

# The Leviathan: The End of Your Life

In Judaism, "Leviathan" means to divide or cleave. In the Kabbalah, Leviathan is shown as a serpent encircling the human brain. This shows that it is dividing the mind from the left and right parts of the brain. The Gnostics such as the Orphites, who were stated by Christian Church writers to be anti-Christian and to curse the name of Jesus in their company, stated about Leviathan:

[Short excerpts of text from Origen Contra Celsus Book 6, Chapter 24 to 38:]  
Celsus says there is a diagram consisting of ten [or seven] separate circles circumscribed by one circle which is said to be the world-soul and is called Leviathan. The diagram is divided by a thick black line, which is called Gehenna, or Tartarus in Greek. The "seal" is that of the one who imposes it.

There are seven angels who delivered the seal; they stand on both sides of the soul to set it free from the body; and there are other angels of light who are called Archontics. The Archon of the so-called Archontics is the accursed god of the Jews who makes rain and thunder.

He is the Demiurge of this world, the God of Moses described in his creation narrative.

The Torah doctrine states that Yahweh divided humans from the right side of the brain where the psychic abilities are, and divided the connection between the female and male chakras, and the crown and root chakra by driving down the serpent. The symbol of this is the seal of Leviathan, which means to divide or cleave in two. The seal is the symbol of psychic impression, which is a curse on the soul. The thick black line called Gehenna is the place of the grave and suffering in Judaism. It has seven levels, which relate to the seven chakras all bound by the Leviathan.

The ancients stated that the soul being bound in a state of entropy is suffering (or Gehenna) in which the spiritual light could not flow through it to bring the spiritual rebirth and the risen serpent. This leaves a person to suffer the negative effects of Saturn which are old age, suffering and death. The Gnostic diagrams show that the Jews have bound the soul with Leviathan by using their Torah magic. In Gehenna people are tortured by Jewish angels in the most hideous ways. The angels are the bindings from the curses of the Torah, which the Jews perform on the human soul. The Leviathan is shown in Kabbalah binding the world tree which is the map of the soul, and all the worlds which are the chakras on the tree with Hebrew curses.

The other meaning of calling Leviathan "the world spirit" is that the planet has an astral grid around it, which is the ethereal aspect of its power. The Jewish Rabbis in their own writings call Leviathan a spell which they have generated in the astral grid around the planet that they are working to bring down as they call it into the world and materialize the Torah. They have a special set of rituals they call "the Feast of Leviathan", which is a Kabbalistic event to help manifest this as well which they relate to the Vav letter as it connects the astral to the material and brings down the energies to manifest in the material world in Kabala:

"The soul of Israel is central on the map of creation and the Jews are in fact behind a divine plan to take over not only this world, but the entire universe. It is a conspiracy of the messianic Light of Kabbalah. This phenomenon is a universal Overmind that has been animating and networking all communication, all civilization and all history."[1]

The Jews are celebrating in their own writings to each other that they have bound the entire planet and divided it [Leviathan] from other communications with other worlds and beings, and any higher communication. And also that they are using the matrix of energy they have created to influence the entire planet into their "world to come" with black magic.

The Jews do their religious rituals on the day of Saturn, which relates to binding and restraining, to hold one to the law [Torah] and such. There is something more to this: all of the Christian Churches and Synagogues are designed to be connected into the astral vibration of the planet Saturn by their designs and symbols. Even the symbol of Jewish Communism is the sickle of Saturn. Ancient temples were built on key areas of the ley line grid, the astral template of the world, and their diagram was built to connect to and resonate with the astral vibrations of Mercury and the Sun, Jupiter and Venus; the beneficial planets. This would infuse the astral grid of the world with positive astral energies.

The enemy has built their Churches, Mosques and Synagogues over the ancient Pagan Temples to capture the key areas of the ley line grid for themselves. This is also their reason for the obsession with the region of Palestine. There was excellent work done by Norman Bergrun who worked for NASA and his book, "The Ring Makers of Saturn" showed the NASA images of literal artificial technology with ships creating and maintaining the rings around Saturn. One can watch actual footage from NASA satellites of this in action. The ring shape, if one studies basic psychics, is used because it's better for sending out stronger waves further. The enemies are also Extra Terrestrials. The Rabbis mention that the "Angels" of their "god" that appear in rituals to them are reptilians. The Extra Terrestrial level of the enemy has created the rings around Saturn to increase the vibrational astral power of this planet to then broadcast this stronger signal to

Earth astrally, and then connect into the astral grid of the Earth while connecting with the key areas of the ley line grid which their Churches, Mosques and Synagogues are built on. The Jews do their rituals on the day when the energies of Saturn are the strongest (Saturday) to then connect into this power at the strongest time and direct the Leviathan to bind the Earth and curse the Gentiles, and bring about the "world to come." The Jews believe the Leviathan is their Messiah who will consume and destroy the Gentiles and bring in the new world in which the Jews will be the Kings and owners of the planet. If one understands the psychological properties of Saturn, this society is built on it. As the Jews brag, their Leviathan grid has influenced and built a world in their own image of "Gehenna, suffering."

The Gnostics stated that the angels of Yahweh were Archons who were responsible for binding the seven chakras and the soul into the lower realm of entropy of Saturn. These angels are Hebrew formulas that create the needed thought forms and curses to bind the Gentiles. It was stated that the Gnostics used inverse formulas to open the "seven lords." This is related to reverse formulas which reverse the Hebrew curses.

The Jews state that the Leviathan is the 22 Hebrew Letters. Think of this when it comes to the Final RTR.

The Ophities worshiped the Agathodemon which is Dionysus. Agathodemon means the "Good God" or "Good Serpent" and is the title of Dionysus. The Greeks called the Pagan Gods Daemons, but also spelled this Demon. The 'AE' is a higher 'A' sound like "De" or "Da mon." Dionysus was called Ioannes which is the Babylonian Oannes; the name of Enki whom the Chaldeans called Satan. Sat = the King or highest, and An = God. The Gnostics such as the Orphites were Pagans who cursed Jesus and hated the "god" of the Jews. They were working to undo the curses of the enemy.

I've observed that there are **3** main ways of describing the Aton/Demiurge/G-d/YHVH entity:

1. The jewish people as a whole.
2. The biggest astral thoughtform around this cosmic neighborhood, created by jews and supported/maintained by christian/muslim dupes.
3. An extraterrestrial "board of directors" consisting of archons/reptilians/greys. Crowley's illustration supports this claim.

According to this model, the **Holy Trinity** would consist of

**Father:** The reptilians/greys

**Son:** The jews

**Holy Spirit:** The thoughtform

According to the bible, **denying the Holy Spirit** is the only sin that shall guarantee eternal damnation. This makes sense in a way that supporting the thoughtform by prayer is the only way that the gentiles are directly enhancing the (((godly power))).

The jews describe the same of themselves.

Actually their "Holy spirit" is just this very thoughtform matrix they have. There is a passage in the bible that says when someone is ingested enough in the study of this his very 'heart' is literally replaced.
