

# The Truth about the Book of Daniel

*Lone Wolf wrote:*

I was just wondering if the name Daniel is Jewish. I heard that everything Jewish really has a Gentile origin. I heard it is from the Irish "Domhnall" meaning "Attractive". I was wondering if you can tell me about this name because it is the name of someone that is important to me. Thanks!

Ave Satanas!

The Jews stole their Daniel off the Phoenician god of divination and dreams Danel, Dan-el, which means The God Dan. He also is Danu to the Irish. Their Ogham is also Phoenician. In the Torah, Daniel interprets the Babylonian King's dreams, which is divination, and gives him prophecies. This is the role of the Phoenician god Danel. After stealing this concept from the Gentiles, the Jews then used it as a weapon to attack Gentiles. In a tale of Jewish bullshit artistry of Jewish supremacy over the Goyim and their Gods and spiritual Empire, of which Babylon was the Alexandria of the time. In which their god makes the Babylonian Emperor bow down and worship the Jews and enthrone the Jewish race and their god over the Gentiles, which is just Jewish supremacism, racism, and bigotry, at its normal.

The Babylonian Emperor was the High Priest of our Gentile People and Gods, and in the story was made to live seven years as a wild beast in the fields by the Jewish god. The Jews call Gentiles.....wild beasts of the field, animals. Just a tale of Jewish racism which is based on the Jews dehumanizing non-Jews as animals and then claiming we are their cattle (Goyim) property put here by their god to serve them as two legged beasts. In which the Babylon Emperor is made a slave and servant to the Jews along with all the Goyim in his Empire. It's a tale of Jewish conquest and enslavement of the Goyim. It's no wonder the Jews created and ran the entire Trans Atlantic slave trade from start to end.

This is the hateful garbage that brainwashed morons teach Gentile Children in Sunday Skulle - that Jews are their masters and we are their cattle.
