ideological device to deconstruct this to then put forth his Communistic ideology of Brahmanism. Christianity does this by declaring nature, that of physical reality, to be a lie of Satan that is fallen, and the same ghostly world of spirit to be the only true reality. It also sets up its Communistic platform the same way Shankara does by appealing to this other worldly lie of Brahman or "god" and all being the same due to this. Christianity was written by the same racial mind of the Jews out of their Kabala, which is all Shankara did for his tribe in ancient India as well.

Originally Tantra was created to combat this insane nonsense by preserving the original teachings of the nature religion which is based on spiritual laws which manifest as nature.

Maya is originally the Goddess that represents the Shakti energy that manifests all of existence. One can notice the Tantric role of Shiva and Shakti is simply that Shakti is the vibration of energy, and Shiva is the consciousness and the form of the vibration. The two are one. The forms of existence are very real and have very real differences and social structures based on these forms of matter and thus have real meaning. Humans evolve through different states and forms to the ultimate form of their destiny. This includes racial differences. The ancient Sanatana Dharma was against racial mixing as well. The Brahman is simply the causeless element that all forms manifest from, and thus form is connected into the cause. Physical reality is thus not a lie; it's the form of spiritual reality as the two are one. The material world is the manifestation of the astral form of the world. Thus all the forms that exist are soul forms. This includes the individual soul. To understand the need for spiritual practice, one must understand the nature of the soul and body and why they have to be united.

By contrast, the Jew Shankara taught dissolving the soul into some non-existence after the physical death of the body and ceasing to exist as the ultimate goal, which is spiritual death. And also with the hidden goal of creating a situation in which Gentiles will degenerate physically and thus spiritually until they are so weak that the Jews can control them. This is the core of why Jews teach false doctrines about salvation of the soul in Christianity and Hinduism so they can control the outcome of such. It creates the pretext for removing real spiritual knowledge. Your salvation or liberation is done in some false nether world rather

than properly here on earth by uniting the body and soul. The body has nothing to do with the soul, and neither does the physical world in their false doctrines. They tell people the natural world is suffering and bad, but you can get paradise in the sky world if you obey the Jews in this world. That is what this is about in their doctrines of damnation. Instead, the Egyptians and Greeks taught the truth; if the soul is not empowered by the practice of Serpent power yoga then it will degenerate to a point that it can't reincarnate and a person will cease to exist. This is what the enemy programs of Jainism, Buddhism, Buddhism with Hindu coverings, Islam, Christianity, Communism and such lead to: spiritual death.

Tantra taught that the individual is to become Shiva, a physically perfected being; a literal Deva with all the Siddhis. Through the practice of Kundalini Yoga. Tantra practitioners warn people about the lie of Shankara, and that he was a deceiver sent here to destroy the true teachings. That perfecting the soul is perfecting the body as the two form and reflect the same form. The astral aspect and the physical aspect.

Shankara was a subversive Jew. His lying teachings are all Jewish in nature and origin, and were attempts to destroy Gentiles and the Gentile soul for the sake of his Jewish tribal warfare against Gentiles. It was noted that Shankara took Buddhism and injected into it a false Vedic narrative. This was done at the time to destroy the Vedic rebirth that was going on with the destruction of Buddhist ideology in India. This was to keep the same ideology going. The Buddhist Emperor Asoka had numerous close ties to the wealthy and politically powerful Jewish networks in Alexander in Egypt. It was Asoka who tried to destroy the original Vedic culture and replace it with Communism in the form of Buddhism. This included banning and removing all of the spiritual knowledge, mass slaughter of Hindus who opposed this, and the burning of mountains of texts and the rewriting of others. This is exactly what the Jews did when they took over the Roman Empire with Christianity. The Jews took over the Indian world with Asoka's Empire and Buddhism. Both western historians and even Hindu Swamis admit that the reason all of Northern India fell to a small Muslim army was because of Buddhism and the Buddhist teachings that became Hinduism. It so weakened the population that they were wiped out and enslaved. Mohammed was an open Jew who stated he was going to impose the religion of the Jews on the world. The Islamic books are full of orders to attack Hindustan. The Jews are told in their Torah to weaken the Goyim drop by drop until they are so weak that they can be destroyed in one swoop. We note this today how the Jews are weakening the western world to soften us up for the final strike and kill. A global Communist dictatorship.

Only the Southern Indian Empires resisted and destroyed the Islamic armies sent against them because their Kings destroyed Jainism and Buddhism and

maintained the Sanatana Dharma. This kept their nations spiritually strong to resist. Buddhism at one point was literally wiped out by force in Sri Lanka by the Hindu Emperor. There are ancient Southern Indian histories that mention the Jains were subverting the courts of the Kings with their ideological lies which are designed to remove true spiritual teachings and knowledge and promote a materialistic, human hating and world hating proto Christianity in its place. The Priests of Shiva then challenged the Jains to prove their spiritual enlightenment. The Jains were forced to put up, and were defeated and shown to be spiritually powerless. The Priests of Shiva on the other hand performed all the major and minor Siddhis thus proving the Sanatana Dharma to be the truth as Siddhis are signs of enlightenment. The Jains were driven out by the Kings and pogrom'd out of their Kingdoms. Think of Gandalf vs Worm tongue from Lord of the Rings. Indian histories in the Medieval period mention the Jains and Buddhists violently attacking the Shiva saints and attempting Jesuit style to subvert Sanatana Dharma. This was total ideological warfare by fanatics against Sanatana Dharma.

The Shiva Purana also warns about the Jains and how they taught a false Dharma that brought about the destruction of the noble race of Asur. Note Asura here is not evil; this only came about later when the western branches of Aryans went into the Zoroaster cult, which is also a Jewish invention. Asura is an ancient name of Aryan and it also means "Gods" in ancient Hinduism. It's warning how the Aryan race fell in its spiritual power and then physical power by subversion by the enemy JEWISH RACE. And also how the surviving Asuras who stayed loyal to Shiva and the Devayana, the path of becoming Gods, and then left and rebuilt their racial spiritual empire. But the subversive Jains were then sent into the Middle East to rise to rule the world under the Dark Age, which is the age that happens because of the loss of spiritual knowledge and the lack of its practice. The enemy has to remove spiritual knowledge to be able to bring the world under their control, and they state this in their Kabala. Hence they were called Jains then, and the Jains were from the MERCHANT caste which is the caste that the Jews in ancient India were stated to be of. The Jews can only rule a world of materialism and deception. Today it's stated by Hindu historians and scholars that all of Hinduism is Jainism. This is how successful the Jewish race has been in subverting India. They have been doing this for centuries.

This is why one must understand the Kabala to understand the Jews, and then be able to detect their criminal narratives and behaviors in history.

It was only those who maintained the original path of the Gods who stayed strong and defeated the enemy.

shinninglight wrote:

this shit is just everywhere in hinduism, brahma created a world of illusion and every other crap. hp mageson what about vishnu, i know shiva is satan but what about vishnu also why does the hindu text say they dont worship brahma.

Going back to the Veda period. Visnu was considered a minor God. However, Visnu in the later Hindu period is shown in the image of Surya, and Shiva was Indra the King of the Gods and was also known as Rudra. However this seems to be mystical forms of Indra and the spiritual properties dealing with Alchemy. Hindus state they don't honor Brahma because he created the world they are trying to escape from and have been told is samsara. However, it's because they don't understand something.....They do honor Brahma by using the Saraswati mantra which is the Shakti of Brahma, and thus Brahma. When a person asks about Hinduism, the question has to be in the context at what period are you mentioning. It's been changed for so long.
