Greeting to all of our Satanic Warriors and Comrades in Satan!

Before the enemy completely goes down, and because the enemy is a conspiracy [which has been revealed beyond repair] it's to be expected the enemy will go full straight forward in the next years where it comes to their agenda. There will be use of force more often from now on.

Progressively, as it has been stated, masks have been dropping worldwide. This is almost as if becoming unstoppable. What has changed between let's say the 80's and today is that now, everything the enemy does, gets far more attention, and billions of people are aware of them. However, there hasn't been any direct reactions yet because people still think they have more to gain by not acting.

This situation will change in the years to come. Many people worldwide will see that sitting back and doing nothing only exponentially increases our problems with the enemy. The enemy will rally people with violence, and with oppression, and with excessive strangulation of freedoms, rights, cause a death of privacy, and many other things. Eventually, people will start cracking under this pressure.

The enemy is not only arrogant, but they are also cornered. With the amount of people worldwide being aware of them and their agenda, the only thing that has kept them together is their spiritual power which is gradually collapsing, and their disinformation capacity, and ability to co-ordinate in a hidden and conspiracy like manner. This has been going off the window with the internet. Lastly, their physical capacities, which they have parasitism from human beings from centuries, or seized them by force. But all the forts of the world are for nothing if the kings in them do not have the loyalty of the people.

And the jews have lost all the care and trust of all people worldwide. That has no going back to it. Only forward.

When this thing happens, the Slaves of Israel, will essentially do what is expected: Become more and more oppressive, more and more aggressive, and more brutal

towards the people of the world. And this is what will cause the great reactions.

To understand the nature of the enemy, the enemy never wages wars in a "Solar" manner, unless absolutely forced to do so. They are all about deception, brainwashing, using other people to do their nasty work, and hiding behind others, using their own enemies to do their own cleaning, and so forth. But they are no different now than a skinny short bully at school, which parades with the dumb goy he has enslaved, and everyone at school knows that the real perpetrator is not the person that does the beating, but the skinny hairless rat behind him.

So what has happened now is that this bullying rat is left with less and less choices, and every move risks further exposure of them? What happens when everyone in the school corners the bully? You can make sure that the bully will be armed and ready, as the time for weaseling and deception is over. But the thing is, the only place where jewish bullies have had power, was in covert, secret warfare based on deception and blinding their opponents. Direct confrontations is where they are exceptionally weak.

Every plot now is thrown into the light in the matter of a few seconds with the internet. An attempt to modulate the internet with excessive disinformation and use of Quantum Computing, will be done in the short-term as an attempt to regulate the internet. But by then it will already be too late. Think of this as the Youtube Purge but on a more "General Internet" scale. Bots are already infesting comment sections, same as living internet military that the enemy owns, and disinformation agencies. The fact is, that people are also now more capable to understand this as it is, and this ability will become more pronounced in the future.

Before that, the enemy has controlled of the public press, information flow, and therefore, every information that circulated the planet. As such there could never be an opening of information about their conspiracy. Things like the internet belong to humanity at large, and this is something the enemy hates. This form of power distribution makes it impossible for them to rule this landscape named Internet.

Those who think that the enemy, which is an International Element, can be dealt by one people, or one race, or one Nation, are in error and harbor strong delusions. There was one time where this MAY have brought SOME results, but now this will bring none. The enemy has had many enemies from many races for thousands of years, but while one of them was against them, another housed them in - they made sure to always be friends with the enemy of their enemy, and this has saved them.

In order to turn Gentiles against one another, the cases were numerous - teasing them with looting, murder and war, or creating circumstances where Nations fought so that the enemy would escape to another, while taking down their first enemy. They had a problem with Germany, they went to hide in and agitate Britain and the United States. As now they are having issues with the United States, they are agitating China, and many of them are leaving in Israel, which is their new den.

This cycle has been ongoing for centuries, and actors constantly change here. The fact remains that due to this behavior, and lack of communication between countries and races of mankind, the enemy was always capable of escape, to fortify again, and to come back harder and harder. Last century the whole world was plummeted into nothingness and we were saved by an inch.

The enemy may be talking about "Globalization", but their version does only imply that Israel and them will be ruling over everyone else and destroy them in a worldwide slave state. This has nothing to do with building any understanding between the people of the world, but is rather a policy focused on brutal race mixing, assimilation of all culture, and the giving in of anything humanity created. The Reptilian Borg only "Globalizes" as to more easily digest and assimilate the planet it requires to ingest into it's poisonous mouth.

Our side on the other hand sees the value of co-operation. The differences people harbor are acceptable and they can remain, but we have to deal with these aliens before it is too late. Assimilation is not required for any of this, it is the enemy. Global awareness however is crucial.

Recently I was reading the work of a yet another Rabbi, originally published to his

inner circle in 2013 and "Cohencidentally" made it to the public like a few months earlier.

Being that he is in his 70's, and doing too much "hold your breath until you almost die" strange Kabbalah practices to loot goyim and to curse goyim, he has been going mentally insane. However, he has went open with how his race is reptilian [We know this already, many others have admitted it] and added a lot of lies into the mix, to deceive readers. Reading a lot of this is just as if surveying a sewer, and the reasons here are because these are ugly things.

