

The Jewish Corruption of the Tree of Life in Kabbalah

The Flower of Life is the symbol that the Kabbalah tree is taken from. This symbol is in Egypt, India, China, Europe and the Americas. In Egypt, it's burned by a laser into the ancient columns in the Osirian Temple, which is at least twelve thousand years old.

This has been corrupted in the Jewish Kabbalah. The core of the Tree of Life is the Seed of Life, which the Kabbalah tree is from. If one overlaps the Kabbalah Tree over this symbol then it's obvious that there should be 13 worlds on the tree, which is what the Chaldean world tree had, and the Hindus have 13 Gods that created the universe. This is more obvious as the Tree in Kabbalah is "god," and in Kabbalah "God is One" which is the sacred statement of Judaism that is designed to encode the number 13. And also "god" is given 13 attributes in Kabbalah. These are the 13 major chakras that form "god" which is the soul.

Within the Flower of Life is the Seed of Life that shows 13 is the number of the universe: "The flower of life holds a secret symbol created by drawing 13 circles out of the Flower of Life. By doing this, one can discover the most important and sacred pattern in the universe. This is the source of all that exists; it's called the Fruit of Life. It contains 13 informational systems. Each one explains another aspect of reality. Thus these systems are able to give us access to everything ranging from the human body to the galaxies. In the first system, for example, it's possible to create any molecular structure and any living cellular structure that exists in the universe. In short every living creature." [1]

The point of Judaism is that only these ugly things have a soul, and this makes them "god." "God" in Judaism is literally the Jews themselves; it's right there in their writings.

Behold Christians and Muslims: this is the living "god" of your books...