According to this Rabbi, Jews are "Reptilian Souls" that "Fell" on this vibrational field that we call earth. He added how it's "time" to actually go open with this and stop hiding it. In it was included on how past human civilizations have been destroyed or attempted to be destroyed through the use of the living agent that is defined on this planet as "Jews".

As with any inferior and parasitic race such as themselves, their idea of themselves is extremely exaggerated and inflated, and way beyond the highest scales of psychopathy. The case of psychopathy can be observed in videos such as this, where the Reptilian Master Race displays their Greatness:

<https://www.youtube.com/watch?v=ha7smLPz2GY>

Going back to the Holier Than Thou Reptilian Rabbi [this above may actually be his cousin or something, since they are all interbred also], he also highlighted how the reptilians [using a verse from the bible] are destructive according to human standard, ie, that they will brutally annihilate, poison, and destroy humanity as they see fit, just because they can, and because we aren't follow THEIR version of how "we should be". For example in their mind it's a sin that humanity doesn't want to become assimilated, go figure. The enemy follows no consensus of justice in anyway, shape or form. They just either assimilate or destroy. This in plain slang is called war.

In the same text, the Rabbi was complaining that the "Natural Souls of Nahash" [The Serpent, Satan] are reacting to this and opposing this by spiritual means, and included also, that it is \*US\* who are the actual inheritors of the Ea-rth, and not

them. Which is something well known. They just came here to displace us and essentially steal our planet, that is all.

Consider the Jews nothing else but a parasite or a virus, engineered specifically to just keep earth back, and to grow so strong within the midst of the people of the earth, that their removal would be impossible [which it definitely IS POSSIBLE] and come at major ramifications. The DNA of the parasite is supposed to become the DNA of the host, and take over all cells until the body of humanity is a corpse. Naturally, the cells that are in the defense, will wake up from slumber and react.

Naturally, the body every so often has tremors, raises fevers, and occasional outbursts against the invader of it's structure. Jews call this "Anti-Semitism", but they know it's all a trick that they use. The Rabbi there explained that the case for this is because the "Eartheners" are "Resisting" the reptilian agenda. Imagine that people still lack understanding and they are highly blinded, but this comes straight from our unconscious. The Rabbi went further to explain on how this is the case because "Gentiles" are "Natural Souls", while the Jews come from a reptilian dimension that holds the label of "JHVH".

The human body is having tremors trying to move out of itself this very nasty virus. The virus knows, but as viruses cloak themselves with a cell membrane to fool the immune system, so have the jews pretended they were "Like us but only a little different" for all this time. This cell membrane has only given in now, and they know that soon, the white cells of the human body will be after them.

As we don't cite this garbage, this garbage doesn't cite us, but they are aware, everyone knows: This is War. This is also why there has been increased psychic noise as of late, but that is all for naught so long the RTR's are continued. Also, the enemy has many traitors and others who are scared, who essentially see what is coming and have been asking for "Repentance" of the jewish people, and to let go of the Gentiles, or fake a truce, or ask for forgiveness and fold out from our affairs. But they are around 3000 years to late for this "Correction" to come from them. Humanity has had enough.

As they know they have been exposed for being aliens, invaders, and the cause of destruction of mankind, and the sole reason humanity has went down the drain,

their last hopes are now these:

1. To pervert the knowledge about them - Which will fail because of the Internet, they are too late for that now. An example here is that they will accept all of that, as they are found guilty, but try to lie about the details, hoping that humanity will not destroy them.

Its time past that humanity can be bullshitted anymore that the jews are going to change, or the jews can hide their reptilian origins and web of influence.

2. To fight a war of annihilation against mankind - This is the route they will be following. This is what will cause their self-fulfilling prophecy of all of humanity turning against them and punishing them to the full level that is deserved.

If you pay attention, the time for games is over. Now it's increasingly becoming either us or the enemy. It takes not much to understand, that the enemy is now doing a full "All In" to try to make a last gamble for mankind. As is the case in the United States, look at the Jew Bernie Sanders and his obvious Communist agenda. They are really going to attempt to put a Communist into office, inside the Nation that took down the USSR. If not in 2020, then this is planned for immediately after. Given that they are really pressed spiritually, they may simply be too late, but this doesn't mean that they will not try.

People have been noticing some strange events that have happened on the earth, out of the blue, in the start of 2020. Due the spiritual warfare going on, the enemy is reacting, and as their rulership goes down, so do such events emerge as a form of energetic disturbance. This also has to do with the energetic fabric of the earth. Think of removing ticks and how this leaves behind a big scab. Worse may be the case, that some of these scabs are infected. However, none of that is threatening to a greater extent than removing the giant ticks themselves. We must stay focused on removing the ticks.

Do not forget to do the Final RTR constantly and unceasingly as we all should. The aim of everyone should be to do this at least twice per day. This will make you immune to their nasty hebrew curses, and also push everything on the place where it needs to be so that this world is absolved.

The Final RTR
